the excess profits tax would not be broken, indicating he expected some such development on postal rates.

Some Republicans are complaining that Postmaster Genoral Summerfield is trying to rush things too fast by seeking action now on a bill which would boost the regular letter rate to four cents, airment to sight cents and raiss second and third class charges.

The House committee also is reported split, with some indications it might approve a bill to set up a commission which would fix new rates, subject to veto by the next Congress.

Carlson told the Senate yester day that eventual savings up to several hundred million dollars in the Post Office expenses can be made by following recommendations and a course was plotted. The final rollies turned out to be the one matted group, named to assist the Senate committee.

At another night session last night, the House Post Office room mittee voted to hear today all with nesses who had falled a request to be heard up to last night. First, however, it voted down as proposal to end the long-drawn hearings with last night's witnesses.

Both actions were taken by a non-vote margin, indicative of the close division in the committee.

Williams comes out of the Marines Aug. 1 and he will be back with his old club shortly after that. In his absence a bunch of youngsters, many of whom were still in grade school when the slugger first donned a Red Sox uniform in 1939, have caught fire.
