

HOOVER LEAVES WORRY BEHIND ON RAIL TRIP

President-Elect Relaxes After Strenuous Days at Capital—Half His Cabinet Is Picked.

Enroute With President-Elect Hoover to Miami Beach, Fla.—Charleston, S. C., Jan. 22.—Herbert Hoover checked most of his worries as President-Elect today and looked forward with undisguised pleasure to a month of recreation and reflection under the tropical suns of Florida. He will have four weeks at least in which to relax and ruminate upon the multitudinous problems that confront a new chief executive.

Half Chosen.
His cabinet is about half chosen, his policies about half formulated. He has brought south with him a ton of data and memoranda compiled in the last few weeks, and during the next month he will examine it and assay it leisurely and at will. He plans to fish, but the fish are not going to command his entire attention. The presence of three stenographers aboard the train attest to that.

Mr. Hoover has felt a lot of quiet satisfaction in his first 24 hours out of Washington. Most of his journey has been through politically friendly territory, Republican territory—a most unusual and unprecedented experience for a Republican. Virginia, North Carolina and today Florida all turned out crowds at the various stations to greet the train as it sped through. An impressive welcome has been arranged for the Hoover party at Miami, which will be reached this afternoon.

The route of the Hoover special today lay through a tropical setting. Crossing into Florida early this morning, the train sped down the east coast through the beautiful Indian river citrus belt with the blue Atlantic on one side and the waving orange groves on the other. An impressive welcome has been arranged for the Hoover party at Miami, which will be reached this afternoon.

Mr. Hoover's plans for his stay in Florida are still to a large extent undetermined. He will do a lot of fishing. That much is certain. He will also see and confer with numerous people, among them, in all probability, Dwight W. Morrow, ambassador to Mexico, who is vacationing in Nassau. Morrow has been mentioned for the secretaryship of state, but it is considered unlikely that he will be appointed. Not because he is not qualified for the post, but because he can render greater service to the new administration in his present job.

ENGLISH CAMPAIGN IS LIKE OUR OWN

Radio, Whirlwind Tours, Women Candidates and All of the Rest of It.

London, Jan. 22.—The political campaign which is now getting into full swing preparatory to the general election in June will have many of the features of a presidential campaign in the United States. However, there probably will be more women candidates in the field for the 615 House of Commons seats than there were women candidates for the United States Congress.

Nearly 100 women will seek election to Parliament. The radio will be utilized to the utmost for the broadcast of campaign speeches. There will be "whirlwind tours" of stumpy speakers, advertising campaigns in newspapers, tons of pamphlets, mass meetings and processions—all with a background of continuous oratory.

Interesting Contests
There will be many interesting contests. Sir Henry Cantley, well known lawyer, will have two women opposing him in East Grinstead—one a Laborite, the other a Liberal.

Secretary of the Dominions Avery will have a young Laborite—a former furniture maker—against him in Birmingham.

Ramsay MacDonald, the Laborite leader, will have a Communist opposing him in Seaham Harbor division.

In several divisions there will be straight fights between women only.

25 MILE TRIP FOR OXYGEN

Darien Policeman Speeds to Milford to Get It to Aid Local Resident.

Milford, Conn., Jan. 22.—A Darien policeman sped here last night and rushed back with three tanks of oxygen needed in the treatment of a resident of that town who has pneumonia. Previously Darien police had called all towns along the shore from Stamford to Bridgeport without finding any oxygen supplies. When the supply here was located, the Darien officer started from his station, twenty-five miles away, and reached here at one a. m. In less than five minutes he was on the return trip with the police along the line ready to clear his way.

Similar situation arose here last summer and the town took immediate steps to have a supply of oxygen on hand.

"DRY" LEADERS ARE FIGHTING AMONG SELVES

Anti-Saloon League and Methodist Board Take Sides for and Against Sec- retary Mellon.

Washington, Jan. 22.—A Senate amendment which its sponsor believed would command unified support of prohibitionists has split the organized dry ranks wide open.

Senator Harris (D) of Georgia little thought when he offered a \$24,000,000 increase for prohibition enforcement that the proposal would precipitate one of the sharpest rows among the drys since the early days of the temperance movement. But it has done that. The ramifications may extend deeper.

The fight has centered chiefly in the country's two most militant prohibition organizations—the Anti-Saloon League and the Prohibition Board of the Methodist Episcopal church.

Mellon Protests
Shortly after Harris introduced the amendment, Secretary of Treasury Mellon came out strongly against the increase, saying the federal prohibition would use the money to advantage at this time, chiefly because the courts are now so clogged they can't handle the present cases under the dry law. They proposed a survey be made to determine the unit's exact needs and suggested the department of justice might use an increase to speed up prosecutions.

Cannon in Argument
He drew a sharp censure from Bishop James Cannon, Jr., of Richmond, a leader in the fight against Al Smith in the south, Bishop Thos. Wilson, president of the Anti-Saloon League, and E. J. Jawford, secretary of the Board of Temperance and Social Service of the Methodist Episcopal church, south. They said unless he approved the appropriation the nation would feel

PROHIBITION WAR FLARES UP AGAIN

New Cruiser Bill Side-Track- ed for Fifth Time by Dry Debate.

Washington, Jan. 22.—The prohibition war flared forth anew in the Senate today as the administration's new cruiser bill was side-tracked for the fifth time to permit a resumption of debate on the dry proposal for a \$24,000,000 increase in enforcement funds.

The nation technically since January 3 but the debate upon it has lasted less than a half dozen hours. The rest of the time the bill has been side-tracked to permit action on other measures.

The prohibition row, revolving around the first deficiency appropriation bill, became protracted when Secretary of the Treasury Andrew W. Mellon disapproved the proposed increase while dry leaders endorsed it. The administration forces are agreed to support a \$1,250,000 substitute increase, proposed by Senator Jones, of Wash., Republican dry leader, but were hopeful of defeating the larger increase.

Liner's World Cruise Ends on Bahaman Reef

The round-the-world cruise of the liner President Garfield, pictured above, came to an abrupt end on a reef near the northern tip of the Bahama Islands. Ninety passengers and the crew of 154 were safely transferred from the grounded vessel to the steamship Pan-America which raced to the scene in response to the President Garfield's S. O. S.

German Monarchists May Stage Uprising

Amsterdam, Jan. 22.—German Monarchists may utilize the occasion of the ex-Kaiser's 70th birthday next Sunday to make Royalist demonstrations in Berlin and elsewhere, according to word from Berlin today.

The German Monarchist movement is still a live issue in Germany and it has again been brought prominently to the peoples' attention by the proposal of the Steel Helmet League that a plebiscite be held throughout Germany to vote

Expect President Garfield To Be Off Reef Tomorrow

New York, Jan. 22.—The work of re-loading the Dollar liner, President Garfield, aground on a reef off the Bahamas, continued uninterupted today with the arrival on the scene of an engineer and expert surveyor, officials of the steamship company here said.

The liner is expected to be clear of the reef by tomorrow at the latest. Meanwhile, the Dollar line officials said, the 90 passengers who were taken off the stricken ship by the Mugson's line's Pan-America, are good-naturedly enjoying a vacation at the line's expense in Nassau. The most of them will remain in Nassau until the President Garfield is ready to pick them up and continue its cruise.

CHEMIST ACCUSES COPS OF FRAME-UP Says They Raised Figures from 1 to 25 on a Liquor Report He Submitted.

Boston, Jan. 2.—Declaring that he had been "framed," William Crawford, of Medford, today stated he would fight his removal as junior state chemist by Dr. George H. Bigelow, state health commissioner, who charged that Crawford was disobeisant and inaccurate in his reports regarding the alcoholic content of seized intoxicants.

Jawford, who was being aided in his fight by Frank A. Goodwin, former registrar of motorvehicles, declared that he was being made "the goat."

He was engaged passage for herself and her mother on the French liner Paris. Baldwin also has engaged passage.

Quits the Ranch.
Mile, Lenglen and her mother suddenly quit the rancho of Mrs. Baldwin ten days ago. Shortly afterwards Baldwin also left.

Inquiries at Mrs. Baldwin's estate disclosed that she has been ill since the fiery and temperamental French star founced out of her home in a tantrum. The rift between Mrs. Baldwin and Mile, Lenglen was reported to have been over the attentions paid to Suzanne by young Baldwin.

JAIL BREAK FOILED

Los Angeles, Cal., Jan. 22.—One convict was dead here today, another was wounded and three others were suffering from wounds as the result of a desperate jail break attempt.

The battle occurred while officers were taking Jack Hawkins and Eke Hayes from the courtroom to jail. Both were serving life sentences at Folsom prison and were brought here to testify before the Grand Jury concerning police graft and to stand trial for attempted murder.

TREASURY BALANCE
Washington, Jan. 22.—Treasury balance January 19: \$144,107,212.90.

BILLIONS ARE INVESTED IN OIL INDUSTRY

But Survey Shows That There Is Not So Much Profit In It as Generally Supposed by the Public.

By W. S. COUSINS
I. N. S. Financial Editor.

New York, Jan. 22.—According to the American Petroleum Institute, which has just published the results of a thorough and comprehensive survey of the oil industry in America, there is an aggregate of \$11,000,000,000 invested in the business of producing, refining, transporting and selling oil and its various by-products to American and foreign consumers.

This investment is roughly divided as follows: production of crude oil, five billion dollars; refining, three billion; marketing, one billion and a quarter; pipe lines, one billion; tank cars, three hundred million and tank steamers, five hundred million.

Not An Old Industry
Only two generations ago the principal use of oil was as a medicinal base for all sorts of evil-smelling medicines and tonics. The medical science revealed in its ability to shake and squeeze crude and refined petroleum into various forms of health builders.

New avenues for the use of gasoline and fuel oil have been opened up in the aircraft, automobile, shipping, railroad power plant and other industries, as well as the lighting and heating of commercial and residential dwellings.

After a period of 26 years of the most successful experimentation, the airplane has come into its own. The need for finer grade of gasoline and lubricating oil for the aerial motor has called forth the best petroleum industry has to offer.

Not All Profit
In spite of the tremendous expansion of the oil trade and the broad world-wide selling market cultivated for the American products, the heads of the oil industry are none too enthusiastic over the money-making possibilities of their great enterprise. Most of the oil heads approach a discussion of this subject with a worried look on their faces and a far-away look in their eyes, as though they were not quite sure of their ground. Doubtless the business has been made much more hazardous for them by the large over-production of crude oil, a condition which as yet they have been unable to remedy.

Keep Up With Autos
While there are more than three times as many automobiles on the roads today as there were ten years ago, 24,750,000 to be exact, it must be remembered that oil refining processes have vastly improved in-

At eleven years of age 70 per cent of the girls and 60 per cent of the boys found greatest pleasure in the homes. For every year after that there was a five per cent loss of the child to the home, up to the seventeenth year, where the studies stop.

The investigation disclosed that 63 per cent of the boys and 78 per cent of the girls gave reasons for preferring "away from home," which indicated a belief that their homes were faulty.

Bad Weather Prevails
Bad weather prevails over a large swath of the Atlantic, the weather Bureau reported. The storm is now raging with intensity

2,000 SWEDISH YOUNG PEOPLE TO MEET HERE

Luther League Christian Conference for New Eng- land to Be Held Here March 16 and 17.

Plans are progressing rapidly for the second annual Christian Conference to be held in South Manchester March 16 and 17. This conference is in charge of the South Manchester Swedish Lutheran Church Luther League. It is expected that 2,000 young people from all parts of New England will attend the three meetings and the banquet.

The Program
The conference will open Saturday afternoon, March 16, at three o'clock in the Swedish Lutheran church with an address by Dr. A. D. Mattson from Upsala College. At 6:30 o'clock that evening at the banquet at the Masonic Temple with Dr. S. S. Sjöblom from the Theological Seminary, Rock Island, Ill., as the principal speaker, the attendance is expected to exceed 500 persons. An orchestra will provide entertainment during the evening.

On Sunday morning, March 17, at the Swedish Lutheran Church Rev. Arthur O. Hjelm will deliver the preparatory address at the communion service, and Dr. Sjöblom the sermon in the afternoon. Dr. P. H. Kaubel, president of the United Lutheran Church, will speak. This is to be a rally service and will be held in the South Methodist Church. At this rally the united chorals, made up of members of 21 churches in Connecticut and numbering 400 voices will sing.

Following the service the conference will end with a luncheon served at the Swedish church.

The Committee
The executive committee of the South Manchester Luther League is in charge of all arrangements assisted by four sub-committees. The executive committee consists of Carl Gustafson, chairman; Helge Johnson, Inez Olson, Fillmore Gustafson, Ernest Johnson and Eva Freerburg.

Manchester Housing Committee, in charge of obtaining lodging for the three hundred delegates to the conference. (There are two Housing Committees, one in Hartford and one in Manchester.) Albert Pearson is general chairman of both committees, Paul Erickson,

S. O. S. FLASHES SILENCE RADIOS

At Least Three Vessels Off Atlantic Coast Are In Need of Assistance.

BULLETIN:

St. John's Newfoundland, Jan. 22.—With the British freighter Teesbridges believed to have plunged to the bottom of the Atlantic with all hands during terrific hurricane that swept out over the steamer lanes, desperate efforts were being made this afternoon to reach the S. S. Danedialke of the U. S. shipping board line sinking 500 miles off the American coast.

New York, Jan. 22.—S. O. S. flashes picked up by radio here today indicated that several vessels are in distress in the storm tossed waters of the Atlantic some 600 to 900 miles northeast of New York.

Shortly before noon local broadcasting stations were stilled when an S. O. S. came in from the Italian freighter Florida which reported that her rudder was damaged and she needed assistance. Her position was given as 33.15 north, 61.02 west, which is approximately 600 miles northeast of this port.

About the same time an S. O. S. came from a steamer whose name was caught two ways—Bannedalke and Bannedalke.

Meanwhile several vessels were rushing to the assistance of the British freighter Teesbridges, which also issued an S. O. S. call for assistance, giving her position as about 600 miles east of Newfoundland.

Bad Weather Prevails
Bad weather prevails over a large swath of the Atlantic, the weather Bureau reported. The storm is now raging with intensity

STATE LEGISLATURE IS ORGANIZING ITS COMMITTEES TODAY

BITES OFF WIFE'S NOSE THEN KILLS HIMSELF.

Detroit, Mich., Jan. 22.—After biting off his wife's nose, Rudolph Ottom, 40, is dead today from a self-inflicted bullet wound. The couple had been separated since the first of the year. Last night they met in an attempt to affect a reconciliation. The fatal quarrel resulted. Mrs. Ottini was taken to the receiving hospital, where efforts to graft the organ back were futile. She remained in the hospital under medical care.

SMITH MAY VISIT IN IRELAND SOON

But It Will Be Difficult for Al to Find Any of His Rela- tives.

Dublin, Jan. 22.—All Ireland is excited at the news of "Al" Smith's intention to visit the home of his ancestors, County Cavan, which claims to have been the birthplace of his grandfather, is particularly a center of excitement.

The ex-governor however, may have some difficulty in finding his direct relations. County Cavan is the home of one branch of the prolific Smith family, and in certain parts of it every second household bears the historic patronymic.

Much Discussion
Among the oldest inhabitants there has been much discussion and searching of memories and associations with the family year of the 'Forties of last century when it is generally believed, Al Smith's grandfather sought fortune in the United States. One theory is that the old homestead is situated at Bruskey, Ballinagh, about seven miles from Cavan. This place is occupied by Smiths who claim to be cousins of Al. Others claim that Crosserough parish owns the honor of having given birth to the ancestor not only of the ex-governor, but also of two former mayors of New York—Mayor Gaynor and Mayor Hylan.

Another Claim
Still another authority says there is no doubt this honor belongs to Drumbriskis, whence "Mick" Smith, the grandfather of Al, emigrated, and for this it is claimed that documentary evidence exists. It is said that Mick Smith married, and had a family in New York, but as he died young, he probably did not convey to his children any facts regarding his place of birth or relatives. In those days correspondence was not frequent, and many emigrants, especially if they had no money to send home, did not trouble to write.

OAKLAND SCHOOL CATCHES ON FIRE

Paper Thrown Down Fur- nace Register Starts Blaze; Call N. E. Firemen.

Apparatus from the Manchester Fire department was called to the Oakland school on Deming street on a still alarm at 1:20 this afternoon but had little trouble extinguishing a blaze emitting from a hot air furnace register.

Superintendent Alfred F. Howes of the first eighth school districts said that the blaze started from waste paper which children had thrown down the register in preference to walking to the waste paper basket.

The paper had evidently worked its way down the air pipes until it came near enough to the furnace to catch fire. This caused a smudge and the smoke poured into the small school room frightening the children. However, the teacher calmed the children and under her direction they removed all the furniture in the building. Meanwhile a telephone call had been sent in from a nearby house and north end firemen responded. They quickly put out the blaze in the hot air pipe. Investigation revealed that there had been no material damage. Supt. Howes said. However, the smoke blackened the school so much that it was decided to discontinue school for the rest of the afternoon. Mr. Howes stated late

THE SENATE
Hartford, Conn., Jan. 22.—Senator Royal C. Wilcox, of Meriden, presided over the Senate today in the absence of E. Rogers, lieutenant-governor, who is acting governor while Governor John H. Truman is on vacation in Florida.

The appointment of Charles P. Roraback, a Torrington lawyer, as assistant Senate clerk, was announced by J. Frederick Baker, clerk, at the opening of the session, and Mr. Roraback was sworn in at once. The Senate received a resolution for the appointment of Stanley J. Tracski, House clerk, as judge of the City Court of New Britain. Morris E. Saxe was then nominated in another resolution as deputy judge of the same court.

The appointment of Milton C. Isbell, as Ansonia City Court judge, was also submitted in a Senate resolution. The three were tabled for the calendar.

Bills Submitted
Among bills submitted today were one which would provide for compulsory insurance for all motor vehicle owners before registration; another provides for a Small Claims Court in Greenwich; another exempts the Y. W. C. A. of Greenwich from taxation; a bill providing for sidewalks for pedestrians along state highways, to be built by the highway commissioner; a bill permitting the Guilford-Chester Water Company to increase its capital from time to time according to the will of the stock holders.

The Senate adjourned just before noon to meet tomorrow at 11:15 a. m.

Both Branches Adjourn Early to Devote After- noon to Organization Work—Fluttering of New Bills, Several Freaks Among Them, Are Intro- duced—Resolutions Ap- pointing Judges in the Various Town and City Courts Also Put in Ap- pearance.

Hartford, Conn., Jan. 22.—The first real day of the State Legislature in the 1929 session was marked by organization of the county delegations and the committees. A number of such gatherings were called to order at two o'clock this afternoon, with the appropriations committee holding hearings on requests of various state departments for emergency deficiency appropriations to tide them over. Both branches of the Legislature adjourned by noon to devote their time until late in the afternoon to committee gatherings.

A fluttering of new bills marked the session today. The bills came in small batches and were sent to the printer, and so started on the way to final action. One of the new bills bore a curious title concerning cruelty to persons and proposed a penalty upon individuals who refuse food to persons whom they know to be starving.

The usual number of resolutions appointing judges in the various town and city courts appeared today. The House was able to place six of these on the calendar for the first of three such appearances the law requires.

The Senate received a blank bill which would effect the repeal of the so-called "guest Statute" which was passed by the 1927 session. The new bill is expected to be replaced later by a substitute so arranged as to clear up the situation caused by the present statute. The supreme court has rendered several opinions regarding the "guest law" and to meet these decisions the new bill is now being prepared.

THE SENATE
Hartford, Conn., Jan. 22.—Senator Royal C. Wilcox, of Meriden, presided over the Senate today in the absence of E. Rogers, lieutenant-governor, who is acting governor while Governor John H. Truman is on vacation in Florida.

The appointment of Charles P. Roraback, a Torrington lawyer, as assistant Senate clerk, was announced by J. Frederick Baker, clerk, at the opening of the session, and Mr. Roraback was sworn in at once. The Senate received a resolution for the appointment of Stanley J. Tracski, House clerk, as judge of the City Court of New Britain. Morris E. Saxe was then nominated in another resolution as deputy judge of the same court.

RUSSELL ELECTED RAIL EXECUTIVE

Becomes Vice-President of New Haven System; New President Not Named.

New Haven, Conn., Jan. 22.—Arthur P. Russell, of Hingham, Mass., was today elected executive vice president of the New Haven system.

Mr. Russell has been vice president since March 1, 1920, and while his headquarters will continue to be in Boston, he will also maintain offices at New Haven.

The departments of the road over which Mr. Russell has had direct responsibility are public relations, real estate, industrial development, valuation and insurance.

The notice of the board of directors, signed by E. G. Buckland, chairman, further states that Mr. Russell will, in addition, represent the company in all matters in Massachusetts and Rhode Island.

Mr. Russell celebrated his fortieth anniversary of service with the New Haven and its allied companies last April.

No announcement was made as to the presidency.

GLORIA GOULD DIVORCED.

Reno, Nev., Jan. 22.—Granted a divorce on the grounds of cruelty, Gloria Gould Bishop was free of matrimonial bonds today.

The divorce complaint charged Bishop used insulting language against his wife, and on one occasion, the complaint asserts, the plaintiff was grabbed by the throat by her husband.

Mrs. Bishop filed her complaint here Aug. 31, 1928.

MISSIONARY KILLED IN DESERT ATTACK

Rev. Henry A. Bilkerd, of Michigan Dies from Wounds During Iraq Raid.

London, Jan. 22.—The body of Rev. Henry A. Bilkerd, American missionary who was slain in a desert attack by Wahabi tribesmen, was at Basra, Iraq today where funeral services will be held.

Bilkerd died a half hour after a Wahabi bullet entered his shoulder and severed his spinal cord while he was enroute from Zubair to Koweit.

The party was warned of the presence of the Wahabis on the desert before the start of their journey but no sign of them was seen until the motor cars were half way between Zubair and Koweit.

Bilkerd's widow and four children survive him at Basra where he was connected with the mission of the Reformed Church of America.

ABOUT TOWN

The Army and Navy Club auxiliary will hold its regular meeting in the clubhouse Thursday evening at 8 o'clock.

Mrs. Anna Sutton Mixer of the Home service department of the Hartford Gas Company will give the third in her series of lectures demonstrations at the Manchester Community clubhouse Thursday evening at 8 o'clock.

Mrs. Arra Sutton Mixer of the Home service department of the Hartford Gas Company will give the third in her series of lectures demonstrations at the Manchester Community clubhouse Thursday evening at 8 o'clock.

WHALEN TRAFFIC PLAN BREAKS BROADWAY JAM

New Scheme Tried for First Time Moves Cars Along Quickly.

New York, Jan. 22.—Mayor Jas. J. Walker and many theatrical producers today congratulated Grover Whalen, New York's police commissioner and new Tsar of Traffic, upon the success of his plan to unsmarl the traffic congestion in the theaters square area and enable theatergoers to start for the theater after instead of before dinner.

The plan was tried out for the first time last night. It was declared that cars moved through the theater zone twice as fast as previously.

Whalen's plan eliminates all right and left turns in the theatrical district, prohibits commercial vehicles inside the area, restricts parking and makes it necessary for empty cabs to keep moving instead of darting in and out for passengers.

Pedestrians were held back at the corners where the traffic lights changed. Wrecking cars towed 23 parked automobiles to police stations, where their owners were handed summons.

Mr. Knoll leaves his wife, Caroline, two daughters and one son. The daughters are Mrs. August Senkbell and Mrs. Joseph Scheinbiller, and the son, John R. Knoll, of this town.

Funeral arrangements are incomplete but will probably be held at Holloran Brothers.

and Samuel Rosenthal deputy judge of the same court; Raymond A. Johnson, deputy judge of the town court of Manchester; Edwin R. Kelsey, judge and Louis B. Zacher, deputy judge of the Branford Town Court; Carl F. Anderson, judge and Israel Poliner, deputy judge of the Middletown Town Court; Cornelius C. Costello, judge and Charles F. Willard, deputy judge of the Town Court of Groton; Joseph W. Shapiro, judge and John M. Sinebaugh, deputy judge of the City Court of Shelton; William J. Hurley, deputy judge of the Town Court of Southington; William J. Malone, judge, and Joseph M. Donovan, deputy judge of the Bristol City Court.

Bills presented to the House today included: Reimbursing Southington for damages done by stray dogs; restoring forfeited rights to Adelbert L. Wilson, of Putnam; restoring lost rights to Emmet J. Lyman of Suffield; revising the pension law concerning sailors and soldiers; providing a penalty for cruelty to persons, either children or adults, making it compulsory to give food to the poor upon request when it was proven they were starving; exempting college students police and firemen from paying personal taxes; revising the statute concerning the athletic commission to provide for control under the State Athletic Commission of amateur boxing; providing for the division of the town of Hamden into voting districts; authorizing the state treasurer to lend to the federal government for erection of aviation beacon lights; amending the charter of the Connecticut College of Pharmacy to allow the granting of diplomas and degrees; amending the marriage license law to make publication of the applications for license mandatory on the part of town clerks; providing the disposition of posthumous of the Fitch's Home for Soldiers; providing for bonding of all state officers and clerks who handle funds.

Six blank bills introduced by Representative Tobin of Waterbury concerning the charter of that city. Their titles were: concerning registrars; concerning taxation districts; providing ventilation for public buildings; concerning the awarding of contracts; and concerning the salary of the city clerk.

Other bills were: those concerning establishment of a police relief fund in Hamden; providing for the manner of the admission of electors in Hamden; and creating a board of recreation commissioners in Hamden.

Six judgeship appointments on the House calendar for the day were: Appointing Freeman Light, judge, and Nehemiah Candee, deputy judge of the Norwalk City Court; appointing Daniel M. Cronin, judge, and John McGee, deputy judge of the New London City and Police Courts; appointing Thomas P. Dunn, judge, and Alfred B. Ambrey, associate judge of the City and Police Courts of Meriden.

The judgeship resolutions are by law required to remain on the calendar for three days and are then referred to the judiciary committee.

Chicago, Jan. 22.—Oscar Monroe, negro, seized in one of the "clean-up" raids here Saturday night, ran amuck today in the Central police station as he was being led to a courtroom, slashed three policemen and was then shot to death.

London, Jan. 22.—A virulent epidemic of influenza now raging in Tokyo is taking an average toll of 35 deaths daily, an Exchange telegraph dispatch from the Japanese capital stated today.

OBITUARY

DEATHS

Mrs. Lucy Harvey, widow of Herbert M. Harvey, a former resident of Manchester, died at her home, 26 Rector street, East Hartford, late last night.

Mrs. Harvey leaves two sons, Herbert B. of New York City and Clarence M. of East Hartford; also one daughter, Mrs. Marcus Hamilton of East Hartford.

The funeral will be held Thursday afternoon at 2 o'clock at Watkins Brothers, 11 Oak street, Rev. O. E. Tourtelotte, pastor of the Methodist church in East Hartford, will officiate. Burial will be in the Grove Hill cemetery in Rockville.

John Knoll, Sr. John Knoll, Sr., died at his home, 161 School street, at 5 o'clock this morning after a week's illness with pneumonia. Mr. Knoll was 82 years old and came to this country from Reschen, Austria, 35 years ago. He was a paper maker and was employed by Case Brothers until his retirement two years ago.

Mr. Knoll leaves his wife, Caroline, two daughters and one son. The daughters are Mrs. August Senkbell and Mrs. Joseph Scheinbiller, and the son, John R. Knoll, of this town. He also leaves 12 grandchildren and three great grandchildren. Mr. and Mrs. Knoll had been married more than 55 years.

Funeral arrangements are incomplete but will probably be held at Holloran Brothers.

and Samuel Rosenthal deputy judge of the same court; Raymond A. Johnson, deputy judge of the town court of Manchester; Edwin R. Kelsey, judge and Louis B. Zacher, deputy judge of the Branford Town Court; Carl F. Anderson, judge and Israel Poliner, deputy judge of the Middletown Town Court; Cornelius C. Costello, judge and Charles F. Willard, deputy judge of the Town Court of Groton; Joseph W. Shapiro, judge and John M. Sinebaugh, deputy judge of the City Court of Shelton; William J. Hurley, deputy judge of the Town Court of Southington; William J. Malone, judge, and Joseph M. Donovan, deputy judge of the Bristol City Court.

Bills presented to the House today included: Reimbursing Southington for damages done by stray dogs; restoring forfeited rights to Adelbert L. Wilson, of Putnam; restoring lost rights to Emmet J. Lyman of Suffield; revising the pension law concerning sailors and soldiers; providing a penalty for cruelty to persons, either children or adults, making it compulsory to give food to the poor upon request when it was proven they were starving; exempting college students police and firemen from paying personal taxes; revising the statute concerning the athletic commission to provide for control under the State Athletic Commission of amateur boxing; providing for the division of the town of Hamden into voting districts; authorizing the state treasurer to lend to the federal government for erection of aviation beacon lights; amending the charter of the Connecticut College of Pharmacy to allow the granting of diplomas and degrees; amending the marriage license law to make publication of the applications for license mandatory on the part of town clerks; providing the disposition of posthumous of the Fitch's Home for Soldiers; providing for bonding of all state officers and clerks who handle funds.

Six blank bills introduced by Representative Tobin of Waterbury concerning the charter of that city. Their titles were: concerning registrars; concerning taxation districts; providing ventilation for public buildings; concerning the awarding of contracts; and concerning the salary of the city clerk.

Other bills were: those concerning establishment of a police relief fund in Hamden; providing for the manner of the admission of electors in Hamden; and creating a board of recreation commissioners in Hamden.

Six judgeship appointments on the House calendar for the day were: Appointing Freeman Light, judge, and Nehemiah Candee, deputy judge of the Norwalk City Court; appointing Daniel M. Cronin, judge, and John McGee, deputy judge of the New London City and Police Courts; appointing Thomas P. Dunn, judge, and Alfred B. Ambrey, associate judge of the City and Police Courts of Meriden.

The judgeship resolutions are by law required to remain on the calendar for three days and are then referred to the judiciary committee.

Chicago, Jan. 22.—Oscar Monroe, negro, seized in one of the "clean-up" raids here Saturday night, ran amuck today in the Central police station as he was being led to a courtroom, slashed three policemen and was then shot to death.

LIEUTENANT GOVERNOR NOW RULES OKLAHOMA

Gov. Johnston Suspended from Office by Action of State Senate.

Oklahoma City, Okla., Jan. 22.—W. J. Holloway, lieutenant governor, is acting chief executive of Oklahoma today pending Gov. Henry S. Johnston's impeachment trial January 23.

Gov. Johnston was suspended from office late yesterday when charges of general incompetency and misappropriation of funds were filed in the Senate.

If Governor Johnston is found guilty Holloway will serve the two remaining years of the term. Only one Republican and four Democrats stood out against accepting the House charges.

Governor Johnston declared he did not regard the charges as an automatic suspension but would recognize Holloway as acting governor. He reiterated that he was innocent of "any wrong doing."

Washington, Jan. 22.—The day in Congress: Senate. Considered proposal for \$24,000,000 increase in prohibition funds, carried in first deficiency appropriation bill.

Indian affairs committee approved Senator Pine (R) of Oklahoma, to be "ruin" Indian Commissioner Burke.

Watson coal bill endorsed by United Mine Workers at interstate commerce committee hearing.

Administrative leaders announced Senate will be held in session until House bill is enacted.

Considered \$38,000,000 District of Columbia supply bill.

Ways and means committee heard conflicting demands for raising and lowering tariff on molasses.

Commerce committee considered bill penalizing shippers for misrepresenting goods in interstate commerce.

Chicago, Jan. 22.—One man was killed, two others perhaps fatally injured, and a fourth so shocked he was unable to tell of the disaster when firemen carried him from the ruins of a building which was wrecked by an explosion here today.

So terrific was the force of the explosion that it knocked women and men to the floor in a municipal courtroom a block away.

Fragments reports to police indicated that the death toll may be greater. A neighbor telephoned that bodies of men and women screaming horribly were taken from the wrecked building.

The neighbor said that at least one man was known to be dead.

All available fire apparatus and police reserves were rushed to the scene. The cause of the explosion is unknown.

Waterbury, Conn., Jan. 22.—Dr. Edward H. Kirschbaum, acting medical examiner, today filed a death certificate giving suicide as the reason for the death of Mrs. Emily Crittenden, 58, wife of a city health commissioner, who was found dead last evening in her home here by her husband, Samuel Crittenden.

Mrs. Crittenden, a school teacher for eighteen years, was found in her bathroom with the gas turned on. The death was considered a mystery until the filing of the certificate today.

2,000 SWEDISH YOUNG PEOPLE TO MEET HERE

(Continued from Page 1)

chairman; Ruth Benson, Viola Larson, Leonard Johnson, Herman Johnson and Elsie Brandt.

Social Committee in charge of the luncheon on Sunday afternoon; Mrs. A. Berggren, chairman; Mrs. Anna Erickson, Mrs. S. Emil Johnson, Mrs. Carl Kjelson, Mrs. Charles A. Johnson and Mrs. Adolph Lindberg, Isabel Bjorkman, Svea Anderson, Beatrice Johnson, Roy Johnson, Clarence O. Anderson, Sherwood Anderson and Erik Modan.

The Beethoven and G. Clef Glee Clubs are expected to sing at the conference, but as yet nothing definite in this regard has been decided.

Budget, Jan. 22.—Miss Katharina Forgo, a music teacher, and Mrs. Anna Kovacs, whose duel with swords was prevented by the authorities, may conduct their fight upon the field of honor secretly or in some other locality, it was reported today.

Miss Forgo challenged Mrs. Kovacs to a duel because she alleged Mrs. Kovacs had insulted her by alleging she had flirted with Mr. Kovacs.

The challenge and its acceptance aroused wide interest as there has never been a duel between women in this country.

When they sought to rent a "duelling hall" they were prevented by the police.

Friends of the would-be combatants said the duel had been "postponed."

Chicago, Jan. 22.—One man was killed, two others perhaps fatally injured, and a fourth so shocked he was unable to tell of the disaster when firemen carried him from the ruins of a building which was wrecked by an explosion here today.

So terrific was the force of the explosion that it knocked women and men to the floor in a municipal courtroom a block away.

LEGION'S BANQUET IS BEING PLANNED

To Be Held in Sub-Alpine Club—Joseph Pero Is General Chairman.

The annual banquet of Dilworth-Legion, will be held at the Sub-Alpine club on Eldridge street this year, it was decided last night at a meeting of the banquet committee.

Joseph Pero is general chairman. Pero and Francis Bray were also named as the dinner committee. Walter Sheridan is in charge of the entertainment with Leonard Weiman in charge of the tickets and Otto Sonnikson arranging for the speakers.

It was also announced today that the local Legion post now stands third in this district in Connecticut from the standpoint of most paid-up members, having a total of an even 200.

The Legion and its auxiliary will hold a joint meeting January 28 at the State Armory.

“DRY” LEADERS ARE FIGHTING AMONG SELVES

(Continued from Page 1)

he wasn't "eager" to enforce the law.

Before Mellon had a chance to answer, the Methodist Episcopal (north) Board of Temperance, Prohibition and Public Morals issued a statement upholding the views of the treasury chief. Thus the cleavage was sharply drawn with its colleague of the southern church.

Another split in the church division was revealed among the officialdom of the Anti-Saloon League. The result is that a fight already is brewing to oust some of the present leaders.

F. Scott McBride, who assumed the mantle of the late Wayne B. Wheeler as general legislative manager of the league, declared in a statement that he opposed the extra money until such time as the treasury had a definite need and use for it. Thus his views were in direct opposition to those expressed by Bishop Nicholson.

What the outcome of the split will be is conjectural. It may result in a reorganization of the dry rank; it may lead to a new leadership. But whatever the outcome, this much was certain today—the spirited controversy among the chief spokesmen for the prohibitionists has created a row the like of which has not been witnessed in the dry ranks for years.

REBEL KING DEMANDS WORLD'S RECOGNITION

London, Jan. 22.—Bacha Sakao, the Afghan rebel chieftain who proclaimed himself king and took the name of a former king, Habibullah Khan, now wants all the privileges accruing to the name, an Indian News Service dispatch received today stated.

Sakao has asked the Indian government to furnish him annuities similar to those received by the late Habibullah. The latter was assassinated in 1919. He was the father of both Amanullah, who abdicated a week ago Monday, and Inayatullah, who succeeded him and reigned for three days.

With Sakao now established in the royal palace at Kabul, Amanullah is reported attempting to rally his forces for a determined coup to regain his throne.

SWEDISH LUTHERANS IN ANNUAL MEETING

Activities Shown in Reports of Church Officers and Pastor; Elections Held.

Statistics read at the annual meeting of the Swedish Lutheran church held last night show that there are 725 members in the congregation. Of these 380 are women and 345 are men. During the past year the pastor has officiated at 11 baptisms, ten weddings and four deaths. He has confirmed fourteen children ten boys and four girls. Fourteen members have been added to the role.

Deacons elected were: Alfred C. Anderson and Gustave Florin, taking the place of two whose terms have expired. Sven Carlsson resigned as trustee of the church. John Benson, Herbert Johnson and Paul Erickson were elected to serve three years. Leonard Johnson was elected to serve two years, the unexpired term of Sven Carlsson. S. A. Lindberg and John Hulteen were elected as trustees. Alfred C. Anderson was re-elected as vice-superintendent of the Sunday school. John E. Johnson, Harry Erickson and John I. Olson were elected auditors. Henning Johnson was elected secretary. A troop committee for the Boy Scouts was also voted upon.

A motion to change the Sunday evening services to five o'clock instead of seven was defeated. It was voted to have a student pastor during the summer months as in former years. The motion to close the Sunday school from July to the first Sunday after Labor Day was passed unanimously. Reports of the various church societies were read and accepted. There being no further business the meeting adjourned with a prayer by Rev. Carlsson. The printed report of the church is now ready and may be obtained from John E. Benson, financial secretary. This report shows the church financial condition in detail.

OLD FASHION-MODERN DANCING AT TEMPLE

Masonic Social Club to Conduct Affair Friday Evening; Public Is Invited.

An old fashion and modern dance will be held at the Masonic Temple Friday night. The affair will be under the auspices of the Masonic Social club and the public is invited to attend.

Bill Waddell's orchestra will play for the dancing which will be held between eight and twelve in the evening. Refreshments will be on sale. Tickets are already in the hands of the committee and will be given general distribution today.

POLICE COURT

The case of Luigi Miroglia, charged with assault was nolleed on payment of costs in the Manchester police court this morning. Miroglia and Mario Marchisotti whom he assaulted are brothers-in-law. The row took place at the home of Miroglia on Maple street and in the scrap he bit Marchisotti on the ear.

HOSPITAL NOTES

Admissions reported today at the Memorial hospital include Miss Beatrice Lemerise of 382 Hartford Road, Fred Becker of 89 Summer street, Fred Richmond of 196 Vernon street and Frank Daley of 354 Buckland street.

AIR CORPS BILL

Washington, Jan. 22.—Congress was asked today to authorize appropriations of \$1,130,306 for construction of army air corps buildings during 1931, in a bill introduced by Rep. James (R) of Michigan.

DR. NANSEN IN U. S. TALKS OF ARCTIC

Famous Explorer is Seeking American Aid to Finance Trip to North Pole.

New York, Jan. 22.—A tall, handsome, kindly Norwegian, strikingly reminiscent of the Viking from whom he is descended, arrived in New York today with plans for a North Pole expedition to be made in 1930 in the Graf Zeppelin. He is Dr. Friedhof Nansen, 67, long noted in scientific circles as one of the most daring and successful of the world's explorers of the far corners of the terrestrial universe.

Dr. Nansen is here for the specific purpose of interesting American scientists in the Zeppelin expedition, which, incidentally, will be one of the most ambitious projects of its kind ever attempted, and gaining the cooperation of the American government in erecting a mooring mast and flying field in Nome, Alaska.

The Northlander is very enthusiastic about the contemplated trip and he has many interesting ideas regarding Polar expeditions.

Whiskey No Good For instance, he does not believe that men who make up the personnel of such trips should carry liquor with them. Alcoholic beverages, he contends, are not strengthening to men living close to nature.

In discussing this idea of his with ship news reporters, Dr. Nansen recalled that the Norwegian government once entertained somewhat similar beliefs and establishing a prohibition law there much like the Volstead Act. The experiment was a failure, he said, because the majority of the people refused to obey the law.

The start of the Zeppelin's flight, Dr. Nansen explained, will take place during the month of April, 1930 and a crew of 40 men will be carried. He added that he hoped that Dr. Huzo Eekener, the builder and pilot of the Graf Zeppelin in its recent trans-Atlantic flights, would command the expedition.

According to present plans, the Zeppelin will fly from Leningrad, Russia, south of the Arctic Sea to Nome, Alaska. At Nome, a base will be put up and several weeks will be spent in making triangular flights through the "blind spot" of the Polar regions.

When this part of the expedition is completed the dirigible will swing northward over the top of the earth on a return trip to Denmark.

The chief purposes of this latest conquest of the Arctic, according to Dr. Nansen, are to determine the depths of the Polar sea at various points and to prove or disprove the existence of a land mass between the continent and Asia are connected. The explorer believes that the two great masses of land are joined together by a thin strip that possibly lies but a short distance under the ice.

During his stay in New York Dr. Nansen will be the guest of Dr. Henry Guggard Leach, well known editor. On Saturday night he will attend a dinner to be given at the Lotus Club.

Walter Bruns, general secretary of the German Aeronautical Society will arrive here Thursday on the Columbus to cooperate with Dr. Nansen in lining up American support for the flight. Dr. Nansen arrived on the liner Drottningholm which sailed from Sweden.

LATEST STOCKS

New York, Jan. 22.—United States Steel stock again showed its qualities of real leadership today when, in a burst of speculative enthusiasm, the stock pushed forward vigorously to 190, for a gain of 7 points. It thus completely reversed its field as compared with yesterday's reactionary market, when it sustained a loss of 5 1/2 points.

On the whole, the market today was irregular, uncertain, highly nervous and showing the effects of wide divergence of opinion among important traders in Wall street. The uprush of Steel Common to \$190 a share was in large part of the steady accumulation of the stock by powerful financial interests in the last six months. The best estimates of Steel Corporation earnings for 1928 were around \$12 a share, from which it is unlikely that any extra cash dividend can be paid. But Wall street insists that the directors of the big corporation will do "something handsome" for the stockholders at their meeting on January 29, and that is why it is energetically buying the stock.

Directors of Anaconda Copper Company let the secret out today when they called for a special meeting to boost capital stock to \$600,000,000. At the same time an offer was made to Chile minority stockholders to exchange 100 shares of Chile for 73 of Anaconda, which is about the relative market value of the two stocks. Anaconda jumped to around 129 in the early trading and Chile rose 2 1/2 to 91, but both stocks sold off on the "good news" of the Anaconda capitalization. St. Joseph Lead was also held back by immense profit-taking.

OFFICIALS EXONERATED

Washington, Jan. 22.—The Senate Indian affairs committee today adopted a resolution absolving Senator Pine (R) of Oklahoma and two department of justice officials of charges they entered a conspiracy to "ruin" Charles Burke, commissioner of Indian affairs. The committee's investigation of the alleged dissipation of the fortune of Jackson Bennett, Creek Indian.

CHILDREN LOSE SHOES AT SKATING RINK

Can't Afford to Pay for Checking So They Leave Their Equipment on the Shore of Pond.

Mothers living in the vicinity of Center Sprink park whose children are in the habit of running back and forth there when the skating is good, complain of the loss of shoes and other garments left on the shores of the pond. There is provision for checking belongings at the shelter, but youngsters who are there for a short time and without funds cannot be expected to avail themselves of this privilege.

The articles are not appropriated from any urgent need, as in two cases only one shoe was taken while the skaters were out on the ice with their skating shoes on. The little girls who met with the loss were each obliged to walk home in the cold with one shoeless foot.

BILLIONS ARE INVESTED IN OIL INDUSTRY

(Continued from Page 1)

creasing enormously the yield from the crude oil base. The new refineries using the so-called "cracking process," are able to squeeze out twice as much gasoline to the barrel of crude as in former days, thus decreasing the drain on the crude oil reserves.

At the present time the American oil industry is producing about 2,500,000 barrels of oil a day and selling 2,250,000 barrels daily, part of it in the refined state and part of it in the form of fuel oil. Greases and lubricants consume a great deal more of the products of American oil wells.

The oil conservation board appointed by President Coolidge works for co-operation within the industry, in order to conserve the underground supplies of oil, but the heads of the industry claim that anti-trust laws and federal regulations prevent them from taking the only sensible steps that would reduce the present indefensible waste of this valuable natural product. The state commissions have been more helpful and much more constructive on their supervision of oil production within their boundaries.

The oil industry is highly competitive and the American consumer receives the benefit of the periodic "oil wars" and the resulting cut-throat competition for business in the gasoline field.

FIRE COMPANIES FIGHT STUBBORN GRASS BLAZE

Two companies from the South Manchester Fire Department were called out this noon in answer, to still alarms to extinguish a grass fire off Center street near Olcott street. The acres of meadow-land were burned over before the firemen could check the flames, which, fanned by a stiff breeze, ate their way rapidly through the dry grass, two feet high.

Chief Albert C. Foy said that the alarm was telephoned just in the nick of time. Had the fire been given much more liberty, it might have endangered houses about a hundred yards away. Fire Company No. 2 answered the alarm but summoned the other unit. Chemicals and water were used in the battle.

S. O. S. FLASHES SILENCE RADIOS

(Continued from Page 1.)

about 600 to 800 miles east of the coastline and across the path of the shipping lanes. The storm started in the St. Lawrence valley last Saturday night and swept out to sea in a southeasterly direction.

The freighter Florida is said to have a crew of 28 men aboard. She left Pensacola, Fla., on Jan. 10 for Naples, Italy. Her tonnage is 2,200. The S. O. S. she sent out was heard by other ships at sea and it is believed that they have sped to her assistance.

No details were given in the call from the Bannockburn, her exact position was not known. Assistance is expected to reach the British freighter Teesbridge at any moment. The Belgian steamer Calcasior and the British steamer Maine were reported nearing the position she gave in her S. O. S. call—Longitude 4.36 West and Latitude 41.00 North.

The Teesbridge sailed from Povey, England, on Jan. 9, bound for Philadelphia.

GENERAL MOTORS BUYS GERMAN AUTO WORKS

Berlin, Jan. 22.—The newspaper Boersenzeltung started today that the General Motors Corporation of the United States, has acquired 51 per cent of the capital stock of the Adam Opel Automobile Works, of Germany, paying between \$25,000,000 and \$30,000,000 for the shares.

EMERGENCY DOCTORS ABOUT TOWN

Dr. A. B. Moran and Dr. Mortimer E. Moriarty will be on emergency call in town tomorrow.

John Zaldert, of the Eagle Tail-or Shop in the Johnson Block has returned to business after a slight illness.

All A. & P. store managers and clerks in Manchester will be guests of the company at a banquet to be held Wednesday evening at the Hotel Kimball in Springfield.

Troop 6, Boy Scouts, will meet tonight at 7:15 o'clock. Troop 2 and Troop 4 will also meet tonight at 7 o'clock. Troop 9, newly organized Community Club troop, will meet at 7 o'clock tonight.

Miss Lenora Hanna, principal of the Washington School, has resumed her duties after being called to New Britain for several days because of the death of her mother.

Levy Whipples of Buckland shot a barred owl in a tobacco shed Sunday night when sitting on a partridge it had killed. The State Fish and Game Commission has asked Ronald Hildum local tax collector to report any animals or birds which prey on partridge and consequently they were informed of the barred owl, which Whipples had brought to him to mount.

The Rockville A. A. will send its setback team here tonight to compete against the Army and Navy club team in the last of three sessions. Manchester won both of the first matches by margins of 163 and 180 points respectively. Play begins at 8 o'clock tonight.

W. George Glenney, local lumber and coal dealer, went to New York City today to attend the annual Lumber dealers' convention.

The second session of the Manchester teacher training school will be held this evening at Center church at 7:30. Dean Stolz of the Hartford School of Religious Education will be the teacher, and the course will be on the life of Christ. Additional registrations of Sunday school workers will be received at this session.

Nathan B. Richards, treasurer of the Manchester Lumber Company, has just been appointed second ceremonial officer of Sphinx Temple of the Mystic Shrine, by Stanley S. Gwilliam, of Plainville, the newly elected Potentate.

Robert Doellner, of Olcott Drive, prominent Manchester violinist, will appear in the Junior League Glee club program tomorrow evening in the parish house of St. John's church, Farmington avenue, West Hartford.

Ernest Bartley, of 142 Eldridge street, was fined \$10 and costs for reckless driving by Judge Milton Sweet in Gloucester last night. Bartley was arrested Friday night by Policeman Robert Endress after he had struck a culvert on Hebron avenue while driving his Ford coupe.

All members of the St. Mary's Young Men's club who intend to be present at the banquet Saturday night are asked to make returns to John Fox by Thursday night.

The Boys' club of the Highland Park section will give a public back party at the Community clubhouse here this evening. The usual number of prizes, six, will be awarded, and refreshments and a social time will follow.

Applications for marriage licenses were filed in Hartford yesterday by John R. Hanson of Gloucester and Miss Stella Brosowski and P. Urlano of Norman street and Miss Cecilia Cavallo of Hartford.

The social committee of the Highland Park Community club has plans well under way for the annual Mother and Daughter banquet which will take place at the clubhouse Saturday evening at 6:30.

KING'S CONDITION

London, Jan. 22.—Five of the doctors who have been attending King George held a conference at Buckingham palace today. They were Sir Stanley Stewart, Sir Hugh Higgens, Sir Dawson of Penn, Sir Humphrey Rolleston and Sir E. Farquhar Buzzard. All arrived at the palace before ten o'clock.

The following bulletin was issued at noon: The King had a quiet night. His temperature has now remained normal for many days and the condition of the pulse is satisfactory. The empyema wound is small and is steadily healing. With returning appetite the amount of nourishment is adequate and includes solid food.

"Although the general strength shows improvement there is not as yet any appreciable increase in weight. We feel the time is approaching when His Majesty's removal to sea will be advantageous."

THE ANSWER. Here is the answer to the Letter Golf puzzle on the comic page: SNOW, SLOW, SLEW, SLED, SLID, SAID, SAND, SANK, BANK.

PISO'S for FLU-COUGHs. Quick Relief! Take PISO's—relief is immediate. You get a good night's rest—and renewed vitality. 35c and 60c. Standard for 14 Years.

Keith's "Where You Can Afford to Buy Good Furniture" Until January 31st RED-LETTER-DAYS LAMPS OF EVERY DESCRIPTION AT GREATLY REDUCED PRICES. Floor Lamps, Bridge Lamps, Table Lamps, Console Lamps. The G. E. Keith Furniture Co. TWO STORES SOUTH MANCHESTER.

AGNES FRANEY

Climbing

First, Ziegfeld picked her for his "Follies." Next, she was chosen for "Rio Rita" and now Warner Brothers will present her in the movies. Dainty Agnes Franey is climbing; helped by clever dancing and seldom equalled beauty.

Miss Franey says: "I don't believe in overlocking anything which helps add to your attractiveness. I am most particular about my hair and so many friends compliment me on its softness and lustre that I am sure my method of caring for it is right. Nearly all the girls I know here in New York are using it, now. It is so easy. All we do is put a little Danderine on our brushes each time we dress our hair. It makes my hair easy to dress and holds it in place wonderfully. It has gotten rid of my dandruff. It keeps my hair and scalp so comfortable, that I don't shampoo half as often as I did before. And best of all, it gives my hair a softer, more silky and lustrous appearance than anything I've ever found."

Danderine quickly removes that oily film from your hair; brings out its natural color, makes it fairly sparklet. Dandruff usually disappears when you use Danderine. Waves, "set" with it, stay in longer. It's delicately fragrant; isn't oily; doesn't show. It's economical. The 35c bottles will last several weeks. All drug stores recommend and guarantee it.

'THE YANKEES OF THE SOUTH'

People of Chile Used to Regard the Word With Rancor, but Now They're Proud of that Title— North American Investments There Exceed Half Billion.

North American investments in Chile amount to more than half a billion dollars. The harbor at Valparaiso, one of the chief ship ping points, is pictured above.

By RODNEY DUTCHER
NEA Service Writer

Washington.—Only a few years ago the term "Yankee" was one of opprobrium in Chile and a citizen of the United States there was likely to get himself spat upon.

Today the Chileans call themselves the "Yankees of the south" and things are different. The Chileans are such a proud nationality that they refuse to acknowledge the racial equality of other Latin Americans and there is much to be argued.

Meanwhile, American investments in Chile have increased from \$15,000,000 in 1912 to more than \$500,000,000 today. Before the war Britain sold 28 per cent of the foreign goods in Chile and Germany 24 per cent; now we sell 32 per cent of Chile's imports, England 17 and Germany 12. In two years, our exports of manufactured goods to Chile have increased 100 per cent.

Over a long period of years a series of incidents served to make us more than unpopular in Chile. First it was a number of bickerings over seized vessels. Then Secretary of State Blaine showed open preference for Peru in the War of the Pacific in 1879. In 1891 our minister at Santiago espoused the cause of the dictator, Balmaceda, who was ousted, but not until after we had made a futile naval attempt at intervention.

Followed the famous incident when we threatened Chile with war unless she paid \$75,000 for the life of an American sailor killed in a barroom brawl. Chile paid. There were other irritating incidents subsequently, but during the World War Britain proceeded to get herself in wrong

by violations of Chilean neutrality.

Since the war, Chile's need for American capital and a better brand of diplomacy appear to have done much to wipe out memories of friction. The Panama Canal opened up Chile to American trade and contacts; it works both ways, for we have offered an expanding market for Chile's nitrates.

We got into a jam with Chile over the Tacna-Arica dispute, but Ambassadors Henry P. Fletcher and William M. Collier applied themselves earnestly during their terms to the sort of thing Hoover had in mind when he went good will touring, and both have the affectionate regard of the Chileans today.

The psychology of the Chileans, however, probably has more to do with the present friendship between our two countries than anything else. For the Chileans are an alert, intelligent, progressive and enterprising people who see the counterpart of their racial stock in the pioneering Spaniards and the splendid Araucanian Indians.

Populated by but 4,000,000 persons and almost minute in comparison with Brazil or the Argentine, Chile is nevertheless on a full basis of international equality with either.

First by war and then by political and industrial enterprise, Chile has fought herself into her present important position. Her wealth has been torn from the minerals in her mountains and the nitrates in her deserts. She still has enormous deposits of both.

Agriculture is important to Chile and her manufactures are developing, but her copper pro-

duction has risen from 40,000 to 200,000 tons in 15 years, and iron in even less time from 60,000 to 1,500,000. Her copper is almost entirely controlled by Americans.

Lately Chile has been fighting a serious economic situation brought about by loss of her nitrate monopoly. In 1926 restrictions were taken off nitrate production and the output jumped 70 per cent. With improved methods of treatment, introduced from America, better organization and a lower export tax, it appears that Chile will continue to be the world's great mineral fertilizer producer, despite competition from the synthetic product.

About two-thirds of our imported nitrates are from Chile. Used for fertilizer, these nitrates show a 223 per cent profit for wheat lands and 246 per cent for cotton. Chile produces a million tons a year, worth about \$50,000,000.

North of Santiago is the copper-nitrate land, comprising nearly a third of Chile and virtually devoid of animal life and vegetation. Her agriculture lies to the south. Only about five per cent of her irrigable lands are now in use and 90 per cent of her farm land is in 500-acre farms or larger. There is an increasing number of small independent farmers, but the condition of the farm peons is generally very poor.

The strong nationalistic government, now in power as the result of a coup d'etat, is developing manufacturing industries as rapidly as possible, using water power extensively. Government property is estimated to be worth \$650,000,000, including 70 per cent of Chilean railroad mileage which is operated at a profit, against a public debt of about \$300,000,000.

THIS STATE EIGHTH IN LEGION'S DERBY

Membership Race on With Minnesota's "Horse" Out In the Front.

Indianapolis, Ind.—Aggie, Minnesota's entry in the nation-wide Kentucky Derby by membership race of the American Legion, is in the lead and is setting the pace for the Legion in all states according to announcement made at National Headquarters here. Aggie's lead, however, is being threatened by Sir Huon, the horse of the Michigan department which is running, in race track parlance, less than a "nose" behind. Baden Baden, Wyoming's horse, is holding third place with a comfortable lead. A total of \$450 cash prizes are offered for three winners. The race started Jan. 2 and will end May 18.

The horses represented by the different Legion departments are winners in the past of the annual Kentucky Derby. The contest was proposed because of the fact that the Legion's national convention this year will be held in Louisville, Ky., where the historic Derby race is run each year. The positions of the different horses are determined by the average percentage of the membership quota obtained by the Legion and the Auxiliary departments in the various states.

The Minnesota department is in the lead because of the splendid work of the Auxiliary in that state. The Auxiliary has attained more than 70 per cent of its 1929 quota while the Legion has only reached a little over 39 per cent of its quota which gives the Minnesota horse an average of 54 per cent. In Michigan the Legion is two per cent ahead of its Auxiliary with 55 per cent while the Wyoming Legion and Auxiliary each have approximately 53 per cent of their quotas.

The standing of the other departments, and the names of the horses representing them, follow:

- 4—Mississippi, Elwood
- 5—Iowa, Donerall
- 6—Tennessee, Joe Cotton
- 7—Virginia, Hildon
- 8—Connecticut, Morvich
- 9—Wisconsin, Day Star
- 10—New Hampshire, Manuel
- 11—Kansas, Worth
- 12—Oregon, Kingman
- 13—Alabama, Rich Count
- 14—Dist. of Col., The Field
- 15—North Dakota, Chant
- 16—N. Carolina, Halma
- 17—Hawaii, Omar Khayyam
- 18—Georgia, Exterminator
- 19—New York, Apollo
- 20—Illinois, Regret
- 21—Arkansas, Flying Ebony
- 22—Kentucky, Meridian
- 23—Pennsylvania, Spokane
- 24—Indiana, Old Rosebud
- 25—Colorado, Zev
- 26—Maine, Wintergreen
- 27—Delaware, Paul Jones
- 28—Idaho, George Smith
- 29—Maryland, Stone Street
- 30—Washington, Ponso
- 31—South Dakota, Ben All
- 32—Florida, Sir Barton
- 33—New Jersey, Plaudit
- 34—Rhode Island, Macbeth
- 35—New York, Ben Brush
- 36—Louisiana, Donau
- 37—California, Black Gold
- 38—S. Carolina, Montrose
- 39—Nebraska, His Eminence
- 40—Alaska, Whiskery
- 41—Utah, Leonatus
- 42—Missouri, Judge Himes
- 43—Massachusetts, Pink Star
- 44—Texas, Buchanan
- 45—West Virginia, Lord Murphy
- 46—Florida, Sir Barton
- 47—Arizona, Bubbling Over
- 48—Oklahoma, Azra
- 49—New Mexico, Typhoon
- 50—Nevada, Lieut. Gibson
- 51—Montana, Alan-Dale
- 52—Oregon, Auxiliary

The Legion in percentage of quota attained.

ADDISON

Officers of Goodwill Grange, No. 127, were installed Tuesday evening by Charles T. Corbet, past master of East Central Pomona Grange No. 3, assisted by Mrs. Bertha Bidwell, marshal, Mrs. Caroline Bidwell and Mrs. Gertrude Bantle, assistant marshals. The newly installed officers are as follows: Worthy Master, Harry Tomlinson; Overseer, Nathan Curtis, Lecturer, Mrs. Rose E. Goodale; Steward, Gerald Tomlinson; Asst. Steward, Paul Kratschesski (not installed); Chaplain, Mrs. Flora Griswold; Treasurer, Harold H. Harrison; Secretary, Charles T. Corbet (installed by H. H. Harrison); Gate Keeper, Richard Evans; Ceres, Mrs. Harry Tomlinson; Pomona, Ruth Moore; Flora, Laura Perkins; Lady Asst. Steward, Mrs. Amelia Trask; Member of Executive Committee for three years, retiring Master August G. Bantle.

The officers of East Hartford Grange were installed by Past Master Charles T. Corbet in the Odd Fellows Hall, East Hartford: Master, Leonard O. Bragg; Overseer, Nelson E. Smith; Lecturer, Mrs. Mabelle Edwards; Steward, Rexford Isleb; Asst. Steward, William L. Leonard; Chaplain, Mrs. C. Meritt Bailey; Treasurer, Charles R. Risley; Secretary, Miss Rose B. Wilson; Gate Keeper, Russell Clark; Ceres, Miss Edna Bragg; Pomona, Miss Hazel Stratton; Flora, Mrs. Sarah Dunsen; Lady Asst. Steward, Mrs. Gertrude Isleb; Musician, Mrs. Emma H. Chandler; Member Executive Committee for 3 years, retiring Master, Charles T. Hathaway who was presented with a past master's jewel.

Gerald Tomlinson was installed Noble Grand, to succeed Earl Mitchell at the meeting of Elm Lodge, No. 53, I.O.O.F. at Odd Fellow's Hall, Thursday evening.

Walter Mitchell is slowly recovering from the grip which has kept him indoors for a week. The mid-week service of the Buckingham Church will be at the home of Mr. and Mrs. E. S. Tomlinson.

The officers of Hillstown Grange, will be installed by Louis G. Tolles, overseer of the Connecticut State Grange at a special meeting, Monday, Jan. 28.

THREE HURT IN WRECK

Philadelphia, Jan. 22.—One man was fatally injured and two others hurt when two locomotives crashed in the Reading railroad freight yards here early today.

Leroy Hedlin, 30-year-old brakeman, was hurled under one of the engines and both legs severed causing his death shortly afterwards. Homer Barnes, 40, another brakeman sustained a badly mangled left foot and Frank Sudell, 39, engineer, severe cuts and bruises.

The trio, all on Sudell's engine, were injured when the locomotive struck the rear of another engine.

Indian boys and girls in Canada to the number of 14,782 are enrolled in the 344 Indian schools maintained by the Department of Indian Affairs.

INDIGESTION GOES QUICKLY, PLEASANTLY

When you begin to suffer from heartburn, gas or indigestion, it's usually the fault of too much acid in your stomach. The best way—the quickest way—to stop your trouble is with Phillips Milk of Magnesia. A spoonful in water neutralizes many times its volume in stomach acids—and does it instantly. The symptoms disappear in five minutes.

You will never use crude methods when you know Phillips Milk of Magnesia. And you will never allow yourself to suffer from over-acidity again. It is the standard remedy with doctors and has been for over fifty years.

Your drug store has Phillips Milk of Magnesia, in generous 25c and 50c bottles. Full directions for its many uses in every package. Insist on the genuine. A less perfect product may not act the same.

Milk of Magnesia has been the U. S. Registered trade mark of the Chas. H. Phillips Chemical Co., and its predecessor Chas. H. Phillips, since 1875.

FORMER LOCAL PRIEST DIES IN SOUTHTON

Rev. Wm. J. Doolan, Once of St. Bridget's Church Is Buried This Morning.

Rev. William J. Doolan, aged 82, former pastor of St. Bridget's R. C. church here, died at St. Thomas rectory in Southington Saturday night. He had not been in good health for several years but an attack of pneumonia was the immediate cause of death. The funeral and burial services were held this morning.

Rev. Doolan was pastor of St. Bridget's church for three years, from January 1891 to February 1894. This was during the period when the late Rev. William Lynch was assistant. Father Doolan left Manchester May 10, 1894 for Southington where he became pastor of St. Thomas' church.

Father Doolan was born in the town of Kilmarne, County Limerick, Ireland, and came to the United States when a small child. His family settled in New Haven and he was educated in that city's schools. He was an altar boy in St. Patrick's church there and decided to study for the priesthood.

Father Doolan took his preparatory course at St. Charles College in Maryland and his theological studies at St. Joseph's Seminary at Troy, N. Y. He was ordained to the priesthood in Troy on December 18, 1880. Following his ordination, he was sent by the bishop of the diocese as a curate at St. Rose's church in Meriden. He was later appointed pastor of the church in Cornwall Bridge and the mission of Sharon. Then he came to Manchester.

Father Doolan was exceptionally interested in temperance work and it was during the "license and no license" argument here that Father Doolan came into prominence by his outspoken stand for "no license." He made many friends in Manchester, not only in his parish, but outside. His passing will be keenly felt by the host of admirers he has in Manchester.

COLUMBIA

Luther Buell and Donald Woodward started Saturday morning for a motor trip to New Orleans and from there they hope to proceed to California. They expect to get back home sometime in April.

Mr. and Mrs. Wm. Wolff spent Sunday with relatives in Norwich. Mr. and Mrs. Lucius Henniquin and family of Willimantic spent the week end at the home of Mrs. Bessie Trythall.

Mid year examinations at the Windham High school started Monday and will proceed until Thursday night. Friday the pupils will have a holiday.

The thaw and heavy winds have broken up the ice in the lake so that it is all open water again, just as it was hoped that the ice would soon be thick enough for harvest.

At present that time seems in the remote future. The Ladies Aid society are invited to meet at the home of Mrs. Raymond Clarke on Wednesday afternoon at 2:30. The hostesses will be Mrs. Raymond Clarke, Mrs. Lillian Clarke and Mrs. Mary Hitchcock.

There will be another public whist at the town hall Friday evening for the benefit of the Grange. Mrs. Mary Hutchinson and Mrs. Alice Hunt are in charge of this one.

HIGH SCHOOL NOTES

An announcement has been made concerning a scholarship of \$350, to be awarded by Harvard University. The prize will be awarded to a graduate of a secondary school of Connecticut who "shows the most promise in scholarship, character and physical condition."

BUCKLAND'S P.-T. A. HOLDS ANNIVERSARY

Seventh Birthday of Influential Association Observed in Supper and Entertainment.

Residents of the Seventh District gathered in the Buckland school last evening to celebrate the seventh anniversary of the Parent-Teacher association, which has been a most potent force for the betterment of school affairs and community life since its organization, and is still going strong.

The supper was served at 6:30 under the direction of Mrs. Louis Grant and a corps of willing workers. The dishes were contributed by the housewives in the district and included cold ham, baked beans and salads, relishes and other items in generous supply. It is estimated that more than 150 attended. Mrs. Sara Robinson of Adams street made a fine birthday cake and everybody had a small portion.

An excellent program was presented under the direction of Miss Anna Sullivan one of the teachers in the Buckland school. There were violin numbers by Leonard Eccles, with Miss Arlyne Moriarty at the piano and they also played for the old-time and modern dancing which followed the entertainment. An amusing little sketch was given by three of the Pythian Sisters, Mrs. Annie Alley, Mrs. Augusta Chase and Mrs. Lena Kearnes. It was entitled "A Lady to Call." A minstrel show featuring jokes, popular songs and dancing was put on by a group of girls from the Hartford Y. W. C. A.

AMERICAN HISTORY

January 22, 1621—Erection of buildings began in Plymouth, Mass.
1791—Washington appointed commissioners to survey the District of Columbia.
1821—Mexico permitted Americans to colonize Texas.

A THOUGHT

A time to weep and a time to laugh; a time to mourn and a time to dance.—Ecc. 3:4.
Write it on your heart that every day is the best day of the year. No man has learned anything rightly until he knows that every day is Doomsday.—Emerson.

"PATRIOTS" "PACIFISTS"

Senator Oddie of Nevada expressed a very commonly held view when he told the American Society of Naval Engineers last week that the fifteen-cruiser bill was being made the object of filibuster "by a group of senators who have listened to representatives of organizations which are un-American in principle and engaged in scattering malicious statements and preaching a doctrine of destructive pacifism."
 In other words if you happen to be so mentally organized that you see danger instead of safety, folly instead of wisdom, waste of security instead of security, in the building of ships already obsolete as engines of war, and if you dare to list up your voice and say so you are a coward and a traitor and willing to let any foreign foot that pleases rest on the neck of your nation.

So might have spoken a Chinese "patriot" in the last century if, when Great Britain seized Hong Kong, he had proposed the appropriation of a billion yen for the construction of thousands of paper dragons to scare off the British feet and soldiers, and if some group of mandarins, "animated by un-Chinese sentiments" had opposed the proposal as useless, absurd and provocative of disaster. They, of course, would have been "pacifists"; the pro-dragon advocates the only sane and heroic and worthwhile people in China.

With people like Senator Oddie we would take issue on two points—one is the military question of whether, in view of the flux of the science of war resulting from air navigation, there is the slightest assurance that a present-day cruiser would be of any more use five years hence than the ancient paper dragons; the other is whether he or anybody else has the slightest historic justification for the use of the term "destructive pacifism."

Absolutely a deaf ear is turned by the Oddie and by the Navy League and by all those noisy and petulant bodies which, terming themselves patriotic, are mere jingo jinglers, to the assertions of those experts in air warfare who insist that surface ships are already obsolete and that there is no surface navy in the world that would not be destroyed, with all its personnel, in the first six months of another war. Shutting their eyes to this possibility—refusing even to consider or debate it—the big navy people go ramming ahead with their plans for more and more ships, at tremendous cost, and depending for success on their ability to silence all opposition with threat of excommunication from the membership of the loyal.

And when, in the world's history, has there been such a thing as "destructive pacifism"? What nation or what people has ever lost its territory or its integrity because of its devotion to peace? None. Nations and peoples have been crushed because they were worse armed or worse disciplined or fewer in numbers than their assailants, but not because they were pacifists; because there has never been a pacifist nation.

The conquest of Mexico by the Spaniards is often told in terms that would lead to the belief that here was a powerful military people subduing one given over to the arts of peace. Nothing could be farther from the truth. The Aztecs were extremely warlike. They had developed armament to a point far beyond any of their neighbors of the western world. They were enormously military—sufficiently so to have pleased any navy-leader of that day. They had great armies. Everybody on the hemisphere was scared blue by them. They had

just, no doubt, spent a tremendous lot of money or its equivalent on thousands of obsidian and glass war clubs and spear points and wadded cotton armor when Cortez came along. But unfortunately Cortez had guns and the Aztecs didn't. Unfortunately, too, the arms and the trained soldiers of the Aztecs made them cocky and full of belligerency. They were so up-to-date that they were afraid of nobody—and the Spaniards slaughtered them. They would have been better off if they had had nothing but their bare hands. Then they at least could have run and hid till the opportunity came to catch the Spaniards asleep and kill them with stones.

If it be pacifism to oppose dependence of surface ships which in a war would be blown up like fire-crackers in a package by submarines from below and by aircraft from above, then there are a lot of pacifists in the United States. They would no such make-believe preparedness and no such results of over-confidence and jingoism and subsequent disaster as those of the Aztecs. The country is to be congratulated that it has some of that kind of pacifists in Congress.

HONESTY IN DIVORCE

The Hartford Get-Together Club may or may not have appreciated the sardonic humor of coupling the topic of divorce with the club's name, but in any event it tackled with high valor, last night, the subject, "Should Divorce Be Allowed by Mutual Consent in Connecticut?"

As this subject is bound to become an urgent one in this state before many years it perhaps might as well get a running start at a meeting of the Hartford Get-Together Club as anywhere else—and it got a good one. Data for a tremendous lot of discussion was provided by Judge Newell Jennings of the Superior Court when he declared that more than 87 per cent of the decrees of divorce issued by the courts of this state are practically obtained through mutual consent, as matters stand. This will be something of a surprise to many, though it is well known enough that in some proportion of these proceedings there is collusion. That the proportion is as great as Judge Jennings tells us not many persons aside from the courts themselves and the divorce attorneys probably suspected. Yet the word of Judge Jennings is not, of course, open to dispute. We may accept 87 per cent of collusive divorces as the minimum among the separations granted in Connecticut.

Following the judge's cold statement of facts, Professor Frank H. Hankins of Smith college argued that if 87 per cent of the divorces are actually granted because the parties mutually agree to terminate their marital relations, the only effect of legislation which does not recognize mutual agreement as a basis for divorce is to put a premium on hypocrisy. He was briefly answered by Dr. C. W. Margold of the Michigan State Normal School, who was too ill to fully pursue his subject but whose line of argument followed sociological rather than formal religious lines.

The problem of marriage and divorce laws is one of the most intricate with which society is faced. It is unfortunately one of those problems which it is impossible to discuss freely without arousing angry resentment or without stepping on religious toes. Nevertheless, the situation presented by Judge Jennings is one that must command the serious thought of all good citizens—for it is a heavy responsibility on the part of the state to put a premium on wholesale perjury and deceit.

Views differ fundamentally on the whole institution of divorce, yet every state in the American Union with the single exception of South Carolina provides for the dissolution of the marriage ties on one ground or another—and we have never had reason to believe that South Carolina's civilization is spiritually, morally and mentally superior to that of some of the other states if any of them.

Whether the state of Connecticut shall or shall not take the lead in adopting a franker way of ending incompatible marriages, than through collusive perjury, it is a proper and may eventually prove a profitable topic for general debate.

WEST CONFIRMED

The Senate's acceptance of the appointment of Roy O. West as secretary of the Interior, was, of course, to have been expected. It might also have been anticipated by President Coolidge, when the appointment was made, that there would be a row over it. There is an aroma about the name of Insull.

FACTS ABOUT CONNECTICUT
Compiled by the CONNECTICUT CHAMBER OF COMMERCE

(218) 6,000 Licensed Billboards in State

In addition to licensing motion picture houses, the state police department has charge of the licensing of outdoor advertising, amusement parks and auctioneers and issuing permits to carry weapons and to store explosives.

The last report of the department shows there are 417 licensed outdoor advertisers in Connecticut as against 155 six years ago. There are in the state 6,169 licensed signs, which is a thousand more than in 1921. The number of square feet licensed, however, is only slightly more than it was that year, the total last year being 2,642,700 as against 2,295,282 in 1921.

At the beginning of last year there were outstanding 1,581 permits to carry a pistol or a revolver. Of this number, 467 were new permits issued during the year and 1,114 were renewals from the previous year. In 1921, 375 permits were issued and 834 permits were renewed.

The number of licenses to conduct amusements in amusement parks has decreased considerably the last few years. In 1922, 161 such permits were issued. Last year only 71 such permits were issued. Twenty-three storage licenses for explosives were issued last year. In addition, 156 licenses to transport explosives were issued. During 1922, 14 permits to store and deal in explosives and 84 permits to transport explosives were issued.

Eight licenses to sell jewelry and kindred articles at auction were issued during the year.

IN NEW YORK

New York, Jan. 22.—They are beginning to call Manhattan "the sandwich isle."

Each day the bite and nibble grows mightier than the meal. The law of grab, bite and run prevails and each week the sandwich industry becomes a more formidable one. Not only are the drug stores growing by leaps and bounds on their soda fountain trade, but the various agencies of distribution are making it possible to bring the humble "ham on rye" to the desks of the mighty.

In the Wall Street section, one concern now has a comely assortment of young women who make a noon-time canvas of the skyscraper offices, taking the sandwich and coffee orders and attending to their eventual distribution.

Since the stock market began to prance so wildly about, the Exchange neighborhood has noted the appearance of basket peddlers. Cheap candy is a favorite confection among a great many men who ought to know better. It is no novelty to see frock-coated gent, whose investment in an Exchange seat involves more than half a million dollars, munching upon a marshmallow-filled bar, the par value of which is a nickel or a dime.

The fact is that the more money that is being made on the "market," the greater is the fall off in trade at cafes of the better class. The market dealers have no time to go out for food. They either go without, or depend on the sandwich concessionaries.

Meanwhile a few epicures attempt to keep the gastronomic traditions alive. A few cafe Columbiennes fare forth and eat here and there, spreading the news about to the ill-fated "cognoscenti."

One of the leaders of this group is none other than George Jean Nathan, who after a year of experimenting issued the challenge that the food to be found in Manhattan was as good, or better, than the widely heralded food of Europe. He declared that it was just a matter of knowing where to go. Whereupon he issued a list of about one hundred places where certain dishes are featured.

Many of these are small places with a small following, who jealously hide their secret from the rest of the world lest it grow "popular" and go into the decline that so often results from over popularity. Where a small and jealous group is thus entrenched, the arrival of the "cognoscenti" is resented.

For some time Monetta's was the favorite resort of the Park Row newspaper celebrities. But now, as they say, it has "fallen to the mob." Nathan was seen there a few weeks ago and the "regulars" are finding their exclusiveness invaded.

Cheffard's was another little place, featuring French cooking, which for a long time was frequented by a small group of gastronomic experts. Then, one day, a New York cartoonist "discovered" it, and drew a picture about it for his paper. Within a few weeks this cartoon had been reprinted on the menu cover and all the "trailers" were arriving to look it over.

Semi-Annual Clearance Sale of LINOLEUM REMNANTS

On taking stock we find about a thousand yards of linoleum and felt base floor coverings either in Remnants or in designs which have been discontinued.

These have all been re-marked as below, and there are some real choice things in the different lots.

See our vestibule show window and linoleum department in the basement.

Lot No. 1 at 19c

Includes Remnants of felt base floor coverings in a number of patterns. Formerly 59c to 79c.

Lot No. 4 at \$1.00

Includes 200 yards of heavy and medium brown plain Linoleum—\$1.00 sq. yd. Regular price, \$2.85.

Lot No. 2 at 25c to \$3.

Includes a large number of small pieces from one half yard to 6 yards in all grades. Price is for the entire piece.

Lot No. 5 at \$1.50

Includes discontinued patterns of Armstrong's, Blabon's, Congoleum and Greenwich linoleums. Regularly from \$2.85 to \$3.75.

Lot No. 3 at 59c

Includes 100 yards Printed linoleum—cork back—sold regularly for \$1.25 yard.

Have your linoleum laid right—in cement over paper lining. Our men can do it best.

THE CURE OF EPILEPSY.

Some investigators such as the famous English surgeon, Sir Archibud Lane, have pointed out that there is a connection between intestinal poisoning and certain forms of epilepsy. Dr. Lane even went so far as to try to cure patients by removing a section of the intestine. This was an attempt to get rid of a particularly weak place in the intestine where there was evidence that much absorption of poison was taking place. The cases operated on showed a marked improvement for the first few months but after a short time the trouble usually returned.

The theory that a definite intestinal toxemia is the most frequent cause of an attack of epilepsy seems to be proven by the fact that if the colon and small intestine are kept thoroughly clean, future attacks may be avoided. In order to get the best results, it is advisable, at the start of the treatment, to take a fruit fast for two or three weeks. Only one of the acid fruits may be used, or a different one each day. With this disease, as with many others, either the orange or the grapefruit seems to be the best fruit to use to assist in producing the best eliminations of toxins.

Occasionally the spells increase in number during the first few days of the fast and then abruptly disappear, but in most cases the seizures stop at once as soon as the fast is started. In some of the cases coming under my supervision, patients having as many as twenty-five spells a day had no recurrence after starting the eliminative treatment.

If the patient has been taking luminal, bromids, or glycerin,

chloral or other sedatives or depressors, such treatment must be discontinued at the start of the fasting treatment or no good results can be expected. While these drugs are excellent in warding off attacks and have proved a great relief to sufferers from epilepsy, their action interferes with the real cure through fasting and dieting.

A treatment by manual manipulation of the bowels will prove helpful in stimulating peristaltic action and will assist in intestinal elimination. A prolapsed or kinked colon, which would result in intestinal putrefaction, should be corrected by suitable physiotherapy. If this is not done, it would be necessary for the patient to continue the use of enemas indefinitely.

Two or three enemas should be used daily all during the fasting period and at least one each day for a month or two after starting on the regular diet regime, but with a complete elimination of carbohydrates for several months. The menus described in my newspaper columns may be used by leaving out the meals where starches are suggested, and substituting a meal of fruit or non-starchy vegetables. The enemas will guarantee a clean colon until such time as it seems wise to wait for the bowels to move normally. This should not be attempted for at least a month or two after the fast.

These directions are carefully adhered to, the majority of the cases of epilepsy will prove to be readily curable.

QUESTIONS AND ANSWERS.

Pin Worms.
 Question: Mrs. E. asks: "Will you please give your advice on pin worms both in adults and children?"

How to treat them. Are they serious?"
 Answer: Pin worms are not particularly injurious but indicate an unclean condition of your colon which you can quickly get rid of through a short course of enemas, using them at least twice daily for several days.

Raisins.
 Question: Mrs. A. C. T. writes: "I am on your diet for rheumatism. You state to use cooked raisins. Is it all right to eat them uncooked also, as a fruit?"
 Answer: It is just as well to use the dried raisins without being cooked, but raisins are a very nourishing food and should not be used in too large quantities.

Oily Skin.
 Question: G. T. S. asks: "What would cause oily skin and hair when plenty of vegetables and milk are taken, and sweets and pastry but seldom? How can this be overcome?"
 Answer: The butter fat from milk or cream, and the oil from olives, avocados, and such oily fruit may tend to promote the oily skin if these foods are used in excess. Stop all vegetables, animal and fruit fats for a short time and then learn to use the right amount which your system needs.

HITCHCOCK BEST

New York, Jan. 22.—Tommy Hitchcock today stands as the best polo player in the United States. The Annual announcement of the handicap ratings of the United States Polo Association shows the brilliant Tommy to be the only ten-goal player remaining in the country, and with but one player within two goals of him.

Winston Guest, former internationalist and former Yale star, moved from eight to nine goals, to stand alone in second place.

A weekly newspaper says the earth's coldest spot is Verkhoysk, Siberia. That's not definite enough. The earth's coldest spot is a street car in Verkhoysk, Siberia.

Vienna Professor Asserts Pepsin Is Valuable For Cancer Treatment

Vienna.—Cancer is no longer incurable. It is not a contagious disease. The disease, or rather the disposition to it, is hereditary, though it may also be acquired. The cause of cancer is an abnormality of the digestive organs (or more precisely of the stomach), which fact explains, why the most civilized nations, and aged persons are leading the cancer statistics. The "civilized," irrational nourishment, and the old or sick (worn-out) glands of the stomach are the underlying causes of ulcer and cancer.

These are the most important conclusions drawn from the discovery of the Viennese Professor Karl Glassner, that the lack of pepsin promotes, while the subcutaneous injections of pepsin prevent the development of ulcerous and cancerous tumors.

Pepsin's Usefulness
Pepsin is an essential constituent of the gastric juice, and its specific task is (so it was believed until now) to aid digestion. Professor Glassner has proved, however, that the pepsin-producing glands of the stomach have also a second important function, as they deliver a certain part of their secretion (called hormone) directly into the blood circulation. This hormone, circulating through the arteries and veins of the entire body, has a controlling effect on the growth of certain tissues, in a similar way as, for instance, the hormone of the pancreas regulates the sugar supply of the organism.

"I like the comparison with the pancreas," Professor Glassner said to me, talking about his recent scientific publications in his Vienna home, "as it is well-known that he is somewhat skeptical, even a few years ago American scientists succeeded in preparing an extract from the pancreas, which they named 'Insulin,' and which cured thousands of victims of diabetes simply by replacing the hormone which their sick gland could not supply."

"My method is a similar one. I administer to my cancer and ulcer patients, whose stomach glands fail to produce the necessary quantity of their specific hormone, a pepsin-extract won from calf's liver, and the result is that the tumor ceases to grow or to spread, which is naturally followed by a general improvement. In several cases I had an opportunity to observe my patients for two or three years, and I can state that my treatment proved to be a thorough and lasting cure."

Animal Experiments
"I started by experiments on animals, later I experimented on my own body and only after having undisputable results, did I introduce my new treatment in my hospital. There I have treated about 120 patients, (as a matter of fact a considerable number of them had ulcer of the stomach) with fine results."

"I would not state, however, that I have completely solved the cancer problem. 100 years of research work has failed to produce even an acceptable theory of the origin and nature of cancer, how could a few years work of one physician bring about a total, scientific explanation and a practical discipline? I am convinced, nevertheless, that I have found the way, which leads us to the understanding and the healing of ulcerous and cancerous diseases."

Professor Glassner is 52 years old and is the head physician of the Vienna Rainer Hospital's Medical Department. As a true scientist, when his own work is concerned.

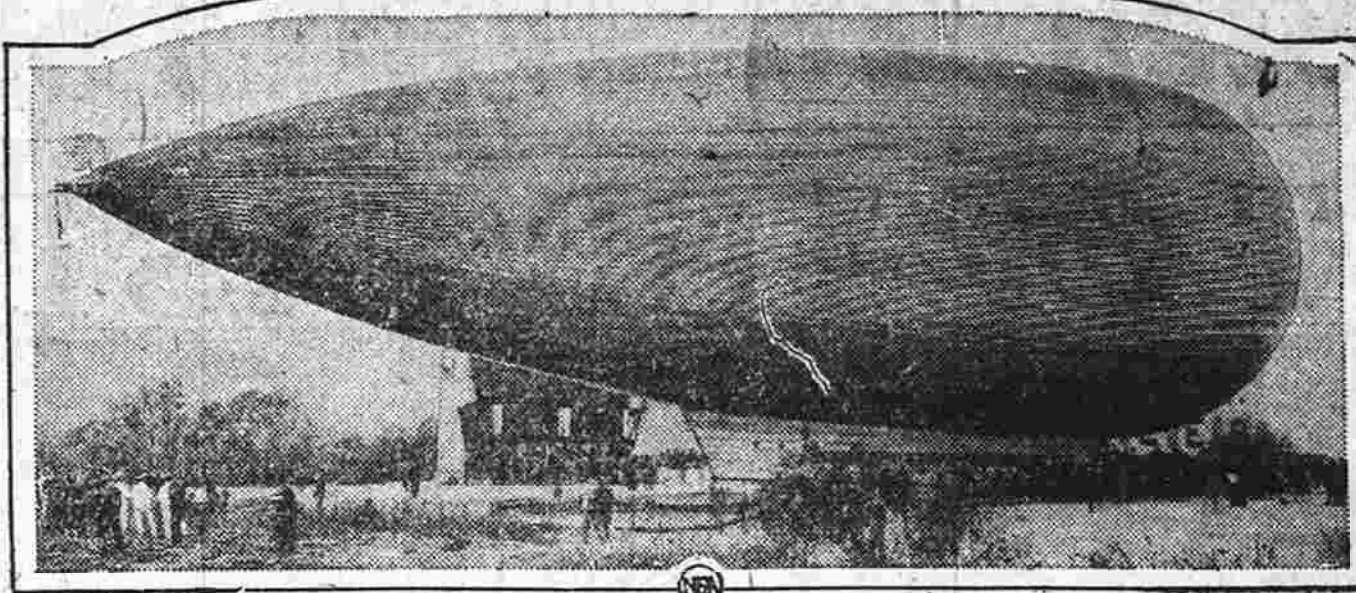

BAD CHIMNEY FIRE IN THE NORTH END

Stubborn Blaze Calls Out Two Companies on Woodbridge Street Last Night.

Both companies of the Manchester Fire department fought a stubborn chimney fire on Woodbridge street at 8:30 last evening. The blaze was in a two-family house in the tenement at 34 Woodbridge street, occupied by Martin Welsh. Several tanks of chemical were necessary to extinguish the fire, but no perceptible damage was done. When the firemen arrived at the scene the sparks were shooting out of the chimney and dropping on to the roof. Record time was made by the two companies in getting to the fire after the alarm had sounded.

Two years of college work after high school graduation will be required for admission to law schools in New York state after October 1929.

All-Metal Steam Dirigible Soon Will Fly

The first all-metal steam-driven dirigible ever constructed is due to take the air soon at Glendale, Calif., on its first flight. Here is the City of Glendale as it appeared when it was brought from its hangar the other day for preliminary tests, before the motors were installed. The big silver fish is made of duralumin. Captain T. B. Slate, builder and designer, says it will be the first of a fleet of transcontinental air liners.

Chairman Robinson of the Federal Radio Commission feels that the air should be censured of "cuss words," but what with static and sopranos, it will take more than an edict of the commission to regulate father.

Bishop Hughes urges an appeal to bootleggers through newspaper advertising "to stop such business and give yourselves to God." The idea might be even more successful if they could be persuaded to take a drink of their own stuff.

Co-eds in one of the University of Wisconsin dormitories have asked regents to provide a place for them to smoke. Pretty soon the men will be demanding a place to practice that effeminate habit, too.

Administration of the Schick test for diphtheria and the Dick test for scarlet fever is compulsory for all pupils between certain ages in government schools of Mexico.

SHOE SALE

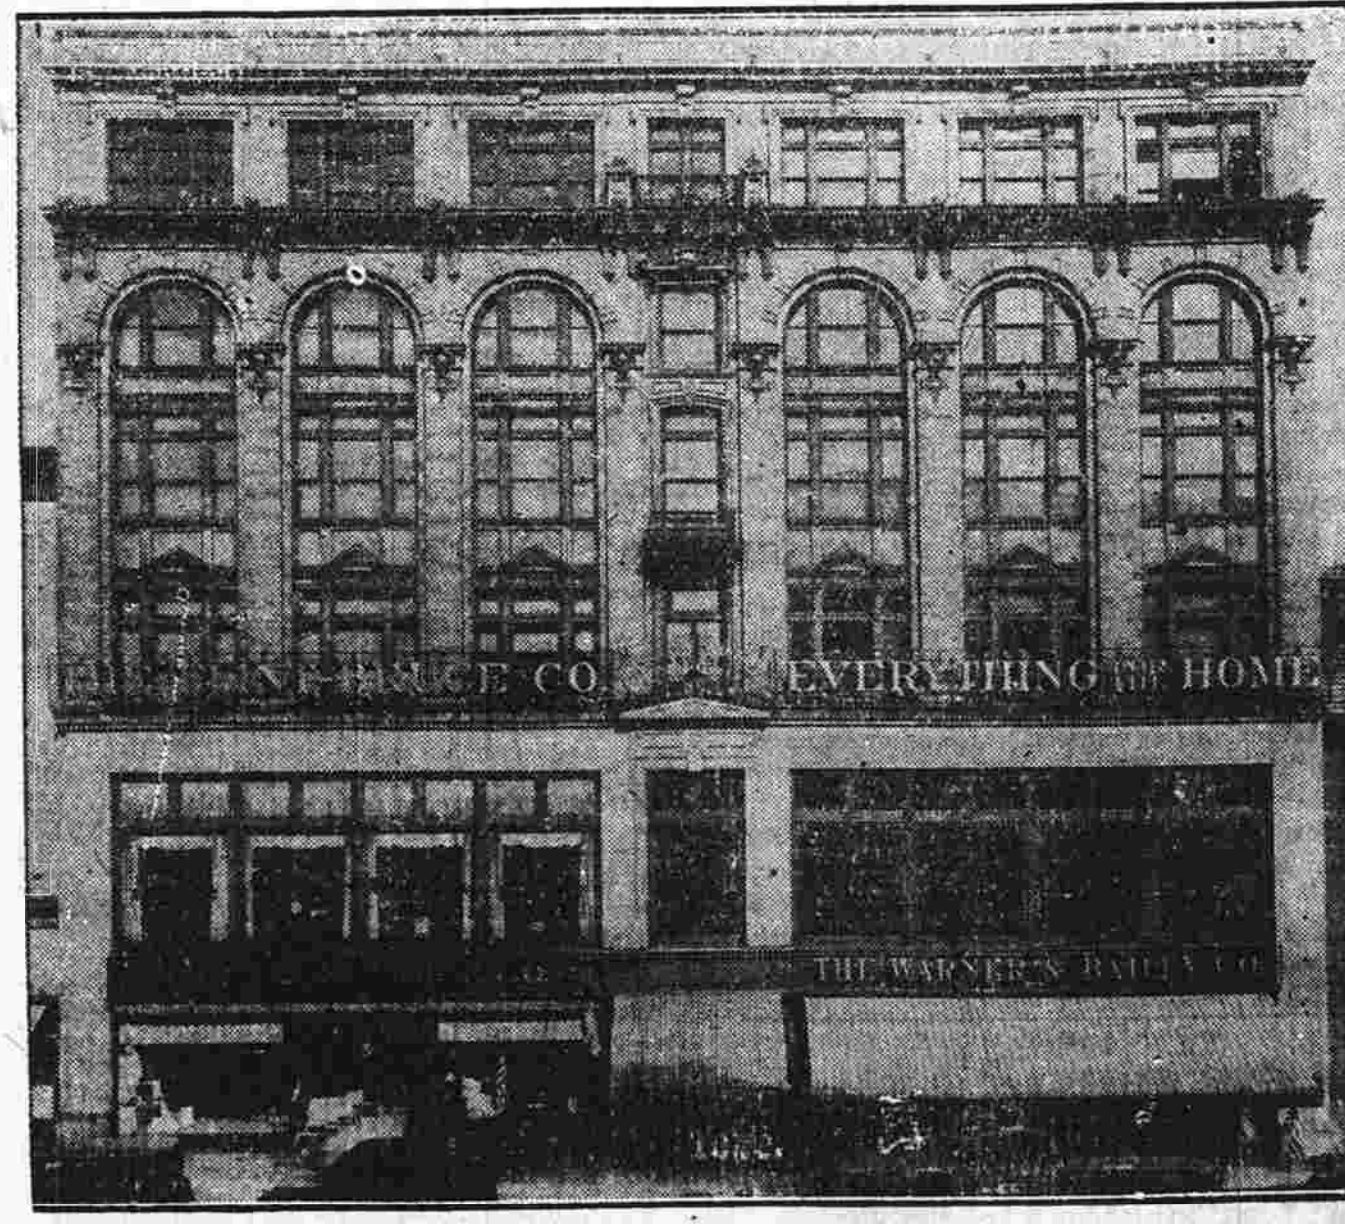

THE SEMI-ANNUAL SALE!

Now In Progress

IT IS the fixed policy of this store to sell good furniture unexcelled in style and quality, at substantially lower prices than generally prevail in this community. It is further the policy to hold but two storewide sales each year.

Twice a year we clear all stocks—twice a year we discount the prices of all our things to speed their movement from our floors and put our store in order.

The sale is on—the drastic discounts are in force. Every piece of furniture in the store—complete groups for the bedroom, dining room, living room—hundreds of odd pieces—the practical things in the bedding department—floor coverings—all are discounted—all are less—many as much as 50%.

The FLINT-BRUCE Co.

SELLING GOOD FURNITURE FOR 37 YEARS
103 ASYLUM ST.—150 TRUMBULL ST.

HARTFORD

HARTFORD

SYNDICATE BUYING: We hold membership in the Century Furniture Associates, a buying syndicate of 25 fine furniture stores in New England and the Middle West. Orders 25 times larger than the individual store could make, naturally mean sharp discounts, which in turn are passed on to you!

EXCLUSIVE LINES: Most manufacturers of nationally advertised lines prefer to have their products sold exclusively by one store in each city. You will find the labels of many familiar products on the furniture on our floors, and will find them nowhere else in Hartford.

DELIVERIES FREE of charge will be made by our own trucks within a radius of 50 miles. To more distant points we will ship prepaid to your nearest express or freight office. This applies to all sale goods purchased during this Semi-Annual Sale. All deliveries will be prompt, also!

STORE HOURS: Open daily until six o'clock. During the sale, of course, store will be opened for you any evening if you make an appointment with one of our salesmen. Don't hesitate to phone or ask, if you wish to make a selection during the evening.

FREE STORAGE: If you wish to select pieces during this sale and avail yourself of the savings now possible, but do not wish them delivered just now, remember they will be held for future delivery, without charge. For those now renting a furnished apartment or who intend to move in the spring, this is a real convenience.

MAIL OR PHONE ORDERS: Mail and telephone orders are always given prompt and personal attention. All illustrations in our advertising, picture exactly the goods on sale. Each article, you will find, is numbered for convenience in ordering. Please give it when writing or phoning.

Simple and Safe To Use

The Universal Heating Pad

By changing the position of the switch an approximate heat of 125 degrees at low, 160 degrees at medium and 195 degrees at high is assured the user. Invaluable for children and invalids.

Christner Dangerous Man Says Walsh After Visit

Watches Him Work Out and Discovers He Is as Good as They Say He Is—Has Queer Style.

BY DAVIS J. WALSH

New York, Jan. 22.—Being a bright, very alert youth, full of enterprise and strength of character, the writer went forth to the gymnasium yesterday to see K. O. Christner, when the barage was ended, that only two things will be left after K. O.'s fight with Sharkey on Friday night, namely, New York by an early train and Jack Sharkey on the floor. As an audible fighter, Christner is the most dangerous man we have had around here since the days when Sharkey himself was in good tongue.

Very Confident
The funny thing about this is that Christner makes you disposed to take him somewhat seriously, both by what he does in the training ring and by what he says out of it. He says he is going to tip Sharkey over as he tipped Knute Hansen and there are plenty of sharpshooters in town who give him a good chance to do it. As for K. O. and his manager, Tom Lennon, they don't think this is a chance at all; they really believe the matter is settled.

Usually a manager and his fighter are good for a laugh when they start putting on an act like that but, somehow, you are impressed in spite of yourself by this pair. They are so earnest, so convinced that what they say will happen, simply must happen. If the man was a mug in the ring, you could listen to him and then turn your attention to something important. But I wouldn't care to say that the man I saw in there yesterday is a mug. He looked the part of a crude fighter but a good one.

Keeps Jaw Protected
For one thing, he seems to be a crowding fighter who at the same time keeps his jaw protected. There are not too many of that kind. For another thing, he seems to be a right fair two-handed puncher, whereas we had been led to believe that he was right hand crazy. A man like that would have his troubles tagging Sharkey. But if he crowds the boy right, punching industriously, as he did yesterday, there is going to be a prize fight on Friday night.

Christner throws a lot of punches from the third, fourth and fifth great good. Sharkey weaves away from that kind. He won't weave and can't when you start "popping" them into the sun parlor, for the weave is designed mostly for head protection. Christner looked as though he was in the ring. It was about yesterday when he got in close. He uses a trick crouch which gives him the appearance of awkwardness but, in reality, serves to wrap that left shoulder well up around his jaw. The gent might look better but I have seen many who looked good only to defend the eyesight.

And, really, they ought to pay off somewhere on confidence, particularly when it appears to be as sincere as Christner's. He talked a lot yesterday and most of it was about himself—how the referee doesn't find a laugh by telling Hanson he was expected to win as soon as possible; how he, Christner, took on Dempsey, unafraid, in a workout when he was the rawest of novices. But, after all, wasn't he dealing with the most aggressive of all subjects? Show me the man who doesn't find himself an absorbing topic and I'll show you a nice, new ringless step-ladder.

MEHLHORN'S CARD WORLD'S RECORD

"Wild Bill" Completes 72 Hole Course at El Paso in 271 Strokes.

El Paso, Texas, Jan. 21.—Stroking his way under par, "Wild" Bill Mehlhorn hung up a new world's record for a 72-hole course to win the annual El Paso golf tournament by a score of 271 here yesterday.

Mehlhorn turned in a score of 137 for the first 36 holes Saturday and 134 for the 36 holes Sunday, giving him a total of 271.

Bobby Cruikshank, after making a good showing at the start, fell below on the last nine holes to turn in a card of 277, for second honors.

Al Espinosa and Tony Manero were tied for third place with 278 and Al Watrous, fifth, with 282.

HE DIDN'T GET THE JOB.

Among those who tried to get the football coaching job at Texas A. and M. when Dana X. Bible resigned was Johnny Maubetsch, former Michigan star and at present coach of the Oklahoma Aggies.

FIFTY BOWLERS AVERAGING OVER HUNDRED IN LOOP

Conran Leads by Slight Margin Including Last Week's Matches; Kebert Close Trailer—The List.

Nearly fifty bowlers in The Herald League have an average of over 100 including last week's games. Tommy Conran leads the pack having a two pin advantage over Charlie Kebert, his teammate. Frank Anderson and Curtis are close followers.

Here are the averages up to date for all over a hundred:

Name	Games	Pinsfall	Ave.
Conran	24	2762	115.2
Kebert	16	1840	115.
F. Anderson	30	3407	113.17
Curtis	27	3048	112.24
Beletti	30	3249	111.19
Suble	30	3342	111.12

FIVE JUNIOR BOYS REACH THE FINALS

More Qualifying Opportunities for Seniors and Juniors Tomorrow; Last Night's Results.

Five grammar school boys qualified for the junior speed skating town championship finals to be held next Sunday in conjunction with the ice carnival, last night at Center Street.

The result of the races was as follows: 220 yard dash, first heat won by Stafford North at 27 Lilley street, with William Mack of 16 Knox street, second; second heat, won by Norman Rowell of Midland Apartments with Jack Bellamy of 11 Rosemary place. 440 yard dash, first heat, won by William Back with Stafford North, second; second heat, won by Norman Rowell with George Ecabert of 28 Bigelow street, second. Other junior trial heats will be held at 4 o'clock tomorrow afternoon with senior qualification rounds at 7:45 in the evening. The Freshmen and Sophomore hockey teams at the High school will meet tomorrow afternoon at 3 o'clock.

KOVIS' TEAM WINS

Kovis' All-Stars beat the Parochial Alumni Saturday afternoon at the Parochial school by a 29 to 28 score. Kovis got the winning basket.

OUT OF THE PAST

When Jim Jeffries, heralded as the savior of the white race, came out of retirement to wrest the heavyweight championship from Jack Johnson, a real old-fashioned scene of match making was enacted with champagne and everything. The scene is depicted here. Johnson is in the lower left corner of the picture. Two seats away was the magnificent Jeffries, with his back turned in scorn toward the negro champion. Jeffries was not known as the hollow shell that day. The man with the walrus mustache, extreme right in the second row, was Bob Vernon, the famous wine agent of New York, now dead.

On his right appears Abe Attell, the featherweight champion. Between Johnson and Jeffries also sporting a "walrus", is George Little, Johnson's manager, and on his right, looking over Johnson's shoulder is Hype Igoe, New York Boxing writer. Directly behind Jeffries is Tad (T. A. D. Dorgan), the cartoonist. Tex Rickard, who got the match with a bid of \$101,000, is not shown in the picture. The gathering took place in Hoboken, N. J., as it was a felony in New York at that time to have any part of a prize fight. This is but the first of a series of "Out of the Past" reminiscences to be published in The Herald the next few weeks.

CARDINALS PLAY NATIONALS HERE

New Britain Team Opposes Locals at Hollister Gym Tomorrow Night; Fast Preliminary.

The Hollister Street School gym will be the scene of two fast basketball games Wednesday night. In the main event the Cardinals will stack up against the fast Nationals of New Britain. The Nationals are considered the fastest amateur team in the state. Nevertheless, the Cardinals are confident of breaking their enviable record. The preliminary game will find the Warriors doing battle with the Rovers of Glastonbury. The Glastonbury team is composed mostly of former Trade School stars. The first game will get under way at 7:45 sharp. The Cardinal officials are planning to have dancing follow their games in the future.

STRIBLING PICKED TO BEAT SHARKEY

New Orleans, La., Jan. 22.—It will be just too bad for Jack Sharkey when Young Stribling fights him in Miami. Stribling will stop him! That's the opinion of Martin Burke, who has been knocked out by Stribling in the first round in recent months, and who fought Gene Tunney twice and has served as Jack Dempsey's sparring partner. "Stribling will stop Sharkey," he says. "In fact, he can stop any of them. Even the retired champion. He has improved wonderfully in recent months. He has a good heavy punch and is quick to deliver it. I know—because he gave it to me twice in the first round in recent months."

Last Night Fights

At Memphis, Tenn. — W. L. (Young) Stribling, Macon, Ga., kayoed Sully Montgomery, Fort Worth, Texas, 2nd. At New York — Tiger Payne, Australian negro, won decision over George Courtney, Oklahoma cowboy, 10. At Newark, N. J. — Max Schmeling, German Heavyweight, stopped Pedro Corri, New York, 1st round. At Fall River, Mass. — Chick Suggs, New Bedford, Mass., out-pointed Jackie Dunahue, Boston featherweight, 8. At Buffalo, N. Y. — Jimmy Slattery, Buffalo light-heavyweight, knocked out Jimmy Mahoney, Chicago, 3rd round. At Philadelphia — Harry Blitman, Philadelphia, won decision over Babe Herman, California light-weight, 10.

HERE'S THE DOPE
by Tom Stowe

BIG SCORES EASIER TODAY.

Bowling isn't the scientific game it used to be two or three years ago. It's much easier to hit big scores now than it used to be. The reason is that the pins are larger and the balls both bigger and heavier. When Cheney Brothers' mill league was in operation, they had some mighty good bowlers but the scores and averages do not compare with those made today. They used to use a four and three-quarter inch ball which weighed between ten and twelve ounces. Today it is mostly a 4-3/4 inch or a five inch one. What was known as the old Connecticut ducks were in vogue then but the pin used today is at least three-quarters of an inch bigger. These facts are not offered as a means of ridiculing the big scores which are being rolled nowadays but rather in defense of our bowlers of yesteryear whose efforts look amateurish compared with those of today but were equally good. Take for instance the three-string record of 431 which "Ike" Cole hit in the mill league several years ago. This was made with the small light balls and the small sized pins. The same holds for Ernie Wilkie's sensational high single record of 191 which may never be broken in Manchester. Cole's record stood until the other night when Domenic Beletti broke it with 433 using the larger pins. Then along came Billy Wiganowski the same night and he went Beletti three better by hitting 436. However, Wiganowski used the five-inch ball which is more effective than the four and three-quarters. Howard Murphy's sensational bowling against Norman Curtis the other afternoon was made possible by larger pins but he also used the heavy four and three-quarter inch ball. This article is not intended to detract from the efforts of the bowlers of today, but rather to give justice to the ones of a few years back. It does not take any credit from Murphy for his great exhibition against Curtis, for the latter had an equal chance. However, Murphy is the source of most of my information on this subject. He admits himself that the scores today are not as amazing as they might seem to someone who has not been keeping close tabs on the game. Incidentally Howard Murphy says that he and Jack Saldella stand ready to bowl any two men in town with the four and three-quarter inch ball for any amount of money. Murphy, himself, is willing to take on anyone who wishes a shot at the title, but declares that the five-inch ball must not be used.

The Nut Cracker
From Akron comes the tire-builder, Kayo Christner, with a few modest words to speak about Jack Sharkey. Says the tire man: "SHARKEY? JUST A BIG OVER-RATED BUM. I'LL TELL YOU WHAT KIND OF A FIGHTER THIS SHARKEY IS. AFTER GETTING PAST AT HIS JAW, THEY ALL ACT THE SAME WAY WHEN THEY'RE HIT ON THE CHIN."

- Kayo, my boy, you've walked all over sacred soil!
- Well, until Sir Oracle hears!
- You talking like that? You're swapping vocal swings with the champion resonant pug!
- List of them all.

It begins to appear that Sharkey has been crossed up in the verbal preliminaries. This in going to be a swell chin affair, anyway.

Christner telegraphs his punches, according to those who saw him tuck away Knute Hansen. Don't talk, Kayo, telegraph.

Tons and tons of New Zealand cheese arrived in Brooklyn the other day. Ship news reporters passed it up, however, and cannot give you any of the contemplated boxing engagements.

SEVERAL NEW YORK PRO-NOSTIGATORS ARE PREDICTING VICTORY FOR SCHMELING OVER JOHN RISSKO WHEN THEY MEET IN THE GARDEN. SCHMELING VICTORY! (TUMBLING WITHOUT AND CRISPS OF "TRAMPLE HIM!")

Glad to hear that Bill Klem isn't going to retire after all. Bill says he never yet called one wrong, and we'd like to see him stick around until he does.

Herb Pennock is one of the few pitchers in the big leagues who bats either right or left-handed. He can miss 'em equally well from either side.

- Jack Dempsey has invested some of his gift in jockey clubs and dog tracks. Now he'll have to fight!

K. O. Christner of Akron probably will not be able to fasten the old haymaker on Jack Sharkey's chin, but wouldn't it be an enjoyable winter if he should?

MAY BE HARD TO REPLACE. Many Cleveland sports writers think Summa's place in right field will be hard to replace. Not so much his hitting, but his excellent fielding.

RUTH'S PLANS. New York, Jan. 22.—When the first squad of the champion New York Yankees starts for training camp on Feb. 23, Babe Ruth will be a passenger. Coming out of seclusion, the home run king expressed a desire to get into condition as soon as possible in preparation for the season race.

YOU and BASKETBALL
By H. C. Carlson, M. D.
University of Pittsburgh Coach.

Practice sessions should include shooting, dribbling, pivoting, and, to some extent, passing and cutting. The thought of improvement should be uppermost in the mind. Individuals can report early and practice by themselves, but this must be done conscientiously and properly. In any sport, there is an intrinsic value in lining up everyone at the start for a few calisthenics. There is an initial freedom. There is generated more good will and enthusiasm. After calisthenics comes the practice of pivots, with and without the ball, with everyone performing the same part of the pivot at the same time. The dribble should follow.

NOW SLIDES
by Henry L. Barrell

THIS IS SERMON DAY. There was a little item in the Cleveland papers the other day quoting Mat Hinkle, the boxing promoter. Hinkle said he had found that boxing shows with good fighters didn't interest the customers to the amount of three dollars a ticket and that he was going to try cheap shows. He would get cheap fighters, he said, and charge a buck and two bucks admission and see what he would see. He announced the card for the first cheap show and in one of the unidentified places among the preliminary bouts appeared the name of Carl Tremaine. It seems hardly more than yesterday when Carl Tremaine was a name that appeared frequently in the print as a principal in important fights for important money. Had Dough Once. He was one of the best panama-weights in the country and one of the most active. He fought often, fought good men, drew good money and big pay and now, as a preliminary boy in a cheap show, he probably will draw down about \$300. He fought too often, they say. He was a smart young business man in that business and he set out to make his pile while the making was good. He burnt himself out, but he made his pile and was financially prepared to retire when the time came to retire. Another Lesson. Johnny Dundee, much better known and much more prosperous in his day, is also back in the preliminary class. Dundee for years was one of the highest priced attractions in the ring. He was the uncrowned featherweight champion for years and he finally acquired the official title. He was during the same period one of the best fighters in the lightweight class. He, too, fought often for big money and he must have earned close to a million dollars in the course of an extended career. He had so much money at one time he went in for the horses. He didn't become exactly a sucker for the bookmakers. Worse. He bought a stable of his own and horses eat whether they are winning or not. He bought an estate in the ultra-aristocratic Orange district of Jersey and he put things on the floor like \$10,000 orientals and he had all the slots filled in a four-car garage. And his dough went. He's fighting preliminaries now and the boxing commission won't let him fight unless they pick his opponent.

Middletown And Meriden Quintets Both Powerful

HIGH SCHOOL DUCKS PADDLE HOLYOKE HIGH

Journey to Paper City Tomorrow Afternoon for First Swimming Meet.

Manchester High school's aquatic team will open its delayed season tomorrow afternoon when it journeys to Holyoke for a meet with the school representing that city. Manchester was to have opened its season January 11 with Warren Harding High of Bridgeport at New Haven, but this was postponed because of sickness. The local team boasts of a splendid record for its first two seasons having won all home meets and all but one of its dual meets out of town. The schedule this season is fully three times as hard as that played last year. It includes Bridgeport Central, Roxbury Prep, New Haven, Hallowell, Bristol, Deerfield Academy, Hartford High and three tournaments. The Manchester team which will make the trip tomorrow afternoon leaving the school at 12:45, is composed of Ed Markley, Bob Treat, Doug Robinson, Les Buckland, Wes Warnock, "Ewa" Knight, Lou Cheney, "Pat" Davis, Dick Joslin, Frank Scariotta, "Win" Bendall and Coach W. J. Clarke. The events on the program are four-man relay, 40 yard dash, 100 yard dash, 220 yard dash, 100 yard breast stroke, 100 yard back stroke, and diving.

Catherine Brys Playing With Insilco Girls; Sturm, Reynolds, Taylor With Middletown.

Two good basketball games are on tap for Manchester fans this evening at the Rec gym. The Middletown Red Wings meet the Rec Five in the main encounter while the Insilco Girls of Meriden oppose the Rec girls in the preliminary contest. The first game will start at 7:45 and the second at 8:45 prompt. Clyde Waters of Bristol will handle both games. The Rec Five just barely succeeded in noosing out the Red Wings in Middletown a few weeks ago, the final score being 25 to 23, so it is easily seen that Manager Ben Clune's boys are far from sure of keeping their home slate immaculate tonight. The preliminary game also promises to be equally interesting. The Insilco Girls boast a victory over the Falco Girls of Holyoke, the only team to beat the Rec Girls this season. That, alone, insures a real battle. Catherine Brys who plays one of the forward positions for the Insilcos is undoubtedly one of the best girl basketball players ever to perform in Manchester. What she lacks in size (for she is the smallest player on either team) Miss

Catherine Brys

Brys makes up for in aggressiveness and ability. She is captain and leading scorer and is popular with Manchester fans who have seen her play here in past years. The Insilcos took the measure of the Falcons in Holyoke by a 17-15 score after leading by six points up to two minutes before the final whistle and also beat the Falcons in Meriden by a 20-15 score. They also hold victories over the Arnold Collegians, Greist Girls, All-New Britains, and Nonpareils of Harrison, N. Y. They have piled up 226 points in 11 games with Brys topping the individual scoring column with 79 points in 10 games and Olson with 52 and Gustafson 35. The Insilcos dropped games to Stamford, Norwalk, and Yonkers.

The Rec boys, too, will be dishing with Middletown. Any combination that boasts such stars as Red Reynolds and Mert Taylor, former New Britain performers, Jack Carroll, last year with the Meriden Endees, Butsy Sturm, who has played on about every team of importance in the state, and Carl Olson, Middletown's star, old, ought to be able to take care of itself and then some. They have a couple of darn good subs in Jasper and Arthur, too.

The Meriden Insilcos will take the floor with Catherine Brys, Ed Elsie Olson, Catherine Baldwin, Grace Gustafson, and Irene Robinson. Dorothy Sanderson, L. Self and Dorothy Horrigan are substitutes. The Rec Girls will present their strongest lineup, Anne Scranton and Charlotte Foster forwards, Miriam Welles center, Peggy McLaughlin and Viola Shearer guards.

IT'S A LOT OF MONEY.

If Young Stribling fights Jack Sharkey in Miami, he will receive the interest on his career for the fight. The highest purse he has received to date was \$47,500 for meeting Paul Berlenbach.

HE'S WELCOME TO COLUMBIA.

Gordon Piercy, member of the 1927 championship crew at Columbia, is seeking a berth in the crew again. He was out last summer with a bad heel.

MARYLAND'S "IRON MEN."

Thirteen members of the 1928 Maryland grid squad played approximately 95 per cent of the total time played by the squad.

NOEL COWARD AT 29 SETS MODERN PACE

By GILBERT SWAN

New York.—At the ripe young age of 29, Noel Coward finds himself in the unique position of having materially influenced three widely varied departments of the contemporary theater.

As playwright, his "Vortex" set a style both for play construction and theme. Therein a sensitive, jazz-drunk, neurotic youth was presented in a scene of post-war British cocktail-looseness. The "mother complex" also had its airing. It was definitely a dramatic pace-setter—yet it was written when this extraordinary young man was but 25.

As a performer, he has run the gamut of versatility, from a song-and-dance man to heavy histrionics. Insisting on picking his own parts in plays he authored, Coward once refused to let "The Vortex" be produced unless he personally played the leading role.

And as a writer of musical revues, the young Britisher has this season injected satire, wit and brilliance in such well-balanced proportions, that American revue writers and producers all had to sit up and take notice. In this field, Coward first made his mark by supplying Charlot's revue with a few numbers. But now he has brought to Broadway, "This Year of Grace," which has been nothing short of a riot in London. Not only did Coward write this revue, but he composed the music and lyrics and, with the splendid clown, Beatrice Lillie, heads the cast. All of which isn't so bad for a young man of 29.

In his revue, Coward has taught American producers that it is not necessary to rob Christmas trees to costume a chorus. Good taste and artistic simplicity can take the place of extravagance and doleful feigning. The business men are not too tired to appreciate civilized entertainment.

Coward's revue will doubtless be the "vogue" of the season. And his macabre fling at jazz seamy maidens, called "Dance Little Lady," will one-day cause as many shivers in America as it did in London. For it is a thing of horror masks, which bear a startling resemblance to those blank and "blotto" faces he found in certain tea-dance rendezvous.

From which it may be gathered that this is the week of the English conquest. And it is!

On consecutive days, the Lillie that cannot be glued, and Gertrude Lawrence, who is to my mind the most charming personality on the stage, bowed into Broadway. The Lillie has no new tricks, but she needs none. She is a superior clown, as Chaplin is a superior clown.

Miss Lawrence is something else again! She can be a clown and a lady in the same breath, and there is no one who can "put over" a song—good or bad—with such consummate technique. She has what one might call stage manners, as well as manner. This season she needs them, for even the dependable George Gershwin deserts her in her latest pus, "Treasure Girl." Not even the assistance of the nubile Walter Catlett can completely save this music show from its author. Miss Lawrence who, with Miss Lillie, were brought here by Charlot's revue, deserves much better than this.

The week has seen, also, the first of the horror show, without which no season is complete. It is "The Man With Red Hair," and it has the same hundred per cent thrills as a Grand Guignol piece. Taken from the Hurd Walpole tale, it concerns a sadistic cultist who believes that only through intense pain and suffering can an individual achieve his particular ideal.

Briefly summarizing the minor events of Broadway: "Hotbed" is another commentary on intolerance, with both a clergyman and college professor earning the author's scorn. "The Yellow Jacket" is a revival, after six or seven years, of a most charming and adroit drama. With the Coburns, of course. A revival of Ibsen's "An Enemy of the People," with Walter Hampden seeking a comic vein in "The Norse Hills."

And, last but not least, the de-

The 29-year-old English playwright, Noel Coward, upper right, has brought two valuable contributions to the Broadway stage. One is his revue, "This Year of Grace"; the other is Beatrice Lillie, pictured at the left, with whom he heads the cast. Lower right is Gertrude Lawrence, who stars in a Gershwin piece called "Treasure Girl."

MANCHESTER GRANGE ROLL CALL TOMORROW

Newly Elected Officers to Be Installed at Odd Fellows Hall Meeting.

Manchester Grange will hold its annual roll-call and installation of officers tomorrow evening in Odd Fellows hall. The installing officer will be Charles M. Gardner of Westfield, Mass., high priest of demeter. A social hour with refreshments will follow the ceremony. The committee in charge includes Mrs. William Montie, Mrs. Harry Frazer and Mrs. Robert Martin.

The officers-elect for 1929 are as follows: Master, Irving Wickham; Overseer, William H. Cowles; Lecturer, Mrs. Edith Wickham; Steward, Loren Keeney; Assistant steward, Burton Hagenow; Chaplain, Mrs. Iva Ingraham; Treasurer, A. E. Loomis; Secretary, Mrs. Laura G. Loomis; Gatekeeper, Ernest Reubin; Cerbs, Miss Ellen Reig; Pomona, Mrs. Laurena Demars; Flora, Miss Louise Pekoisky; Lady Assistant Steward, Miss Beatrice Dart.

Music has a prominent place in student activities at Girard College, Philadelphia.

Hartford Boy Amazes Mother

Constipation is one of the worst health-runners for children. Waste matter held too long in their little stomachs and bowels, forms poisons which pollute their blood, cause headaches, bad breath, coated tongue, indigestion; make them bilious, weak, sorrow, fretful and underweight.

At the first sign of constipation, give your child a little California Fig Syrup. Children love its rich, fruity flavor. It's purely vegetable, a gentle but certain laxative, and it gives tone and strength to the stomach and bowels so they continue to act normally, of their own accord.

Thousands of Connecticut mothers are praising it. Mrs. W. B. Cully, 48 Redding St., Hartford, says: "My little son, William, was constipated. His breath was bad and he never wanted anything to eat. He was fretful, pale and weak. "Nothing seemed to help him until I got some California Fig Syrup. His trouble stopped after the first few doses, and he amazed me by the way his pretty natural color came back. Soon he was as playful and happy as ever and he's been gaining ever since."

Like all good things, California Fig Syrup is limited, but you can always get the genuine by looking for the name "California" on the carton.

WHAT NEXT FOR RUTH?

SOME SAY STAR OF UNSUCCESSFUL "GENTLEMEN PREFER BLONDS" IS THROUGH NOW AS AN ACTRESS.

By DAN THOMAS.

Hollywood, Calif.—What's going to happen to Ruth Taylor? About 14 months ago the little blond actress was plucked from the ranks of Mack Sennett's bathing beauties for the role of Lorelei in "Gentlemen Prefer Blonds." The film was neither successful nor good, but it did succeed—with the aid of a tremendous publicity campaign—in making a star of little Ruth.

Now everybody is wondering what is going to happen to her—including Ruth herself. Some say that she is about through—that she was a one-picture star. Paramount executives, who lifted the girl to stardom, have little to say about her future other than that two or three pictures have been planned for her during the coming year.

One obstacle Ruth must overcome is her inability to act. She is pretty, as blondes go, and has audacious screen personality, but there are any number of girls in Hollywood who possess all of her attributes and at the same time far excel her in acting ability. But she is a great actress.

"I want to stay in pictures because I like the work," Ruth says. "Of course, a girl can make a lot of money as an actress but that isn't the prime factor with me. It is just that I like to act—I always have."

"I don't mean I used to stand in front of a mirror and make faces at myself. But I have always liked to imagine myself as someone else. That is what I like about pictures, a girl leads sort of a double life. Our family is a bit old-fashioned so I lead rather a quiet life. But when I get to the studio everything is different."

TAKES TEX'S PLACE

Miami Beach, Fla., Jan. 22.—Humbert Fugazy, Brooklyn promoter who once was one of Tex Rickard's bitterest rivals, intends to take the place of the dead promoter in staging the big ring battles of this country. Fugazy is here attempting to form a partnership with Jack Dempsey in promoting basic extravaganzas. However,

Ruth Taylor . . . through?

If Ruth keeps plugging she may retain her present status and climb even higher. Others have done it by sheer force of perseverance. Gloria Swanson is an outstanding example of such a fight against odds. When she broke into pictures everyone told her that she couldn't possibly "arrive." She didn't believe them—and proved she was right.

Dempsey has announced that he will not consider any other business but the Sharkey-Stribling battle for the present.

When certain rivers in South Africa dry up in the summer, a curious kind of fish, called mudfish, make themselves little nests in the mud and wait there until the river is full of water again.

ANOTHER VITAPHONE SPECIAL AT STATE

"Little Wildcat" Here Tomorrow and Thursday.

When two girls are madly in love with the same man, things are bound to happen!

Such seems to be the case in "The Little Wildcat," Warner Brothers' current Vitaphone picture, which comes to the State Theatre tomorrow for a limited two-day engagement.

In this particular story, the girls are both sisters—pretty and attractive. One is a rather winsome young lady possessed with quaint old-fashioned Cinderella ideas. The other is of the bold "tomboy" type. Both, however, are determined to win the affections of the handsome millionaire "shlek" and neither seems to resort to very gentle methods.

Their predicament furnishes loads of humorous and thrilling adventure. Now and then, the silence throughout the picture, is broken by the players who speak many of their lines. This is made possible by the matchless voice of Vitaphone.

"The Little Wildcat" has one of the finest casts ever assembled together for a single film production. Audrey Ferris and James Murray have the stellar roles, with George Fawcett, Doris Dawson, Robert Edison and Otto Hoffman in support. Archie Mayo directed.

The associate film feature for tomorrow and Thursday brings to the State screen once again the radiant beauty and irresistible charm of Billie Dove, famous dramatic actress, in her latest First National starring effort, "Adoration."

Miss Dove, who has already achieved world-wide distinction for her unusually fine film portrayals, is said to have the greatest characterization of her career in this absorbing drama. She is ably supported by Antonio Moreno as her

leading man. Frank Lloyd was responsible for the direction.

A Tiffany-Stahl Color Classic will also be shown in conjunction with the two features.

On Friday and Saturday the State will present that great picture triumph of the season, "Four Sons."

BY ELEANOR FARLEY
COPYRIGHT 1928 BY NEA SERVICE INC.

THIS HAS HAPPENED
ASHTORETH ASHE, who has just returned from a trip to the West Indies, is secretly engaged to HOLIS HART, a millionaire, much older than herself. Ashtoreth is 23, a poor young stenographer, and beautiful as a picture.

Her mother, MAIZIE, meets her at the station, and they go together to her flat. Maizie is almost fully happy. But Ashtoreth is becoming more and more displeased with her. First—MONTY ENGLISH, an ex-sweetheart, has wired that he is flying over from New York to see her. Ashtoreth does not want at all to see him. Besides, Hollis Hart is the light on the same ship. It would be such an awkward way for them to meet—and no telling what would happen next.

The other bad news is the presence of SADIE MORTON in the flat. Sadie is a comedy actress, a rare, a bit poorer days. She has already tried to blackmail Hollis Hart, and now she threatens to hold him up again. She has been to a well-known lawyer of doubtful reputation. And Ashtoreth is a pacifist.

Following dinner, Sadie goes out to mail a letter, and Ashtoreth is having a little heart-to-heart talk with her mother, when they hear someone in the hall. Maizie thinks it is Monty, and goes to the kitchen, to light up under the coffee. It proves, however, to be Sadie, returning from the mail box.

NOW GO ON WITH THE STORY
CHAPTER XXXVI
"Oh—Sadie. We thought you were Monty."

Ashtoreth called to her mother. "Saw her this coffee, Mum. It's only Sadie."

Maizie came in from the kitchen and settled herself comfortably on the big divan.

"My goodness," she observed, glancing from one girl to the other. "You two certainly are different. I don't know as I ever saw two girls so different."

Sadie flipped her short skirts pertly. "I ain't a red hot momma any more," she chattered. "Just a sweet young thing, tryin' to get along."

"Not a day over 16, and butter wouldn't melt in my mouth."

She was wearing a suspender skirt of red and blue, pleated smartly. Her blouse had a broad child's collar, with a blue silk tie. She wore a scarlet beret, and carried a wool sock over her nude silk stockings.

Ashtoreth was in brown, and her skirt was five inches longer than Sadie's.

"Ash, now," pronounced Sadie, "looks like I'd like to look. But God didn't have my horse in mind when he gave me these short little legs."

She sat beside Maizie, and stuck them out derisively.

"Not so hot," she lamented. "Say Ash, if I had a couple stems like yours' there's no telling how far a good pair of legs will take a girl."

"Saw, dearie, what makes you wear your skirts so long?"

Maizie looked slightly scandalized. "If you'd think less about your legs, Sadie," she began.

"Oh, all right. All right. I was only trying to give your daughter a compliment, Mrs. Ashe."

"You give me a pain in the neck, Ash—that's what you do. Here's your mother been thinking of nothing but you ever since you been away. Workin' her fingers off, while you were playing the grand lady. Slavin' all day, cleanin' the place, and cookin', and she don't get so much as a pleasant look out of you. Anybody'd think you was at a wake—that's what they'd think. What's the matter with you, anyway?"

Maizie looked helpless at her daughter.

"There's something on your mind, ain't there, honey?"

"You're darn tootin', there's something on her mind," contributed Sadie, "and it ain't none of my business, or anything like that. But I hate to see your mother gettin' the cold water treatment, Ash, after all she's done for you."

"Here's the News," announced Sadie, "broadcasting the late news."

"Get some music," ordered Ashtoreth. "Who cares about news?"

"Wait a sec." Sadie moved the dial. A fraction of an inch. "What's that he's sayin'?"

"Here's the News," announced Sadie, "broadcasting the late news."

"Get some music," ordered Ashtoreth. "Who cares about news?"

"Here's the News," announced Sadie, "broadcasting the late news."

"I tell you, dear," she insisted, "it's nothing about the plane. They haven't heard anything. For goodness sake, take that expression off your face! You give me the horrors. Sadie, take her in the other room. Like a good girl. It's a little private business I have with Mr. Burton."

She turned to the telephone again. "Yes, Mr. Burton. Now will you repeat that, please? Yes, yes, I told you she was. Yes, this evening, no, she hasn't. Not a thing—no, I tell you it's a mistake. You—you wouldn't print anything like that. Mr. Burton, it's a lie, that's what it is. A lie, I said—you heard me. What! Who did I care papers? But it's a lie! I don't care every paper in New York printed it—that doesn't make it the truth, does it? Listen, Mr. Burton. Maizie's voice was wheedling him."

"You said you was a friend of Joe's, didn't you? Well, no friend of Joe's is going to print stories about his daughter. Yes, yes, I know. Well, New York isn't Boston, and we can't help that now. The other papers all have it? Oh, my God, Mr. Burton! Can't you stop them?"

Ashtoreth threw aside Sadie's encircling arm.

"Mother, what is it? Tell me this minute! It's something about me," she drew Maizie from the telephone. "Let me speak to him."

But Maizie pushed her aside. "Listen, Mr. Burton, you call me back in 10 minutes. Yes, I'll speak to my daughter. I'll give you a statement in 10 minutes. You can talk to her yourself. If you want to, in 10 minutes, I said."

She hung up the receiver, and walked, like a person in her sleep, into the living room. Sadie rose dumbly from the divan, to face her.

Ashtoreth put trembling hands on her shoulder. And they stood, white and cold, like a tableau. Waiting for Maizie to speak.

"It's about you," she said, looking at Ashtoreth, and her voice was strained and jerky. Not at all like Maizie's voice.

"Mr. Burton says there's a story in New York about you and Hollis Hart. Some New York papers used it in the afternoon, in the last editions. They didn't get it in time for Boston. It's going to be in all the morning papers, he says. About you and him—being together, Ashtoreth."

"What does he say, mother?" Ashtoreth's voice was cool and smooth, and as pale as her waxen face.

"He read me the wire. It said—'Maizie gulped. "It said something about Hollis Hart, well-known man about town, returns on S. S. Juanita with stenographer. And he made some crack about a tropical island romance...'"

"Well, I'll be darned!" Sadie stamped on the floor. "Go on, Mrs. Ashe!" she commanded. "Go on. Spill the dirt..."

(To be Continued)
Sadie believes the worst. And then, on top of everything, comes news of the missing plane.

Styles by ANNETTE
Paris—New York.

403

SOPHISTICATED CHIC
A patterned wool jersey in bright red tones uses plain crepe de chine in harmonizing red shade for collar and cuffs and inset pocket, piped with black grosgrain ribbon, which is repeated in scarf tie. The belt is black lacquer. It's so simple, so smart and wearable, and dresses that can be worn so nicely all through the Spring without a coat. Style No. 403 is designed in sizes 8, 10, 12 and 14 years. Plain jersey in French grey with slate blue silk crepe collar and cuffs, piped in silk crepe, a grey background with narrow stripes in blue tones, which is also used for scarf tie, is especially attractive, because it's so unusual. The belt can be made of self fabric or worn with a suede belt in slate blue tone. Chambray, linen, pique in geometric print, wool crepe, printed silk crepe, and featherweight tweed suitable. Pattern price 15 cents in stamps or coin (coin is preferred.) Wrap coin carefully.

ORGANDY RUFFLES
A little Chanel red frock has narrow, hand-hemmed ruffles of organdy across the edges of red bow-knots that trim the front like jabots, tie the tops of both cuffs and give a feminine touch to the back of the plain neckline.

CEREAL VARIETY.
Change the sweetening of the morning cereal and you get a pleasing variety. Grated maple sugar or brown sugar give a change. Better still, cook dates, figs, raisins or prunes right in the cereal. Children appreciate the different flavors.

FIREPLACE PAN.
If your family enjoys an open fire every day of winter and the ashes problem is a knotty one, measure the base of your fireplace, take it to a foundry or hardware store and order a pan made to fit with the front side open. This pan will cost little, is not noticeable and can be removed with the ashes intact.

Hints On How To Keep Well by World Famed Authority
STUDY OF STUTTERERS REVEALS NEW FACTS
By DR. MORRIS FISHBEIN
Editor Journal of the American Medical Association and of Hygiene, The Health Magazine

The problem of the child who stutters is just beginning to receive scientific consideration by specialists in psychology and medicine. The studies are beginning to bring out facts which emphasize the relationship of stuttering to the workings of the mind and of the brain. Doctors Orton and Travis are giving special attention to the relationship of right-handedness and left-handedness to the phenomenon of stuttering. Reading, Writing, Speaking

Several previous investigators have reported cases of left-handed children who developed stuttering when they were forced to become right-handed. One investigator reported eight cases of delayed development of speech due to this cause. Dr. Orton found instances in which there were disturbances of speech and even of the ability to read and write associated with stuttering, and with the use of the right hand in persons normally left-handed.

In a recent investigation attempts were made to find out to what extent motion of the arms and hands were related to the phenomenon of stuttering. Electrical devices were used to record motions. People who spoke normally, in the vast majority of cases, used the right hand first. In only one instance was there any variation, and that concerned a player of tennis and handball who seemed able to use the right and left hands with approximately equal facility.

Seventeen right-handed stutterers were examined by the same mechanism, including four who had changed from the left hand to the right in childhood. In only three of these cases did the electrical device indicate a desire to use the right hand previous to the left. The results seem to show definitely some relationship between the handedness of the persons concerned and their speech ability. They are an indication of the possibility for the future in getting at the causes of stuttering and in lowering the incidence of this embarrassing and disturbing disability.

This And That In Feminine Lore

The simple little evening frock that was to be seen by the dozens six or eight months ago has given place to party dresses that are individual in cut, trimming, neckline, hemline or train, girdles or sashes. The Pompadour taffets are among the most popular of the new party gown fabrics. For informal occasions printed chiffons are still excellent, with several new notes, such as organ-pleated overskirts, the give excessive fullness and freedom for dancing.

Fancy rubber aprons were popular Christmas gifts this year, with the gay, ruffled trimmings and appliqued motifs for pockets. These rubber aprons require special care. If you intend to hover much around a hot stove, don't wear them for heat will make the rubber soft and gummy and it is likely to stick together in places and tear when you try to smooth it out. Avoid sharp hooks when hanging it up as the rubber tears easily. When soiled, lay the apron on a clean, flat surface and sponge both sides with soapuds and tepid water. Wipe with clear water of the same temperature, then with a dry cloth. If you are in a hurry to wear it after washing, talcum powder will hasten the drying process.

A garnish of pickled beets adds much to a dinner salad. They may be cut in fancy shapes or finely chopped and sprinkled over potato or other vegetable salad where pimento or carrot is not used. A simple vegetable salad is made by grinding two cups cabbage, one good sized carrot, half a green pepper, a small onion. Moisten with French dressing and serve in individual portions on lettuce leaves, fencing in with stalks of asparagus and garnishing with strips of pimento and a dab of mayonnaise on top.

I have a call for a recipe for making Scotch oat cakes, not the heavy, thick oat cakes that some of our British ancestors used to bake on the griddles, sometimes mixed with potato, but a water-like oat cake that seems to have little in the way of flour or anything else to bind it together. Our grandmothers never had a recipe for baking these soda, oat or potato breads and the daughters just seemed to take it intuitively. Perhaps some of our Scotch residents can give exact directions. This request comes from one of our mail readers and I would like to obtain the recipe for him if it is possible, to do so.

Mrs. Ida Cash, probation officer of the Children's Court in New York is the originator of an experiment or innovation in the metropolitan libraries. "Toycories" will be conducted for the children of the poor much as books are now loaned from circulating libraries. Judge Jean Norris and innumerable other influential people are interested in the idea and the welfare of the poor little New Yorkers are giving their support to it. Each year increasing numbers of children are brought before the court for stealing toys and it is believed these toycories will be as beneficial to children of tender years as libraries are to older ones. Only durable toys that can be fumigated and made sanitary will be purchased. Dolls are taboo because children become so attached to them. There will be rooms corresponding to reading rooms at libraries where the children may play with them to their heart's content for an afternoon or evening. The experiment will be watched with interest by students of child life.

For the dessert at the evening meal, why not scallop a dish of apples? Use 3 cups of bread crumbs to about four cups of apples cut in pieces. Place three tablespoons butter in a sauce pan and when melted add the bread crumbs and stir until well mixed.

Light Crisp Pastry
Young cooks, as well as the more experienced, find that Rumford makes delicious pastry—that it makes all baked foods lighter and more wholesome—that it adds real food value.

with the butter but do not let them brown. In a mixing bowl lace the apples, a half cup sugar, one fourth teaspoon powdered cinnamon and a half cup of water. Put one cup of the crumbs in a baking dish, cover with half of the apple mixture and sprinkle one-half cupful of the crumbs over this. Use the remainder of the apples covering with the rest of the crumbs. Put a lid on one dish and set it in the oven which should be medium hot. Bake until the apples are tender and either serve hot or cold with cream. Juice or grated rind of lemon may be used to vary the apple dish.

WEIGH WHAT YOU DESIRE

If you over-weight, the cause may not lie in over-eating or under-exercise. It may lie in a fault in nutrition which modern research has discovered. And which science now corrects. The method is embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. And many of the people you envy—with slender figures, new vivacity and health—will urge you to adopt this way.

The use of Marmola does not require abnormal exercise or diet. In every box you will find the formula, also the reasons for results. You will know just why your weight comes down and why every effect is helpful. Learn the facts, and do it now. Do so by asking your druggist today for a \$1 box of Marmola.

The WOMAN'S DAY

by ALLENE SUMNER

Again Henry Ford remarks that there is too much drudgery in the home and that the great throbbing world of industry and science must do for the woman in the kitchen what it has done for her husband in the shop, on the farm, in the office.

In his new book, entitled "My Philosophy of Industry," he writes: "We shall soon find a way to do much of the cooking outside and deliver it in hot air, appetizing condition at mealtime at no greater cost."

He elaborates other ways in which wholesale work outside the home could absorb the retail work of the home, giving woman leisure and time for the many other interests of life.

HIS IDEA NOT NEW
Henry Ford's voice isn't the first raised against the waste of woman power in the home, nor is he the first to present a solution.

Years ago they tried out community cooking, community nurseries, and, after all, what is the public laundry and restaurant but a way for woman to transfer her individual laundry and cooking to the wholesale world outside her door?

The big question in all attempts to deliver woman from "drudgery" is the same question which the chinaman asked when told of all the time that he could save— "Yes, and what do we do with this time?"

It is possible that the bulk of women are really ready for deliverance from bondage. But it is also possible that they are not, and that if what our Henry Ford's are pleased to call "drudgery" were taken from them, they would ask, "What do I now do with my saved time?"

THE WOMAN PROTEST
I have noticed that the chief papers against all attempts to lighten home labor are women themselves. Nobody ever stands more firmly at the first attempts at community kitchens and community nurseries than women; the older women who, having gone through their own course of sprouts, wanted other women to get the same done, and the younger women who chafed at the idea of their own job being taken from

YOUR CHILDREN

by Olive Roberts Barton
©1928 by NEA Service, Inc.

One of the most important things in the life of an adult is what we call the "psychological moment." In plain words, the right moment. Still more important is the "right moment" in the life of a child and in your training of him. If you wish to teach a little lesson it is better to wait for one of these times. Undoubtedly there are moments when your boy or girl seems nearer to you when there is a clearer understanding, a deeper sympathy.

What you say then will be remembered much longer than if you choose a time when his mind is filled with something else.

If John is all excited about going to a movie, that isn't the time to call him into your room and give him a talking-to about his rude treatment of Grandma.

If you think your son is not as careful of Grandma's feelings as he should be the thing to do is to call him into your room and give him a talking-to about his particularly thoughtful mood and then in a skillful and not too personal way tell him the real reason for being kind to old people, and Grandma in particular.

How to Explain
"You see, John, it isn't so very long ago that Grandma was a young woman like me, and Daddy was a little boy like you. And now she has no home of her own and she depends to herself that you are her little boy and this is her home all over again, and she loves you as much or more than she did Daddy. So we mustn't give her cross answers and we have to pretend we like it when she fusses over us too much."

That kind of talk, whether it is about Grandma, or getting lessons or helping Daddy with chores about the house, will register with John a hundred times more deeply if you wait for the psychological moment.

It is the same with discipline. Nothing throws off punishment as completely and quickly as a guilty conscience. As soon as a child has done wrong and knows it, he builds up a wall of defense for himself that all your scoldings

and disciplining won't break through. He will be only too apt to resent them as being unjust. But wait until that false wall of defense has vanished. It may take a day or more. And then talk to him about his misdeed—when he is in a frame of mind to listen to you and profit by what you tell him.

We are too apt to get after children when it suits us, not them, and usually it suits us when we have lost control of our tempers. Take the combination of the defense-wall of the child and the outraged excitement of a parent, and that is a very poor time for discipline.

The total loss from traffic congestion in New York City is officially estimated at \$500,000,000 a year.

FLU ON DECREASE. Washington, Jan. 22.—The peak of the influenza epidemic has passed definitely, the Public Health Service announced today. For the week ending Jan. 19, 25 states and the District of Columbia reported 45,838 new cases, compared to 60,659 cases the preceding week. The reports showed that the number of new cases is considerably lower for all sections except New England, where small increases are noted. AFTER AIRPLANE RECORDS. Roosevelt Field, N. Y., Jan. 22.—Martin Jensen, Dole prize flyer, was preparing today to take off at dawn tomorrow in a Bellanca monoplane in an attempt to set a new endurance record for solo flying. Jensen will seek to better the record of 36 hours sustained flying set by the late Lieut. Royal B. Thomas. If he is successful in bettering this mark, Jensen will make a solo effort to beat the 66 hour record of the two German pilots.

SOCIETY WEDDING London, Jan. 22.—Application for a marriage license was filed today by Meraud Guinness, 24-year-old daughter of Mr. and Mrs. Benjamin Guinness, multi-millionaire society family of New York and London, and Senor Alvaro Guevara, 35-year-old Chilean artist. Mrs. Guinness is one of London's most prominent society hostesses. Miss Guinness is an amateur artist herself and recently gave an exhibition of her works in Paris. Senor Guevara is practically unknown in London. FAMILY OVERCOME. New York, Jan. 22.—Gas from a defective heater today caused the deaths of Rose Alpern, 17, and her brothers, Ralph, 15 and Herman, 9. The bodies were found in their room on the second floor of their Brooklyn home. Their parents, Samuel and Rose Alpern are in St. Mary's hospital in a serious condition. A milkman carried Mr. and Mrs. Alpern to safety.

GIFT INCREASED Cambridge, Mass., Jan. 22—The increase of the \$3,000,000 gift to Harvard University by Edward S. Harkness, of New York, and graduate of Yale, to \$11,302,000, was announced today by President A. Lawrence Lowell, of Harvard.

The larger sum was required for the subdivision of the university into six smaller residential groups or "houses," plans for which were rapidly nearing completion.

Announcement by Mr. Harkness of the gift to Harvard was contained in a letter to President Lowell.

MOTHER, DAUGHTER KILLED Boston, Jan. 22—Mrs. Agnes Hall and her daughter Hilda, 14 were burned during a fire in their Dorchester home today.

The fire was caused by the explosion of an oil stove. The woman and her children were rescued by police.

European coal production, outside Britain, in 1927, was 244,000,000 tons.

FLAPPER FANNY SAYS:

If the Beau is OK, so is the bouquet.

SENSE and NONSENSE

A parking space is where you leave the car to have 326 ads. stuck on the glass.

They parked along the road one night; Their lights were out, the hour late. Another car came speeding along— They're zooming through the Golden Gate.

Jack and Jill Sped up a hill. A curve up there was sharp. The car upset; Jack's rolling yet; Jill's playing on a harp.

THE ALARM The shriek of a siren reads the air And screams to the traffic lanes, "Beware!"

It lifts its voice in a piercing wail And moans like a soul in sad travail.

Obeys the uplifted hand of the cop. The motor cars drive to the curbing and stop

As the little red car with the clamoring bell Comes ripping and snorting through traffic, pell-mell.

As swift as a greyhound, unfettered and fleet, It races its way down the length of the street.

Behind it confusion and chaos are found. The traffic lights blink and the police whistles sound

While autos stand hopelessly jammed in a bunch— The fire chief's hurrying home to his lunch!

CATCHING COMPLAINT Absent-minded professor—"Elizabeth, I believe I have lost the road."

Absent-minded professor's wife—"Are you certain you had it when you left the house?"

LETTER GOLF

THIS ONE'S DEEP. Here's your chance to jump into a SNOW BANK in eight jumps. At least, that's par and one solution is on another page.

Letter Golf grid with words SNOW and BANK.

THE RULES

1—The idea of Letter Golf is to change one word to another and do it in par, a given number of strokes. Thus to change COW to HEN, in three strokes, COW, HOW, HEW, HEN.

2—You change only one letter at a time.

3—You must have a complete word, of common usage, for each jump. Slang words and abbreviations don't count.

4—The order of letters cannot be changed.

Willie, just a trifle mean, Steeped himself in gasoline; Struck a match, then Maw told Paw, "Brightest boy I ever saw!"

Police (producing notebook) — Name, please.

Motorist — Alogsiurs Alastata Cryion.

Police (putting away notebook) — Well, don't let me catch you again.

A one-way street is a street on which the motorist is bumped from the rear only.

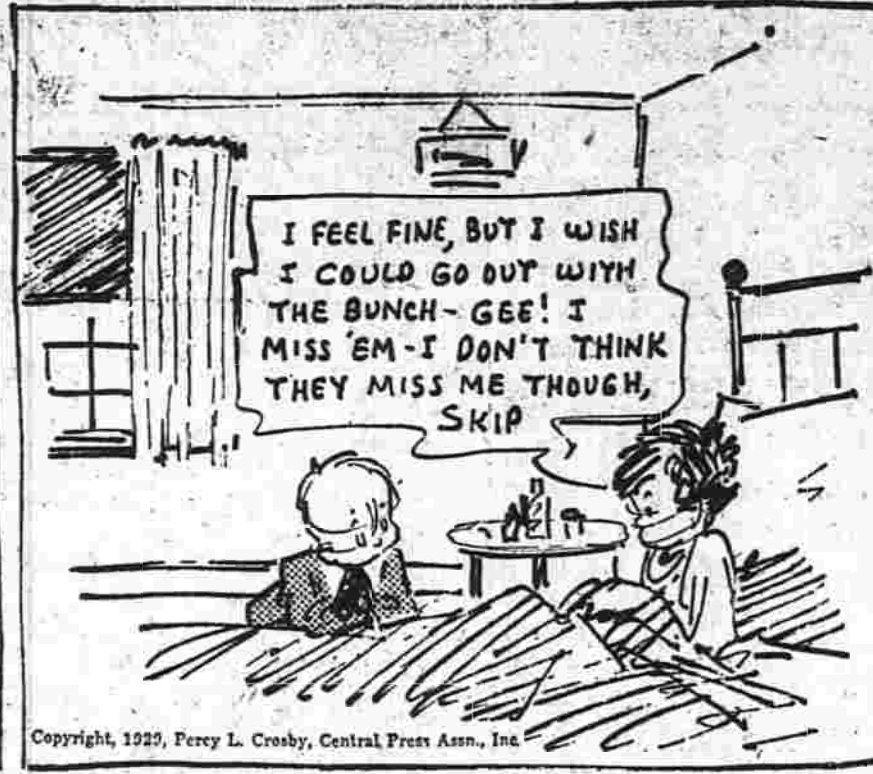

It's after a fellow has violated the traffic signals that he looks all run down.

A new figure of speech is "bustier than a model changer in an automobile plant."

Why not place license tags under the car and give the pedestrians a fair chance to get the number?

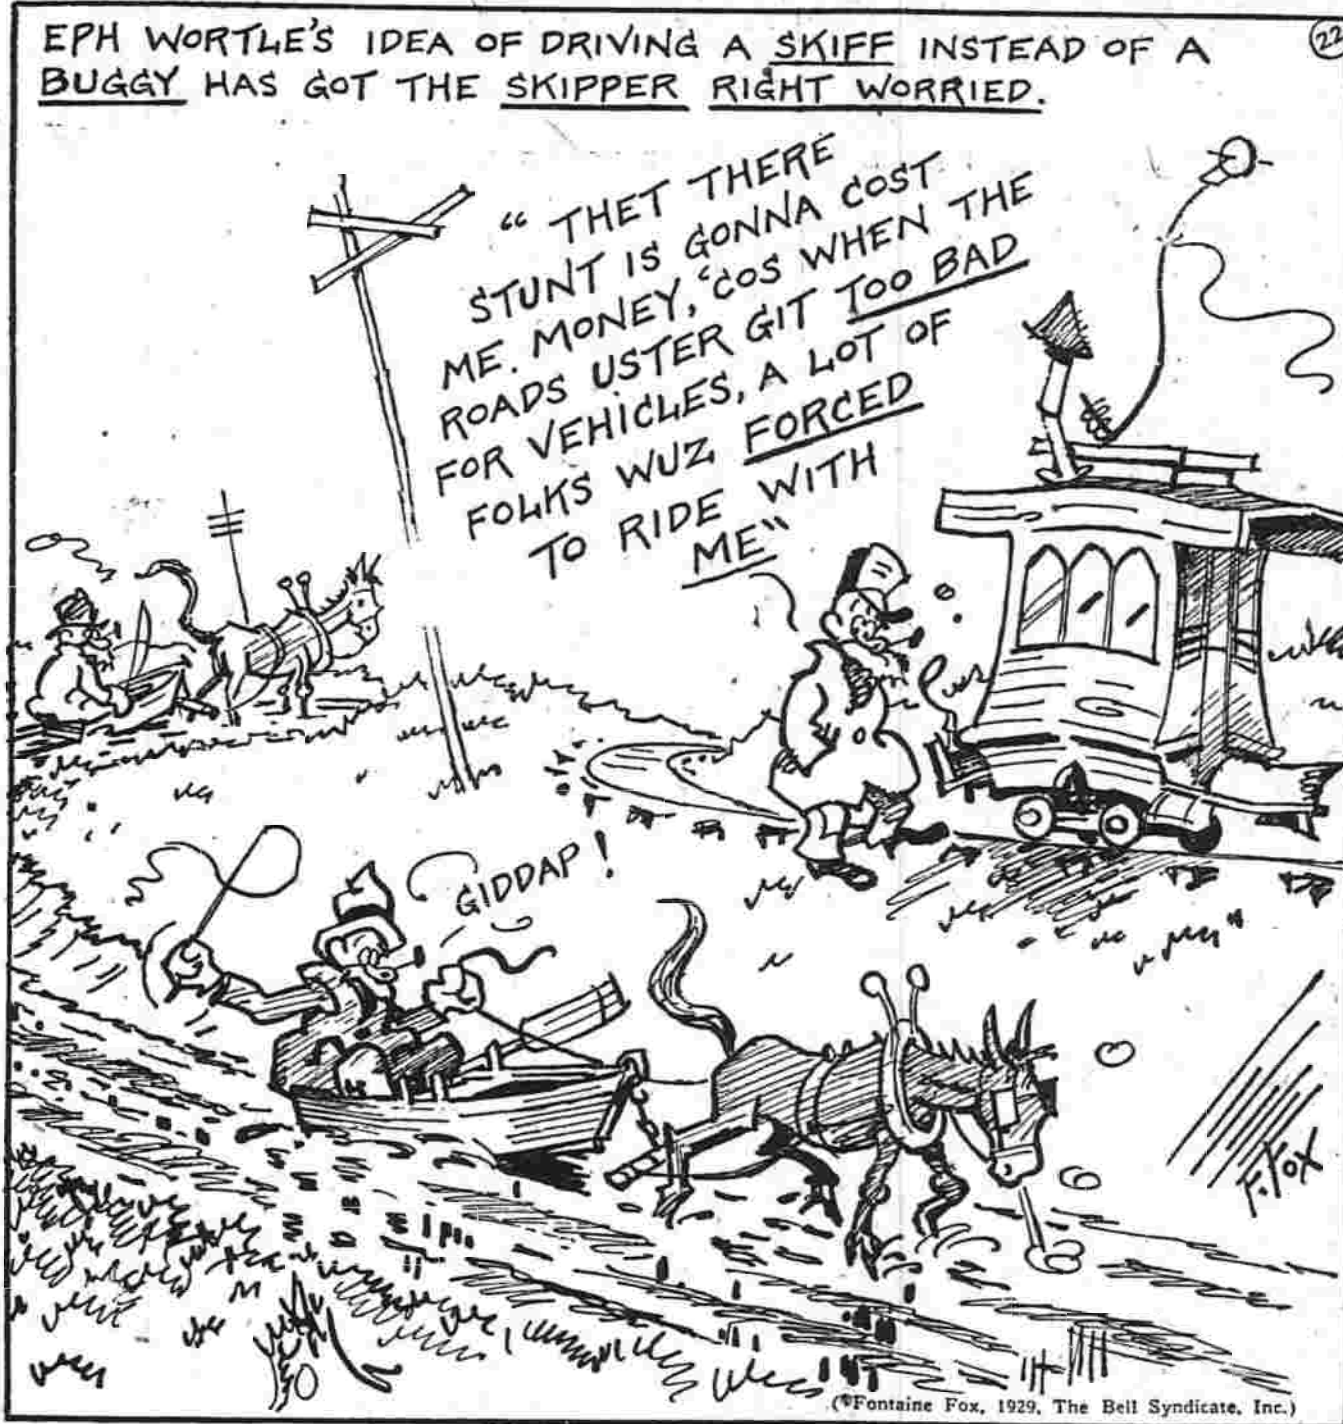

WHAT'S A BACHELOR? A bachelor is a guy who didn't have a car when he was young.

THE TINYMITES

STORY BY MAL COCHRAN—PICTURES BY KNICK

(READ THE STORY, THEN COLOR THE PICTURE)

The giant swung the engine round, and then he set it on the ground. "Hop out, you little Tinymites," he cried in merry tone. "Don't fear that I will hurt you boys. I'm harmless, though I make much noise. As long as you are nice to me, I'll let you all alone."

giant cried. "And now you can just follow me along this trail. We'll find a stream nearby. We may find one that flows straight up. Then you won't need a hat or cup. I'll bet you've never seen a stream that flows up toward the sky."

NAVEN'S

Depend on the Tuner he knows!

HIS advice and service are invaluable to you in keeping your piano the same fine instrument that left the maker's gifted hands.

The Piano Tuner is a skilled craftsman—a representative of a profession, a graduate of National Association Standards. He knows pianos and piano tuning—you can depend on him. And you can depend upon the fact that your piano needs his services, regularly. The piano is a highly-sensitive instrument, and seasonal or sudden atmospheric changes are bound to affect its tone.

The Tuner's visit will bring back its crystal clarity, its sparkling brilliance, its perfect harmony, to delight your visitors, and to cultivate correctly your children's musical sense.

We have a yearly tuning contract offer that many people are taking advantage of. It is inexpensive and relieves you of all worry and bother. Call us on the phone—right now!

PHONES Pinehurst "GOOD THINGS TO EAT"

MAKING WHOOPEE!

Pinehurst isn't a jazz store. It takes its responsibilities to its customers and to itself too seriously to do much tub-thumping. But no life is well ordered that doesn't get a smack of healthy excitement once in a while. So we're going to have a couple of days of whoopee.

There's a candid reason. The volume of Pinehurst's trade is big and growing, but it isn't as evenly distributed as we'd like—congested at the end of the week, plenty lively at the beginning, but for a couple of days in the middle not quite so bustling as we'd like to have it. Hence:

We're springing a TWO DAY SALE (darn that word "sale"! Don't like it—but what's one going to do?) with special temporary prices on a lot of crackjack things. They ought to prove an incentive to Pinehurst's hundreds of week-enders to come a-stopping or come a-telephoning (because deliveries hold fast as always.)

Every item offered is of the finest Pinehurst Quality. No "sale" odds and ends picked up for the occasion. Not on your life. Not at Pinehurst—not if we never sold a nickels' worth on a Wednesday or Thursday.

With the exception of the Apples and Oranges—which may run out before the Wednesday-Thursday period is over—every item will be here when you come or phone for it.

The trick in this is to get more people to do their heavy marketing in the middle of the week. We think a lot of you are going to like it when you've tried it—and maybe you'll keep on in ordinary times what you started doing on the occasion of whoopee.

Anyhow, here goes—and don't forget to phone two thousand with this ad in front of you.

Large Ripe Tomatoes 19c lb | Cauliflower 24c each
