Faculty Changes This Year Will Be Nine or Ten; No Vice-Principal Announced

There will be nine or ten changes in the personnel of the Manchester High school faculty when the 1930-31 year begins next September...

The seven members of the faculty who will not return are Ralph W. Proctor, assistant principal...

Most of the seven teachers leaving have accepted positions which they feel are more promising.

Of those leaving Manchester, Mr. Lee and Miss Parker have been here the longest—six years.

Miss Parker, whose home is in South Windham, Me., is a graduate of Bates College with the class of 1916...

Miss Tinker is from Manchester, N. H., and a graduate of the University of New Hampshire with the class of 1925.

BRITONS WILL CELEBRATE VICTORIA DAY IN CHURCH

Numerous Groups Invited to Good Will Service at South M. E. on Sunday.

The second annual British-American good-will service, celebrating Victoria day, which falls on May 24, will take place at the South Methodist church Sunday evening at 7:30.

Another attraction will be the music by the Salvation Army band. By request it will play the march "Homeward Bound," composed by Harold Turkington of this town, which was largely featured in all the assemblies of the recent Salvation Army Jubilee in New York and which won the second prize in a nation-wide contest there.

Mr. Douglas whose home is in Springfield, was formerly headmaster at Wilbraham Academy, and is familiar to a number of Manchester young people who were among his pupils at that institution.

One of the reasons for inviting the Salvation Army band to provide music is because practically every player is of British birth or extraction.

Among the organizations invited are the Washington Club, and the Orange lodges, Daughters of Liberty, Daughters of Scotia, Daughters of St. George, Sons of St. George, Clan McLean, Order of Scottish Clans, the British-American club, Edith Cavell Post, British War Veterans of Hartford and auxiliary.

## ITALY CONTINUES BUILDING SHIPS

### Decides to Lay Down 42,900 Tons of Warships During Next Year.

Rome (AP)—Italy's decision to lay down 42,900 tons of fighting ships within the next year was announced a week after the close of the London disarmament conference, will give this kingdom an effective navy of 405,400 tons.

Moreover, that decision was disclosed two days after the launching of four cruisers, two each of the eight-inch and six-inch classes, and one large submarine, a total of 32,000 tons.

The program for the present year includes 22 submarines, four of them being of the 1,390-ton class. When this program is completed, Italy will have 54 submarines, equivalent to 45,000 tons. This figure puts her only a little behind the greater powers, America, England and Japan, who agreed at London to

## POPPIES TO BEGIN SATURDAY

### Every Cent of Intake Applied to Local Relief, Legion's Committee Points Out.

Final plans have been announced for the annual Poppy Fund Drive, sponsored and conducted by Dilworth-Cornell Post, No. 102, American Legion and the Ladies' Auxiliary. The drive will begin next Saturday, continuing till Memorial Day. As in former years, the canvassers will concentrate chiefly on Main street, from the Center down, but the North End will not be overlooked.

Wednesday evening, May 23, a local speaker will address the audience at the State theater, after which poppies will be sold.

The drive this year is under the direction of the Poppy committee of the local Legion Post, headed by Chairman Donald Hemingway, with the cooperation of Mrs. James McVeigh and Mrs. Edward Brown, representing the Ladies' Auxiliary. The committee stresses the point that every cent derived from the sale of the poppies is used for charitable work, and all of it right here in Manchester.

SHIN-BONE SKATES

London—Recent excavations in Scandinavia, Northern Germany and the British Isles have revealed what is thought to be the forerunner of the modern skate. They are crude affairs, made of the shinbones of animals. By splitting the bones lengthwise, a flat surface was made for the foot. The round surface was used as the runner and leather thongs strapped the skates to the feet.

THE TINYMITES

STORY BY HAL COCHRAN—PICTURES BY KING

(READ THE STORY, THEN COLOR THE PICTURE.)

The Tinies watched the horses go upon parade. 'Twas quite a show. They saw both black and white ones in the long and prancing line. Some acted frisky as could be and Carry shortly said, "Oh, gee! That one that has a ribbon is a winner. My, he's fine."

A man then came up to the bunch and calmly said, "I have a hunch that maybe you would like to ride a horse. Well, that's all right. I'll bring a horse for every one and I am sure that you'll have fun. You'll have no trouble, boys, at all, if you'll just hang on tight."

The Tinies were tickled pink. And Scoutly said, "Gee! Just to think that we're to ride prize horses. Say! This is a treat that's rare. We'll go out on that big round track and circle it till we come back. Let's ride real slow so we won't give a single horse a scare."

The horses then came to their side and they were off upon a ride. Around the track they gaily went. Oh, what a lot of sport! "Course Clowny had to coax his steed to pick up quite a bit of speed. And then he suddenly got scared. His horse began to snort."

In not more than a half hour, all the horses were back in a stall and every single Tynymite was satisfied. Said one, "Well, just where are we bound for now? We ought to find more fun, somehow." The Travel Man then said, "We will—before the day is done."

They all got in a cab again and rode for miles and miles and then they came upon a little stream. A boat house stood nearby. The Travel Man cried, "We'll go and shortly have a dandy row. There's nothing that we'll come upon that we're not game to try."

(The Tinies visit a beautiful garden spot in the next story.)

FIREMEN LIKE RULING

North end firemen are pleased with the new ruling of the district which allows them to take the chemical apparatus out of the district in case of fire. The old ruling prohibiting participation of the district's apparatus outside the Eighth district lines was not of their making, and many of the firemen drove to outside fires in their own cars and gave assistance. The addition of new hose on the trucks also gives the men a feeling of security and the capacity for better work. The Manchester Fire Department is composed mostly of young men, active, and who are in complete accord with their chief.

TWO MAINTAIN RIGHT OF WAY THEN CRASH

Drivers Keep on Till Cars Collide Head-on and Are Badly Damaged.

Refusal of two drivers, one going east on Oak street, the other traveling south on Spruce street, to grant the other the right of way resulted in a head-on collision at the intersection of Oak and Spruce streets at 9 o'clock Sunday evening. Both cars were considerably damaged but none of the occupants were injured. Earl Gamba of 230 Oak street, was driving a Model T Ford coupe on Oak street, and Louis Di Martino of 270 Backmattack street, a Model A Ford coupe. Each driver saw the other approaching, both sounded their horns, but neither of them stopped voluntarily, according to the police report. The Gamba car suffered the most damage with a bent left front fender, a broken left front axle, and had to be towed to a garage. Di Martino's car had a right and left rear mud guard bent and right rear hub cap broken off. The cars were insured. Officer David Gulligan investigated but made no arrest. Richard Getzewich of 193 Porter street and Walter Kochin of 215 Autumn street were riding with Gamba at the time of the accident.
