

ANNUAL CLASS DAY AT THE HIGH SCHOOL

Rain Threatens to Force Postponement But Exercises Are Continued.

A hard but brief rainstorm failed to postpone the outdoor afternoon part of the Class Day exercises at Manchester High school today although for a time it was feared that it would be necessary to hold the festivities tomorrow afternoon.

Edward Hansen

purposefully scheduled for this afternoon so that in the event of rain they might be held tomorrow.

The program opened with the reading of the class history by Roy Johnson after which the presentation of the class gifts took place.

Lincoln Murphy next read the class list after which the class poem was read and the class song sung.

Edward Hansen, president of the senior class, delivered the address of welcome and the Ivy Oration which was followed by the response given by Richard Joslin, president of the Junior Class.

President Edward Hansen's Ivy Oration follows: Friends: As we, the class of 1930, gather here, there is in our hearts a feeling of mingled joy and sorrow.

Slippery pavement was given by police as the cause of a slight accident between a truck driven by Herman A. Moses of R.F.D. Vernon Center, and an automobile driven by Thomas Moriarty of 25 Hollister street, at the corner of Main and Delmont streets at 1:30 o'clock this afternoon.

RUM BOAT FLEET APPROACHES U. S.

Largest and Best Equipped Organization Ever to Operate in Atlantic.

Boston, June 17.—(AP)—The Boston Traveler today says the new Canadian law prohibiting exports of liquor to the United States has sent "the most completely organized and equipped armada of rum ships ever reported" surging down the Atlantic seaboard.

The program presented by the Tempo quartet of Hartford was excellent, and Miss Lillian G. Grant, local reader, never appeared to better advantage.

The young women ushers were attractive, and a dining room Visiting officers were presented with old-fashioned bouquets and the men with boutonnières.

Rockville, June 17.—Mrs. Alice (Mead) Carpenter, formerly of Manchester, was granted a divorce from her husband, Howard Carpenter of Coventry, now of Hartford, this afternoon by Judge Alyn Brown on a charge of intolerable cruelty.

New York, June 17.—(AP)—The Stock Market finally offered resistance to selling pressure today, as large supporting orders attributed to important financial sources appeared for pivotal shares.

London, June 17.—(AP)—The London Stock Exchange reacted sharply today to the slump in Wall Street yesterday, practically all sections dropping in sympathy.

AMARANTH RECEPTION IN A GARDEN SETTING

250 Take Part in Novel Affair in Honor of Newly Elected Grand Patron.

A summer garden was the delightful setting for the reception given last night by the reception committee of Amaranth in honor of Fred C. Tilden, recently elected grand royal patron for Connecticut.

The program presented by the Tempo quartet of Hartford was excellent, and Miss Lillian G. Grant, local reader, never appeared to better advantage.

The young women ushers were attractive, and a dining room Visiting officers were presented with old-fashioned bouquets and the men with boutonnières.

OBITUARY

DEATHS

Mrs. Rebecca Ritchie, wife of David Ritchie of 67 Wells street, died suddenly this noon at her home of heart attack. She was about 57 years old. Although she had been troubled for some time with heart disease, Mrs. Ritchie had not been seriously ill and was not confined to bed. This morning she was up and around as usual doing the work about the house.

This noon when her daughter, Caroline M., came home from the throwing mill at Cheney Brothers where she is employed, she found her mother lying on her bed unconscious. Her father, David, arrived home from Cheney's a few minutes later and hurried call was put in for Dr. Thomas H. Weldon from the home of Charles B. Packard nearby but Mrs. Ritchie passed away in a few minutes. Medical Examiner William R. Tinker was called and he pronounced death due to heart disease.

It was evident that Mrs. Ritchie's attack overcame her about 11 o'clock or later, for she had peeled the potatoes and done other necessary work in getting the noonday meal ready for her husband and daughter as usual.

There is another daughter, Mary, who is married and lives in Boston. Mrs. Ritchie was born in Ireland and had lived here for 30 years. Funeral arrangements are incomplete.

Alexander Rogers, 80 Alton street, a brother of the late William Rogers, died this morning at the Memorial hospital. He was 74 years old. With the exception of his wife, Elizabeth he leaves no near relatives although numerous nephews and nieces, living in Manchester, Amsterdam, N. Y., and Detroit, Mich. survive.

The deceased came to Manchester 16 years ago from Australia, where he had been a resident for 36 years. The funeral will be held from the home Thursday afternoon at 3 o'clock. In the absence of Rev. R. A. Colpitts, Rev. Marvin S. Stocking of the North Methodist church will officiate. Burial will be in the East cemetery.

Mrs. Helen Skinner, 80 Alton street, a brother of the late William Rogers, died this morning at the Memorial hospital. He was 74 years old. With the exception of his wife, Elizabeth he leaves no near relatives although numerous nephews and nieces, living in Manchester, Amsterdam, N. Y., and Detroit, Mich. survive.

The deceased came to Manchester 16 years ago from Australia, where he had been a resident for 36 years. The funeral will be held from the home Thursday afternoon at 3 o'clock. In the absence of Rev. R. A. Colpitts, Rev. Marvin S. Stocking of the North Methodist church will officiate. Burial will be in the East cemetery.

GARDEN CLUB MEMBERS IN TOUR LAST EVENING

Eight Different Places Visited by Group; All Pleased With the Trip.

Among the gardens visited last evening by a group of the members of the Manchester Garden club were those of Miss Mary Cheney, Miss Mabel Rogers, Mrs. Louise Cheney, Mrs. Annie and Miss Louise Cheney, Mrs. Fred Rogers, Mrs. Albert Hemingway, Mrs. Fred Robinson, Mrs. Adeline Miner, Mrs. Lillian Bowers and Miss Mary Palmer. The time was too short to do them justice in one evening and at the end of the tour the members brought out their flashlights from their cars and turned them on "Silver Moon," "American Beauty" and other roses and flowers where a closeup view was desired.

It was a delightful evening for such an excursion and the garden fans enjoyed it to the full. The start was made from the garden of Miss Mary Cheney, which is beautiful during the whole of the outdoor season. There is always something of absorbing interest there, and the person who views it for the first time, with its natural setting of terraces on one side, fine tall trees and shrubs, and the winding brook on the south is lost in admiration.

Just now the spires of the delphiniums and foxgloves are the center of attraction with myriad lower growing plants in blossom at their feet. The flagstone, deeply-shaded path brings one to the lovely gardens of the sisters, Annie and Louise Cheney, where rose-covered arbors and rose beds are approaching the height of their blooming season. The west garden is a delight with its prim walks, sedate little white pool and overhead arbor, entrancing flower borders, filled with Canterbury bells, pansies, schizanthus and a great number of other flowers including aquilegia in dainty color combinations.

Mrs. Rogers garden is small but particularly well planned and especially attractive in iris time. Mrs. Hemingway's is lovely at all times of the year, and comes a boarder of the handsome orange Siberian wallflower. Roses, monkshood, delphiniums and any number of summer flowers are fast replacing the beautiful iris which recently filled the borders in this Porter street garden.

Perhaps the garden which impressed the party more than any was the transformation of the former W. E. Alvord place at Manchester Green, by the owners of the Park Hill flower shop, Mrs. Adeline Miner and John G. Pentland greeted their guests and showed them around the various gardens which they have developed in an amazing short space of time. There are three gardens, all on different levels as one ascends the hill, each complete in itself. The upper one is the cutting garden and the flowers grown here, such as delphiniums, helleboms, gypsophila and gladioli, are used in the florist business of the owners. The artistic taste which has assisted in developing the Park Hill shop to its present position in this section of the state, has been used to lay out a series of gardens which are a credit to the owners and a delight to behold with their rustic and stone furniture and other garden accessories, fine evergreens and other shrubs and colorful flower borders.

The evolution of this garden spot came with distinct surprise to practically all in the group last night. Mrs. Bower's is a spring garden and is loveliest when the narcissus, daffodils and other spring flowers and iris are at their height.

Miss Palmer's garden combines vegetables and flowers in a most pleasing manner, and her success with both reminds some of the gardeners of the fine plants her father, the late James Palmer, used to raise in his greenhouse and beds on the same garden site.

The club members hope for still other tours before fall, details of which are yet to be arranged.

Portland, Maine, June 17.—(AP)—Returns from 589 election precincts out of 632 in the state, representing 475 cities and towns out of 518 give: Republican Senator Brewster 58,955; Dewar 7,061; White 46,184. Republican governor: Gardner 57,097; Wilson 38,121.

St. Paul, June 17.—(AP)—Returns from 1,043 precincts out of 3,698 in the state give for Senator, Republican: Christianson—53,223. Schall—78,757. Selb—8,104. In the Republican contest for governor 2,034 precincts give Burnquist 37,237; Chase 65,085.

McEnelly's Victor Recording Orchestra 12 Pieces at SANDY BEACH BALLROOM Crystal Lake Wednesday Evening, June 18th

Request return engagement of The Diamond Band of Pennsylvania. Most marvelous dance band of the season Saturday evening, June 21st. Admission, Gents' 75c, Ladies' 50c.

SUB TEST A SUCCESS

New London, June 17.—(AP)—Satisfaction was expressed today by officials of local submarine bases with tests completed yesterday in Long Island Sound of submarine salvage equipment.

Submarine, the O-4 which had been submerged in 60 feet of water at this port was raised to the surface by the U. S. S. Chevinck during the operations which required six hours.

The O-4 ran to a location some distance from the Chevinck and after setting to the bottom sent up a marking buoy to the surface. A diver from the salvage boat connected air hose from the Chevinck to the submarine and made other connections which made possible the transfer of food, coffee and water to the O-4. The submerged submarine rose to the surface after it had been pumped by the salvage ship into its waterfilled tanks.

It was a delightful evening for such an excursion and the garden fans enjoyed it to the full. The start was made from the garden of Miss Mary Cheney, which is beautiful during the whole of the outdoor season. There is always something of absorbing interest there, and the person who views it for the first time, with its natural setting of terraces on one side, fine tall trees and shrubs, and the winding brook on the south is lost in admiration.

PRESIDENT SIGNS NEW TARIFF BILL

(Continued from Page 1.)

business stability. He believes the revised flexible provision giving the tariff commission power to recommend rates for approval or rejection by the President will afford an opportunity to correct any unfair rates, go a long way toward taking the tariff out of politics and obviate the necessity for another Congressional revision "for many years to come."

Long Discussed. The bill was signed one year, five months and ten days from the day the House ways and means committee began public hearings on the subject in the latter days of the Coolidge administration.

It provided 1,122 changes in present duties, including 887 increases and 235 reductions. More than 250 of the advantages are on agricultural products, including sugar, dairy products, grains, cattle, meats, fruits, vegetables, nuts and seeds.

Industrial products given rate boosts include textiles, in the raw and semi-processed state, clothing of all kinds, manganese and zinc ores, and scores of other commodities. Plate glass, aluminum, and automobiles are the major products given lower rates.

Of 48 articles taken from the free list are softwood lumber, cement, brick, long staple cotton, hides, leathers and shoes. Logs, now dutiable at \$1 per thousand and board feet, head the list of 75 items placed on the free list.

SENATORS IN WRANGLE. Washington, June 17.—(AP)—The Stock Market situation held Senate attention today during interparty wrangling over the tariff bill. Senator George, Democrat, Georgia, called attention to newspaper headlines which said the market had declined when it became known President Hoover would approve the Smoot-Hoover measure.

He directed his words especially at Senator Smoot, chairman of the finance committee. Smoot, immediately jumped to his feet and asserted that when the market improves Senator George call that to the attention of the Senate.

"For it will recover," Smoot shouted, pounding his desk. "When it does," George retorted, "the Republican Party will claim credit for it."

The Utahian said the businessmen were not going to be deceived by charges that the tariff bill caused the decline, adding that it was due to "manipulation."

"The lambs are being frozen out," he asserted. "Whether the tariff bill had been passed or not it would not have made a bit of difference."

Caraway Joins In. Senator Caraway, Democrat, Arkansas, joined in the exchange with a statement that Smoot was opposed his bill to prevent manipulation on the exchanges.

Smoot contended the bill had gone much further than the purpose Caraway had asserted for it.

The use of only one pen by President Hoover in signing the tariff bill was advocated by George to promote economy that he understood several pens were to be used in the White House ceremony, the Georgian added: "It might be a saving in economy to use only one pen and donate it to Senator Grundy, the junior Republican Senator from Pennsylvania for safe keeping."

Many feel a sheepskin would not be such a total loss if it could but remind the college grad of his I. O. Ewes.

BLAME SWEET AS SEWER LAXITY LOOMS IN EIGHTH

(Continued From Page 1.) aid and the accompanying report are given herewith: June 16, 1930. "Mr. Thomas Ferguson, Managing Editor Manchester Evening Herald South Manchester, Conn. "My dear Mr. Ferguson: "I have your letter of June 12th regarding the sewage treatment plants operated by the Eighth School and Utilities District of Manchester. "I am enclosing for your information, copy of a report made to me by Mr. Scott under date of April 24, 1928. You will note from this report that Mr. Scott and representatives of the State Water Commission visited the chairman of the district in April 1928 and reported to him the conditions which existed with regard to both of the sewage tank plants serving the district. "Practically no improvement has been made since that time. In fact, despite repeated advice from this department that the Hilliard street tank should be cleaned before the scum became too thick for easy handling, this has been entirely neglected with the result that a serious problem has been created in the cleaning of the tank and presents a difficult job to handle. "The effluent from the old tank is particularly poor and Mr. Scott tells me that at the time of a visit to the tank which he made last week, he found large quantities of solids sloughing out in the effluent and the effluent looked little or no better than raw sewage. In fact, we have analyzed samples of effluent from the old tank and have found that as a result of periodic unloading of solids from the tank, the effluent has contained more solids at times than the raw sewage entering the tank. "You will note in this report that we have recommended to the chairman of the district that a competent consulting sanitary engineer be employed to draw up plans for improved operation and more efficient treatment units. The old plant is so badly overloaded that it needs to be completely rebuilt. "Other communities along the Hockanum River have all been working toward improvement in the condition of this stream. Rockville has recently completed the construction of a new plant and is expected to have also constructed a new plant at South Manchester. East Hartford is now working along with the State Water Commission on a program of improvement. We feel that it is only fair to expect the district in Manchester to join in the movement for improving the condition of the Hockanum River. "I am sending a copy of this letter to F. A. Sweet, D. M. D., who is, we understand, still the chairman of the district. It is my hope that to him under the date of March 3, 1930, again calling his attention to the need for cleaning the Hilliard street tank but nothing has been done. We have made the recommendation a number of times previously. "This is all in answer to your question as to how this department feels about the efficiency of the sewage treatment plants handling the sewage of the Eighth School and Utilities District. Sincerely yours, STANLEY H. OSBORN, Commissioner, April 24, 1928. SUBJECT: MANCHESTER, CONN., SEPTIC TANKS FOR EIGHTH SCHOOL AND UTILITIES DISTRICT. To: Stanley H. Osborn, M. D., Commissioner of Health. From: Warren J. Scott, Director Bureau of Sanitary Engineering. Copy Sent F. A. Sweet, D. M. D., Eighth School & Utilities Dist., Manchester, Conn. Sanford H. Wadhams, M. D., State Water Commission, State Capitol, Hartford, Conn. Old Septic Tank "On April 18, 1928, the writer inspected the old sewage treatment tank of the Eighth School and Utilities District in the company of Sanford H. Wadhams, M. D., Director of the State Water Commission, and Mr. W. R. Copeland, Engineer for the Commission. "The manhole covers were removed and the scum in the tank was noted to be several feet thick, very evidently causing almost complete choking of the tank. Large particles of solids and undissipated feces were seen in large quantities escaping from the tank outlet. The tank effluent had every appearance of raw sewage. The tank was operating so inefficiently as to be practically useless. "Cleaned in 1926 "We understand the tank was cleaned in the summer of 1926, so that nearly two years have elapsed since the last cleaning. This department has no exact information as to the quantity of flow but some time ago the daily flow was estimated by measuring the surface velocity in the inlet sewer and also from the flow over the outlet weir. It was estimated that the flow at that time was at the rate of about 275,000 gallons per 24 hours. It seems probable that over 2,000 persons are served by this system. "Septic tanks of this type are usually designed for an average detention period of eight hours. Four hours is certainly a minimum figure. In four hours at a 250,000 gallon rate of flow, 41,700 gallons would accumulate. The tank, which was built over 20 years ago, has a total liquid capacity of only 51,500 gallons. This leaves only 9,800 gallons for sludge and scum accumulation. This accumulation, if at the rate of 500 gallons per million gallons of sewage, with a rate of flow of 250,000 gallons per day, would be deposited in 78 days. After this period, the time of detention would be lowered and solids would begin

EMERGENCY DOCTORS

Dr. N. A. Burr (3995) and Dr. George Lundberg (5628) will be on duty to answer emergency calls tomorrow afternoon.

ABOUT TOWN

The semi-annual meeting of Division No. 1, of the Ancient Order of Hibernians, will be held tomorrow evening at 8:15 o'clock at St. James Hall, instead of Thursday evening, because of the graduation exercises at the High School on the latter evening. Members of the American Legion auxiliary have been invited to attend an Americanization meet to be given by the Legion Post in Newington at the Junior High school in that town, Thursday evening June 19 at 8 p. m. They are planning to attend, including Commander Alexander of the Legion, and will also award a medal to the winner of the essay contest which they have been conducting at the school. Miss Mildred Erickson and Mrs. Ann Waddell have returned from a few days stay at Misquamicut, R. I., formerly Pleasant View. They have brought back some interesting "Millie-Ann". Mrs. Henry Lowd, formerly with the J. W. Hale company, will be in charge of Miss Erickson's corset shop for the summer. Miss Lillian G. Grant of Cambridge street gave a program of readings this afternoon at the meeting of the Connecticut Society of the Sons and Daughters of the Pilgrims, held at the Hartford Golf club. Roger Cheney, son of Mr. and Mrs. H. B. Cheney of Forest street, and Charles Burr, son of Mr. and Mrs. Clifford Burr of Main street were graduated yesterday from Yale University. Mr. Burr will spend the summer with friends in Europe and on his return will enter the nursery business with his father, having majored in business administration. Mrs. Harlow Drew of Summit street who has been spending the past ten days in Townsend, Vermont, returned to her home yesterday. Orford Parish Chapter, Daughters of the American Revolution are reminded of the outing to be held at the People's Forest, Barkhamsted, Monday, June 23, when the label marking the D. R. portion of the forest will be unveiled. All of the 53 chapters in the state have been invited to this ceremony. Basket lunch will be at 12 o'clock and the unveiling at 1 o'clock. All desiring transportation should communicate with Friday, with Mrs. Doris Grant, Miss Finnish Grant or Mrs. Nelson Smith. The Ladies' Guild of St. Mary's Episcopal church will have their annual outing at the cottage of Mrs. John Houston at Misquamicut tomorrow. Mrs. Robert McKay heads the committee of arrangements and it is expected nine autos will convey the party. Miss Lena Ubert of 9 Village street is spending her vacation at Marlboro lake, the guest of Mr. and Mrs. Andrew Doering of Glastonbury. Miss Gertrude Rosendahl, daughter of Mr. and Mrs. S. A. Rosendahl of Hackmatack streets who is to be married on Saturday to Alfred Olson, was the guest of honor at another surprise miscellaneous shower, given at her home Saturday evening by her friends among the young people of the Swedish Congregational church. A buffet lunch was served and social passages enjoyed. William Mack, 26, of 251 Lydall street is at the Manchester Memorial hospital where he was taken last night following an accident while swimming in a pond in Lydallville. As he jumped into the pond his foot struck some object, injuring his ankle. He was assisted to his home. Dr. M. M. Moriarty was called and advised his removal to the hospital. This morning X-ray pictures showed that there was a fracture of the ankle. It was reduced and the ankle put in a plaster cast. The graduating exercises of the Manchester Green school will be held in the school hall tomorrow. The graduating class, which has chosen for its motto "Opportunity Knocks Once" and whose class colors are blue and white, contains 21 boys and girls. The exercises will open with a cantata, "The Courtship of Miles Standish," and will conclude with the presentation of diplomas. Pupils of Miss Grace Adams will give a piano recital tonight at Miss Adams' studio in the Johnson building. Special numbers will be given by Virginia Aceto, violinist. The following pupils will take part: Margaret Shea, Charles Rogers, Noel Little, Alice Mason, Grace Proctor, Elizabeth Shelton, Margaret Atkinson, Anna Lerch, Doris Little, Dorothy Brown and Johanna Aceto. to clean this now before it gets much thicker. It is recommended that one or two men be employed for a day or two to remove this scum and dispose of it by burial in shallow trenches. The sludge valve should be opened slowly in order to withdraw any sludge near the outlet. Rapid opening of the sludge valve is to be avoided as this will cause the liquid to break through the sludge. In this connection, it is recommended that additional efforts be made to stop this leak, as a continuous flow of sewage on to the sludge bed will impair its efficiency.

TOM AND JOHN HAYES CHAT ACROSS WORLD

(Continued From Page One) not far from Manchester. I've always done well; no kick coming. Do you remember many of the old times around town, John, Ned and Foley and the Gormans and Pat Dougherty?" "How are all the Gormans getting along, Tom, and John Gorman's children?" "They're all pretty well off, John, and your nephews and nieces have all done well, too." "I'll send you our Manchester Herald, John, with my picture in it telling the story of our long separation from each other, and I want your picture, John." "I'll send you a photograph of the boys and the girls and the whole family. I'm only a little fellow beside my sons. I've got 16 grandchildren, too." "How much do you weigh, John?" "Eleven and a half." "Eleven and a half what, John?" "Eleven and a half stone, a stone is 14 pounds." "When you get up to go to work, do you go to bed, John, that's a mean trick, but you don't go to work now, do you?" "No, I gave up active work 10 years ago, but I feel just as good as if I did 10 years ago." "Well, you didn't get a Hayes if you didn't feel that way." "The only trouble, Tom, is that I am looking for a long-haired cook." "Well, they're all gone, I haven't seen a long-haired lady now for two years, John, they are all bobbed." "Don't you think you'll be able to come over to Australia, Tom?" "I don't know, John, I'm getting old, sometimes I'm up on top of the hill and sometimes I'm down at the bottom." "Listen, John, there is a man going from this town in July to Sydney to start a Bon Ami factory. His name is Robertson and he wants to call on you. Now if any of your sons want jobs, I know he will give them work. His company manufactures Bon Ami here in Manchester and he is going over there to start a soap factory and to make Bon Ami." "Well, we need a little extra soap, Tom, we're short of water and soap isn't any good without water." "Do you remember, Tom, when mother used to make us wash our feet every night before going to bed, and we told her, Ned Foley didn't have to wash his until he went to school in the morning?" "John, you remember our old home? Well, that is all a water-shed now, all grown up where you worked on tobacco, a regular forest is doing well, so is Pat Dougherty. Tom, we need a little extra soap, Tom, we're short of water and soap isn't any good without water." "Do you remember, Tom, when mother used to make us wash our feet every night before going to bed, and we told her, Ned Foley didn't have to wash his until he went to school in the morning?" "John, you remember our old home? Well, that is all a water-shed now, all grown up where you worked on tobacco, a regular forest is doing well, so is Pat Dougherty. Tom, we need a little extra soap, Tom, we're short of water and soap isn't any good without water." "Do you remember, Tom, when mother used to make us wash our feet every night before going to bed, and we told her, Ned Foley didn't have to wash his until he went to school in the morning?" "John, you remember our old home? Well, that is all a water-shed now, all grown up where you worked on tobacco, a regular forest is doing well, so is Pat Dougherty. Tom, we need a little extra soap, Tom, we're short of water and soap isn't any good without water." "Do you remember, Tom, when mother used to make us wash our feet every night before going to bed, and we told her, Ned Foley didn't have to wash his until he went to school in the morning?" "John, you remember our old home? Well, that is all a water-shed now, all grown up where you worked on tobacco, a regular forest is doing well, so is Pat Dougherty. Tom, we need a little extra soap, Tom, we're short of water and soap isn't any good without water." "Do you remember, Tom, when mother used to make us wash our feet every night before going to bed, and we told her, Ned Foley didn't have to wash his until he went to school in the morning?" "John, you remember our old home? Well, that is all a water-shed now, all grown up where you worked on tobacco, a regular forest is doing well, so is Pat Dougherty. Tom, we need a little extra soap, Tom, we're short of water and soap isn't any good without water." S. PARKER GILBERT BACK HOME AGAIN

American Financial Expert Handled More Than Two Billions in Reparations.

New York, June 17.—(AP)—S. Parker Gilbert, who handled more than \$2,000,000,000 in German reparations as agent general under the Dawes plan, was home today—a man without a job.

His six years' job in Germany ended through inauguration of the Young plan and the bank of International Settlements. He said his only plan for the immediate future was a deferred honeymoon.

He and Mrs. Gilbert, who returned with him on the liner France, were married only three days before they sailed for Germany, and now they plan a honeymoon tour of America of four or five months.

Mr. Gilbert spoke optimistically of Germany's ability to reestablish herself in the world. He said the country had every facility to "rationalize her finances as she has her industry."

Germany Makes Recovery. "Germany," he said, "has made an astonishing recovery. Much has been said of the rationalizing of her industry. What they now need is to place their finances on the same sturdy basis. Now they have more incentive, since they are free to do it. And I am certain they have the ability."

He said there has been a gratifying consistency in the direction of German commercial growth and that the country's foreign trade had improved at the rate of 1,000,000,000 marks a year. Commercial relations between France and Germany were excellent, he added.

Germany, Mr. Gilbert asserted at present had the same business depression that exists throughout the world and while she still has an unemployment problem it is not as acute now as it was six years ago.

Mr. Gilbert, who is 38 years old, is one of the youngest men ever to hold a post of such responsibility as he just relinquished. Accompanying him home was Pierre Jay, who served as assistant general of reparations.

WILL BE LAST FLIGHT FOR KINGSFORD-SMITH

Dublin, June 17.—(AP)—When Captain Charles Kingsford-Smith sets foot on the American continent at the end of his forthcoming trans-Atlantic flight he will have captured his last aerial adventure.

Keeping a pledge to his bride-to-be, Miss Mary Powell, pretty daughter of a Melbourne, Australia, merchant, Captain Kingsford-Smith who has flown across the Pacific ocean will give up aviation.

He will sell the Southern Cross, the "patchwork" plane in which he and other fliers have reeled approximately 70,000 miles in 750 flying hours, marry the girl of his heart and rest on his honors.

Captain Kingsford-Smith revealed today that Miss Powell, whom he met last year on a mail boat going out to Australia, had exacted the promise from him as a condition of their betrothal.

The plane, Southern Cross itself, is made of two planes used by Sir Hubert Wilkins in Arctic explorations.

THREE DIE IN FEUD

Ravenna, O., June 17.—(AP)—Three men are dead and a fourth was at the point of death here today as the result of a shooting affray in an alleged bootleg feud.

All the bullets were fired by one man who turned the revolver on himself when he feared capture by police.

The dead are: Joseph Dinato, 40, the alleged gun welder; Benjamin DeAnglin, 38, and Frank DeEulis, 38.

The wounded man is Ralph D'Amico, 34, who is said to be the owner of the Roxy Club, where the shooting occurred.

Dinato, known as a "small time" bootlegger, entered the club shortly before midnight and accused D'Amico of causing police to interfere with him. D'Amico, witnesses said, ignored him, but he emptied his revolver on the three men.

WISCONSIN WOMAN Lost 11 Lbs.

"Have been taking Kruschen Salts for fat reduction—am on my second bottle—I lost 11 pounds in six weeks and feel fine—Kruschen sure gives you a lot of vim and pep."

Kruschen Salts are used daily by millions all over the world not only to take off fat from overweight people but to rejuvenate the entire system.

One bottle of Kruschen Salts (lasts 1 week) costs but 50c and one bottle will prove of vast benefit to people who have constipation, headaches, indigestion, nervousness, rheumatism, depression, acidity and auto-intoxication.

Not only that, but one bottle will bring about body activity—increased energy, ambition, sparkling eyes and freedom from pimples and blemishes—millions know all this—you ought to know it. Take one half teaspoon in a glass of hot water every morning before breakfast—walk a little each day—cut down on sweets and fat forming foods.

ROCKVILLE

Bitten By Dog Albert, the four year old son of Mr. and Mrs. Robert Thompson of East street, was taken to the Rockville City Hospital on Saturday afternoon at 4:30, where he received treatment and had several wounds sewed up from the result of being bitten by a hound owned by Charles Sweet, a neighbor.

The child was playing in the yard, when he climbed into a Ford car owned by Mr. Sweet, the dog following. Shortly after screams could be heard and George Miller quickly ran to the child's rescue. He found the dog biting the child about the face and threw him to the ground. Dr. Ferguson was called and immediately took Albert to the hospital, where he found the forehead, one cheek and ear and the right hand badly cut up. The child was able to be taken home on Sunday and is reported to be resting quite comfortably.

Charged With Vagrancy Frank and Daniel O'Connell of Whiting, Mass., and Edward Daley of Rockville were before Judge John E. Fisk in Rockville Police Court this morning charged with vagrancy. They were arrested on Sunday night by Officer Dowgiewicz at the Rockville Fair Grounds, where they were spending the night.

The O'Connell Brothers were released after they proved they were just resting, as they were tired of looking for work. They were on their way to another city.

Daley was given a suspended jail sentence of 45 days, and placed under the care of Probation Officer Kenneth Sullivan.

Captain Stephen Tobin of the local Police force stated today that all vagrants would be rounded up and all places where they hang out will be visited each evening and any complaints should be made direct to police headquarters.

To Hold Quilting Party Kiowa Council, Degree of Pocahontas will hold a member's quilting party in Red Men's Hall on Thursday afternoon at 2 o'clock. Those who do not care to quilt can play whist. The proceeds of the quilt will be set aside as the start for a special fund to finance the annual convention of the Degree of Pocahontas, which will be held in this city in 1931, when a local member will take the chair of Great Pocahontas. Mrs. Annie Einsiedel, Mrs. Annie Bilson and Mrs. Kate Preuss.

I.O.O.F. Memorial Services Rising Star Lodge, I.O.O.F. and Mayflower Rebekah Lodge held joint Memorial services on Sunday afternoon in I.O.O.F. Hall. Rev. Edward L. Nield, pastor of the Rockville Baptist Church was the speaker. Instead of decorating each grave this year, the lodges placed a large floral carnation emblem of three links at the crossroads of Grove Hill cemetery in memory of the deceased. There was a large number of the members in attendance.

Carnival This Week The Coleman Brother's Carnival arrived in Rockville on Sunday and on Monday opened for the week under the auspices of the Rockville Fire and Drum Corps. The carnival drew large crowds last night to the Burke lot, where it is being held.

A parade was held from the center of the city to the lot at 7:30 p. m., with the Rockville Fire and Drum Corps leading, followed by the Legion Drum and Bugle Corps and the Terryville Drum Corps, and one of the Manchester Corps.

"Dare Devil" Oliver gave an exhibition at the grounds in jumping from a hundred foot ladder into 54 inches of water. This will be done each night.

Zbyk—Surdel Miss Helen Surdel of 53 Market street and Bruno Zbyk, son of Mr. and Mrs. John Zbyk of 137 West Main street were united in marriage on Monday morning at 9 o'clock at St. Joseph's Church.

The maid of honor was Miss Stella Zbyk, sister of the groom. There were five bridesmaids, Misses Mary Czerna, Bernice Zbyk, Helen Janton, Bernice Jackiel and Helen Kerkiewicz. The best man was Thomas Fagan and the ushers included Joseph Oriowski, Stanley Garnecki, John Janton, Joseph Gil and Vincent Dowgiewicz.

The bride looked charming in a gown of white satin and veil of tulle, which fell from a cap of orange blossoms and pearls. Her bouquet was a shower of bridal roses and lilies of the valley.

The maid of honor wore a dress of orchid georgette and bandeau to match and carried roses.

The bridesmaids wore gowns of green, Alice blue, yellow, pink and pearl color silk georgette, and bandeau to match. They carried pink roses.

A wedding breakfast followed at the home of the groom's parents and in the evening a reception was held in Link's Hall. The Snappy Six furnishing music for dancing.

Later in the evening the happy couple left for a wedding trip to New York and upon their return will reside in this city.

Lions To Hear Julius Augur All members of the Lions Club should make a special effort to attend the meeting to be held at the Rockville House on Wednesday evening at 8:15. The speaker of the evening will be Julius Augur of Hartford and he will have as his subject "The Philippines". He has spent several years in the Philippines and his talk should be most interesting. Other very important business will be brought up at this time regarding the trolley situation.

Interesting Service An interesting service was held at Union Church on Sunday morning, when the presentation of the Go-To-Church Pins to a large class of boys and girls who have been perfect in attendance at Church during the past six months.

Funeral of Scott Soon It is expected the body of George Scott, formerly of this city, who died at San Francisco, will arrive in this city on Wednesday. As soon as its arrival here the body will be taken to the E. H. Freeston Undertaking Parlor, and the funeral will be held from Lucina Memorial Chapel on that day. If the body of Mr. Scott does not arrive until Thursday, the funeral will be held that afternoon, announcement of same to be made later.

Notes Robert Flamm of Windsor avenue underwent a serious operation at St. Francis Hospital on Friday.

The Catholic Ladies of Columbus will hold its regular meeting in K. of C. Hall on Thursday evening at 8 o'clock.

The Ladies Aid Society of the M. E. Church will meet with Mrs. Claude Bilson of King street on Friday afternoon at 2:30. Important business will be transacted, followed by refreshments.

Rev. George S. Brookes, pastor of Union Church has returned from a week's stay in Philadelphia, where he was engaged in research work.

TOLLAND

He will be the speaker at the Pythian Memorial services in Simsbury on Sunday evening, June 22.

Services work took the part of teacher in this play, giving to the audience more of a realization what the students are doing when at work among the mountaineers and factory centers. Each member of the primary class was presented with a potted plant.

Arthur Morganson who has been ill with throat trouble is now able to return to his home on Tolland avenue.

John Clough, Mrs. Charles Broadbent and Miss Eklida Johnson spent Monday in Northfield, Mass., guests of Mrs. Broadbent's sister.

Edward E. Fuller and John N. Keeney, auditors of the Savings Bank of Tolland have completed the annual audit of the books of the institution. The annual meeting of the incorporators will be held in the banking rooms of the bank next Monday afternoon with Mr. Perkins, president, presiding.

The Savings Bank of Tolland is one of the oldest savings institutions in the state and the first to pay 5 per cent interest on saving deposits. Present assets of the bank are now in excess of \$3,000,000 as shown by the annual report of Treasurer J. Tilden Jewett.

Mr. and Mrs. Grayland Clough and Mrs. Bessie Clough of Burnside, Conn., were Sunday guests at the home of John Clough.

Mr. and Mrs. Ivan Wilcox were recent guests of Mr. and Mrs. James H. Clough.

PERFECT MATCH "A fan, please." "What sort?" "To suit my face." "Here are some hand-painted ones."—Moustique, Charleroi.

BETTER CO-OPERATION IS MacDONALD'S PLEA

London, June 17.—(AP)—Plea for close cooperation between the government and local authorities to speed plans for reducing unemployment was made by Prime Minister J. Ramsay MacDonald today in opening an important conference of governmental and local officials at the Guild hall.

Addressing a representative gathering from all parts of the country he urged his hearers to face the present unemployment figures in no state of "fussy energy" out of which only evil could come.

"What I and my colleagues of the Government ask you to do is to conspire together—the government and local authorities—first of all to expedite schemes and then to renew our efforts for what I might call national development. We are not really so efficient as we might be."

Mr. MacDonald alluded to Great Britain as not alone in her unemployment difficulties and spoke of world conditions today as similar to those of one hundred years ago.

"A certain event," he said, "which took place yesterday in New York"—which was accepted as an allusion to the Wall Street slump—"is bound to have its repercussions here sooner or later. We are facing an abnormal condition of unemployment which is owing primarily not to our internal arrangements but to the world economic and financial crisis."

Mr. and Mrs. William Overman of Springfield, were at their summer home here over the week end.

Miss Eleanor Bowers of Hartford spent the week end with her father, John Bowers.

Mr. and Mrs. George Nelson Bowers and two children of West Hartford were guests over the week end of Mrs. Bowers' parents, Mr. and Mrs. Cornell Green of the river district.

Charles C. Talcott has returned from a visit with relatives in Oradell, N. J.

Mrs. Agnes Pratt of Windsor made a short visit with her mother, Mrs. Charles H. Daniels Saturday.

Emil Ewald who has spent the winter in New York City, has returned to his home here for the summer.

The regular meeting of Tolland Grange will be held Tuesday evening in the Federated church parlors.

The postponed Children's Day was observed Sunday at the Federated church. The program consisted of hymns, prayer, reading, an exercise "Where busy feet go" by the beginners class and their teacher Mrs. Simpson, a play—"At the Cross Roads", a practical demonstration of student summer service. Miss Thelma Price who spent two months in North and South Carolina in Student Summer

EIGHTH PEPS UP

There is every indication that the Eighth School and Utilities District intends to go modern at its annual meeting on Wednesday night. Modern, that is, in its way of doing district business—otherwise the North End district needs no modernizing.

For a long time the methods in vogue in the Eighth have been the good natured, happy-go-lucky ones of the primitive country village where the public accounts could be carried on a shingle, or in the memory of the village headman for that matter, and everybody would know that everything was all O. K. because everybody not only knew that everybody else was honest but where every cent went, at the time of its going. In that kind of community formal accounting is not only unnecessary but to insist on it would be taken as a reflection on the character of the village fathers.

But the Eighth District has long outgrown that primitive stage. It has become a large and important business enterprise. It has outgrown the old hap-hazard ways. It has arrived at a point where its many taxpayers and voters are entitled to have their affairs conducted as systematically and under as complete a service of checks and accounting as any other large business is. And unless indications are deceptive there is every intention on the part of the district's voters to establish such a system by the very simple device of putting district affairs into the hands of persons trained and accustomed to doing business according to recognized modern practice.

Deflation has been going on steadily in practically all countries, with the stabilization of currencies and the rebuilding of the industrial and agricultural machinery so nearly ruined by the war. For America alone to have maintained commodity prices at the war norm, or anywhere near it, indefinitely, it would have been necessary for this country to have shut itself off from all trade intercourse with the rest of the world. You cannot maintain water at a given high level unless you impound it in a reservoir from which it cannot escape. Otherwise it will flow eventually to the level of the ocean. And with domestic price meeting foreign price in the channels of world trade we have something of the same situation—of course affected by such partial barriers as the tariff, proximity to markets, discriminations in taste, etc. The point is that you could not keep prices, say of foods, at 100 in America if they were ruling at 10 elsewhere in the world, so long as there was any opportunity whatever for legal or bootleg importation.

And as world prices slowly descend and it becomes inevitable that they must to some extent fall in this country, so must the size of anticipated profits in business lessen in some degree. As the size of anticipated profits decreases, so, inevitably, must the prices of securities seek the level at which the securities will provide returns to the investor.

The truth of the matter is that the deflation of securities prices has been due to the operation of the simplest of business laws—which over a period of years during the great bull market had been lost sight of altogether. It is folly to say that there is no bottom to the falling market for securities. There is a perfectly solid and stable floor. It lies at that point where reasonable earnings can be produced on a basis of commodity prices maintainable against the competition of a world recovered from the inefficiency and industrial wastage of war. Exactly where that point lies is a matter which only time and experience will determine, but there is no question about its existence.

THE QUEER FORD

This man Ford continues to excite our curiosity. He is forever doing or saying the queerest things. Here he is, reputed to be the richest individual in the United States and perhaps in the world; and yet when he wants to find out how much he will have to pay the hired hands in his foreign workshops, in order to keep them satisfied—to maintain themselves on the same level as his Detroit workers, as he phrases it—instead of shouldering the expense of an inquiry and hiring a statistical organization to find out for him, he doesn't hesitate to bum this service from the United States government and from a foundation maintained by men who haven't a respectable fraction of his wealth.

For five months half a dozen experts from the Department of Labor at Washington have been conducting a survey of the living conditions of Ford workers—the \$7 a day minimum folks. When they find out exactly how much of this, that and the other thing the family of such a worker can have, the scheme is to have the statistics forwarded to the International Labor Office at Geneva and have other statisticians find out how much wages Ford must pay in seventeen European cities in order to have the workers live on the same scale as the Detroiters. The Twentieth Century Fund, established by Edward A. Filene, the Boston merchant, is to pay the costs of the European surveys. Uncle Sam, it appears, is footing the bills for the Detroit inquiry.

Just why anybody but Ford should be assuming the costs of these investigations, we can't for the life of us understand. Why should the Department of Labor be devoting the time of high salaried employes to making it easy for Ford to take his manufacturing enterprises abroad? If Mr. Filene and his associates want to spend their money in order to help Ford start factories in Constantinople and Helmsingors, instead of building his cars in America, presumably that is his business; but it makes Henry look like Jim Jeffries, the one-time pugilistic champ, who with a roll of thousand dollar bills in his pocket would hang around a theater door for an hour waiting for somebody to arrive who could give him a free pass to see a show.

ly so in this country where the speculative factor has entered into the fixing of apparent values not only in securities but in commodities.

by those Southern Democrats who so ably assisted the Western insurgent Republicans in fastening on the bill the sugar schedule—infinitely the worst feature of the amended measure? Will it be made an issue by those Democrats who a few weeks ago were proclaiming to the world that they had rewritten the Republican tariff into a Democratic-Progressive tariff?

We somewhat doubt it. We even doubt that the florid and vocal Pat himself will be able to stir up very much excitement over the tariff in a campaign which is going to be fought, in a vast majority of the Congressional districts, on the vital issue of prohibition. Pat may be able to make an issue of the tariff down in Mississippi, where they still comprehend politics to be a game whose rules were drafted by Grover Cleveland, but in those parts of the country which are not sound asleep and snoring the tariff will sound about as much figure in the coming elections as the size of a dodo's egg.

WE TAKE A BOW

We don't know what our readers think about it, but the Herald feels that it has reason for strutting just a bit over the achievement of the Hayes brothers' radio talk, as of Sydney, Australia, and Schenectady, this morning. Broadcast from one of the most important stations in the country, that unique conversation was listened to, no doubt, by many thousands of persons—and the listeners heard something the like of which has never transpired in the world before. For two brothers who have not seen or spoken to each other in 56 years to chat away over the air for more than half an hour in the presence of a vast unseen audience is an event that makes radio history.

IN NEW YORK

New York, June 17.—When taken apart and looked at closely, those parts of New York about which the world hears most are as made-to-order as the dresses of Sixth avenue. In a single evening—at any Theater Guild first night, for instance—I have seen the component parts assembled in a small foyer. Smaller than the smallest town it is, a mere few hundred people with each group swinging about its particular orbit.

Here are a half dozen scattered critics who mold the drama opinions in the New York press and the national magazines devoted to amusements. Here are the paragraphers, in and out of vogue. Here are the leeches who cling to the fringes of the inner circle. Here are those mysterious people who always seem to be everywhere, without any particular excuse. Here are the young men and women who write articles about the theater and the arts. Here are the Babbits of Broadway—the mixers, and the movie visitors from Hollywood, and the actors with a social urge, and the bright boys who run the sophisticated and humorous weeklies, and the other young men who issue pamphlets distributed at hotels, and the gagsmiths, and the press agents who want to make the proper outside contacts.

Before curtain and between curtains they meet on the sidewalks as the Flatplains boys met at the depot. Their gossip and small talk is as intimately provincial as any you might hear around the stove of the Red Star grocery. Yet their gags are the gags that spread over the nation. They ride a transient Manhattan wave. They "belong." The rest of the city—millions of people—drift by, pointing out this one and that. They are, if you please, a sort of "personality"—or they try to become such. You could name most of them in less than a column of type. They write the reviews and the sketches and the songs; they enjoy national syndication in the papers; they are built overnight into personages of some importance—at least, in New York; they log-will for a while and they throw knives at each other; they bask in a light of pseudo-importance. I doubt if any other city in the world could provide such a spectacle of diversified who's-hokey.

HEALTH-DIET ADVICE BY Dr. Frank McCoy. "The Best Way to Health" is contained in this book. Questions in regard to health & diet will be answered by Dr. McCoy. Send 10c for book. Address: Dr. Frank McCoy, 100 N. Main St., South Manchester, Conn.

Recently in some articles I told you something about the functions of the skin on the outside of the body. There is yet another skin which lines all of the passages which communicate with the outside. For this reason, although inside, it is still outside of you. If you look inside of your mouth you can see a kind of red skin lining the whole interior of the mouth. This is joined to the outside skin at the lips, and this is the reason that the lips are red instead of pink.

This inside skin called mucous membrane. It is a true skin which in your embryonic stage became folded into line all of the inside tubes which communicate directly with the outside. The mucous membrane which you see in your mouth is continuous with the lining all through your digestive tract. The three tracts in the body which are lined with this particular kind of membrane are the digestive respiratory tract, the skin on the outside must conserve moisture. For this reason it is dry, but the mucous membrane has an opposite characteristic. It is always kept moist by small mucous glands which occur at regular intervals and are made of cells like little goblets. The secretion of these cells keeps the under-covering moist, soft and smooth, and lubricated normally.

In the mucous membrane at the back of the tongue are imbedded the taste buds. In the same membrane of the nose occur the olfactory nerves of smell which are the only nerves in the body to end freely on a surface open to the outside. The mucous membrane of the nose and throat warms and moistens the inside air to prepare it for the delicate lung tissue.

In the eye, the tear ducts are lined with mucus membrane. When these membranes swell up the eye waters and turns red. The mucous membranes of the throat have fine hair-like processes called cilia. These when seen under a microscope move with a wave-like motion to brush out dust and stray pieces of dirt which have passed into the breathing passages. The waving is accompanied by the mucus on the inside of the mucus will help wash the offender away.

In the stomach or intestines the mucous membranes also contain glands which secrete the digestive juices as well as the glands which secrete the mucus which lubricates the food. The mucous membrane of the small intestine is intensely interesting.

WASHINGTON LETTER BY RODNEY DUTCHER. Washington — Republicans consider New Jersey one of their own states, but they usually have to worry about the Democrats. This year the Democrats are entering a young woman who, if she wins, will be the first of her sex to sit in the U. S. Senate by virtue of election, and a winning peppery Mrs. McCormick would nominate him and will almost certainly defeat Franklin Fort or Joe Frelinghuysen in case either wins the G. O. P. senatorial primary on June 16.

Miss Thelma Parkinson of Vineland has the support of the organization as the only Democrat running for the short term which ends next March, just as Morrow is the only Republican candidate for those few months. If Miss Parkinson should happen to defeat Morrow in November, she would beat Mrs. Ruth Hanna McCormick of Illinois into the Senate by four months—in case Mrs. McCormick were also elected.

This is, Miss Parkinson would take the seat recently vacated by Walter E. Edge—when he was made ambassador to France—for the short term of the present Congress beginning next December. After March 4 she would be an ex-senator, whereas Mrs. McCormick would begin a full term of six years. Up to this time no woman has ever been elected to the Senate, although Mrs. Rebecca Felton of Georgia sat for one day by virtue of an honorary appointment by the governor of her state. There isn't, of course, a very fat chance that Miss Parkinson, despite her assurance of nomination, will ever be elected. She will benefit to some extent by various other factors of New Jersey Democratic strength—the fact that the Democratic party is wetter than the Republican party, dissatisfaction with business and employment condi-

fall campaign—or "little Napoleons," as their friends will doubtless call them. Simpson is of the same stature as the ambassador. "I may be a little fellow, but those big guys can't pick on ME!" he has often said in effect. It wouldn't be in a campaign against Morrow, but it could be used against Frelinghuysen or Fort.

Besides being against prohibition, Simpson opposes the World Court, the Republican tariff and anti-labor injunctions. He has been making a play for the negro vote by attacking Senators Kean and Baird for their votes to confirm Judge Parker to the supreme court. Lots of Possibilities Simpson presumably would defeat Fort or Frelinghuysen in November and Morrow would be very likely to lick Simpson in a two-man fight. But if Morrow is nominated and the Anti-Saloon League enters a third dry candidate against the two wets it will not surprise anyone to see Simpson elected despite Morrow's record and attainments. Representative Mary T. Norton, who is Miss Parkinson's campaign manager, is being renominated automatically and is not likely to be defeated by any Republican in November. The Democrats are also likely to pick up two or three seats in the House next fall. Dry Congressmen Ackerman and Hartley are worrying considerably and a wet Democrat named Daniel F. Minahan is hard after the seat now held by Congressman Fort.

ing. The lining is so arranged that it presents a surprisingly large surface. The outer surface presents a velvety appearance like the pile on velvet. This arises from the tiny finger shaped projections which nap sticks up on a bath towel. These projections are called villi, and just as a bath towel absorbs moisture quickly, so do the villi. The villi in man correspond exactly to the small roots on a tree which suck up moisture from the soil. It is the purpose of the villi to suck up fluids from the intestines. In this way man can be said to carry the roots with him. The colon does not contain any of these villi in its mucous membrane, but a small amount of mucus is produced to assist in passing along the solid feces. If there is not enough moisture produced, the patient is invariably constipated. When the membrane becomes inflamed it produces an excess of mucus, a condition which is termed mucous colitis. (Continued Tomorrow)

QUESTIONS AND ANSWERS (Normal Elimination) Question:—H. G. asks: "Should a person eating three meals a day have a bowel movement after each meal in order to get proper elimination, and to prevent foods from putrefying in the intestines with harmful effects on the system?" Answer: It is my opinion that everyone should have as many bowel movements daily as the number of meals eaten, so that one using three meals a day should have three bowel movements.

(Vitamins) Question:—Housewife asks: "Are there any certain foods which contain all of the vitamins?" Answer: It is thought that tomatoes, green string beans, carrots, oranges, lettuce and milk each contain varying proportions of all of the vitamins. To be sure you are getting enough vitamins, it would be the best plan to use a liberal supply of all of these foods, varying their use and combinations from day to day.

(Broken Capillaries) Question:—Mrs. M. writes: "Please advise what treatment to use for broken capillaries on the face and neck. Skin is very fine, without pimples or blackheads." Answer: You should twice a day apply a piece of ice to the affected parts, and also to the skin of the rest of the face, moving it slowly about so that the ice will contract the capillaries. This will also improve the circulation and relieve any congestion in the veins underneath the skin.

tions, the hangover of bitterness from the Republican primary. But Morrow is the strongest candidate the opposition can nominate and there seems only one possible development which might give her a real opportunity for victory. If Morrow should be defeated for the full term nomination and win the short term nomination by default he would be in the position of a candidate repudiated by his own party. If he should still run for the short term election under such circumstances no one could get very excited about him! there would be more reason for the voters to get excited about Thelma.

If the Anti-Saloon League wanted to mean it would enter a dry independent in the race and perhaps wreck Morrow completely. If it didn't, Thelma, who is quite wet would stand to get many votes from drys refusing to vote for Morrow. Miss Parkinson graduated from Smith College as late as 1920 after majoring in political science and took up politics as a profession, joining the Democratic state organization. She has represented her country—where the Democrats are in distinct minority—on the state committee since 1921 and has been chairman of the state organization committee. She organized the Young Voters of New Jersey in 1928 and was very active in the Smith campaign. She was elected a delegate-at-large to the Madison Square Garden and Houston conventions.

The long term Democratic candidate, who probably should rate more importantly in this story than Miss Parkinson, is Alexander Simpson. He achieved national notice some years ago as prosecutor in the Hall-Mills murder case. If Morrow wins a nomination there will be two midgets in the

REPORTER'S DEATH STIRS WHOLE CITY

Half a Dozen Agencies Continue Probe; Churches Now Take Up the Work.

Chicago, June 17.—(AP)—The arm of public indignation which yesterday forced the resignation of William Russell as commissioner of police, reached out today for the slayer of Alfred (Jake) Lingle, Tribune reporter.

Half a dozen police agencies were directing new energies toward crushing gang rule; but chief dependence rested with the Grand Jury which was given a special charge by Chief Justice Normoyle of the criminal court to search out the truth concerning police-gang connections and crime profits.

State Attorney John A. Swanson will direct the Grand Jury inquiry and the evidence will be gathered by his special investigator, Pat Roche.

The position of acting police commissioner was taken over last night by John H. Alcock, called "The Iron Man" who has been first deputy commissioner.

The Association of Commerce yesterday created a special committee to enlarge the work undertaken by the "Secret Six" which has been at work on the crime problem. The political action committee of the Chicago Church Federation insisted upon an expose of any partnership of crime and politics. The city council police committee voted to sift charges of corrupt alliances of police and criminals.

The Church Federation committee authorized formation of "a facts finding" committee. Dean Shailer Mathews of the Divinity school of the University of Chicago called the killing of Lingle "the apex of a pyramid, 90 per cent of which still is underground."

FORD STOLEN HERE, FOUND IN N. HAVEN

A Ford touring automobile owned by Mrs. Henry Smith of Knox street, stolen from the street in front of her home yesterday, was found abandoned today by police in Cedar Hill, New Haven. Who took the car or why, the police could not determine, but Mrs. Smith was happy to get the car back undamaged, even if the thief or thieves were able to get away. New Haven authorities notified Manchester police of the finding today.

OWN MOST CARS

Seven cities in the United States which own the most automobiles are New York, Chicago, Los Angeles, Detroit, Cleveland, Pittsburgh, and Philadelphia. Their combined total is 3,144,136.

LARGE RADIO CITY PLANNED FOR N. Y.

John Rockefeller, Jr., to Invest 250 Millions in Manhattan Enterprise.

New York, June 17.—(AP)—An entertainment center, designed to utilize the latest developments in radio broadcasting and television, is to be established in midtown Manhattan by John D. Rockefeller, Jr.

Three square blocks, between 48th and 51st streets and Fifth and Sixth avenues, are to be leveled beginning this fall. The center is expected to be completed within three years. The development will involve an investment estimated at \$250,000,000.

A skyscraper, sixty stories high, is to be erected on the Sixth Avenue side, and a smaller, oval-shaped building on Fifth Avenue. Between them will be a garden plaza containing fountains and statuary and extending through the three blocks.

Underground boulevards will be for traffic through 49th and 50th streets with subterranean, and skyscraper parking for automobiles.

To House Four Theaters. Four theaters will be located in the center, providing vaudeville, sound motion pictures, musical comedies and dramatic entertainments. All the theaters will be equipped for radio broadcasting and also for the broadcasting of sight from the stage when television is perfected. The theaters will be leased and operated by the Radio Keith-Orpheum Corporation.

Housed in the skyscraper will be 27 broadcasting studios, some of them three stories high to provide for further television broadcasting of elaborate entertainments. The studios will be operated by the National Broadcasting Company, a subsidiary of the Radio Corporation of America.

The property was originally acquired by Mr. Rockefeller for the erection of a new Metropolitan Opera house, but the site was refused by the opera company. Buildings now located on the land are old brownstone mansions of the past decade and small office buildings.

OPEN FORUM ROGERS READY TO PROVE HOSPITAL STATEMENTS

Tells Dr. D. C. Y. Moore He Stands Pat That Institution Needs Humanized Viewpoint

Editor of The Herald: Commendable as is Dr. D. C. Y. Moore's characteristic magnanimity in assuming the defense of the Memorial hospital it appears to me "though of course I may be the victim of a humidity which is rather humiliating to humanity, that the time for the doctor to have bravely spoken these words of defense was when I, in my honored presence at the hospital is in need of humanizing.

You will remember, Esteemed Doctor, that I said I would be glad to give reasons for each of my comments before your estimable club of the Manchester Kiwanis club, if possible, Doctor, that you preferred to withhold your reply until you knew I would be over in Hartford tolling hard to eke out a livelihood.

On the level, Old Friend, won't you draw alongside that of the man who has been reported as a humanized viewpoint. I live, Dear Doctor, at 237 East Center and I am at your service.

Hastily but sincerely, if a bit facetiously, WILLARD.

SANDY BEACH DANCES

Two big attractions at attractive pre-holiday prices are scheduled for Sandy Beach Ballroom this week and are scheduled for Sandy Beach Ballroom this week and are scheduled for Sandy Beach Ballroom this week.

Both the popular McEnelly orchestra tomorrow evening and the Diamonds of Pennsylvania on Saturday evening the 21st when Phil Emertons Diamonds, of Pennsylvania, the orchestra that made such a tremendous hit at Sandy Beach ballroom on their introductory trip to Connecticut last Saturday evening. This sensational dance orchestra proved to be the distinct hit of the season and at numerous requests are being brought back Saturday evening the 21st for a return engagement.

Both the popular McEnelly orchestra tomorrow evening and the Diamonds of Pennsylvania on Saturday the 21st should attract large numbers of dance fans to Sandy Beach.

DAVID CHAMBERS CONTRACTOR AND BUILDER

68 Hollister Street

REPORT ON CANNON IS BEFORE SENATE

Consists Merely of Transcript of Examination; Tinkham to Speak.

Washington, June 17.—(AP)—A final report on the controversy between Bishop James Cannon, Jr., and the Senate lobby committee, was prepared for presentation today in the Senate.

It consisted merely of the transcript of the bishop's examination which showed his refusal to answer questions about his 1928 anti-Smith activities. No recommendations were contained.

Conflicting views of what would follow its introduction were held by members of the committee. Senator Blaine, Republican, Wisconsin, contended Vice-President Curtis was required by law to cite the bishop to the district attorney for possible contempt proceedings.

Chairman Caraway favored, however, the bishop did not legally refuse to answer questions because the committee ruled it had no right to inquire into his political activities. At least two other members of the committee of five agreed with Caraway.

Up in House? The defiance of the lobby committee by Bishop Cannon was made a subject for the attention of the House today by Representative Tinkham, Republican, Massachusetts, who was directly responsible for the appearance of the dry leader before the committee.

Tinkham obtained permission to speak later in the day and he planned to review the Cannon examination. He charged before the lobby committee that the bishop had obtained \$85,300 from E. C. Jameson, New York capitalist, and that only \$17,000 had been reported.

The bishop explained he made no report of the remainder because it was not required by law.

LOCKED IN BANK SAFE, RESCUED JUST IN TIME

Warsaw, June 17.—(AP)—A director and two janitors of the Lodz Bank of Commerce today owed their lives to a spare key to the bank's strong box which released them from imprisonment in the vault before they suffocated. Their escape was by a narrow margin, all three being near death after ten hours in the narrow confines of the vault.

The director said he arrived at the bank Sunday afternoon to procure some documents he had left there and found six well dressed men and one woman, all masked, searching the cash drawers. Several revolvers were drawn and a threat to shoot if he called for help.

The robbers took the keys from his pocket and opened the safe which they rifled of \$30,000. They then shut him and two janitors whom they had already bound into the safe.

After several hours anxious waiting someone remembered a spare key to the vault was kept at another bank. It was secured, the door opened and the men taken from inside unconscious.

# JONES SHOOT'S 77; SURE TO QUALIFY

### Diegel, Smith, Von Elm and Other Favorites Sure of Getting Into 72 Hole Medal Play Competition.

Hoylake, Eng., June 17.—(AP)—Horton Smith, Joplin, Mo., pro scored a 76 for the second round of qualifying play in the British Open golf championship today giving him 151 for the 36 holes.

George Duncan, veteran British pro scored an 82 today which with his 74 of yesterday gave him a 36 hole total of 156, close to what experts expected would be the qualifying limit.

Bobby Jones finished with a score of 77 for the second round, giving him a 36 hole total of 150 and a place well up among the leaders. MacDonald Smith completed his second round at Hoylake in 71 strokes for a total of 148.

Leo Diegel's second round score was 74 for a 36 hole total of 144, three strokes behind Archie Compston, whose total of 141 promised to lead the qualifying play.

Cyril J. H. Tolley, crack British amateur, scores a 75 today for a 36-hole total of 147.

F. C. Stevens, Jr., of Los Angeles, turned in a 73 for a total of 137, close to what experts thought would be the qualifying limit.

James Braid, five times winner of the championship, scored an 83 for a 36-hole total of 173 that apparently put him outside the magic circle of qualifiers.

William Sutton, English artisan, had a 77 for 153.

Horton Smith slipped a stroke over par on the last hole and thus missed the 72 hole mark.

Both his drives and brassie shots found the rough on the 18th.

The American had to fight for his 76 on the homeward trip. He three-putted at the 11th green and he made several mistakes that kept him in difficulties most of the way home.

Archie Compston, one of the chief British hopes, added a fine 71 today to his brilliant 70 of yesterday to achieve a 36-hole total of 141.

Ernest Whitcombe scored a 74 today for a total of 148.

## Following Jones Stroke By Stroke

Today's Card  
Out— 445 345 564—40  
In— 445 444 444—37

A police sergeant with baton in hand led the huge mob which followed Bobby Jones over the Watlasey course. For the Atlantic he had a perfect drive from the first tee, followed this up with an accurate second and was down in an easy four.

Jones almost got a three at the second where a 30 foot putt slipped inches from the cup. At the third his second found a bunker at the left of the green. He made a good recovery but a nine foot putt would not drop and he took a par five.

Jones just missed a two at the short fourth and took three. He had a four at the fifth when another sixth he drove near the green but was too strong with his approach and had a short chip left. He missed a three foot putt and took five.

Crowd Bothers Jones.  
Jones' second shot was on a bank to the left of the seventh green and he failed to get on his first attempt. He sent the next six feet from the cup and holed out for a five.

He was short with an approach putt at the eighth and took two from 20 feet for a six. At this hole spectators walked across the edge of the green and Bobby about to putt, shouted: "Please do not walk across the green."

At the ninth he was in the rough on the left of the green and strong with his chip but he holed a good putt for a four.

Jones went out in 40 with three fives and a six on his card.

Bobby played surprisingly poor golf for Jones. The conditions of play favored good golf and the gallery had expected to see him run off a string of birdies. The spectators were amazed to see him take fives and a six.

Jones scored a par 4 at the 10th but was bunkered at the short 11th and took another 4 there. He took 3 putts at the 12th for a 5.

Jones scored three par fours at the 13th, 14th and 15th. He did not appear to be working hard. His putting and chipping were not so good as he exhibited at Hoylake yesterday and his finish was as loose as the rest of the round.

He was six feet from the pin at the 16th with his drive but took three putts for a four. He drove just off the green at the 17th but could do no better than four. At the home hole he had a 20-foot putt for a three and just missed taking four.

## Last Night's Fights

New York—Ray Miller, Chicago outpointed Sammy White, New York 10.

Chicago—Henry Lenard, Chicago, knocked out Tony Leone, Cleveland 1.

Jersey City—Midget Wolgast, Philadelphia, outpointed Frankie Baumann, Paterson, N. J. 10.

## QUALIFYING SCORES

Hoylake, Eng., June 17.—(AP)—Qualifying round scores in the British open golf championship follow:  
A. Compston, London, 70-71-141  
Leo Diegel, U. S. A., 70-75-145  
Diegel, Agua Saliente, 72-75-147  
London, 71-76-147  
(x) Cyril J. H. Tolley, 72-75-147  
MacDonald Smith, New York, 77-71-148  
Ern. Whitcombe, Eng., 74-74-148  
R. T. Jones, Ala., 75-76-151  
Horton Smith, U. S. A., 76-76-151  
Wm. Sutton, Eng., 76-77-153  
Geo. Duncan, Eng., 74-82-156  
Los Angeles, 79-78-157  
(x) F. C. Stevens, Jr., 79-78-157  
D. Grant, London, 76-84-160  
A. A. Weir, Niakawa, 86-81-167  
N. Newton, Havana, 82-85-167  
Jas. Braid, Eng., 80-83-173  
x—Amateur players.

## SPORT SLANTS

Gene Sarazen travelled 3,000 miles by train to play a hunch last winter and win first prize in the \$25,000 Augua Caliente Open golf tournament. At the last moment he decided this June that travelling a similar distance across the ocean for another shot at the British Open was too much—even for a hunch player. As a result the American challenge for the classic title at Hoylake consists of:

Three amateurs—Bobby Jones, George Von Elm, Don Mac.

Four pros—Archie Compston, Horton Smith, Jim Barnes, Mac Smith.

This squad makes up in class what it lacks in numbers. It is now no better than a 2-1-2 to 1 wager that Jones captures the championship. It is no better than an even money bet that the British crown comes to the United States for the ninth time in ten years.

Jones has won the event twice and Barnes once. Diegel and Mac Smith, on separate occasions, had the title in their grasp, only to see it flutter away in the riotous drive down the stretch. Von Elm has been well up in running at least twice and is the best bet among the amateurs, outside of Jones, the kid himself.

The list of British Open winners since 1921 shows how the spoils have been monopolized by talent from this side of the big water hazard.

1921—Jock Hutchison, U. S. A. (296) beat Roger Wethered in play-off.

1922—Walter Hagen (300) beat George Duncan by a stroke.

1923—Arthur Havers, England (295) beat Hagen by a stroke.

1924—Walter Hagen (301) beat E. R. Whitcombe by a stroke.

1925—Jim Barnes (300) beat A. Compston and E. Ray by stroke.

1926—Bobby Jones (291) beat Al Watrous by two strokes.

1927—Bobby Jones (record 285) beat A. Boomer, F. Robson by 6 shots.

1928—Walter Hagen (292) beat Gene Sarazen by two strokes.

1929—Walter Hagen (282) beat Johnny Farrell by six strokes.

Whether or not the boys above Cayuga's waters have any faith in omens, Cornell University's varsity crew has drawn the No. 2 or "rabbit's foot" lane for the four-mile feature race of the Intercollegiate Regatta at Poughkeepsie on June 26.

Not since 1916, when Pop Courtney was still in command at Ithaca, has Cornell led the varsity fleet on any collegiate seas. The Big Red navy, now coached by Jim Wray, has shown steady improvement and figures to be among the principal factors in this year's varsity race. The "lucky lane," from which many a winning crew has set forth in the sheltering lee of the Hudson highlands, may help.

The "post" positions for the nine crews in the big race indicate the prospect of a pair of great duels. Cornell and California are side-by-side inshore. Located on the extreme outside are Washington and Columbia, the 1929 winner.

They will have their eyes on each other all the way, as all four are picked to be in the fight during the last, long mile from the shadow of the bridge to the finish.

## U. S. OPEN QUALIFIES

Salem, Mass., June 17.—(AP)—Four golfers, all professionals, today were the New England qualifiers for the National Open championship.

For the fifth consecutive time, Charles McAndrew, of the Bonnett Shore Country Club, Narragansett Pier, R. I., was a qualifier. He had score of 148 in the play yesterday at Kernwood, with Cards of 71 and 77.

The others were: Robert Crowley, Keronza, C. C. Haverhill, 75-76-150; Jack Curley, Stoney Brae, Quincy, 73-79-152; and Ted Turner, North Adams, C. C., 76-76. The field numbered 37, including the amateurs.

## STORM KILLS FIVE

Paris, June 17.—(AP)—Five persons were killed and considerable property damage was done by sudden violent storms with a deluge of rain in various parts of France yesterday. In some places harvests were washed away.

## Local Sport Chatter

Not one word has been heard from Pete Vandrillo since he resigned as manager of the Cubs football team. Reports are to the effect that he has an ace up his sleeve and that there will be a few surprises when it comes his turn to play.

The Cubs, meanwhile, are in the process of a thorough reorganization under the new management of Ben Clune, a chap whose wide experience in the managing art needs no introduction to Manchester fans in any field of sport.

If Vandrillo induces several of the players on the champion Cubs to go to Italy out of as is rumored, there will be several changes in the personnel of the local pigskin chasers next fall.

Aldo Pentore, the Cub's star center, who gained All-Manchester recognition two years in succession, dropped into town yesterday afternoon for a chat with his pal, Felix Moszer. He dropped the informal runs and Al accounted for Harvard's only tally.

The Manchester Country Club has raised the green's fee for Saturday and Sundays to \$3 for outsiders not accompanied by members and has limited Manchester non-members to one day a month on the course. Hartford clubs operate similarly.

The Harry Benson-John Hyde match in the first round of the President's Cup competition ought to be one of the best of the tournament. Qualifying for the Chamber of Commerce match play tournament starts tomorrow afternoon.

## SHIRES AND GRIMES TRADED IN BASEBALL

Grimes Goes to Cards for Sherdel and Frankhouse; Art Swapped for Braxton and Tate.

New York, June 17.—(AP)—Two big baseball trades have been swung overnight as frantic club owners and managers seek to strengthen their lineups for the crucial engagements just ahead.

In the National Burleigh Grimes, veteran star pitcher, has been traded by the Boston Braves to the St. Louis Cardinals, has failed to be a winner for the Boston team.

Acquired from the Pirates at the start of the season, he has compiled a record of three games won and five lost. He was knocked out of the box by the Cincinnati Reds yesterday.

"Wee Willie" Sherdel of the Cardinals, who was traded with Fred Frankhouse, both pitchers, to the St. Louis Cardinals, has failed to be a winner for the Boston team.

Acquired from the Pirates at the start of the season, he has compiled a record of three games won and five lost. He was knocked out of the box by the Cincinnati Reds yesterday.

"Wee Willie" Sherdel of the Cardinals, who was traded with Fred Frankhouse, both pitchers, to the St. Louis Cardinals, has failed to be a winner for the Boston team.

## SCHMELING-SHARKEY BOUT AT CHICAGO?

Chicago, June 17.—(AP)—Chicago and the Soldier Field stadium are under consideration as the site for another world heavyweight championship battle this time between Max Schmeling and Jack Sharkey.

General John V. Clinchin, chairman of the Illinois State Athletic Commission, last night said William F. Carey, president of the Madison Square Garden Corporation, had asked if the Illinois commission would sanction such a bout for Chicago.

Gen. Clinchin said a license would be granted if the Garden complied with the commission rules. The bout would be staged under the same charter as the second Dempsey-Tunney fight, which drew a world record gate.

## CHOCOLATE MATCHED

New York, June 17.—(AP)—Kid Chocolate, Havana featherweight, has been matched to fight Jack Kid Berk of England in a 10-round bout at the Polo Grounds, August 1.

## Jones' Victory Means \$5,500 To Manchester

Manchester is taking unusual interest in the outcome of the British Open golf tournament which is in progress at Hoylake, England, because of the money wagered upon the chances of Bobby Jones, pride of the United States.

In addition to the immense sum of money laid by Atlanta people against big odds that Jones will not win the five major tournaments in which he competes this year, a number of persons have pooled \$550 that he will win the British Open.

This wager is laid on the short end of 10 to 1 odds offered against Jones by the South Wales Partnership of Mutual Company of England. So if Jones wins there will be the tidy sum of \$5,500 coming Manchesterward.

## Kaufman vs Loayza Tonight At 'Drome

Strong Undercard Also Arranged; Smith and Tracey In Return Bout; Brown vs. Haystack.

## HARTFORD CARD TONIGHT

Star bout: Pinkey Kaufman, Hartford, vs. Stan Loayza, Chile, 10 rounds.

Double semi-final: Battling Tracey, New York, vs. Joe Smith, Hartford and Bobby Brown, Lowell, vs. Johnny Haystack, each 8 rounds.

Other bouts: Young Granada, Cuba, vs. Frankie Minerva, Boston, eight rounds; Sal Carta, Middletown, vs. Rocky Rayo, Hartford, 6 rounds.

Hartford, June 17—"Pinkey" Kaufman, who has not fought in his home town, Hartford, for a long time, is in the star bout here in a night meeting Stan Loayza of Chile in the ten-round feature of a popular card at the Hurley Velodrome.

This bout brings together a slashing fighter with a real punch against a clever boxer. Loayza has the punch and Kaufman the ring generalship.

There is as much interest in the rematch of Joe Smith of Hartford and Battling Tracey of New York as in the star bout; they staged a gruelling affair on the Kaplan-Medell card two weeks ago and there was clamor for another meeting.

Johnny Haystack, who meets Bobby Brown in the other semi-final bracket, has won eight of his last nine bouts on kayo. The first bout is set for 8:15.

## Yesterday's Stars

Grimm, Cubs—Home run with bases full in ninth gave Cubs 8 to 5 victory over Giants.

Klein, Phillies—Hit in his 25th consecutive game including 19th home run taking league lead.

Phelps, Robins—Shut out Cards for first eight innings as Robins won 5 to 1.

Alexander and Johnson, Detroit—Drove in seven of Detroit's nine runs. Johnson hit two homers and Alexander one.

Berger, Braves—Hit 18th homer of the season.

## BASEBALL TROUBLE

Lynn, Mass., June 17.—(AP)—The Lewiston, Me., and Nashua, N. H. clubs of the New England baseball league today stood dropped for the remainder of the season because of internal troubles.

The action was taken by league officials here last night. The players were allowed to become free agents.

Four clubs, Salem, Lynn, Portland, Me., and Manchester, N. H., will play out their schedules. President Claude Davidson announced.

## How They Stand

### YESTERDAY'S RESULTS

New York at Cleveland.  
Boston at Chicago.  
Washington at St. Louis.  
Only games scheduled.

## Cutthroat Actions Helpful To Robins

### CUBS TO REMODEL UNDER BEN CLUNE

Clancy Dropped as Coach; Club's Policies Will Be Changed; Vandrillo Out.

With the accepted resignation of Peter J. Vandrillo as manager of the Cubs football team, the policies of the organization will be radically changed, it was learned today.

Although the town championship was retained last year the Cub's season was far from a satisfactory one financially. A number of bills were left totaling a debt of around \$200. Under the new management of J. Bennett Clune, the Cubs anticipate their most successful season in history next season.

It was announced today by Manager Clune that the appointment of Stuart Clancy, star Holy Cross athlete as coach for the coming season by former manager Vandrillo, had been cancelled. No announcement is ready yet as to whom will succeed Tom Kelley, resigned coach of the champions for the past two years. Several are in line for the position.

Speaking about the dropping of Clancy, Manager Clune said: "I firmly believe that I made a wise move, for reasons which I can explain later. I am also signing up my new officials for the season and hope to be able to announce them, and the booking of several teams whom I expect to close with in the next few days. I am also making arrangements for a different system of collecting money at the gate this year, which you agree with me needs improvement. There were other minor things brought up at the meeting including several heated arguments between some of the boys."

### Cubs and Giants Wage Series That Is Beneficial To Leaders; A's Lose to Tigers.

The Brooklyn Robins are out in front of the National League pack only 3 1/2 games but the cut-throat actions of the Giants and Cubs make that advantage look mountainous at the stage of the race.

The Robins' bowling over their rivals consistently the Giants and Cubs have come to the aid of the league leader during the past three days in their battle for runner-up honors.

Charlie Grimm, the league champions field captain, proved the big gun in the Cubs second victory yesterday. His homer with the bases full in the ninth gave Chicago an 8 to 5 decision over New York. All of the Giants' runs were made on homers by Terry, Jackson, Allen, Leach and Hogan.

The pirates and Phils staged a typical Pittsburgh-Philadelphia battle, the latter winning a slugfest 18 to 14.

The Cincinnati Reds had little mercy on Burleigh Grimes and Bruce Cunningham, pounding out a 11 to 1 decision over the Braves.

Ray Phelps turned in a neat pitching assignment to enable the Robins to beat the Cards 5 to 3.

By a margin of three points the Athletics hung to their American League leadership as they lost to the Tigers 9 to 8. The Champions got away to an early lead but Elton Fogsett pitched fine relief ball while Dale Alexander and Roy Johnson drove in seven runs. Johnson hit two homers while Alex got one with two on base in the fifth.

Ted Lyons again failed to win his tenth game of the season when the Red Sox made it two straight over the White Sox, winning 6 to 3. The Senators unleashed a heavy offensive in the last three innings to take the measure of the St. Louis Browns 9 to 7.

# CAMEL—made to smoke

ALL THE PLEASURE that tobacco can give is found in Camels! Mild! Fragrant! Soothing! Refreshing as the dawn of a holiday!

Camels are made for this one reason: To give you the utmost smoking pleasure. And this can be assured only by the use of the choicest cigarette tobaccos blended to an inimitable smoothness, and prepared by the most modern and scientific methods of manufacture.

When you light a Camel you have the happy knowledge that money can't buy a better cigarette.

Don't deny yourself the luxury of Camels

ON THE RADIO  
Camel Pleasure Hour—Wednesday evenings on N. B. C. network, WJZ and associated stations. Consult your local radio time table.

Dog Hero of World War Gets a Military Funeral

Dennison, O., June 17.—(AP).—Preparations were made today for the military funeral of "Bing," World War hero and the only dog said to have been decorated for services with the American Expeditionary Forces in France. He inhaled in the trenches as a puppy nearly 12 years ago, together with his advanced age, made it necessary to chloroform him.

MARKET SLUMP IS CHECKED BY HEAVY BUYING

The dog claimed the added distinction of having been the only canine to receive a bonus from the United States government. He was assigned \$80 a month as a soldier's pension. It was when "Bing's" nose scented gas in time to save the lives of many soldiers that he was cited and decorated. He was born in a tent at Camp Sheridan, Chillicothe, Ohio, and smuggled aboard a transport with the 37th Division.

A Mere Maid Becomes a Mermaid

Lillian Munson of Emerson College, may or may not be a musician, but she certainly knows her scales. Here she is as she stepped right out of the pages of mythology to take the title role in the opera "The Little Mermaid," produced by students on the Lars Anderson estate near Brookline, Mass.

VAUSE COLLAPSES IN THE COURTROOM

Brooklyn, N. Y. Judge Is Overcome When Motion To Adjourn is Denied.

New York, June 17.—(AP).—With glassy eyes and rumpled hair former Judge W. Bernard Vause tottered into court today, held from answer by his brother and eight others to having used the mails to defraud while he was a member of the county bench. Reaching the counsel table he slumped into a chair and clasped his hands over his eyes, tears dropping between his fingers. Until the last moment his counsel had hoped to win an adjournment and so had not told him that he might have to go on trial at once.

NEGRO GETS 15 YEARS

Bridgeport, June 17.—(AP).—Harold McEachen, 20 year old negro, was sentenced to 15 to 25 years in state prison by Judge F. M. Peaseley in Superior Court here today after he had entered a plea of guilty to a charge of robbery with violence. On the night of June 11 McEachen broke into the home of Miss Margaret A. Keenan, 69 year old school janitress. He was providing about the house when Miss Keenan was aroused from her slumbers. She accosted the negro, who knocked her to the floor and pummeled and choked her, until she told him where a small amount of money was hidden. She now is confined to her bed suffering from the attack and was reported today as seriously ill.

way radio set, believed to have in proportion to its weight the longest range of any set yet developed, and the gyroscopic "artificial horizon" instrument designed to help a pilot maintain his lateral position when flying "blind." How It Works: The instrument consists of a cylinder mounted on the plane's instrument board. A small gyroscope within the cylinder, revolving at from 17,000 to 20,000 revolutions a minute, remains upright and parallel to the real horizon throughout all the pitches and rolls of the airplane. A model of an airplane is attached to the face of the instrument in front of the artificial horizon. It is drawn by the gyroscope. The model rolls and pitches at the same angles as does the airplane itself. By observing the position of the model with relation to the gyroscopic horizon the pilot knows the relation of his plane to the actual horizon.

# ONE HUNDRED CENTS FOR YOUR DOLLAR!

.....Every Penny You Spend In Advertising in the Manchester Evening Herald Brings a 100 Per Cent Return on the Money

.....To Reach the Buying Public of Manchester Effectively the Advertiser Must Use Space in the Manchester Evening Herald

## GUARANTEED CIRCULATION

The Herald is a member of the Audit Bureau of Circulations, a National organization, composed of leading newspapers, magazines and national advertising agencies. An audit of each member publisher's circulation books is made twice yearly by an accountant employed by the Bureau. This audit is a guarantee to advertisers that The Herald's circulation figures are honest and correct. The last audit of The Herald's books, completed March 1, 1930, shows that this newspaper has a guaranteed net paid circulation of over 5,000!

## GREAT "PULLING POWER"

Every day The Herald is giving evidence of its ability to "sell Manchester"—and its power to reach the potential shoppers in Manchester. Advertisers who use space in The Herald persistently are quick and ready to testify to this newspaper's "pulling power." By employing Herald advertising alone the J. W. Hale Company attracted nearly 3,000 customers to one department in a single shopping day. Using only the columns of The Herald to advertise it, this newspaper attracted 2,675 women to its cooking school in four days!

## A BIG JOB AT LOW COST

No advertising medium other than The Herald can give so near to 100 per cent. coverage in Manchester and its environs at the extremely low rate The Herald offers. With not over 5,000 homes in this town The Herald sells locally 5,000 copies daily—conclusive proof that this newspaper goes into every home in Manchester. The Herald's advertising rates are the lowest of any daily newspaper in the state, and few papers offer the same percentage of concentrated coverage to their advertisers. Phone 5121. An ad-man will call!

## EVERY READER A BOOSTER

The Herald serves Manchester so faithfully that it has won high praise throughout this state and Southern New England from its contemporaries. Its local news is bright and fresh, and capably handled. Its news features, comics, special correspondence and serial fiction rate among the best obtainable. Its state, national and world news, by Associated Press complete wire service, is the latest obtainable and is concisely and cleanly reported. The Herald is Manchester owned, its policies home controlled!

# DANCING JUDITH

BY CORALIE STANTON and HEATH HOSKEN  
COPYRIGHT 1930 BY CHELSEA HOUSE

**BEGIN HERE TODAY**  
**JUDITH GRANT**, beautiful Greenwich Village artist's model, shares her attic apartment with **CLARISSA MOBLEY**, known as Chummy, a beautiful girl who lost her memory seven years ago when **ALAN STEYNE**, her lover, abruptly disappeared, and who has been mentally affected ever since. Steyne reappears, and Judith and **BASTIEN DUMONT**, an artist who loves Judith, arrange for a meeting between him and Chummy; but Chummy falls utterly to recognize him. Steyne calls often to see the two girls, and explains to Judith that he and Chummy had never planned to be married but had merely been victims of a youthful infatuation which he had always supposed that Chummy had outgrown as easily as he did. He takes Judith to a theater party, and on their return kisses her and tells her he is in love with her; but just at that moment Judith learns that Chummy has contracted pneumonia and may not recover. She tells Steyne she hates him, and dashes off to take care of the girl.

**NOW GO ON WITH THE STORY**  
**CHAPTER VI**  
 Chummy came very near to death. She was so ill that one night Doctor O'Shane spent five hours in her room. She was delirious that night, and her high-pitched chatter seemed to fill the building. There was no deep, bell-like sound in that thin, restless voice.

Judy spent most of the time on the landing, and often Clara Jenks joined her. Clara could not help looking on the sunny side of things, and she made a judicious laugh in the midst of her misery—which was a very good thing.

Judy did not go much into her friend's room. At first Doctor O'Shane would not let her do so, and afterwards she felt a reluctance that had its roots in the memory of Alan Steyne's embrace at the foot of the stairs. She did not know how she was ever going to face Chummy again. She had thought her sick about that night, pinning Chummy, life-headed and burning with fever, instinctively making her way to the Cafe Turc, seeking the place where was enshrined all she had ever known of happiness and love.

Before the end of the week the crisis was over, the care, nourishment, and rest were all that Chummy required.

"She had a much stronger constitution than I should have thought," said Doctor O'Shane. "When she picks up, she'll be all right again; but, Miss Judy, it's yourself I'll have to be prescribing for next. You're looking altogether too much like a snowdrop, though, sure, there's no fault to be found with the little flower itself."

Judy was a very bad housekeeper and Clara Jenks had taken it on herself to buy food and other necessities for her. Judy handed over her purse with a sigh of relief; but she was forced to realize, in a day or two, that the luxuries and delicacies that Clara provided could not possibly have come out of that slender store.

She taxed Clara with it on the day after Chummy finally turned the corner and began to struggle back to life.

"Clara, you're spending your own money on us! But no, you haven't got any, I'm sure. Clara, where are you getting money from?" A suspicion made Judy flush and frown.

"Is it Mr. Steyne?" she cried excitedly. "You're not taking money from him, Clara, are you?"

Clara confessed that she was.

"I thought it was all right," she said, with her quaint, blunt face screwed up into an expression of contrite surprise. "He said he was an old friend."

"Where have you seen him?" asked Judy's accusing voice.

"Why, he came to inquire—twice. I don't know where you were—oh, yesterday you were out for a walk with Bastien. He was awfully anxious about Chummy, and I didn't like to refuse."

"You mustn't take any more. Promise! I'll get some money. Of course, Chummy must have everything."

"Oh, how splendid that she's getting better!" cried Clara.

She proceeded to execute a weird, shuffling dance that would have brought down the house if she had performed it on a stage. Judy laughed till the tears rolled down her cheeks.

All that morning her thoughts were busy with Alan Steyne as she posed for Max Dickbread's Spanish dancer in her vivid yellow-and-black dress, with immense scarlet poppies under the lace mantilla that covered her flaming hair. She had not seen Alan since that night, of course, when Chummy was well again, she would have to come to see Chummy. He had said he was fond of her. He must be. Everybody was. Those brief moments at the foot of the staircase had been madness. No doubt he regretted them bitterly.

Judy was an incredible optimist, but she had at the same time no very high opinion of men. She had seen too much of them.

The dinner, the lights, the wine, the music—and those laughing eyes! Was Alan Steyne really in love with her? She did not believe it for a minute. Was she in love with him? She pulled a little shutter down over her thoughts, and would not answer that question at all.

In the early afternoon she went to Vincent Stornaway's house. The artist had written to her, asking if she would sit for the head and shoulders of Queen Elizabeth as a young girl. He had for the moment abandoned portrait painting, and was engaged on a large historical panel for a new apartment building.

Judy could not afford to turn

"Oh, Judy," said Chummy's low, lazy voice, "what do you think? I dreamed that Alan had come back."

down any offer of work, particularly at this moment; and she could not help feeling a little flattered. Stornaway had never asked her to sit for him before. In his letter he referred to her hair and her eyebrows as suggesting to him the coloring and lineaments of the young princess. The interview that resulted was satisfactory, and it was arranged that she should go to him when Max Dickbread could spare her.

Stornaway proved restful after her tyrannical genius. He talked to her kindly, and gave her tea. As she left his house—a large, low, many-windowed building of red brick, which suggested the country drops that spread a field of gleaming whiteness over the lawns on either side of the path. The grounds were enclosed by a high wall that had a gate set in it, and as she opened the gate a man met her.

She recognized him with an inward grin. She did not know why, but even the thought of him made her laugh. It was Bruce Gideon, white and heavy-pawed, with pale eyes, black hair, and peevish mouth. Chummy's description of him as Punch came back to her. He wore correct afternoon dress, which made him look old-fashioned. A shining top hat was on his big head.

At sight of Judy his lips opened in a smile which chased the peevish look from his face, but brought out its coarseness.

"Do you remember me, Miss Judy?" he asked, holding out his hand.

Judy, glad of her new work, and still rejoicing in Chummy's escape from death, answered gladly: "Of course I remember you, Mr. Punch!"

"And here comes dog Toby!" Gideon went on, as Stornaway's terrier came trotting down the paved path. "Now we can give our show!" His little eyes rested on her glowing face with a covetous gaze that made her draw back into her shell.

"And how is your friend who

## YOUR CHILDREN

By OLIVE SERVIC, INC.  
© 1930 by NEA Service, Inc.

The advantage of a pet in the household far outweighs the disadvantages as far as the children are concerned.

Materialists and calamity-howlers like to look over their glasses at the dog, or cat, dust their gloves and sniff. "Take it away, it can't be clean and it must have fleas or bugs of some sort. Fur harbors germs, don't you know, and scratches and bites are sure to be dangerous. All animals carry disease, and children should not have them about."

And all that may be true, if we are going to be purely materialistic, but really, now, are animals so dirty and germ? Thousands of people are dirty and germ too—so are their clothes. We rub up against them in street cars, and in the shows, handle things they have touched, sometimes sleep under blankets that have covered them, breathe the dust that bears pollution wherever mankind is congregated.

**Practically No Danger**  
 As for scratches and bites, if all the casualties from pets were meant to those from other causes, I believe the dog or the cat would come out with poor honors.

There is some danger, yes; there is danger in everything. There is danger of a piece of candy sticking in a child's windpipe, or danger of him stepping on a rusty nail, or danger that a fire-cracker will go off in his hand. But these are poor comparisons.

If we take a sane and sensible view of the family pet, I think we'll find him a safer companion than many other things that offer no more excuse of possession than a temporary thrill.

That for his demerits. Now for his good marks:

There must be some deeply rooted psychological reason for the affinity of dog and man. For thousands of years back as far as history goes, the dog has been man's pet. He wasn't of any use. He couldn't be eaten. He wasn't a beast of burden. Unlike the goat he was no good for dairying. One must believe that his disposition was responsible, faithfulness and love look out of his eyes. For some reason or other he seems to typify most of what we think best in man. We can add sacrifice, forgiveness, endurance and patience to the list of his virtues.

**Cats More Selfish**  
 Cats are different, of course, that is, they are less affectionate, less demonstrative—and more selfish. But the cat is interesting, and a nice cat is a nice cat—that's all there is to it.

I need not eulogize birds. They are among the most interesting pets I know. Any kind of bird.

The point is that any pet, whether dog, cat, pony, rabbit, chicken, canary, or goldfish, teaches a child a sense of responsibility and protection.

I should make it part of his daily duty to look out for any pet he may own. And not maybe—just plain must. A child can learn to clean a canary-cage, and, give it

seed and water and sand. He can learn to wash his dog, see that it is exercised, bedded down at night, warm, fed regularly, comfortable. House cats should be washed, but it takes older people to handle them sometimes. We used to lather our cats and bathe them and they got to like it. The children could do it after that. Many a dog they've washed too and one day I intercepted the immersion of a pet groundhog in the laundry tub. I never could bring up children without pets of some sort.

## HOW TO SHOP

**INSPECT SEAMS IN BUYING HOSE**  
 By William H. Baldwin

Golf hose are either full-fashioned or seamless and come with cuffs. Hosiery intended for use by hunters and hikers and the rougher usage of forest and field, is made of the coarser grades of wool yarns, strong, heavy and tough. But this coarseness must not be taken as an indication of poor quality. A yarn may not be heavy without being of inferior grade.

Look carefully to the seams of all sports hosiery. See that they are not too large where the foot joins the leg and running up the back of the ankle and calf. The knitting should, of course, be uniform without knots, loose ends, or other faults. Be sure to buy wool hose a half-size or even a size larger than ordinarily worn, to allow for shrinking.

Measuring 320 feet in height, the largest gasometer in Europe has just been completed at Stuttgart.

## HEALTH

**IF YOU WANT A REAL SPRING TONIC GET LOTS OF SUNSHINE**  
 BY DR. MORRIS FISHBEEIN  
 Editor, Journal of the American Medical Association, and of Hygeia, the Health Magazine

In the spring the tired man's fancy turns to thoughts of spring tonic. Down through the ages has come the conception that spring represents the rebirth of every living thing. With this was associated the idea that it is necessary in the spring to clean out the system and to stimulate the cells to new activity. In the old days when it was believed that health was always to be found in a bottle or pill, it was customary to dose the system liberally with tonics and drugs; cathartics and laxatives were used freely and many a child suffered the tortures that result from liberal doses of sulphur and molasses.

Today the great spring tonic is sunshine and fresh air. With the first signs of warm breezes and early sunlight, one begins to waken earlier in the morning. There is no tendency to lie late in bed. The best spring tonic is an early rising, a brisk walk in the open air, a breakfast with fresh fruit, and plenty of outdoor exercise before darkness in the evening. The human body has a marvelous system of self-regulation. It requires no cleaning after the winter season.

The formation of regular habits in relationship to the evacuation of waste products is just as important in the winter as in the spring. A diet containing plenty of fresh fruits

Clara Bow—

 Janet Gaynor—  
 You—

Every Woman must face her own particular **Close-up Test**

SMOOTH SKIN instantly attracts, say 45 Hollywood directors

A GIRL'S lovely skin is an instant attraction. A whole audience is swept by enthusiasm when the close-up brings the radiant loveliness of a star near to them. And every woman must meet the scrutiny of close appraising eyes. Does your skin quicken the heart with its loveliness like Clara Bow's, Betty Bronson's, Janet Gaynor's? It can.

Gaynor, the beloved Fox star, are among the 511 of the 521 important actresses in Hollywood who jealously guard their smooth skin with this fragrant white soap. Their enthusiasm has made it official in all studio dressing rooms.

Broadway enthusiastically adopted this famous Hollywood beauty care and the lovely stage stars are so devoted to Lux Toilet Soap that it is in 74 of the 74 legitimate theaters in New York.

And Europe! In France, in England, in Germany the beautiful screen stars insist on this soap for their beauty.

MARY BRIAN, beloved Paramount star, says: "It's a wonderful soap!"

DOROTHY SEBASTIAN, exquisite M. G. M. star, says: "I owe the beauty of my skin to Lux Toilet Soap."

98% of the lovely complexions you see on the screen and radiant skin of lovely girls everywhere are kept exquisite with... **LUX Toilet Soap—10¢**

## Sheer Cotton Frocks Much in Evidence

Choice of Smart Set

By ANNETTE  
 The smart wrapped arrangement of the yoke reflected in the cape collar, distinguishes this attractive frock of printed batiste. It is a slenderizing feature that is novel as well.

The circular shaped skirt extends into flaring fullness toward the hem. It's so simple to make! It's an opportunity to add one more cotton frock to brighten your mid-summer wardrobe. It's a splendid dress for week-end vacations.

Style No. 774 can be had in sizes 14, 16, 18, 20 years, 36, 38, 40 and 42 inches bust.

White shantung, aqua blue flat washable crepe silk, Nile green plique with white coin dots, yellow print in handkerchief linen and printed cotton voile in new smart yellow and brown coloring are fascinating combinations.

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our large Fashion Magazine.

SEEK COMPROMISE IN INDIAN REVOLT

Negotiations Opened With Gandhi; Mahatma Gives His 14 Points of Reform.

London, June 17.—(AP)—A Bombay dispatch to the Exchange Telegraph Company today said that Sir Prabhakar Patteni, acting on behalf of the government, had arrived at Poona and had opened negotiations with Mahatma Gandhi, imprisoned Nationalist leader, for the civil disobedience campaign.

Exact nature of the conversations was not disclosed although it was understood Sir Prabhakar was trying to reach a compromise with the Mahatma, who is confined at Yeroda prison at Poona, on four points previously advanced by him.

It was believed that any settlement would pre-suppose abandonment of the civil disobedience movement by which Indian Nationalists have hoped to gain independence from British rule, and the government's granting of amnesty to all political prisoners.

In January of this year, Gandhi published in his newspaper "Young India" a list of fourteen points which he declared were necessary. These reforms were as follows: Total prohibition of liquor. Reduction of the value of the rupee to 32 cents.

Abolition of the tax on salt production. Reduction of military expenditure by at least half.

Reduction in salaries of the higher grade civil service to one half or even less, to suit reduced revenue.

Abolition of the criminal investigation department or its control by popular methods.

Issue of licenses to use firearms for self-defense, subject to popular control.

Wall Street Briefs

New York, June 17.—(AP)—The American Bureau of Metal Statistics reports that the world output of copper totaled 147,352 short tons in May, compared with 144,298 short tons in April and 192,589 short tons in May last year.

Sale of assets of the Sheffield Steel Company by the American rolling mill in accordance with a previously announced plan of consolidation has been approved by stockholders of Sheffield Steel.

April net operating income of 173 Class 1 railroads totaled \$62,271,551, compared with \$94,158,377 in the same month last year.

General Motors dealers in the United States delivered to consumers 131,817 cars during the month of May, compared with 142,004 in April and 169,034 in May last year.

The total sugar melt of 15 United States refiners during the period from Jan. 1 to June 7 was 2,055,000 long tons, against 2,255,000 long tons in the like period last year.

Pennsylvania crude oil has been reduced 10 cents a barrel in National transit, southwest Pennsylvania and Eureka lines, and 5 cents a barrel in Buckeye lines.

New York, June 17.—(AP)—Murray Malina, messenger for the Normandie National Securities Corporation, was shot and seriously wounded this morning when he was apparently mistaken for a bandit as he entered a bank building on Fifth avenue.

He was shot by Traffic Police Officer Millane when he and three other bank employees got into an argument with a porter of the building over which entrance they should use.

Malina and his fellow messengers were carrying securities worth between three and four million dollars at the time of the shooting.

DR. FU MANCHU COMES TO STATE TWO DAYS

Former Sax Rohmer Character Returns to Screen in New Sensational Story.

Dr. Fu Manchu, the fearful villain of Sax Rohmer's famous stories, comes back to the State on Wednesday and Thursday of this week in "The Return of Dr. Fu Manchu." That a good screen characterization cannot be obliterated, and that reincarnation is not only possible but very desirable are the impressions one gets at hearing that the notorious Dr. Fu Manchu is back in pictures, inasmuch as he apparently ceased his earthly existence in his last screen appearance, "The Mysterious Dr. Fu Manchu."

In the picture, the insidious Oriental villain died a sensational death through the agency of poison which he took himself to prevent being captured alive by Nayland Smith, crack sleuth from Scotland Yard.

Warner Oland, as in the previous picture, plays the role of Dr. Fu Manchu, and as a delineator of Oriental roles, he has no equal on the stage or screen.

Additional shorts include an all talking comedy hit, "Hunting the Hunter," a Silly Symphony cartoon entitled "Springtime," Robert Christolm in a singing act, and another interesting Screen Snapshots.

ICELAND'S ANNIVERSARY

Copenhagen, June 17.—(AP)—King Christian and Queen Alexandra today left Copenhagen aboard the Danish cruiser Neils Juul to attend the 100th anniversary celebrations of the Icelandic Parliament.

Crown Prince Frederick sailed with the royal party but disembarked after a short run to a point off Eilsoer. He will remain at home as regent when the King is away.

It had been proposed originally that the prince should accompany his father but complications prevented. It was argued that the king's visit to Iceland would not constitute a trip abroad as Christian is King of both Iceland and Denmark.

But the Icelanders objected to the idea, insisting that a regent be appointed because Iceland is in nowise a part of Denmark but an independent kingdom.

SUMMER HOMES FOR RENT

FOR RENT—7 ROOM cottage at 144 New Britain Road, White Sands, Black Hall, Conn. Call Park Hill Flower Shop, Telephone 5463.

6 ROOM COTTAGE, west side, Columbia Lake, 2 boats, 2 car garage, private property. Telephone 5661 evenings.

FOR SALE—6 ROOM house; also 5 room bungalow. All improvements. Call at 165 Benton street. Dial 8713.

OPENING STOCKS New York, June 17.—(AP)—Stocks were dumped upon the market in blocks of 5,000 to 18,000 shares at the opening today, depressing a low list of issues to 3 points to new low levels for the movement.

U. S. Steel, however, opened at 158 1/4, up 1/4. Grigsby Grunow dropped 3 points. Fox, Johns Manville, and International Nickel, 1 1/2 or more, and Standard of N. J., 1 1/2, with a transaction of 18,000 shares.

The support for U. S. Steel soon spread to other pivotal shares, and short covering was notable at the end of the first half hour. The initial selling movement, however, depressed a wide assortment of important stocks to new lows for the year or longer and some of the more erratic issues sold off from 4 to 5 points.

A helpful factor was an improved tone in the grain and cotton markets in sympathy with a firmer opening of the Liverpool markets.

BOARDERS WANTED 59-A

WANTED—TWO MEN boarders, on Center street, near mills and trolley. Telephone 8839.

APARTMENTS—FLATS—TENEMENTS 63 FOR RENT—JULY 1st, 6 room tenement, with all improvements, at 22 Summer street. Inquire at 70 Summer street, after 5 p. m.

NEARLY HITS AMOS

Darien, June 17.—(AP)—Sergeant Amos Anderson, nationally known "Lone Wolf" of the Darien police department, had a narrow escape from injury early this morning when a huge truck loaded with cement crashed into the motorcycle from which he had just alighted.

Anderson was questioning the driver of a New York machine, that he had stopped for speeding when the accident occurred. He was forced to jump on the hood of the pleasure car to escape. While Anderson was questioning the truck driver the operator of the New York car started his motor and sped away.

ANDOVER

Mrs. F. H. Hamilton and daughter, Miss Mildred Hamilton attended a strawberry supper in Wethersfield Wednesday evening.

Mr. and Mrs. Eugene Platt and son visited in Colchester Thursday.

Mrs. Martino, daughter of Tony Vignone, left Friday night on her trip to Italy to visit friends.

Andover celebrated Father's Day early this year, so as to observe Sunday June 15th as Children's Day. It was thought to be too much for the children to undertake learning an elaborate program for Children's Day until after the local grammar school exercises were over.

The candidates who will join the local Grange Monday evening are as follows: Mr. and Mrs. Wallace Woodin, Frank Vignone and Mrs. W. J. Cashmere.

Another Community Night program and social will be given in the Town Hall Tuesday evening. Rev. Herbert Woodin, of Old Saybrook will be the guest speaker.

Mrs. Catherine Wilson, 49, wife of John H. Wilson, former Congressman and city solicitor of Butler, leaped or fell to her death from an eighth story window of Mercy hospital today.

FALLS TO HER DEATH

Pittsburgh, June 17.—(AP)—Mrs. Catherine Wilson, 49, wife of John H. Wilson, former Congressman and city solicitor of Butler, leaped or fell to her death from an eighth story window of Mercy hospital today.

Mrs. Wilson had been in the hospital for three weeks suffering from a nervous breakdown.

A Texas student worked his way through college by constructing crossword puzzles which have appeared in newspapers in all parts of the country. Perhaps you've already put in a good word for the fellow.

NOON STOCKS

New York, June 17.—(AP)—The Stock Market reached a temporarily oversold position after another deluge of selling in the first few minutes of trading today, and pivotal shares rallied substantially during the morning, only to run into renewed selling toward midday.

The sharp break yesterday brought out an enormous volume of selling in the early transactions, sales during the first half hour aggregating more than 1,000,000 shares. Support for U. S. Steel was in evidence from the first, however, and the stock sold up more than 3, then lost much of its gain.

Foreign exchanges opened barely steady with Sterling Cables at \$4.85 25-32, off 1-32.

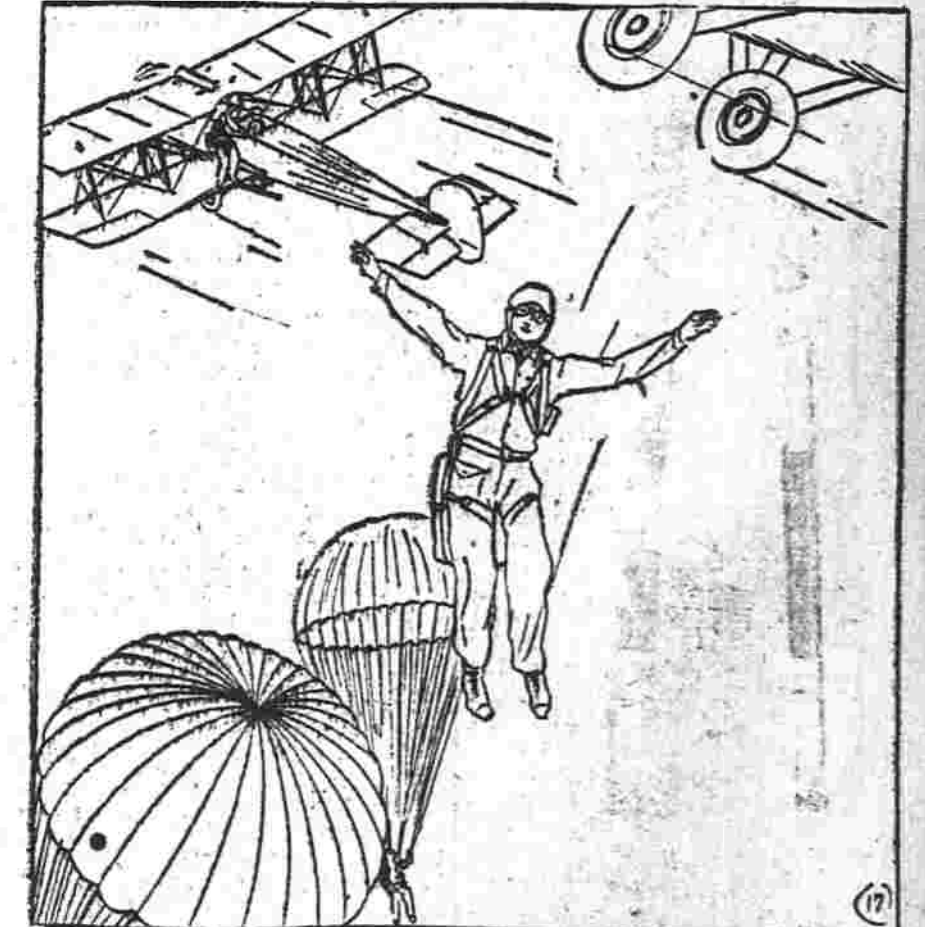

HOMES FOR SALE

Henry Street. 6 rooms, good sized lot, garage, \$6,500 terms. Bigelow Street. Nice single all-up-to-date on half acre lot, easy terms, low price.

Tanner Street, Elizabeth Park, Brand new, a beauty at \$7,500, terms.

ROBERT J. SMITH 1009 Main St. Selling Fire and Automobile Insurance.

ERRORGRAMS

There are at least four mistakes in the above picture. They pertain to grammar, history, etiquette, drawing or whatnot. See if you can find them. Then look at the scrambled word below—and unscramble it, by switching the letters around. Grada yourself 20 for each of the mistakes you find, and 20 for the word if you unscramble it.

CONCEIVN Just make believe.

CORRECTIONS. (1) One of the forward struts is missing from the plane at the left. (2) The jumper should be grasping the "chute ring, ready to pull it. (3) One wheel is on the inside and the other on the outside of the undercarriage of the plane at the right. (4) There should be an air hole at the top of the lower parachute. (5) The scrambled word is CONCEIVN.

SENSE and NONSENSE

A Prayer
Give me a good digestion, Lord,
and also something to digest;
Give me a healthy body, Lord,
and sense to keep it at its best.

The Seven Mistakes of Life
1. The delusion that individual
advancement is made by crushing
others.

The Eternal Feminine
She slipped her little hand in his,
And said, "I love you, Ben."

World's Shortest Short Story
Dame: Smile. Wink. Hanky.
Hello! Date. Engagement. Wed-
ding. Twins. Finis.

Johnny Shiek Speaking: Gladys
may weigh only 98 pounds, fellows,
but she's still a heavy date.

One of the greatest editors in
America once told us it was cranks
who made this world go round.

You Can Find Some Home Cook-
ing Almost Everywhere Except in
Homes.

Magazine Salesman—Could I help
you make a selection, sir?
Male Customer—Yeah, I'm unde-

ONCE UPON A TIME

Mary Lewis, grand opera
soprano, made her first public
appearance at a "gospel meet-
ing" in a tent in the
tournament section of
Dallas, Tex. She later sang
in a cabaret
and appeared
in Ziegfeld's
Follies.

FLAPPER FANNY SAYS

Some people have an excuse for
everything except living.

Undertaker—Come, come, where
is the sixth pallbearer?
The Minister—Pardon, sir, he's
proposing to the widow.

Jessie—You say that Harold is a
great nature lover?
Mildred—Yes, the wilder the spot,
the better he likes to park.

Usually the man who will tell a
lie doesn't object to the formality
of swearing to it.

Mike—You was named after me?
Pat—I was not.
Mike—You was too, because I am
older than you.

Higgins—I say, old man, why do
you wear such long whiskers?
Wiggins—Why?—you see, my
wife buys all my neckties.

Parents are people who lie to
their kids and lick the kids for
lying.

The girls whose faces are their
fortune frequently invest the same
in some pretty insolvent husband.

Telegraph companies have regu-
lar form messages to express con-
gratulations on almost all occasions
except the birth of twins.

Miss Fright—They say I can have
my name changed by the legislature.
Miss Kidder—I prefer to have
mine changed by a minister.

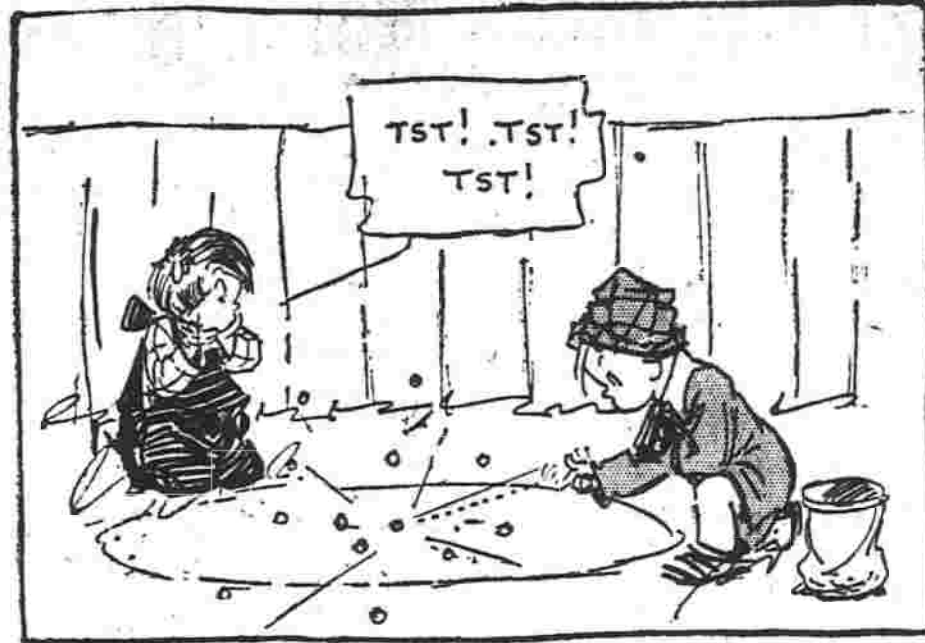

WORK SULPHUR ISLAND

Melbourne. — Sulphur Island,
named by many as "the horriddest
place on earth," because of its
spouting of acid fumes and gases, is
to be braved by scientists who will
attempt to survey the interior of a
boiling crater on the island. This
island is located near New Zealand
and, although only about three
miles in circumference, contains one
of the most valuable deposits of
sulphur and gypsum in the world.

POOR HUBBIES

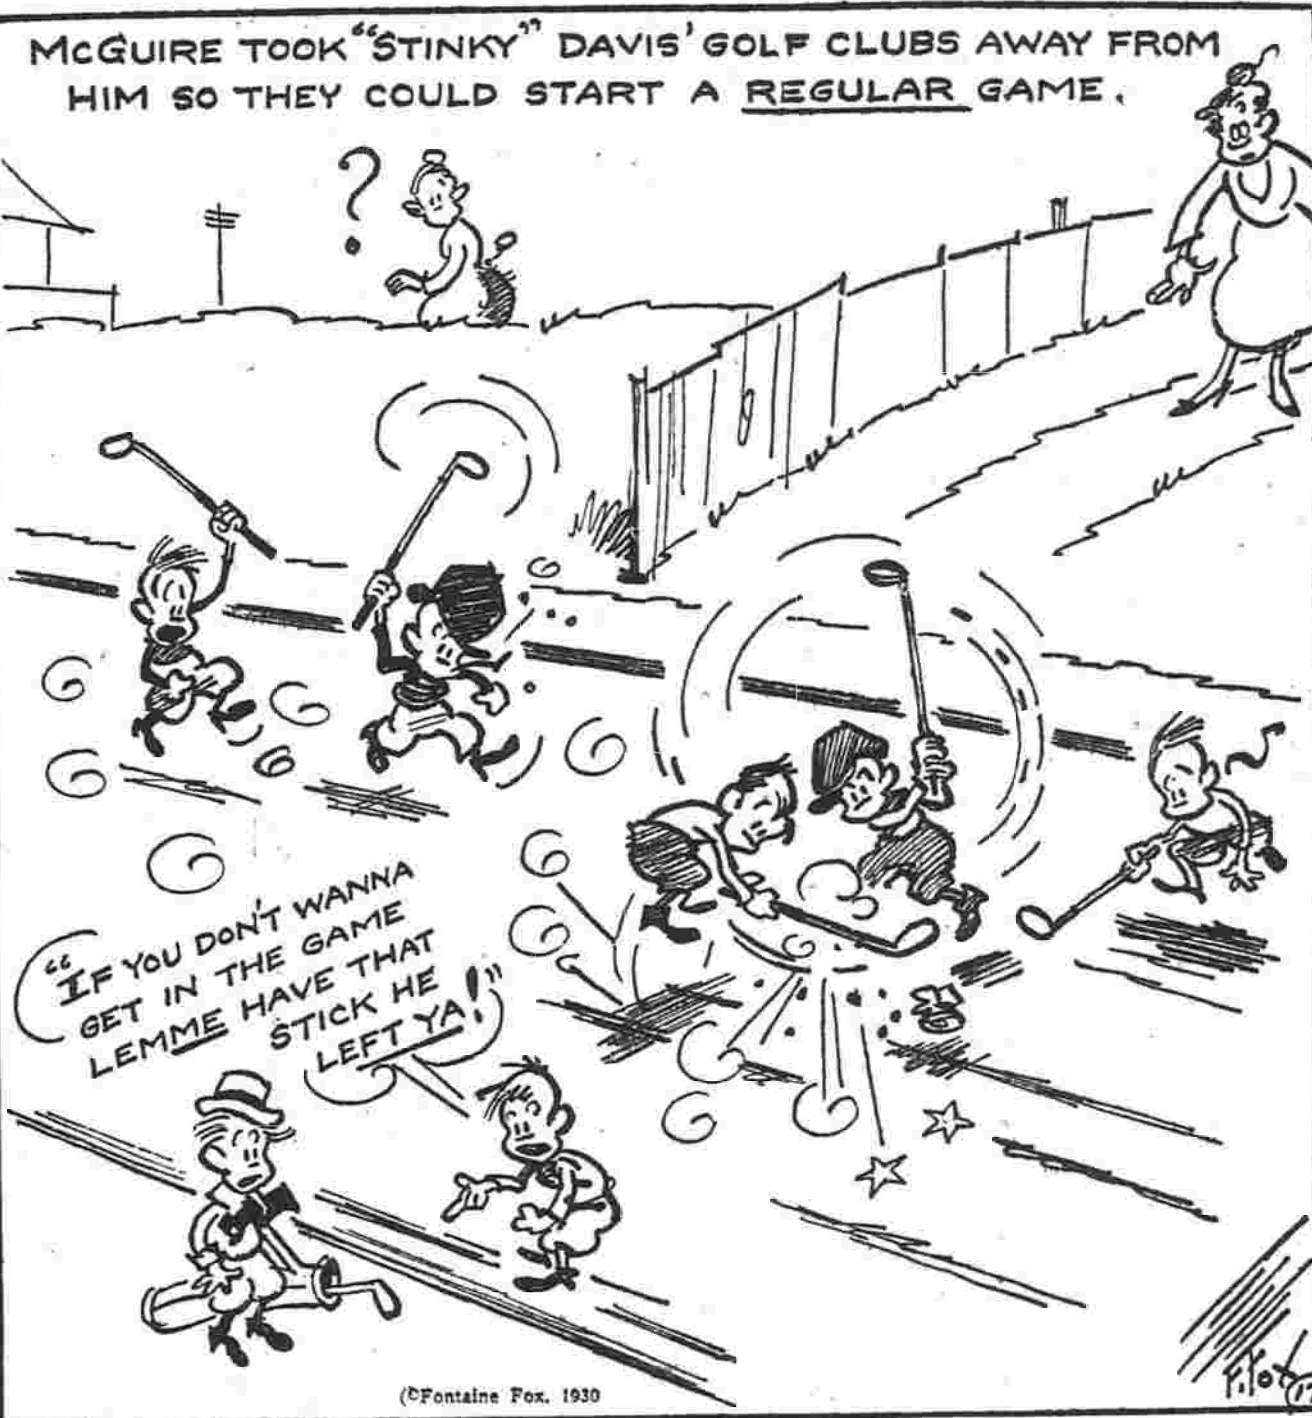

Chicago. —Husbands of the future
haven't much to look forward to,
Miss Ada Hess, president of the
Illinois Home Economics associa-
tion, says that home making then
will be a partnership affair and that
it will be a husband's duty to help
with the dishes and other household
duties. The association is advocat-
ing home economics studies for
boys in public schools to fit them
for housework.

THE TINYMITES

(READ THE STORY, THEN COLOR THE PICTURE.)

One of the Russian boys soon
came right up and said, "Join in
our game, help us push our wagon.
It is really lots of fun. You see, I
talk your language in vain. My folks
made me take English ere my high
school course was done."

Don't say you're old, but just re-
main a kid. Hop right or now and
take a seat. The ride you'll have
will be a treat. The Travel Man
cried, "Sure!" And that's exactly
what he did.

**ABOUT TOWN**

The annual wind-up banquet of the G. C. Club will be held tonight at 6 o'clock at the Hazel Young Cafeteria, 16 Asylum street, Hartford, and will be followed by a theater party.

The Fidelity Bible Class and the Young Men's Fellowship Class of the Swedish Lutheran church will hold a joint outing at Metcalf's cottage, at Coventry Lake, Friday night. Cars will leave the church at 6:30 o'clock. All members planning to attend should notify either one of the two committees in charge.

Five local pupils of Mrs. Nellie Carey Reynolds of Hartford will be heard in recital at the Swedish Lutheran church tomorrow evening at 8:30 o'clock. The five are G. Albert Pearson, Wilfred A. Kent, Alfred Lange, Sherwood A. Anderson, and Elsie H. Berggren. L. Burdette Hawley will present a group of organ solos and Eleanor Heubner, a group of piano solos. Miss Eva M. Johnson and Mr. Hawley will be the accompanists. The public is invited.

Mr. and Mrs. Robert S. Dennison and their sons, Wells and Robert of Montclair, N. J., have arrived at the Long Cabin, Highland Park, where they will be until about August 1.

One of the windows in the office of the Personal Finance Company, located on the second floor of the State theater building, broke while it was being opened yesterday afternoon and fell out. It struck the awning on the stores below, cutting a gash in the awning and then falling to the street. There was nobody on the street at that point when the glass crashed to the sidewalk. The only damage that resulted was the cut in the awning.

Mary Bushnell Cheney auxiliary, United Spanish War Veterans will hold its regular meeting at the State Armory tomorrow evening, when plans will be completed for the convention in Rockville, June 27 and 28.

The annual Cradle Roll party for St. Mary's church school children will take place on Saturday afternoon at 2 o'clock at the church, and all children under 5 and their mothers are cordially invited to attend.

**HALE SCHOOL PUPILS TALK CURRENT EVENTS**

A Current Events program, under the direction of Miss Elizabeth A. Krapowicz and Miss Mary Sweeney was held in the auditorium of the Nathan Hale school this afternoon at one o'clock. Members of the Garden Club under the direction of Miss Edith Eaton also took part. The program follows:

- 1. A welcome to the parents and friends of Grade 8 by the chairman, Primo Amadeo.
- 2. Town Topics. 1. "A Police school in Manchester," Bertha McNeil.
- 2. "Our Summer Playgrounds," Phyllis Moroney.
- 3. "A Friendly Attitude For Parks in Manchester," Barbara Alderman.
- 4. "Mr. Hayes' Interest in the Radio Connection between Schenectady, N. Y., and Sidney, Australia," Frank Robinson.
- 5. "Wire Rails to Line State Roads," Howard Brown and Michael Sibrinz.
- 6. "Work on the United Airport Will Be Started Soon," Freda Roth.
- 7. "Times Farm Opening Set For July 1," Edith Brown.
- 8. "Millions of Fish Eggs Salvaged in Connecticut," Marvin Strickland, Frank Sedlack, Charles Rogers.
- 9. "The Great Lakes as a Waterway," Paul Aceto, John Eutt.
- 10. "From the Great Lakes to the Gulf," Emma Jones, Marion Fraser.
- 11. "Scouts Award Silver Buffalo," James Guthrie.
- 12. "Automobile Accidents as Disasters as War," Ray Petersen, Richard Niese.
- 13. "Mar-

**conic Lights Bulbs in Australia.**

- 14. "A Tent City," Alice Bunce.
- 15. "Our Golfers in England," Ernest Bergren.
- 16. "Brand's Plan for a United States of Europe," Katherine Mrosek, Lucy Taggart.
- 17. "The Great Russian Railroad," Fred Johansen.
- 18. "A New Planet," Virginia Hart.
- 19. "The Name of the New Planet," Olivia Matchett.
- 20. "A Plea For Our Wild Flowers," Gladys Nicola.
- 21. "Our School Bank Accounts," Anita Pascanelli.
- 22. "Garden Club," "June," Dorothy Lyttle. Legends of various flowers and vegetables will be given by the following girls:
- 1. "The Pansy," Ruth Ritchie.
- 2. "Lettuce," Marcella Kelley.
- 3. "The Radish," Maude Sullivan.
- 4. "Daisy," Helen Zepatka.
- 5. "Forget-Me-Not," Marjorie Cokerham.
- 6. "Bachelor's Buttons," Rose Patelli.
- 7. "The Rose," Alice Harris.
- 8. "The Peony," Fern Piper.
- 9. "The Iris," Agnes Watson.
- 10. "The Miracle of Growth of a Seed," Fred Day.

Tonight at 6 o'clock the Ladies Guild and Men's Bible class of St. Mary's church will serve a June supper with strawberry shortcake, and follow it with a motion picture entertainment. The advance sale of tickets, with half price for children would seem to insure a large attendance.

Cherries are ripe at Applecroft, 302 West Center street. Phone 4522. —Adv.

**TOBACCO CROP PROMISES TO BE BEST IN YEARS**

Plenty of Rain and Sunshine Have Aided in Bringing It Along in Fine Shape.

Plenty of rain and plenty of sunshine has brought along the tobacco crop in this section to such a condition that the crops are the best that has been raised up to this date in many years. This is not confined to any one location, but is true throughout the Connecticut Valley, according to the statements of different tobacco growers. They are much pleased with the outlook and with the present weather conditions continuing they expect to have the tobacco well along earlier this year than in others. It has been several years since the growers in this section have had a good crop of tobacco, last year's crop so badly that it was plowed under in many cases. Not only have the tobacco men expressed their satisfaction with the crop, but see nothing in the new tariff bill that is going to be detrimental to the tobacco business in Connecticut.

Otis (Buddy) Kerr, son of Mr. and Mrs. Alexander Kerr of Center street who was injured at the ball game last week between the team from the local High school and West Hartford, is making good progress. Kerr who is a sophomore sprained his leg and fractured a bone in his foot. He is able to be around on crutches and is still obliged to wear a cast.

**HOSPITAL NOTES**

Daughters were born last night at the Memorial hospital to Mr. and Mrs. Andrew Donze of 93 Charter Oak street and to Mr. and Mrs. Phillip Emery of 23 Cambridge street.

David Heatly, Jr., of Lydall street was discharged and Mrs. Earl Gamba and infant son of 230 Oak street were also discharged. There was one death, Alex Rogers of Alton street. He was 75 years old.

Enter Summer School at the Center next Monday morning. All Commercial branches will be taught. —Adv.

**FLY WHEEL Starter Gear Repairs**

The teeth on the flywheel of most cars are cut in cast iron and often wear so that the car will not start. We can replace these teeth with a steel ring gear which will last many times longer.
