PRICE THREE CENTS

CAN SAVE MONEY BY BUILDING NOW

Chairman Woods Says Costs Are Unusually Low—Bids on Construction Work Are 15 Per Cent Lower.

Washington, Nov. 3.—(AP)—Figures compiled to show the economic advantages of immediate public construction were issued today by Chairman Woods of the President's employment committee to support his appeal for increased Federal, state and municipal building.

Because of present cost levels it was estimated a saving of nine to twenty per cent would be gained by building now, in addition to the beneficial effect on unemployment.

At the same time, Woods announced the appointment of two more men to the directing staff of his organization for the relief of suffering among the jobless.

Frank Bane, of Richmond, Va., state commissioner of public welfare, was named regional director for the nine southeastern states.

James C. Lawrence, dean of administration of the University of Minnesota, was appointed to act in Washington as "clearing house" for regional directors.

Speed Up Relief Meanwhile, Woods' office issued an appeal and warning from Miss Grace Abbott, chief of the Children's Bureau, that relief must be accelerated to prevent suffering among the children of the unemployed.

Colonel Woods said he had obtained his figures to indicate substantial savings to taxpayers on public works projects at this time.

CHENEY BROTHERS DENY SHUT-DOWN

Statement to The Herald Today Says Story of Temporary Closing Is Not True

Cheney Brothers today put an end to rumors that the silk mills here are to close for any period of time when a statement was given to The Herald by Robert Cheney, vice president of the firm.

The statement to The Herald follows: The statement to The Herald follows: Manchester Herald, "South Manchester, Conn., 'Gentlemen:

"Many of our employees and reporters from the newspapers have come to us recently asking for a confirmation or denial of rumors that we are to close the whole or part of our works for varying periods from one to three months.

There is, of course, nothing to substantiate these rumors. We shall from time to time make readjustments in the working schedules, as demand requires.

Yours very truly, CHENEY BROTHERS, By ROBERT CHENEY, Vice President.

WELLMAN OBSERVES 72ND BIRTHDAY

Man Who Tried to Cross Ocean in Airship 21 Years Ago is Hale and Hearty.

New York, Nov. 3.—(AP)—Wellman, whose airship voyage from Atlantic City twenty-one years ago was the first attempted trans-Atlantic flight, celebrated his seventy-second birthday today in his apartment on upper Broadway.

The flight failed largely because of motor imperfections, Wellman said today, "but the failure was not the important thing—the gesture was what mattered, and our principle was correct."

DETROIT TUNNEL IS THROWN OPEN

Three Ways of Getting Across Border Into Canada Now—New Problem.

Detroit, Nov. 3.—(AP)—For the first time in history, motorists and pedestrians today had three separate modes of international travel between Detroit and the Canadian border cities.

BOTH PARTIES PLANNING FOR BIG VOTE HERE

Republicans Expect to Give State Ticket Close to 2,000 Majority; See Close Congressional Contest.

With the Republican party fighting a strong foe—hard times—and the Democrats making political capital of it, Manchester expects to poll one of the biggest off-year State election votes on record as the electors cast their ballots tomorrow.

Both Republican and Democratic leaders here predict the heaviest balloting of any year with the exception of 1923.

G. O. P. Majority Manchester, never in the doubtful column, is expected to give the Republican ticket a majority large enough to help offset the majority the Democrats are bound to get in some cities.

A close contest is expected for election to Congress from this district where the Republicans offer Colonel Clarence W. Seymour against Augustine Lomorgan, the Democratic aspirant.

The town offices of Judge of Probate, Representative in the General Assembly and Justices of the Peace will be voted for also tomorrow.

ROGERS CONFIDENT ON ELECTION EVE

Says Republican Majority Will Be Biggest in Recent Years—Thanks Voters.

New London, Nov. 3.—(AP)—Ernest E. Rogers, Republican nominee for governor of the state today issued his pre-election statement as follows:

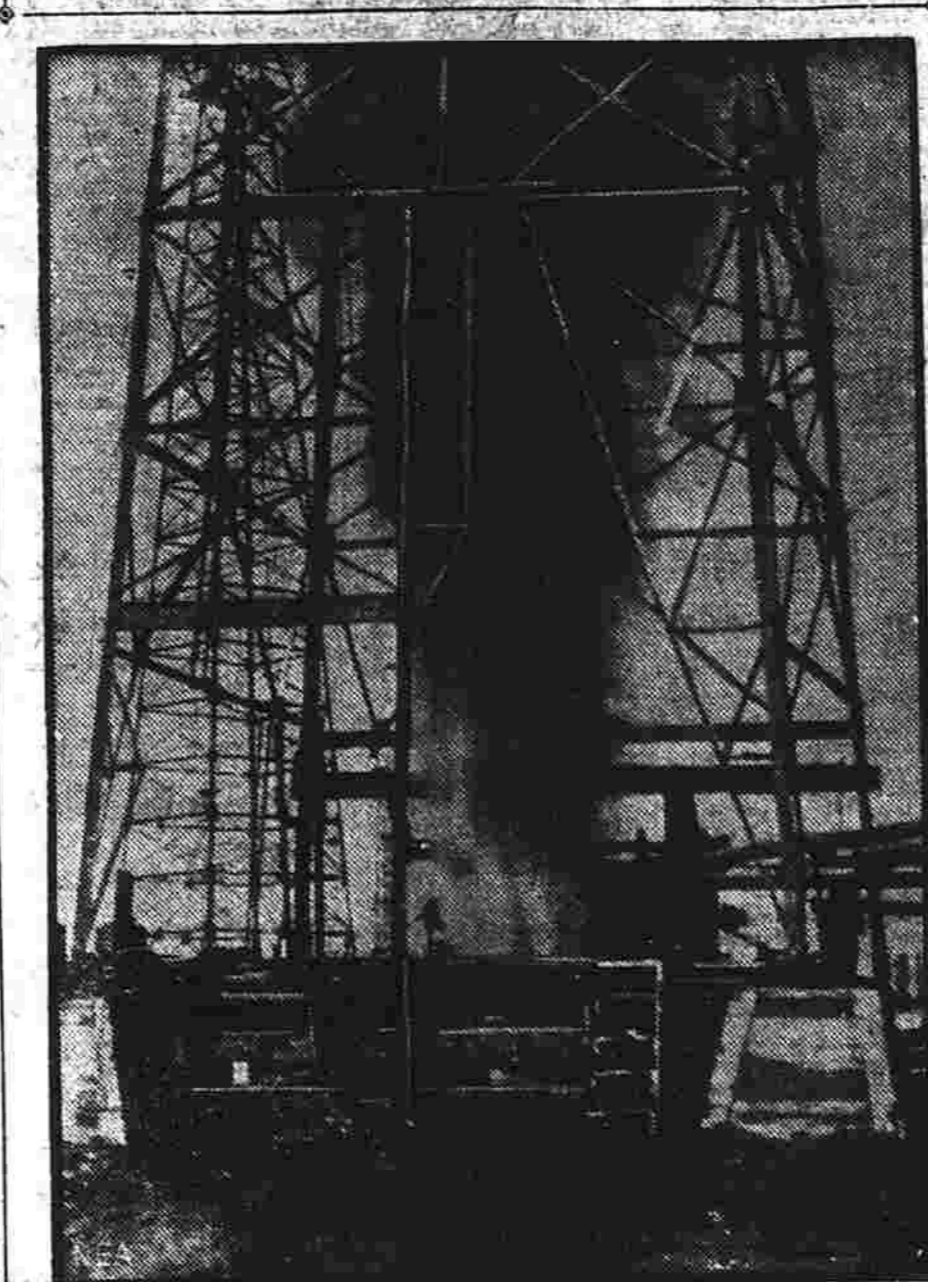

"From all sections of the state, I have received messages assuring me that the continuation of Republican administration in the state, particularly at this time, is something which is considered vital to the orderly and uninterrupted program of Connecticut.

HERALD TO FLASH ELECTION RETURNS, GIVE TELEPHONE SERVICE TOMORROW

Associated Press Wires to Bring National and State Results Directly Into Bissell Street Office from Washington, New York and State Cities.

Election returns service will be furnished by the Manchester Evening Herald tomorrow night by screen, by megaphone and by telephone.

Fire Threatens Big Oil "Gusher" in Oklahoma City.

With the safety of a large section of the city at stake, an army of volunteers and National Guardsmen, using chemicals, fought desperately to extinguish flames which threatened to spread to Oklahoma City's newest downtown oil "gusher", pictured above and the oil-sprayed district around it.

10 VIOLENT DEATHS OVER THE WEEKEND

Six Auto Victims, Two Sui-cides, One Killed by Train; One Starves to Death.

Six were dead today and another possibly fatally injured as result of auto accidents in Connecticut over the weekend. One unidentified man was killed by a train in Bridgeport.

Two others took their own lives, while an Ansonia man who died after being taken into police custody, is believed to be a victim of starvation.

Daniel J. Griffin, 28, of Waterbury was instantly killed and his wife injured, possibly fatally when they were struck Sunday by a car driven by Donald Spinney, 25, as they alighted from a street car.

New London, Nov. 3.—(AP)—Ernest E. Rogers, Republican nominee for governor of the state today issued his pre-election statement as follows:

"From all sections of the state, I have received messages assuring me that the continuation of Republican administration in the state, particularly at this time, is something which is considered vital to the orderly and uninterrupted program of Connecticut.

TOM MIX STRICKEN; FACES OPERATION

Film Cowboy Taken to Hospital Suffering From Effects of Old Injury.

Los Angeles, Nov. 3.—(AP)—Tom Mix, film cowboy, was under hospital treatment today for an unexplained illness. Hospital physicians said an announcement would be made after their diagnosis is completed.

CAMPAIGN ENDS IN CONNECTICUT; CLAIMS GALORE

Only a Few Meetings Scheduled for Tonight in State; Leaders of Both Parties Make Predictions.

By Associated Press All the heavy ammunition provided for Connecticut's biennial campaign in the "off year" has been used. Today the fuel from the bestworks of the opposing major party camps was most of light artillery and small arms calibre.

The standard bearers of each political life plummeted into every-day life pleasures and each thanked his public for the courteous treatment accorded during the past vigorous weeks.

The few rallies which will wind up the debate tonight are local in character. The burden of effort has passed from the nominees for office to the party workers who yesterday delved into the party check lists to see how many voters would turn out and how many of the diffident, the halt and the lame needed conveyance to the polling places.

Mr. Korback said the Republican margin would be 65,000, that Republican Congressmen would be elected in each district and Republican majorities in each branch of the General Assembly would be increased.

WATKINS APPLIES FOR JAIL RELEASE

Hartford Broker Among 49 Petitioners for Pardon; Board Studies Petitions.

Hartford, Nov. 3.—(AP)—Forty-nine applications—among them that of Roger W. Watkins, one-time stock broker convicted of defrauding the public of nearly \$150,000 were heard by the board of pardons meeting today at the State prison in Wethersfield.

Louis N. Leopold, former Waterbury furniture dealer, appeared on his own behalf, seeking a pardon for the sake of his family. He was convicted of second degree murder and arson in 1928. Others who petitioned were Joseph Polce of Willimantic, serving two to four years for burglary; William Howell of Rockville, 2-2 to 3 1-2 years for larceny; Rocco Paucoli of Waterbury, serving life for second degree murder; Henry Allen of Waterbury, sentenced to 12 to 15 years for manslaughter in 1924; and John Yarnes, sentenced to life for murder, in 1908 who has appeared 23 times.

STUDENTS ACT AS SUBJECTS IN SLEEPING EXPERIMENTS

Hamilton, N. Y., Nov. 3.—(AP)—"Mere noises and bussing" heard in the head during the day. "More irritated by ordinary things." "Time drags more." "Laughing at common occurrences." "Desire to be alone." "Not wanting to talk."

Los Angeles, Nov. 3.—(AP)—Tom Mix, film cowboy, was under hospital treatment today for an unexplained illness. Hospital physicians said an announcement would be made after their diagnosis is completed.

Dr. R. Nichols Smith, attending physician, said Mix's condition seemed to be a recurrence of an old trouble in the spinal column, probably due to a fall from his horse some years ago. X-Ray pictures

PARTY ALIGNMENTS STILL IN A TANGLE AS ELECTION NEARS

FEDERAL SLEUTHS SMASH DRUG RING

Thirty Arrests Made and \$15,000 Worth of Dope Seized in Series of Raids.

Syracuse, N. Y., Nov. 3.—(AP)—Drugs valued at \$15,000 are under guard in a vault in Federal building here and 30 men are under arrest in Syracuse, New York, Utica, Buffalo, Albany and Schenectady, as the result of a six weeks investigation of a so-called drug ring. The operations of the group, Federal officers said, extended throughout the state.

THREE ARRESTED Buffalo, N. Y., Nov. 3.—(AP)—Headed by Roy A. Darling of Washington, Federal narcotic agents and police of Buffalo and Niagara Falls last night smashed what they claimed was an assignment of an international narcotic ring and arrested six men and two women. Details of

JAPANESE STEAMER SENDS OUT AN SOS

Freighter Reports She Is Helpless in Storm South of the Aleutian Islands.

San Francisco, Nov. 3.—(AP)—Word was awaited here today of the fate of the Japanese freighter Seiyo Maru, reported helpless and in a sinking condition in the north Pacific early yesterday.

Although the steamer California had the stricken ship's position, and at last reports, was battling rough weather in attempting to reach the scene and rescue the 40 men aboard the disabled vessel, no word had reached here early today of the California's progress. She had expected to reach the Seiyo at 11 p. m. (P. S. T.) last night.

The Seiyo Maru first sent distress signals at 5 a. m., yesterday, giving her position at Latitude 50.15 North and Longitude 178.25 east, or southwest of the Aleutian Islands. Her messages indicated she was helpless and listing.

Subsequent messages said the list had increased and further damage, including smashing of the life boats had been done by the heavy gale. The freighter's cargo had shifted, giving her a list of 16 degrees.

SIXTY-FIVE SEATS LOST BY LABORITES

Conservatives Gain at British Elections; Unemployment Blamed for the Reversals.

London, Nov. 3.—(AP)—Results from 80 principal municipalities in Saturday's elections throughout Great Britain show a net loss of at least 65 seats for Labor and a net gain of 89 for the Conservatives.

"We are not at all dismayed by what in our judgment is only a temporary setback," said J. R. Clynes, Laborite home secretary.

Full Membership of House, Third of Senate, Governors of 32 States and Minor Offices to be Filled.

By Associated Press. The political campaign of 1930 came to its final pre-election pause today with party alignments still in a tangle, and the result warmly in dispute.

Tomorrow as the nation becomes one vast polling place the voters will write the answer, electing the full membership of the House, one-third of the Senate, governors in 32 states and hundreds of lesser officials in county, ward and township.

How far the returns will go, also toward solving the deadlock, the tariff and farm relief. But other considerations, notably the dispute over prohibition, have added local complications to the task of the voter in many states.

Republican Losses In one respect alone did today's last minute prognoses agree. They all foresaw a recession of the Republican tide which rose so high in 1928—a scaling down of the present overgrown Republican majorities in Congress and perhaps, too, an accompanying turn toward the Democrats in some of the elections to minor office.

Closing up shop after one of the most determined campaigns they ever waged for Congressional control, the Democratic managers predicted their party would elect a majority of the House, and would reduce the Republican Senate majority almost, if not entirely, to the vanishing point.

The Republicans, declaring their final field reports showed an eleven-hour trend in their favor closed out of both Senate and House, but by the reduced majorities which often fall to the lot of the party in power in the off years midway between the presidential elections.

Similarly in most of the 49 states which elect governors tomorrow, the final Democratic party headquarters showed both sides claiming victory. In this disputed territory lives vastly more than half the country's population, for it included among others, the states of New York, Pennsylvania, Massachusetts and New Jersey.

While every state but Maine, which elects in September, will vote for members of the House, the districts listed as really debatable number something less than 100 out of the total of 435. In their assault upon these districts the Democrats have sought to raid the Republican picket lines from coast to coast, but the major force of their attack has fallen on Ohio, Indiana, Kentucky, West Virginia and Missouri. It is in these states they center their highest hopes.

Similarly the Democratic expectations in the Senate rest principally on less than a dozen contents out of the 35.

ARGUES SINGLE TAX PLAN FOR KIWANIS

James Rogers Brown, Head of Manhattan Club, Points Out Tax Fallacies.

James Rogers Brown, president of the Manhattan Single Tax Club, was the speaker before the Manchester Kiwanis club this noon at the Hotel Sheridan.

Mr. Brown is an enthusiastic single tax proponent and is well versed on that subject.

Mr. Brown's plan is to have a single tax on land value. He has been heard in Manchester before as late as a particular friend of the late John Cairns who was a firm believer in single tax.

social presence and social activities. A large city with modern utilities, will have much land value. A small village with few and poor public utilities, will have little land value.

Increased values. All social activities are reflected at once in increased value of land, not in the increased value of the buildings or personal property.

When, for instance, we change from a low-pressure water system to a high-pressure system, the lots of the town, vacant as well as improved, increase in value.

Land neglected. Between the upper and the nether millstones of these taxes, the middle class is being crushed.

Discourage industry. To tax labor products or values, is to drive away capital and to discourage industry, besides increasing the cost of living.

Public value for public use. The only basis for public use, private property for private enjoyment, is the true basis of honest taxation.

Outstanding Result. Perhaps the most outstanding result was in Leeds, where, owing to a re-arrangement of seats, and an increase of 27 seats, the whole county retained its third rank.

N. Y. U. represented by one of the strongest teams in the East ends its regular season November 22 against Rutgers and would be in a position to play the benefit game on Thanksgiving day or on the following Saturday, November 29.

LATEST STOCKS

New York, Nov. 3.—(AP)—Share prices drifted uncertainly in today's Stock Market, as traders appeared content to accept tomorrow's elections as an excuse for marking time.

A few shares rallied rather briskly during the morning, apparently reflecting the agreement to temporarily reduce the market holiday tomorrow.

The weekly earnings statements for the September quarter were relatively satisfactory. Pullman reported net of \$1.75 a share, which was not far from the \$1.87 earned in the like quarter a year ago.

Montgomery Ward reported October sales about 6.1 per cent below the like period of last year, against an aggregate decline of little more than 2 per cent for the entire first 10 months.

Actor-Playwrights Preserve Authentic Bohemian Flavor

By GILBERT SWAN
NEA Service Writer

New York.—Greenwich Village, which has been revealed to playgoers, screengoers and book readers as a place of wild artistic revels and of involved psychopathic cases, finally has a playwright who comes to its rescue.

To be exact, it has two playwrights—Albert Hackett, himself an actor, and Frances Goodrich, an actress.

In their very merry comedy, "Up Pops the Devil," they have inhabited the Village with a grey and modern Bohemianism. To be sure, most of the characters in the play are slightly dizzy, but they are human beings. Their counterparts can be found at almost any Saturday night gathering.

There are genial souses and hack writers and newspaper folk, young ladies trying to get along on the stage and elderly newcomers from small towns who just adore the quaint Village surroundings. There is a young man who thinks he can write and then a literary agent who is just a bit too kind with his money advances. There's a gin provider who is just like half the gin providers you're likely to find at your door and there are gin parties which really seem like parties and have nothing to do with the movie type of orgy. And there's a southern girl, who uses it to get away with murder.

And so, to the tune of wisecracks and fun, a rather ordinary and not-so-new story is told about the man who was supported by his hard-working wife while he took his Sabbatical year to write a book, and how he wearied of having to account for his pennies and finally rebelled.

Hackett, who appears both as player and writer, has done the almost incredible thing of writing a part for himself that will take its place among the better characterizations of the year.

Author-actors have a way of giving themselves "fat" parts which, generally speaking, are pretty terrible. But Hackett's is a most amusing, genial and hard-belled press agent, who manages to stay believably pie-eyed from curtain to curtain.

The current week brings also "The Second Little Show," the first one having moved on to vast success in other sections after more than a year's run on Broadway.

Had this "Little Show" come to town in the guise of a routine revue it would have been most welcome—in fact, it probably would have been. It often has been remarked that no second edition of anything should ever be issued. For one reason or another, something happens—as it happened to the Garrick Gaieties, the Grand Street Follies and others.

Outstanding favorites in the new Broadway shows are these three actresses, none of whom previously had attained any heights in stardom. Sally Bates, at the top, is seen in "Up Pops the Devil." Lower right is Ruth Tester, diminutive comedienne of "The Second Little Show?"

However, there is an eccentric comedienne by the name of Ruth Tester, whose father is vice-president of a bank in Connecticut, who henceforth must be considered a runner-up for all the young ladies who have graduated into Hollywood during the past year. And she is given a song, "Sing Something Simple," which is far and away one of the grandest numbers to be heard along the rialto.

Bayard Veiller, having written the very successful "Trial of Mary Dugan," appears unable to get himself out of court rooms.

And so in "That's the Woman," he goes back to murders and trials and all the rest. But "that woman" is no Mary Dugan. It can only be said that Veiller is an expert craftsman at play building. His newest effort is not to be loudly recommended.

LON CHANEY'S OLD PAL WINS FAME AS CHARACTER ACTOR

By DAN THOMAS
NEA Service Writer

Hollywood.—Now that Lon Chaney has taken his place with the immortals of the screen who never will be forgotten, it might be interesting to see what is happening to the man who started at scratch with him back in the days when both were making only \$7.50 a day as bit players.

That man is Jean Hersholt, who incidentally was one of Chaney's few intimate friends throughout the great actor's colorful film career. Chaney and Hersholt first became acquainted when they were assigned to the same dressing room on the old Universal lot years ago when both were unknown to the movie-going public.

What a coincidence that two men, both having the same idea as to the best way to succeed, should have shared the tiny dressing room. Yet how fortunate as both used to arrive at the studio at an extremely early hour in order to experiment with various ways and means of making up before it was time for them to appear on the set. There was a difference, however. Chaney chose the grotesque while Hersholt picked the more natural and human characterizations.

Although Hersholt has never gained the prominence enjoyed by Chaney, he holds an enviable position in Hollywood. If one were to set out to name the 10 best actors in this land of promise, Hersholt would have to be included. And he has attained this position as Chaney attained his—through the art of make-up plus sincere performances.

Through some peculiar twist of fate the Danish actor has played practically every nationality but at Dan. He was the first player to speak in Jewish dialect in the talkies, and in one of the first talkies, "Able's Irish Rose," too. He has been a kindly father and the lowest of bums, he has been a lunatic and a banking genius, a poet, a musician and a ruthless adventurer. And he once portrayed the Christ in "The Whispering Chorus."

Although he has appeared in more than 250 feature productions, Hersholt has played "straight" only 27 times. And since the introduction of the talkies he has added nine distinct dialects to his repertoire. A short time ago he added a Chinese characterization to his already long list of achievements. In the last year alone he has portrayed men of 10 different nationalities in as many pictures.

"I hit upon the idea of special-

ing in make-up when I first started in the picture business," Hersholt declares. "I noticed that very few of the actors around me paid much attention to make-up. Most of them used make-up solely for the purpose of making themselves photograph as well as possible, but they always were themselves. Therefore I decided that there should be a large field for an actor who could characterize any type of nationality of man. That I was right in that belief has been my good fortune."

was taken to Providence where the crew will be confined. The amount of the seizure was not reported.

cratic nominee, said in his farewell words as a campaigner:

"Tomorrow I meet the people of my home state at the polls. I approach your final judgment with supreme confidence that those things for which I have been proud to stand since boyhood may be the means of making me governor.

"Whether I shall attain that noble goal, I know not, but this I do know, that in the remaining years of my life I shall never forget your generous and cordial expressions of good will. Wherever it has been my privilege to go, I have found you sympathetic to my cause. I just that your sole remaining duty, that of voting tomorrow, may be the one crowning effort to bear witness to the affection I have found everywhere.

"I therefore close this battle as I began, with confidence of the outcome and gratitude in my heart for all of you."

accident, and crashed between two trees. Norton died enroute to a Norwalk hospital. His five year old son Edward and Conrad Lofink, garage owner, who was testing the car, were unhurt.

Other Crashes

Frederick Sherwood, 56, of Fairfield died Sunday afternoon in St. Vincent's hospital Bridgeport of injuries received Sunday night when he was struck as he alighted from a street car by an automobile driven by Vincent Persico. Persico was held in \$1,000 bond on a charge of manslaughter.

Carlo Di Billa, 30 and employee of Antonia Cuzzocriro a farmer living near Orange, was instantly killed Saturday night when he was struck by a bus when he was crossing the Milford turnpike in that town.

John Ryan, of Arlington, Mass., driver of the bus was held on a technical charge of reckless driving.

An unidentified man about 35, was instantly killed when he was struck by a westbound train in Bridgeport Sunday afternoon. The man suffered a fractured skull and spine while his right foot was severed.

Commuter Suiicides

Charles G. Billings, manager of the Mountainview Orchard Company and past president of the Connecticut Pomological Society killed himself Saturday by firing a rifle bullet through his head at the company's orchard on Somers Mountain near Hazardville. Billings was reported to have been on the verge of a nervous breakdown and had worried over poor market for the heavy stock of apples his company had on hand.

C. Florian Kilch, 45, Meriden, leaped under an oncoming train Sunday. His head was severed from his body. The cause of his act is unknown.

Found in semi-conscious stupor, Saturday Andrew Kuzma, 65, Ansonia, was taken into custody by Ansonia police who at first believed the man to be intoxicated. His condition growing worse he was removed to the Griffin hospital where he died early Sunday morning. Physicians expressed the belief the man had been starved. Kuzma was reported to have been unemployed for several months.

DETROIT TUNNEL IS THROWN OPEN

customs services on both sides of the river but presented no new problems in the prevention of smuggling of contraband. One customs and immigration innovation was inaugurated. During the "rush hours" United States officers this morning inspected passengers on the Canadian side in order that certain buses might proceed directly through the tunnel and to the Detroit City Hall without being stopped at the Detroit entrance.

Depends On Public

This is the first time that pre-inspection has been attempted for bus travel, although it has been customary on trains for several years. In discussing this procedure, Col. Heinrich A. Pickert, collector of customs at Detroit, said that his hopeful of success, but that operation of the plan depends entirely on the co-operation of persons willing to be examined by officers alien to the soil on which they are working.

Must Have Cards

Asked what would be done if a person examined in Canada were found in the possession of contraband, he said that the officers could do no more than forbid them to enter a pre-inspected bus. Under the new government pre-inspection, only persons holding immigration identification cards may ride on the "through" buses.

Other buses and all privately owned cars are stopped at the United States entrance to the tunnel for examination by immigration and customs officers in the same manner as those coming by ferry or bridge.

The opening of the tunnel was marked by a rush for honors of being "first" to enter the tunnel for examination by immigration and customs officers in the same manner as those coming by ferry or bridge.

In the fourth car from this side rode Ole Singstad, chief engineer of the Holland tunnel in New York, who was consulting engineer during the two years the \$25,000,000 tube was under construction here.

narcotics seized were not disclosed but it was intimated the seizure was in excess of \$10,000.

The raids in Niagara Falls culminated secret investigations over several weeks by narcotic agents assisted by special investigators from Washington.

Those under arrest are all but one from Niagara Falls. Anthony Violante, 45, who has served 11 years in Auburn state prison, according to police, for killing a Niagara Falls policeman; Archie Renda, 30, who has served one sentence in Atlanta, according to narcotic agents, for illegal traffic in narcotics; Bruno Palowicz, 40, of Philadelphia; Benjamin Dagostino, 38, Philip Lascola, 30, Charles De Diviso 25, Bertha Ness, 47, a negro, and Miss Lela Apperman, 34.

The arrests were made at the Falls hotel in Niagara Falls and its annex. Despite careful posting of guards at all entrances, about 15 persons were reported to have escaped and police today were seeking a hidden exit.

ANOTHER INDICTMENT AGAINST MARTIN HEALEY

(Continued from Page 1.)

New York, Nov. 2.—(AP.)—Martin J. Healy, Tammany district leader and former city official, was arraigned today on a second indictment handed up against him by the Special Grand Jury investigating appointment of George F. Ewald as a city magistrate. Healy pleaded not guilty and was released in \$1,000 bail.

The indictment charges him with accepting \$2,000 and an \$850 diamond-encrusted bracelet from Jacob Cash, for procuring the reappointment of the latter as a city marshal. The bracelet was presented to Mrs. Healy.

Healy already is under indictment with Mr. and Mrs. Ewald and Thomas T. Tommaney, former chief clerk in Sheriff Farley's office, on a charge of accepting money to obtain Ewald's appointment.

Before the arraignment Healy was fingerprinted and photographed at headquarters and booked at a precinct station.

Justice McCook, after Healy's arraignment, signed orders directing the Ewalds and Tommaney to appear at police headquarters Wednesday to be photographed and fingerprinted, a procedure that was overlooked when they were indicted Sept. 19.

tions enjoying the special privilege of exclusive franchise. Direct supervision of such corporations by the state is obviously a just and reasonable thing. Submission to it is not too high a price that the corporations are supposed to pay for their exclusive opportunities to make money in their respective fields.

The taxicab business is an entirely different matter. Until the present tax law was passed by the last Legislature there was no such thing as an exclusive taxi franchise. Something very close to such an institution was created by the law which makes a ruling of "public convenience and necessity" by the Commission an essential to the granting of a license to engage in the taxi business. It would be as reasonable to require a grocery store to get a certificate of "public convenience and necessity" before beginning business.

The number of taxicabs needed by any community in this state is a fact that will determine itself, inevitably. The communities, together with the Motor Vehicle Department, were simply able to regulate their own taxi affairs. The intrusion of state control into the operation of an essentially local service not protected by exclusive franchise was an extension of bureaucracy without necessity or even a decent excuse.

The present law is a good example of what may be expected. Taximeters have been ordered into all cabs in Hartford, New Haven, Bridgeport, Waterbury, New London and Meriden. The Commission has not prescribed any definite type of meter but intimates that it may do so at some later time—probably after the taximeter have installed meters of a different kind from those to be subsequently demanded. The Commission hasn't fixed any fare basis but says it may do that, also, later—again probably after the meters have been purchased and installed on half a dozen different price bases.

One of the biggest taxi using towns in the state, where there are probably twice as many cabs in operation as in Meriden—Greenwich—is not affected by the order.

Why?

The tax law of 1920 is a nuisance law. Its real purpose is open to suspicion. Its operation is an invasion of the principle of municipal home rule. One of the first acts of the General Assembly of 1931 should be its repeal.

who does vote will add to the position of whatever political decision the day shall bring forth and thus contribute to the maintenance at full strength of the institution of government by the people.

Grant that some of us have for a brief time been somewhat bewildered by the unexpected let down in the degree of our prosperity; let us sulk in our tents because we find the battle of life something besides an uninterrupted march of triumph as to confess ourselves poor soldiers of the republic—defeatists in the face of a little temporary adversity.

Whether this nation has been guilty of economic sins of commission or omission, whether mistakes have been made that with greater wisdom we could have avoided, whether we have been directed by our enthusiasms into paths destined to lead us to disappointment—these are fair questions. But of one thing there is no question—that we have gone a long way, farther than any other people in all the world, in the march toward the goal of well-being and security for every individual, even though we may now discover, that the goal is a little farther ahead than we had let ourselves believe it to be. And we have come thus far through and because of government, for and by the people. That kind of government constitutes our hope, and our only hope, for the future. The voter who sourly abandons his part in it because his intelligence combined with that of all his fellow citizens hasn't been quite equal as yet to the attainment of perfection isn't fair to his country—and he is infinitely unfair to himself.

There is only one tool with which this nation will ever carve out for itself a perfected political and economic state—the ballot. Every man or woman who neglects to use it is contributing to the likelihood of its eventual surrender.

Washington Letter
 By RODNEY DUTCHER

Washington, Nov. 3.—Washington was bearing up nicely under the various South American revolutions right up to the time Brazil's rebels seized their with unexpected suddenness by seizing Rio de Janeiro.

The State Department had recognized the new governments of Peru, Bolivia and Argentina just at the psychological moment. It didn't move hastily because established at Buenos Aires, as demonstrated by the prompt appointment of an ambassador to Washington after a long period in which President Grayson had emphasized his dislike for us by appointing none. It was able to get Captain Gray released by the new Peruvian leaders after they had threatened him with court-martial for anti-rebel activities.

The upsets had all happened so quickly that the department had had no time to make any mistakes and thus avoided setting its fingers burned.

Similarly, the diplomats representing the countries involved had survived their periods of worry. Ambassador Manuel de Figuey y Santander of Peru, and Eduardo Diez de Medina of Bolivia were not removed by their new governments. And Don Julian Escobar, counselor of embassy for Argentina and charge d'affaires, was also kept on the job. They are career men, removed from home politics, and the new governments presumably thought they would be more valuable in Washington than green men.

Backed Loser

Lately, however, it has been difficult to say whether the most embarrassed man in Washington is Secretary of State Henry Stimson or Brazil's ambassador, Mr. S. Gurgel do Amaral.

When Gurgel got the news of his government's collapse from newspapermen his comment consisted of two words which somehow gave Washington the best of the chuckles of the year. Said Gurgel: "How absurd!"

His principal embarrassment traced back to a statement he had made in the early days of the rebellion. It was a belittling federal statement of the promised plenty of "bloodless" revolution. The ambassador can prove that the former government at Rio put the very words in his mouth and that they weren't his own chances of staying here awhile probably will be much better. Amaral is one of the most distinguished looking diplomats in Washington.

Of course Stimson's embarrassment was due to the fact that he had picked the loser in Brazil, backing the government with our own military supplies and an arms embargo against the rebels. It was our first embargo in the case of a South American country and the rebels had been referring to the embargo as "outrage."

Stimson issued statements to justify this government's course, but it goes without saying that the embargo wouldn't have been picked if it had supposed that the Washington Luis government was about to fall.

British Were Neutral

There has been considerable speculation here as to who convinced Stimson that the federal government was this country's best bet. Great Britain was easy enough to keep out of the mess altogether. She is our chief competitor for South American favors.

Although the master of international intrigue would like to see the world in a state of revolutions did not represent a brand-new pol-

AS TO CONGRESS

There is no expectation on the part of the leaders of the national Republican party that the present majority of almost a hundred in the House of Representatives will be maintained by tomorrow's election. There are a number of Republican representatives who gained their seats in normally overwhelming Democratic districts owing to the phenomenal Hoover landslide of 1928. There is not the least likelihood that all or even a majority of these will win at the polls tomorrow. It is the opinion of most of the trained forecasters of nation-wide elections that the Republican party will have a good working majority in the House in the next Congress, but not nearly so large a one as at present.

On the other hand Democratic leaders profess to be confident that the Republican majority will disappear, to be replaced by a majority of Democratic members.

Nothing is much more certain than that the election of a Democratic Congress or even of a Congress where the Democrats and anti-administration Republicans were in joint control would be unfortunate, to put it mildly.

Aside from the very important point made at Hartford last week by Congressman James M. Beck that a Democratic majority in the next House of Representatives would place the five major chairmanships in the hands of three Southern states—a situation fraught with serious danger to all Northern industrial and business interests—the depriving of President Hoover of all support by Congress would bring every legislative activity outside routine matters to an inevitable two-year halt. It would render the government helpless at a time when there is likely to be the most urgent need of earnest cooperation between the legislative and executive branches of the government.

Even those who may be led to believe that the country "needs a change" should realize that it is impossible, this year, to turn over the management of affairs to the Democratic party. That is something that could not happen in any event until 1932. So that the utmost that could be accomplished by the election of a Democratic majority in Congress would be to seriously cripple the Hoover administration, rendering it incapable of solving any of the great problems confronting us and putting nothing in its place.

A Democratic majority in Congress for the next two years would be more or less than human if it did not devote all its energies to destroying the prestige of the President and his whole present governmental organization, for by such methods only could it hope to win the Presidential election two years hence.

This being the case it devolves upon every Republican in the First Congressional district of Connecticut to go to the polls tomorrow and cast his ballot for Clarence W. Seymour to be the district's representative in the next Congress. His opponent is a likeable and intelligent man of much magnetism. But the Republican who permits his feelings to trick him into voting for Mr. Loneragan will be voting to throw a monkey wrench into the wheels of government, to discredit President Hoover and to help the opposition win the Presidency in 1932.

ASSEMBLY CANDIDATES

Manchester's direct interest in the election of representatives to the Connecticut General Assembly ended, to all intents and purposes, with the nomination of Judge Raymond A. Johnson and Miss Marjory Cheney in the Republican primaries, since the overwhelming preponderance of Republican voters reduces the chances of their Democratic opponents to the zero point. Nevertheless both these highly capable and efficient representatives are entitled to the compliment of a full party vote and the Republicans of this town would be doing less than their duty if they did not, tomorrow, see to it that both Judge Johnson and Miss Cheney received as many votes as the head of their ticket.

It is especially important, also, that Manchester's vote for State Senator Robert J. Smith, should be very large. His election is, of course, outside the realm of doubt, but Manchester should retain its commanding position in the Fourth Senatorial District—and besides, it owes to Senator Smith that recognition for past services. He has contributed very largely to the influence of Manchester's representation in the Legislature.

HIT-AND-RUN PRICE

There must be, by now, quite a sizable aggregate of men—perhaps men and women—who are going about their affairs in this country carrying with them as they go each a very heavy burden. It is one thing to have your car strike and kill a pedestrian or knock another car down a bank with fatal consequences, and then step on the gas and get away undetected. It is another thing to forget about it. The hit-and-run driver who makes a complete get-away is not a person to envy.

One cannot be altogether certain that the corroding remorse which must become the permanent mental guest of the hit-and-run killer is not a more poignant and relentless emotion than that known to the deliberate murderer. This latter at least has the consciousness that he achieved a purpose in the commission of his crime; he may even feel that the satisfaction he got out of the slaying of a human being was worth the subsequent tortures of mind. The hit-and-run criminal has not even this warped and paltry compensation. He must suffer self-abasement in the raw.

Grant that no really normal person would flee away after having caused a serious automobile accident and that the people who do that kind of thing are deficient in the finer sensibilities, it still remains a fact that there are very few human beings who are incapable of experiencing the agonies of conscience. And those who lack the fortitude to face the personal consequences of folly, recklessness or even sheer accident are particularly unlikely to possess the stamina to successfully live down the afterthoughts.

On the whole, the hit-and-run driver who "gets away with it" pays a price.

THE BALLOT

Tomorrow the people of Manchester will be called on to exercise the right and duty of the ballot. Every man and woman on the voting list will by his or her action exert an influence either for better or worse on the state or the nation, on the policies of government, on the improvement or injury of business conditions, on national morale. It is inescapable. The person who, eligible to vote, does not do so, will be exerting an injurious influence. He will be expressing his lack of faith in popular government and encouraging the idea of government by a small group—an idea which in the long run always ends in government by a dictatorship. The person

IN NEW YORK

New York, Nov. 3.—This is the living and high excitement had crossed his path.

"Well," remarked Coyote Bill, "I hardly got back into New York when I was knocked cold by the carbon monoxide air I've picked up the first cold I've had in 20 years and I feel like the devil. I'm going to take the next train back to Lookout."

"But how about the home town where the people you haven't seen in all these years?"

"Coyote Bill" merely shook his head sadly.

"Insofar as I know," Coyote Bill" stayed in New York something like five hours.

And while speaking of western characters, W. E. Crockett is another encountered in our ramblings. Crockett, a veteran of the range and the west, and blood son of Davy Crockett, is the "big spurs man" from the west. An old man now, and picturesquely preserved, "Bill" Crockett mixed with the hard-drinking gents of the Peecos, Texas, belt. He went in for making fancy spurs and today has a factory outside of New York City, where those tricky looking spurs come from.

And there's "Tex" Cooper, who looks so much like Buffalo Bill that he doubled for the wild westerner now and then. "Tex" affects all the trappings of the hat, gray Van Dyke and tricky uniforms. For years he was an announcer at rodeos and wild west shows. A couple of years back he decided to go on his own. He had a pony and a large dog. He fitted out an auto-van and now wanders from town to town on the sides of the house at dog for five cents each. And he leads a colt, loose, vagabond life now—and makes enough money to come trailing into New York.

She is 45 years old and weighs 100 pounds. She is the picture of health."

Answer: I am sure your aunt would be helped by fasting, but it would take a fast of two or three weeks to accomplish good results. The best plan would be to have her go to some doctor in the city who understands the fasting cure, who would encourage her and watch her case during the fast.

CANDIDATES CONFIDENT

Chicago, Nov. 3.—(AP.)—Confidence of victory in tomorrow's Senatorial election was expressed at the camps of the three nominees, Congresswoman Ruth Hannan McCormick, Republican, James Hamilton Lewis, Democrat, and Mrs. Lottis O'Neill, Independent.

C. J. Doyle, state Republican chairman said he expected Congresswoman McCormick to carry downstate by 200,000 votes tomorrow and to retain that plurality at the votes of Cook county (Chicago) are counted.

Thomas J. Donovan, state Democratic chairman, claimed an even break for former Senator Lewis up to the Cook county line. A 200,000 plurality for the Democratic standard bearer within the metropolitan area.

Mrs. O'Neill, the Independent-Democratic candidate, said she considered her chances of victory good but issued no statement.

SYMPTOMS AND CAUSES OF HEART TROUBLES

Heart trouble causes more deaths than any other disease in North America notwithstanding the fact that a healthy heart is a strong, sturdy organ capable of beating more than two billion times in an average lifetime.

If you have any symptoms, such as an shortness of breath, distress while lying on the left side, pain in the heart, poor circulation or palpitation of the heart, I would advise you to go to your doctor and have a diagnosis made, as he is usually able to tell very quickly whether or not there is something wrong with your heart.

Millions of people have sound hearts, yet are afraid they have serious heart trouble. This fear keeps them from going to the doctor and finding out that their hearts are unaware of their true condition. It often happens that the symptoms which the patient ascribes to the heart are really due to digestive trouble. An excess of gas may cause pain in the region of the heart in some cases or bring on palpitation which passes when the diet is adjusted.

If your symptoms are caused from the stomach or bowels, then attention should be directed to these organs, but if your doctor tells you that you have heart disease, then, regardless of the particular kind of heart trouble, it is advisable to follow some general rules.

After a careful study of the many causes of heart diseases, I have come to the conclusion that the principal causes may be listed as follows: First, overeating of all kinds of food and drinking too much liquid; second, the use of excessive amounts of starch and sugar above the body requirements; third, the use of improper combinations of food which produce excessive stomach and intestinal gas; fourth, the use of heavy foods such as onions, garlic, coated cabbage, dried beans; fifth, over-exertion to which the body is not accustomed; sixth, growths and tumors which interfere with the free circulation of the

ELECTION IN VERMONT

Montpelier, Vt., Nov. 3.—(AP.)—The usual Republican landslide, which greets the party's nominees in Vermont elections, this year has its path an obstacle of unmeasured strength in the latest buy-bear to political aspirations, prohibition.

Whether the issue will prove sufficiently strong at the polls tomorrow remains to be seen. It has, however, created what little interest there is in an otherwise quiet campaign. Vermont's political excitement normally appears in the primaries, when in other years the voters were as good as elected.

The contest to arouse the most interest this year is that in the First Congressional District, where Governor John E. Weeks, Republican and dry, is opposed by Joseph A. McNamara, Democrat, of Burlington, who is supporting his party's wet platform. A total of 24,000 votes, which went in the primaries to Weeks' unsuccessful opponent, neither of them dry, furnishes the main problem.

Other Republican nominees to major offices seem assured of victory.

MARA IS RELATIVE OF JUDGE AT TRIAL

But Tunney's Counsel Does Not Object and \$500,000 Suit Continues.

New York, Nov. 3.—(AP)—The discovery that Timothy Mara, sports promoter who is suing Gene Tunney for half a million dollars, is distantly related by marriage to Supreme Court Justice Peter A. Hatting, who is hearing the case, interrupted but did not terminate trial of the suit today.

After counsel for Mara and Tunney had conferred with the justice, the former's counsel explained that Mara's uncle had married a woman whose sister married Justice Hatting. Both Mara's uncle and his wife are now dead.

"We wouldn't care if Your Honor was Mara's uncle," Emory R. Buckner, Tunney's counsel, to the court—and the trial was resumed. Mara claims \$500,000 from the retired heavyweight boxing champion as money due him under an agreement made with Tunney before the latter won his title from Jack Dempsey in 1926.

Mara himself discovered his remote kinship with Justice Hatting yesterday while attending a game of the professional football team he owns. A cousin told him of it, and Mara told his counsel.

Resumes the Stand Mara, resuming the stand for cross-examination, was questioned about the contract he alleged Tunney entered into with him for 10 per cent of the proceeds of the first Tunney-Dempsey fight in 1926 and 20 per cent of the proceeds of the champion's future earnings if he won the world's heavyweight title, which he did.

Mara admitted he had done nothing to earn the 25 per cent cut of Tunney's earnings as champion, because Tunney never signed the contract, but said he believed he had earned the 10 per cent by helping bring about the first Dempsey match.

The defense contends Mara was promised a "cut" of Tunney's earnings if he would bring the fight to New York, overcoming opposition of the New York Boxing Board, which had insisted Dempsey fight Harry Willis, first Tunney contends Mara's failure to gain sanction for the fight here, causing it to be taken to Philadelphia, automatically terminated the contract.

"REDS" DEFEATED BY NATIONALISTS

Shanghai, Nov. 3.—(AP)—Government troops routed Communists today in western Kiangsi province as the first move in a campaign to end the orgy of killing and plundering by Reds and bandits in central and south China.

Nationalists marching southward from the Yangtze river surprised a considerable body of Reds, defeated them in a brief fight and forced them to flee in confusion. Military dispatches said pursuing troops expected to capture the Communists.

Several other government columns totaling 100,000 men were reported advancing from Hankow, Kiangsi and other Yangtze cities against the outlaws who have plundered China many months. Gunboats have been ordered to Tungting and Poyang lakes in Hunan and Kiangsi provinces.

Although the Nationalist government announced recently it considered the campaign against northern rebels was terminated, dispatches from Chengchow, Honan province, indicated Nationalist detachments were continuing hostilities against Generals Seno Yu-Hsiang and Yen Hsi-Shan in Shansi province.

Four Nationalist airplanes from Chengchow bombed the headquarters of Yen Hsi-Shan and returned to Chengchow.

POLICE COURT

Charles J. Pickett of 39 Cambridge street paid a fine of \$100 and costs for driving an automobile while under the influence of liquor, and \$25 for injury to property in the police station. Pickett was represented in court by Attorney William J. Shea. He was placed under arrest a week ago yesterday after he had an accident at Main and St. James streets. He was arrested by Patrolman James Horton and Dr. Lundberg was called to examine him at the police station. Both the doctor and the patrolman stated that he was intoxicated. While he was in the cell Mr. Pickett became very nervous and injured the plumbing. The fine and costs, amounting to \$144.93 was paid.

George E. Shippee of Bloomfield, N. J., was arrested Saturday for speeding. A bond of \$25 was posted for his appearance this morning and when the case was called he failed to appear. The bond was therefore forfeited.

James E. Muliane of Windsor paid a fine of \$10 and costs for speeding. He was arrested by Patrolman Joseph P. Frutkin.

The case of William Finkbein was continued until tomorrow morning. He was accused of breaking a window in a store Friday night. A bunch of Halloween celebrators were throwing apples and he was brought in.

Over the weekend 18 persons paid a fine of \$2.00 for failure to observe the stop signs at streets going on to main thoroughfares.

There is a vague suspicion the architects are strongly backing the move for windowless buildings. It will mean fewer drafts, you know.

HURT AS PLANE FALLS

Redding, Conn., Nov. 3.—(AP)—John B. McLachlan, 30, president of the Byron Hat Co., and vice president of H. McLachlan Co., Danbury hat manufacturer was suffering today from injuries received in an accident to a plane he had owned two weeks.

His nose and several bones in his face were broken when his plane fell after striking the top of a tree while attempting a forced landing on the Fellows Estate.

Officials at the Danbury Airport said McLachlan and his brother Arnold took off yesterday for a short flight. Trouble developed and they were forced to land at Arnook, N. E., New Canaan and Norwalk. At one of these stops Arnold left the plane and his brother continued alone in an attempt to fly the plane back to Danbury.

COUPLE RUN DOWN CROSSING STREET

M. E. Worsaa and Wife Injured When Hit by Glen Richards' Machine.

Maurice E. Worsaa, a semi-invalid, and his wife, Clara, only a short time out of hospital after an operation, were struck by an automobile driven by Glendinning Richards, son of N. B. Richards, well known business man, while they were out for a walk on Center street, nearly opposite police headquarters, about 7 o'clock last evening.

Mrs. Worsaa was seriously injured, suffering concussion of the brain, a probable fracture of a knee cap and cuts on the head and face. Her husband's hurts consisted of a scalp wound and cuts and abrasions on the legs and one hand. Mrs. Worsaa is in Memorial hospital. Worsaa was taken to his home after being treated at that institution.

Both Ailing The Worsaa's have neither of them been well for some time. The husband is tuberculous and his heart is not too robust; he has not been able to work regularly. Mrs. Worsaa's recent operation was the second, both major, within twenty months. They live in the house that stands on town property back of the Connecticut Company's office near the Municipal building.

Last evening, accompanied by their two children, they started out to take a walk. The children, preceding them, crossed the street. The parents, moving more slowly, saw that they would have to wait for the passage of an east bound trolley car and halted in the middle of the west bound car track.

One Driver Stops Fred Richards, of 28 Flower street, driving west in his automobile saw them and came to a stop. Richards, driving in the same direction and behind Dart, swung to the left, passed Dart's car and ran down the waiting man and woman.

Mr. Dart took both victims of the accident to the hospital in his car. Officer Cassels was sent to the hospital to get the stories of the injured persons and N. B. Richards hearing that his son had been involved in the accident, went to the institution and talked with Worsaa before he was discharged. Mr. Dart left a statement of his knowledge of the accident with the police.

YOSTS CELEBRATE 30TH ANNIVERSARY

Mr. and Mrs. Albert Yost of North Main street were the guests of honor at a large Halloween party at their home Saturday evening, arranged by their friends as a surprise celebration of their thirtieth wedding anniversary. About 50 were present and spent a merry time with dancing and other pastimes. The gathering presented to Mr. and Mrs. Yost a purse of money.

Mr. and Mrs. Yost were married in Rockville but have lived for 23 years in Manchester. They are both active in lodge affairs and Mr. Yost is foreman of Hose Company No. 1 of the Manchester Fire department.

OPENING STOCKS

New York, Nov. 3.—(AP)—Divergent price trends marked the initial transactions in today's Stock Market. Atchison and Gillette lost 2 points, Eastman 1 1-2, Consolidated Gas 1 and United States Steel and Westinghouse 3-4. General Electric and North American sagged 1-2.

Union Pacific and Pullman gained 1 1-2. United Aircraft 1, American Power and Light 3-4, American Can and Columbia Gas 1-2.

The market rallied briskly before the end of the first half hour, however, as the early selling was quickly absorbed, and shorts covered their contracts in advance of the election day holiday. The week-end business news was scarcely of a character to influence the market, and the list appeared to be governed by technical considerations.

Western Union rose 3 points, perhaps influenced by an earnings estimate indicating that the dividend would be covered with a little to spare. Allied Chemical dropped nearly 4, then converted its loss into a gain of 2. Auburn, after selling off 2, sold up about as much.

U. S. Steel, American Telephone and General Electric converted small losses into fractional advances. Shares gaining a point or more included American Water Works, Westinghouse Electric, Eastman, Bethlehem, Loew's, North American and American and Foreign Power. Utilities were conspicuously buoyant.

Gillette dropped 2 points to a new low at 25, then recovered. Burroughs Adding Machine declined 2 to a new bottom at 23. Foreign exchanges opened steady with sterling cables at \$4.85.

GERMANY FAVORS WORLD ARMS CUT

Diplomats Believe Next Year Will See All of the Nations Signing the Pact.

Berlin, Nov. 3.—(AP)—So far as Germany is concerned the session of the preparatory disarmament commission, scheduled to meet again at Geneva Nov. 6 is likely to be the last one.

Count von Bernstorff and the German delegation, who are leaving tomorrow, have been instructed to bend every effort to have the preparatory commission give way to a full conference of the powers in 1931.

So insistent is Germany that the preliminaries be ended that the Cabinet does not deem it essential for full agreements to be reached now on draft convention. Germany rather proposes that whatever draft convention may find maximum support should be submitted to the powers together with a minority report and with memoranda from all powers participating in the preliminaries setting forth their respective attitudes.

War Materials German official circles expressed the feeling that further preliminary discussion of the difference between the French and German attitudes on the question of war materials and trained reserves is futile and might as well be transferred for thrashing out to a meeting of the powers.

The French position is that trained reserves and accumulated materials shall not be considered part of the strength of armies and navies whereas Germany and Great Britain hold a contrary thesis.

World Disarmament "We aim at getting a gate fixed some time in 1931 for a world disarmament conference irrespective of what reports may be drawn up at the coming Geneva session," said a foreign office spokesman.

Meanwhile the German government as well as the disarmament delegation has been watching the parleys of Hugh S. Gibson, American ambassador to Belgium, at

TRIAL PUT OVER

New York, Nov. 3.—(AP)—Trial of mail fraud charges against Philip Gunder, Howard H. Gunder, Roland H. Randall and Everett J. Sturges, former banking commissioner of Connecticut, was put over to the December term in Federal Court today.

The case grew out of operations of the Bankers Capital Corporation and its subsidiaries. Defense counsel asked for the delay, which was granted over objection of Assistant Federal Attorney Kleid.

ENGINEER DESCRIBES START OF R-101 TRIP

Says Water Ballast Had Been Released As Stern of Big Dirigible Seemed To Be Too Heavy.

London, Nov. 3.—(AP)—J. H. Binks, engineer and one of the survivors of the R-101 disaster today told the special court of inquiry into the loss of the dirigible that the ship did not leave her mooring mast on an even keel at the start of the tragic voyage to India.

The engineer said that the R-101 seemed to fall at the stern as she left the lower and three water ballasts had to be released. It is not unusual to release water ballasts but it seemed abnormal to him to release three, although he did not think that anything was wrong except that the ship seemed very heavy.

Binks is still under hospital treatment after his escape. He gave his testimony with difficulty, and showed the stress of great emotion as he recalled the horror of the last minutes of the trip. Once during his testimony Sir John Simon, chairman of the court, halted proceedings for a few moments to allow him to regain control of himself.

Most of Binks' testimony consisted of a prepared statement, which was read to the court. An atmosphere of tension hovered over the court as the story reached its climax of the crash and explosion.

"I turned to Artie Bell," the court heard, "and I said to him, 'It looks like it's all up, Artie.' Then the flames burst around us and the water tanks broke. We were almost drowned but that flood probably saved our lives."

Arthur Bell, another of the engineering crew of the dirigible, also testified today he was on duty with Binks on that last night.

Another witness was Major J. P. C. Cooper, inspector of accidents for the air ministry. He told the court that his examination of the wreckage gave no grounds for supposing that the big dirigible broke to pieces in the air.

The United States immigration border patrol was started on July 1, 1924.

NEW LONDON FARMS ARE ON DECREASE

Washington, Nov. 3.—(AP)—Although the total acreages in farms has decreased since 1920, the value of land and buildings of New London county farms for 1930 shows a gain of approximately \$2,000,000 over 1925 and about \$4,000,000 over 1930, the department of commerce reported today.

The 1930 farm census disclosed a total of 2,325 farms in the county as compared with 2,454 in 1925 and 2,747 in 1927. The acreage of all land in farms is 248,197 in contrast to 267,399 five years ago and 287,576 a decade ago. The total value of land and buildings as disclosed by the 1930 survey is \$18,017,935 while in 1925 the value was \$16,593,715 and \$14,148,861 in 1927.

The average value of land and buildings per farm showed a distinct gain, it being \$7,750 in 1930; \$5,855 in 1925 and \$5,151 in 1927. The per acre value was \$72.30 in 1930; \$62.06 in 1925 and \$49.20 in 1927.

The census showed that owners operate the majority of the farms, the number being 2,088; 78 are operated by managers and 163 by tenants.

A decade ago 2,329 owners operated their farms while managers operated 110 and tenants 308. In 1930, 53,906 acres of crop land were available, 46,001 acres of which were harvested, 1,081 falling to yield crops and 6,814 being idle. In 1925 65,582 acres of crop land were available, 60,684 of which were harvested, 396 falling to yield, and 2,335 being idle.

Way to Get At a Cold Is Through the Bowels

As soon as you catch a cold, the pores close; perspiration is checked; acids and waste can't escape through the skin. That's why your doctor's first advice in case of colds is a mild-laxative like Cascara. Medical authorities agree it actually strengthens bowel muscles. You get cascara in its most pleasant form in candy Cascarets.

Remember this when you catch cold: whenever breath is bad; tongue coated; or you're headachy, bilious, constipated.

Why resort to harsher things when Cascarets activate the bowels so quickly, so harmlessly and pleasantly—and cost only a dime? Adv.

G. O. P.'S CAMPAIGN EDUCATIONAL ONE

Experience Paramount in Public Office Candidate Rogers Asserts.

New London, Nov. 3.—The Republican campaign has been more of an educational type than one of blaring stump speeches and promises.

His speech, in part, follows: "The campaign now coming to a close is one of facts against theories. It is a campaign where the people of Connecticut on Tuesday will decide whether they desire to continue sound experience and an impressive record of achievement, or undertake a number of new and untried experiments."

"The big asset of the Republican party's ticket is experience. Lack of contact and lack of personal knowledge of the conduct of the state's business is a gigantic hurdle in the path of the Democratic party this year. On the contrary, each man on the Republican ticket has had from four to more than twenty years' experience and responsibility in one position or another of authority in Connecticut's official life."

"Our opponents have attempted to develop various issues and they promise many things. It is often a pleasant pastime to make promises without regard to the expenditure which would be necessary, to fulfill them. Millions of dollars would be required to undertake even two or three of the things which the Democratic party has held out to the people of the state in this campaign; things which to them presented the possibilities of gaining votes."

"In the larger centers of population the Democratic campaign has been of one type; in the rural communities it has been different. Promises, without regard to sensible facts behind them, have been made by my opponent, and I would like to call your attention to just one advertisement, published in a small weekly paper in the southern part of the state. Concerning the Democratic candidate for governor, the following statement is made: 'He promises abolition of the confiscatory tax laws, beautification of highways, growth and preservation of shade trees, additional public parks and the old age pension.'"

"Here is a caricature statement. Of course people in Connecticut would be delighted to abolish tax laws and while our public park system is already extensive, it would be more delightful to add to it considerably. Just how many millions of dollars are involved in even this small statement?"

"Personal contact and personal experience with the affairs of Connecticut, and more particularly with her financial setup, which has been so successful in making her an outstanding political unit in this country, would have undoubtedly prevented such statements and promises being made."

"The solid background of experience and the sound and sensible campaign the Republicans have conducted, dealing with facts and actualities; the continuation of the state's well-balanced policy of spending no more annually than can be raised without undue burden on those paying the bills, the taxpayers, will leave Connecticut facing the election on Tuesday with prospects of a substantial and emphatic Republican majority. The business man, the employer, the working man, the woman of the state, the professional man and woman, and the large majority of the voters of the state will hesitate to vote for candidates whose advocacy of so many different things would mean a tremendous increase in our taxes in Connecticut."

STRANGLING IN SLEEP

New York, Nov. 3.—(AP)—Last night Dewey M. Parker, a former seaman in the Coast Guard, reported to police he had found Mrs. Dolores Gordon, 31, strangled to death in his Bronx apartment. Today Parker was arrested for murder, although he said he was innocent after an all night questioning. He said he found Mrs. Gordon's body when he returned from a walk shortly before midnight. Medical officers believed the woman, with whom the seaman shared his apartment, had been strangled in her sleep.

H. S. SENIORS SELECT WASHINGTON ROUPS

Get Early Start to Offset Reversals Business Depression May Give Them.

Although the present economic depression prevents the making of any very definite plans for the High School Washington trip, the Washington Trip Fund campaign will be launched as in previous years, but will be conducted in a less pretentious manner than has been customary in order to meet with the present conditions. This has been done so that, if conditions should warrant the trip next spring, the class will be prepared for it. Although the groups were announced last Thursday for the first time, two of the groups have already made definite progress towards raising money for the fund.

Group III sponsored a social hour after school last Friday and reported that it was a very successful venture. Group II has plans under way for conducting a benefit bridge and whist tournament for the fund. A committee composed of Charlotte Rubinow, Virginia Straughan and Francis Harrington are in charge of this enterprise.

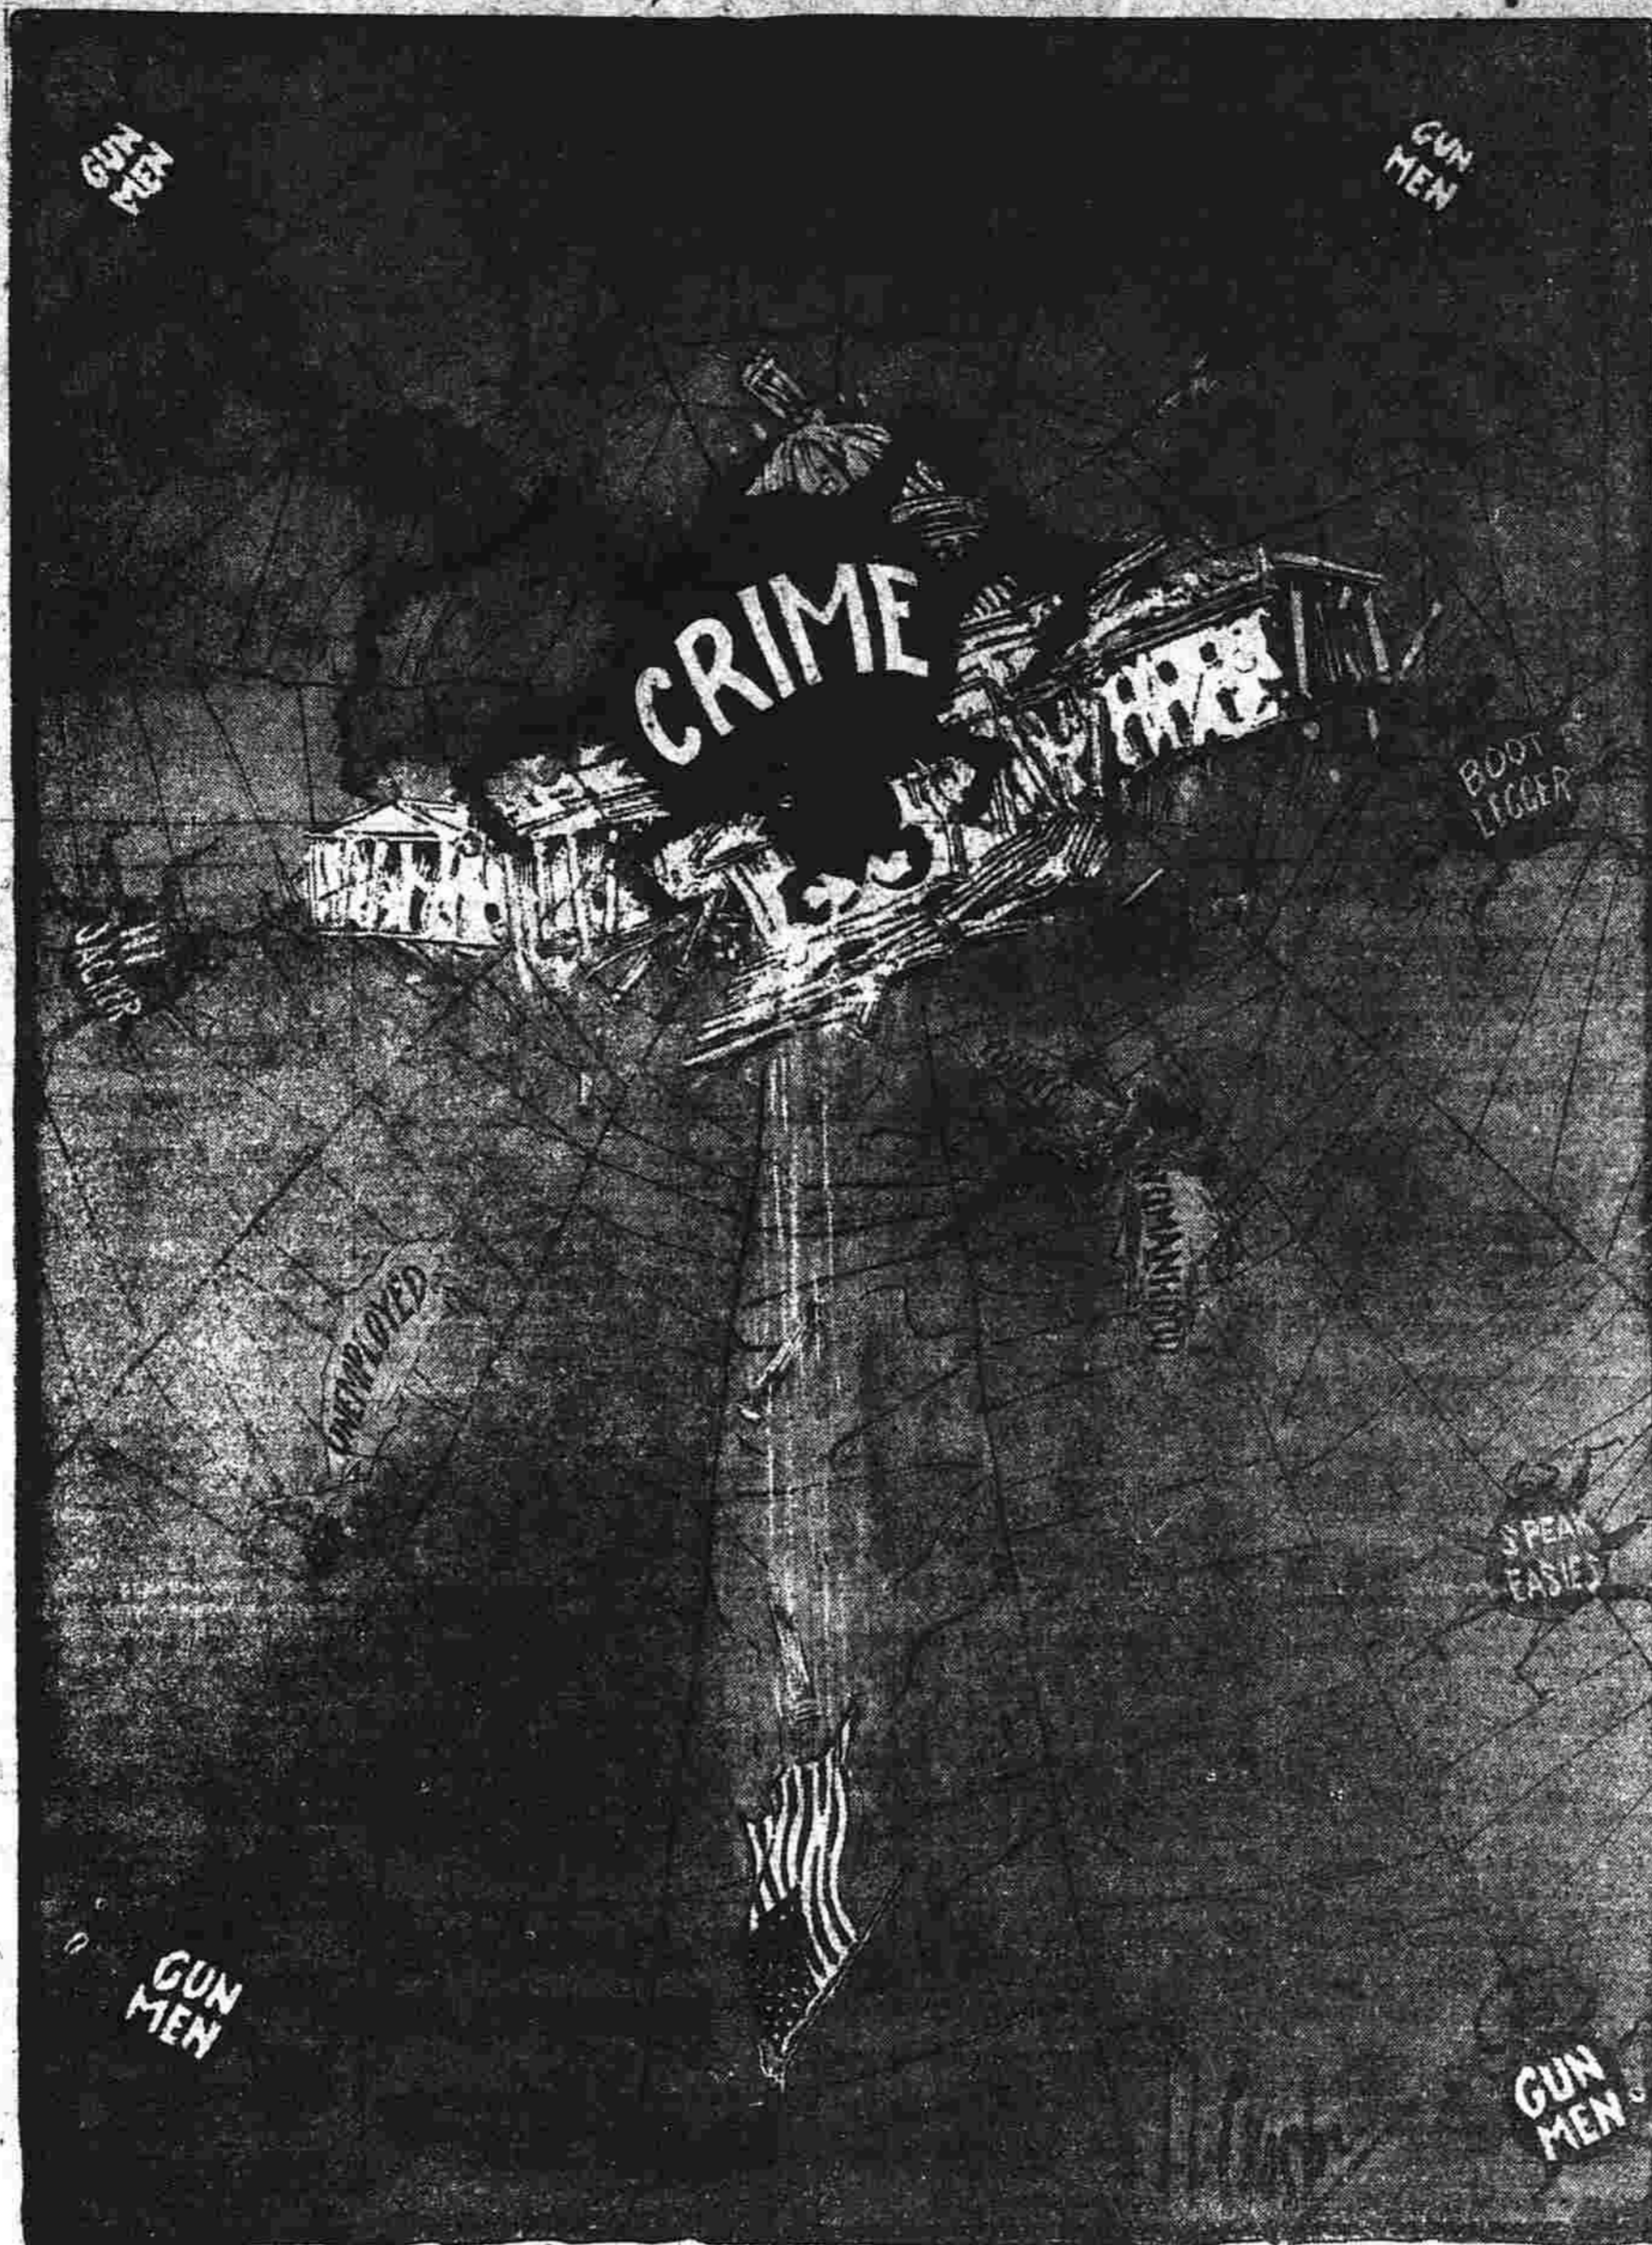

The Washington trip groups are as follows:

- Group I: Ermanno Garaventa, Ruth Tivnan, group leaders. George Bantly, Susan Barbarian, Herbert Bengston, Hans Beach, Sherwood Brown, Margaret Bushnell, Clement Fantom, Daniel Foley, William Fox, Dorothy Fraser, Marion Fraser, Kenneth Hudson, Edward Hunter, Stewart Hyde, Marion Jones, Austin Johnson, Cora Kingsbury, Astin Krause, Elizabeth Litwinski, Henry Matson, Marian McLaughlin, Francis McVeigh, Edward Moran, Anna Mrosek, Marjorie Paton, Elsie Peckham, William Peterson, Doris Rogers, Eugene Rossi, Josephine Sapienza, Marion Sheehan, Dorothy Silk, Gene Siskner, Clara Strickland, Ralph Swanson, Edna Thrall, Doris Turkington, Joseph Twaronite, Marjorie Waddell, Ednah Warner, Viola Weigold.

Group II: Hewitt Wilson, Lucille Murphey, group leaders. Felix Bars, Vivian Breese, Norman Campbell, Dorothy Chapin, Russell Clough, Evelyn Custer, Joseph DellaFera, Merion Ferris, Beulah Filbig, Roy Fraser, Francis Harrington, Rebecca Harris, John Hendon, Ernest Irwin, Carl Jamroga, Raymond Jewell, Virginia Johnston, Richard Joslin, Harry Juul, Edna Kennedy, Marion Keeney, Virginia Lowell, Evelyn Machell, Amelia Marouski, David McConkey, Elizabeth McGill, Violet Mercer, Samuel Felice, Doris Nelson, Fred Polman, Elsie Robinson, Charlotte Rubinow, Margaret Smith, Virginia Straughan, Victor Swanson, John Tierney, Mary Thomson, Elmer Trombly, Lucy Waddell, Edward Werner, Inez Burnham.

Group III: Arthur Davis, Mary Donnelly, group leaders. Paging the Citizens!

RAISE THE FLAG AND RUB OUT THE GUNMEN!

Billions of dollars roll in annually to a criminal government—protection money paid by helpless citizens who also contribute toward the billions of dollars paid annually to the United States Government in the shape of income taxes and other taxes. When these billions of dollars in taxes are paid to the United States Government, it is naturally assumed that that government will give the citizens compensation for their money, and will protect them against racketeers and gangsters who would not hesitate to tear down the flag that was never dipped in battle. Until some decided move is made, we

are under two governments. Which government shall we pay?

If I seize this opportunity to fence with our Chicago monarch and tinkle him under the nose with my feathered rapier, please do not misconstrue my fencing in such a way as to think that I am not appreciative of the passing of the saloon. Perish the illusion! I am merely the king's jester, but while acting in that capacity, I reserve the right to refrain from paying homage to King Al Capone the First during his bullet rain over the sweet "Land of Liberty." Watson, with her friend Miss Victoria Heywood, have returned to their home at East Windsor Hill, after spending a very pleasant summer at Martha's Vineyard. The Federated Sunday school held their annual Halloween social last Friday evening, at the Parish House, with an attendance of about between 75 and 100, and nearly all were in costume. The prizes went to the following children: the prettiest dressed girl, Eleanor Thresher; the girl best dressed as a boy, Mabel Hack; the funniest little girl, Junior Rose; the funniest little boy dressed as a girl, Philip Pierce; the most original girl, Ruby Hack.

PINCHOT SEEN A WINNER

Philadelphia, Nov. 3.—(AP) Gifford Pinchot, Republican nominee, and John Hemphill, Democratic-Liberal swung into the final day of their campaign for the governorship today, each expressing confidence that they would be returned the winner. Hemphill claimed a majority, but said he preferred not to "indulge in any bombast" about his size. Pinchot said "the fight is over. We have won." A number of Republican leaders are supporting Hemphill. Plans to prevent tampering with the ballot boxes here after the polls close tomorrow night have been announced by Mayor Harry A. Mackey, who is supporting Pinchot. The mayor asserted that opportunities for ballot frauds were never greater than at present and announced that he would stay up all night if necessary to make sure all ballot boxes reach City Hall "by the most direct route and in the shortest possible time." After election day, Mr. Mackey said every division in the city would be canvassed for evidence of fraud.

OPEN FORUM REPUBLICAN VOTE MEANS CERTAINTY

Unrest Over Tariff Caused Depression—G. O. P. Victory Will Steady Things.

Editor, The Herald:

To paraphrase the expression "pigs is pigs" to "politics is politics," or in other words that Republicans will vote Republican and Democrats will vote Democratic, is hardly enough in considering the importance of Tuesday's election.

Three estimable men said to me on Saturday evening: "Eliminating political bunk, Willard, just what effect will Tuesday's election have upon our condition of unemployment?" That is an intelligent and at this time particularly important question and as I am not seeking office I think I can answer it without prejudice.

Unquestionably one of the contributing factors to our present business depression was the delay in definitely settling the tariff question. We are not discussing here the soundness of that tariff. The point I make is that the delay in settling the tariff question kept manufacturers in such a degree of uncertainty that they felt forced to retard manufacturing with the result that thousands have either been thrown out of employment or have been working upon greatly reduced schedules.

When the political complexion of the country is known on Wednesday morning manufacturers will make a decision. If the country remains Republican, they will feel that they may start production with assurance of the protection of the present tariff. If the country goes Democratic, they will at once revert to a position of uncertainty and production will again be at a standstill. There is not an economist in the country, Republican or Democrat, who will question the truth of that statement. Hence, a Republican vote means a vote for the earliest possible recovery from this depression. For that reason, every logical thinking working man and woman, whether employed or unemployed, will vote Republican because "self-preservation is the first rule of man."

Next, the Democratic nominees have very largely confined their claims for election to their advocacy of the repeal of the Eighteenth amendment and the Volstead act. I agree with a statement in a Democratic paper that full dinner pails are of far greater importance than full whiskey bottles. Booz

Heart Hungry

LAURA LOU BROOKMAN
AUTHOR OF "BABY ROMANCE"

BEGIN HERE TODAY
CELIA MITCHELL, 17, leaves Baltimore where she has lived with her seamstress mother, MARGARET ROGERS, to join her wealthy father, JOHN MITCHELL, in New York. The parents are divorced and Mrs. Rogers is a widow following a second marriage.

BARNES SHIELDS, young newspaper photographer, is in love with the girl, Mitchell asks EVELYN PARSONS, beautiful widow, to introduce his daughter to other young people. Mrs. Parsons agrees, considering Celia a means to win Mitchell's affection. She soon becomes jealous of the girl and schemes to get rid of her by encouraging a romance between Celia and TOD JORDAN, fascinating but of dubious character.

Although Mitchell forbids Celia to see Jordan she goes about with the young man frequently. LISI DUNCAN, a girl of Celia's age, becomes her loyal friend. Shields comes to New York to work for a graphic service and meets Celia. She tells him she has lost her heart to Jordan.

Realization that it is really Shields she loves comes to Celia when the building is imprisoned. She escapes unharmed except for a broken arm. Shields calls but Celia has no opportunity to talk to him privately. Mrs. Parsons, who pretends to be friendly to Shields, goes to see Mitchell at his office.

NOW GO ON WITH THE STORY
CHAPTER XLV

The man looked as though he had been struck. "Celia?" he cried. "What's happened? What's the matter?"

Evelyn Parsons met his gaze unflinchingly. "It's going to be difficult to tell you," she said. "I only learned it this morning. As soon as I could I told Mitchell."

Mitchell seemed to be stunned. Apparently he did not hear her words. "God God!" he cried. "She's not hurt, is she?"

Evelyn shook her head. "Celia has not been hurt. Nothing has happened. Nothing—yet!"

The man's answer was a blank stare. "May I sit down?" Mrs. Parsons asked quietly. "I'll try to tell you as quickly as possible."

She took the chair Mitchell pushed forward and sank into it gratefully. Then she leaned forward, hands clasped together, and let her deep blue eyes rest on his.

"I learned today," she said slowly, "that Celia has been meeting a young man secretly for several weeks. I'm afraid she has also been continuing the one with Tod Jordan, the man you forbade her to see."

Mitchell's exclamation was short, half inaudible. "I thought it was my duty to let you know," Evelyn went on. "Since she's staying with me I feel responsible. It's made me perfectly miserable, John! I wouldn't believe it if I hadn't heard it with my own ears. This morning I picked up the telephone to call Frankie Marlow and I heard a man's voice."

"At first I thought there was something wrong with the service, and then I heard Celia answer. She asked him to meet her this afternoon, and I distinctly heard her use the word 'dear'. Well—of course at that I felt it was something you should know, so I listened to the conversation. It's something that has been going on for weeks. Oh, you see, think that if your child could have deceived me so!"

"Have you any idea who the man is?" Evelyn shook her head. "I don't think I recognize the voice. I don't think I've heard it before. Neither could I catch the name she called him, but there were terms of endearment. The thing has upset me so I'm not myself. Suppose it's another fortune hunter—like Jordan. Or it might even lead to blackmail. There's the Mitchell name to think about! That's why I came to you immediately."

"I can't believe it," John Mitchell said slowly. "I can't believe it of Celia!"

"Of course you can't. Neither could I. What are we to do, John? What must we do?"

"Why do you think she's been seeing Jordan?"

"I'm not sure about that. It's only that I'm afraid it's true. You see, after the shock this morning I began to realize that, although Celia and I have been such close companions, there have been several afternoons and evenings when I've had engagements and supposed she was at home."

"It asked Reese, my maid, if any young man had called to see Celia. She said yes, there was one who had come several times. Then I asked her to describe him, and she said his name was Mr. Jordan, and her words fit Jordan perfectly. I met him, you remember, the night of Celia's birthday party. It's only

a servant's word, and I wouldn't accept it as final, but I thought you ought to know."

John Mitchell was on his feet. He crossed the office, turned and strode back.

"Tell me what you heard over again!" he exclaimed.

Mrs. Parsons repeated the story. There were a few sly allusions to the ingratitude of a young girl who could impose upon the trust and kindness of such a father. Constantly Evelyn repeated that she herself did not want to believe the evidence. She had loved Celia like a daughter. She was devoted to the child. That was why she could not look on and let the girl ruin her life.

"What I can't understand," Evelyn said in her soft voice, "is why she shouldn't have brought the young man to the apartment and introduced him instead of meeting him—in a park? You know we don't have anything to encourage her confidence. Of course if it's someone she met through Jordan that might explain it. Celia knows I was aware you had forbidden her to see him. Oh, I do hope it's nothing dreadful!"

Mitchell clasped his hand down on the desk. "If Celia's broken her word to me," he declared darkly, "she's going to pay for it. I gave her warning."

Evelyn touched a dainty handkerchief to her eyes. "But you mustn't be hard on her," she begged. "She does seem to be such a sweet child. After all, I'm sure she can't have meant any wrong."

Craftily she shot a quick glance at Mitchell and then added, "perhaps Celia's not to blame. Do you think possibly it might be her mother's influence?"

"What do you mean by that?" Mrs. Parsons's eyes were downcast. "I know her mother's story, John. I was only wondering if it's true that 'blood will tell'. Celia is her daughter as well as yours, you know."

When she glanced up she saw that John Mitchell had sunk back in his chair. He looked like a man in torment. Evelyn remained silent, but suddenly Mitchell aroused himself.

"Did you speak to Celia about this?" he asked.

"Oh, no! I thought that would be your place, John."

"Perhaps it's not so bad as it looks," she went on. "I'll give you some explanation. I'll come with you now and ask her—"

Mrs. Parsons interrupted. "You've said the very thing I hope," she said, "that there is an explanation. But it seems to me there's a better way to be sure. Celia said she would meet this man at 3:15 at Central Park Plaza. If you could arrange to be there you'd soon learn the truth. Since you've told me what a dangerous character Jordan is, I can't help worrying for fear this may be an accomplice. Don't you think you should go yourself?"

Mitchell nodded in agreement. "You're right," he said. "I'll be there. Then I'll leave you now. You're a busy man, I know, and I must be on my way."

But before Evelyn rose she put a hand on the man's arm. "The child is dear to me," she said softly. "Very dear. But, John, it means even more to me to understand what you're suffering. Oh, I do pray Celia hasn't proven unworthy of you. I do hope she hasn't harmed the Mitchell name! You see, I couldn't bear to have it happen again. I couldn't bear to have your heart broken!"

Evelyn's low voice held more than tenderness. No man could have mistaken its meaning.

Mitchell's hand covered hers. "Thank you," he said huskily. "Some day I'm going to be able to tell you all you've meant to me."

"But if this thing is true," the woman persisted, "and Celia has broken her word, will you send her away?"

The man's face colored darkly. "It may be best," he said. "Well see."

Evelyn pressed his arm lightly and without another word departed. After she had gone Mitchell sat frowning for a moment, then picked up the manuscript before him. Five minutes later he cast the sheet aside, rose, took his hat and left the building.

At one o'clock Evelyn and Celia had lunch together. Mrs. Parsons said nothing of her morning errand. She announced that she had to be at a dress shop for a fitting at 2:30. The black moire which she had ordered was not coming along at all as she wanted it.

"Well, I'll have to be thinking about what you're going to take on your trip abroad," she told the girl brightly.

Celia agreed indifferently. She took no interest in the meal and was not inclined toward conversation. Mrs. Parsons asked her plans for the afternoon and Celia answered that she intended to take a walk.

"If you haven't anything else planned why don't you come with me," Evelyn urged a malicious light in her eyes. "Perhaps we could pick up the right kind of a topcoat for you. Bendel's usually are very good and you'll need something warm for the ocean trip."

Celia declined—much too promptly as she would have known if she had been skilled in the art of deception. Her excuse was a flimsy one. She wanted to have another look at a little shop window on Madison avenue, providing she could first find the shop. It was really going to be another exploration trip, she said.

"Oh, you're not going to the park today?" Mrs. Parsons inquired coolly.

"No, I—well, perhaps later," the girl floundered. She was flushing painfully, but Evelyn let the subject rest.

By 2:30 Celia was out of the building. It was one of those sunny, leisurely September afternoons. The air was cool enough to be agreeable, but it lacked the tang and crispness of later fall.

She chose a circuitous route because she had several minutes to waste. Her color was high and she was aware of a pleasurable excitement. A ship window gave back her reflection and Celia discovered that she had been smiling, immediately her face sobered, but she could not quiet the singing of her heart.

Over and over again it was singing: "Barney Shields. Barney. I love you!"

She glanced at her wrist watch. Three o'clock, and she had abundant time to spare.

Celia crossed Fifth avenue and took up her stand near the Plaza. There was plenty of action and color to keep the time from dragging. Children with nursemaids. Two elderly men talking. A woman with a handsome Harlequin dress on a leash. Young men and groups of girls. Motor cars flashing by, and a high-topped green bus.

She saw Barney coming toward her. He was early, too! Celia's pulse beat more rapidly.

"Sorry you had to wait," Shields greeted her.

"That's all right, Barney. I didn't mind a bit."

The girl's smile was glorious. Barney's face brightened.

"Want to walk?" he asked.

She nodded and they turned into

Your hair is the little Judas in your make-up. It betrays you, instantly. Care for it and it glows brightly. Neglect it and it looks speak twice as loudly about it.

Hair should have natural oil in it. That keeps it healthy and glossy. If it is brittle, dies after the comb when you brush it, and your scalp feels dry and as if it needed a drink, then you are in dreadful need of a good tonic.

Get one for dry scalps, some tonic that is put out by a reputable firm. Such a tonic has some oil in it to supply the scalp with the much needed sustenance that the scalp would have itself if it were in prime condition.

Apply this tonic night and morning for a few days. The best method of application is to use a tiny pad of cotton. This gets the tonic into the scalp and not all over the hair. Pour a little tonic out into a saucer, about two tablespoons should be sufficient to use it carefully. Sit before your dressing table, part your hair down the middle. Dip your cotton pad into the tonic and pat it all along the part. Then make another part from the crown of the head out to the front, an inch or so from the center part. Pat tonic into it, make a third part and so on until your hair resembles a wheel with tonic saturated spokes running out from the crown which corresponds to the hub of the wheel.

When your scalp is thoroughly covered, then take the tips of your fingers and massage gently in a rotary manner, by tracing your thumbs on the back of your head and moving just your fingers. The idea is to get the scalp so loose that it will move easily.

For several days apply the tonic night and morning, and after massaging, then brush the hair its 100 strokes. When the month of care is up, get a hot oil shampoo instead of just an ordinary one. Several months of such care will put new life and luster and manageability into the most fly-away dry hair. Moreover, it will give your scalp a sense of peace and ease which will mean much to your nerves.

The park. Shields matched the rhythm of her footsteps, and for a few moments they walked silently. Then Celia glanced happily into the young man's face.

"I've been wanting to talk to you, Barney," she said softly.

"Been wanting to talk to you, too?"

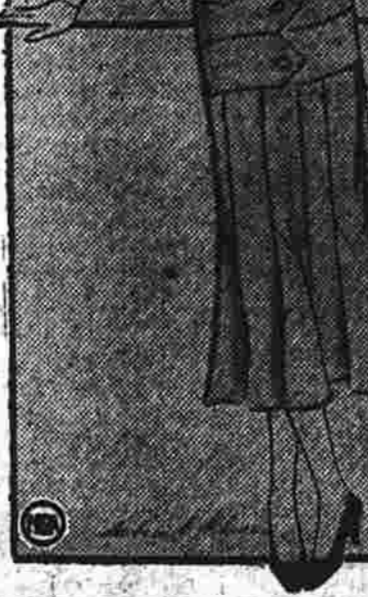

It was then that John Mitchell interrupted. (To Be Continued)

"WORKING CLOTHES" TAKE ON A TOUCH OF ELEGANCE

SMARTLY-TAILORED WOOL CREPES FOR WINTER ARE SERVICEABLE AND FLATTERING.

Granted it is smart to work these days, it is smarter still not to look as if you do.

You can get such smart, wearable crepe and woolen frocks this winter that you feel like a lovely lady while you do your eight-hour stint.

If you are one of those women who must have a bit of white or light blue tone about her face, be sure to get detachable collars and cuffs. There is no denying that this lingerie touch takes years from you by its softening influence.

Admirable for office wear is a bright blue wool crepe from Chanel with a gracious line to it and hairs worked out in interesting manner. There is a removable girdle of biasque which can be used to lead a double life, first as a tailored button-down-to-the-ankle tunic, second, as a softly opened collar and vest.

There is no denying, however, the elegance of a dress tailored so perfectly that it can scorn the addition of any additional touches. Such a one is a heavy crepe Vionnet, in a rich green, made with inverted pleats and an unusual closing with square bone buttons in tan. There is a tan leather belt to match the buttons, not the dress, which is a new style note.

WOMEN'S LEAGUE PLANS ITS PROGRAM FOR 1931

Convention of Women Voters to be Held in Bridgeport on November 19 and 20.

The principal business to come before the annual convention of the Connecticut League of Women Voters will be the adoption of the proposed study and activity program for 1931. The convention will take place at the Hotel Stratfield in Bridgeport, November 19 and 20.

The suggested study program will emphasize two lines of research: public finance as related to all phases of government and factors which may contribute to the prevention of juvenile delinquency. The proposed support program, comprising measures which the League will back in the 1931 Legislature, will include jury service for women, a shorter working day for women in industry, increased appropriations for the State League of Women Voters which can study and carry out preventive projects in public welfare, state aid for special classes for handicapped children, redistribution of state aid for schools and abandoned young.

Convention delegates will also vote on the proposed budget for 1931 and will elect eight directors at large to serve as members of the state executive board for one year. Other officers elected in November, 1929, are serving a two year term.

The President's cup, given annually to the County League which has shown the greatest amount of growth during the year, will be presented by Mrs. William T. Hinckley of Bridgeport, chairman of the cup award committee.

GEN. BETHUNE DEAD

London, Nov. 3.—(AP.)—Lieutenant Sir Edward Cecil Bethune, noted cavalry leader, who raised and commanded Bethune's horse in the Boer war 30 years ago, died in London Sunday at the age of 75.

Bored with inactivity and a long illness, General Bethune recently advertised in newspapers for mental work which he could perform at home. No pay was expected by him. As a consequence of the advertisement he became interested in Braille printing for the blind.

The advertisement read: "Elderly gentleman, partially confined to home through illness, asks suggestions for interesting and useful occupation requiring mental but not physical energy. No remuneration required."

It was said the old soldier felt his handicap of inactivity to a degree that few men would. He received many replies to his advertisement.

He was appointed a lieutenant-general in 1913 and in the early years of the Great War served as director general of the territorial force.

The fact that Hitler, German Fascist leader, is followed about in public by women who call him "Adolph" suggests the suggestion that the same there is a big-time grocer does here.

HEALTH

HOW METAL LUNGS WORK

Patient Can Eat, Drink and Sleep While in Respirator—Many Lives Have Been Saved.

By DR. MORRIS FISHBEN
Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine.

The publicity given in the press to the use of the device for artificial respiration developed by Doctor Philip Drinker of the Harvard School of Public Health has given it an unusual interest in the public mind.

In San Francisco two patients simultaneously required the apparatus when there was only one available and the physician had to make a choice as to which patient should have the chance for life. As a result newspapers in San Francisco conducted a campaign to provide every large hospital in the city with one of these mechanisms.

In Chicago a nurse who developed infantile paralysis has been kept alive for several weeks, spending practically all her time in the respirator and is now able to breathe spontaneously for 15 or 20 minutes when outside the machine. It seems likely that eventually she will make a complete recovery.

Doctor Drinker has just made available a record of cases up to June, 1930, indicating the usefulness of this device for the saving of life in various types of diseases. The respirator is a sheet metal tank equipped with a comfortable bed and mattress. The patient's head is outside, passing through a flat rubber collar attached to the body of the machine.

By means of electrically-driven blowers and appropriate valve arrangement the air pressure inside the tank is changed alternately from a little below negative pressure to normal air pressure. As a result, the patient's chest and diaphragm expand and air is inhaled. Without having the pump stopped, the patient can eat, drink and sleep while in the device.

Forholes are available for giving treatments and removing excretions. Sometimes it is desirable to remove the patient briefly in order to change the position, and thus to prevent congestion of the lower part of the body.

By June, 1930, there were 12 of these devices in use in New York and two in Boston for grown-ups, and there were also several available in Boston and Philadelphia for children.

Among the kinds of diseases that are treated are infantile paralysis, in which nerves controlling the breathing are paralyzed; cases of gas poisoning, in which, in addition to being put in the machine, the patient is given regular inhalations of mixtures of oxygen and carbon dioxide; cases of unconsciousness due to taking of too much alcohol or narcotics; cases of drowning; cases in which the breathing fails after operation due to shock, and cases in which infants are born asphyxiated.

The general type of cases seem to be especially important since the method is simple and far less likely to injure the infant than manual methods involving the use of sucking or swinging or otherwise putting a strain on the tissues of the chest.

The development of this device, which costs approximately \$2,000, is an example of the way in which modern engineering and mechanical skill are being turned toward the saving of human life.

No doubt, the time is not far distant when it will be important for every large hospital to have a competent engineer available for the setting up and operation not only of such devices as this, but also of oxygen chambers, exercising machinery, electrical and X-ray apparatus, and other methods of great importance in the treatment of disease.

YOUR CHILDREN

By OLIVE ROBERTS BARTON

The ice man carried in a piece of ice and after taking out the milk bottles, lettuce and cold ham that had been put in the wrong place, carefully let down the frozen block into the ice chamber.

But the ice of the day before had not completely melted, the refrigerator was small, and do what he would the lid would not go down.

So he took his tongs and chopped off the offending corner. Ice splinters falling in all directions he packed in the loose pieces around the edge and was just letting down the lid when an irate lady flew into the kitchen.

"What are you doing?" she demanded.

"Just trying to fit the ice in," he said.

"Well, you won't do that trick again," she said. "Wasting good ice that way! I'll report you."

"Go ahead, ma'am."

"You ought to be reported anyway. Why don't you come in and see how much I need before you bring a big hunk like that?"

My friend says your regular order is 50 pounds Monday, Wednesday, Friday, and Saturday. I have to obey orders."

"That doesn't make any difference. You should come in and look."

The Child Overheard

"Gee, whiz, lady, the wagon's down a block; we work from there and I can't make two trips to every house. Anyway I have to obey orders," he repeated. "Can't change it unless it's changed in the office."

"Well, I'm tired of your ice company, anyway. It never was any good. And you are impertinent. Never come into my house again."

"Very well, lady."

"I fixed him," she snapped as the door banged.

Edith liked the ice man. He always gave her pieces to chew and let her ride on the step sometimes. She clutched her doll and stared at her mother with unhappy eyes. There was something that made her feel awfully bad always and that was when her mother scolded people. She felt terribly embarrassed now. What would the ice man think of her after being so kind and every-

thing.

She didn't say anything but went out to play. Presently her mother came out to the yard where the laundry was hanging up the clothes.

"Jenny, that shirt looks faded. What did you do to it?"

"Nothing," said Jenny, with a blubbery lip in her mouth.

"Take that out and talk to me right. Tell me what you did to that shirt."

"Nothing," said Jenny more clearly.

"Don't lie to me. I know you did something. You're getting careless. I've a notion to discharge you."

Hurt, Sensitive Feelings

Edith slipped around front. She liked Jenny too. Jenny had just been telling her about her own little girl. She didn't play any more then. Her morning was spoiled some way. She wished her mother would be nice to people. She was always after somebody or other. She had been going up to her mother's room to play but she guessed she'd stay outside. These thoughts and many more crowded through her mind.

Indirect scolding has a very definite effect on children. If we realized that, we would learn either to guard our tempers or to make any necessary complaints when they are not in earshot.

Majors Win 12-0 But Ockfords Defeat Cubs 7-0

Mantelli, Matthews Feature Majors' Win

Colored Player From Providence Features at End But, Like Mantelli, Will Be Ineligible for Series; Mickle Scores 2nd Touchdown.

The New Britain Pawnees felt the sting of defeat on the football gridiron for the first time this season, yesterday afternoon when they fell 12 to 0 victim to the powerful Manchester Majors at Hickey's Grove before a crowd of close to 2,500 persons.

The Pawnees came to Manchester with a record in many ways identical to that of the Cubs. Prior to yesterday the Pawnees had won only one game, the defeat over the visiting soccerers at Hickey's Grove before a crowd of close to 2,500 persons.

For a while it looked as if they might keep the Majors in check. They had the edge in the first quarter but were outplayed the remainder of the game although never by any disgraceful margin.

The Majors made eleven first downs and deserved both touchdowns they scored. The first one came in the second quarter and the second in the final period.

Mantelli played the entire game at quarterback for the Majors and Matthews was at right end most of the game. Tommy Mickle, regular center, went to New Britain yesterday to visit his brother, Arthur who is in prep school.

Very Strong Defense. A major punt which was downed out by New Britain's goal post put the Pawnees in a bad way late in the second period and the kick from behind the goal line only carried to the 15 yard line.

The second score came as the result of a well earned break. Once more it was the aggressive Matthews who provided the spark that caused the configuration.

CHOCOLATE-LA BARBA MEET IN RING TONIGHT

New York, Nov. 3.—(AP)—A couple of little fellows in New York and two pairs of big fellows in Chicago head the week's boxing schedule.

Chicago again presents King LeVinsky, a light heavyweight, in a ten-rounder against Jimmy Slattry Thursday. In the second half of a double whammy, Otto Von Porat, Chicago heavyweight, tackles Jack Renault.

Mickey Walker, the middleweight champion, who wants to fight as a heavy, gets a chance to show what he can do, with Johnny Risko, the Cleveland rubber man in Detroit Friday night.

EAGLES AND CLERKS IN SCORELESS TIE

Manchester and Rockville Teams Unable to Punch Over Score in Game at Hickey's Grove.

The Eagles played a scoreless tie with the much improved Clerks of Rockville, yesterday afternoon at Hickey's Grove.

The Commercial Bowling League will get under way this evening with all eight teams swinging into action. The watches will be at Murphy's and Farr's alleys.

In case of a tie game in either the first or second game the following game will count two games. In case of a tie in the third game two boxes to be rolled by each player.

Following are the team numbers: 1. Hon Am. 2. British Americans 3. Center 4. Construction 5. Holy Five 6. Oaks Service Station 7. Pirates 8. Young Timers

New London Eleven Scores On Forward

Cubs' Offense Again Fails to Yield a Single Score But Line Defense is as Strong as Ever; Gadois Stars for Visitors.

Yesterday afternoon at Mt. Nebo, the Cubs, for the second time in as many weeks tasted defeat by the margin of one touchdown.

Local Sport Chatter

The Ockfords brought along a lively cheering squad for the Mt. Nebo game Sunday. They had some real college yells, and every time the Cubs made a good play they gave a hearty cheer.

From no less an authority than the trainer, came information Sunday that George Gadois, the 43 year old fullback who played the full game for the Ockfords Sunday, is a former Notre Dame player.

There is another member of the same family on the team. He is Francis Gadois, who formerly went to West Point, George, however, is the big star.

Manchester High is playing West Hartford over at the West Side field this afternoon. The visitors are undefeated and hope to tie the Bristol for the C. I. L. title.

In case you don't know, the town football championship series starts a week from next Sunday at Mt. Nebo. The teams will play the two out of three victories. The games will not count this year in deciding the issue.

The Majors will enter the series heavy favorites to win for the first time in several years. General belief is that they will by one or possibly two touchdowns.

You know the Cubs have been held scoreless in every game but one this season and the Majors defense is no sieve. Obviously, if either team should win by a big score, the Majors stand the best chance.

When the Irish go to play Southern California, they will feel right at home as to what an old trouper with the road show.

England defeated Ireland at soccer the other day, the reason probably being there were no Savoids, Caridocs or Schwartzes on the Irish team.

Forget your mistakes. Think of the quarterback who calls an end run when he should have kicked— with \$5,000 field generals in the stadium.

SATURDAY'S COLLEGE BATTLES IN BRIEF

HARVARD'S SURPRISE Cambridge, Mass.—An alert William Stearns yesterday took advantage of a number of Harvard miscues to prevent the Crimson's victory from crashing into the victory column as it battled its way to a 13-10 tie with the Husky Harvard before 20,000 spectators, who were held spellbound by the sensational play.

Although it had its goal line crossed on the second Harvard rush of the game, the Southerners came back with a sting of feet, and the Crimson's power during the second quarter, when Walker, leading scorer of the conference, crossed the line on a 30-yard pass, and Hanley dashed 60 yards after receiving a lateral pass.

New York—Fordham fought its way through to another victory by turning back a courageous West Virginia eleven at the Polo Grounds by the score of 18 to 2.

Chicago—Princeton and Chicago battled their way into darkness and a scoreless tie at Stagg Field and the little series between the two teams now stands: Chicago, 5; Princeton, 1. A crowd of 23,000 witnessed the game.

YALE VS. ALFRED New Haven, Nov. 3.—(AP)—After two successive Saturdays of hard, bruising football, Yale's gridiron looks today to be headed toward a week of comparative ease.

The Yale team is not expected to experience any trouble next Saturday along during the week before launching into an intensive drive for the season's wind-up with Princeton and Harvard. The rest, followers of the Bulldog point out, comes opportunely and will give the squad a chance to recover from the assaults of the last two tie games with the Army and Dartmouth.

Philadelphia—The biggest crowd ever to see a football game is expected to watch Penn play Notre Dame Saturday. Every seat has been sold without a public sale and the capacity of Franklin Field is about 75,000.

New York—If Fordham's perfect record is broken within the next few weeks, blame it on Notre Dame. This week the Rams meet Detroit and the following Saturday they take on St. Mary's of California, coached by Bill Madigan, another of "The Fighting Irish."

Williamsburg, Va.—They don't know what a football game is, but they are trying to play one. When the team returned here yesterday the entire student body turned out to bid them welcome.

New Haven—Yale is expected to set a new attendance record this season with its games scheduled. Unofficial records for the six games played set the attendance at about 250,000 while 145,000 more are expected for the remaining three games.

Albany, N. Y.—Scoring in every period except the last, Army defeated North Dakota 33 to 6. The expected strength of the North Dakota eleven proved to be a disappointment as the visitors fought valiantly throughout to stave off the onrush of Army's attack, and the coaches pushed over the goal line five times.

The flower man was a real kind sort. Said he, "I guess I'll be a sport and give you each an extra flower. My, don't they smell real sweet? I've sold more than my share today. This seems a real good spot to stay." "You bet they're sweet," was Coppy's cry. "They're good enough to eat." "Well, don't try that," the man replied. "I'm pretty sure that your inside is no place for such flowers as these. 'Twould likely make you sick. Just carry them around all day and when they wilt, throw them away." And then he held his bunch out and said, "Each one takes your pick." The Tinties did and then they said, "We must be moving on ahead. There are a lot of sights to see and we won't miss a one." "Good bye, good bye," the man cried out. "And good luck as you roam about. I know that, while you stay in Spain, you'll have a lot of fun." It wasn't long till Scouty said,

ARMISTICE DAY MARCH EXTENDED THIS YEAR
 Parade to Go to Depot Square and Counter-March to the Memorial Hospital.

Major John Mahoney, marshal of the Armistice Day parade to be held Tuesday morning, November 11, announced today that the line of march will be considerably extended over that of previous years. As usual, formation will be at the Army and Navy Club, thence along Main street to Depot Square counter marching to the Manchester Memorial hospital where the memorial exercises and the decorating of the trees will take place. Major Mahoney will select his aides within the next few days.

Invitations to participate in the day's program have been mailed to the four military organizations, veterans associations, bands and drum corps. Leading citizens of the community will also be asked to lend their presence on this occasion.

The speaker's committee, whose chairman is President George Kennedy of the Army and Navy Club, is hard at work on this part of the program.

A meeting of the Armistice Day Planning committee will be held Tuesday evening at 8 o'clock at the Army and Navy Club.

SWEDISH LUTHERANS DISCUSS MISSIONS

The missionary service held yesterday at 5 p. m. at the Swedish Lutheran church was well attended. The guest speaker was Mrs. R. L. Winters of Hartford who gave an interesting account of Home and Foreign Missions. Her husband also made a few remarks on the same general subject.

Mrs. Helge Pearson sang a solo, and a committee composed of Mrs. Charles Olson, Mrs. Oscar Johnson and Mrs. Henning Johnson served refreshments after the meeting.

It Makes a Difference where you buy Lumber

We haven't a corner on all the good lumber in the state, nor are we the only concern abiding by the square deal. But we do try to show our customers our appreciation for their patronage in every way that good business practice justifies. When you order a specified thing here you get it—promptly—and at a fair and reasonable price. Remember that when you need lumber!
