

RUSSIAN PAPERS SCORE POINCARÉ

Say France With Poland and Rumania Plans To Move Against Soviet Republic.

Moscow, Nov. 18.—(AP.)—The government-inspired Soviet press today launched a bitter double-barreled attack on Raymond Poincaré, former French president and premier, and "French imperialism."

The attack apparently was an aftermath of indictment last week of eight alleged counter-revolutionary leaders and publication of their "confessions" of negotiations with M. Poincaré, Briand and other European political figures for foreign intervention in Soviet Russia.

Practically all of the space in today's issue of Izvestia and Pravda, official organs, is devoted to a scathing denunciation of M. Poincaré and to publication of two articles by him appearing in the Paris Excelsior of Oct. 30 and Nov. 15.

The Russian papers' editorials point to the first article as revealing M. Poincaré's hatred of the Soviet government and to the second article, which appeared after the counter-revolutionary indictments as revealing a "change of tone in order to conceal his leading role in the preparation for intervention in Soviet Russia."

Both newspapers refer to Poincaré as "Poincaré-War," and it would appear exhaust their vocabularies in describing the French statesman, whom both accuse, not only of planning intervention in Russia, but of being the principal instigator of the world war.

Izvestia says: "No Arabian perfume nor seas of typographical paint will wash the blood from M. Poincaré's hands, or wipe from his forehead the brand 'Poincaré-War.' He is not only the shadow of the past great massacre but he also is the shadow of bloody events of the future."

Izvestia declared: "France is bound by a military agreement with Poland and Rumania. This agreement is directed against Germany and the U. S. S. R. Does Poincaré wish to deny that the French general staff did not work out, with the Polish and Rumanian staffs, plans of war against the U. S. S. R. on the strength of this?"

Pravda adds to the denunciation by saying of Poincaré: "This hyena, which sleeps and dreams of armies of intervention flooding towns and villages of the U. S. S. R. with blood dares to accuse the Soviet prosecutor of involving him with the recent counter revolutionary indictments as a means of propaganda."

MANCHESTER GRANGE TO PRESENT PLAY

"Deacon Dubbs," Rural Comedy, To Be Given In High School Hall Wednesday, Dec. 10.

A three-act play, "Deacon Dubbs," will be presented in High School Hall, Wednesday evening, December 10, under the auspices of Manchester Grange.

"Deacon Dubbs," a clean-cut rural comedy with a feature scene in each act, a country auction, a country wedding, and a husking bee, furnishes plenty of pathos and comedy, and with the following cast should prove a hit:

Deacon Dubbs, From Sorghum Center, West Virginia.—Irving Wickham. Amos Coleman, His Nephew, A young lawyer, George Ruoff. Rawdon Crawley, A Wolf in Sheep's clothing.—Victor Swanson. Major McNutt, Auctioneer and Justice-of-Peace.—H. Louis Weir. Deuteronomy Jones, A Country Product.—James Sadler.

Rose Raleigh, A Brace Little School Ma'am.—Miss Emma Strickland. Miss Philippa Popover, With Both Eyes on the Deacon.—Mrs. Annie Loud. Emily Dale, The Richest Girl in Town.—Mrs. Grace Lathrop.

Trixie Coleman, Full of Mischief.—Miss Ruth Helwig. Yennie Yensen, The Hired Girl from Sweden.—Miss Ruth Wickham.

AGUINALDO ASKED TO LEAD NEW PARTY

Filipino Who Caused Much Trouble To U. S. Generation Ago May Take Job.

Manila, Nov. 18.—(AP.)—General Emilio Aguinaldo, leader of the Philippine insurrection against the United States a generation ago, today was considering suggestions that he head a proposed new opposition political party in the islands.

The suggestion was made at a banquet last night in honor of Isaura Gabaldon, who recently returned from the United States as a proponent of Philippine independence. Gabaldon, former Senator Juan Alegre and others sponsored the proposal. Members of the present minority party joined in the suggestion.

Aguinaldo manifested interest in the proposal and asked for more time in which to reach a decision. However, he expressed doubt whether a man of his years should venture into such an undertaking. The proposed new party would take in the Democrats (minority) party. Gabaldon's address.

Gabaldon in an address attacked Nationalist leaders, asserting they had worked to the detriment of the Filipino people by co-operating with the American government. Manuel Roxas, Speaker of the Insular House, was attacked by both Gabaldon and Alegre for his recent launching of the "New Katipunan" or Nationalistic organization designed to unify various elements behind the campaign for independence.

MERCHANT MARINE ASSISTS FARMERS

Head of Shipping Board Tells Grangers That More Vessels Are Needed Now.

Rochester, N. Y., Nov. 18.—(AP.)—The importance of a strong Merchant Marine to the agricultural interests of the American farmer and the folly of dependence on a commercial rival to carry American farm products was emphasized today in the address of T. V. O'Connor, chairman of the United States Shipping Board, before the 64th annual convention of the National Grange.

Mr. O'Connor used the World War as an illustration in pointing out his conclusion that the domestic shipper will be "left in the lurch whenever stronger interests call for foreign vessels elsewhere."

Fixes Freight Rates. "The fact that foreign ships," said Mr. O'Connor, "cannot always be depended on to serve American interests gives us one of the strongest arguments for building up a Merchant Marine of our own. Another, almost as strong, is that the operation of a fleet of merchant ships under the American flag tends very materially to stabilize ocean freight rates, which otherwise would be fixed arbitrarily by foreign carriers of our exports and imports."

The task of disposing of government-owned shipping facilities and auxiliaries was recapitulated by Mr. O'Connor, as the result of these efforts, he said, the bulk of American shipping now is in private hands, with the day not far distant when private capital will own and operate the entire American shipping industry.

Under private ownership," said Mr. O'Connor, "the enlarged and strengthened by the addition of fast new vessels made possible by the Merchant Marine Act of 1925, will be able to render the American farmer even better service than he is receiving today. The merchant fleet needs the patronage of the American farmer and traveler and we expect the farmers to do their share, for they realize how very important a strong Merchant Marine is to the agricultural interests of the United States."

OPENING STOCKS

New York, Nov. 18.—(AP.)—Share prices were again under pressure at the opening of today's market. U. S. Steel, General Electric, Atchafalpa, American Power and Light, Drug, Texas Gulf, and Auburn lost about a point, and Radio, Westinghouse Electric, Chrysler, Trans-America and American Telephone lost 1/2 to 3/4. Sears Roebuck, however, rallied 1 1/2.

The list was distinctly heavy throughout the first half hour, although losses were less extensive than during the like period yesterday. The Monday reaction appeared to have been a little sharper than expected, and to have brought out further liquidation. The overnight news included the combined condition statement of weekly reporting Federal Reserve member banks for the period ended last Wednesday, showing a drop of \$181,000,000 in loans on securities, against a decline of \$219,000,000 in brokers loans for that week. During the same week, "all other" or commercial loans gained \$48,000,000, and net demand deposits, \$220,000,000.

Union Pacific sold off 4 points, and North American, New York Central, American Telephone, Coca Cola, Northern Pacific and Lehigh Valley, 2 to 3. Shares losing 1 to nearly 2 points included Bethlehem Steel, Public Service of N. J., Electric Power and Light, Anaconda, Cerro de Pasco, Granby, Dupont, Paramount, Union Pacific and Liggett and Myers.

Sears Roebuck extended its gain to 2 points, reflecting declaration of the regular stock dividends, in addition to cash. There had been some expectation in Wall and LaSalle streets that the stock disbursements might be discontinued. Gillette also moved against the trend, gaining nearly 3 points.

SILK FINISHER HURT AS ROLLS CATCH HAND

Pietro Giordano Has Right Hand Badly Cut When It Slips Into Crepe Dryer.

Pietro Giordano, 45, employee of Cheney rothers, suffered severe lacerations when his right hand was drawn between the quetch rolls of a crepe dryer in the Finishing Department of the Dyeing & Finishing mill shortly before 8 o'clock last night. Giordano, who was working on the night shift, lost his balance as he reached overhead to straighten the silk and his right hand came in contact with the sizing rolls. The rolls were turning, but were more than an inch apart since they were not being used on the job Giordano was running. On account of the space between the rolls, Giordano did not sustain bone or tendon injury. He will probably be able to return to work in three weeks.

The injured man himself stopped the machine and was assisted to the Medical Department by Ernest Kjelson and Arthur Hanson. He was treated by Dr. R. P. Knapp, director of the Medical Department. Giordano, who has been an employee of Cheney Brothers for 20 years, is married and has two children. His home is at 43 Spring street.

NO HEARING

Hartford, Nov. 18.—(AP.)—The reply of Colonel G. Osborn, president of the directors of the state prison at Wethersfield to the letter of Burton McIntyre, discharged guard, in which the latter demanded a public hearing, says that such a hearing was deemed unnecessary.

Colonel Osborn told McIntyre that he had been "discharged for the good of the service."

Thieves, says a news item, stole a hot stove in Hammond, Ind. Probably they're mischievous fellows from Chicago's Cook county.

FORD SPEEDS UP WORK DESPITE DEPRESSION

business will continue to grow, the company has nine new plants under way throughout the world, while plans are being formulated for several others not yet announced that will add other millions to the list of expenditures.

Detroit, Nov. 18.—(AP.)—The Ford Motor Company announced today that it is expanding and speeding up its world-wide building program "in spite of the business depression."

The program, major details of which have been announced from time to time, eventually will involve the expenditure of approximately \$60,000,000, according to the company's announced plans. It includes construction and enlargement of plants in the United States, Europe and other sections of the world.

Instead of curtailing activities under present conditions, the company, its statement said, "speeded up its program and thousands of men were given employment in construction work while other thousands were engaged in producing building materials and machinery."

"Today, still confident that its

MAY REPLACE MOTORS ON BIG FLYING BOAT

Bordeaux, France, Nov. 18.—(AP.)—Dr. Claude Dornier, inventor and builder of the DO-X, giant German seaplane, today said that it had been decided to take down the twelve motors of the ship when it reaches Lisbon and have them replaced by a new set of twelve engines. The explanations were in answer to reports from England that he would replace the present twelve motors with eight 900 horsepower British engines.

Experts here believe that the difficulty the DO-X has been having is not so much with the motors as with the magnetos, a report which is lent some color by departure of an engineer of the firm which made the magnetos for Lisbon to be on hand when the seaplane reaches there.

GIVE ANOTHER PARTY FOR MISS WOGMAN

The home of Mrs. Otto Johnson of Russell street was the scene of a surprise miscellaneous shower last night on Miss Ruth Wogman of 21 Stone street, who will be married Saturday afternoon to Theodore Chambers of Hollister street. Thirty people attended and Miss Wogman received numerous gifts.

Advertisement for Waffles! featuring the text: 'Um! Who doesn't love em? A favorite luncheon throughout the country today. By far the most popular thing on the menu of the eating houses in every college town—and why shouldn't they be? Crunchy, golden crisp, served up with plenty of delicious Vermont maple syrup. It Pays To Be A Reader of The Herald

SENSE AND NONSENSE

Some Traffic Rules

- 1-Look out for children. You can never tell what they will do.
- 2-Don't pass a standing trolley car. Some day the jury may call it manslaughter.
- 3-Don't speed around corners. It's a straight route to the hospital.
- 4-Drive on the right side of the road. It's the only safe side.
- 5-The fact that you had the right of way won't bring anybody back to life, least of all yourself. Use discretion.
- 6-Do not stop short without giving warning. The other fellow isn't a mind reader.
- 7-Do not back up without looking to the rear.
- 8-Do not park or pass on a curve or hill.
- 9-Slow down when approaching a cross road. It's nearly as dangerous as a railroad crossing.
- 10-Be courteous to other drivers and traffic officers. Courtesy prevents accidents.

FLAPPER FANNY SAYS

Lots of girls' attractions are based on pretty feet.

Motor Maxim He parked his car Where none could pass; The net result—Demolished mass.

The ultimate minimum of praise is contained in the appraisal made a dealer when you're trying to trade in your old car.

She (anxiously)—Why are you going so fast? He—The brakes won't work, so I want to get home before we have an accident.

Housewives from whose homes the traffic lights are visible, use them in timing their eggs. Three

Stickler Solution

The grocer must mix 83 1-3 pounds of 5-cent sugar with 66 2-3 pounds of 8-cent sugar to get 100 pounds of sugar worth 7 cents per pound.

THE TINYMITES

(READ THE STORY, THEN COLOR THE PICTURE)

Soon Scouty grew real curious and said, "Would you folks, please, tell us just what you do with all your grapes. You have so many here, I'm sure that you cannot eat all of those that you pick every fall. Perhaps you make fine grape juice at a mill that's somewhere near." Then Clowny loudly shouted, "Gee! Some grape juice that appeals to me. I hope that Scouty's guess is right. We'll buy some juice today. Just tell us where to buy a flask that we can fill. That's all I ask. Then, when we've purchased all we want, we'll journey on our way." The Travel Man said, "There's no doubt that your grape juice plan won't work out. These grapes are not made into juice. They're shipped far, far away. In fact they taste and look so grand that, they are sent to every land. Why, even in America folks are buying them today." Poor Clowny promptly heaved a

sigh and then he moaned, "Oh, my, oh my! Instead of drinking grape juice, we will eat more grapes, then go." But Coppy said, "Oh, let's not stuff. Of grapes I think we've had enough. It's really very foolish to get tummy aches, you know." The Travel Man broke the suspense by saying, "That's good common sense. Besides, we may find other fruit that we will want to buy." Then Clowny shouted, "Say! You're right. Just see what walking into sight." Two queer, fruit-loaded donkeys shortly sauntered slowly by. "Wheel! Apples! Apples! They look great," cried Carpy. "My, how kind is fate, to bring these donkeys right by us. Well's this will be my treat." He purchased plenty for the bunch, then merrily began to crunch. And then he shouted, "Try them, lads! They're really nice and sweet." (The Tinymites have some more fun in the next story.)

People, today as through all ages have always had certain possessions which they prized and stored away somewhere for safe keeping to the best of their ability.

Modern People Have The Safe Deposit Vault In Which To Keep Their Valuables

In France the bulk of the nation's wealth is stored in the vaults of the Bank of France in Paris. These vaults are so divided that no one man has access to all of them. They are located over 80 feet under ground in the valley of a subterranean river. The walls are over eight feet thick of concrete and steel impregnated against moisture. The presence of the subterranean river would discourage attempts to reach the vaults by tunneling. They are so equipped with food, heat, ventilation and living quarters that they could withstand a siege of two months by outside forces.

For a very nominal sum you too can have perfect protection for your valuables in the safe deposit vault of this bank.
