TREASURY FLOODED WITH INCOME TAX

Income Tax Payments Due Today—Collections Over 500 Million.

Washington, June 15.—(AP)—With more than one and a half billion dollars passing through the United States Treasury today, the second payment of taxes on 1929 incomes was pouring into the government coffers to swell such collections to unprecedented totals. Treasury experts expected today's collections to amount to \$500,000,000 or more. At the same time the government was paying off \$450,000,000 in maturing certificates of indebtedness, taking in \$450,000,000 from the sale of such securities and paying about \$80,000,000 interest on the public debt.

On June 12 the last day shown in the Treasury's daily statement the government had collected for the fiscal year which started July 1, a total of \$2,457,820,019 and had spent in the same time \$2,698,572,650. Though this left a deficit of \$240,752,630 Treasury officials expected President Hoover's first full fiscal year in office to end with a comfortable surplus.

Total Receipts.
Of the total receipts for the year \$1,919,003,251 were received as tax on incomes of 1929, despite the fact of the wall street collapse last fall and the one per cent tax reduction. The tax reduction alone meant about \$80,000,000 less income for the government nevertheless indications were that the Treasury estimates of a total return of \$2,480,000,000 from income taxes in the fiscal year would be borne out so closely as to surprise even veteran experts of the fiscal department.

The total income for the year to June 12 was \$105,000,000 more than received in the same period of last year while the expenditures were \$177,000,000 greater, due in part to increasing government activities and the operations of the Federal Farm Board.

General Expenditures.
General expenditures of the government amounted to \$2,078,445,163 about \$90,000,000 more than for the same period last year, while the postal deficiency this year totals \$55,074,870 to date as compared to \$70,020,900, in the same period last year.

The total of ordinary expenditures of the government for the year to last Thursday was \$3,188,141,745 as compared to \$3,050,499,970 for the same time a year ago. With at least \$500,000,000 in income tax expected by the Treasury before the end of the fiscal year on June 30 indications were that the government would have a total income during the year of a little more than \$4,000,000,000, and end the year with a surplus of \$100,000,000 or more.

OPEN FORUM

MADE IN NEW YORK?

Editor, The Herald.
While reading the interesting address given by W. B. Rogers before the Kiwanis Club recently, the thought came to me, how unfortunate that the two largest industrial concerns in Manchester should see fit to advertise their products from New York because they have sales offices there. They spend large sums in advertisements which are seen and read by persons all over the United States, very few of whom, probably know of the beautiful town where the goods are produced or the skilled workmen who have their homes here and make this vast output of goods possible. It would seem more fitting and better business that the place where goods are made, and where the payroll is issued and spent, should receive credit and prominence rather than a city which means nothing to readers from the fact that it is so large that anything might come from there.

HEART DISEASE KILLS TWO CONNECTICUT BOYS

By Associated Press

Two youths lost their lives while swimming in Connecticut over the week-end. Both deaths, however, were attributed to heart disease rather than to drowning.

Only one other violent death was reported in the state over the week-end, this resulting from an automobile accident in Suffield in which one person was killed and six injured. Ernest Verrill, of Bridgeport died of a heart attack as he plunged into the water at Seaside Park in Bridgeport. Medical Examiner H. R. DeLuca, expressed the opinion that the attack was probably superinduced by the dive into the water.

Albert Kainowski, 22, of New Haven was the other youth to die while in bathing. He was seized with a heart attack while swimming in Lake Waramaug in Washington. The Suffield auto accident, which caused the death of Mrs. George Watered of Greenfield, Mass. She received a fractured skull and a broken neck when a car driven by her husband, who received serious internal injuries collided with one operated by John Buganski, of Chicago.

Officials at Paris were disposed to regard the incidents as not serious and quite local in character, engendered by "hot heads" under the influence of hot weather.

DANCING JUDITH

by CORALIE STANTON and HEATH HOSKEN
COPYRIGHT 1930 BY CHELSEA HOUSE

"Couldn't you come a lone?" his voice was a little more eager. "It's my birthday."

BEGIN HERE TODAY

JUDITH GRANT, beautiful Greenwich Village artist's model and dancer, shares her apartment with CLARISSA MORLEY, known as Chummy, a beautiful girl who lost her memory seven years ago when ALAN STEYNE, artist, her lover, abruptly disappeared, and who has been affected mentally ever since.

NOW GO ON WITH THE STORY

CHAPTER V

A week later Alan Steyne came into the Cafe Turc, where Judy was eating her sausage sandwich after another exhausting morning with Max Dickbreed.

were wonderful clothes. At the table next to them a white-haired woman, with black eyes and a rose-petal skin, was wearing some pearls that made Judy's big eyes nearly start out of her head.

CHAPTER V

Then it was time to go on to the opera house. Steyne gathered up the violets on the table and gave them to her. As they passed out of the restaurant he said, with a touch of shyness in his low voice:

on the way. No, Miss Judy, you'd never be able to do it. She must have skilled attention. She'll get a bit of sleep—I've seen to that; and I'll be in early in the morning."

CHAPTER V

"I've forgotten his name," the girl answered; "but he's some rich man. He came to the cafe one night with Vincent Stormaway, the artist. It was awfully funny—Chummy told him he was an ugly man, and said he was like Punch. He was a sport about it, though—didn't seem to mind a bit."

YOUR CHILDREN

I have watched a family of children grow up whose parents have literally slaved themselves to death. It hasn't been necessary for these parents to work so hard because they were always in what we call comfortable circumstances.

It's a Conspiracy

Remember, please, however, that the children's spoiling—yes, they are spoiled—is not due to her alone. It is a conspiracy of two to hand those youngsters the world on a silver platter.

These are smart juveniles

These are smart juveniles, highly intelligent, and were, as little people, among the most promising specimens of growing humanity that I ever saw. They had good ancestors, possessed that natural energy and direction that good stock puts out.

Choking with sobs

Choking with sobs, she ran up the dark stairs again, leaving Alan to make his way out of the house.

TODAY IS THE ANNIVERSARY

"LEAD KINDLY LIGHT"

On June 16, 1833, Cardinal John Henry Newman wrote while crossing the Mediterranean sea the famous hymn, "Lead, Kindly Light." A brilliant man in the Church of England, beloved and admired for his character and great gifts Newman nevertheless became a doubter of Protestantism. So he was moved to write:

SENSE and NONSENSE

FLAPPER FANNY SAYS:

MAIN STREET
There's a roadway like a ribbon
Lying faded in the sun
Where the fireflies dance in summer
When the long, warm days are done;

Automatically Speaking
You may talk your "nifty dogs"
And cute calves all you please;

In the old days a plate of left-
over table scraps was chicken feed
instead of a salad.

Prohibition Officer (to Flapper)
—Pardon me, what have you got on
your hip?
Flapper (snappily)—If you must
know, and if it's any of your darn
business, I'll tell you: It's my lace
panties.

Mrs. Gossip—How do you get
along with your husband?
Wise Woman—Easy. I feed him
well and forgive him.

Prancing Nancy, the young man's
fancy believes that things which
govern a gold-digger's success are
supply and the man.

"There's a chip off the old block,"
said the mountaineer as a bullet
grazed his head.
One Who Butts in is Usually the
Goat.

The indifferent of today are the
insolvent of tomorrow.
Office Boy—There's a salesman
outside with a mustache.
Boss—Tell him I've got a mus-
tache.

Kind Hearted Man—What's the
matter? Are you lost?
Boy (manfully)—No. I ain't lost.

Opportunities might be more
easily recognized if they didn't come
disguised as hard work.

—I'm here. But I'd like to know
where father and mother have wan-
dered to.

The June bridegrooms have
learned by this time that every Sat-
urday is Mother's Day when it
comes to handing over the pay en-
velope.

Customer—What you mean

Bootlegger—Flung Over Board!

There are many remedies but few
cures.

they say the defendant had some

Yes, love makes the world go
round, but a little jealousy is neces-
sary to accelerate the speed.

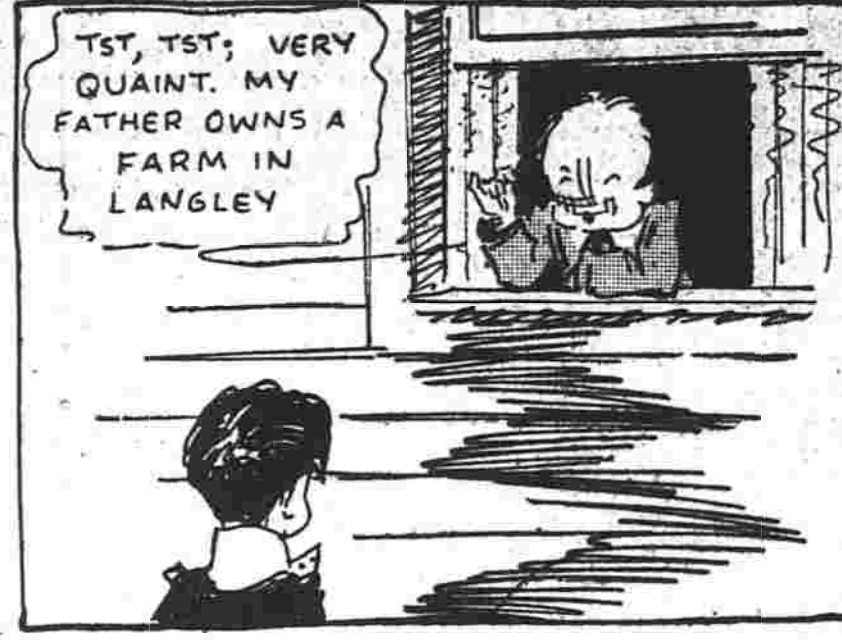

MUSIC IN THE MAKING
A schoolmaster caught a small
boy scribbling on a slip of paper.
It contained the words: "Blow,
blow, draw, blow, draw, blow,

AND STILL RUNNING.
London.—The oldest passenger
railway engine in England is still in
active service. It is the "Ryde,"
built in 1864, and which is now run-
ning on the Brading-Bembridge line

has run more than 1,500,000 miles.

OBEDIENCE ORDERS
Mother: Bobby, I'm ashamed of
you eating your sister's share of

teach you?
Bobby: Always to "take her

FACE VALUE
Client: She's been saying the most
dreadful things about my face.
Lawyer: Yes, yes, I know. But I
don't advise you to sue. It would
cost you more than the whole
thing's worth.—Tit-Bits.

The minute you see and feel these fine marquisette ruffled curtains you will say as our curtain buyer did, "How can the scrim be woven and then cut and made into curtains to retail at such a low price and yet allow a small profit for the manufacturer?" Of course, you will think 69c a very low price for quality curtains. It IS very low but they are exceptional "buys" at this price.
