Alexander, who has been under heavy attack from the Democrats and who was subjected to more criticism last night, has been working on the report which is expected to be ready by next.

Tuesday. Mayor Turkington, who felt that nothing should be done until afte the report had been presented and atudied by the board, said, "How can you know if you want an andit until you see what the report says? If you're not satisfied with the report, then you can so ahead and order another audit." The pendulum of feeling regarding an independent audi awung from this extreme to the extreme represented by the three Democrats, who were joined last night by Republican Director T. Crockett who got his first of ficial taste of the controvers after more than a month's illnes This faction said that they

favored another audit regardless of what Alexander's report would ahow. "Take Exam Over" Crockett said that allowing Alexander to make a report on the water department's books is "like letting a high school kid take an

exam over again." The central figure between these two positions was represented by Republican Director Harry Firato, who said that while Alexander should be given an opportunity to defend his integrity and reputation by being allowed to present a report to answer the questions that have been raised, he said he saw no harm in setting a date for as public hearing in case another audit was felt necessary. Democratic Directer Melvin Hathaway, who said that Alexan-der never commented on unusual finantial procedures in the auditor's questionnaire which he is required to file with the state after making his audit, said he was

agreeable to hearing Alexander report, but would not be satisfied with it until it was checked by other sources. other sources. Among the "unusual financial procedures" that Hathaway was

referring to was the practice of the water department using money from the town's general fund to pay hills it did not have the cash on hand to meet.

# "Botany"\*\* 500 sharkskin **Tailored by Daroff**

If you're like most men, you're not a marble statue. In the course of a normal day, you walk several miles, even if it's limited to pacing the office floor. And the times you bend, stretch, twist and stoop, are too numerous to count.

The fact is, you're constantly on the moveand you need a suit made to move with you-made to take all this punishment without a whimper. We heartily recommend "Botany" Brand 500 Sharkskin, Tailored by Daroff for this strenuous job. Its 2-ply 100% virgin worsted is a superbly woven fabric, combining two vital basic qualities: an unusually lively spring-back which enables the suit to bounce back to shape despite incessant activity ... And superior strength-leading to those extra seasons of satisfying wear which insure genuine value. Of course, this "Botany" Brand 500

fabric is tailored with equal distinction. This is a rare suit ... and a rare buy at price. Come in today and see for yourself.

the fabric is the \$65 soul of the suit

Local Model Railroad Fans Build Miniature Right of Way in Garage

**Big Scenic Layout Occupies** Energies Of 20 Railroading Enthusiasts Here

BY ALEX GIBELLI Every Friday evening a group of men, sometimes as many as 20, sometimes fewer, gather in a small frame building about the size of a two-car garage on Griswold street near the corner of Center street. The men, who come from Manchester and outlying areas, represent all walks of life and all component of the stars engineers of rupations. Most are engineers of rious kinds, tradesmen, or mabine shop workers. Despite their different back-

unds and interests, they have thing in common-a passion building and operating models the world's railroads, those that I run and those that have been gotten by many but not by the reds of thousands of model road enthusiasts spread over
