U.S. Charges Rebels Violating Laos Truce

It maintained the pre-Communist rebel forces in Laos are attempting to improve their position in a critical period of the cease-fire agreement.

Since May 13, daily attacks by the Pathet Lao have occurred in the Pa Doug area of southern Xieng Khouang province.

This 800-square-mile area was largely under the Royal Lao Army control at the time the International Commission on Laos reported the de facto cease-fire.

"Continuing Pathet Lao attacks have given their forces artillery sites within range of the airstrip at Pa Doug.

"The attacks have ranged from the shelling of a small airfield to heavy assaults supported by heavy artillery and frequent mortar bombardments.

A British source said the British delegation leader Macdonald tried so hard to get the Pathet Lao to agree to new instructions that he was forced to return to the United States.

Macdonald's return was arranged to proceed directly to London on the subject of the new instructions to Sir Fran Roberts, British ambassador in Moscow, to raise the issue at the Soviet Foreign Ministry.

The British delegation leader Macdonald was said to have been in London for several days before he was able to return to the United States.

The British-Soviet deadlock and the American charges of cease-fire violations came while the conference was in an intermediate stage.

The conference obviously is still in the preliminary stage. It is expected that the delegates will meet in Geneva to see if they can reach an agreement at that time.

Macdonald's return to the United States was said to be a setback to the conference.

The American statement referred to the U.S. position that it is the first order of business for settling the Laos problem.

The American statement said that the U.S. position is that the Pathet Lao are employing military pressure for political purposes at the very moment when the conference is endeavoring to secure the unity and independence of Laos.

"At the same time, the Pathet Lao has obstructed U.S. efforts to investigate.

A number of delegations, including the United States, have maintained from the start of the conference that the first order of business is to secure a cease-fire effectively dated May 23.

Heard Along Main Street

Double Steal Professional as well as amateur detectives would have had trouble Monday night trying to solve the case of the lost ball during a night "Dusty" softball game between A-1 Caterers and Clarke's Motors, played at Robertson Park. The mysterious disappearance began when a twinkie-toed shortstop of Clarke's stole second base. The throw from the catcher arrived late and hit the baserunner on the heel. The ball bounced up under and into the sleeve of the runner's tailored sweatshirt as he came to a stand-up position. The bewildered opposition searched the playing area for the ball as the base-runner contained it with folded arms. The search continued for many minutes while the base-runner stood still, wearing a quiet smile. "This is impossible," said one player, as the search went on. "Are you looking for this?" asked the base thief, innocently.

In case your memory is clouded, you should observe the following flag etiquette during the Memorial Day parade on Tuesday. 1. Military personnel and other uniformed people should give a hand salute. 2. Civilians should place the right hand over the heart and stand at attention. 3. Men should remove their hats. 4. Flags should be displayed on streets along the parade route. 5. Forty-eight and 49-star flags may also be displayed.

Okay, Providing... The Bartlett hearing has had its effect in Rockville, prompting side-walk discussions and tavern conversation. It has spread to City Council members, too, as aldermen who recall "Speed" Weber's reaction to a council request can testify. Apprised of a request for police escort at the Elks Parade on Flag Day, Weber dragged deeply on his cigar and suggested the council better hold up. "We may not have any cops left," he said. A Non.

REMEMBER THE LAW

With school closing near, employers, teen-agers and their parents are reminded that the Fair Labor Standards Act restricts certain jobs for youngsters under 18, according to a report from Leo A. Gleason, New England Regional Director of the U.S. Labor Department's Wage and Hour and Public Contracts Divisions at Boston. The Federal Act sets a 15-year minimum age for general employment and an 18-year age minimum for jobs which have been declared hazardous by the secretary of labor, he said. Since Connecticut has its own child-labor law, Gleason said the higher standards must be observed if the state and federal laws differ. Employers should require age certificates, he said, to protect themselves from hiring underage minors, he said. Age certificates may be obtained at the State Board of Education in Hartford. Additional information on the child-labor provisions may be obtained at the Wage-Hour Division Field Office at 933 Main St., Hartford, he said.

New Series to Show Human Side of Lawman

By CHARLES J. LEAVY

When watching "The Asphalt Jungle" on ABC-TV next time, take particular notice to the three portraits hanging on the wall of Deputy Police Commissioner Matthew Gower (played by Jack Warden). To anyone who is familiar with the camaraderie of members of most large police forces, the presence of these pictures in the office is a familiar sight.

To most citizens, the idea of sentiment entering the lives of policemen seems incongruous. Because of the very nature of their job, most policemen invariably become hardened and impersonal. However, the greater majority of law enforcement officers are basically dedicated public servants.

When a crooked policeman is uncovered, it is a reflection on an entire force. Heroism and honesty are quickly forgotten by the public, but news of a bad cop remains, and all policemen feel the accusing eye.

So, it is quite natural that the memory of heroic and honorable police is perpetuated by their fellow officers.

"The Asphalt Jungle," a suspense and adventure series, set against the throbbing background of a modern metropolis, attempts

to get the inside of the policeman's problems as people, their relationships among themselves and their work.

As producer Arthur Lewis explains, "If average man ever does think of a cop as a person, the only things that seem to come to mind are heroism and corruption. Very little of all that lies between is ever seen or heard by the public. This along with 'big crime' is the area we intend to exploit in 'The Asphalt Jungle'."

Arch Johnson, who plays the role of Assistant to Jack Warden, says, "Policemen probably take more risks for less money than any other group of people in our society."

Johnson's evaluation of police work comes from a first-hand knowledge of the job, of the responsibility and of the danger faced. While a reporter for the Associated Press and the Philadelphia Inquirer, he "followed enough policemen around enough beats to know how they work and what they think and feel."

"All that experience has been good training for my role," Arch adds.

"I'm interested in showing these servants of the public as human beings, and our 'Asphalt Jungle' scripts portray them as just that.

"By observing them at work while a newsman, I learned that they have normal emotions and reactions; they get scared; they make mistakes."

Gower's squad has been formed to meet a crucial need posed by the infiltration of higher echelon crime and corruption. Led by fiery, impulsive Gower, the squad takes on tough assignments that no one else can or wants to handle.

"Matt Gower is the kind of character every actor wants to play," says Warden. "He's on the right side of everything. He's tough as nails when someone is wrong, but he'll fight for anyone he knows is a 'right guy.' He's full of guts, but he's got heart."

Versatility in a wide range of stage, screen and TV portrayals has made Jack Warden one of the most sought after actors in show business.

In films, as the restless bachelor who organizes the party in "The Bachelor Party," as the thick-skinned salesman anxious to get the ball game in "Twelve Angry Men," and as the sadistic dock boss in "Edge of the City," Warden displayed his many-sided talents.

On the stage, he won critical acclaim for the top role in Arthur Miller's "A View from the Bridge," in which he played an Italian immigrant, in "The Body Beautiful," he unveiled an unsuspected talent for comedy as a song and dance man. Last season, he starred in "A Very Special Baby" with Luther Adler and Sylvia Sidney.

Jack has upwards of 200 TV shows to his credit, including "Kraft Theater," "Goodyear Playhouse," "Studio One" and "Playhouse 90." His appearance in "The Petrified Forest," a TV spectacular with Humphrey Bogart, Lauren Bacall and Henry Fonda, led to his "Bachelor Party" role.

Born in Newark, N. J., Jack attended Barringer High School before his family moved to Louisville, Ky. There he was graduated from DuPont Manual High School.

Prior to World War II, he fought a few professional fights as a welterweight under the name of Johnny Costello; worked tugboats as a deck hand on New York's East River; was a bartender in San Francisco and a bouncer in a Manhattan dancehall; served in the Merchant Marine, and subsequently was an Army platoon sergeant in the 101st Airborne Division.

When he left the service, he enrolled in Margo Jones' Theater in Dallas, Tex., where he studied for five years.

Warden is a water skiing enthusiast and keeps in excellent physical condition skidding along behind his 17-foot motor launch. He is joined in the sport by his French-born wife, actress Vanda Dupre. The couple resides in Malibu Beach, Calif., and also has a Manhattan apartment.

Mitch Miller, whose "Sing Along With Mitch" series will be seen on NBC-TV Thursday Nights in the fall, has been appointed chairman of the 1961-1962 University of Rochester Alumni Fund Campaign. Miller, a native of Rochester, was graduated from the Eastman School of Music in 1933 and went on to achieve a distinguished reputation as classical recording and concert stage oboist.

Jack Warden, in the role of Deputy Police Commissioner Matt Gower, finds himself up to his belt in stolen money as he tries to crack "The Burglary Ring," the premiere episode of ABC-TV's new, hour-long action series "The Asphalt Jungle."

High Court Upholds Constitutionality of Sunday Blue Laws

Washington, May 29 (AP)—The Supreme Court today upheld the constitutionality of Sunday blue laws.

Chief Justice Warren delivered the court's decision.

The tribunal ruled in cases specifically applying to blue laws of Massachusetts, Pennsylvania and Maryland.

Blue laws, which restrict Sunday activities in many states, originated in Colonial America to compel observance of the Sabbath.

Lawyers attacking the statutes said they have become a lethal weapon in the economic war of competition among retailers.

The Supreme Court upheld Sunday closing laws in decisions in the religious statute enforcement of which violated the U.S. Constitution.

The advent of the Sunday supermarket, the super-drug store, and giant discount emporiums in suburbs and along major highways brought vigorous complaints from downtown business interests, along with demands for enforcement of Sunday closing laws.

Six Fined \$25 Each for Fires

Ansonia, May 12 (AP)—Six youths from Beacon Falls were fined \$25 each in Circuit Court today for unlawful kindling of fires.

They were Theodore Stronkowski, 17; Kevin Swan, 18; Edward Holloway, 18; Johnathan M. 21; Raymond J. Norton, 17; and Walter Bukowczyk, 18.

In addition, Frank R. Oemcke, 16, had his case referred to juvenile authorities.

Four of the boys, Stronkowski, Swan, Holloway and M., had admitted they had set a number of brush fires in this state since 1958, according to State Police, and in some cases had been paid to help put them out.

They told State Police that at first they started the fires for the money and later just for fun.

Launching Speaker

Groton, May 29 (AP)—Secretary of the Navy John B. Connally will deliver the main address at launching ceremonies for this country's newest Polaris—framing missile submarine, Thomas A. Edison, June 15 at General Dynamics Corp.'s Electric Boat Division.

The Edison, a second generation fleet ballistic missile submarine, is a 6,900-ton, 410-foot vessel designed to fire the long-range 1,500-mile Polaris and will be the eighth FBM submarine to be launched and the fourth to go down the ways at Electric Boat.

Other Electric Boat Polaris submarines are the George Washington, first of the FBM submarines, and the Patrick Henry, both on active duty with the fleet, and the Ethan Allen, launched last November and now being fitted out for commissioning this summer.

Second Arrest

Hamden, May 29 (AP)—Additional troubles have piled up for Robert E. Russell, 30, of 84 Main St., Terryville, who was arrested last week in the beating of a state senator.

When local police heard of his arrest, they found the name had a familiar ring.

They said Russell was wanted in Hamden on a forgery charge dating back to 1957. They said he had changed the age on a check for \$118 to \$111.18 and cashed it at a bar and grill.

Russell was arrested Saturday and released \$2,500 bond for an appearance in circuit court next month.

He was arrested Wednesday with his sister, Mrs. Doris Edwards, also of Terryville, on charges of breach of the peace after Sen. Daniel E. Kerwin of Waterbury was found robbed and beaten Tuesday night in Meriden.

Showers Wednesday

Windsor Locks, May 29 (AP)—U.S. Weather Bureau at Bradley Field issued this extended forecast today for Tuesday, May 30, through Saturday, June 3.

Temperatures are expected to average 3 to 6 degrees below normal with little day-to-day change. The normal mean temperature in the Hartford area during this period is 66 degrees ranging from a daily high of 78 to a low of 53. Rainfall is expected to average about one quarter of an inch occurring as showers about Wednesday night and again on Saturday.

Car Deaths Rate at 4.3 Every Hour

(By the Associated Press)

Traffic	289
Boating	24
Drowning	37
Miscellaneous	50
Total	400

The highway death toll held to a course today which could set a record for the nation's extended Memorial Day weekend.

An ominous aspect was absence of the expected substantial mid-holiday slump—but the daily peaks at the opening and closing hours.

By midmorning today, the figures showed traffic deaths were occurring at a rate of 4.3 an hour. This is the same average hourly rate maintained throughout 1960 when 38,200 traffic fatalities were counted for the year.

The 38,200 total, however, embraces deaths from injuries weeks and months after the date of the accident. The current count covers only deaths over the holiday period.

The homeward rush of millions from extended outings was expected to step up the rate dramatically tomorrow.

The weekend started with a heavy toll.

National Safety Council officials termed the rate "alarming" and said if it continued through tomorrow's holiday period, the toll could top the record of 413 highway deaths reported in a 4-day Memorial Day weekend in 1957.

The council did not make an estimate of traffic deaths for the 4-day period which started at 6 p.m. Friday and ends at midnight Tuesday (local time). However, it estimated that 100 persons might be killed on Memorial Day alone, 30 more than the average on a non-holiday Tuesday.

The council said traffic deaths would average 385 over a non-holiday period covering 102 hours from 6 p.m. Friday to midnight Tuesday.

Generally pleasant weather prevailed in most parts of the nation yesterday and millions of motorists headed for outings and recreation spots.

Kennedy Maps Plans For European Talks

President Will Go to Paris First

(By THE ASSOCIATED PRESS)

President Kennedy turned 44 today in the seclusion of his family home in Hyannis Port, Mass., on the chilly south shore of Cape Cod. He put in more homework on his crucial meetings with French President Charles de Gaulle and Soviet Premier Nikita S. Khrushchev.

The youngest President ever elected to the office based up on this week's European conferences while anticipating a giant birthday celebration in Boston tonight with personal and political friends.

But the mood of the occasion was deadly serious.

White House press secretary Pierre Salinger reported the Chief Executive remained on the grounds of the Kennedy compound of homes yesterday except for a drive to Mass in the nearby village of Hyannis.

While a spanking westerly wind churned up whitecaps on Nantucket Sound, Kennedy stayed in the beachfront home of his father poring over documents relating to his sessions with De Gaulle in Paris and Khrushchev in Vienna.

The President flies to Paris tomorrow night after Mrs. Kennedy joins him in New York.

Birthday wishes loaded the wires in this summer resort. Hundreds were delivered yesterday and it appeared Kennedy would get 1,000 before hopping to Boston tonight for a Democratic fundraising birthday dinner in his honor.

Kennedy was chipper and smiling as he acknowledged shouts of "happy birthday" on leaving St. Francis Xavier Roman Catholic Church yesterday morning. Hundreds of worshippers filled the white frame church and hundreds

Blasts Shatter Three Microwave Stations

Salt Lake City, May 29 (AP)—Dynamite blasts that shattered three microwave relay stations in Utah and Nevada yesterday touched off a multi-state manhunt and produced a war-like nervousness among citizens.

The question of whether the mysterious explosions were set by saboteurs, or vandals, was on many lips, some official.

Within hours after the dawn explosions, FBI agents armed National Guard troops and area police began hunting the person, or persons, who for a moment cut a nerve in America's Civil Defense communications system.

The damaged stations all are located in the desert of western Utah and eastern Nevada and along U.S. Highways 40-50A. The stations are part of the American Telephone and Telegraph system.

The first blast, at 4:55 a.m., demolished a microwave tower three miles west of Wendover on the Utah-Nevada line. The second, 55 minutes later, collapsed a cable relay station at Knolls, Utah, 40 miles further east. The third, 55 minutes later, crippled a microwave tower at Cedar Mountain, 20 miles further east in Utah.

The unmanned stations transmit radio waves up to 30 miles on a line of sight—coast to coast, border to border.

The three blasts snipped out a portion of this telephonic backbone, but automatic equipment immediately shuttled messages to another system. Associated Press circuits in the West were disrupted.

17 Additional 'Riders' Facing Court in Dixie

Jackson, Miss., May 29 (AP)—Seventeen more segregation-defying "Freedom Riders" go on trial in city court today amid reports a fifth group would leave soon for Jackson in an attempt to crack the Deep South's "Jim Crow" barriers.

In Forest Park, Pa., the Freedom Riders' chief co-ordinator, Marvin Rich of New York, said a bus trip would be made to Jackson from New Orleans today or tomorrow.

Meanwhile, 22 Freedom Riders convicted here in Mississippi's capital city on breach of peace charges last Friday, were transferred today to the county penal farm to work off their \$200 fines at the rate of \$3 a day. Five others posted bond earlier and were released.

The 17 newly arrested Freedom Riders—13 Negroes and four whites—go on trial on the same charges as the other 27. If convicted, they can post bond, pay a fine and/or serve a sentence.

U. S. Charges Police Permitted Race Riots

Montgomery, Ala., May 29 (AP)—Police in racially troubled Montgomery and Birmingham were called into federal court today, accused of deliberately permitting mob violence.

"Freedom Riders" arriving by bus in Birmingham May 14 and at Montgomery six days later were set upon by howling mobs of white men and women, and a bus was burned near Anniston, Ala., on May 14.

At least 20 victims—some mere bystanders—were left clubbed and beaten at the Greyhound Bus Terminal in Montgomery at the outset of a weekend of rioting which ultimately brought martial law.

The Justice Department put the blame for the racial violence squarely on the Klan, and got an injunction from John Edgar Hoover, director of the Federal Bureau of Investigation, to prohibit KKK members, and "all persons acting in concert with them," from any further acts interfering with interstate bus travel.

Later, the federal government amended its complaint and asked

State Courts 3 Holiday Dead

By THE ASSOCIATED PRESS

The judicial death toll in Connecticut stood at three today as the Memorial Day weekend entered its third day.

Two other Connecticut residents were killed in accidents out of the state since the fatality count for the holiday weekend began 6 p.m. Friday.

Of the five deaths, three resulted from traffic accidents, and the remaining two from drowning.

The fatal traffic fatalities occurred in Connecticut as State Police re-inforced regular patrols to crack down on speeders and other highway violators.

The drowning took place near Stratford when a huge wave tilted a 16-foot boat containing three fishermen.

Non-Whites on 3-Day Strike

South Africans Begin Republic Week Strife

By RICHARD KASISCHKE

Johannesburg, South Africa, May 29 (AP)—Violence broke out in South Africa today as non-whites started a 3-day political strike. African mobs blocked roads and stoned worker buses.

In Port Elizabeth, an African bus driver was shot and wounded trying to steer his bus through a stone throwing gang.

Several other buses also were stoned in segregated Negro townships outside Port Elizabeth and Durban, at road blocks made of gasoline drums, poles and rocks.

Frightened drivers wanted to quit but police promised them protection, and escorted the buses through.

The government-controlled South African Radio quoted police and military officials as saying, "The natives are going to work as usual... there is no support for the strike call in Johannesburg."

But there was evidence that a high percentage of the Africans employed in this city were staying away from their jobs. Hardly any were to be seen in streets that normally are crowded with them during the morning rush hour. The railroad station looked deserted when it should have been jammed. The South African Press Association estimated that only a fifth the usual number of non-white workers were coming in by train.

Texas Voters Elect First GOP Senator

Dallas, Tex., May 29 (AP)—The victory of John G. Tower, the first Republican senator to be elected by Texas voters, today left gleeful GOP workers thankful they rang so many doorbells and Democrats wondering what went wrong.

Tower, the 35-year-old former college professor, won Saturday's special U.S. Senate race by 8,000 votes over William A. Blakley, a Democrat who holds the Senate seat on an interim appointment.

He had 444,815 votes of 50.43 per cent of the 881,630 votes counted to Blakley's 436,815. Approximately 7,600 votes—not enough to change the outcome—were yet to be reported.

When Lyndon B. Johnson, who had campaigned successfully both for the vice presidency and for reelection as senator in November, resigned his Senate seat early this year, Tower was one of the first to announce for the special April 4 election.

The political unknown when he quit as professor at Midwestern University last year to run on the Republican ticket against the Senate majority leader, Tower pulled up 826,655 votes against Johnson's 1,206,623. It was the largest vote ever given a Texas Republican in a state race.

Tower was the only Republican in the April 4 election and the state's Republican organization threw its full force into the campaign.

But more than 70 Democrats—including Blakley and four others with proven support—failed in the same election. Blakley and Tower tried to outdo each other in bidding for the Conservative vote, U.S. Rep. Jim Wright and State Atty. Will Wilson appealed to the middle-of-the-road vote while State Rep. Maury Maverick Jr. wooed the liberal vote.

Tower led the first election with 81.8 per cent of the 1,100,000 votes cast, followed by Blakley with 18

Police said Mrs. Baker slashed her throat with a kitchen knife. The Greek authorities said a suicide note was later discovered at her bedside in a Bible.

The Bakers arrived in Greece in July 1960.

DEFEND TRACTORS DEAL
Washington, May 29 (AP)—The Kennedy administration launched a bitter attack today against critics of its support for the move to swap tractors to Fidel Castro for release of 1,200 Cuban rebels. Sen. Hubert H. Humphrey, D-Minn., in a Senate speech, said the Republican Vice President Richard M. Nixon is morally, legally and politically wrong in denouncing the deal.

Murrow of the U.S. Information Agency called a news conference and said there has been a ground swell of disgust at Castro throughout Latin America as a result of the Cuban Dictator's offer of the swap. "It is clear that Castro has snubbed his way into a major blunder," Murrow said.
