Plus \$110,000 Fine Goldfine Gets Year and Day

Boston, June 5 (AP)—Industrials Bernard Goldfine was ordered to prison for a year and a day and fined \$110,000 today on charges of income tax evasion.
U.S. District Court Judge George C. Sweeney also placed him on probation for five years.
The judge put Miss Mildred Paperman, Goldfine's secretary on probation for three years on a similar charge.
As a term of their probation, Judge Sweeney ordered Goldfine and Miss Paperman to disclose "all information of whatever character" on cash transactions of Goldfine's Strathmore Woolen Co. and his other textile firms.
He said more than \$600,000 was taken in cash or checks written to cash from Goldfine's firms "and it is the intent of this court to compel disclosure of where this money is and where it went."
Goldfine was indicted for evasion of nearly \$800,000 in personal and corporate income taxes. He pleaded guilty May 15. The judge today refused to allow withdrawal of that plea and to order a new sanity hearing.
Miss Paperman had pleaded guilty to evasion of \$340,000 in corporate income taxes, as chief accounting officer of Strathmore Woolen. She already was fined \$12,500 for evading personal income taxes.
Goldfine, 70, and Miss Paperman, 43, both were ordered to pay all taxes, penalties and interest owed the government.
Goldfine's troubles began in 1958 congressional hearings which revealed his expensive gifts to high government officials.
Miss Paperman was sentenced first. Judge Sweeney gave her an

Dillon Pledges U.S. to Benefit In Aid Projects

Washington, June 5 (AP)—Secretary of the Treasury C. Douglas Dillon promised today that 80 per cent of the economic portion of President Kennedy's \$4.8 billion foreign aid program next year will be spent for U.S. goods and services.
Instead of the program having an adverse impact on the United States balance of payments situation, Dillon told the Senate Foreign Relations Committee, this policy will have "an increasingly favorable effect" on it.
Dillon gave full backing to Kennedy's \$4.8 billion program for economic loans abroad as an "essential tool" of American foreign policy. He strongly championed its financing by borrowings from the Treasury.
The Development Loan Program is a key feature of the foreign aid bill.

Soviet Chief Holds Hard To Policies

By JOHN M. HIGHTOWER
Vienna, June 5 (AP)—Premier Khrushchev stuck to the hard lines of his anti-western policies during his talks here with President Kennedy. But U.S. officials hope that as a result of the Vienna conference, the Soviet leader may yet modify his course.
Kennedy is reported to have told the Soviet leader emphatically that if he forces a showdown over West Berlin, the Allied Powers will defend the city. He warned Khrushchev against miscalculating western intentions.
More broadly Khrushchev sought to get across to the Soviet leader that in spite of the recent setbacks in Laos and Cuba, the United States intends to fulfill its defense commitments to other nations around the world. The President left Vienna last night nourishing the hope that Khrushchev will weigh his words and accept the Cold War through understanding and cooperation.
"The Soviet Union," said Khrushchev in an airport statement, "has always striven—and continues today to strive—to secure lasting peace for the people, to solve disarmament problems as soon as possible and positively, to achieve a peaceful settlement of all international arguments on the basis of negotiations, as well as to establish good relations with all countries."
"But you can only arrive at these through understanding and through cooperation in the interests of removing remnants of conflicts from international life as soon as possible," Khrushchev said. "We would like to hope that these talks and meetings which we have had here with President Kennedy of the United States will lead to the final settlement of the creation of a lasting peace among the states."
Khrushchev rushed home to welcome President Sukarno of Indonesia, a neutralist Asian leader whose government has contracted for more than \$300 million worth of Soviet military aid.
The breakup of the informal summit stands alone as the 44-year-old Kennedy, a newcomer formally elected today as U.S. president, made one of his first public appearances in the White House.
"I believe that the imposition of such a requirement as a condition to the exercise of citizenship may well impose a corresponding loss of his dignity as an individual as well as to the resources of the nation. It is a . . . stunting of a child. It is a . . . denial of the right to a better life and even his right to vote."
"To deprive a child of this is to deny him his rights in the most fundamental sense."

Macmillan Agrees on West Aims

London, June 5 (AP)—President Kennedy will make a television-radio report to the nation tomorrow night from Washington on his talks with Premier Khrushchev, President De Gaulle and Prime Minister Macmillan.
Pierre Salinger, White House press secretary, announced, Kennedy would go on the air at 7 p.m. (EDT).
The President will speak from his office at the White House. The address will be carried live by all three major television networks and on radio by the Mutual Broadcasting System.
Kennedy and Macmillan today weighed western strategy in the wake of the Vienna conference, and announced they see eyes to eye in pursuing common policies throughout the world.
Today the President met for four hours with Macmillan, at lunch and in private conversation. This was the winding up of a sort of 4-power summit conference by stages. First Kennedy spent three days with President de Gaulle in Paris, then he was with Soviet Premier Khrushchev for two days' conversations in Vienna. That meeting ended last night with a statement ending hopes of peace in Laos but reporting little concrete progress in other areas.
A statement issued after the Kennedy-Macmillan conference said the two leaders noted with satisfaction the Vienna agreement for an effective cease-fire in Laos. They expressed belief this should lead to progress in the Geneva conference on Laos, but such progress was not evident in today's meeting at Geneva. Communist delegates there continued to brush aside any suggestion of negotiations by the Communist side.
Kennedy and Macmillan also announced "full agreement on the

Smith Act Also Upheld High Court Orders Red Party Register

Washington, June 5 (AP)—The Supreme Court today upheld the government's long effort to compel the Communist party to register as an arm of the Soviet Union.
Such registration was ordered under the Subversive Activities Control Act of 1950, but the case has been tied up for almost 10 years in the courts. The High Tribunal heard arguments on two separate occasions, totaling six hours of legal debate, before today's ruling.
Justice Frankfurter delivered today's 5-4 ruling.
Under the registration law the party can be compelled to divulge its membership lists and finances and label its literature as Communist propaganda.
Justice Frankfurter's majority opinion ran 112 printed pages. He concluded with this sentence: "The Constitution does not prohibit the requirement that the Communist party register with the attorney general as a Communist-act organization."
Chief Justice Warren and Justices Douglas and Black wrote dissenting opinions. Justice Brennan wrote a separate opinion dissenting in part.
Justice Warren's dissent, covering 22 printed pages, gave reasons why he felt the act constitutes a violation of the "Constitution's 5th Amendment ban against self-incrimination."
Black said in his dissent that he would "leave the Communists free to advocate their beliefs in protest."

3 Traffic Safety Prizes Pleasing To Gov. Dempsey

Hartford, June 5 (AP)—Gov. John N. Dempsey today expressed gratification at Connecticut's winning three traffic safety awards for 1960 from the National Safety Council.
The State Safety Commission said Connecticut will receive the national council's award of merit, another award for outstanding organization for traffic safety improvement, and an award for outstanding public traffic safety education.
The Connecticut commission said Connecticut was the only state to be granted the achievement award for traffic safety improvement for its 1960 program.
"The fact that only three states are receiving two of these awards," Dempsey said, "and that Connecticut stands alone as the winner of the third, is convincing evidence of the earnest and continuous effort made in this state to prevent traffic accidents and save lives."
"Many these new honors added to the substantial number of awards Connecticut has won in the past spur us to even greater achievements and to further reductions in the death and accident toll," Dempsey said.

U.S. Plea Stresses Right to Education

Washington, June 5 (AP)—The Justice Department today contended that the right of all American children to have an education is directly related to their subsequent rights as adults to vote.
In a novel court brief, the department asserted that if the necessary schooling is withheld in the formative years, the child may later be unable to meet voting tests laid down by the states.
On these grounds, the department filed a constitutional duty to operate public schools and cannot abandon the system to avoid racial desegregation.
The brief said Louisiana in common with 18 other states maintains a literacy test for voting, and that such tests have been held valid by the Supreme Court.
"I believe that the imposition of such a requirement as a condition to the exercise of citizenship may well impose a corresponding loss of his dignity as an individual as well as to the resources of the nation. It is a . . . stunting of a child. It is a . . . denial of the right to a better life and even his right to vote."
"To deprive a child of this is to deny him his rights in the most fundamental sense."

Law Tightens Ban on Bias in Housing, Rents

Hartford, June 5 (AP)—Gov. John N. Dempsey today signed into law a bill tightening provisions of the statute that prohibits discrimination on the basis of race, creed, or color in the sale and rental of housing.
As passed by the 1959 General Assembly, the law was applicable only in instances where a landlord or sale at least five contiguous units of housing. This was reduced to three contiguous units by the bill.
The bill also defines building lots as housing accommodations, thus closing a loophole used by some developers who denied that they were violating the law. They argued that the sale of a lot, even though it was understood a house was to be built on it by the seller, was not covered by the 1959 law.
Another change used by a developer to hold title to a corporate unit, so that they could claim no group of five contiguous units was under single ownership and therefore not covered by the law.

Aide Linked to Galindez Case

Washington, June 5 (AP)—Soldiers and police shot down retired Gen. Juan Tomas Diaz, the accused chief assassin of Dictator Rafael Trujillo, in a gun battle last night in the heart of the city. An alleged accomplice was slain with him.
Diaz, 52, was dived by machine-gun fire and died on the street. His companion, Antonio de la Cruz, died soon after in a military hospital.
The two had been trying to find refuge in the neighborhood when a house-to-house search squad of 100 men, acting on a tip, suddenly came upon them.
Authorities said De la Maza was carrying a gun that Generalissimo Trujillo had with him during his fatal ambush last Tuesday night on a road outside the capital.
An army communique said Diaz and De la Maza jumped from their car and began shooting after pursuing security agents who caught them at the edge of Independence Park and Bolivar Avenue. Any police casualties were not mentioned.
The police got a tip that Diaz and De la Maza had been seen on a downtown street. The gun battle began 30 minutes after the two fugitives stopped at a house and were refused entry by the owner.
Police held back crowds of on-lookers during the intensive neighborhood search that preceded the chase and the kill. A Puerto Rican correspondent and a Berlin photographer were momentarily detained by police.
Diaz had been a friend of Trujillo's during much of the slain dictator's 31 years of power. Gen. Rafael L. Trujillo Jr., who took over as armed forces chief when his father died, said Diaz led the assassination plot because his

Hod Carriers Push Demands On Hiring Hall

Hartford, June 5 (AP)—An exclusive hiring hall is still being called for by union negotiators in negotiations seeking to end the 55-day-old construction laborers' strike in Hartford, Middletown and New Britain.
This was reported today by an official close to the dispute between the Hartford General Contractors Association and Hod Carriers Local 250 of Hartford and 611 of New Britain.
An 8-hour session between the parties and state and federal labor officials Saturday failed again (it was the 14th meeting since the strike began here April 10) to get an agreement, but it was reported there were some areas where the parties could move. For example: The union is apparently satisfied with language hammered out in connection with the general contractors and working conditions to be followed by them; the demand for an exclusive laborers' health and welfare fund, instead of the present plan in which all the building trades, might be dropped, and wages agreed to be negotiable.
The hiring hall issue has been

In Power Capability New U.S. Rocket Tops Best Shown by Soviet

By BENNIE TAYLOR
(AP Science Writer)
Sacramento, Calif., June 5 (AP)—U.S. scientists have opened a new era in rocketry with a built-up missile apparently having far more power capability than anything the Russians have shown to date.
Two days ago the Americans successfully test-fired a captive rocket only 30 feet long and 8 feet 4 inches in diameter that developed more push than the giant Atlas and Titan missiles heretofore fired from Cape Canaveral and Vandenberg Air Force Base.
The modest sized test rocket was made up of segments something like a sectional bookcase. The segments were stacked three high to make the total height about 30 feet, and the rocket was rated as developing nearly 600,000 pounds of thrust.
The Atlas and Titan, 60 to 90 feet high, developed respectively 360,000 and 430,000 pounds. With the segmented technique, said the developers, a rocket 300 feet tall or even taller can be assembled, and it can be fattened enormously by clustering segments around each other and then piling up the clusters like building blocks.
They are talking now about assembling rockets right away with 2 million pounds of thrust, and about eventually producing assemblies with a total thrust of 21 million pounds.
That is the rocketeers term for power, and it is mainly what this country needs to overcome Russia's lead in putting big payloads into space.

Fatally Injured

Haddam, June 5 (AP)—James R. Chalmer, 66, of 293 Glen St., New Britain, was injured Friday yesterday in a head-on collision on Route 9.
State Police believe Paula Bordonaro, 18, of 34 Brown St., Hartford, driver of the other car, lost control and swerved into the path of Chalmer's auto. Miss Bordonaro and a passenger in her car, Carol Terhune, 20, of 42 Norwalk St., Hartford, were taken to Middlesex Memorial Hospital, where their conditions were listed as good.

Calls for Self Reliance

Middletown, June 5 (AP)—Calvin H. Plimpton, president of Amherst College, has called for a surge of "personal accomplishment" to help stall a decline of self reliance in the nation.
He spoke yesterday at Wesleyan University's 129th commencement.
He said the best bulwark against the decline are persons who enjoy doing things themselves— from changing flat tires to thinking.
"Education, which must take part of the blame for this situation," he said.

Adlai Receives Fine Welcome In Venezuela

Caracas, Venezuela, June 5 (AP)—Adlai Stevenson's special presidential mission to South America appeared today to have gotten off to a good start.
As Stevenson began his second day of private talks with President Romulo Betancourt and other Venezuelan officials, U.S. officials were reported highly pleased by the cordiality of his reception from both the public and the leaders of Venezuela.
The chief U.S. delegate to the United Nations, here as the representative of the President of the United States, Kennedy, got a warm welcome at the airport yesterday from a friendly crowd of 400 to 500. They applauded and smiled as he stepped from the plane and strode through the terminal.
Heavily armed National Guardsmen and police were there as routine precautions, but there were no hostile manifestations either at the airport or along the route through downtown Caracas, where former Vice President Richard M. Nixon ran into violent anti-American demonstrations in 1958.
Stevenson held a long private talk with Betancourt last night at the president's home. The two officials appeared in high good spirits as they posed for photographers.
They talked for two hours before

DODD TO PROBE TV CRIME

Washington, June 5 (AP)—A Senate inquiry into any relation between TV crime programs and juvenile delinquency was announced today by Sen. Thomas J. Dodd. Dodd, chairman of the Senate juvenile delinquency subcommittee, said network executives, producers, directors, writers, critics, pedagogues and others will testify at hearings Thursday and Friday. He said in a statement that since 1948 juvenile crime has increased 177 per cent and that in the same years there has been a corresponding increase in crime and violence-type television shows.

ADENAUER PESSIMISTIC

Duesseldorf, Germany, June 5 (AP)—Chancellor Konrad Adenauer warned West Germans today to expect the Kennedy-Khrushchev summit meeting to produce more than "small beginnings of an improvement in international relations." However, he predicted the next four years will see universal controlled disarmament because of eventual Soviet recognition of only peace efforts the means to continue the Soviet Union's internal buildup. Adenauer made the statements in an address before 500 members of this country's Roman Catholic Workers Organization.

TRINITY GETS PAINTINGS

Hartford, June 5 (AP)—Trinity College received a gift of eight valuable Renaissance paintings, including an El Greco, from the study of the Kress Foundation, Dr. Albert C. Jacobs, president, announced today. The collection is one of only eight colleges in the country to be selected by the foundation to receive gifts of paintings. "Trinity is definitely conspicuous" by its authorities, the Rev. Francis Minichelli, pastor of the church, suffered burns as a result of yesterday's fire in an off-story. He was treated at St. Raphael's Hospital. Lyden Fire Marshal Thomas F. Arden said today the fire apparently had been set liberally. Father Minichelli suffered burns of the hand and a foot when he grabbed it out of the chandelier.
