

## ANTI-SALOON MEN FIRE FIRST GUN OF CAMPAIGN

Name No Party But Mention  
Al Smith—Wet Associa-  
tion Also Starts to Make  
Things Hum.

Washington, July 12.—The first  
gun in the anti saloon league's ex-  
pected battle against Gov. Smith  
was sounded today by General Supt.  
F. Scott McBride in a public state-  
ment predicting "a condition worse  
than repeal" would follow election  
of the Democratic nominee in No-  
vember.

"The election, of such a candidate  
as Al Smith," McBride said, "would  
materially aid the liquor criminals  
of the country by wantonly hand-  
capping the enforcement of the law,  
by the appointment of complaisant  
officials, thus bringing about a con-  
dition worse than repeal."  
"Any argument of the Smith  
partisans that their candidate could  
not injure prohibition—as false as  
the usual Tammy camouflage. Any  
statement to the effect that any de-  
voted or active drys have been de-  
ceived by this Smith propaganda is  
unjustified."

"Any men of group of men who  
rely upon appeals to the passions  
and to the appetites or to the ex-  
ploitation of the weaknesses of  
their fellowmen, cannot hope to  
win victory against opponents  
whose appeal is based upon loyalty  
to constitutional government, con-  
tinuance of the untried prosper-  
ity and maintenance of the unequal-  
led health achieved under prohibi-  
tion."

The statement did not name any  
presidential candidate but Smith. It  
named no party.

Answers Raskob  
McBride's statement came only a  
few hours after John J. Raskob,  
newly selected chairman of the  
Democratic national committee,  
had publicly endorsed Smith's atti-  
tude on prohibition.

While the anti-saloon league  
thus charted its course for the cam-  
paign, the organized anti prohibi-  
tion forces were revealed as equally  
ready for the battle.

The anti-prohibition fight is be-  
ing waged on all fronts by "wet"  
organizations. It was disclosed to-  
day in financial reports filed with  
the clerk of the House as required  
by law.

Wet Campaign  
Expenditure of \$150,000 by four  
organizations in the three months  
period ending June 1 is shown in  
the reports just tabulated.

Two specific campaigns are men-  
tioned—the North Dakota referen-  
dum on prohibition and the so-called  
"wet questionnaire mailer cam-  
paign" conducted by a Delaware  
organization.

The association against the prop-  
osition amendment, the chief  
"wet" organization, reported re-  
ceipts of \$118,664.28 during the  
period, including loans of \$32,500.  
Expenditures were shown to be  
\$125,361.83.

The largest contributions listed  
came from William Phelps Eno,  
Washington, \$1,000; Eldridge R.  
Johnson, Camden, N. J., \$5,000;  
Raymond Pitarca, Braintree, Pa.,  
\$1,666.67; B. Dawson Coleman,  
Philadelphia, \$1,000; William M.  
Elkins, Philadelphia, \$5,000. There  
was an anonymous contribution of  
\$5,000.

Other "wet" bodies reporting in-  
cluded: Northern California divi-  
sion of the association, San Fran-  
cisco, showing receipts of \$13,422  
and expenditures of \$11,969; Dela-  
ware, \$1,000.

North Easton, Mass., July 12.—  
Fire did \$250,000 damage today to  
the estate of Mrs. Frederick Lot-  
throp Ames, society woman of Bos-  
ton, the town and Newport, R. I.  
Full blooded stock valued at  
\$300,000 saved by fifty  
farmhands.

## ENTIRELY NEW PARTY IS AIM OF GOV. SMITH

His Naming of Raskob a  
Challenge to Work Who  
Said Democrats Would  
Hurt Big Business.

New York, July 12.—A brand  
new Democratic Party, shorn of the  
last vestige of the old Bryan fringe,  
made its bow to the country today.  
In the driver's seat is Gov. Alfred  
E. Smith, the 1928 nominee, and  
beside him sits as national  
chairman, John J. Raskob, who has  
been not inaptly called "a second  
Judge C. T. Ryan" as a spokesman for  
so-called big business.

It is a wholly new Democratic  
Party at the top—friendly instead  
of hostile to big business, frank-  
ly and avowedly wet at the top, sym-  
pathetic with the plight of agricul-  
ture—and it gives promise of con-  
ducting a bold, well-organized and  
amply-financed campaign for the  
presidency.

A Bold Move  
Gov. Smith's audacious move in  
selecting Raskob to conduct his  
campaign was described by his  
friends today as his acceptance of  
the challenge thrown down by Dr.  
Hubert Work, the Republican na-  
tional chairman, to make the tariff  
and prosperity one of the great is-  
sues of the campaign.

As head of the great General  
Motors Corporation, which shares with  
Standard Oil and the Steel Corpora-  
tion the distinction of being the big-  
gest of big business in America; as  
a close associate of the great Du-  
pont interests; as director in a do-  
zen of great business organizations,  
Raskob is more interested than  
any man in a protective tariff and  
the full dinner pail. Gov. Smith's  
friends pointed out today. Let Ras-  
kob's nomination stand then, they  
said, as the Smith acceptance of  
the Republican challenge.

Some of the southern and west-  
ern Democrats of the old school  
were still a bit groggy at the sur-  
prise of seeing a great busi-  
ness captain of Raskob's type and  
affiliation in the party saddle. Some  
of whom were shaking their heads,  
too, but on the whole they appear-  
ed to be willing to give the new  
order of things a trial.

"They're bold fellows, these New  
Yorkers," one southern senator re-  
marked to the International News  
Service correspondent.

An interesting story was told to-  
day by a Democrat.

## AL SMITH IS BUSY MAPPING OUT PLAN

Confers With His Board of  
Strategy Just Where to  
Place Headquarters.

New York, July 12.—Having  
placed his close friend, John J. Raskob,  
head of General Motors, at the  
helm of the Democratic Party, Gov.  
Al Smith today turned his thoughts  
toward mapping out his campaign  
plans, fixing the date for his nota-  
fication and a brief vacation.

One of the first major problems  
to be solved by the governor and  
his board of strategy will be the  
establishment of regional head-  
quarters. Indications are that within  
a week Chairman Raskob will an-  
nounce the establishment of Smith  
headquarters at Chicago and Den-  
ver and at some strategic point  
south of the Mason-Dixon line. All  
campaign plans, however, will be  
worked out at Gov. Smith's head-  
quarters in the Biltmore hotel, this  
city, and orders will be sent to the  
various regional bureaus as to how  
all matters are to be handled.

Senator Joe Robinson, vice presi-  
dential candidate, is said to have  
convinced the governor that there  
should be an aggressive head-  
quarters in the south to combat the  
movement already launched by  
some of the Dry Democrats to swing  
away from the Democratic ticket.

August 15 at Albany  
Gov. Smith already has decided  
that his notification will be held  
at Albany and he is expected to  
insist that the date be fixed for  
about August 15, a few days after  
the notification in California of his  
Hoover. The ceremony at Albany  
will be held on the steps of the  
state capitol and Senator Key Pitt-  
man of Nevada, chairman of the  
notification committee will preside.  
Friends of Gov. Smith indicated

## First Photos Direct from Australia.

Here are the first pictures to reach this country of the Southern Cross flyers in Sydney, Australia, after completing their epochal transpacific flight from Oakland, Calif. in three weeks. Lower picture shows the flyers as they were being paraded around Mascot air drome, Sydney, on a motor lorry so the crowds could see them. From left to right are James Warner, radio operator; C. T. P. Uim and Captain Kingsford-Smith, pilots, and Captain Lyon, navigator. Above is a part of the huge crowd that swarmed around the plane immediately after it landed. These pictures were rushed from Australia by fastest steamer.

## QUICK AND EASY DIVORCE IN FRANCE, THING OF PAST

Laws Tightened Up and  
Wealthy Americans Must  
Go Elsewhere Now to Gain  
Freedom.

Paris, July 12.—The days of  
quick and easy divorce for rich  
American men and women in  
France are numbered.

In an exclusive statement to In-  
ternational News Service today, At-  
torney General Donat-Gigues, of  
France, admitted that there had  
been "slight irregularities" in the  
past and that a new special court  
will be created to hear divorce cases  
initiated by foreigners.

In the future, so far as American  
litigants are concerned, divorces  
will be granted only upon the same  
grounds as apply in the American  
states from which the petitioners  
come. Thus, an American from Illi-  
nois, California or New York must  
be able to prove in the French  
courts that there have been legal  
infractions covered by written di-  
vorce laws of those American com-  
monwealths.

His Statement  
Attorney General Donat-Gigues's  
statement in full follows:  
"On account of slight irregularities  
in the past in methods of  
handling all foreign divorces, in the  
future all foreign divorce actions  
will be heard by a special court,  
whose judges will be especially in-  
structed to scrutinize severely all  
demands made by petitioners.

"Not only will French courts in  
the future require at least six  
months bona fide residence here  
previously to filing the petition, but  
there will be a strict investigation.  
No divorce will be granted to for-  
eigners except upon the same  
grounds that apply in their own  
country. In the case of Americans  
these grounds must be the same as  
apply in the state from which the  
litigants come.

"Unless the divorce is based up-  
on adultery, it will be null and void."  
(Continued on Page 3)

## SEND UP POLICEMEN TO WAKE UP JIMMY

For Once New York's Mayor  
Was on Time—Five Cops  
Used.

Los Angeles, July 12.—Mayor  
James Walker of New York City  
was aware today that the local citi-  
zenry can use force, as well as  
subterfuge, to get him to functions  
on time.

Several days ago he was told that  
a luncheon was to be at a certain  
time. Other guests were invited to  
be there an hour later. Mayor Wal-  
ker and the guests arrived at the  
same time.

## WALKING GROUP SAFE, BUT MALMGREN DEAD

TARIFF ISSUE  
TO BE STRESSED  
BY SEC. HOOVER

Russian Ice Breaker  
Rescues Two Italians

One of them in serious condition with both legs fro-  
zen—Kept Swedish Scientist's Body a Month So He  
Could Have Christian Burial—Flyer Who Located  
Walking Party, is Himself Down But Says He Killed  
Polar Bear and Has Food Enough for Several Weeks;  
Steamer Within 14 Miles of Group Left by Nobile on  
Ice Floes.

Washington, July 12.—The Re-  
publican Party, in its efforts to  
place Herbert Hoover in the White  
House, will make Republican pros-  
perity, the tariff and the business  
record of Republican administra-  
tions the outstanding issues of the  
coming campaign, it was learned to-  
day at Hoover headquarters.

The farm relief and prohibition  
issues will be handled locally in  
states where each commands wide-  
spread popular attention while  
Hoover himself will announce his  
personal views on both subjects in  
his speech of acceptance at Stan-  
ford University, Calif., on August  
11. Neither issue, however, will be  
carried to the people as a party doc-  
trine unless developments necessitate  
a change in the present cam-  
paign policy.

The action of Gov. Alfred E.  
Smith, the Democratic nominee, in  
naming John J. Raskob, chairman  
of the finance committee of General  
Motors as the new Democratic na-  
tional chairman, only solidified senti-  
ment in the Hoover camp for a  
campaign on business issues. The  
Hoover leaders looked upon Ras-  
kob's election as a shrewd solici-  
tation of business support for the  
Democratic nominee, which will re-  
quire heroic Republican efforts to  
circumvent.

Party's Big Asset  
The greatest asset to the Repub-  
lican Party in such a campaign, it  
was believed at Republican head-  
quarters, would be Hoover's per-  
sonal record as a business man, en-  
gineer, administrator and executive.  
The Republican nominee's handling  
of business affairs in the Depart-  
ment of Commerce, his tremendous  
success in promoting foreign trade

## ARREST MEN, GIRL, IN DOUBLE MURDER

Hostess—Held as Materi-  
al Witness.

HE MADE FLYING SAFE,  
IS KILLED BY AIRPLANE

Others Dead and Injured and  
Homes Wrecked in New  
Hampshire Storm.

Prohibition-Farm-Labor  
Traveling Separate Roads

Chicago, July 12.—The Prohibi-  
tion party and the Farmer-Labor  
movement were well along diver-  
gent roads today following the ac-  
tion of the Farmer-Laborites last  
night in nominating Senator George  
W. Norris of Nebraska as their can-  
didate for president of the United  
States.

Will Varen of Moultrie, Ga., was  
nominated for vice-president of the  
Farmer-Labor ticket.  
Shortly after the ticket was an-  
nounced, Prohibition party leaders  
gave out statements to the effect  
that they would not concur in the

nate its own candidates, and all  
plans for a consolidation of the two

## RESCUED MEN WITHOUT FOOD FOR THIRTEEN DAYS

Moscow, July 12.—The two  
survivors of the Malmgren party of  
the Russian ice breaker Krassin at  
sea today. (Greenwich  
Mean Time), the captain of the  
steamship reported by radio.  
Captain A. Mariano and Captain  
Filippo Zappi, the survivors,  
said that Prof. Finn Malmgren  
died as a result of the terrible  
cold and exertion a month ago  
while their floating foe was off  
Brook Island. Mariano and Zappi  
had been without food thir-  
teen days when they were sav-  
ed. They were in extremely  
weakened condition from ex-  
posure and starvation.

Moscow, July 12.—The two  
survivors of the Malmgren party of  
the Russian ice breaker Krassin, who  
have been lost amid the northern ice  
floe since May 25, have been rescued  
by the Russian ice breaker Krassin,  
the ship reported by radio today.

Prof. Finn Malmgren, leader of  
the group of three men, was dead  
from illness and exposure.  
Later wireless advices to the  
Russian Noble relief committee  
gave details of the dramatic rescue.  
Men Collapse  
When Prof. Malmgren's compan-  
ions, Captain A. Mariano and Cap-  
tain Filippo Zappi, were carried  
aboard the Krassin they fell upon  
their knees before Captain Samoy-  
lovich, master of the ship, sobbing  
with joy and calling upon heaven to  
shower its blessings upon the brave  
seamen.

Mariano's legs are frozen. He is  
in serious condition as it is feared  
that gangrene may set in.  
Zappi, dead a Month  
Zappi said that Prof. Malmgren  
had died a month ago, but that his  
body had been kept in hope that  
they would be rescued and it could  
be given a Christian burial. It was  
frozen stiff when taken aboard the  
Krassin.

Prof. Malmgren told his  
story of the rescue in a lucid mat-  
ter-of-fact manner but it was evi-  
dent that he had been deeply moved  
by the sufferings of the rescued  
men. He said word he was proceed-  
ing as rapidly as possible to rescue  
the remaining members of the  
"Noble" party marooned on an ice  
floe somewhere off North East Land  
or Foyne Island. This is the group  
of which Noble himself was former-  
ly a member.

Changes Course  
When Captain Samoylovich re-  
ceived the news he gave orders for  
full steam ahead, but had to change  
his course owing to the towering  
icebergs which were drifting in the  
path of the ship. The powerful  
steel prow of the ship, constructed  
to plow its way through ice fields  
from six to eight feet deep, plunged  
through the flocks smashing its way  
forward on its mission of mercy.  
The captain had the location of  
the floe in longitude and latitude  
which the airman had carefully  
worked out.

Professor Safe  
Prague, Czechoslovakia, July 12  
—Prof. F. Dehounek, a member of  
the Noble party in the Arctic, has  
reported by radio that he is alive and  
well, said a dispatch from King's Bay to-  
day. A sister of Dehounek, who  
went to King's Bay, sent the follow-  
ing message to her brother's fiancée:  
"Dehounek in good health, sends  
a thousand kisses. Be of good  
cheer."

FLYER IS SAFE  
Moscow, July 12.—Learning to-  
day by radio that Alberto Mariano  
and Filippo Zappi had been rescued  
from their icy refuge and were safe  
aboard the ice breaker Krassin, the  
Russian aviator Chuchnovsky, who  
was forced to land on the coast of  
North East Land after sighting the  
Malmgren party yesterday, sent a  
wireless message to the Krassin this  
evening stating that there was no  
need to worry about his companions  
and himself.

"We have just shot a big Polar  
bear," said Chuchnovsky's message,  
"and we have sufficient provisions  
and fresh meat to last for three  
weeks."

Chuchnovsky declared that the  
group of Italian survivors headed by  
Viglieri are "probably starving,"  
and that every day that their rescue  
is further delayed means that their  
suffering is increasing.

14 Miles Away  
In the meantime, the Krassin is  
pushing forward through the ice  
floe toward the Viglieri group, ad-  
vising the Soviet relief head-  
quarters, in a message tonight, that  
the distance now separating the ship  
from the refugees was estimated at  
14 miles, and it was hoped to cover  
this within ten hours.

A radio message from the Rus-  
sian steamer Malign, which is also  
trying to rescue members of the  
Italian crew, stated that the skins  
on one of the airplanes which it has  
aboard has been damaged, but as  
soon as these are repaired, an effort  
will be made by the aviator  
Babushkin to rescue Chuchnovsky  
and his companions.

### 2,500 AT WEST SIDE ROCKVILLE NIGHT

#### Manchester Wins Inter-Town Sports; Boys Band Earns Hour Long Encore.

Over 2,500 persons were at the West side Rec grounds last night for the annual Rockville night. Automobiles lined all four sides of the grounds but although 208 cars were counted parked along Pleasant, Cooper, Cedar and Cooper Hill streets at one time there was no great congestion.

The baseball game between Sam Massey's team and the Rockville nine captained by Pelton was the main attraction in the early part of the evening, holding the attention of the larger crowd, while the tennis matches also drew a good gallery. Manchester won the ball game, 3 to 2.

**Locals Win at Tennis**  
In the tennis matches the women's doubles were taken by Manchester, Miss Giblin and Miss Behrend winning over Miss Merric and Miss Hale of Rockville 6-4 and 8-6. While the women were winning their games McDonald and Bissell, who were representing Manchester in the men's doubles, went down before Rev. M. Osborne and Rev. J. Baumann of Rockville 6-0 and 6-3.

In the men's singles Bissell of Manchester disposed of Luther Durant 6-3 and 8-4. This gave Manchester the edge on the tennis playing and in the horseshoe pitching Manchester again won, taking eight games to Rockville's four.

**Extra Parade**  
The Boys Band of Rockville arrived at the grounds by truck, but the program called for their marching through Forest street, so after they were on the lot it was necessary for them to again enter the truck and return to Main street and parade down.

This brought the band to the grounds just before the baseball game ended and they started their concert at 8 o'clock. The band music was supposed to be over at 9 o'clock and an orchestra was ready in the hall of the recreation building, but the crowd outside wanted more music from the band and returned to the stand and another concert was given for an hour.

**Many Hot Dogs Eaten**  
While the games were going on and the band concert in progress the "hot dog" stand and the soda and soft drink vendors were doing a big business. Thomas Weir and a corps of assistants being busy at the stand under the big oak tree to the west of the building. The crowd was orderly in every way and the only casualty was when a foul ball hit a little girl on the shoulder during the ball game, but without serious result.

In the volley ball contest that was played between the West Side team and the East Side team the West Side won all four games, 15-4; 15-3; 15-6; 15-11.

### TWO BIG FEATURES AT THE STATE TODAY

#### "Vanishing Pioneer" and "Magnificent Flirt" Here for Two Days—Clara Bow's Latest Sunday.

Two big features are to be presented at the State Theatre for tonight and tomorrow. They are "The Vanishing Pioneer," a Zane Grey western epic starring Jack Holt, and Florence Vidor in "The Magnificent Flirt."

Fifty covered wagons of the type which blazed a trail to a new empire in the days of '49 form a picturesque train in "The Vanishing Pioneer." The wagon train was aimed crossing a wind whipped stretch of desert near Hurricane, Utah. All the wagoners in the train were recruited from among the settlers in this last pioneer outpost. They are not relics or motion picture "props" but actually are the most prized possessions of their owners.

"The Vanishing Pioneer," is a drama filled to the final reel with sizzling thrills and daring moments of action and intrigue. Jack Holt as the handsome young rancher who leads his neighboring associates against a gang of swindlers who are plotting to steal the water supply in the valley, has one of the greatest and most impressive characterizations of his screen career.

Others in the cast are Sally Blane, William Powell and Fred Kohler. All contribute excellent performances.

The companion-feature, "The Magnificent Flirt," is a peppy, romantic comedy-drama of life amongst the wealthy Parisians. Brilliantly-lighted French cafes and night clubs formed a sparkling background to the story, which tells of a beautiful society woman who found that her numerous flirtations were held against her when she sought the man of her choice.

Florence Vidor as the gorgeously-krowned Madame Laverne, principal character of the story, portrays a role that is most convincing, as far as general tone and appeal is concerned. Miss Vidor has given many fine performances to the screen history book and this picture can certainly be jotted down among her best.

A superlative cast lends rare talent to the star, including Loretta Young, Albert Conti and Marietta Miller.

On Sunday and Monday the management of the State is presenting Clara Bow, the famous "It" girl of the films, in "Ladies of the Mob," her latest starring effort. In this picture the vivacious Clara has her first real dramatic role.

### We're in Favor of a Little "Arctic Relief" Right Here at Home

New York, July 12.—When a few nights ago, a raiding crew broke in on some 20 resorts of Manhattan's night-world, the raid leader's first action was to "teup" all telephone lines and to halt for a time communication with the outside world.

And thus did he emphasize the old, old struggle between the "mopups" and the "undergrounds." The "mopups" are visiting raiders—strangers imported for such occasions to cover-up the preliminary work of sleuths who have clinched the evidence. So that these individuals may not be suspected, they play no part in the raid. They occupy cafe seats, even as the other customers and pretend to get the same shocks and thrills as the "regulars." The one difference, of course, is that they have the evidence in their hip pockets.

The "underground" system in a city such as Manhattan is much the same as it is in a prison. Any man who has done his time in a penitentiary will tell you that news travels from cell to cell, without a word being uttered and, oft times, without a sound being detected. They say the men develop almost psychic powers about such matters; that word is passed by a tapping on the steel walls or the iron bars.

No radio is needed to broadcast the presence of a "mopup" gang through the highways of the racketeers. Let one man reach a phone and long before patrols can pull up the word has flashed from Harlem to Greenwich Village. The "look-out" system goes into effect and the evidence is missing.

I happened to be sipping my

particular lime-juice beverage in a place not far from Seventh Avenue on the particular night the "mopups" were operating. The warning was quietly sounded by a Paul Revere of the taxi business. Thereafter every stranger who appeared seeking admission was turned away, while a neighborhood ice-man, truck driver and plumber assisted in removing the evidence via the fire-escape. The fiddler and the piano player disappeared down the escape into the night. The lights went low and, within five minutes, the place had the appearance of a small-town ice cream social.

About a year ago, a big gambling game was under way in the Broadway belt. A group of spenders were tossing dice for sums that mounted into the tens of thousands. It was all very secretive and private. Yet, within half an hour, the entire "who's who" of the gambling world had the tip. It went from cafe to cafe table.

A certain notorious "gang-bambler" was in the game. The "racket" heard that he was heavy winner hours before the doors of the room were opened. Don't ask me how I don't pretend to know. I know merely that the gang-boy never got home that night. They found him face down in the gutter when the dawn came and his pockets were inside out. The parasite law of the "underground" was practicing its code of "dog-eat-dog."

Broadway notes—Gene Buck, the theatrical producer, tries out all his new shows in Detroit. For this was his hometown and Michigan gets a first view of his efforts. He never forgets the old home town. . . . And, they tell me, the slim, red-haired girl who appeared in the Rocky ballet, this week is none other than Agnes de Mille, daughter of William and piece of Cecil. . . . She could have had a neat movie position, but insists on carving her own career. . . . Just as the proud young million-

aire's sons were once wont to do. . .

And so to call on Gary Cooper, who's quite the what's what of the movie fans just now. . . . And I rememb when he was out in Montana driving a tourist bus around Yellowstone Park. . . . And very Montana he has remained, thank heaven, in spite of the fame and popularity he has achieved. . . . I found him still in his purple pajamas at the Algonquin, after a very, very hectic effort to see all of New York in one night.

The "tablecloth profits" of the Astor luncheons are, by this time, national legends. For hours the theatrical kings and pawns will sit down to chart the amount of money about to be made by this-and-that. It has been said that if the tablecloth profits for a year were added up they would clear the national lot of France.

GILBERT SWAN.

### TO STUDY LOCALES OF ROAD ACCIDENTS

#### Highway Dept. Engineers Scanning Sites of Crashes to Help Prevention.

All points on the Connecticut highway system, outside of large cities, where two or more automobile accidents occurred during 1927, are being studied by engineers of the state highway department to determine whether road conditions were responsible in any way for the mishaps. A report, with recommendations for the improvement or change necessary to bring better road and driving conditions at the locations found unsatisfactory, will result.

The work is an addition to the regular repair and road inspection service of the Highway Department and, under present plans, will be one of the most exhaustive safety engineering studies thus far made of Connecticut highways. Not only will places where accidents have been recurrent be included in the survey, but sites or unusual or odd accidents and points where conditions exist of any type of driving hazard will be studied with the

view toward improvement. The Motor Vehicle Department is co-operating in the work by supplying records of the accidents, giving locations and histories of the circumstances surrounding each, so far as known. With these records at hand, highway engineers study each location to determine what part road conditions played in the crashes. The approaches to the accident points are first studied. The actual scene of the mishap is examined. View obstructions are checked, both as to approach and at the place of the accident. Temporary or permanent physical obstructions, if any, are taken into consideration. A written record, with every circumstance and factor entering into the accident, is then made, so that improvement can be put into effect by the department. Comparatively few accidents in recent years on the main state

highways have been caused directly by poor road surfaces or conditions, according to the motor vehicle department records. The present contributing factors to the direct study, however, should determine, among other things, how much of a part is played by road conditions of any and all sorts. Primary or contributing factors to the direct study, however, should determine causes of highway accidents.

Price Speaks Once . . . But Quality Keeps On Talking Forever

Garber Brothers' fine quality Furniture combined with lowest possible prices . . . assures you of the greatest value obtainable.

AFTER all Quality is the paramount thing . . . especially in furniture. Price speaks once . . . but quality keeps on talking forever.

Cheap furniture is the most expensive furniture. This is not a plea to buy high priced furniture . . . but a plea to insist on more exacting requirements as to quality. Although price is an important factor . . . never judge the value of furniture by its price only.

Garber Brothers' furniture measures up to a standard of quality— not down to a certain price.

Our Low overhead expense, due to our location combined with the savings brought about by our own living room manufacturing facilities and the economical policy under which the business in general is operated . . . brings Garber Brothers' prices down to the lowest level . . . so that you are able to buy furniture at Garber Brothers of inbuilt quality and comfort, and guaranteed to give lasting satisfaction—at no higher price than is usually charged for furniture of no particular quality.

**HIGHWAYS IN U. S.**

There are 3,001,825 miles of road in this country. Of all this mileage, only 666,000 miles have been improved to some degree.

**BIG ENERGY LOSSES**

At 20 miles an hour, only 8 per cent of the chemical energy of the motor fuel is utilized in driving the vehicle, says T. A. Boyd, of the General Motors Research Laboratory. Most of the rest is lost in heat dissipated through cooling water or the exhaust.

**POOR ROADS COSTLY**

Motorists pay as much as 22.3 on every gallon of gasoline consumed on a poor highway, according to experiments conducted at the state colleges of Washington, Iowa and North Carolina. The high costs in the low mileage per gallon.

**WOMEN BUY CARS**

It's the wife who decides on the car you buy, 90 per cent of the time, says Alfred Reeves, general manager of the National Automobile Chamber of Commerce. So we may soon expect cars marked down from \$1,595 to \$1,594.98, for the woman regards these savings seriously, he adds.

**LESS INNERS SOLD**

Baloon tires have made it a poor business for inner tubes. The Department of Commerce reports that while the sale of casings has steadily increased, that of inner tubes has remained practically stationary, during the last three years.

**PAWNSHOP GARAGES**

The Paris municipal authorities have proposed the erection of a number of pawnshop garages in the capital to take care of the increased number of automobiles that are being pawned there.

A small town newspaper is one in which the editor casually makes the occasional remark that "considerable humidity has been mingled in the local atmosphere the last few days."

**BID TOURISTS HELP PREVENT FOREST FIRES**

In former years, when a forest fire was discovered, tourists in the district were drafted into the service of helping to fight the blaze. But it was discovered that these tourists were more a hindrance than a help, so the idea of drafting them has been dropped.

Instead, tourists are asked to help prevent forest fires by following simple rules. These are:

"Be sure your match is out; break it in two before throwing it away.

"Be sure pipe ashes and cigar or cigarette stubs are dead before you throw them away and never throw them into brush, leaves or needles.

"Before building a fire scrape away all inflammable material from a spot five feet in diameter, dig a hole in the center and in that lay your blaze. Keep the fire small and never build it against trees or logs, or near brush.

"Never break camp until your fire is absolutely out.

"Never burn slash or brush in windy weather or while there is the slightest danger that the fire may get away.

"When leaving camp stir the coals of your fire, while soaking them with water, and turn small sticks so as to drench both sides. Wet the ground around the fire. If you can't get water, stir in earth and tread it down until packed tightly over, and around the fire, being sure that the last spark is dead."

COLOR RELATED TO SPEED OF CAR

New York, July 12.—Color has come into the automotive scene as having an important relation to speed.

In looks alone, color gives a car the appearance of speed, says H. Ledyard Towle, color advisor.

But, he adds, automobiles should be finished for high visibility because of the higher speed we drive cars now.

"Many a fender has been bent, if nothing worse, because the driver just did not see the other fellow," he says.

**TRIP TO OLD NEWGATE IS A REAL EDUCATION**

There isn't a nicer auto trip for Sunday than that to old Newgate Prison in Granby. The roads are good and carefully posted. There is an inn in connection where you can get a full course dinner or a sandwich just as you choose.

Then the trip through the prison and copper mines is interesting and instructive. The guide will tell you many tales of intrigue and bloodshed that have come down since Colonial times.

If you are interested in the history of Connecticut you should not miss paying Newgate a visit.

**AS GOOD AS NEW**

The Boston Post road, America's first through highway, is 225 years old. In contrast to the ancient post rider's path, it is now a smooth, rigid highway.

## "WONDER CAR" LACKS CLUTCH, GEARS, SPRINGS

London, July 12.—England is excited over a new wrinkle in automobiles—a car without gears, without clutch, without springs, that's cooled by steam and that is guaranteed against road shocks and skidding.

It has been called the "wonder car." Colonel W. Bishop, builder and owner of the unique automobile, is showing it around, while large crowds gather wherever it stops.

"All you do," says Colonel Bishop, "is to start the car, accelerate and the car moves off. There is no clutch to operate.

"The speed is regulated entirely by the pressure on the accelerator. Take your foot off and the car free-wheels."

Free-wheeling is comparatively new in this country and the continent, and is practically unknown elsewhere. This is a system of transmission by which a novel can drive without fear of clashing gears. The speed changes are automatic, in accordance with the speed of the engine, and when the engine is slowed down to idling the motor is disengaged and the car is said to "free-wheel."

"The only ordinary thing about this car," adds the colonel, "is that it stops with the aid of brakes.

"The steam cooling system is one which automotive engineers have been considering for adoption for quite some time. It is said to maintain a consistent, efficient temperature, no matter what the weather may be outside.

Another feature of this unique automobile is an automatic locking device on the wheels, which keeps them from sliding backward down a hill. A mysterious differential in the rear is said to do away with skidding.

The wheels are suspended independently, springs are replaced by rubber buffers and the steering is independent to each of the front wheels. The last feature, it is said, eliminates wheel wobble.

"This car is the result of seven years of experimentation," says Colonel Bishop. "The various devices can be fitted to almost any car. These will be licensed separately to manufacturers for their use as they see fit.

"It is not intended to market cars like this one."

## NEW ROAD ASSOCIATION

At a meeting at Pawnee, Okla., 76 representatives of 21 towns and cities along U. S. Highway 64 formed the U. S. 64 Highway Association.

**TIME SYSTEM POPULAR**

Last year 60 per cent of the 553,000 cars sold in Europe were sold on time. This approaches that of the United States, where 64 per cent were sold by installments.

**THINKS WOMEN WILL END WAR, says a headline.** When they do, then it will be time for the men to consider it, too.

## How's She Hitting? Hint: On Car Care

By ISRAEL KLEIN

We have eliminated most engine and chassis noises with improvement of our cars, but have still to find perfection in the valve mechanism. Yet this is one of the most important factors in the proper functioning of a motor.

The seriousness of valve imperfections and their causes were recently taken up at a meeting of the Society of Automotive Engineers, by Jack Frost, one of its members and a noted automotive engineer.

"Valve trouble in most cars," says Frost, "means lack of power, the engine will not idle, the car will not climb a hill as it used to.

"Perfect valve action is complete, quiet closing at any speed."

come permanently set or seasoned. "Thus, every hour's operation of the engine adds to the value of the material in these parts, but makes it necessary to service or recondition the valve seats as soon as possible after the engine shows such reconditioning to be needed.

"The guide, a small cast-iron rod extending into the valve port where the heat from the burning gas has greater opportunity to warp it, soon loses its perfect alignment with the seat and changes the direction of travel of the valve.

"The spring has the power to close the valve regardless of this untrue condition, but does so through the valve striking a small portion of the seat first and then gaining the full seat through the pendulum-like swing of the stem. This produces a metallic click that tapers removal through cutting the defile clearance.

"Sticking valves are produced through the same misalignment. Fifty thousand to 100,000 times a day the valve is opened and closed in the normal running of an automobile. Under the best conditions, this side-slip of the stem will produce carbon to such an extent that it will seal the valve stem in its guide regardless of the amount of clearance.

"With the advent of high-speed engines, warped and burned valves began to be noticed. When a valve does not close completely the compressed burning gas, which reaches under ordinary operating conditions, a temperature of 1500 to 2,000 degrees Fahrenheit, is forced

with great velocity through the small opening left and burns the valve face or warps the stem.

"It is impossible, when a valve guide warps and loses its original alignment with the block and the valve seat, to bring it back, yet it is ridiculous to replace it. The first 10,000 to 15,000 miles of operation of any engine makes the set of cylinders worth a dozen new ones, so far as warpage is concerned. On most of them warpage of 5 to 15 thousandths of an inch occurs in 15,000 miles of running.

"After reconditioning the cylinders and running the engine for the same distance again, the warpage will be very little. The little valve guide, then, is imperfect until it has warped and settled. We must then cut the valve seat true to the angle that the guide has taken."

The Paris municipal authorities have proposed the erection of a number of pawnshop garages in the capital to take care of the increased number of automobiles that are being pawned there.

## HEENEY TO GO OUT IN THE 5TH ROUND

### That's Prediction of Billy Gibson and of Brother Tunney Himself.

By DAVIS J. WALSH

Speculator, N. Y., July 12.—Tom Heenev won't answer the bell for the fifth round in his fight with Billy Gibson. Perhaps I should have finished that on an interrogation, for the opinion expressed is not mine, at least not yet, and is only alleged to be that of our champion and his associates of the better and finer sort, Gene Tunney himself. The prediction was sponsored by the fount of all knowledge and information, William Gibson, the victim press and elsewhere and confided in him alone the great secret of his punch and it isn't your turn to tell one yet.

## Ball Team Wins Most All Games Not Practicing

### Trolley-men Leading Public Service League and Do Not Practice.

Here is a baseball team that practices every day with its members in at least two counties and scattered throughout at least seven towns and three cities yet it leads a league and has not been beaten this year. Some record and true in every detail.

In the Public Service League in Hartford the employees of the Connecticut Company have a team that is leading the league and never practices except for the allotted time before each game. It is practically impossible for the men to get together for any regular seasons as there are spare and regular men on the roster. With a record of seven straight wins in the league circuit the team has stepped out three times this year and defeated other aggregations and all without the necessary practice, skull or otherwise.

Manager Gifford, who handles the destinies of the team, has worked wonders with his limited time in the matter of practice. He works his two twirlers, Jack Moran and Campbell every other game and generally uses both in every game on account of their prowess with the willow. He has a good backstop in Adler, a coal miner a few years ago, who can throw to second with the best and a smooth working infield that functions properly without practice.

Unless something unforeseen happens it looks as though the Trolley-men will win the pennant this season, although the New York, New Haven and Hartford aggregation is right up in second place and ready for the first faltering of the electric car men.

## JOHN L. LEFT \$68.41 IN BRIDGEPORT BANK

Bridgeport, July 11.—Heirs of John L. Sullivan, former heavyweight champion of the world, overtook a portion of his estate according to a notice given out by the Bridgeport People's Savings Bank. Sullivan has credited to him in this institution an account amounting to \$68.41.

The roof is pictured here, two triangular pieces and two rectangular boards. Nail tiny strips across each stair.

FLAPPER FANNY SAYS:

Youth is slowing down. Nowdays it takes a girl 30 years to reach 20.

There are cups in letter golf and there are cups in PINK TEAS. Can you hole out today in four? That's par and one solution is on another page.

Letter golf grid with words PINK and TEAS.

THE RULES

- 1-The idea of letter golf is to change one word to another and do it in par, a given number of strokes. Thus to change COW to HEN, in three strokes, COW, HOW, HEW, HEN.
2-You can change only one letter at a time.
3-You must have a complete word, of common usage, for each jump. Slang words and abbreviations don't count.
4-The order of letters cannot be changed.

He-I'm going to buy myself a harem.
It-What do you mean? You can't buy a harem, can you?
He-Sure, I saw a sign at a gas station that said "Eight Gals for a Dollar."

The difference between petting now and fifty years ago is forty miles per hour.

SENSE and NONSENSE

Safety Alphabet.
A is Authority you should respect.
B is the Bumps you shouldn't neglect.
C is Crossings you should always heed.
D is the Danger, attended on speed.
E is the Emphasis placed on discretion.
F is the Fault that is called aberration.
G is for Gas Fumes you must not inhale.
H is for Horn which never should fall.
I is for Instinct the new driver lacks.
J is for Judge who says "Fifty Smacks."
K is the Knock which tells something is bustad.
L is the Lights, see they're always adjusted.
M is for Motor Cops, they are your friends.
N is for Narrow Road, sound horns on bends.
O is for Oil, a supply you should carry.
P is for Puncture, you hate like Old Harry.
R is for Reason, which saves broken bones.
S is for Signals, you always should give.
T is for Traffic Rules, obey them and live.
U is for Uniform Courtesy and care.
V is for Vigilance everywhere.
W is for Winshield which should be kept clean.
X is for the unknown that most of us fear.
Y is for Youngsters, away from them draw.
Z is for Zeal in obeying the law.

The number of automobiles is increasing by leaps and bounds and pedestrians are surviving the same way.

A jaywalker should be seen and not hurried.

"An undertaker was run over by an auto and died."
"He didn't make much on that funeral, did he?"

"Where do the old autos go?"
"They don't."

When a woman driver holds out her hand, you may know she's going to stop-or keep on.

I envy thee, little lightning bug,
You worry not a bit,
For when you see a traffic cop,
You know your tail light's lit.

The final test of personality is to ask a girl to ride in your flivver when she has a chance to ride in a nickel-plated coupe.

If price reductions continue Mr. Ford will eventually receive no more for a joke than we do.

The Wrong Jack.
He needed four new tires, but His chance was not so sweet, Because the only jack he had Was underneath the seat.

WASHINGTON TUBBS II

THE TINYMITES

With both the zebras locked up tight, the hunter said, "Boys, you're all right! You helped me catch these fellows, and you did the job real well. Let's feed them now. 'Twill be some fun. I think you all had better run and gather up some grass while I get water from a well."
The Scout said, "Sure, if we can." And off the merry Tynites ran. Not far away they found some grass that grew away up tall. "Oh, this is dandy," Coppy cried, and grabbed a big bunch to his side. "Let's all take one big armful. I don't think we'll need it all."
When they got back the hunting man said, "See, I've found a nice big can and filled it full of water. Now we'll serve a little lunch. The grass you've gathered is just right. It soon will be far out of sight." The zebras ate and drank a lot. This pleased all of the bunch.
Then everyone heard Clowny shout, "Why can't we let the ze-

ABOUT TOWN

Stewart Hyde, son of Mr. and Mrs. William S. Hyde of Main street, has left for Camp Wachusett, Holderness, N. H., where he will spend the remainder of the summer.

A daughter was born Tuesday afternoon to Mr. and Mrs. Ward E. Duffy of West Hartford, formerly of this town. The child was born at the Miles street hospital, Hartford. Mr. Duffy, who was at one time a member of the Herald staff, is now managing editor of the Hartford Times.

Mrs. Frank D. Cheney of Forest street is at Keene Valley in the Adirondacks and will remain there until the middle of September.

Troop 3, Girl Scouts, is continuing its meetings this summer, thus giving the Scouts opportunity to pass tests. More than 20 of the Scouts attended a recent meeting at the Barnard school kindergarten. Ruth Cheney, Dorothy Wilson and Second Lieutenant Naomi Foster were in charge of the exercises in the absence of Captain Marion Tinker. The test work was followed by games.

The annual summer outing of Rockville Lodge, B. P. O. E., will be held at one of the groves in Vernon on Sunday, July 29. A committee, of which Charles P. Ryan is the Manchester member, is arranging for a dinner. Today the card of sports, Manchester Elks will attend in large numbers.

The Connecticut Nurserymen's Association is holding its annual summer outing at Lake Compounce today. Arrangements for the outing, which is being attended by seventy-five members of the association, were made by Arthur St. John, secretary of the association. A number of nurserymen from Manchester are in attendance.

Walter F. Balch and Mary H. Balch of Hilliard street have bought a six-room house recently erected on Washington street by John Clough. The sale was made through the Arthur A. Knofta agency. Mr. and Mrs. Balch have sold to John Clough a building lot on Washington street, also through the Arthur A. Knofta agency.

LOCAL NOMINATION BLANKS ARE RUSHING THE SEASON

There is still ample time for those who wish to become candidates for town or state offices, such as representative and justice of the peace, to make their applications. To make it possible for those who have such ambitions Town Clerk Samuel Turkington has placed out on his table a supply of proposal blanks. It is rather early for the blanks to appear, but to provide those who want them a sufficient supply they are now at the office and can be had at any time.

HEAT WAVE A BOON TO COTTAGE OWNERS

From No Rentals at All, Summer Resort Demand Has Sent Prices Soaring.

The heat wave that has held Manchester in its grip for several days has been a boon to cottage owners who have been in the habit of renting out their places except during the week or two they used them themselves. Until this heat wave arrived practically every owner had one or more empty cottages on his hands and little prospect of being able to rent for even a fair share of the season.

Not only were the cottages at neighboring lakes affected but even the big shore resorts were laboring along with the prospect of one of the poorest seasons on record.

Then came the heat wave and cottage after cottage was taken up for the remaining months of the season as townspeople flocked to the lakes and shore resorts seeking relief. Cottage owners who had lowered the rental prices of their places, figuring half a loaf to be better than no bread, jacked prices back up and in some cases even raised the ante, yet found they could rent their cottage twice over, so great has been the demand.

Two weeks ago the neighboring lakes were dead quiet at night, with scarce a whisper disturbing the natural solitude of the surroundings. Today the drum of yokes, the tin pan music ground forth from cheap phonographs, with the shouts and laughter of late bathers leave such an impression of life and vitality that one cannot help being struck by the tremendous change a few hot days have wrought. All the beach resorts are in their glory.

STATE'S NEW AUTO BOOK IS THE BEST ONE YET

"Little Manual for Motorists" Is Title of Latest Bulletin on Motor Laws.

Under the title "A Little Manual for Motorists" which is a revision of the motor vehicle laws up to July 1, the department of motor vehicles has now ready and is distributing this book which give more real information to automobile owners than anything that the state has ever provided for the public. There are twenty-two pages in the booklet. On the first page is an index of necessary information in eleven different important sections. The book was compiled by Malcolm D. Rudd, deputy commissioner. Among the sub-headings are Operators' Licenses, Discipline, Vehicle Registration, Equipment and Accessories, Accident Reports, Financial Responsibility Requirements, Miscellaneous Information, Reciprocal Privileges, Hand Signals, Number Plate Symbols and Approved Headlight Devices. This booklet, known as Bulletin No. 55, can be had by applying to the state department.

9TH DISTRICT MEETING TO BE LARGELY ROUTINE

Re-election of Two Retiring Committee Members Is Taken for Granted.

The annual meeting of the Ninth School District will be held in High school hall tonight. In addition to the routine of hearing the reports of the officers, borrowing money and laying a tax, there are two places on the committee to be filled for a term of three years. The terms of Miss Mary Cheney and John H. Hyde expire this year. It is a foregone conclusion that they will be re-elected.

The action taken by the Ninth district a year ago in removing from among the elective officers the position of collector and treasurer, which were made appointive, removes the possibility of a contest that was one of the reasons why many persons attended meetings of the district in the past. There is nothing out of the ordinary in the call for tonight's meeting and no contests are expected.
