he newspaper is the ONLY medium which tries with every issue to reach every person who is a prospect TO-DAY for the product, or idea, you want to sell.

The atmosphere in newspapers is a favorable one in which to secure action from your advertising. People look for it voluntarily.

In a survey by Northwestern University, 65% of the housewives questioned said they would prefer other media WITHOUT advertising -- while 93% of the housewives prefer their newspapers WITH advertising. This helps explain why there is no medium on earth that is responsible for selling as much goods, day-in, day-out, Summer and Winter, as newspapers.

These two developments are related. And American foreign policy toward a summit meeting may have contributed to both, wittingly or unwittingly.

Bitter Opposition

Khrushchev is a ruthless opportunist. He calls himself a "practicist" — a practical political leader. He has been engaged in a vast reform of the Soviet system, including a reorganization of industry, agriculture and education. The changes he has espoused, particularly those in agriculture, have aroused bitter opposition in the Soviet bureaucracy, and this has been reflected inside the Central Primary Grades 1-3 will be held in the Community House. Bailey Greets

8th Graders

Bighth graders at Manchester High School were welcomed to the rank of high school students by Principal Edson M. Bailey during promotion exercises yesterday afternoon.

Bailey told the class of 1962 they had "two responsibilities." The first is "to the new students. from Barnard, St. James, Bolton and Coventry." It will be up to the youngsters who have already had experience in the high school to help orient the newcomers.

"The second responsibility is to yourselves, to become thoroughly aware of the new scholastic requirements," said Bailey, At no selection to rigorous, he said. The graduates and their parents were welcomed by eighth grades attudent council president Michaele Drapeau, who said. "We are now looking, forward to the next four own."

The presentation of certificates was made by Board of Education member Frank Sheldon, who substituted for the alling George W. Cheney.

Sheldon admonished the youngsters they had 728 days in the next four years to learn what they needed to know for a job or for further schooling. "You must make not only every day but every minute count." he said.

During the program the mixed chorus rang "The Halis of Ivy" and "America the Beautiful." They were accompanied by organist Judith Grant.
