

## HOUSE, BARN DESTROYED BY \$25,000 FIRE

Series of Three Blazes Yesterday and Today at Bronkie Farm Off Hills-town Road.

In one of the most disastrous fires in Manchester in many years the house and several barns that constitute the former Herman C. Bronkie place on Hills street just off Hillstown road were wiped out in a series of three blazes that occurred yesterday afternoon, last evening and this morning. The house was occupied by the family of Fred W. Rabideau, an employee of the Pierce-Arrow Motor Car company, of Hartford. The property was owned by E. E. Robinson, of 14 Woodlawn street, Springfield, Mass., and the farm land had been leased for this season by Herbert W. Sloan, of East Hartford.

The place is outside the South Manchester fire district, but when a telephone call was sent to the department, No. 1's combination hose and ladder truck and a chemical truck were sent to the scene, Chief Albert Ely went to the fire, and seeing that chemicals would be practically useless against the fire called for No. 4's pumper. A line was run to the small pond on the Buckland farm but by that time water was of no avail.

## DROUGHT HERE IS DESTROYING FARMERS' CROPS

### Manchester 5 Weeks Without Rain; Strawberries and Peaches Ruined; Lawns Burning Up.

Lack of rain has already caused thousands of dollars damage to Manchester farmers and unless favorable weather arrives soon the figure will be immeasurably increased. Garden and fruit crops have been badly damaged from drought. With a few exceptions when rain fell for a few minutes, Manchester has been without rain for five weeks. The situation is rapidly becoming acute.

Towns in the vicinity of Manchester have fared much better. They have had occasional thunder storms that have helped beyond measure. However, this town seems to be a jinx. Dark black banks of clouds rolling toward the town from over the horizon mean little or nothing, for they invariably shift their course just before reaching the outskirts. There was a slight drizzle both yesterday afternoon and this morning but they were of little or no value, lasting about five or ten minutes.

## WEIR DIDN'T DRIVE AUTO IN ACCIDENT

Police Discover Real Driver In Hartford Hospital; Has Broken Knee Cap.

Police investigation of the automobile crash on Silver Lane yesterday noon in which Walter Weir of Hartford, formerly of Manchester, was badly hurt today disclosed that the Studebaker touring car in which Weir was riding was being driven by Robert Bergeron, of 29 Walnut street, Hartford. This discovery bears out the statement of Charles Ray, whose car was struck by the Studebaker, who believed there were occupants of the crash car other than Mr. and Mrs. Weir. Bergeron is in the Hartford hospital being treated for a broken knee cap. It is said Bergeron has no driving license and is not an experienced motorist. Details of the accident were lacking yesterday because Mr. and Mrs. Weir were in the hospital and unable to talk. Mr. Ray's version of the crash was secured and then it was decided to search for the other occupants of the car in which the Weirs were hurt.

WILLS AND TILDEN WIN AT WIMBLEDON

Helen Triumps 6-0, 6-0; Coen, Hennessey Also Victors; Other Results.

By F. A. WRAY

Wimbledon, Eng., June 25—Helen Wills, America's queen of the tennis court, was accorded a tremendous ovation in her first appearance in this year's Wimbledon championships today.

Miss Wills allowed her opponent to score only 11 points in the 18 minutes which the match lasted.

Little "Poker Face" had drawn a bye in the first round, so this victory automatically put her into the third round of play.

Miss Elizabeth Ryan, another of the American contingent, came through the first round safely defeating Miss D. E. Anderson of England 6-1, 6-1.

Senorita Lill De Alvarez, the Spanish star, easily disposed of Mrs. Bruce May of England, 6-0, 6-2.

Edith Cross Eliminated Miss Edith Cross youthful tennis star of Berkeley, Calif., and protégé of Helen Wills, went down to defeat in the first round of the women's singles today.

In spite of the heavy rain, an injured knee, which forced her to appear on the court heavily bandaged, Mrs. Molla Mallory defeated Miss A. De Smit of South Africa 6-3, 3-6, 7-5.

In the second round of play, Coen is victorious. Wilbur Coen, Jr., third member of the American contingent, also came through the second round without great difficulty, defeating C. S. Robbins of South Africa 6-1, 6-1, 7-9, 6-1.

R. De Buzulet of France defeated E. Ulrich of Denmark, 4-6, 7-5, 6-0, 6-4.

J. C. Gregory defeated F. R. L. Crawford, England, 1-6, 6-0, 6-1, 6-2.

P. Landry of France defeated E. D. Andrews of New Zealand, 4-6, 7-5, 6-0, 6-1.

"Big Bill" Tilden romped through what amounted to a practice match in the second round, beating C. H. Campbell, Irish international, 6-1, 6-2, 6-0.

H. G. N. Lee of Great Britain defeated Y. Ohta of Japan, 5-7, 6-4, 6-4, 7-5.

John Hennessey came through the second round successfully by defeating R. E. Worthington, of England, 6-4, 6-4, 6-3.

Hennessey's consistently accurate driving and volleying won the match for him against an exceedingly clever opponent.

OAKLAND AND PONTIAC PERFECTLY COOLED During the past week motorists have been forcibly reminded of high motor temperatures.

AUTOMATIC GAS RANGE ELIMINATES DRUGGERY

Watkins Brothers Demonstrating New Chambers Fireless Stove With Autostat.

No longer is it necessary for the housewife to work over a baking range all forenoon, or afternoon, summer or winter.

With this new range it is possible to place baking in the range, set a dial, light the gas and forget all about it while one attends to other household or goes out for a morning spin, or shopping.

When she returns from bridge, golf, shopping or the movies, she finds the gas turned off and the dinner completely done and piping hot.

All this wonderful automatic cooking is done with about half the gas used in the ordinary range.

But the big secret of Chambers cooking is its automatic, "Sealed" oven. When the dial is set for a certain temperature a kitchen-tempered chart is followed.

Thursday, Friday and Saturday, including Thursday and Saturday evenings, the Chambers range with Autostat, will be demonstrated in the north wing of Watkins Brothers store.

One of the ranges will be piped for gas and actual cooking and baking will be performed, which, incidentally the public will be invited to sample, showing how the Autostat feature really makes it possible to "cook with the gas turned off."

In speaking with one of Watkins salesmen who has a Chambers range in his own home, it was interesting to learn that the "cooking by retained heat" method, has proven a money saving feature.

John Hennessey came through the second round successfully by defeating R. E. Worthington, of England, 6-4, 6-4, 6-3.

Hennessey's consistently accurate driving and volleying won the match for him against an exceedingly clever opponent.

AMERICAN EXPERTS REPORT TO HOOVER

President Gets First Hand Information About Reparations Parley in Paris.

Washington, June 25.—President Hoover today will receive a first hand report from the American experts on the Paris reparations accord.

Owen D. Young, by whose name the agreement reached by Germany and the Allies is called; J. P. Morgan, his associate and their altercates, Thomas W. Lamont and Thomas Nelson Perkins, were to be luncheon guests at the White House.

Secretary of State Stimson and Secretary Mellon of the Treasury will participate in the round table conference.

London Parley. Great Britain, France, Belgium and Italy are expected to hold a formal conference in London early in July as a preliminary to approval by those governments of the Paris experts' agreement and it is likely President Hoover will advise with Young and Morgan concerning the sending of an American observer or the need for this government to be represented.

While the United States will not be signatory to the Young plan, it will be necessary for steps to be taken to make effective this government's expressed willingness to reduce by ten per cent. its claims against Germany for Rhine army occupation costs.

Was Sentenced to Jail After Stealing Watch from Local Man—Up for Murder.

Frank Di Battista, 25 year old Hartford young man, who went on trial today for first degree murder in Hartford, is the same man who nine years ago was arraigned in the local police court on a charge of theft and was sentenced to serve 90 days in jail by Judge Alexander Arnott.

Di Battista's latest crime to be charged today is the hold-up and killing of Samuel Kamaroff, Jefferson street grocer the night of April 1 when the latter attempted to resist the pilfering of his cash register which contained \$100. The case is being tried before Judges Avery, Wolfe and Baldwin.

POPE PIUS RECEIVES ITALY'S AMBASSADOR

Vatican City, June 25.—In a dignified yet colorful ceremony, Count de Vecchi, Italy's first ambassador to the Vatican, presented his credentials to Pope Pius XI at noon today.

Clad in a resplendent full uniform, the count knelt before the Pontiff and kissed the papal ring at the beginning of the audience.

A number of Italian officials witnessed the ceremony in the hall of St. Peter's cathedral where the Pope holds his audiences. The Pope was surrounded by the prelates in his advisory court.

The ambassador made an address in which he paid homage to the church and the Pope in the name of his King and the Italian government.

Pope Answers. His Holiness answered briefly, expressing his satisfaction at the conciliation reached between the Church and the Italian government.

SINCLAIR'S AIDE STARTS SENTENCE

H. Mason Day Joins His Chief in Prison—Poses for Cameramen.

Washington, June 25.—A new prisoner was counted in the long line that filled down to breakfast in the "big red house" here today.

Day will spend four months with his boss, Harry F. Sinclair, in the district jail because he carried out his employer's instructions and arranged to have the jurors in the Fall-Sinclair conspiracy trial shadowed by Burns detectives.

Day arrived in an ordinary taxicab. He came from New York on a train.

Day, and immaculately dressed, got out of his taxi, and turned to a group of photographers with a smile.

Don't hurry boys," the swarthy polo player remarked. "You've been waiting here all day and I've got all the time in the world."

SUMMER WHITE HOUSE TO BE IN BAY STATE

Gloucester, Mass., June 25.—This quiet, fishing port was stirred with excitement today over the report that John Hays Hammond, famous multi-millionaire mining engineer, had offered his summer home in Magnolia, to President and Mrs. Herbert Hoover as a Summer White House.

Despite repeated statements from Washington, that the President would remain there this summer, the report current here was to the effect that the chief executive would spend at least part of the summer here.

It would be the fourth time in recent years that a president has had a summer White House in New England.

TUESDAY, JUNE 25, 1929

THE COMING CENSUS

The taking of the next census will be materially slower than was the case in 1920. It will be easier getting around than it was nine years ago when enumerators plowed their way through a succession of snowdrifts.

The census questions for 1930, besides gathering all the information they did ten years before will also include statistics of distribution and unemployment.

And in addition they are to try and gather the material from which statistics of unemployment may be compiled.

It, however, Mr. Average Householder, knowing that on or about April 1 he is to be interrogated and must answer the questions, would prepare himself for them.

WORTH CELEBRATING

The typical New England manufacturing village is fast disappearing. Consolidation of companies, absorption of smaller interests by larger and the concentration of the manufacturing in larger centralized units has brought this about.

Seldom do they "come back" by the resumption of operation in the old mill. But once in a while one does.

when it was estimated that more than 100,000 were spectators of this thrilling spectacle. As an afternoon of free sport nothing in the United States compares with the privilege of watching three races in which 22 eight-oared crews participated.

HARD FOR PARENTS

A disgraceful disturbance in which Brown university students and the police of Providence were engaged some weeks ago has resulted in the dismissal from the university of 25 members of the freshman class.

For once the university and police authorities appear to have worked in accord to get at the facts. At the same time that the dean made public the dismissal of those found most guilty of causing the disturbance he issued a statement in which he said that "the university does not condone the faults of its students, nor claim for them special immunity under the law."

CREDIT WHERE DUE

Blood transfusions are much more common than the periodical featuring of some particular case would indicate to the casual reader of the news.

It is when some pitiful case is featured in the press with an appeal for someone to give of his blood without charge and scores volunteer that the public gives a thought to this method of saving life.

MEXICAN SETTLEMENT

The remarkable demonstrations Sunday in Mexico in celebration of the settlement of the bitter controversy between the Church and State are evidence that among some peoples, at least, religion is not a thing of the past.

A GREAT SPECTACLE

Purely as a spectacle the long famous Yale-Harvard boat race on the Thames at New London is dwarfed by the Poughkeepsie races, the drawing power of which is increased with each succeeding year.

By RODNEY DUTCHER.

Washington, June 25.—There seems to be a good chance that the "censorship joker" in the tariff bill will be knocked out by the Senate before the Senate gets through with the measure.

A large howl has been raised against it and no one has risen to its warm defense, not even in the Treasury Department, which sponsored the provision.

The "joker" forbids importation of "any book, paper, pamphlet, writing, advertisement, circular, print, picture or drawing containing any matter advocating or urging treason, insurrection, or forcible resistance to any law of the United States, or containing any threat to take the life of, or inflict bodily harm upon the president of the United States."

University professors have led the outcry against this proposed law, insisting that many classics of economic thought would be barred if it were rigidly applied.

As for myself, I am an incurable sufferer from nostalgia — which, in its more virulent forms, is infinitely worse than mumps, measles or malaria.

Considerable mystery has been attached to the "joker" because of the inability of investigators to discover who was responsible for it.

Health and Diet Advice

By DR. FRANK MCCUE

ENJOYING YOUR MOUNTAIN VACATION.

Many people believe that the mountains are better for respiratory and catarrhal disorders than the seashore, although there is really not much difference, provided a good dietary and resting regime is used.

Before taking a vacation it is a good plan to have an examination of the heart to see whether it will stand for hard climbing or swimming.

The greatest benefit from the mountain vacation is from the fresh air, hiking, and the rest obtainable. Long hikes into the woods should be taken and is a good plan for a nervous person to try to get from his companions and be by himself as much as possible.

The Laborites scored a victory in the recent election in England, but the Liberals hold the balance of power.

months in recovering from the poisons you have generated in your system through this foolish stuffing.

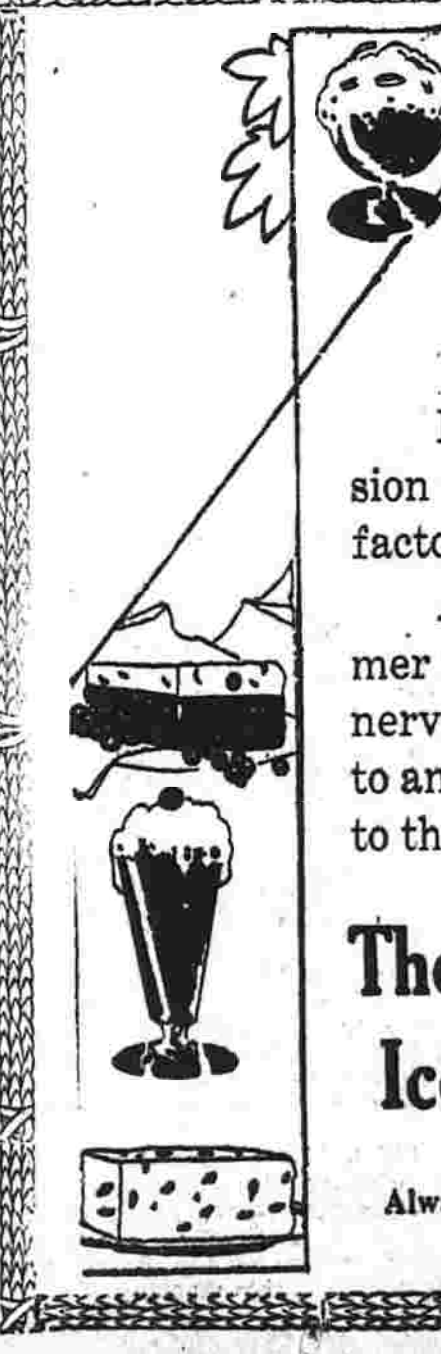

In selecting a mountain camp, the greatest difficulty will be in obtaining fresh vegetables and fruits. Most mountain camps have a dietary too rich in starchy foods.

Make it your aim to obtain the greatest possible benefit from this year's vacation and you will find that after returning to your occupation you will be rewarded by a more successful and happy season of work.

QUESTIONS AND ANSWERS.

### The TOWN DOCTOR

SAYS

GO SOME PLACE THIS YEAR. At this time of year, there are several hundred thousand people throughout the length and breadth of the land who are thinking about vacation, and vacation, to most of them, means going some place. That is the way it should be. This is the greatest nation in the world for "going places," and may such never cease.

To travel is to live. To sit stolidly in one place is to see nothing, feel nothing, and next thing to knowing nothing. Travel is education in the most pleasant form of education known to man, for it "peoples the heart and mind with pictures that never fade." Travel gives a character of experience to our knowledge, and brings the figures upon the tablet of memory into strong relief.

Get away from the surroundings with which you are so "contemptuously familiar." Get away from the daily grind—go places, see things and learn, by contact with those of a different climate. If you live South, go North—if your habitat is East, go West. If you live on the plains, go look at an ocean, if you have never seen a

mountain, go gaze at one, before you are older. And in the going, see what there is to see. Study how towns do things—how others who make their living as you make yours, conduct their affairs. What you learn depends solely on your natural powers and gift of conception, but regardless, you can't be the loser for such a venture.

There are, in America, so many worthwhile places to go—places that every American should see and know about, that lack of a destination is no excuse. The National Capital, the National Parks, historical points, prominent in America's history—in every section of the United States, in your very own state, there are places to go.

But whatever you do, wherever you go, remember that you are an ambassador of the place where you live, and as such, "sell" it to all those with whom you come in contact. "Don't gush" about it, don't overdo it, don't lie about it—just sell it.

### SHORT AND EFFICIENT IS GREEN'S ANNUAL

Takes But 25 Minutes for 32 Second District Voters to Transact Year's Business.

It took just 25 minutes for the 32 members of the Second School District, present at the annual meeting in the Manchester Green School last night to transact the business for the forthcoming year. No opposition of any sort was made to the various motions, in most cases the secretary casting one ballot for the one nomination.

A donation of \$300, which was to purchase playground equipment was received from the Manchester Green Community Club. It was voted to send the club a letter of thanks. It was unanimously voted to levy the present tax rate of 4 mills. The treasurer was authorized to borrow money up to \$5,000 to meet the running expenses of the district. The committee was allowed an appropriation of \$150, to retain the services of a paid supervisor at the playground during the summer months.

William J. Buckley was elected moderator. Reports of the District Auditor, District Collector, District Committee, and District Treasurer were read and accepted. The Treasurer's report showed that receipts for the year amounted to \$25,075.13 with cash on hand at the beginning of the year amounting to \$2,546.00, making a total of \$27,621.13. Disbursements for the preceding year amounted to \$21,391.63, leaving cash on hand of \$5,729.50.

Russell B. Hathaway was elected District Treasurer. Harold Alvord, former Treasurer, having moved from the district refused to run for re-nomination. It was voted to send Mr. Alvord a letter of thanks for his efficient work during his years in office. Millard Parks was elected District Clerk? Robert E. Hathaway was made District Auditor. Miss Ellen Buckley was elected District Collector. With the resignation of Maude H. Woodbridge from the District Committee, Mrs. Vera Burnham was elected in her stead, R. W. Goslee and W. J. Buckley, the two other members of the committee were re-elected.

### RAU'S PAVILION OPENS ON SATURDAY, JUNE 29

Announcement that Rau's Pavilion will open on Saturday, June 29, is being received with statewide interest. Growing in its popularity with each successive year the Rau Dance Pavilion has reached new heights, and this year is offering something entirely different to the dance public.

In keeping with the present trend and vogue of modernistic ideas, Conrad Rau the popular proprietor has made a complete renovation of the old pavilion. The overhauling has been so thorough that it presents an entirely different appearance from that of former years. Upon entering the dance hall one is greeted with a panorama of real beauty that is blended from the attractive background and the vari-colored lights. The transformation is so complete that it would be altogether impossible to recognize it from the old dance pavilion.

Mr. Rau has secured the services of one of Connecticut's foremost interior decorators, F. Wallace Prellie of Rockville, Conn., who has worked out an elaborate decorative scheme which is magnificent in its artistic appointments, and the most modern and fashionable in ballroom beauty. It is another striking example of Mr. Prellie's ability, and in laying out the entire effect he has accomplished a most creditable job. A rare treat is in store for all those who appreciate real beauty.

No expense has been spared and Mr. Rau has gone to unlimited ends in securing the best obtainable in attractive decorations,

lighting effects and other modern equipment and facilities so essential to the up-to-date ballroom. The vari-colored lighting effect is distinctly different and novel, and lends sort of an Oriental enchantment to the ballroom.

The orchestra setting is also the latest in practical ballroom ideas, and resembles the outside portico of a summer mansion, with a terrace effect and fancy carved lattice work executed in purple and cream which also forms the general color scheme.

Alive to the prevailing wishes of the increasing dance public Conrad Rau will present as the opening attraction, "Hal Kemp and his Hotel Manger orchestra" of New York City. This orchestra is acclaimed by radio fans throughout the United States as one of the leading dance bands on the air today. Their fame is not alone confined to the radio but are one of the finest dance units in the country. They have a first class reputation and stand high in the orchestra world. Hotel Manger in New York City is one of the lead-

### TRY TO END ARMY AND NAVY DISPUTE

Washington, June 25.—Negotiations for resumption of athletic relations between the Army and Navy and West Point have been undertaken by the Army and Navy secretaries, but little possibility of a football game this fall exists, it was learned yesterday.

Secretary of War Good, who made the first overture, said data is being prepared for him concerning the dispute over the three year player eligibility rule which started the trouble.

Both academies have games scheduled three years in advance, he said.

### BOTH FIGHTERS READY.

Hoosick Falls, N. Y., June 25.—Paulino Uzcudun, the burly basque will stretch his muscles in a final tuning-up process and sweat off enough weight to keep down close to 190 pounds. A complete rest tomorrow and Thursday should bring him to the scales at about 194, his best fighting weight.

The Basque loosened up yesterday with two rounds each on the light and heavy punching bags and four rounds of shadow boxing and rope skipping. The Basque meets Herr Schmeling, Thursday evening, at the Yankee Stadium.

Lakewood, N. J., June 25.—Max Schmeling finishes his training here today for his fight with Paulino Thursday night.

### A THOUGHT

To give light to them that sit in darkness and in the shadow of death, to guide our feet into the way of peace.—St. Luke 1:79.

Such help as we can give to each other in this world is a debt to each other; and the man who perceives a superiority or a capacity in a subordinate, and neither confesses nor assists it, is not merely the withholder of kindness, but the committer of injury.—Ruskin.

### THE LAXATIVE WITH HIGHEST ENDORSEMENT

When you get out of bed feeling headachy, sluggish, weak, half-sick, here's a simple measure that will have you feeling yourself again in a jiffy.

Take a little Phillips Milk of Magnesia in a glass of water—or lemonade. Two to four tablespoonfuls is the usual adult dose. Taken in lemonade, Phillips Milk of Magnesia acts like citrate of magnesia. Take it like this an hour before breakfast. By the time you leave home, you'll be surprised by your improvement.

As a mild, safe, pleasant laxative, Phillips Milk of Magnesia has the highest medical endorsement. As an anti-acid to correct sour stomach, gas, indigestion, biliousness, it has been standard with doctors for over fifty years. To know its quick relief in digestive and eliminative troubles of men, women, children—and babies—is to keep a bottle always handy.

Full directions for all its uses come with every bottle. All drug stores have the generous 25c and 50c sizes.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of the Chas. H. Phillips Chemical Co., and its predecessor, Chas. H. Phillips, since 1875.

## An Expression of Faith

WITH confidence in the future of the town of Manchester and a genuine desire to have a part in its progress and growth, we dedicate our new telephone building and equipment to the service of this community.

In addition to the \$480,000 spent for the new plant is the further expenditure of technical skill and careful planning that a continuing good grade of adequate and dependable telephone service may be provided—a service, as far as possible free from imperfections, errors or delays, and always at the lowest cost consistent with financial safety.

To render this service to this growing community—to be a part in its future growth—is a thing of which we are proud. The new telephone plant and the public service which it represents is our contribution to the industrial and social life of the town of Manchester.

The new telephone equipment is soon to be put in operation. Before it goes into service, we intend to give you through the columns of this paper various items of information which will enable you to use the new dial service to best advantage. The next announcement will be published on Thursday, June 27.

For Release  
July 10

FOR her latest serial novel, Eleanor Early has written a dramatic and spectacular tale of youth and love, romance and heartache, tragedy and triumph.

"The Shining Talent" is the story of Molly Burnham, a beautiful young college graduate who rose from the ranks of newspaper reporters to achieve an amazing success as a playwright and author . . . But early in her career Molly had had to make a

momentous choice between love and ambition, and she had chosen the latter and sacrificed the first . . . So that in the hour of her greatest triumph she found life empty and achievement only a mockery.

This is the theme of "The Shining Talent," a story of compelling interest, with thrilling action and a very human heroine . . . An unusual serial, written by the author of "Orchid" and "Whirlwind"
