## THREE KILLED SEVERAL HURT IN DRY "WAR"

### Fortunes in Booze Seized Over Week-End; 24 Idaho Officials Found Guilty of Liquor Law Violations.

Providence, Dec. 30.—(AP)—U. S. Attorney Henry M. Boss, Jr., declared here this morning that with the facts at hand he saw no reason for presenting to a Federal Grand Jury the slaying of three rum-runners and the wounding of a fourth by the crew of the CG-290 which overhauled and machine-gunned the "Black Duck" early yesterday morning in lower Narragansett Bay.

The Federal prosecutor conferred with Assistant Attorney General S. W. Fischer, Jr. this morning and both agreed to mark time until further reports were made. Lieut. Commander L. T. Chalker of the New London Coast Guard base was due here this afternoon to report to Mr. Boss.

By Associated Press.  
Week-end drives by prohibition enforcement authorities resulted in the deaths of three rum smugglers at the hands of the Coast Guard in the seizure of 5,000 gallons of liquor and the critical wounding of three officers in Virginia and California.

In addition, a Federal jury at Coeur D'Alene, Idaho, returned verdicts of guilty against 24 of 28 defendants of Mullen, Idaho and others who were charged with wholesale violations of the liquor law.

Coming in the midst of official Washington's bitter dispute over prohibition, the developments, particularly the Coast Guard episode, were regarded as possible evidences of a response to the demand of several "dry" members of the Senate for improved enforcement.

Refused to Halt.  
The three smugglers were killed in an effort to run a consignment of 500 cases of liquor into Newport, in the speedboat "Black Duck" of that city. The Coast Guard patrol boat CG-290 opened fire, its commanding officer said, after the "Black Duck" had refused to head an order to stop. A fourth member of the crew, who was wounded, claimed no warning had been given.

The remainder of the contraband liquor was seized by Coast Guardsmen in Long Island Sound waters from two other craft, the crews of which escaped.

Means Business.  
At Washington, Rear Admiral F. C. Billard, commander of the Coast Guard said that that service "means business" and has no use for "gentle words and amiable gestures."

After raiding an illicit still and arresting three men, Bernard Puryear, a deputy sheriff and Mack E. Tuck, a Clarksville, Va., policeman were seriously wounded by a fourth man, who escaped. They were in a critical condition today. The raid took place in Mecklenburg county, Va., just across the state line from Oxford, N. C.

## 9 DEAD, 30 HURT IN SAMOAN RIOT

### One White Constable Killed and Eight Natives in Fight Over Prisoner.

Apia, British Samoa, Dec. 30.—Quiet prevailed today and no further disorders were expected to grow out of disturbances which Saturday night took the lives of one white constable and eight Samoans. The Samoans included High Chief Tamusese.

The disturbance was the outgrowth of the native reception to Alfred G. Smyth, retired merchant, who was deported for two years in January, 1928, for attempts to interfere with administration of the New Zealand government.

Hit Constable.  
The two year period was not yet quiet and police attempted to serve a warrant for his arrest. A large number of the Mau (Native League of Samoans) surrounded him and one of them felled a native constable with a blow on the head from a baton.

Others started throwing sticks and stones and police finally had to resort to their guns to quell the rioting. Eight Samoans were killed, and several police and more than 30 Samoans injured.

High Chief Tamusese, who died in the fighting, spent six months in a New Zealand prison late in 1928 for urging native followers not to pay taxes to the government. High Chief Tuimaleliana was wounded in the arm.

## MEXICO FREEZES KICK FROM NATIONAL DRINK

Mexico City, Dec. 30.—(AP)—After trying for a year to find some means of discouraging the consumption of pulque, the government has found a system as simple as Columbus' method of making an egg stand on end.

The department of health has ordered all pulquerias or native saloons in the Federal district, to sell only ice cold pulque. Refrigeration, it has developed, deprives pulque of its inebriating powers.

## AMERICAN DRUNKS ON THE INCREASE

### Survey Shows Over Five Per Cent More Than in '27; Death Increase, Too.

New York, Dec. 30.—(AP)—The Moderation League today published police statistics from 565 places purporting to show that arrests for drunkenness increased 5.5 percent in 1928 over figures for 1927.

The League, which says its aim is "the restoration of temperance," declares that its figures show that the Volstead Act has failed utterly to do what it was intended to do, namely, promote temperance and sobriety.

Total arrests in the 565 places are given in the survey for 1928 as 743,369 as against 704,336 in 1927. The 1928 figure is an increase of 106,872 over the total for 1924, the first year the survey was made.

More Figures  
From 261 places in states which had no dry law before national prohibition the survey gathered a total of 431,480 arrests for drunkenness in 1928, an increase of three per cent over 1927. In 115 places in states which had state prohibition laws prior to the national law the total for 1928 was 145,164, an increase of 39 per cent.

Census bureau figures, the report says, show that the death rate from alcoholism increased in 27 "dry" states and fell in the 12 "wet" states from which figures were gathered. All show a lower average over the last ten years than during the previous decade when sale of intoxicants was legal.

## INDIA TO DEMAND ITS INDEPENDENCE

### Congress Votes 134 to 77 for This; Wants It to Be Attained Gradually.

Lahore, India, Dec. 30.—(AP)—Resolutions asking complete independence of India from the British crown will be presented to the 44th Nationalist Congress, which opened Sunday, with full approval of the all India National Congress party's executive committee.

The committee, meeting prior to convention of the Congress, voted 134 to 77 approving the resolution of Mahatma Ghandi, Nationalist leader, favoring complete independence to be attained gradually. Ghandi advocated as a first step non-cooperation with the British governmental machinery.

An amendment to Ghandi's motion offered by Subash providing for complete severance of relations and severance of participation in the government of India was rejected by a vote of 131 to 89 after Ghandi's plea for gradual progress in the campaign for ultimate self-government.

Ghandi the Leader.  
Ghandi led the fight in the committee against those who were inclined to favor the proposed dominion status for India. His stand was a marked advance from the passive resistance and advocacy of dominion status which Ghandi so long has favored.

Ghandi's measures of non-cooperation with the British governmental machinery included refusal to attend the round table conference called to meet in London to discuss the political situation in India, and favored a boycott of the central and provincial legislatures with authorization for a program of civil disobedience and non-payment of taxes when the committee thinks it advisable.

More than 30,000 Indians attended the opening of the Congress which is regarded here and in Great Britain as of great importance in determining the future status of this ancient land with its millions of inhabitants.

TREASURY BALANCE.  
Washington, Dec. 30.—(AP)—Treasury receipts for December 27 were \$17,958,710.55; expenditures, \$21,068,070.82; balance \$179,875,185.69.

## NOTE EXPLAINS MOTIVE BEHIND MAN'S SUICIDE

### Ansonia Man Tells Friend Woman Ruined His Life; Does Not Explain Why He Shot Her.

Ansonia, Dec. 30.—(AP)—A dramatic revelation of the motives which led Joseph Dellutri of 172 Beaver street, this city, to shoot Mrs. Ethel Drake and then slay himself in the Drake apartment at 57 Anson street, Derby yesterday afternoon, came this morning in the form of two letters which Dellutri had mailed Sunday morning from Bridgeport to Sealer of Weights and Measures Stephen Lo Presti of this city, who had been one of Dellutri's closest friends. One of the letters, bearing a special delivery stamp, had been written by the deceased while he was coming to Ansonia on the train. It told of his having to pawn two of his rings to get money for his train fare back from New York City. The other letter was written in New York City, in a nervous hand, on the back of three advertising circulars.

In this pathetic epistle, Dellutri bade farewell to his friend Lo Presti and to his sister Concita and all his friends. He regrets not having heeded Mr. Lo Presti's advice to "keep away from Mrs. Drake. It has ruined my life," he wrote. He told of his intention to commit suicide but mentioned nothing to show that he planned to shoot Mrs. Drake.

The letter:  
"Dear Stephen:  
These are my last words to you from New York. If I had heeded your good advice I should have left your woman. It has ruined me and this woman. I shall have killed today for I pray you will let my sisters know the woman has my money that I had on my person. She has a ring of mine with a red stone. The address of this woman is Ethel Drake, 59 Anson street, Derby. She is a friend of my friend. She is the cause of my life being taken. I regard you as my friend. Give my love to my other friends and when you receive this letter go to my sister and she will give you my drama and I will leave it to you for a memo.  
"Goodbye forever."  
"Joseph Dellutri."  
P. S.—You will tell Concita that the ticket can be found in a brown sweater. I wish also to tell you the reason for my watch. Pray for me for what I'm doing. Goodbye.

Pawned Rings.  
The ticket referred to was evidently a pawn ticket for the two rings which Dellutri pawned to raise money for his fare back to Ansonia.

Dellutri, a World War veteran, was an accomplished musician, and had composed a number of Italian operas and light dramas for his own amusement. His last manuscript.

## POLICEMAN FOILS HARTFORD 'BREAK'

### Were Almost to Blow Safe At Strand Theater When Officer Appears.

Hartford, Dec. 30.—(AP)—Three robbers, with everything set for blowing the safe at the Strand theater containing \$4,000, early this morning, were scared away by a policeman on his rounds. They escaped with only a bunch of keys belonging to the night watchman, Paul Viering, 59 of 235 Crown street, whom they had left bruised, bound and gagged in the basement, and left behind their tools, electric torches and two gas tanks, all of which may result in valuable clues as to their identity.

The watchman said this morning that before the safe blowers attacked him he got a good look at them and that the younger men, he is certain, are companions who about a year and a half ago frequently rode up from New Haven with a man who at the time, was employed in bringing films to the theater.

They entered the building about 2:45 a. m. A few minutes later Policeman Edward Dooley was passing and noticed that the watchman was not in the entrance of the theater where he is usually found at that hour, generally greeting the night man's coat near the foot of the inside staircase, but no sign of him, and called "Paul!" No answer. Dooley investigated and stumbled over the gas tank which the robbers had left on the second floor landing where the safe is. It is believed the robbers made their escape down the fire escape, when the policeman called.

STORM SWEEPS GERMANY.  
Berlin, Dec. 30.—(AP)—Wreckage today strewn the path of a 7½ miles per hour hurricane which yesterday tore across northern Germany and into Dortmund collapsed with such material damage. Other structures collapsed at Cologne, Dusseldorf and Muenster, with a few people injured. There were abnormal high tides in the Elbe and Weser rivers.

## ALLAN HOOVER ARRANGES PARTY AT WHITE HOUSE

### Younger Set to Reign Supreme Tonight at Capital Mansion—One Hundred Invitations Were Sent Out

By Sue McNamara.  
Washington, Dec. 30.—(AP)—Allan Hoover, youngest son of the President, will reach the high point of his holiday fling tonight with a brilliant dancing party at the White House.

The affair was arranged hurriedly and verbal invitations are said to have been sent out to about 100. It is safe to say that the debutants invited to the White House will setback other affairs which have been scheduled for weeks.

The invitations read for 10 o'clock. Instead of the Marine Band which usually plays for all social affairs at the executive mansion, a peppy hotel orchestra has been engaged.

Newly Decorated.  
The Christmas tree and holly wreaths and poinsettias are said to have been set out to about 100. It is safe to say that the debutants invited to the White House will setback other affairs which have been scheduled for weeks.

The Ford company, it is believed, would be the principal sufferer under the new duties, as it makes the bulk of American cars sold here. Ford is now the fourth largest producer in France averaging 1,500 cars a month. The Ford company instituted the policy of making some of its parts in France, but this affair is now being considered in light of the new duties, which are expected to be adopted within a few weeks, would increase the sales price here possibly one-fifth since competitors in the Ford competition in check.

The new bill applies to all countries, but American automobile people interpret it as being aimed solely at them.

The French bill is called a "readjustment" of duties giving reductions for minor parts which can be made in France but increasing the duties on essential parts such as axles, transmission, clutches and motors.

## Lindbergh Most Popular Among Maine's Graduates

Augusta, Me., Dec. 30.—(AP)—Answers to a questionnaire by 2,500 of last June's school graduates in the state showed that the majority had chosen "honor thy father and mother," as the most important commandment but that Colonel Charles A. Lindbergh was the living character most admired.

"Honor" appealed to both sexes as the quality most admired in boys and girls, with good manners and scholarship ranking second and third, respectively. Smart, energetic, and excellence in dancing followed. Nearly 2,000 favored the Eighteenth Amendment to the Constitution of the United States, while 499 expressed opposition. Twelve approved of prohibition, but not of the present law.

Approximately 95 per cent of the girls intended to become teachers, nurses or stenographers. Aviation, mechanical and scientific pursuits topped the "verified list of vocations in the minds of the boys.

## STORMS CAUSE SEVEN DEATHS ON OTHER SIDE

### Many Injured and Heavy Damage in Britain and on the Continent—All Ships Delayed.

London, Dec. 30.—(AP)—The southwest gale which caused seven deaths in Great Britain and on the European seacoast over the week end today appeared to have blown itself out but was accompanied by a heavy rain which was causing fears of floods in the low lying districts along the Thames.

The flood waters were over their banks in the Windsor area. Cellars were inundated at Eton and many roads were impassable.

Northwestern Germany was struck severely by the storm which blew down several buildings in Dortmund, Cologne, Dusseldorf and Muenster. Several persons were injured. Shipping also was troubled.

Rough on Channel.  
Boisterous conditions were still prevalent in parts of the channel and steamer service was maintained with great difficulty. The Maid of Orleans, the first steamer to leave Boulogne for England since Saturday, arrived at Folkestone with 230 passengers all showing signs of a rough crossing. Many steamers were still sheltering in various ports.

The Imperial Airways resumed normal services and the wireless aerial at Chelmsford which was blown down over the week end was working normally.

## STUTZ MOTOR CO. IN DIFFICULTIES

### Creditors File Petition in Involuntary Bankruptcy Against Firm.

New York, Dec. 30.—(AP)—Dow, Jones & Co., reported today that a petition in involuntary bankruptcy has been filed in Indianapolis against the Stutz Motor Car Co. of America.

The petition was filed in federal court by three creditors—E. C. Atkins Co., the Hide, Leather and Belting Co., and the Vonnegut Hardware Co., all of Indianapolis—whose claims against the Stutz Company total \$2,176. They assert the company committed an act in bankruptcy by paying cash to preferred creditors, who are unnamed.

Stock Declining.  
Stutz common stock has been declining on the New York Curb Exchange almost steadily since it reached \$34, and for some time after announcement of the bankruptcy petition today.

During the past few years, Stutz's earnings have improved. Nothing was earned on the common stock from 1921 to 1925, inclusive, but \$1.57 per share was earned in 1926, \$1.57 per share in 1927, and \$1.05 in 1928.

Early this year, the company brought out a medium priced car in addition to its regular high-priced models. Large increase in business was reported during the first ten months of the year.

## JOBLESS START RIOT

New York, Dec. 30.—(AP)—Inflamed by alleged broken promises to supply jobs in return for dropping out of the unemployment lines, more than a hundred jobless men stormed the offices of the Reliable Employment Agency on Sixth avenue today.

The proprietor and three employees, one a woman, were saved from the angry job hunters by half a dozen police and detectives who, however, arrested the agency head and employes on charges of petty larceny after hearing the stories of their accusers.

The agency was opened only last week by Joseph Weiner, one of those arrested, who describes himself as the manager.

The job hunters said that after paying their premiums they had been sent on wild goose chases to outlying addresses in the city only to find there were no jobs.

The entire group of complainants escorted the four arrested to a police station.

HELD FOR EMBEZZLEMENT.  
Norwalk, Dec. 30.—(AP)—Stephen Lengyel, father of four, an agent for the Metropolitan Life Insurance Co., today was arrested on charges involving the embezzlement of \$1,400 over a period of eight months. Lengyel was tried in City Court this afternoon.

## WHITE HOUSE SILENT ON DRY LAW TODAY

### NATIVES REPORT SEEING EIELSON

### Also Say They Saw Smoke from Campfire—Searchers Start Out Anew.

Moscow, Dec. 30.—(AP)—Spurred by reports from natives of icy northern Siberia that they had seen the plane of the missing American aviators, Carl Ben Eielson and Earl Borland, the Soviet government today intensified its search for the two men. Both have been missing north of Siberia for nearly two months after a flight from Alaska to rescue the crew of an ice-bound ship.

Chukhnovsky, one of those who figured prominently in the rescue of the Italia survivors, with Pilots Straube, Alekseev, Sterligov, will leave tomorrow for Krasnoyarsk, in central Siberia, and hope to leave from there by January 6 for Cape North in a powerful seaplane to take up the search.

Other Searchers  
Captain Milozorov of the Soviet steamer Stavropol, which is frozen in the ice in the vicinity of the section over which the American aviators flew, was instructed to send out two searching parties to investigate reports of natives they had seen in the plane, and other reports of campfires in an isolated place, one party will explore 75 miles west of Cape North and the other will search the coast line as far as Kuchinsk Bay.

Searching parties also will be sent out from Wrangel Island toward North Cape.

WEATHER DELAYS HOP  
Nome, Dec. 30.—(AP)—Hazy skies and the coldest weather thus far this winter continued today to hinder aviators in Alaska and on the Siberian Arctic coast in carrying on the search for the flyers Carl Ben Eielson and Earl Borland, missing since they left Teller for the ice-bound trading ship Nanuk, at North Cape, Siberia, seven weeks ago.

The temperature dropped to 40 below zero here late last night and it was even colder at other points. The haze prevented Patsy Joe Crosson and the Soviet Giliara, at the Nanuk, about 500 miles northeast of here, from taking off yesterday.

Canadian Flyers  
The squad of Canadian aviators, headed by Pilot Pat Reid are expected to fly their big cabin planes, headed by the United States last week from Fairbanks to Nome or Teller tomorrow or the next day.

Flyers here plan to cooperate with the Russian aviators who have been assigned to aid in the search by the Soviet government. Six Russian planes will be used, it was reported from Moscow.

Reports that Russian natives had seen the missing flyers near St. Lawrence Island has turned attention to the possibility that they may have landed on an ice floe and floated with the current which runs out of the Arctic ocean into the Pacific at this season of the year.

## SENATOR SACKETT FOR BERLIN POST

### To Succeed Ambassador Schurman; Appointment Expected Next Monday.

Washington, Dec. 30.—(AP)—President Hoover intends to submit to the Senate next Monday the nomination of Senator Frederick M. Sackett of Kentucky as ambassador to Germany and the early resignation and departure of the Senator for Berlin are expected.

Under senatorial custom a member of that body appointed to another position is given confirmation immediately, the nomination being called up out of order as a mark of courtesy to the appointee.

Succeeds Schurman  
Senator Sackett would succeed Jacob Gould Schurman, resigned. Republican party leaders here look for Governor Sampson of Kentucky to appoint as Senator to succeed M. Sackett, Representative John M. Robson, Republican, of the 11th Kentucky District, who was the governor's campaign manager in 1928.

The appointment of Senator Sackett to the diplomatic corps is regarded by some party leaders here as clearing up the Republican political situation in Kentucky.

Representative Robson and Senator Sackett have been in opposite camps for some time and it had been expected that they would be the opposing candidates for the Republican senatorial nomination next year with a bitter contest in prospect.

TRANSFER CONVICTS  
Auburn, N. Y., Dec. 30.—(AP)—Fifty eight convicts were transferred from Auburn state prison today to help relieve the congestion held to be partly responsible for two revolts of time inmates since last July. None of those transferred participated in the riot of December 11. Thirty were taken to Great Meadows prison at Comstock and the remaining 28 to Clinton prison, Dannemora. The transfer leaves 1,495 convicts at Auburn, the lowest number in months.

Fifty four convicts were transferred from here to other prisons last November.

Report Unfounded.  
The secretary added that he had received a copy of the "white paper" and after reading it carefully had found that these assumptions as to the position of the British government were unfounded.

"The argument made by the British government," he said, "was based upon the relations of the United States to the League of Nations; and upon the obligations assumed by members of the league there can be no neutral rights because there can be no neutrals.

"Their argument this does not apply to the position of the United States as a signatory of the Kellogg-Briand pact," Mr. Stimson continued. "As has been pointed out many times, that pact contains no covenant similar to that in the covenant of the League of Nations providing for joint forceful action by the various signatories against an aggressor."

Washington, Dec. 30.—(AP)—Secretary Stimson in a statement today said that the "British white paper," an interpretation of obligations created by the League of Nations, does not state that there could be no neutrals in any future war.

He said that the paper in question contains nothing contrary to the United States position as a signatory of the Kellogg-Briand pact.

Mr. Stimson said that the "white paper" in any future war there could be no neutrals and that it had apparently been assumed here that this assertion had been made by the British government as a general fact without any limitations, and that the British government contended that this situation followed as a result of the execution of the Kellogg-Briand pact."

PATTON TO SING HERE FEBRUARY 3 Men's Friendship Club to Present Famous Baritone In Concert.

Selectman Thomas J. Rogers, president of the Men's Friendship club of the South Methodist church, announced today that the date set for the big concert which the club is to sponsor is Monday evening, February 3, and the place, High school assembly hall.

The object of the concert is the redemption of the friendship club's pledge toward the new church building. The price of admission will be kept purposely low in order to afford the greatest number possible an opportunity of hearing these artists who have made a mark for themselves in the musical world and have brought honor to their home town.

Mr. Patton refused this year to contract with the Metropolitan Opera company to remain under its sole control. He is thereby in a position to engage in more concert work than he otherwise would have been.

AUSTRALIAN PROGRAM IS TO BE BROADCAST

New York, Dec. 30.—(AP)—As a climax to its New Year's Eve program of dance bands in four sections of the country, the National Broadcasting Company is to attempt a re-broadcast of Sydney, Australia, early Wednesday morning.

The Australian program of dance music, expected to last one hour, is to begin at 4 a. m. eastern time. It will cross the Pacific on short waves, be picked up at San Francisco and there out into the nation-wide network.

DRINKS HOME-MADE BEER DIES SOON AFTERWARDS

New Britain, Dec. 30.—(AP)—Plans for their which Julius Nowoski, 112 Rockwell avenue, and Mrs. Josephine Hlebowicz, a divorcee of 24 Webster Hill, had been making, were nullified today when the woman died a few hours after drinking home-made beer at the home of her fiancé, Dr. John Purney, medical examiner, declared that death was due to heart disease and will make no autopsy.

ATTACKS DRY LAW

Providence, Dec. 30.—(AP)—Attacking the constitutionality of the 18th Amendment on five different points William A. Gunning, Providence lawyer, today filed a demurrer to an indictment in federal court of Jack Marks, charged with unlawful possession of a still and liquor and manufacture. He contends that the amendment requires ratification by all of the states, and not three-fourths, and that this is unconstitutional; that this ratification has not been forthcoming within seven years of its submission; that three-fourths of the state legislatures have not approved, that the amendment has not received the approval of the people of the several states and its ratification by certain legislatures without sanction of the people is a violation of the voters' sovereign rights.

MEXICANS VISIT NIAGARA

Niagara Falls, N. Y., Dec. 30.—(AP)—Fascual Ortiz Rubio, President-elect of Mexico with his wife and three children and several relatives and Mexican officials arrived here this morning on a sightseeing tour.

OBITUARY

DEATHS

Mrs. Catherine Mann, widow of William Mann who died 35 years ago, died at the home of her grand niece, Mrs. Charles Shell of Coventry yesterday morning, with whom she has been living since her husband's death. Mrs. Mann came to this country from Holland at the age of 16 and lived in Bolton until her husband, an engineer, died. She leaves besides Mrs. Shell, a sister, Mrs. George Steich of College Point, New York and numerous great grand nieces and nephews.

FUNERALS

The funeral of Mrs. Anna K. Johnson was held at 2:30 yesterday afternoon from her late home at 50 Glenwood street. Rev. P. J. O. Cornell officiated and burial was in the Buckland cemetery. The bearers were Oscar Land, Oscar Peterson, Linder Carlson, Enar Johansson, Karl Johnson and Elof Johnson.

State Briefs

ATTEMPTS SUICIDE. Norwich, Dec. 30.—(AP)—Mrs. Bertha Bridges, 35, is in the Norwich hospital today with severe burns about the face, sustained yesterday when she attempted to commit suicide by drinking poison. The woman's hand slipped, as she put the bottle of poison in her mouth causing the poison to spill. The injuries will not prove fatal.

MANY BANKRUPTS. Bridgeport, Dec. 30.—(AP)—A new high record in bankruptcy filings in Fairfield county was reached in 1929 when 143 petitions voluntary and involuntary were filed in the office of referee John Keogh. The previous high mark was set in 1928 when 137 petitions were recorded. Last year the figure was 135.

Derby, Dec. 30.—(AP)—Mrs. Ethel Crowther Baldwin Drake, victim of the pistol of Joseph Delutti, who afterward took his own life, was on the danger list at Griffith hospital today with a bullet hole through her lung. It was said that she had a good chance to recover, but that there was always the danger that pneumonia or some other complication would set in.

Deputy Coroner J. J. Corrigan came up from New Haven today to make his examination of the case. Arrangements for the disposition of the body of Delutti awaited his orders.

READ CLAUSE WRONG. New Britain, Dec. 30.—(AP)—When Myer Dobson, 22, of 240 E. street, Hartford, was arrested yesterday for driving an automobile with 1930 registration plates, he insisted that he was within the law. Taken to police headquarters he was shown a registration blank which bore the information that new plates may be used on the last day of the year in this state. Dobson expressed surprise. He said he had read the clause "week" instead of "day." In police court today Judge M. D. Sase suspended judgment.

RUSH FOR LICENCES. Hartford, Dec. 30.—(AP)—All records will undoubtedly be broken today for the number of automobile registrations issued in a single day at the Hartford office of the State motor vehicle department, double lines of applicants having formed shortly after the office opened at 8 o'clock and continued unbroken during the day.

KILLS SELF WITH GAS. New Britain, Dec. 30.—(AP)—George Wickwire, 54, committed suicide today in his room at 127 Cherry street, his body being found by a neighbor who broke in the door after smelling illuminating gas.

He left two notes—one addressed to whoever found his body to "look out for the gas" and another, sealed, addressed to a brother, Seth Wickwire, of Plainville. Before retiring last night Wickwire made certain that he would not be disturbed by tying a rope across the room from one door-knob to another, thus preventing entrance to the room.

PROBE KILLING OF COP. New Haven, Dec. 30.—(AP)—Deputy Coroner James J. Corrigan today for the fatal shooting of Patrolman Royman Zoller of West Haven during a liquor raid on the former's Allingtown home Friday night. He gave his version after members of the West Haven department and Mrs. Calini had testified. He was exhausted and red-eyed from constant weeping since his arrest.

Calini has been held incommunicado but Corrigan said his lawyers would have the right to question him either late today or tomorrow. What he told the deputy coroner had not been revealed. Mrs. Calini was on the verge of collapse when she appeared at his office. She is the mother of a two-year-old boy. Zoller died in a New Haven hospital Saturday noon.

KIWANIS INSTALLS OFFICERS FOR 1930

Stephen C. Hale Becomes President—Wilcox Continues as Secretary.

The last meeting of the year for the Manchester Kiwanis club took place this noon at the Hotel Sheridan. The business included the reports of the secretary and treasurer and the brief ceremony of inducting the new president into office. The reports of both the secretary and treasurer showed that the club

Stephen C. Hale

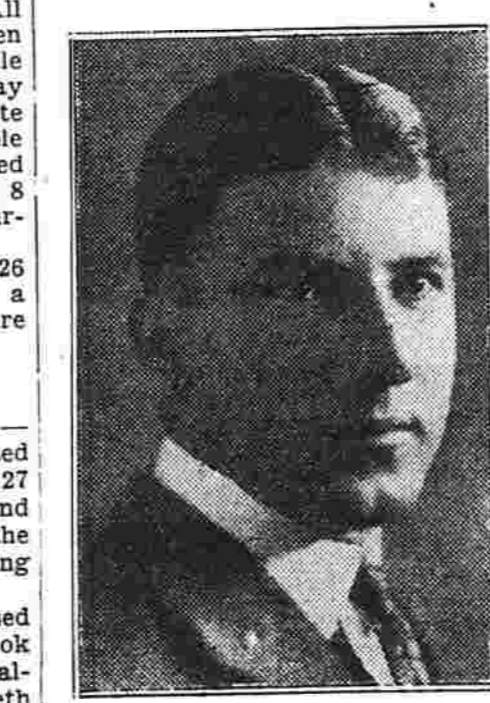

was in an unusually healthy condition, both from a financial standpoint and in interest shown by the members. The average attendance at the weekly meetings shows a decided gain this year and the club while it has lost 10 by removals has taken in 14 making a net gain of 4.

Past President Dr. D. C. Y. Moore presided today and complimented the club on the success attained the past year. The Manchester Kiwanis

George H. Wilcox

club stood second in the district, he said, in average weekly attendance. He knew the membership had taken a greater interest in the work and it was one of the live organizations of the town. Dr. Moore also took the opportunity to compliment Arthur Knofla, the outgoing president, for the manner in which he had conducted the meetings and the interest he had brought to them. In reviewing his year's work, Mr. Knofla thanked his board of directors and committee chairman for the excellent support they had given him.

Arthur A. Knofla

One of the last duties that he was called upon to perform was the pleasurable one of accepting George E. Keith as a member. Below is a short synopsis of Mr. Knofla's speech.

As my year draws to a close I am going to take this opportunity to review the progress which we have made. I am not going to bore you with a detailed resume of each particular committee we have accomplished. However, I do feel that there are certain highlights of the year which will bear mentioning. Our major project "The Underprivileged Child Work" has been taken care of, as in the past, by sending forty odd children to our camp at Hebron. The results of this project as shown by the gain in weight and general health of the children who attended camp has indeed been gratifying. I am sure each and every one of us feel that the time we have given to this project has been well worth while.

ardent and unselfish worker in child welfare campaigns; the evolution of an unsympathetic and apparently hardened man of affairs into a genuinely democratic and tireless leader in benevolent and charitable projects, and the transformation of a solitary and non-communicative scientist into a radiant personality of contagious good cheer and fellowship. It brings home to us, who busy world of today. As the years glide by we can see her circle of potentially constantly expanding, and achievements pyramiding far aloft into the deep blue heavens.

In closing I wish to say that it has indeed been a pleasurable experience for me to act as your president for the past year and it is highly gratifying to me to know that while we have lost 10 members, through change of positions, removing from Manchester, etc., we have gained 14 new members and our club today has a larger membership than on January 1st, a year ago. Moreover our average weekly attendance has steadily improved until now we are second among the clubs of Connecticut and several points ahead of the records of previous years of this club. I want you to know that I have sincerely endeavored to give the best that was in me to make this a successful year for our club, and as I go back into the ranks with the rest of you I promise Steve Hale and his successors the same loyal support which you have accorded me.

The attendance prize today was won by T. Blinn and was won by Frank Strickland. Three generations of the House family were at the meeting today, Charles E. House, his son, Herbert B. and the latter's son Charles who is a student at Harvard College.

In accepting the presidency of the Kiwanis club, Stephen C. Hale thanked the members for the honor they had shown him by choosing him as their president. He said he hoped to be as successful as his predecessor, T. Blinn, and to give to the club the enthusiasm for Kiwanis. He felt sure next year would be equally successful if the directors, committee chairmen and members will give the club's activities their whole-hearted support.

CHINESE REFUSE TO ACCEPT ENVOY

Shanghai, Dec. 30.—(AP)—Tokyo dispatches saying the Nationalist government's refusal to accept Torkichi Obata as Japanese minister to China, had resulted in a "delicate situation" between the two countries, presaging Japan's possible severance of diplomatic relations with China, were received with reserve in official circles today.

Kuomin, Nationalist government news agency, said: "Chinese official circles doubt that the Japanese government will act as suggested." The Nationalist government indicated it considers itself supported by international practice in such matters in requesting the nomination of a person other than the one proposed, adding that no valid reason was apparent as to why Tokyo insisted upon the acceptance of Obata.

RHODY'S ROADS POOR

Westerly, R. I., Dec. 30.—(AP)—State police had a tough job today in going to help out motorists whose cars had stalled overnight on the Boston-New York highway, known as Route 4, for they pulled about forty cars out of trouble. This highway is in bad shape, the worst for years due to rain and melting snow. At Hope Valley this morning a wire went down cutting off communication with the police barracks until 10:30.

Mrs. Elsie Studley, 84 Center street, East Providence, is in Westery hospital for treatment for injuries received when her car skidded and hit a boulder.

FITZPATRICK RESIGNS

Providence, Dec. 30.—(AP)—First Assistant U. S. Attorney Joseph E. Fitzpatrick sent a letter of resignation to Attorney General William D. Mitchell today, to become effective tomorrow. Mr. Fitzpatrick's resignation was demanded by U. S. Attorney Henry M. Boss, Jr., but until today Mr. Fitzpatrick refused to resign.

WATER CASE DELAYED

Washington, Dec. 30.—(AP)—Oral argument in controversies between Connecticut and Massachusetts, an agreement between New Jersey and New York state and city, arising out of proposed diversion of water, have been postponed by the Superior Court until January 20. The two cases were set for hearing next Monday, but the attorneys' agreement of the four states and the corporation counsel of New York City, joined in asking the court to grant a postponement.

BRIDGEPORT YOUTHS HELD FOR ROBBERY

Bridgeport, Dec. 30.—(AP)—Two hours after a lunch room burglary in Seymour early this morning, three Bridgeport youths were arrested here today by local police and are being held under \$5,000 bonds each to appear in City Court tomorrow. The youths were traced from Seymour by the license number on their car, which was reported to the police by a passerby. The young men are John C. Muirhead, 19, Fred Massante, 20, and Louis Sherman, 21. All are held under charges of breach of the peace.

About three o'clock this morning a restaurant and pool room in Seymour was entered by three youths who drove up in a car. The cash register was rifled of its contents and more money, all amounting to about \$20, was taken from its hiding place in a show case. As they sped away in their car, a passerby noted the number and reported it to police. It was instantly relayed to police all over the state. Shortly after five o'clock this morning, two sergeants of the detective bureau here saw a car with the number sought and arrested the three youths on suspicion.

WILHELM MAYBACH DEAD

Stuttgart, Germany, Dec. 30.—(AP)—Wilhelm Maybach, one of the leading German automobile manufacturers and widely known for his developments in the automobile field, died today aged 84. Mr. Maybach produced the Mercedes car and also invented many automobile accessories. He participated in the early development of the Maybach motors with which his son Karl achieved fame. The Maybach motors were used in the Zeppelins.

# KIDDIES CAMP LEADS KIWANIS ACTIVITIES

### Review of Work Since Organization in 1924 Shows Many Worthwhile Achievements Carried Out.

Reports of the activities of the Kiwanis Club of Manchester since its organization March 12, 1924, hand disclose many worth while projects carried out within the confines of the Club circle, or in connection with activities of other civic organizations. Included among these creditable accomplishments, within the five year span of the club's activities, is the establishment of a camp for girls and boys in Hebron for which \$1,000 was raised in April, 1926 through the medium of a minstrel show which together with other funds was applied in equipping the Hebron Kiddies Camp, and for the entertainment of underprivileged boys and girls for a two weeks period during the summer months.

**Waddell First President.** The first meeting of the club before formation, was held on March 4, 1924 in the Sheridan Hotel with five members of the Hartford Kiwanis Club present and a representative of the Kiwanis International in attendance. A dozen interested persons listened to Dr. L. C. Moore outlining the benefits of such an organization in the community. Temporary officers were elected consisting of G. H. Waddell, president; Dr. E. G. Dolan, vice president; E. G. Seaman, secretary and the late Henry Nettleton, treasurer.

On March 12th of that year the Club was officially launched with the following permanent officers elected for the year: George H. Waddell, president; Dr. C. C. Y. Moore, vice president; Henry Nettleton, secretary and Fayette Clarke, treasurer. The first act of the newly formed organization was to extend a vote of confidence in the work being done by the Chamber of Commerce and an offer to co-operate with them.

**Help Children.** The first work of the Kiwanis Club soon after its inception was in extending funds to support a child from the Newington Home for one year. This child was boarded out and was visited by members and presented with gifts at Christmas. This first child was supported by the club until the decision was made to support a Kiddies Camp in Hebron. The Club also voted to provide an outing and entertainment for New York children through the New York Tribune.

The following year Dr. C. C. Y. Moore was chosen president; Charles Ray, vice president; Lewis Sipe, treasurer and H. W. Willis secretary. In addition to supporting the child from the Newington Home, the club voted \$50 towards the Stanley Memorial, erected by Kiwanis International in Stanley Park, Vancouver, British Columbia, as a memorial to President Harding who had visited that place the year before as President of the United States. The club also presented Superintendents Verplanck and Howes with \$50 each for dental work on poor children in town.

**The Camp.** The idea for a kiddies camp took root in the minds of the Kiwanis members during 1926 under the leadership of the following officers: Charles Ray, president; W. A. Knofla, vice president; Lewis Sipe, treasurer and G. H. Wilcox, secretary. In addition to the \$1,000 raised for the camp during 1926 a senior in High school was helped through and a worthy girl aided to make the trip to Washington with her class after graduation. The Newington Home boy was supported for the balance of the year. The need of a dormitory at Hebron was imminent and many members gave their time in the erection of the building.

During July and August 1926, 89 boys and girls were given a two weeks vacation at Hebron with the result that nearly all made gains in weight and were immeasurably benefited by the outing. The club also gave \$100 to Superintendent Verplanck to use in connection with necessary medical needs of worthy poor pupils.

**1927 Program.** The 1927 program of the Kiwanis club was similar to that of the year previous. In addition to giving a Minstrel Show to raise funds for the annual outing at Hebron the club voted \$40 towards the purchase of ten acres of land in Barkhamsted by the Kiwanis Clubs of Connecticut for park purposes. At one of the meetings during 1927 a table was exhibited, made by a boy helped by the club. During the summer 62 boys and girls were given an outing of two weeks at Hebron. The officers for this year were W. A. Knofla, president; Lewis Sipe, treasurer and G. H. Wilcox, secretary.

Outstanding accomplishments of the club during 1928 consisted of continuing to support the Hebron camp with 45 children in attendance during the summer and the entertainment of Charles Brandon Booth noted lecturer. The club voted to inform Senators and Representatives of their unqualified support of the Kellogg Pact. The officers for 1928 were: Clarence P. Quimby, president; Frank Anderson, vice president; Lewis Sipe, treasurer and G. H. Wilcox, secretary.

To Bring Paddock. In May of 1928 \$900 was raised for the support of the annual children's party at Hebron resulting in

20 boys being sent to camp on July 29 and 24 girls enjoying two weeks vacation during August. The best results since the camp project was inaugurated were in evidence during the 1929 vacation period, each child averaging a gain of 3 1/2 pounds in weight. The greatest gain in weight was 7 1/2 pounds. Early in 1930 the club plans to have Charles Paddock world's champion sprinter as speaker at a recent meeting. Kiwanis has experienced its most successful season during 1929. Operating with a working basis of members who at least attend 60 per cent. of the meetings the club has attained to unusual success which gives the officers the support necessary to bring results. The club has a membership of 53.

**Go To Convention.** Manchester Kiwanis has sent representatives to every Kiwanis International Convention since its organization. It was represented at Denver in 1924 by G. H. Waddell; 1925 at St. Paul by Dr. C. C. Y. Moore; 1926 at Montreal by six members; 1927 at Memphis by W. A. Knofla, president, and G. H. Wilcox, secretary; at Seattle in 1928 by Secretary G. H. Wilcox; and at Milwaukee in 1929 by President Arthur P. Quimby and Trustee Clarence P. Quimby. The club has been represented each year at the District Conventions. This last year 20 members attended the Poland Springs Convention and helped elect Clarence P. Quimby, lieutenant governor of the First Kiwanis District. Officers for 1929 were Frank H. Anderson, president; Arthur Knofla, vice president; Lewis Sipe, treasurer and G. H. Wilcox, secretary. Early in March President Anderson resigned, being taken to New York on business and Arthur Knofla, vice president was elected president and Stephen Hale elected vice president.

The 1930 election of officers resulted in the election of Stephen C. Hale as president; Fayette B. Clarke, vice president; Lewis Sipe, treasurer; Arthur A. Knofla, trustee; Wilbrod J. Messier, Deputy trustee; George H. Wilcox, secretary and the following directors: Clifford R. Burr, Lawrence W. Case, Walter P. Gorman, Lewis N. Heebner, Edward J. Holl, Charles E. House and Thomas Ferguson. Lewis Sipe has served as treasurer with the exception of the first year and G. H. Wilcox has been secretary of the club since 1926.

**The Committees.** The Kiwanis committees for the year 1930: Public affairs committee (including under privileged child): George Giennen, chairman; C. R. Burr, Frank Cheney, Jr., William Knofla, R. LaMotte Russell, Earl Seaman, George Waddell. Program committee: Elmer Thielen, chairman; L. W. Case, L. N. Heebner, C. E. Watkins, G. H. Wilcox. Business standards committee: G. E. Willis, chairman; Walter Gorman, Herbert House, Samuel Kemp, William Rubnow. Entertainment committee: William Halstead, chairman; Fayette Clarke, Charles Milkowski, Harold Turkington, Helge E. Pearson, Elmore Weedon. Educational committee: Eldred J. McCabe, chairman; Clarence Quimby; Rev. William P. Reidy, Harry Roth, Walter Sheridan. Publicity committee, Thomas Ferguson, chairman; John S. Barstow, J. Stuart Neill, Merton Strickland, Harold West. Meetings committee (house reception and attendance): Charles J. Huber, chairman; R. K. Anderson, Clark Baker, Harold Burr, Arvid Gustafson, Lewis Sipe, Harlow Willis.

Classification and new membership committee: Dr. C. C. Y. Moore, chairman; Thomas Ferguson, Edward J. Holl, Charles House. Inter-club relations committee: Arthur Knofla, chairman; Fred Blish, Wilbrod Messier, Ralph McNally, John Olson. Vocational guidance: Elbert Shelton, chairman; W. W. Robertson, John Echmalian, Fred Verplanck.

**FORMER LOCAL DIVORCEE IS MARRIED IN NEW YORK** (Special to The Herald.)

New York, Dec. 30.—Mrs. Elizabeth L. Eno, 25, formerly of South Manchester, Conn., and now of 137 High street, Hartford, Conn., and Kermit R. Kruger, 28, of the same Hartford address, were married in New York Saturday. They were granted a license to marry at the Municipal Building.

Mrs. Eno, the daughter of Joseph and Mary LaRko, was born in South Manchester. She was divorced from Ralph E. Eno in Hartford in 1927. Mr. Kruger was born in Junction City, Mo., and is the son of Robert R. and Nancy Stitt Kruger.

**POLICE COURT** Samuel C. Gellen, charged with driving an automobile while under the influence of liquor, had his case continued until Thursday morning under a bond of \$200. Gellen was arrested by Officer Arthur Seymour Saturday night.

Thomas Kelley of Hartford, charged with reckless driving, also had his case continued until Thursday morning under a bond of \$100. He was arrested last night on Center street after his car had struck a trolley car. He wanted to engage counsel and for that reason the hearing went over.

# NATIONS FIGHT WAR GOD MARS

### To Start New Year in Working for Peace—Cable Review of the Week.

(By Associated Press)

The New Year is opening with two great international conferences, one to settle up the last war, and the other to prevent future wars, and with the regular League Council meeting, which is intended to act as a safety-valve for the war-like spirit. As the old year goes out, Mars is being hunted down and the nations hope to corner him.

The second Hague reparations conference will open on the ball on January 3, the League Council on January 23, and the London five-power disarmament conference begins on January 21. Preparations for both the big conferences went on actively during the past week.

France and Germany appointed their delegations to the Hague conference, which will review the work of the conference last August. The Japanese delegation to the Naval conference ended their long journey from Tokyo to London. Premier Tardieu and Foreign Minister Briand won two important victories and got a vote of confidence for their Hague policy in the French Chamber of Deputies. They will lead the French delegation.

Germany will send Foreign Minister Curtius, ex-Chancellor Wirth, Finance Minister Moldenhauer and Minister of Economics Schmidt, with two Reichsbank experts, to the Hague. Dr. Hjalmar Schacht, head of the Reichsbank, who led the German delegations to the other reparations conferences will act only as an adviser.

**Japan's Envoys** When the Japanese delegation to the naval conference arrived in England, they found a memorandum from France explaining the French policy at the conference.

Mr. Wakatsuki, head of the delegation, merely reiterated the Japanese "claim to seventy per cent of the greatest naval strength," and then began to make contacts with British officials and to study the French note, which was sent by the Quai D'Orsay to the four other conference powers, affirmed that France would base her policy on the covenant of the League of Nations.

In essence it meant that France regarded the work of the conference as only a prelude to a later disarmament conference at Geneva, where land, air and sea strength would be discussed. As the United States is not a member of the League, the French attitude may cause difficulties at the conference.

**Pact Not Strong Enough** Moreover, France considers that the Kellogg-Briand pact is not a sufficiently strong guarantee of national security to form the basis for a disarmament agreement, and in any case she is opposed to the principle followed at the Washington conference of allotting naval strength by mathematical ratios. She believes that national needs must limit navies.

The British Parliament adjourned until January 21 with labor's rule threatened by the opposition on the coal mines bill. The Conservatives will have something to say again about the resumption of relations between Britain and Russia.

The protocols by which the two countries agreed to refrain from propaganda in each other's territory, and dominions were made public last week. In India, which is specifically mentioned in the Anglo-Russian agreement, Mahatma Gandhi and other Nationalist leaders decided to cease their campaign for dominion within the British Empire and now aim at independence.

A resolution composed by Gandhi and approved by the principal committees of the All-India Congress urged the boycott of elections for the central and provincial legislatures, non-payment of taxes, and civil disobedience when necessary. The Congress will probably adopt it. The deserts of Arabia and the discretion of diplomats have effectively muffled the sounds of warfare in the Near East, but it transpired last week that Ibn Saud, king of the Hedjaz, has cornered his great rival sheikh Faisal Ed Dowish in a desert trap.

# NOTE EXPLAINS MOTIVE BEHIND MAN'S SUICIDE

(Continued from Page 1.)

he leaves as a memo to Mr. Lo Presti. Mrs. Drake, he wrote, is in possession of a ruby ring he prized and also of his watch.

It was said today at the Griffin hospital that Mrs. Drake when brought in there, had been found with a roll of bills concealed on her person. She is being attended by Dr. Thomas F. Plunkett, who today performed an operation for the removal of the bullet which pierced just above her heart. If pneumonia does not set in, she stands a good chance of recovery, Dr. Plunkett said. Her husband, Albert Drake, spent last night at the home of a friend in this city with the three children.

**MAGISTRATE ORDERED COP'S REPORT HELD UP** New York, Dec. 30.—(AP)—The delay in reporting the holdup member 7 of a dinner party for Magistrate Albert Vitale, which police said was a "fake" was the suggestion of the magistrate himself, a former detective testified today at his departmental hearing on charges growing out of the holdup. Former Detective Arthur Johnson, who was demoted and suspended after the robbers had taken his pistol from him, told Police Commissioner Whalen today that he highly resented over their friend's predicament were hovering about, making tentative little rushes to the broken edge of the ice, retreating, joining their voices in a chorus of alarm. Terribly anxious to see the imperiled animal the plainly were, but also terribly helpless.

**TAKE VALUABLE TOOLS RIGHT BEFORE WORKERS** Cheney Outside Gang Reports Loss of Big Box and Implements at Noon Saturday. Cheney Brothers' outdoor repair shop lost a large tool box Saturday noon and apparently whoever took it made away with the valuable collection as some of the Cheney employees looked on. The workers were opening up the main sewer line at the corner of Turnpike and Summit streets. One manhole was open and the big long box holding the tools and about the size of a coffin was resting in the middle of the highway.

Leaving the tools at the juncture the workers went up to the next manhole to carry on the job. When they were busily engaged some of the men noticed a truck come along Middle Turnpike, stop and load the tools on to the body. They thought it was another Cheney truck that had come to return the tools to the shop. Instead it was someone else taking them by mistake or for whatever value there was in them.

**GOVERNMENT TO REOPEN ALFRED NORRIS CASE** Washington, Dec. 30.—(AP)—The government has decided to reopen the case of Alfred E. Norris of New York, which involved the guilt of the purchase of liquor shipped to him at his own request.

The Department of Justice announced today that it had decided to ask the Supreme Court to review the decision of the Circuit Court of Appeals which reversed the conviction of Norris on a charge of conspiracy to transport liquor. Norris, on several occasions between October, 1926, and February, 1928, telephoned to a man in Philadelphia orders for liquor to be delivered in New York, it was charged. The liquor was shipped to Norris by express in packages naming fictitious consignors.

**ABOUT TOWN** Pete Happeny and Frank McLaughlin won the pinocchio championship of Hose Co. No. 3 Saturday night by defeating Mike Suhie and Paul Vesco 8 out of 10 games.

Hose Co. No. 3 is planning for the annual Ladies' Night to be held in Hose House No. 3 January 18th. A "coon supper" is to be served followed by old fashioned dancing and refreshments. The committee in charge is William Warren, chairman; Thomas Hallett, William Barrett, Jack Raggetts and Pete Happeny.

James G. Craig, local distance runner, has been elected as Secretary of the Connecticut Olympic Boy Scouts for the coming year. Mr. Craig is a graduate of Cornell and is employed at Cheney Brothers as research engineer.

Troop 1 Boy Scouts and committee will meet tonight at 7:30 in the building of the Hollister street school, for the purpose of re-registering the troop. Each Scout is requested to appear in uniform and to bring his 50 cents.

Miss Margaret Lawler and Miss Marjory Mallon took part in the Christmas musicale given by pupils of Miss Arlyne C. Moriarty in addition to those named Saturday.

# Dog Gives Life To Save Another From Drowning

### Plunges to Aid of Smaller Animal at Hilliard's; Goes Under as Men Watch Unable to Help.

It would not hold man. Lieutenant Barron, taking in the situation at a glance, had just about decided to make a try, at least, to rescue the dog, which repeatedly strove to get a foothold on the surrounding ice, as repeatedly slipped back into the water, and evidently had there appeared another man, a resident of the neighborhood who had also been summoned by the newcomer. "You couldn't do anything. That ice wouldn't hold you and there's thin mud there so deep that if you got in you'd never get out. It's a regular death trap."

So there wasn't anything to do but watch the canine tragedy work itself out. That it did in an unexpected way. For bounding onto the scene, head up and alert, came the police dog—from where, none could say. The big dog saw the little one struggling, the distressed but ineffectual efforts of the four-footed spectators. Without hesitation he plunged into the opening and in the same movement thrust his body under that of the imperiled little dog, lifting the animal so that it could and did scramble back upon the unbroken ice.

**Monument—Maybe** But it was the ultimate sacrifice. For the momentum of the big dog's plunge carried him under the solid ice—and he never came up. Perhaps there won't be any monument—indeed there probably won't. Maybe somebody will propose that the body of water be restricted. Big Dog Pond, for example.

**PLAN RADIO UNIVERSITY OF NATIONAL EDUCATION** Washington, Dec. 30.—(AP)—Recommendation for a radio university of national education, with an endowment of \$10,000,000, was made today by the advisory committee on education by radio in a report to Secretary Wilbur.

Representatives of commercial broadcasting who were present at the session said the country was not ready for such a move. The Columbia system that offered a counter suggestion that a division of education by radio be set up in the Federal Office of Education.

The plan for the Radio University of National Education as outlined today by its educational and financial policies should be vested in a board of control to be composed of not more than 15 persons chosen to represent educational, scientific and other national organizations. Among the organizations suggested were the Department of the Interior, National Education Association, United States Chamber of Commerce, American Library Association, Association of Land Grant Colleges, American Association of University Professors, American Association for the Advancement of Science, Institute of Radio Engineers and State Superintendents of Education.

**WAS FORCED TO MARRY AT POINT OF A GUN** Trenton, N. J., Dec. 30.—(AP)—Cheney he was forced at the point of a gun to marry Mrs. Bridget Mongrella Steffanelli, 48 year old mother of nine children, Victor Steffanelli, 28, of Newark today sought in the Court of Chancery to have the marriage annulled.

After he refused her proposals of marriage several times, the petition to the court stated, Mrs. Mongrella refused to take no for an answer, and on August 6, last, led Steffanelli to Brooklyn covering him with a revolver which she held in her coat pocket.

In Brooklyn the couple were married at the office of the deputy city clerk and then returned to Newark. They never lived together, Steffanelli asserted that he was engaged to marry another woman at the time he was led to the altar. He is now the step father of a son his own age.

**TOWER GUARD STABBED BY ESCAPING CONVICT** Jefferson City, Mo., Dec. 30.—(AP)—A tower guard was stabbed and a convict was shot when two inmates of the Missouri state penitentiary here made an ineffectual attempt to escape early today. John T. Bradley, guard, is in a local hospital with a slashed abdomen and wounds about the head from a blackjack, and Virgil H. 24, convict, is in a prison hospital with buckshot wounds about the hips.

Bradley was stabbed when Davis and Clarence Hansen, another convict, crawled over the prison wall in a desperate dash for liberty. Davis was shot by another tower guard, and Hansen was captured within a block of the prison.

# FIREMEN HONOR EDWIN T. FERRIS

### Longest Active Laddie Is 50 Years Wed on New Year's Day.

Edwin T. Ferris, 74 years of age, charter member and perhaps the oldest active fireman in Connecticut, was honored by his comrades on Saturday evening at hose house No. 3 when 18 of the company gathered to give him a testimonial dinner in honor of the 50th anniversary of his marriage which falls on New Year's Day.

Mr. Ferris was presented with a silver set in appreciation of his work with the local company. Following the dinner Mr. Ferris told of the early days in Manchester fire districts and of his activities in obtaining motorized apparatus for Hose Co. No. 3, the first of such to be purchased in town.

Mr. Ferris has been treasurer of the Company for the past dozen years. Pompey, the Roman, had water clocks installed in the courts for the benefits of the lawyers—"to stop their babbling." This was 2000 years ago.

buckshot wounds in his chest which may prove fatal. Agents who accompanied him said the gun was in the hands of Mrs. South but her husband contended it was discharged in a struggle for possession of the weapon. Both South and his wife were held.

The verdict at Coeur D'Alene was returned after 21 hours of deliberation. Among those convicted were Mayor Arthur Harwood of Mullan and Sheriff R. E. Weninger, of Shoshone county.

**COOLIDGE GOING SOUTH.** Northampton, Mass., Dec. 30.—(AP)—Calvin Coolidge will desert the cold of New England for the warmth of Florida this winter. The former president has planned to leave Northampton early in January for a visit to St. Petersburg, and perhaps other points in Florida. While in St. Petersburg he will attend the annual convention there of the officers and agency directors of the New York Life Insurance Company, of which he is director. Mr. Coolidge, it is believed has not arranged his exact itinerary as yet.

MONDAY, DEC. 30, 1929

HOW LONG?

One of the most impressive paragraphs we have seen in a long time appeared in the Hartford Courant on Saturday:

The estimated cost of the municipal education program for the new fiscal year beginning April 1 is \$4,332,049, a figure which is only \$500,000 less than the entire budget of the city of Hartford for the fiscal year of 1919-20.

It is competent to enquire of the insurance executives of Hartford whether, in the young people now entering the employ of their companies, they are obtaining a more intelligent and more efficient class of helpers than they were getting ten years ago. It is competent to enquire of the business men of the Capitol City whether they find, among their present applicants for positions coming fresh from the schools, better trained mentalities than in 1919-20. It is competent to enquire of Hartford's industrial leaders whether the boys and girls now entering their employ are better equipped mentally and spiritually to make their way in industry than those who came to them a decade ago. It is competent to enquire of college and university authorities whether Hartford's schools are sending them students better prepared. It is competent to enquire of the Hartford police whether there is a better morale among the adolescents of the city, whether they are better behaved and have less tendency to lawbreaking and crime, after more than ten years of peace, than was the case in the demoralized period directly following the war. It is competent to enquire of the educational authorities of the city of Hartford, as a matter of fact, whether they can produce, in improved citizenship, in greater efficiency, in enhanced general usefulness, in an enlarged sense of responsibility, in a better balanced view of life, in more earnestness of purpose, even in a larger degree of information or in any single direction one particle of improvement in the product of the schools as compared with ten years ago, to justify a nickel of the enormous increase in per capita cost of public school education.

The city of Hartford is not an exception. It is merely, along with substantially every American city and large town, the victim of a psychological lesion on the part of the population—nervous fear of a synthetically fabricated "public opinion," which is not public opinion at all but the enforced opinion of a handful of opportunists, that "nothing in the world can be too good, in the way of education, for our children."

In every home there is suspicion if not conviction that in the public school of this country children are being "educated" out of usefulness, out of habits of diligence, away from clearness of vision, away from sense of responsibility, away from the fundamentals of economic truth; that there is terrific wastage of time; that there is worship of false and ignoble ideas; that the children in the school are having their minds clad in tinsel and paper lace instead of the soundly woven fabrics and fed on lollipops instead of on nourishing food—and all at a cost so staggering as to threaten the school system with sudden and destructive revolution.

Yet, so far, the educational mountebanks who have erected this monstrous structure of deceit and ineffectiveness have been able to silence the voice of protest by the mere crying of "Shame!" against every occasional critic. It is to be wondered how much longer can the game be played—

played for the glorification and personal gain of a tiny set of "educational" dudes and sissies—in the light of such revelations as are contained in that single Hartford newspaper paragraph. Not forever, we'll warrant.

DEATH IN RUM ROW

There is no Rum Row. It has died a thousand deaths. Yet in a few hours an unusually spirited search of the waters inside of Block Island resulted in the capture of three vessels laden with liquor; incidentally in the killing of three rum runners.

What excites the contempt of the average citizen in these matters is not the activities of the Coast Guard in their job of suppressing liquor smuggling, but the everlasting repetition at frequent intervals that there is no liquor smuggling—that Rum Row is now a thing of history and that all the booze in the United States is either being made here or brought in over the land frontiers. In the light of such one-day results as the capture of these three ships, it is utter nonsense to pretend that there is no more liquor in-coming by way of the sea.

Another thing that is repellent to all candid minds is the twaddle about not intending to kill rum runners when Coast Guard vessels open fire with machine guns on smuggling ships. What good does it do to pretend? The men who run in the rum know their legal risks—know that they are taking chances with their lives. They are after huge profits and they assume the hazards with their eyes open. When they refuse to lay, to upon summons from a government vessel they realize that they are going to be fired on and that they are liable to be killed. Then what is the sense of the Coast Guard, or anyone assuming to talk for it, issuing, as was done in the present case, a lot of nonsense about not intending to kill the men on the Black Duck?

It was the business of the Coast Guard crew to stop the Black Duck at all costs. They did stop her—at the cost of three lives. Very well, it is a grim business, but we detest the mistaken law that is the occasion of it, but under the law the Coast Guardsmen did perfectly right. Why whine over it afterward?

In contrast with this so-frequent cry-babbling of some of his subordinates is the statement of Admiral Billard, head of the Coast Guard service. "The Coast Guard means business," he said after the killing. "The rum runner who fails to heed the command of the Coast Guard to halt runs a serious risk of being hurt."

That is the correct and manly attitude. We suspect, from what we know of Admiral Billard, that he is about as much in sympathy with this business of federal prohibition as we are. But he knows his duty and that if it is to be effectively performed it cannot be apologized for.

Not the faintest shadow of blame can attach to the Coast Guard for the slaughter of the three men of the Black Duck. The responsibility lies upon the dead men and upon the institution of prohibition.

GHANDI'S QUEER STAND

Very few Americans know anything worth mentioning about the politics of India. It is conceivable that Indian politics are not so very much better understood by the people of Great Britain as a whole. It is even barely possible that in Parliament and in every successive government there are at least a few statesmen who have curiously mistaken ideas about India and what goes on in the minds of its diverse and ployplot population. So that the bare fact that an "All India National Congress Party" declares its opposition to any dominion status for India and issues an ultimatum pronouncing for absolute political independence of Great Britain or nothing may mean much or little.

However, there is one aspect of the pronouncement that will strike most people on this side of the water as fairly clear. Mahatma Gandhi, the famous unclad leader of the Nationalist movement, after contributing his influence to the declaration against dominion status, proceeds to state that he doesn't propose to attempt to put his program of independence into effect all at one time but to bring it about by easy stages. Which will cause most Occidentals, more direct and less subtle in their mental processes perhaps than the Indian leader, to wonder how on earth India could possibly pass through any more advantageous stage, on the road to independence, than that of a dominion like Canada or Australia.

If the Indian Nationalists were prepared to make a declaration such as the American colonists made in 1776, and get out and fight for it, that would be another matter. But Gandhi is no advocate of

armed rebellion. He is a pacifist of sorts. He wants to have India become free by degrees and by peaceful methods. But to the western mind he seems strangely determined to oppose precisely the thing he advocates.

Perhaps Gandhi expects to live a very long time. And perhaps he does not want ever to work himself out of a job as India's star agitator.

DAWLING

It is impossible to think of any way in which the government at Washington could lend greater force to President Hoover's urge for the present undertaking of public works than to shake up the Post Office and Treasury Departments so thoroughly that this unconscionable delay in the erection of already authorized post office and federal buildings might be brought to a sudden and effectual end.

Both Hartford and Bridgeport are suffering from the lack of post office facilities already authorized but still non-existent because their erection has been hobbled by a snarl of red tape. In all probability the same state of affairs exists throughout the entire country. It always has existed. It has always taken the United States government anywhere from three to twenty times as long to do a job of this kind as it would take any individual or business concern.

Obviously there will have to be, in Washington, a considerable change in methods if we are to have, from the government itself, a proper example of how to adapt construction programs to the exigencies of the hour. It is to be anticipated that President Hoover will serve notice on the Departments concerned in this delay of public buildings that he wants action—that he wants it now and not two or three years from now. This is the poorest of times for dawdling over construction jobs.

IN NEW YORK

New York, Dec. 30.—What's new in New York—George M. Cohan, the "grand old man" of the theater, has sold himself "down the river" to the talkies. . . . When he hits westward for Hollywood, it will be one of the few occasions when "the Yankee Doodle boy" found himself more than forty-five minutes from Broadway. . . . He'll be connected with United Artists. . . . Incidentally, it has been a dream of Cohan's life to make a trip back to dear old Ireland.

And Louis Bromfield, the Pulitzer prize winning author, will not go to southern France, as usual, this winter, but will appear on Samuel Goldwyn's lot as a chatter scribbler. . . . Irving Berlin is heading for a director's job in the babbling celluloids. . . . And speaking of such matters, Will Hays has frowned at such front-page goings on as recently involved the names of Clara Bow and Harry Richman. . . . It's also said that he's urged the dialogue writers not to repeat the sort of patter which found its way into "The Cock-Eyed World."

Gladys Glad, one of the most glorified of the Ziegfeld girls, who married Mark Hellinger, the columnist, last summer, will become beauty expert for a New York tabloid. . . . The "all-American" dance leaders, as selected by The Dance Magazine, are Harriet Hoctor, premier ballerina; Clifton Webb, best eccentric; Ruby Keeler, best of the girl tap dancers; Bill Robinson, master tap; Jack Whiting, best juvenile; Evelyn Laye, best ingenue dancer; Eddie Cantor, best comic; Inez Courtney, best comedienne and Violet Carlsson, best female eccentric.

Billie Burke, who used to line the ticket seekers up for blocks, hit another unhappy show and closed within a week. . . . The theatrical batting average for the season thus far is now about 80 per cent flop. . . . Even Otis Skinner, Will Farnum, William Faversham and similar old favorites have failed to draw. . . . Skinner, they say, will be among the Hollywood-bound, ere long.

Someone has discovered that the late M. Clemenceau once made his residence when in New York at a spot now occupied by the Loew's Sheridan Square theater and a memorial plaque will be placed upon the theater building. . . . Clemenceau was a political exile when he took up his habit there years and years ago. . . . Carmen Lee Barnes, the youngster whose novel, "Schoolgirl," caused her to be ousted from a very private girl's school, is hoping to crash the Broadway stage, and while she works on magazine pieces and a second novel, "The Ethel Waters, who was the "word" of Harlem singers hasn't been able to crack dear old London's "reserve," so they say.

Jimmy Hussey, the well-known comic, finally had to go to the hills for his health. . . . Like most actors, he fought the prospect and even defied friends who tried to get him to a doctor's office. . . . Those Hollywood beach barbecues have made their appearance in the swanky Long Island sector as cold night bonfire feeds. . . . Estelle Taylor drops a note that she's given up her second struggle with the now famous Hollywood diet. . . . And the Christmas card of Irene Franklin, that grand vaudeville trouper who is now anchored here in "Sweet Adeline," gave me more laughs than did "The Specialist." . . . It's a tiny booklet, re-

MEAT A GOOD FOOD.

People who use large amounts of nervous energy or those who do brain work with little or no exercise will find that eating up to eight ounces of lean meat a day with plenty of cooked vegetables and raw salads will give them more energy and make them feel better than any other diet they can adopt. Usually, when people of a quick mental type indulge in large quantities of starches and leave off meat, they immediately find themselves dulled and listless. The resumption of the lean meat for the daily dinner makes them much more ambitious and energetic. It is true that those who are engaged in hard physical labor may consume large amounts of starches which are burned up by the exercise, but for those who work with their brains, the protein of meat is one of the best and most easily available sources of protein that we have.

There is a definite need of protein in the body. It is a class of food which is used in tissue building. During the years of growth when the body increases in size, there is an even greater need of protein supply, but all matured bodies must have a source for the replacement of tissues from wear and tear. Lean meat is from 15 per cent to 20 per cent protein and is one of the most easily digested forms; much more easily available for those of weak digestion than the proteins in cheese, nuts, etc. The leaner the meat is, the quicker it is digested, and you will find from actual experience that meat which has the fat removed from it before broiling not only has a superior flavor but digests more readily.

In cooking meat, it should first be seared with a very hot fire on both sides. This locks the juices in and makes them tender. After the first quick searing, the fire should be turned down very low and the heat allowed to penetrate.

Meat combines best with the cooked and raw non-starchy vegetables. Taken in this way in a quantity not over eight ounces for each person per day, there is no harm from its use. Many people blame meat for digestive disturbances that are really caused by the excess of starch in their diets or from wrong combinations of the starch.

Most people do not appreciate the steady supply of meat that cold storage has made possible. It has

done away with the old law of meat feast or famine. The meat supply of today is not as hazardous as it was a few years ago, as it is now subject to Federal inspection. The supply is always carefully handled and is much more likely to reach the housewife in perfect condition than ever since history began.

The small of meat cooking always makes the mouth water and causes the digestive juices to flow in anticipation. It is probably the flavor which makes meat the featured entrée in most of our menus and not the fortunate fact that it is one of our most valuable foods, being a very good source of the proteins without which no cell can live.

QUESTIONS AND ANSWERS.

(Refrigerator Gas.)

Question.—Mrs. E. M. writes: "I have just read an account of a whole family found dead in their apartment from the effects of methylene chloride, a refrigeration gas. What are we going to do about our electric refrigerators when these tragedies happen?"

Answer: Such cases must be very rare and are certainly not as likely to happen as the deaths from gas poisoning from a gas stove which has been accidentally turned on.

(Cucumbers and Ice Cream.)

Question.—Mrs. H. S. H. writes: "While at the beach I saw a small Mexican girl eating a large cucumber, peel and all, and in the other hand was an ice cream cone. Can that combination be eaten without causing illness?"

Answer: Ice cream may be used in combination with any non-starchy vegetables, or with any fruit, providing no starchy food is used at the same time. Cucumbers and milk or ice cream make a good combination, but when bread is added there is liable to be serious digestive disturbances from the bad combination.

(Big Feet.)

Question.—M. H. asks: "Can you give me any remedy whatever to stop a growing girl's feet from enlarging? She is now 11 years old and wears a 6 1/2 shoe."

Answer: Do not be alarmed because your girl has such a good understanding. You can rest assured it will not handicap her during her life. If there is no particular disease present, there is no cause for alarm. Your daughter should make a good swimmer.

Daily WASHINGTON LETTER

By RODNEY DUTCHER NEA Service Writer

Washington, Dec. 30.—About the only time the army ever shrinks from the light of publicity is when one of its airplanes crashes. On other occasions no branch of government is happier to tell all about itself and get its picture in the newspapers. . . . But when a plane crashes and someone is killed there's a race to get the wreckage out of sight before the photographers get there. Unfortunately, if a photographer wins the race it generally doesn't mean anything because it becomes some hard-boiled sergeant's duty to drive him off and confiscate his plates if he gets any photographs. Fatal crashes just aren't good publicity for the army air service, so the army isn't having any if it can help it.

The usual censorship was in force when Congressman Kaynor of Massachusetts, his secretary, a friend, the pilot and a mechanic were killed at Bolling Field the other day almost as soon as they had left the ground. Only one photographer managed to outwit the soldiers. . . . That particular crash presumably will do little to hinder the progress of aviation, but it will do much to discourage practice of one of the juiciest on congressional privileges. Quite a few members have never been bashful about requesting a free government plane when they wanted to go home. The army turns over the best available plane, with pilot, "as a courtesy." The taxpayers foot the bill for the joyride.

But one doubts whether there will be very much more of that until Congress has had a year or two to forget about Kaynor. Kaynor was a pleasant man, well liked in Washington.

It is hard to understand the fuss that was made over the "military secret" which General Enoch H. Crowder, retired, gave away to the Cuban sugar lobby. Crowder, the head of the lobby who employed him wrote in large of his letters read before the Caraway committee, had discovered that in case of war the general staff planned not to try to keep a traffic lane open to the Philippines. The lobby, enthusiastic at this information, planned to use it with telling effect. Lately there has been talk of punishing Crowder for his "sin." But the fact is that everyone has known that "secret"

counting the adventures of herself and husband during a pre-season vacation in Canada. . . . Among other things, she describes those vegetable side dishes served in country hotels as "bird seed bowls containing certain samples." GILBERT SWAN.

ACCIDENTS COSTLY

The cost of hospital care for highway accident cases in the whole of the United States amounted to between \$15,000,000 and \$18,000,000 last year, and the losses to the hospitals were between \$6,000,000 and \$7,000,000.

Women Favored By Labor Head To Settle Workers' Strikes

Washington.—(AP)—Because he believes women often are more valuable than men in the field of labor conciliation, James J. Davis, secretary of labor, entrusts some of his most knotty strike problems to feminine solution.

LEAGUE OF WOMEN VOTERS FOR THE COURT

The League of Women Voters has long believed that this government should be a member of the Permanent Court of International Justice at the Hague. The League endorsed the original purpose of President Harding's connection and has consistently supported each step leading to final action.

Now that the protocol devised by Elihu Root and accepted by the Council and Assembly of the League of Nations has been formally signed by a representative of our government, the League earnestly hopes that President Hoover will soon ask for its ratification by the Senate.

As an example of the able way in which a woman commissioner of conciliation adjusts strikes in which men workers are concerned, Secretary Davis cited the record of Miss M. Emmilline Pitt of Pittsburgh.

KILLS FIVE, SELF

Vernon, Tex., Dec. 30.—(AP)—Evidence of a tragedy of poverty which wiped out a family of six persons in the midst of surrounding Christmas cheer, the bodies of a father and his five children lay today in a county morgue.

A note reading "all dead. I had rather be dead. Look in cellar found on the door of the house was interpreted by authorities as conclusive evidence that the slayings were the final act of a father stricken by grief at his inability to provide his children with Christmas toys.

"FLIGHT" MAKES HIT WITH STATE AUDIENCE

Famous Marine Corps Picture Features Jack Holt, Ralph Graves and Lila Lee.

Jack Holt, Ralph Graves and Lila Lee made a decided hit with local movie fans in "Flight," which opened at the State last night and will be shown today and Tuesday also.

This vivid and intimate story of the love and adventures of two heroic and daring flyers in the United States Marine Corps, reunites for the first time since they appeared in the much-lauded under-sea drama, "Submarine," Jack Holt and Ralph Graves. Again these two men have scored.

For the interpretation of sheer drama and the sincerity of character delineation, these two are super-charged with action and drama. An exciting football game, a beautiful Damon and Pythias friendship between two dare-devil aviators, a three cornered love affair involving the two buddies which culminates in a smashing climax, the dramatization of the Sandino uprising in Nicaragua and the most sensational air feats ever photographed are all incorporated in this photodramatic treat.

CONGRESS TO ACT ON BROADCAST TAX MIDNIGHT SHOW AT STATE TOMORROW

Washington.—(AP)—A move to make broadcasters defray the costs of government regulation of radio, will be made at the next session of congress.

A proposed schedule of license fees to be imposed on all stations is being drafted by the federal radio commission at the request of the senate. Several months ago the commission discussed with Senator Dill, of Washington, one of the authors of the Radio act, a tentative proposal for a wattage tax on broadcasting stations and flat license fee rate for commercial communication companies.

Judge I. E. Robinson, chairman of the commission, told the senate committee on interstate commerce that he favored the imposition of license fees, declaring it would induce broadcasters to realize more fully their obligations to the public.

He said that the increased cost of administration made it expedient to assess charges upon licensees. The cost of radio regulation is estimated at \$750,000 annually and it is predicted that the increased work incidental to technical development will soon bring expenditures to \$1,000,000.

Senator Dill says the license fee plan probably will be considered as a part of the Couzens bill for the creation of a communications commission to regulate radio, telephone and telegraph transmission.

HAVE NARROW ESCAPE

Saranac Lake, N. Y., Dec. 30.—(AP)—Three of five men who narrowly escaped drowning in an airplane forced to land on Lake Placid here yesterday, were trying to rescue their ship from the lake today. The two others, passengers on a sight-seeing trip of the Adirondacks, had returned to Lake Placid uninjured.

The ship, piloted by Lieutenant Frank Reed, of Syracuse, went through the lake ice after being lost in a snow storm for an hour.

TOLLAND

The entertainment and sale given by the pupils of the grammar and primary rooms of Elks Memorial school Thursday evening, was well attended. The receipts from articles made by the Girls Sewing club amounted to \$15, and the articles made by the manual training class of boys amounted to over \$5.

Stormy weather prevented many guests from attending. Mrs. I. Tilden Jewett, Mrs. L. Ernest Hall, Miss Alice Hall and Mrs. John H. Steele motored to North Woodstock Friday and were guests of Mr. and Mrs. Myron Sparrow.

The first and second degrees were conferred on a class of eleven candidates by the Tolland Grange at a special meeting recently.

Mrs. Walter Button spent Christmas day with her mother, Mrs. Emma Bancroft, in Manchester.

The entertainment and Christmas tree exercises given at the River District school where Mrs. Ada Rhodes is teacher, drew a large crowd of parents and friends of pupils. The seating capacity proved inadequate and seats were brought in from outside.

Mrs. Margaret Meacham and Mrs. Alice West, who had important parts, did admirably and the pageant was most impressive.

Mrs. Maud Steele of Ellington

was a recent guest at the home of Mr. and Mrs. John H. Steele. Mr. and Mrs. Peter Morganson, Sr., and Harry Morganson were guests of relatives in Meriden, Christmas Day.

WAPPING

Mrs. George A. Frink had as guests recently, her two sisters, Mrs. William Hoffman and Mrs. Ada Korngiebel of Hartford.

Arthur E. Sharp, who is working in Mystic was home for the Christmas holidays.

Mr. and Mrs. Wilbur C. Hills and family spent Christmas Day with their son, George W. Hills of Willimantic.

The Pleasant Valley Club had a Christmas party at the home of Mr. and Mrs. Harry Walker, on Thursday evening.

Mr. and Mrs. Edward P. Collins

and Mrs. Eva C. Stoughton of Hartford, spent Christmas Day at the home of Mr. and Mrs. John A. Collins.

Mr. and Mrs. Walden V. Collins and little daughter spent Christmas at the home of Mr. and Mrs. Homer Lane, of Ellington street.

The South Windsor Afternoon Club met at the home of Mrs. J. E. Sharp this week. Mrs. Olcott F. King read a play, there were quotations and current events. The next meeting will be held with Miss Elizabeth Noble, on January 8.

It's the age of marvels, and all that, but the hens haven't started laying them scrambled yet.

PRISON NIGHT CLUB TO OPEN TOMORROW

A new thrill awaits Hartford merry-makers on New Year's Eve when the Prison, Hartford's newest Night Club, swings open its doors to admit the revelers to a sentence of dining, music and dancing that will last until the wee small hours of the New Year.

Here folks will find good food served by well-trained convicts and music by an orchestra of dainty jailbirds. Behind the bars at the Prison you will find something different. The capacity of the Prison is limited, so merry-makers are advised to make a plea for a quick sentence before the books are closed.

Call 8-0829 to reserve your cell, or apply in person at the Prison, 126 Wells Street.

13 FROZEN TO DEATH

Mexico City, Dec. 30.—(AP)—Three persons died during the night of cold. The deaths brought the total from the cold weather for the month to 13.

Two of the victims were beggars and the third an intoxicated man. All went to sleep in the streets in weakened condition, and died when the mercury dropped to 28.

# Changes In Basketball Rules Improving Game

### Lot of Ginger Has Been Injected in Game by Alterations to Former Court Code.

A lot of ginger has been injected into this great game of basketball by the joint rules committee.

This significant work was effected by changes in this year's playing code which is bound to produce unprecedented speed and action.

Outstanding among the changes were minimizing the advantage of the tall center at tip-off, and elsewhere; the ruling against the front pivot, hip-crash block when the dribbler is in motion; the approval of the double referee system of officiating and the elimination of the possible five points after a foul when a field goal has been scored.

Jumpers at center or elsewhere will be forbidden to touch the ball after it has been tapped one or more times, until it has touched the floor or one of the other eight players.

It was agreed that the spirit of the rule included the basket and backboard as well as the floor and other eight players.

Heretofore, a tall center could tip the ball behind him and catch it, thus giving his opponents a lesser advantage in playing the ball than they now have.

According to a general agreement the rules committee has put its approval upon the following pivot or running with the ball rule:

A player who is in motion when he receives the ball may not make a pivot on the front foot. He may take one step but must pivot on the rear foot only. This nullifies the so-called pivot and block play that has caused so much discussion. The pivoter, by blocking the guard out with his hips and shoulders and then passing the ball to a trailing team mate, contributes to a definite contact foul.

The chief argument against this play is that it is primarily designed as a "contact blocker." However, it is possible to make a front pivot and no foul. But the pivoter must use the same caution as does a dribbler. He must go clearly around this opponent without contact.

In the double referee system of officiating, the umpire, whose duties heretofore were somewhat limited, is now given authority practically identical to that of the referee.

When a player has been fouled in the act of shooting, the ball must go to center after the second free throw, if the field goal is made. If the field goal is missed, the old rule holds, viz. the ball is play if the last free throw is missed.

## WAITE LEADS LEAGUE IN HOCKEY TOTALS

Boston, Dec. 30.—(AP)—"Deacon" Waite, the Boston Tigers veteran center, today had a slight lead over "Yank" Boyd, his teammate, and Art Chapman of the Providence Reds for scoring honors in the Canadian-American Hockey League. Waite has a total of 10 goals and 14 assists, making 24 points, one more than Boyd and two more than Chapman.

Boyd, however, was the league's leading goal-maker for 16 of his 23 points resulting from slashing the rubber into the nets of opposing goalies. Chapman has scored 15 goals and has been credited with seven assists.

Hughes of New Haven and Andrews of Philadelphia were tied for fourth place with totals of 19 points and "Grizzly" Hart of Providence followed them with 17 points.

During the week Johnny Loucks, Boston Tiger wingman, collected four minor penalties, thereby placing himself at the head of the league's penalty-carriers with a total of 26 minors. Normie Himes of New Haven, who has led the league in this respect all season, trailed with a total of 25 minors. Reg Macker of Boston and Peters of Philadelphia came next with totals of 18 minors and one major.

This week's schedule called for the following games: Tuesday, Springfield at Boston; Thursday, Providence at Philadelphia; Saturday, Providence at Boston and Philadelphia at Springfield.

EDITOR OF THE LONDON SUNDAY EXPRESS SAYS CARNERA'S TEMPER IS RING DANGER.

IF SOME OF OUR WISE BOYS TRY THAT SYSTEM OF MAKING AN OPPONENT LOSE HIS HEAD, IT WILL BE TOO BAD FOR THEM.

WHY DON'T YOU TAKE A POKE AT HIM ONCE IN A WHILE? I'M SCARED HE'LL GET SORE!

DO YOU THINK THEY OUGHT TO BAR CARNERA FOR HIS FAILURE TO CONTROL HIMSELF? I KNOW A LOT OF BOXERS WHO OUGHT TO!

POT YOUR DOUGH ON PRIMO—I JUST TOLD HIM THAT HIS OPPONENT SAID HE WAS AS EASY TO TAKE AS A DISH OF SPUMONI!

OF COURSE, THERE ARE TIMES WHEN THE BIG BOY'S TEMPER MIGHT MAKE THINGS WORSE THAN THEY ARE. I'LL BET HE'S SORE! MAKING CARNERA A SORE THING.

## FOOTBALL FINALE ON NEW YEAR'S DAY

### Four Big Games End Season; Pittsburgh-Southern California Most Important.

By Associated Press

Football will be at its best with four big games from one coast to the other on New Year's Day.

The University of Pittsburgh, unbeaten and untied, clashes with Southern California, in the Rose Bowl at Pasadena.

A picked eastern team battles an all-star western aggregation in the annual Shriner's game at San Francisco.

At Dallas, picked teams from the Midwest and the south west will battle for supremacy.

The northern and southern divisions of the southern conference will meet in still another game at Atlanta.

## GAS MEN'S COLLEGE

A correspondence school has just inaugurated a college for service station attendants. A course of text books is supplied which is intended to teach the difference between "just selling oil or gasoline and giving a real and necessary service to the public."

## BIG BUS BUSINESS

Buses traveling over American highways carry eight million passengers a day, or three billion a year—24 times the total population of the United States.

## ORDERS BUS FLARES

Recent legislation in Michigan provides that bus operators must place flares 20 feet in front and in the rear of the bus whenever it is necessary to stop on the highway to make repairs at night.

## SPORT SLANTS

"A great record, beyond the slightest doubt," writes Cy Sherman, the sage of Lincoln, Neb., apropos of this column's recent summary of Notre Dame's football achievements under Professor Knute Rockne, "but you might mention that during the years set forth in this record, Nebraska played Notre Dame nine games, the count standing four to four, plus the 1918 tie. The series of 11 games between the two schools ended in 1925, the count being five and five and one tie. In other words, Nebraska was alone in its ability to break even with Rockne-coached teams."

"Rockne's attitude," concludes Sherman, "has always been fine toward Nebraska and it is today. But in view of the record, I can understand why at least some Notre Dame followers were not keen for continuation of the series."

Nebraska upset a number of Rockne's greatest teams. The Irish brigade, featuring the Four Horsemen, was thrown twice in succession in 1922 and 1923 by the Huskers for the only defeats met in those years but the Stuhldreher-Miller-Crowley-Layden quartet got some revenge with a 34 to 6 victory in 1924. Nebraska then wound up the series by trouncing the Hoosiers, 17 to 0, in 1925.

The Huskers thus captured three of the last four games from the Irish in a four-year period in which the Rockne forces lost only one other contest, to the Army in 1925.

This column gave the erroneous impression, in summing up the Rockne record, that Rock was head coach in 1917, the year Jimmy Phelan captained the team. Rockne was an aide to Jess Harper; that season before taking full command in 1918.

Both Pittsburgh and Southern California have the offensive stuff with which to strike hard, fast and often, which may produce a free-scoring melee when these football rivals meet in the mellow atmosphere of the Rose Bowl New Year's Day.

Southern California ran up some tremendous scores during the season with sweeps that seemed irresistible once they gathered headway. The Trojan whirlwind twice struck Notre Dame in the big battle at Chicago with "long-gainers" that produced touchdowns. Anything can happen with either Duffield or Saunders directing the attack. These two are as versatile as they come and Saunders' charge resembles the dash of a wild buffalo.

Pittsburgh likewise has all season possessed the habit of quickly demoralizing its foes. One of the pet Panther tricks is to shake Toby Nansua loose at the outset, usually on slants outside tackle. Toby is equally adept at dodging through a broken field or grabbing passes.

It is a coincidence that the three West Pointers most conspicuous as head coaches in recent years all were on the same Army team in 1915. Two of them, Captain Emy Jones and Captain John McEwan, wind up four-year jobs with the close of 1929, Jones at West Point and McEwan at Oregon. The third, Major Bob Neyland, will continue at Tennessee, where his coaching has given the Volunteers the best record of any team in the country over the past five years.

## Majors May Dethrone League Leaders Tonight

The league leading Night Hawks meet the Herald on Farr's alleys tonight while the second place Majors, trailing by only two points, meet the Shell Gas team, which has forfeited its past two matches.

Other games tonight are: Charter Oaks vs. Construction Company on 4-5 alleys at Bronke's, British-Americans vs. Pirates on 3-4 alleys at Farr's, and the Centers vs. West Sides on alleys 1-2 at Conran's.

Should the Shell Gas forfeit this match the Majors stand a fine chance of sitting pretty at the head of the league providing the Herald can take at least a couple of points from the fast stepping Night Hawks. Vincent Werlosky of the Majors holder of the high single and three string records of 169 and 425 may get a notion to break his own mark for the mutual benefit of himself and the Majors.

Women not only have been given the vote, it seems, but also the privilege of a strap in the trolleys.

## LOCAL "Y" VICTOR ON WAPPING COURT

Wapping lost to the Manchester "Y" team Saturday night on Wapping court 53 to 48 after playing a two minute overtime period with but three men. The game was tied throughout, being tied at the half and ending at 46 all. Two of the Wapping players refused to play in the overtime period and took the floor with but three men. The "Y" seniors won 53-48 aided by the good playing of Ferguson and Schiebel while Spencer starred for Wapping.

## MASONIC TOURNEY ENTERS 2ND ROUND

Sam Houston Defeats Geo. Veitch, 50-49, In Exciting Pool Match; Other Results

As only one match remains in the first round of the pool tournament between members of the Masons at the Masonic Temple the second round pairings have been announced. The one game left in the first round is between Fred Finnegan and Arthur Olson to be played this week.

Two matches played this week in the first half saw Tom Lewis beat John McEmery, 50-36 while MacDonald trounced Jim McCaw, 50-35. One match of the second round has already been played and proved the best of the tournament Sam Houston barely nosing out George Veitch, 50-49, Friday night.

Two second round matches will be played at the Temple tonight, Thomas Lewis meeting Sam Turkington and Robert Chambers taking on Clifford Joyce. Other pairings are Holgar Bach-Loren Clifford, Mac MacDonald-Tom Tenney.

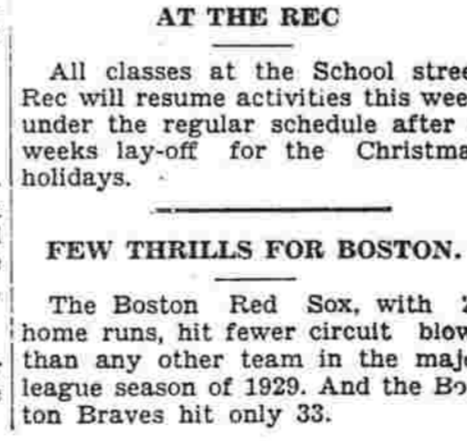

## AT THE REC

All classes at the School street Rec will resume activities this week under the regular schedule after a weeks lay-off for the Christmas holidays.

Big George Trafton, the pro footballer, threw leather-bound fists with great abandon at the chin of Art (The Great) Shires in their fight in Chicago recently, with the result that the Great One received a sound trouncing. Shires is shown above tackling the pro griddler on one of his trips to the canvas, introducing the football style in the boxing ring that Son-naners brought to the wrestling arena.

## BIG SCORES MADE BY WINNING TEAMS IN JUNIOR LEAGUE

### Phantoms and Taffys Win; Both Warriors and Original Taffys Suffer Another Setback Saturday Night.

The Taffy Five continued to hold a one game lead over the Phantoms in the Junior Basketball League by trouncing the Original Taffys while the Phantoms were doing likewise to the Warriors, at the Rec Saturday night.

So superior were the Taffys to their opponents that the game took on a farce-like aspect with the Taffys shooting at their own basket to boost the Original Taffys score. This display of I-love-me failed to make a hit with the large crowd of fans that watched the game, but the Taffys won, 43-28.

In the second encounter of the evening the Phantoms and Warriors fought evenly practically the entire game but with Maloney, right forward of the Phantoms shooting five baskets his team drew ahead to win 21-12.

## HERO REWARDED

Lowell, Mass., Dec. 30.—(AP)—The heroism of Private Billy Ryan of the fire department who last June almost lost his own life in a vain but spectacular attempt to rescue five city workers from death in a manhole, today brought its reward.

Thirteen of his fellow privates who stood higher than Ryan on the civil service list for promotion to lieutenant, having unanimously awarded the priority rights to Mayor Thomas H. Braden, with the consent of the civil service commission named him a lieutenant.

A society woman says she bought 165 hats in five months. The idea must have gone to her head.

New York, Dec. 30.—(AP)—A special bed, eight feet long, was built by the Cunard Line on its steamship Berengaria for the accommodation of Primo Carnera, giant Venetian heavyweight, who will arrive in this country tomorrow for several bouts. Carnera is six feet 10 inches tall and weighs 285 pounds.

## NEW RECORD FOR RUNS MADE BY CHICAGO CUBS

Ten years ago folks in Spokane, Wash., were saying that the six strapping sons of Thomas E. Hanley constituted the most remarkable football family in the United States. Today those sons seem even more remarkable in the football realm.

Three Hanleys were members of the Washington State College eleven in 1919. Dick was captain and quarterback of the team, Roy was right end and a substitute left end, Myron Hanley at that time was a star performer on p r e p grids.

White Leland and Homer tackled and lugged footballs in back lots and on grade school playgrounds.

Ten years later we find Dick occupying a head coach's position at Northwestern University, a post he has held since 1927. His record with the Wildcats is familiar. The eastern all-stars that meet a similar group of western players in San Francisco New Year's Day, will be groomed by Dick, in conjunction with Andy Kerr, Colgate coach.

Myron Hanley—he is known as Mike now—is football coach at Columbia University. He gained fame on the gridiron at the University of Washington. Roy is an assistant to Dick at Northwestern, while Leland, familiarly known as Lee on the Northwestern campus, recently concluded a successful season as regular quarterback of the Wildcats.

Tom Hanley, the father, himself a former athlete, went into the lumber business in the northwest as a kid of 14, after running away from his home in Canada. Lacrosse and baseball were his favorite sports then.

"All the money in the world isn't worth what I've got in those boys," declares the elder Hanley, "I'd give it all to see them succeed today because of the achievements of his sons."

Dick Hanley

Men who played quarterback for the Pacific Coast Conference eleven recently collaborated to select a mythical all-opponent team. The voting field generals were Eisan of California, Saunders of Southern California, Slingshot of U. C. L. A., Fleishacker of Stanford, Morrow of Montana, Buerke of Oregon State, Buckley of Washington State, Pederson of Idaho, Kitzmiller of Oregon and Gehrig of Washington. Each was entitled to vote only for athletes against whom he had played.

The men selected by the group as the best on the Pacific coast were Tappan, U. S. C., and Mulder, Stanford; Gans, Schwieger, Washington and Colbert, Oregon; tackles; Barragar, U. S. C., Schwarz, California, Shields, Oregon and Hanson, Washington State, guards; Heinicke, Stanford, center; Saunders, U. S. C., quarterback; Hufford, Washington, Lom, California and Kitzmiller, Oregon, halfbacks; Schwartz, Washington State, fullback.

## MINUTE INTERVIEW

WITH WALTER HAGEN  
"Don't let anything disturb you."

That was the laughing reply of Walter Hagen, champion of champions, when asked for a word of advice to the golf duffers with regard to improvement of their games.

"Temperament plays a most important part in one's golf game, in my way of thinking," continued Hagen. "True, you must have the shots to get anywhere in golf but seldom does any player reach great heights who fusses about his game and frets about the breaks.

"I have discovered that, on the whole, the breaks in many sport events are of longer time value than 50-50. I try to accept them in that spirit. When I make a mistake or get a bad break, instead of worrying about it I try to forget it and make up my mind that on the next shot I will try to make amends for the previous poor shot or tough break in luck.

"Too many golfers, after a poor shot or bad break, in sheer disgust make a couple more bad ones, simply by fuming over their error. I take things as they come. I try to take things as they come. I try to accept the bad days as part of the game. That is the only way to enjoy golf and make progress."

Horton Smith, who vies with Hagen for golf honors, listed in as Hagen unfolded his prescription for the golf duffer and, as Walter walked away to answer a telephone call, remarked:

"Take it from me, Hagen doesn't let anything disturb him on or off the golf course and unquestionably that is the greatest reason for his consistently good play. Let me explain what I have said.

"Once Hagen and I were making the trip from Vancouver, B. C., to Victoria, B. C., by boat. In a fog our ship was badly rammed. The collision came on Hagen's side of the boat, most of the damage being done in close proximity to Hagen's stateroom.

"Was he excited or disturbed? Not Hagen. Hardly had the collision happened before I heard a rap at my stateroom door. Opening it I found Hagen outside with a life preserver in his hand for me, telling me our boat had been rammed and it might be well for me to be prepared for the worst."

## IN PILOT SEAT

Appointment of Charles (Heinie) Wagner as manager of the Boston Red Sox to succeed Bill Carrigan, retired, has been announced by Owner Bob Quinn. Wagner is the eighth new manager for the season. He has been assistant to Carrigan for three seasons since 1907 to 1913. Wagner was the regular shortstop on the Red Sox team which Carrigan as manager helped to make famous. Heinie retired from active baseball in 1913 because of illness.

## STANFORD DRUBS ARMY, 34-13.

Fighting evenly throughout the first half Stanford suddenly wilted in the second and went down beneath a driving Stanford attack that made the final score 34-13. At half-time the score was 14-13, Stanford.

"Chuch" Smalling of Stanford was the outstanding star of the day. The game was played at Palo Alto, Saturday afternoon before 70,000 spectators.

Despite its great height and the large area it encloses, the Eiffel tower in Paris weighs only 8,000 tons.

Church On Friday night about one hundred members and friends gathered at the Methodist Church for a Christmas party, at which time Miss Margerie Stephens of Vernon gave several delightful readings. Santa Claus arrived on the scene in due season and distributed gifts to all present. A program of games followed, and the evening closed with refreshments. Rev. M. E. Osborne, pastor of the church received a surprise gift, much to his delight, and the evening proved most enjoyable to everyone fortunate enough to be present.

Prescott Farm Change The Moody farm on Mountain street, which overlooks Chrystal Lake, which was at one time one of the Prescott farms, has been sold. The farm was purchased by the late John Hawley of Hartford, who purchased it October 22, has exchanged it for the farm at Dobsonville owned by Henry Aberle and his wife.

Moro At Union Church Rev. Matias Cuadra Filipino Moro Leader was the speaker at all services at Union Church on Sunday. There was a good congregation out in the morning and in the evening, there was a good attendance.

Welfare Organization Notes The Rockville Welfare Organization, which was formed early in December has done excellent work this Christmas season and it is sure to become a permanent organization. Checking up on the work accomplished by the organization it is found that much better work was done.

The committee this year received lists from various organizations of those they planned to help, and these lists were checked up, so as no family would receive more than one basket. The Elk's charity committee which cared for more than two hundred cases, reported that the new welfare organization was a great help.

A meeting will be called by Chairman Francis Prichard in the near future to outline plans to carry on the good work throughout the year. Advertising Man Here Normand Olmstead, a former Hartford advertising man, who had resided for a number of years in New York and Philadelphia, is visiting his brother Rev. H. B. Olmstead at the Episcopal rectory on Ellington avenue. With him are his two children, Normand, Jr., and Faith Olmstead.

Probate Notes Mrs. Margaret McCartin of High street has been named administratrix of the estate of the late John McCartin. Frank Einsidel of 119 East Main

street has been named executor of the estate of Mrs. Alwina Einsidel, who died two weeks ago. Late Trolley For Ball Police Captain Stephen J. Tobin announced on Saturday that Manchester has agreed to hold a car over in Rockville the night of the Police ball to accommodate those who live in Manchester and Hartford. The car will leave the center shortly after 1 a. m. The ball will be held in Town Hall, Tuesday evening, January 7.

Notes Frank Milne of West street, superintendent of the local office of the Rockville Willimantic Light Co., who underwent an operation at the Hartford hospital two months ago, continues to improve, which will be pleasing news to his many friends. Damon Lodge, Knights of Pythias will hold its postponed meeting in Forester's Hall tonight, when election of officers will take place.

Vernon, Ellington, Tolland and other Granges will send representatives to the East Central Pomona Grange meeting to be held at I. O. O. F. Hall, Hartford, tonight. Mr. and Mrs. Charles J. Dielenschneider of Waterbury returned on Friday from Philadelphia where they visited their son, Sigmund J. Dielenschneider, who is connected with the advertising department of a Philadelphia newspaper.

EDISON ADVISES U. S.

Chicago, Dec. 30.—(AP)—An admonition to "keep the government out of business" was given by Thomas A. Edison in an interview appearing today in the Illinois Manufacturers' News. "One of the highest duties of the President, is to keep the government out of business," Mr. Edison said. "That is his biggest job and I should include in that job the clearing out of the bureaucracies which are growing up in Washington and becoming a wasteful nuisance."

COMMITTS SUICIDE

Lynn, Mass., Dec. 30.—(AP)—With a copy of Tennyson's "Passing of Arthur" opened on the desk before him, Willard Martin, 38, prominent real estate dealer, some time yesterday took a new .38 calibre revolver and committed suicide by shooting himself through the head. A youthful applicant for a job with the real estate firm was the first to discover the body this morning. A note left by Martin and addressed to his brother-in-law said illness was the cause of his act. A juror in New York was found to be deaf after a trial had progressed several hours. It must be very hard to find out whether or not a juror is deaf.

THINK CHINESE ACT IS MERELY GESTURE

London, Dec. 20.—(AP)—British official circles consider the Chinese action in announcing the abolition of extra-territoriality beginning next year, as more of a gesture to keep in line with Chinese opinion than anything else. The view was expressed that actual abolition will have to be carried out as was indicated in the British note to China last August, which will be a slow and gradual process.

Upon inquiry at Downing street, the Associated Press was informed that in spite of the Mandate recently issued in Nanking declaring the abolition of extra-territoriality, the Chinese government has not yet denounced the extra-territorial clauses of its treaty with the British government, nor has it made any further communications to the British government on this subject.

It was stated that the British government had made clear in its August note, that Great Britain accepted the principle of abolition and that a gradual process of the removal of the extra-territorial priv-

ileges of British subjects in China should be considered as beginning from Jan. 1, 1930. The British foreign office, it was stated, was unwilling to believe that the Chinese government was not prepared to enter into negotiations with this end in view. A professor says the radio should help to cut down divorces. It puts marriage on a sound basis.

Wall Street Briefs

New York, Dec. 30.—New world records in steel production were made in 1929, Iron Age reports. Not only did the American steel industry, with a total steel output in excess of 56,000,000 tons, surpass all former records by a considerable margin, but there were important increases in all major European countries. Production in 31 countries, at 117,850,000 gross tons, was 9 per cent larger than the 108,220,000 tons of 1928. World pig iron output, at 96,180,000 tons, was 10.6 per cent larger than the 1928 total of 86,980,000 tons.

Manufacturing operations in the automotive parts-accessory industry declined in November and have continued a seasonal recession in December as was expected, say reports from the trade. The business of wholesalers was also lower, but is still considered generally good. Output is expected to resume a moderate upward trend early in the new year.

The Chile Copper Co., reports for the nine months ending Sept. 30 net income of \$20,083,000, equal to \$4.54 a share of the common stock, compared with \$3.13 a share earned for the corresponding period of 1928.

Control of the Bankshares Corporation of the United States and through it of Bankstocks Corporation, Maryland, incorporated in 1928, has been acquired by Bankshares National Corporation of New York.

STAGE DEMONSTRATION. Ahmadabad, Bombay, India, Dec. 30.—(AP)—When Sir Frederick Sykes, governor of Bombay, arrived here today, the Youth Independence League staged a demonstration outside the railway station, waving a black flag and shouting "Frederick Sykes, go back home."

Sir Frederick later received addresses of welcome from the municipality, the district and local board, and the Mill Owners' Association.

Brussels, Belgium, Dec. 30.—(AP)—Police authorities, guarding against any attempt against the lives of the royal family, are taking extensive measures to protect the royal train which will convey the wedding party to Rome next Friday evening for the marriage of Princess Marie Jose to Crown Prince Humbert.

The royal Italian train due on Wednesday evening in Brussels has eight coaches, and will be entirely in charge of Italian personnel. Strict orders have been given not to allow anyone on board the coaches during their stay here. The train will be guarded day and night by special detectives.

The Brussels northern station, whence the party will entrain, will be guarded heavily by police and scores of detectives posted along the route to the station and along the tracks to the Luxembourg frontier.

All subways, bridges and crossings will be guarded by military gendarmes and police. All known anarchists, communists and anti-Semites also are being closely watched.

Similar measures are stated to have been taken on Luxembourg, French and Swiss territories.

Des Moines, Ia., Dec. 30.—(AP)—Improving radio reception for several years, except for a brief period about a year hence, was forecast at the American Association for the Advancement of Science convention today by Harlan T. Stetson of Ohio Wesleyan University.

Stetson based his prediction on what he described as a "remarkable fulfillment" of a forecast of the effect of sunspots upon radio that he and Dr. Greenleaf W. Pickard "ventured" before the association a year ago. This was that there would be an increase in the number of sunspots this fall interfering with the broadcast band, that is the radio used for programs. That, he said, was just what happened this fall in October and November.

Now he said he has additional evidence that the number of sunspots and falls each 15 months, while making a big rise and fall each 11 years, a circle within a circle. The 11 year peak is over.

"Forecasting on the basis of the 15 month cycle," he said, "the year 1930 should show a general decrease in the number of sunspots as the year waxes, with corresponding increase in radio signal strength in the broadcast zone. By the end of general rise of secondary sunspots maximum should be evident. By 1931 however, it is believed we shall be so far from the maximum 11 year period that the secondary radio reception as we had in 1928 and 1929."

Still another hope for better radio was explained by Commander Heck of the United States coast and geodetic survey. This is in the "serious consideration being given to a proposition to broadcast daily with the weather reports," certain information about magnetic conditions to aid radio operators and radio transmission studies.

The information concerns for one thing the peculiar layer of atmosphere many miles aloft that is chemically changed by the sun's rays and named the Kennelly-Heaviside layer. It is believed to reflect radio waves back earthward and to account for certain blind spots in reception.

SENSE and NONSENSE

The burning question now before the nation is whether or not the Christmas tree can be gotten thru the furnace door.

What though frost has touched the Sun? What though age his wool has spun? Love and hope and faith are here—Waken to the glad New Year!

Unchanging It's a New Year greeting With a song of cheer. It will seem, on meeting, Like the same old year!

Mongst the changes fleeting And the speech unfurled, Its a New Year greeting— To the same old world!

Grave enough to confess your sins and forsake them. Patience enough to toil until some good is accomplished. Charity enough to see some good in your neighbor.

Love enough to move you to be useful and helpful to others. Faith enough to make real the things of God. Hope enough to remove all anxious fears concerning the future.

"Whee! Whee!" cried Carry. "This makes me about as happy as can be. I never thought a bike would give us all such heaps of fun. A lot of trips we've had were rare, but riding on a bike in air is just about the finest thing that we have ever done. I think on Clowny we have picked 'cause he's the Tiny who was tricked right into sitting up in front. The peddling's up to him. The rest of us just sit and rest while Clowny does his very best. I will admit, however, that for peddling he's in trim." "You bet I am," brave Clowny cried. "You all can thank me for this ride. I'll bet you never dreamed that we would sail up with the breeze. This bicycle is quite the thing. Just think what pleasure it can bring. Don't try to tease me 'bout the work, 'cause it is done with ease. I merely push the pedals 'round and hope wherever we are bound

some place we will like real well. It isn't work at all. As long as we can stay on high and watch the earth go sailing by, I'm satisfied! I only hope that we don't take a fall. Just then a real gruff voice cried out. "Ha, ha! You Tinies, I've no doubt, are having quite a lovely time. Well, I will spoil your trip." The Tinies saw a form nearby. It was the Wind Man of the sky. He looked so cross it quickly filled the little bunch with fear. "I'm going to blow real hard," said he. "And then where will you Tinies be? Why I can do a lot of things I'm sure you will not like. When I blow north or east or west or south, you cannot stand the rest. Just one big puff from me and you'll be blown right off your bike." (The Tinymites fool the Wind Man in the next story.)

Mrs. William Darrow of Storrs was treated for a broken wrist at the Memorial hospital at 4:20 o'clock yesterday afternoon. According to the information gleaned from Mrs. Darrow the automobile which her husband was driving skidded and hit a telephone pole.

Much of the slush has been removed from the surface of Center Springs skating rink and there will be skating this evening.

"The Bethlehem Story," the Christmas cantata given last evening at the Swedish Lutheran church under the direction of Organist Helge Pearson, was well done by the children's chorus. This service too suffered in point of numbers attending because of the difficult traveling. Twelve of the children had speaking parts. Following the cantata Rev. Helland gave a 15 minute talk on the significance of Christmas.

Senator Robert J. Smith will be the guest speaker this evening at the annual meeting of the Men's Friendship club at the South Methodist church, beginning his discourse about 8:15, when the meeting will be open to all interested. Mr. Smith is one of the Hartford County commissioners, and from his town, state and county experience is well qualified to discuss the work of his colleagues in the county commission and matters pertaining to town and county government. Light refreshments will be followed by a period of games in the gym.

The annual Christmas party for children of the Cradle Roll will take place at the Second Congregational church tomorrow from 2:30 to 4:30.

Manchester stores and banks will be closed on New Year's day but its industries will function as usual. Practically every important city in Connecticut will follow the same schedule, according to a report received by the local Chamber of Commerce.

George Mallon, who with his family is moving to Southbridge, Mass., was guest of honor at a party given by Manchester Lodge, No. 1477, Loyal Order of Moose, at the home club on Brainerd place Saturday night. Mr. Mallon as a past dictator received a Moose charm, presented by James Stevenson. Refreshments were served and there was impromptu entertainment.

Company G's basketball team will meet the Service Company of Hartford at the Armory tonight in what is an annual contest between the two teams. The Service Club has won the event for the past seven years but a strong Company G five expects to end this list of victories tonight. Both teams members of the 169th Infantry, C. N. G.

An all-star Swedish bowling team will meet an all-star Italian team on Farr's alleys tonight following the matches in the Herald League.

Gerardine Roberts, daughter of Mr. and Mrs. James Roberts of 51 Avel place was thirteen years old yesterday and twenty-five of her school mates assembled at her home to observe the event.

Ermengildo Pagani of Glastonbury, a member of the local Society of the Daughters of Italy, was taken to St. Francis hospital, Hartford, yesterday and operated upon for appendicitis.

The rooms in the Balch and Brown building occupied for many years by the Manchester Wheel club and later taken over by the Pythian Social club, are to be closed tomorrow. The Pythian Social club is disbanding, but will continue to have the lodge meetings in the lodge hall in the same building, as previously.

Kemp Brothers, who have had the Oakland-Pontiac agency here and who are moving their service station to 908 Maple avenue, Hartford, want all their patrons to know that they will continue service on local cars from their new Hartford location. All who have purchased cars from Kemp Brothers will be given all the service work due from Hartford.

**DRUNK THROWS STONE AT WINDOW, JAILED**

Walks Into Station Seeking Lodging as Complaint About Break Is Phoned.

Probably one of the quickest arrests in the history of the local police court occurred yesterday when John Galvan, who said he was from Hartford, staggered into the station looking for lodging until he reported covered from what he said was a drunk but which Lieutenant William Barron said was delirium tremens.

A moment later a complaint came from the Pine Street Market, run by George Smith, that someone had broken a 5 by 6 plate glass window with a good-sized rock. Another moment and Galvan had confessed to the deed.

In Police Court this morning Judge Raymond Johnson sentenced him to 30 days in jail for destroying private property. The glass was broken some time between 8 and 9:30 o'clock yesterday morning when no one was in the building which is owned by Cheney Brothers.

**MOVIES AND MUSICALS AT NORTH END CHURCH**

The second in the series of monthly motion picture services was given last night at a Second Congregational church before a large and appreciative audience. Organist F. A. Wilbur's appropriate music played all through the showing of the picture, "The Stream of Life," addressed immeasurably to its enjoyment. An anthem was sung by a double quartet composed of Miss Frances Conrow, Mrs. Charles White, Mrs. George F. Bors, Miss Edna Thrall, Ralph Brown, William Taylor, Rev. F. C. Allen and J. M. Nichols. At the close of the picture a male quartet made up of Paul Volquardson, Ralph Brown, Fred Bendall and Rev. F. C. Allen, sang unaccompanied "Jesus, Savior, Pilot Me." Hymns were sung from the screen by the congregation.

The picture was one calculated to make a deep impression on the youthful as well as the mature mind with its realistic rural and metropolitan settings, which carried the principal character along the stream of life from babyhood until death or transition at the age of 70, stressing the importance of faith and the fact that it will profit no man to reach the pinnacle of success at the price of his own soul.

The next motion picture in the series is scheduled for Sunday evening, January 26, when the picture will be from "Timothy's Quest," by one of New England's favorite women writers, the late Kate Douglas Wiggin.

**SOUTH METHODISTS' CHILDREN IN PARTY**

Attendance at the Christmas concert given last night at the South Methodist church by the children in the different departments of the Sunday school was greatly reduced by the storm. It consisted of Christmas carols, readings, tableaux and short sketches in charge of the heads of the respective departments.

Especially enjoyable was a monologue by Callie Greenaway giving a descriptive account of Santa Claus regarding a message by telephone in regard to a destitute child who had had no Christmas joys. The manner in which this difficulty was overcome was well brought out. Another good number by the beginners' department was Junior Glenney who spoke his piece in a manner which won the approbation of all. The tableau of the junior department representing the nativity was well arranged and carried out. Dorothy Lennon took the part of the madonna. All departments of the school fulfilled the expectations of the school.

**HOSPITAL NOTES**

Two admissions, William Brown of 177 Summit street and Mrs. Bertha Gerrich, age 28, of 12 Windemere Avenue, Rockville, who sustained a fractured right arm and numerous cuts and bruises about the face and head in an automobile accident at Oakland and North Main streets. She will be confined to the hospital for several days. Mrs. William Darrow of Storrs was treated for a broken wrist suffered when the car in which she was riding skidded and struck a telephone pole. Discharged: Adred Uzupin of 486 North Main street and Mrs. Emily Doelner of 34 Olcott Drive.

**SCHOOLS OPEN TODAY FOR WINTER SESSION**

The schools in town all opened for the winter session this morning. With the exception of Miss Ruth Jones, who was married during the past week to Everett T. Keith, all of the teachers were back, Mrs. Keith is on a wedding trip and is expected back next week.

Wednesday the schools in the first eight districts will be closed, it being New Year's.

Dr. LeVerne Holmes, the doctor in the first eight districts, reports that there is an unusual condition for this time of the school year as there are few out of school because of illness. In the past colds and coughs have been such after the Christmas vacation that the number out of school has been large.

**AUTO HITS TROLLEY CAR IN LAST NIGHT'S STORM**

An automobile owned and driven by Thomas Kelley of 93 Chestnut street, Hartford, was slightly damaged when it came in collision with a trolley car at 8:50 last night. Because of the trouble of clearing properly through the windshield the automobile and trolley car were too close to avoid the crash. In the car with Mr. Kelley were two women and a man, all of whom escaped uninjured.

The accident occurred on Center street near Pine. Leonard Lieberg, motorman called the police and after an investigation, Kelley was arrested by Officer Winfield Martin on a reckless driving charge.

**PYTHIAN SISTERS' PARTY**

Memorial Temple, Pythian Sisters, followed its meeting in Odd Fellows hall Saturday evening with a Christmas party for the children of members. Guests were present from Hartford and Rockville. The program opened with an address of welcome by the chief, Mrs. Myrtle Armstrong. Helen DeVarney sang and a piano solo was played by Ella Beckham. Under the direction of Mrs. Annie Alley, the children gave a pageant of the year, each child or a group representing each of the months, with appropriate costumes, properties and stage settings, winding up with the impersonation of Santa Claus, who in turn was chased off the floor by the little New Year a role taken by tiny Jean Henry. A humorous recitation, "Finnegan and Flannigan" was given by William Ingersham. Each child received a box of candy and an orange.

Rockville Woman in Hospital Here After Husband Drives Car Into Another.

The snow storm yesterday afternoon so blinded Emil W. Gerrich of 12 Windemere avenue, Rockville, that he did not notice a truck that was parked at the intersection of Oakland and North Main street until it was too late to avoid an accident. He turned suddenly and went over the bankment, the car turning over. Mrs. Gerrich was thrown forward and when taken to the Manchester Memorial hospital it was found that her arm had been broken and that she was also bruised and cut in a few places on the hands and face from the glass. She will be confined to the hospital for a few days before returning to her home in Rockville.

Soviet Russia has abolished Sunday. That's one way to get rid of the traffic problem, at that.

**REMNANTS**  
1/3 to 1/2 Off

'An event of interest to thrifty housewives! We have gone through our Piece Goods Department and picked out all short lengths and marked them 1-3 to 1-2 off for this Remnant Sale. The remnants include short lengths of cotton prints suitable for the making of children's wash suits and frocks; bright, cheery cushions can be fashioned from short lengths of cretonne; cottons and crepes will make practical undergarments for active youngsters; also short lengths of scrims, silks and drapery fabric that can be fashioned into a number of useful things. For best selections an early visit is advised.
