AMERICAN STARS

PRIMED FOR BIG

No need worry about the strength-of the American Olympic track and field squad. Sensational performances in all events of the Olympic program during the final trials for the team held at Boston recently furnished enough assurance thatthe Americans will be the outstanding favorites at Amsterdam this summer.

Here are the first photographs of the final trials at Boston.

Frank Wykoff, the sensational sprinter from Glendale, Cal., who ran four qualifying heats in the 110-meter event in Olympic record time of 10 3-5 seconds, is shown winning the finals of this event in the upper left photograph. The sprinters in the photograph, reading left to right, are Scholz, Russell (who finished third), Bracey (wno finished fourth), Wykoff, McAllis-ter (who finished second), and Quinn.

A unique finish of the finals of the 110-meter hurdles is shown below the sprint finish. Ross Nichols of Stanford, who failed to make the team even thought he ran a qualifying heat in world's record time, was leading up to the last

centage of .763 and the same team jump, where he tripped. He is came in with a .704 average the shown here as he pitched to the following season while the Pirates ground. Anderson of Washington chalked up a .724 figure in 1909. won this event.

These rank as the outstanding per-The outstanding performance of formances during the past 25 years. the final trials was the leap of Ed Now comes the great Yankee ma- Hamm o' Georgia Tech, in the chine of 1928. WHAT A DIFFERENCE **REAL COMFORT** · MAKES ·

You'll notice it first when you settle yourself comfortably into the deep-cushioned, form-fitting seat and stretch your legs in its roomy interior.

You'll be still more deeply impressed when you take a drive and discover how its four Lovejoy. hydraulic shock absorbers transform even the roughest roads into smooth-riding boulevards.

And you'll appreciate the complete restfulness-the final touch of fine-car luxury-which results from a rubber-cushioned chassis, a silenced interior and a new, vibrationless 55-horsepower engine. Come drive the car that thousands are buying. Find out what a difference real comfort makes!
