Hartford. May 1 (P)—A bill authorizing a diversion of \$21,500,000 from the highway fund to pay for continued education grants has rolled easily through the state Senate, but it faces a fight when it gets to the House of Republicans to the Democrats and just seven Republicans, but in the 278-seat House the Democrats lead by only two votes.

Before the measure was passed by voice vote, the Senate's GOP members attempted to amend it in such a way that the fund diversion proposal would be killed. This was defeated in a 27-6 roll call.

The bill provides for continuing the \$21-per-pupil grant to towns as authorized by the 1957 Legislature. Towns with special population growth problems would get an extra \$9.50 a pupil. This aid program is expected to cost about \$23 million.

The other part of the bill gives the state the authority to transfer \$21,500,000 million from the state highway fund to the general fund to make up for what is spent on the education grants.

But inasmuch as this particular incident concerns our very esteemed Mayor, and because it happened under unusual circumstances. I feel that it is deserving of special consideration, and special comment.

This statement appeared in the April 16, edition of The Manchester Evening Herald: "A brief speech was given by Mayor Kelly, who lauded the Chamber for its interest and activity in community affairs, and urged that this interest be continued "or the crackpots will take over." This statement would have escaped my attention were it not for the many calls I received from people who found no pleasure in it.

As you might surmise, this statement by the Honorable Mayor, was made on the occasion of the April 15, annual meeting of the Manchester Chamber of Commerce. Having had the pleasure of ob-

From what I have seen of the present administration I conclude that even the "interested and active Chamber of Commerce" would find it extremely hard to defend the deplorable record which has thus far been written by "our extremely well qualified Democrata."

The office of Mayor of the Town of Manchester has heretofore commanded the full respect of the gentlemen who occupied that office.

It is to be regretted that the present Mayor found it so easy and so convenient to separate himself from the high standard of ethics which were practiced by former Mayors Sherwood Bowers, and Harold Turkington, as he crated so impressively before the Chamber of Commerce.

The regulations, the petition stigulates, should empower the commission to investigate a site or sites to be set aside for possible purchase as public park or recreation areas. The commission should investigate whether state funds are available for pask site purchases, and should work with all existing local boards, particularly the Town Planning and Zoning Commission.

According to the proposal, the commission would be required to file a written report containing findings and recommendations with the selectmen within four months from the time of its appointment.

Members of the Capitol Region
Planning Authority, meeting in
Newington last night, informally
voted for a method of raising funds about 100 to 1. "The stated possibility of recovering the Discoverer II capsule launched in April was about 1000 to 1." the source said.

"Discoverer II proved a satellite sould be stabilized in orbit—a pre-requisite for ejecting a capsule over a recovery area. Only a minor malfunction on the ejection-timing device prevented recovery of that capsule on schedule. Discoverer III should have at least as good a chance of recovery as the April should have at least as good a chance of recovery as the April should have at least as good a chance of recovery as the April should have at least as good a chance as much as 10-fold."

The source emphasized this estimate was unofficial. The Air Force had no comment.

How long the four black mice will stay sloft was not disclosed. The Discoverer II capsule, which contained only instruments, was ejected the day after the satellite pold.

Here are a few tentative suggestions:

Why not tax pedestrians? If drivers have to fork up money to get a license to use the city streets, why shouldn't pedestrians be made to pay for the privilege of wearing out the city aidewalks?

The issuance of \$10 a year pedestrian licenses would not only add millions of dollars in revenue to most big municipalities, it would also able them to weed out reckless walkers unable to pass periodic inspection tests.

The event was organized in five panels, each of which was given first, second, and third prives respectively in the poster contest which was held during Library Week, April 12-18. The Art II classes of Mrs, Elizabeth Budd and Miss Lucille Gaudreau made the posters by various methods such as water colors, poster paints and cut paper; and used the theme "Wake Up and Read." Judging was done by the teachers of M.H.S.

The odds and their comparative records and skills are all against the 24-year-old invader. Patterson making his fourth title defense, is a prohibitive 10-1 choice to win. In England the legal bookmakers have made the Yank a 4-5 favorite to stow away the jutjawed Briton in five rounds.

Upsets Have Happened

But upsets have happened before in heavyweight title fights — ask Maxie Baer and Ezzard Charles—and the husky British champ is at least physically equipped to spring one. He will collect \$60,000 for the attempt and is a happy lad already.

with dazzling combinations to that inviting jaw.

The Briton is not boastful and does not flatly predict a victory. He did say: "If Rademacher and Harris can drop Patterson, I can knock bim out. I'm a good finisher. But I'll have to catch him first. He's the champion, you know, and swfully good."

Patterson a modest champion, has respect for the challenger.
