KEITH'S Where you can afford to buy good furniture Let's Returnish the Kitchen during September Breakfast Sets with more than just a 'Surface Finish' Another chapter has been added to our book of better furniture service... and it's all about Breakfast Sets. Ever since they became the vogue in kitchen and dining nook furnishings we have been dissatisfied with factory finished sets. The designs and construction were fine... but the finish! Hardly a set would arrive that was not chipped or cracked in several places. We had to patch and blend colors as best we could, but they were never entirely satisfactory. They were just surface finished... and yet represented the best obtainable. Now we have solved this problem. We buy the finest hardwood chairs and tables... unfinished... at lowest prices through our membership to the Allied Furniture Buyers Syndicate. We Custom-Finish them in our own workshop producing breakfast sets with beauty that is more than just a 'surface finish'. Every set regardless of its price gets four coats of genuine Duco attractively decorated. You can select any colors to carry out a specific decorative scheme and when the figures have told their story we are happy to say that we can sell them at lower prices than ever before. STATE RESTS CASE AT PANTAGES TRIAL

Los Angeles, Sept. 13.—Mrs. Alexander Pantages' trio of defense lawyers today were to resume their fight to disprove testimony of prosecution witnesses that the millionaire theater promoter's wife was drunk when her automobile struck that of Joe Rokumoto, fatally injuring him.

Judge Carlos S. Hardy yesterday refused a motion of defense attorneys to dismiss the second degree murder charge when the state suddenly rested its case. Then came the testimony of witnesses who said they failed to smell liquor on the breath of Mrs. Pantages the night of the fatal accident.

Despite previous testimony by a procession of state witnesses that they had noticed the effects of liquor on Mrs. Pantages, Mrs. Bertha Jacobs declared that the defendant had not touched liquor for two days before the smashup.

Mrs. Jacobs declared that she and Mrs. Pantages had spent the day together and that she left the latter's automobile a few blocks from the scene of the smashup.

Although he failed to shake her denial that Mrs. Pantages had been drunk, Deputy District Attorney Costello made a successful gesture in his cross examination of the witness. Detective Lieutenants Stevenson and Egan were called to his side.

"In recent years," he declared, "any act characterized as offending the sense of decency is held to be indecent. But there is no objective test of what is decent or indecent, and it is entirely a subjective question. Perhaps no definition can be arrived at to cover the issue, as it appears to be an arbitrary question entirely."

One delegate declared that the only books entirely free from sexual matters were research indices and the telephone directories. Desmond McCarthy, London critic and editor, said that it was an utter impossibility to attempt to eradicate sex from art and literature.

JACK MULHALL IN DUAL ROLE TALKIE

"Dark Streets" Is Feature Now Showing at State; Rudy Vallee on Bill.

The first dual role in the history of talking pictures is played by Jack Mulhall in "ark Streets," the new First National Vitaphone production which comes to the State theater today for the remainder of this week.

Dual roles have had an interesting place in the world's literature and drama. Many artists have toyed with the idea and many actors have played double parts, either as two separate people with different appearances, or as the same person with two vastly divergent natures.

In "Dark Streets" Mulhall plays the parts of two brothers, enough alike to be mistaken frequently for each other, but widely different mentally and morally. Out of this resemblance and this difference comes the story, which is highly thrilling.

One is seen as a notorious gangster and gunman on New York's eastside, while the other is a staunch member of the police force in the same city.

"Dark Streets" is a picture that will please almost every type of fan. It has a correct love story, is vibrant and dramatic talking and polished off with a light aroma of comedy moments.

Jack Mulhall should be congratulated upon bringing such a powerful screen document before the camera. Supporting him in the cast are Lila Lee, Pat Harmon, Aggie Herzing and Al Hill. The production was directed by Frank Lloyd.

Appearing on the same program for today is Rudy Vallee, the popular idol of millions of radio listeners, and his famous Connecticut Yankees orchestra. Rudy is presented in a short Vitaphone musical novelty that will please all of his admirers and make new ones. The Vallee orchestra is a versatile aggregation of musicians who know the meaning of jazz interpretations.

Another chapter of "The Diamond Master" and the latest issue of State News Events will also be shown.

The car owner reported his loss to the police. After considerable delay the jokers produced the car, received a lecture and the night worker started, much belated, for his job. Arrived there he told his foreman the reason for his being late but the boss was cold to that sort of excuse. "I guess you can get through," he said, "that gag's worn out."

But the tardy worker prevailed on the foreman to call up Captain Schendel at police headquarters and the latter verified the story. That saved the young man from being today among the unemployed.

QUESTIONS AND ANSWERS
(Itch)
Question: J. K. writes:—"I have had the itch now for six months. All the baths, soaps and ointments do not cure or help me, and I am most anxious to have relief from this trouble."
Answer:—Every kind of itch which does not come from an outside infection can be cured by dieting. The main change is to regulate your food combinations so as to overcome excess stomach acidity which is the principal cause of any acidosis which produces skin irritation.

(Diet for Nursing Mother)
Question: Mrs. H. K. writes:—"I am going to be a mother. What should I eat and drink so that I may nurse my baby and have plenty of milk?"
Answer:—Keep on a well balanced diet before your baby is born and then afterwards if your milk is not sufficient, increase the amount of liquids you use, or drink milk part of the day, both for its nourishment and because of the additional liquid. I will be glad to send you a special article on this subject.

FRED PATTON TO SING IN WORCESTER FESTIVAL

Is Great Favorite in Bay State City—Many Local Friends to Go to Hear Him.

Fred Patton, Metropolitan bass baritone and former Manchester man will open his concert season at the Worcester Festival on October 2 and 4. He will be heard in Josten's "Ode to St. Cecilia," a concert version of "Faust," and the finale of "Die Meistersinger." Mr. Patton is a great favorite in Worcester and has been heard there at least a dozen times.

A number of Mr. Patton's friends from this town are planning to attend the Festival when Mr. Patton sings.

OAKLANDS, PONTIACS STANDARDS HIGH

Dealers in the Oakland and Pontiac six-cylinder cars must measure up to a high standard, according to Albert C. Hine, president of the A. C. Hine company of Hartford, the state distributor. These well-known cars are represented in this town by Kemp Brothers. When the dealers were appointed to handle this line their situation was considered from every angle. Ability to handle sales

and render adequate service and standing in the community were taken into consideration.

Methods of merchandising motor car transportation undergo changes from time to time and the methods employed five years ago do not meet the need of today. More attention than ever is given the matter of service and the one big idea inculcated in all Oakland and Pontiac dealers is that the obligations of the dealer begin and not end with the sale of the cars.

The Oakland and Pontiac slogan is "Winning and Holding Good Will." Every associate dealer in the Hine state organization senses the full meaning of this slogan and that the intent of it has been carried out to the letter is evident from the increased sales of these six-cylinder cars throughout the state.

The Hine territory has done its part in full measure in making the Nutmeg State a business getting territory. As President Hine expresses it, "We are all fully sold on the idea that in Oakland and Pontiac we are selling the utmost in utility and value. Our line is right up to the minute and as improvements develop they are incorporated in our cars. But what we aim for is causing every buyer to realize that we are anxious and willing to assist him in every way in getting the utmost out of his car. We want the buyer's good will, we want to hold it and we meet him all the way."

MAJORS PRACTICE

All members of the Majors football team are requested to report for practice tonight at Hickey's grove. In case of rain, they are to meet at the Community club.

Owing to the dry weather many of the farmers are compelled to fill their silos now as the corn is drying up so fast. This will not make as good a feed as would the matured crop. The water condition is growing

more serious every day. Never was there a time in the memory of one of the oldest inhabitants when so many wells were dry as now. Farmers' wives have to refrain from canning owing to the lack of water.

TODAY IS THE ANNIVERSARY

GENERAL WOLFE KILLED

On Sept. 13, 1759, James Wolfe, the famous British general, was killed in a battle on the Plains of Abraham, a mile south of Quebec while attempting to drive the French out of Canada.

The first step in the scheme to expel the French had as its object the capture of Quebec. Wolfe sailed from England in February and four months later landed on the Isle of Orleans, a few miles below Quebec.

Wolfe's force numbered about 9,000 men, including six companies of New England troops, while the French strength comprised a garrison of 2,000 men at Quebec and 14,000 men, of whom only a small part were regulars, at Beauport, below the town.

After falling in two attacks, Wolfe decided to cross the St. Lawrence river and scale the heights above the town, a hazardous procedure.

The French were surprised and

in a few hours 4500 men, with two guns, had climbed the steep heights and were drawn up on the plains.

They were then engaged by a French army of about the same number, but the French lines were shattered by the British fire and broke. As he led the charge, Wolfe was struck three times and was forced to lie down. He died while the pursuit was still under way.

STOP HIS MISERY

The after-dinner speaker droned

on and on: one man nodded and presently rested his head on the table. The chairman leaned over and tapped him on the head with his mallet.

The delinquent raised his head a little.

"Hit me harder," he said. "I can still hear him."—Tit-Bits.

SUIT HER BETTER

Hee: I'm sending my wife one dollar and five kisses.

Haw: You'd better reverse those figures, old man.—Answers.

Howbeit thou art just in all that is brought upon us; for thou hast done right, but we have done wickedly.—Nehemiah 9:33.

If punishment reaches not the mind and makes not the will supple, it hardens the offender.—Locke.

HE SUFFERED FOR TEN YEARS

Then ALL-BRAN Brought Relief in 2 Months—Doctor Recommended It

Constipation is dreaded not only for its own insidious self, but because of the many serious conditions and diseases it causes. Mr. Lind was a sufferer—but read how he found relief.

"For the past 10 years I have suffered from piles. At times I have been unable to work. I have tried suppositories, ointments, etc., but to no avail.

"Two months ago my grocer called my attention to Kellogg's ALL-BRAN. I began taking it regularly. Immediately the pain and annoyance from the piles was relieved. I found that it requires very little ALL-BRAN to give nature a fair chance to effect a cure."—WALTER J. LIND, R. 2, Box 137, Appleton, Wis.

Don't neglect constipation. At any time its poisons may take terrible toll from your health and well-being. Protect yourself. Eat Kellogg's ALL-BRAN regularly—two tablespoons daily, or in chronic cases, with every meal. ALL-BRAN brings sure, natural relief. It is what doctors call a bulk food. It sweeps the intestine clean and stimulates normal action.

Ready-to-eat with milk or cream. Results guaranteed. Doctors recommend it because it is 100% bran. Made by Kellogg in Battle Creek. Served in hotels, restaurants, and dining cars. Sold by all grocers.

SENSE and NONSENSE

Cutting Out the Waste In our relentless quest for information we learned that xylothrihydrogluthartic acid is made from peanut shells. So a new use may be found for old safety-razor blades, after all.

A New York man boasts he never "yessed" an employer in his life... But he admits he never got anywhere.

Sunshine, watermelon, cantaloupe, ice tea, electric fans, what's wrong with the summer?

The fourth grade had been studying the poles in class.

"Johnny," said the teacher, "what is it that lives near the poles? It is white and its name begins with a 'B.'"

Johnny: "Oh, yes, I know, teacher—Commander Byrd."

Even a strong, silent man will loosen up a bit at \$1-a word.

It's tough to be left-handed when you're eating in an armchair lunch room, but it's even tougher on the fellow sitting next to you.

It doesn't take blue eyes and blonde hair long to make a pay envelope look sick.

Every man should live so that he has no use for a lawyer to get him out of trouble.

Few of us are trained to think in a crisis, but all can act the fool in one without any training.

"This law is a queer business." "How so?" "They swear a man to tell the truth."

"What then?" "And every time he shows signs of doing so, some lawyer objects."

It never grows too cold, nor too hot, to smile and enjoy life as it is.

If the employer—after years of hard work and worry—succeeds and makes money the employees made it for him.

But—if he loses all he has—that's his own fault.

HAPPINESS largely consists not in what you have, but in what you don't want—and putting the difference in the bank.

He: "Could you marry a man who spends all he makes?" She: "No, but I could love him while it lasted."

Herman—"So she wouldn't lay her head on your shoulder?" Shade—"No, her hair didn't match my suit."

Sometimes it takes a lot of hush money to run a still.

"Maud Mugley \$25 a dozen for the new photographs." "But they don't look a bit like her."

"Of course not. What do you suppose she paid the twenty-five dollars for?"

FLAPPER FANNY SAYS

Worry is what you can sometimes read between the lines on anyone's face.

After all, woman seems to make some progress. Her age-old complaint has been that she has nothing to wear. Now she is wearing it.

Little Johnny was playing ball and his mother sent his father to bring him home. Dad got into the game himself. Pretty soon mother came out, somewhat irate.

"Why didn't you bring Johnny home?" she demanded. "I tried to," said dad. "He was on second base, but I fouled out."

One kind of man you'll never meet is one who wants a good paying political office for only one term.

A lot of folks believe the way a newspaper ought to be run is out of town.

WHY SHE SAID SO Lancashire Lad: I come from a cotton town.

Fair Flapper: I can tell that by your suit.—Fit-Bits.

SELF PRESERVATION Meggy: He told me he could live on my kisses forever.

Peggy: Are you going to let him. Meggy: Not till I find out what I'm going to live on.—Answers.

HIDES, NOT WALKS "I never go out with a boy who whistles after me."

"Nor I, dear, but I don't mind one who tootles his motor horn."—Passing Show.

LUCKY FELLOW Editors: That fellow Scribes sent in a manuscript this morning entitled, "Why Do I Live?"

Friend: What did you do with it? Editor: Returned it with a slip saying "Because you posted this instead of bringing it personally.—Leicester, England, Chronicle."
