## Strikers Hear Pleas by Union

By THE ASSOCIATED PRESS  
Several thousand striking machinist members at United Aircraft Corp. rallied at a mass meeting today at union headquarters in East Hartford prior to resumption to face-to-face bargaining sessions.

The 7-plant strike, largest in Connecticut's history, is nearly three weeks old and there is still no indication any settlement is in sight. Negotiations of both sides—management and the United Auto Workers and International Association of Machinists—spent the weekend break in talks to draft written proposals, scheduled to be taken up this afternoon.

The theme of this morning's rally in East Hartford, which brought an overflow crowd spreading out into the I.A.M. hall's rear parking lot and packing the interior, concentrated on convincing strikers not to return to work. Machinist union officers and other leaders told the packed hall, and others standing outside and

## State News Roundup

Hartford, June 27 (AP)—The first of the men arrested in the federal-state gambling raids last March, John Rafanello, Bristol, was fined \$1,500 today in U.S. District Court for failure to buy a \$50 gambling tax stamp. He pleaded guilty.

Judge J. Joseph Smith granted a stay of execution for two weeks to give Rafanello time to raise the funds to pay the fine "or be committed."

Atty. Harold Borden appealed to the court in Rafanello's behalf, contending that "he is definitely out of the gambling business now... he has sold the store and is employed in a nursery."

In another case, the New Haven railroad was fined \$100 for violation of an Interstate Commerce Commission regulation which makes it illegal to place a loaded flat car next to a tank car carrying inflammable products.

The railroad pleaded guilty to placing a tank car carrying 20,000 gallons of alcohol destined for a Hartford distillery. Atty. Thomas Brennan, representing the railroad, termed it "an error of omission."

John H. Gienty, Bristol, pleaded guilty to a single count of sending obscene materials through the mails and his case was continued for pre-sentence investigation. 1-12 Helen Keller now 80

# Red Bloc Quits Arms Talk, Ignores New U.S. Proposal

## China Airs Terms for Coexistence

Tokyo, June 27 (AP)—Red China indicated today that acquiring Formosa might be Peiping's price for going along with Soviet Premier Nikita S. Khrushchev's policy of peaceful coexistence with the capitalist world.

Mme. Sun Yat-sen, a vice president of Red China and widow of the founder of Republican China, declared:

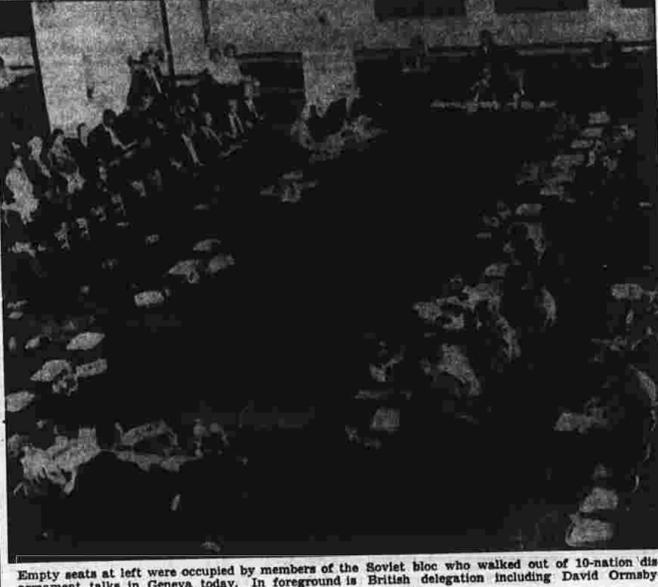

"China is willing to coexist peacefully with anyone, even imperialism. In fact, we have coexisted with it (because) imperialism exists as an objective reality."

But she added: "We will not allow U.S. imperialism to rob us of our own territory (Formosa). We have not won, after untold sacrifices, the independence of our nation and the benefits of our Socialist (Communist) revolution just to give them away under the false illusion of maintaining peace with insatiable imperialists."

Mme. Sun, now 69, is the former Song Ching-ling and a sister of the wife of Generalissimo Chiang Kai-shek, president of Nationalist China, which controls Formosa.

Red China's official Peiping radio broadcast today declared that the Nationalist-held offshore island in the Taiwan Strait was a demonstration yesterday "against U.S. imperialism in protest against the 10th year of U.S. occupation of Taiwan (Formosa)."

A half million people turned out in Shanghai yesterday in a rally demanding the "liberation" of Formosa, the broadcast said.

Empty seats at left were occupied by members of the Soviet bloc who walked out of 10-nation disarmament talks in Geneva today. In foreground is British delegation including David Ornabry-Gore, acting chairman. (AP Photofax via radio from Berne).

## Pole Bars West Bid For Floor

Washington, June 27 (AP)—The United States accused Russia today of shattering "the hopes of all peoples" for progress toward peace by walking out of the Geneva disarmament conference. It appealed to the Soviets to return to the negotiations.

A statement issued by the State Department denounced Russia's wrecking today of the 10-nation parley in Geneva as "both deplorable and disappointing."

London, June 27 (AP)—Soviet Premier Nikita S. Khrushchev sent a new note today to heads of western governments. Its content was not divulged immediately but reportedly dealt with disarmament. The Soviet ambassador in London delivered the note to Prime Minister Macmillan and Foreign Office sources said similar notes were sent to other western chiefs.

## Ike Talks Tonight On Far East Tour

By JOHN M. HIGHTOWER  
Washington, June 27 (AP)—President Eisenhower, back from his 23,000-mile goodwill tour of the Far East, tells the nation tonight why he reportedly considers it a big success despite cancellation of his Tokyo visit.

He may discuss his remarks today with his cabinet. His speech from the White House at 7:30 p.m. (EDT) will be carried nationwide by television and radio. Advance reports are that he will stress behind the scenes work in strengthening U.S. ties with the allied countries he visited.

The Chief Executive returned to the capital yesterday exactly two weeks after setting out on the trip which took him to Alaska, the Philippines, Formosa, Korea and Hawaii.

He was to have visited Japan as the climax of his tour beginning June 19 but Prime Minister Nobusuke Kishi withdrew the invitation when left-wing and Communist-led riots against a new U.S.-Japanese security pact caused him to decide he could not guarantee the President's safety.

Stepping jauntily down the ramp from his jet airliner at nearby Andrews Air Force Base, Eisenhower appeared tanned and ready for the days of golfing in Hawaii.

"How was your trip, Mr. President," a reporter asked.

"Oh, pretty good," Eisenhower replied.

Vice President Richard M. Nixon and Secretary of State Christian A. Herter headed a group of cabinet and other officials, as well as foreign diplomats, who welcomed him home.

The President told Nixon and Herter he wanted to get the cabinet together. They replied they would be ready to meet any time, but he said that first he must get some sleep. He had about 4½ hours of sleep during the 10-hour flight from Hawaii, broken by one refueling stop at Travis Air Force Base in California.

The President's speech was largely written when he reached here, but presumably was subject to changes on the advice of his officials. He had worked on the text during his 6-day visit in Hawaii where he spent the time that previously had been allotted for the stop in Japan.

Advance word was that Eisen-

## Helen Keller Now 80

Eaton, June 27 (AP)—Helen Keller turned 80 today and marked the occasion by traveling to New York for a private luncheon in her honor.

Only relatives and her closest friends were invited to the luncheon sponsored by the Gotham Hotel by the American Foundation for the Overseas Blind Inc.

Yesterday there was a birthday party at Mrs. Keller's Arcan Ridge home, attended by her sister, friends and members of her staff of five. A large birthday cake highlighted the occasion.

Miss Keller, blind and deaf since infancy, has stepped up her activities in an apparent attempt to still the sorrow brought last spring by the death of Polly Thompson, her companion and secretary since 1914.

Miss Thompson had been ill for three years before her death and Miss Keller limited her activities more and more during that period.

"She is trying to forget," Mrs. Evelyn Seide said yesterday. Mrs. Seide directs the staff.

Congratulatory messages continued to pour into the Keller home today.

She'll be back under her own roof by nightfall after her 115-mile round trip by automobile.

## First President Sworn in for Second Congo

Leopoldville, Belgian Congo, June 27 (AP)—Joseph Kasavubu was sworn in today as the first national president of the Republic of Congo. He promised to observe the law of the Congo and to carry out his duties faithfully after independence comes Thursday.

In what some listeners in the joint session of parliament regarded as a warning to the Soviet Union not to interfere in Congo affairs, Kasavubu said any foreign aid to this new republic must come from nations "whose relations with us will not be dangerous and lead us into new bondage."

Urging his people to assist him in guaranteeing their country a major place in Africa and the world, Kasavubu said the Congo will open its frontiers to international commerce and will apply for membership in the United Nations and continue to rely on Belgian economic assistance.

## Governors Feuding Rockefeller Refuses Pledge to Aid Nixon

By THE ASSOCIATED PRESS  
The race of politics quickened today. One state heard last minute campaigning. Presidential candidates personally appealed to another state's Democrats. And governors met and maneuvered.

The maneuvering took place in glacier National Park, Mont. site of the governors annual conference.

It involved an attempt yesterday to put Gov. Nelson A. Rockefeller of New York on the spot and an accusation, quickly denied, that Sen. Lyndon B. Johnson of Texas was using his legislative power to draft a new Senator tomorrow.

The appeals involved a meeting in another part of Montana. Sen. John F. Kennedy of Massachusetts and Stuart Symington of Missouri attend the State Democratic convention in Helena today.

The campaigning took place in North Dakota, where one candidate for a new Senator tomorrow. The results could affect the farm policy

## Cubans Probe For Cause of Havana Blasts

Miami, Fla., June 27 (AP)—A spokesman for La Cruz (The Cross) said today agents of the anti-Castro organization in Cuba touched off the explosion that rocked Havana last night.

La Cruz announced last February that it was starting a program of terror and sabotage against Fidel Castro's regime.

Earlier this month, spokesmen said La Cruz members tried to assassinate Maj. Ernesto (Che) Guevara, key Communist in the Cuban government, but the attempt failed and one of Guevara's aides was killed.

Havana, June 27 (AP)—Cuban Army officials sought today to determine the cause of a munitions dump explosion that rocked Havana with the force of an earthquake. They said it was premature yet to say anything about the origin.

The semi-official newspaper Revolution reported the blasts which stunned Havana and shattered windows over a 4-mile area just before 7 p.m. last night led to three deaths—two men killed and a woman who died from the excitement.

Hospitals listed 148 injured, many with minor cuts from broken glass.

Prime Minister Fidel Castro ordered the Havana Bay site of the

## Bulletins from the AP Wires

IRWIN RAPS NHRS  
New Haven, June 27 (AP)—A Connecticut Congressman today accused the financially plagued New Haven Railroad of being "inefficient and unsafe." Rep. Donald J. Irvin, who represents Fairfield County and its commuters, also opposed a further fare increase for the line until completion of an investigation by the Interstate Commerce Commission. His remarks were contained in a statement prepared for the opening session of the full-scale ICC investigation, presided over by Commissioner Charles A. Webb.

HOUSE VOTES TAX BILL  
Washington, June 27 (AP)—The House today passed legislation continuing \$4 billion worth of tax cuts that would expire Thursday midnight unless Congress acted. Passage was by voice vote. The bill went to the Senate, which is expected to act promptly to the White House with the final favorable congressional vote. The measure, which also sets the national debt limit at \$293 billion for the next year, is a compromise between versions passed earlier by the House and Senate.

KENNY FUND INVERTED  
St. Paul, Minn., June 27 (AP)—State investigators charged today that money intended for the Slater Elizabeth Kenny Foundation was improperly diverted during its nationwide fund raising drives. In one campaign in 1958, Atty. Gen. Walter Mondale said, 98½ per cent of the public contributions were paid out for mailing, promotion and other fund raising activities, leaving 1½ per cent for medical purposes. From 1952 through 1959, he said, only 47 per cent of the \$30,674,000 contributed to the foundation was left for hospitalization, treatment, research and training facilities.

APPEAL DENIED  
Washington, June 27 (AP)—The Supreme Court today dismissed an appeal by five Negroes convicted of trespassing on a former municipal golf course in Greensboro, N. C., which was leased to private operators who maintained a segregated policy. Justice Stewart, announcing the High Tribunal's action, said the case had to be dismissed because it presented no federal question.

## Senators Rap Lack of Policy In U2 Incident

Washington, June 27 (AP)—The administration's handling of the U2 spy plane case lacked direction more than anything else, says the Senate Foreign Relations Committee.

The committee, after hearing testimony from several top administration officials, made public its critical report Saturday night. It said the incident at least gave Soviet Premier Nikita Khrushchev an excuse for scuttling the Paris summit conference.

Committee members generally agreed that administration leaders, the White House, State and Defense Departments, the Central Intelligence Agency and other agencies showed a lack of centralized control. The main committee report said:

"At crucial points the coordination broke down... there are few, if any, references in the record to direction and this seems most lacking in this period."

"If this direction is not to come from the White House, then it ought to be made clear by the White House that it is to come from the State Department."

## Ryan in Russia—1

## Many Soviets Doubt Nikita Telling Truth

(NOTE)—William L. Ryan has revisited the Soviet Union. This is the first of five stories in which the Russian-speaking news analyst compares the Russian of Stalin and Khrushchev, pointing up the problems that today's Soviet leader faces in trying to discredit the United States. Ryan wrote these unexpurgated dispatches after leaving Moscow.

By WILLIAM L. RYAN  
(AP News Analyst)

The citizen of Moscow, expert at spotting foreigners, approaches you shyly.

"Excuse me," he says. "Are you German?"

You shake your head.

"English?"

You say you are American. The shyness vanishes. He breaks into a broad happy smile and shows you with questions.

The pattern was much the same in many an encounter during long walks in Moscow's hot summer sun.

The smiles are tokens of one of Nikita S. Khrushchev's big worries. Many Russians are not willing to believe all he tells them about the West.

That is a factor behind the Kremlin's strenuous campaign to blacken the name of President Eisenhower and vilify American leadership. But my experiences coupled with samplings by competent western observers in the capital and countryside, indicate

## Typhoon Rips Luzon Island, Death Toll 100

Manila, June 27 (AP)—Nearly 100 persons were reported dead and several hundred are missing tonight after Typhoon Olive raked the main Philippine island of Luzon.

Manila, a city of two million, was partially paralyzed by the 30-mile-an-hour winds and driving rain of the storm, which hacked a north-west path across Luzon late Sunday and Monday and then churned into the China Sea.

Reports reaching Manila from southeastern Luzon, which bore the brunt of the storm, told of possibly 60 dead in Albay Province, another 21 in the province of Camarines Sur and Camarines Norte, and more than 500 fishermen missing in this area.

Seven deaths were reported in the Manila area from drowning and electrocution. There were reports of six deaths, possibly more, in other southeast Luzon areas.

Luis Lee Bano, a mayor of Legaspi City in Albay Province, merged President Garcia, that 10 deaths occurred in this city; Maj. Eduardo Larcia, police constabulary commander for Albay, said 50 other deaths in the province.

Philippine News Service carried the reports of deaths from Camarines Sur and Camarines Norte, which adjoin the province of Albay. The deaths included 19 previously reported missing in ship disasters off the coast. Five others are still listed as missing.

## Lipstick Color Bill Awaits Senate Vote

Washington, June 27 (AP)—It's now pretty much up to the Senate whether women can continue buying lipsticks in their favorite color.

The House passed Saturday a bill which would relax current legal restrictions against the use of some coal tar colors in cosmetics. At the same time, the bill would prohibit use in cosmetics, food and drugs of any color additive which can produce cancer in test animals.

The relaxation as it applies to lipsticks would permit use of certain colors in limited amounts even though large quantities of the color—although not causing cancer—might be harmful.

The Food and Drug Administration, contending it now has no authority to permit even limited use of potentially harmful colors, has started proceedings to halt the use of most of the dyes used in lipsticks. It favors the bill which the House sent to the Senate.

# If You Drink, Wait Before You Drive

Hartford, June 27 (AP)—If you drink, wait before you drive.

This twist on a familiar warning to drivers reflects a new approach to the problem of drunken driving taken by the State Division on Alcoholism.

"The new method is to provide a 'Driver Wait Meter,' telling motorists how long to wait after certain drinks before taking to the road, instead of old admonition: 'If you drink don't drive.'"

For example:

If you drink one cocktail or highball or two beers within 15 minutes, wait a half-hour after the last drink before driving.

Two cocktails or highballs or four beers within a half-hour—wait an hour.

Three cocktails or highballs or six beers within one hour—wait two hours.

Four cocktails or highballs or eight beers within two hours—wait three hours.

Five cocktails or highballs or 10 beers within three hours—wait five hours.

The "Driver Wait Meter" will be included in a pamphlet to be distributed to the public. The State Division on Alcoholism said the alcohol research was based at Yale University and bore the approval of the State Safety Commission.

The division noted that the figures were based on the average 150-pound person, and that the effects of alcohol increase or decrease according to weight differences.

The booklet also warned that the body reacts quicker to alcohol when the stomach is empty.

The state agency said that in the period of one year nearly half of Connecticut's fatal traffic accidents involved either a drinking driver or pedestrian. One out of every three involved a drinking driver.

In view of the inevitability of the problem of drinking and driving, the agency said, drivers should have facts to base their attitudes on rather than "popular misinformation."

The division said that a driver who has consumed four cocktails, four highballs or eight beers is three times as likely to be involved in an accident as an sober driver.

The driver who has taken more than five cocktails, five highballs or 10 beers has a 10 times greater chance of being involved in an accident, the division said.

Dudley Miller, executive director of the division, a branch of the State Department of Mental Health,

JOHN GRUBER

I'll try to wind up the discussion of ballet today. I have asked to explain some of the terms used in this art, and I'm going to try to do so. As I have already mentioned, they are mostly in French and it would seem that a French dictionary would answer the purpose. It is not the case, however. And I'm not sure how I'll make out, either. Trying to describe a complicated action in words is very difficult, but I'll make a stab at it. The terms and steps most commonly encountered here are: "Adagio" is the term used for the slow portions and balance exhibited by a ballerina during the opening section of a classical ballet. "Allegretto" is a word that entered our language during the 18th century. It is used in the same sense as "allegro" in music and architecture, as well as in all three arts. It refers to a long graceful line, and to ballet the "arabesque" is the longest line which the human body can display. There are various types of arabesque, but all of them are characterized by a straight leg which bears no weight and a complementary position of the arms.

Sheinwold on Bridge

LET OPPOSITE BRIDGE YOU OUT By Alfred Sheinwold A certain kind of poker player (may his tribe increase) cannot be fooled. No matter how many chips he may count, in a bridge game, the same kind of player cannot be shut out of the game. West would not have opened with two spades in first or second position. In third position, also, he could bid the game without fear of missing a slam. Mind you, the fear of missing a slam is not the only restraint on a bid of four spades. There could have gone for an 80-point bid if his opponents had taken time out for lunch. They would take two clubs and two diamonds, and then a third round of diamonds would assure two trump tricks.

In short, West's opening bid of four spades would be a sure thing in any other position. He would know his customers. He is known South as the "Big Shot."

South acted in character when he opened with two spades. After two passes you hold: Spades—AK1094; Hearts—A5; Clubs—J6; Diamonds—KJ. What do you say?

Answers: Bid one spade. In a bridge game, the same kind of player cannot be shut out of the game.

Charter Unit Tonight Airs Five Changes

Public opinion will be sought tonight on five proposed amendments to the town charter. A public hearing will be held at 8:30 in the Municipal Building by the Charter Revision Commission. The unit will meet an hour earlier to wrap up its work for the summer.

Att'y. David Barry, chairman, said the amendments are: 1. Specifying the town clerk's right to appoint, supervise, and discharge his own employees.

2. Establishing the right to have reserve funds in the water and sewer departments to pay for non-recurring expenses such as capital improvements.

3. Elimination of provisions concerning the town clerk, which will go out of existence when the new State Circuit Court begins operations next Jan. 1.

4. Coverage of the town treasurer, collector of revenue, and clerk by individual fiduciary performance bonds, coverage of the State Circuit Court begins operations next Jan. 1.

5. A provision to give the Board of Education a stronger voice in budget matters. It would require the general manager to tell the Board of any cuts he proposes to make in his budget report.

6. A provision to give the Board of Education a stronger voice in budget matters. It would require the general manager to tell the Board of any cuts he proposes to make in his budget report.

7. A provision to give the Board of Education a stronger voice in budget matters. It would require the general manager to tell the Board of any cuts he proposes to make in his budget report.

8. A provision to give the Board of Education a stronger voice in budget matters. It would require the general manager to tell the Board of any cuts he proposes to make in his budget report.

9. A provision to give the Board of Education a stronger voice in budget matters. It would require the general manager to tell the Board of any cuts he proposes to make in his budget report.

10. A provision to give the Board of Education a stronger voice in budget matters. It would require the general manager to tell the Board of any cuts he proposes to make in his budget report.
