"They were packed solid 10 miles out," said Capt. Gordon Ford of the shrimp boat Lucky Star. "We first started seeing them about 70 miles out. They got thicker as we made it to 20 and at 10 miles we were really pushing through them."

The Lucky Star came from Campeche. Similar word came from Capt. Bob Sadler of the shrimp boat Savannah, arriving from Dry Tortugas.

Sadler said most of the dead fish were porgies, grouper and spot

Sader said most of the dead fish were porgles, grouper and spot fish. He said he saw dead fish from a few miles north of Dry Tortugas to Fort Myers beach.

Residents of Sanibel island reported a dark-brown discoloration of water off the island, where thousands of dead fish littered the beaches. Similar water discolorations and many dead fish also were reported by residents on Boca Grande and Captiva islands off the southwest Florida coast.

Tolland, Nov. 12—It was learned here today that a six-year-old local schoolboy played the principal role Monday in Washington, D. C., at the unveiling of a portrait of the late Duncan Lawrence Groner, Sr., former Chief Judge of the U. S. Court of Appeals.

Duncan Lawrence Groner III. a Duncan Lawrence Groner III irst grade pupil at the Hicks Menorial School, pulled the cord that unveiled a painting of his grand father. The Tolland youth, known s Larry, is the son of Mr. and Mrs. Duncan G. Groner. His father, on temporary duty with the Army as a captain at the Pentagon, is a public relations expert.

At the ceremony in addition to Mrs. Groner and Larry's younger brother and sister, were Harold.

## Doctor Says

Periodic Checkups Are Largely Responsible for Disease Pre-vention, Longer Life Span.

By EDWIN P. JORDAN, M. D. Written for NEA Service One of the hardest things fo people to realize is that the dutie of the medical profession include trying to keep people as well as possible and not just trying to cure them when they get sick. Q-Will you comment on this problem which a great many of my friends have as well as my-self? I am the mother of three children, and both my mother and mother-in-law grumble because I take the children to a pediatrician for regular checkups. They say that I am wasting my husband's hard-earned money, and that the children do not need to be taken to the doctor except when they are sick.

A—A generation or more ago it was far less common to take children to the physician for regular checkups than it is now. It was also much more frequent at that time that children died.

The preventive inoculations and other measures which are now given to so many children are largely responsible for the far better chances of growing up which youngsters have today than 50 years ago. How can anyone think it is a waste of hard-carned money to give children a better money to give children a better chance of growing up;

Q Several weeks ago I stepped into a depression in the street and injured my foot in what I thought was a sprain. When two weeks passed and it was not better I went to a physician who took an X-ray and found a fracture of

The doctor said the bone did not need to be set, but found too little calcium in the bone and put it in a cast. Since then it has felt better but a more recent X-Ray showed that the decalcification has progress further. Do you think this is likely to clear up or will it need some kind of treat-

A—One cannot tell from the feeling following an injury such as that described whether the hone has been broken or not. Therefore, in injuries of that sort it is always wise to have an immediate X-ray and not walt.

As to the decalcification, even though the correspondent did not give her age, it seems probable her age, it seems probable this will get better after the foot comes out of the cast and she is able to use it. Of course, if the loss of calcium is too great there is the risk of further injury, but on that matter the doctor in charge will have to advise.

Q-Should people wait two A—It is usually best to walt about two hours after a sizeable meal before swimming, since it takes about this long for the food to leave the stomach. Until this occurs, a good deal of blood is around the stomach and not enough in the limbs, so that there is more danger of developing eramps and drowning.

Q-How can medical science establish that white blood corpuscles are not dying or dead rec Miss G. F. O. A—Because the history of both has been studied and it has been known where they are formed and

Note on Questions

Dr. Jordan is unable to answer directly individual questions from readers. However, once a week, in this "Q & A" column he will answer the most interesting and the most frequently asked questions received during the week.

Ruth Millett 'Overworked' Housewives Are Often Just Time-Wasters

No one puts much value on the housewife's time. But, of all, the housewife, herself, usually sets the lowest value on it.

Take Mrs. Smith as an example. She would tell you that she is overworked and feels as though she will never catch up with all the things she has to do.

Yet Mrs. Smith will spend half an hour of valuable morning time letting a door-to-door salesman try to sell her something she knows she isn't going to buy.

Aimless "Shopping"

She will go to six stores to make sure the piece of chints she is buy ing for a sofa cushion is the prettiest piece of chinz in town.

She will buy groceries every day when with just a little pianning she could make two marketing trips a week do the work of six.

She will run all over the neighborhood looking for Junior when she could buy a whistle and tell him to come when he hears it—or

him to come when he hears it—or else—and that if he is too far away to hear it he is too far away from

Cash Would Save Work
She will it quietly through a meeting in which a group of women decide to have a bake sale to earn money, instead of suggesting that if each person would contribute the price they intend to ask for their cake or pie—it would contribute the price they intend to ask for their cake or pie—it would contribute the price they intend to ask for their cake or pie—it would contribute the price they intend to ask for their cake or pie—it would contribute the price they would contribute the price they intend to the price they would be the price they would be they are they ar cost each woman very little more, and take the cake-baking chore off and take the cake-baking shore off their hands.

She will fume and fuss as she picks up after the family, instead of insisting that each member of the family put his own things where they belong.

It almost seems as though the average housewife would rather console herself with the old belief that woman's work is never done than put enough value on her own time to get here done in a reasonable number of hours.

## Says Doctors Are

Los Angeles, Nov. 12—(P)— A doctor told the Convention of General Practioners that doctors have arrived at the point "where we are prescribing too much medicine and doing it despite the fact we know to little about the stuff we prescribe and even less about the bodies we are treating."

Dr. William H. Gordon, Lubbock, Tex., heart specialist, made the observtaion yesterday, He said also that over-exploitation of medicines is increasing unreasonably the cost of medical care.

"I am convinced that all cold vaccines are worthless," Dr. Gordon said. "A large tobacco company recently proved that its employes had fewer colds when given shots of pure water than when given cold shots."

Dodge was expected to precede

Lodge, Jr. of Massachusetts, who
will be Eisenhower's representative at the State and Defense departments and other agencies in the Truman regime.

The team of Dodge and Lodge may wind up with permanent top seals in the new President's

Preparation.

Preparation of the budget, a book the size of a metropolitan telephone directory crammed full of detailed figures, already has been under way for months. Dec. 15 is the deadline to start it through the printing presses, and Jan. 17 is the deadline by law for submission to Congress. Jan. 17 is the deadline by law for submission to Congress.

Thus Truman, who has responsibility for preparing the new budget, will be in office only three days after he officially proposes it. Dodge indicates he will sit in for Eisenhower merely to familiarize himself with the budget. He says he will neither disagree nor concern on the items to be proposed by Truman. Any changes.

posed by Truman. Any changes, he suggests, can be proposed by Eisenhower in messages to Con-gress after Jan. 20. But Eisenhower's staff, in announcing the liaison appointments said the role includes "represent ing the personal views of General Eisenhower." So the door is open for Dodge to discuss major decisions, even though the final product is still a reflection of the Truman administration viewpoint only.

Administration officials have indicated they will gladly consider any views Dodge would like to

express. In their eyes, here is the broad budget picture Dodge will find as he approaches his job of seeking ways for Eisenhower to fulfill his campaign pledge to reduce what the general called "crazy" federal spending and taxes."

Final recommendations by the Final recommendations by the Budget bureau for major items such as military services, foreign aid and stomic energy have not been completed. Lessers figures already have cleared the Budget bureau and have been approved or

are awaiting action by Presiden For several years, military serv-ices have been building toward a production program for planes, tanks, ships, and guns. Officials efore the new fiscal year begins

July 1. July 1.

Thus the next fiscal year is scheduled to be the period of heaviest actual output. The plants have been built, prototypes developed, and contracts let. The only way big cuts can be made quickly is to cancel contracts of delay deliveries which still must be paid for eventually. Not only have commitments al ready been made for this program, but most of the money already is on hand. Budget officials estimate the federal government will carry over about 80 billion dollars in funds already authorized by Congress but still unspent. All but 11 to 12 billion of this backlog is in the military services.

the military services.

The Atomic Energy commission has embarked on a vost expansion program estimated to cost five billion dollars over several years. Only about half a billion of this is to be spent this year. The atomic expansion will hit full stride next fiscal year, with close to two billion planned for expansion work

See Spending Hike
Total national defense expenditures now run about 58 billion dellars a year. With increased deiveries of hard goods and a two billion dollar atomic expansion un-derway next year, chances are that defense spending will increase rather than decrease. Officials say it's too early to estimate what the final figures will be, but a 64 bil-lion dollar defense outlay would

How about cuts in other areas About 15 billion dollars of annual expenditures are fixed by law—interest on the national debt (a rising expense), veterana benefits, the postal deficit, funds to match

the postal deficit, funds to match state's money for roads and welfare, etc. Cuts are considered impossible or very difficult in most of these fields.

That leaves about five to six billion to operate all other agencies of the government. Some reductions might be possible, but they would be limited as to size.

Different View

That is the administration outlook. The Eisenhower administration may take a different view. For example, the Committee for Economic Development, an organization aponsored largely by businessmen (Eisenhower is a trustee), has said four billion dollars could be saved by reducing waste and inefficiency in military services and almost three billion could be cut from other agencies by reducing some less essential services.

Eisenhower has said he would aim at a 20 billion dollar reduction in federal spending, but he has not said how much he would cut the first year.

Sen. Eugene Millikin, returning to-Denver from a week end conference with Eisenhower at Augusta, Ga, told interviewers "it would be utterly irresponsible for anyone to put a definite date on tax reductions in advance of

BUY YOUR NEXT CAR ON THE BASIS OF ITS RECORD.

It's the new way to choose a family car! On an equal basis, before the eyes of millions, American stock cars show what they have to offer prospective owners in terms of safety, durability and performance. Hudson's all-time record speaks for itself.

MOST DURABLE CAR YOUR MONEY CAN BUY

The features you want in your car. SAFETY, DURABILITY, PERFORMANCE. are proved in these unbiased tests! A with America's other popular makes in stock-tag

To date this year, Hudsons, just like those you can buy from us, have won 44 out of 52 stock-car races, an all-time

record never even approached by any other make. These victories show beyond question that Hudson's exclusive "step-down" design (with America's lowest center of gravity) gives you road-hugging stability no other car can touch. That's safety! They prove Hudson's Monobilt body-and-frame\* is the safest, strongest con-

truction used in any car. That's durable Finally, this all-time record shows Hudson's high-compression engine has all the power that you'll ever need to get you out of tight spots. That's performance! Thus Hudson gives you more of what you need for your daily driving than does any other car.

Riverside, Calif., Nov. 12 (P)

Southern California's most pro-longed siege of smog-five straight weeks has cost farmers from San Diego to Ventura half a million dollars in crop damage, a plant pathologist reported to-

day.

Dr. John T. Middleton, in charge of air pollution research at the University of California's citrus experiment station here, said the loss is equal to that reported for the entire previous year.

Although the commissioners have not committed themselves to opposing the increase, they did say following the meeting with Foulds that the matter would receive further study by them.

The committee of North End residents opposing the rate increase has already retained Attorney John D. LaBelle to represent their interests when the water company's application is given a hearing by the Public Utilities Commission. The hearing has been scheduled for Dec. 1.

Flag Salute Topic Of National Drive

ing the salute to the flag of the United States by civilians is by placing the right hand over the heart, the elbow easy at the side, with the forearm on a diagonal across the breast, the fingers pointing to the left shoulder. Men remove their hats and hold them in the saluting hand.

**Ban All Mention** 

Of Royal Exile

Srinagar, Kashmir, Nov. 12—

(P) — Kashmir's 106-year old monarchy ended today when the constituent assembly voted to delete all mention of exiled Maharaja Sir Hari Singh from the constitution.

The election of a new head of state is scheduled for Friday. The wealthy maharaja's 21-year old son, Yuvaraj Karan Singh, appears to be the assembly's choice. He will be named for a five-year term. Sir Hari left for Bombay in 1949 after clashing with Prime Minister Sheikh Abdullah over an agrarian reform program that included redistribution of the royal family's estates. His son has been acting as regent. Six Hari, in exile, gets an annual privy purse of 1½ million rupees (about \$840,000).

A dispute between India and Pakistan over control of Kashmir has been before the United Nations for several years.

Continue Shooting

Bethel, Nov. 12 — (8) — The case against Sgt. Edward J. Byrnes, 33, accused of shooting at a youth charged with impairing the morals of Byrnes minor daughter, has been continued for a week. Byrnes was charged with assault with intent to kill before alternate trial justice William Clarke here last night. Bond was maintained at \$10,000 and Byrnes was taken to the Danbury jail to await trial. It is charged that Byrnes fired at but missed Thomas Scoffeld with a 45 caliber automatic pistol and then beat him with it. Danbury Police Det. Sgt. James Whitlock said the weapon was found last night in Danbury. Police quoted as saying he was absent without official leave from fort Devena, Mass.

New Wallpaper Fascination "Ideal" is an over-worked word but it does apply to the fascinating WALLPAPERS OF 1953 as shown in great variety at the McGHL - CONVERSE COMPANY, 645 Main Street. We can see them making many "ideal" rooms. The development of textured papers has practically irresistible results in dual tones of one color, in subdued color harmonies with gold or silver, in genteel plaids and even in scenic designs. The formal striped papers maintain dignity but are no longer "stiff" when a color stripe is inter-laced with a white leaf motif. Special bows to youthful interests are a trim Scout print for zerious older boys and an imaginative inter-planetary spacerocket scenic for the younger enthusiagts.

# Poles Sure Reds Guilty For Katyn New York, Nov. 13—07) Poles Sure Reds Guilty Blamed on Provoo Over Korea Nationalists Blast Stalin Over Korea Over Korea

—A former top Polish leader told House investigators to-day that the official Polish government blamed Russia for killing 15,000 Polish officers as soon as the Germans announced finding some of their graves in 1943.

Stanislaw Mikolajczyk, former Prime Minister of the Polish Government in Exile, said the Poles were convinced of Russian guilt because the Soviets had reported the officers were released but the Polish underground could find no tract of them.

No Doubt About It

"There was no doubt for us the Russians had done it." he said.

Mikolajczyk testified before a special House committee investigating the killings in Katyn forest in western Russia. The committee them to prepare for a Sovietized Poland. Moscow blames the Germanz.

Army Chief Warrant Officer Maynard E. Lee, who was one of the war prisoners, said Provoo told him:

"I went to Capt. Thomson several times for coffee, cream and sugar and other things for the Japanese officers. He refused to give me these things. I did not feel he was cooperating and I felt he deserved punishment. So I turned him over to the Japanese after they captured the Philippine island of Corregidor and American troops there early in World War II.
