West opened the ten of hearts, and dummy's queen lost to the acc. Back came s low heart and South had the chance to discard.

South discarded the three of diamonds, winning the trick with dummy's king of hearts. He then returned a low diamond from dummy, losing the queen to West's acc.

West returned a heart, and South ruffed, drew trumps, cashed the king of diamonds and managed to set up dummy's ten of diamonds. He was able to discard two

trumps, and lead the three of diamonds toward dummy.

If West plays low, dumfy wins with the king of diamonds. Then declarer can cash the king of hearts in order to get rid of the queen of diamonds. No diamond trick will be lost, and South loses only one heart and two clubs.

If West tries to escape his fate by stepping up with the ace of diamonds, he fares no better. South will be able to win three diamond tricks, discarding two clubs

In Trash Pickup

Trash collections perhaps as often as once a month may be proposed by General Manager Richard Martin in the spring of 1960.

Following a successful trash collection last week in which the town's five new packer-body garbage trucks were used, Martin today said he may consider establishing pickups more regular than twice a year in his tentative 1960-61 budget.

The railroad spokesman said the unmanned locomotive has no dead man control. All Jersey Central passenger locomotives in the state have such devices, designed to bring the engines to a halt if the engineer's hand slips from the throttle for any reason.

According to the spokesman. Some freight locomotives also have the control. He said these are the cones on which a fireman sometimes on which a fireman sometimes must leave the cab to look after his duties in the unit.

On other freight locomotives, such as the runaway, everything is within reach of the fireman in the cab so the railroad does not feel a dead man control necessary. budget.

The collection performed by the a dead man control necessary.

The collection performed by the town's garbage contractor was called a success by Deputy Director of Public Works Chester Langtry, who said it cost about \$1,600 less than having the Highway Division perform the job with open-body trug'', as it has in the past. The Board of Directors authorized the pickup by the contractor and packer trucks to see if, with success, the move could lead to regular collection of trash in the future. Such an increase in services is a platform plank of the Democratic party.

School Crossing Signs Now in Bright Orange

The new signs and the machine that makes them were unveiled yesterday morning to school and safety commission officials by Police Chief James M. Reardon preliminary to installation. Police crewmen began locating the signs ister in the morning.

The signs are made by placing decal transfers onto old signs or new, flat aluminum blanks. The machine that does the trick is a vacuum presser, made especially for the task, and it turns out a complete sign in about four min-

The machine and a selected group of decals were purchased in August with funds from the Police Department budget slated for the purchase of the usual metal traffic signs.

Present figures indicate, Chief Reardon noted, that the machine has already paid for itself.

The new signs feature black letters and a black silhouette of two walking children on a brilliant orange background. Gone will be the yellow school sign showing the black silhouette of a running boy. The new color will be used only for school traffic signs, Reardon said.

All traffic signs in fanchester will eventually take on a new, fresh paint look due to the new do-it-yourself system. Nearly 150 signs have already been refinished with the decal transfer merces.

60 Residents Give Opinions On Consolidated Charter Plan

In an atmosphere of coopera-by population or geographically tion at a public hearing last night was discussed.

Whether the election should be partisan or non-partisan brought out an equal number of pros and governments in Vernon.

The participants some giving their personal opinions and some representing churches or clubs appeared to be considering the problems of consolidation objectively. There was little expression of biased opinion.

Many of those present are apparently fairly new to the community and at least one had not as Red Men's Hall. Refreshments

Many of those present are apparently fairly new to the community and at least one had not heard talk of consolidation until yesterday. Although consolidation has been promoted many times during the past 50 years, Charter and Consolidation Commission appointed by a town meeting last July is the only group ever named to write a consolidation charter for Vernon.

Toward the close of the hearing

Toward the close of the hearing Commission Chairman Robert F Kingsbury summarized the discussions, held in three groups of Baptists to Hear three children. Kingsbury learned from the dis-

Kingsbury learned from the discussion leaders, that there was general agreement on the need for a full time executive officer to run the town, whatever form of government is chosen. There was no preponderance of opinion, however, on whether the executive officer should be a manager or a mayor.

Residents agreed that they should pay in taxes for the services they receive, and pondered whether payment should be made in a graded assessment or on an itemized tax bill. It was suggested that a system of graded assessment would not be acceptable to the assessors who, by law, must assess a house according to its fair market value.

It was pointed out that the tax affor for sewerage and street lighting, the chief services not provided throughout the lown, is as small percentage of the tax picture since education costs account for 75 to 80 per cent of the town budget.

There was also general agreement on the need for a full time executive officer is an analysis of the American Baptist Foreign Mission Societies, will speak at a brief business meeting and devotional period will be led by Mrs. Ellery B. Keith. Members of the Ann Judson Circle will serve refreshments.

The difference in price between today's prescriptions and those of 20 years ago can easily be figured. The difference is measured in dimes . . . sometimes even in dollars. But how can we measure the difference in results? Surely, no value can possibly be put on a life saved by a miracle drug that didn't exist 20 years ago!

Landry's Legions Tops in League

New York's Defensive Unit Rates with All-Time Best

The greatest defense ever? Well, maybe not, but Landry's Legions, the tough-to-crack defensive unit of the New York Giants, certainly must rank as one of the most devastating wrecking crews in professional football history.

Operating in a day and age when the emphasis is definitely on the attack, Giant aide Tom Landry's strong-arm squad is proving week after week that defense can win just as well as offense. . even in modern, high-powered pro ball. The seasoned, unvielding defensive unit that saw the Giants through those hair-raising games en route to the eastern title in 1958 once again has the Maramen in front. And the pattern is the same.

More important than cold statistics are the numerous goal-line stands engineered by Robustelli, swarthy ringleader of Landry's Legions, and his three hulking sidekicks. . aided and abetted, naturally by linebackers Sam Huff, Harland Svare and Cliff Livingston.

Half a dozen times this season, the Giant defenders have repulsed enemy outslaughts within their own 10-yard zone.
