Reds Join Socialists Paris Bracing For New Riots

By DAVID M. MASON
PARIS (AP)—Thirty thousand police and riot forces stood by in the Paris region today as worried government officials girded for possible street clashes and other violence.
Security forces were concentrated to counter a banned demonstration scheduled for late afternoon on the vast Place de la Republique in eastern Paris. The French Socialist party called for a "peaceful but energetic" demonstration against the right-wing Secret Army Organization and against police repression of demonstrations last Thursday which left eight dead and hundreds injured.
The French Communist party quickly summoned its militants to join the Socialists "shoulder to shoulder" and other leftist organizations backed the demonstration call.
The government sternly recalled that all street demonstrations are banned under the state of urgency in effect in France since last April's abortive Alger uprising. Interior Minister Roger Frey warned in a nationwide radio-TV speech that unless the demonstration organizers back down, the forces of order "will do their duty and prevent the demonstration."
"It is certain that shock groups have the intention of provoking grave incidents," Frey said.
Premier Michel Debre made an unusual visit to the Interior Ministry today to confer with law enforcement officials and to express the government's confidence in their ability to maintain order.

**\$23,000 Damage
As Fire Levels
Norwich Diner**
NORWICH (AP)—Fire swept through the Norwich Diner on West Thames St. shortly after midnight this morning, totally destroying it. Closed on Sundays, the building was not occupied.
Men and seven trucks from three volunteer companies fought to save the building. The fire's head start in an added-on rear section of the structure and frozen hydrants foiled them. The loss is estimated by the owner at \$23,000.
A passerby noticed and reported the flames shortly before 1:45 a.m. Firemen were on the scene minutes later. East Great Plains Volunteer Fire Co.'s deputy chief Frank Buckley said it was a hot and a half before his men could coax water from the frozen hydrants. Norwich's temperature at 7:30 a.m. was four degrees below zero.
The business is owned by A. A. Nema of New London and his uncle, Joseph Nema of Norwich. The former agent losses were covered by insurance.
"Authorities said a defective oil burner was believed to have caused the fire."
VFW Official Upset
HARTFORD (AP)—The Redding School Board has connected under fire of a national officer of the Veterans of Foreign Wars for the board's policy over a student editorial berating patriotism.
Joseph J. Lombardo, a Brooklyn, N.Y., attorney, said yesterday there is "something radically wrong" with a board that would permit the editorial in question to be written.
He was referring to an editorial by high school student Virginia Olsen in a school newspaper. In it Miss Olsen wrote, "To be a patriotic American in the latter half of the 20th Century is to be a blindly stupid human being."
The school board went along with the school administration policy of letting the students have a free rein to express their views.
In his talk to the midwinter conference of the Connecticut VFW here, Lombardo said of Miss Olsen that it upset him to see a young girl who could be so "blind...stupid...ill-advised...and uneducated."

Federal Agents Make Largest Gems Recovery

FORT LAUDERDALE, Fla. (AP)—Federal agents announced the recovery today of \$1,750,000 in gems stolen from a Pompano Beach jewelry store and called it one of the largest gem theft recoveries in the history of the country.
Wesley G. Grapp, chief of the FBI office in Miami, said the recovery represented the bulk of the gems stolen Saturday in a daylight holdup. Total loss in the robbery was not established.
Grapp said the gems were found when agents searched a rental automobile used by one of the robbers.
Also found in the car, Grapp said, were five loaded revolvers, three walkie-talkies, five sets of handcuffs and ammunition for the pistols.
Police held three men and two women on charges stemming from the robbery. Two other men were being sought.
Charged with robbery and held on \$50,000 bond each were men identified as Paul Walter Paschke, 38, Chicago; Richard Willard Kay, 38, Three Oaks, Mich.; and Edward H. Cook, 36, Oakland, Ill.
The women, held on \$25,000 bond each, were Barbara Ann Steves and Betty Jean Moody, 31, Riverdale, Md.; and Mary Blanton, 33, Miami Beach, Fla.
Four men entered the jewelry store Saturday, flashed revolvers and pushed the manager, Joseph Tarasov, and an employee, Jessie Edwards, into a back room. A fifth man apparently waited outside in a car.
The robbers packed the loot in a suitcase.
Witnesses said the men drove south, parked their car, and jumped into two outdoor boats. The boats were found later.
Police Chief James Boggs of Pompano Beach said he gave details of the arrest, or how the women were linked to the crime.

The boy was killed as he slept. Dennis was one of two children killed in similar tragedies yesterday, the result of heavy rains which have been pounding Southern California. Rockefeller Denies 'Swinging to Right'

NEW YORK (AP)—Gov. Nelson A. Rockefeller says he is not "swinging to the right."
The potential Republican presidential candidate in 1964 was asked on a nationwide television program Sunday night if he was becoming more conservative in his politics.
"Not in the slightest," he snapped.
He appeared on American Broadcasting Co. "Lastest Answers."
Earlier, he had conceded that he might have been passed over as the GOP's 1960 presidential nominee because he was "too liberal."
Rockefeller said his criticism of the Kennedy administration's plan for a department of urban affairs reflected unhappiness with the form of the proposal rather than with the concept. He said the proposal rejected by the House Rules Committee bypassed the states when it should have "worked through and with the states."
Noting that President Kennedy has announced plans to name Negro Robert C. Weaver as first secretary of urban affairs, Rockefeller said he thought it unfair that opponents of the plan itself who question its merits should "be attacked as anti-Negro."
The recent meeting of the Organization of American States on Cuba was a failure for the United States because it revealed a split in the ranks of Western Hemisphere powers—a split caused in part by the lack of enough advance consultation, he said.
The governor criticized the Kennedy administration's handling of the Cuban invasion, but made clear it was "the failure, not the policy" that he opposed. He said that had he been president, he would have gone ahead with the invasion but would have given American air and naval support.
He warned against believing that an exchange of Soviet and American prisoners such as the Abel for Powers, and Fryer swap represented a thaw in the cold war. He said the Kremlin habitually

Ike Tells GOP He Won't Help 'Old Men' Race

By JACK BELL
WASHINGTON (AP)—Former President Dwight D. Eisenhower is reported to have told Republicans he has no intention of campaigning for "old men" in this year's elections.
Eisenhower, who is 71, was represented as pressing party members to work for the nomination of young candidates for governor and Senate and House seats.
Some confidantes quoted him as saying he wanted no "gray-haired old men" running on the GOP ticket if it could be helped.
"This serves-the-people movement apparently led the former President to say that he would not be a candidate for office in 1964, but he would support the party's candidates for office in 1964."
**Glenn's Orbit Flight
No Space Joy Ride**
By HOWARD BENEDICT
CAPE CANAVERAL, Fla. (AP)—John H. Glenn Jr.'s orbital flight will be no joy ride. He will be a busy man as his spacecraft spins around the globe at five miles a second.
The finely tuned pilot will have a number of tasks to perform as he seeks an answer to the question: How well can man perform in space, especially during prolonged weightlessness. For Glenn this will be all but 20 minutes of the intended 4-hour, 30-minute ride.
Man's ability to function in a weightless state is one of the major enigmas of space flight which Project Mercury launchings aim to solve.
When Soviet cosmonaut Gherman Titov made 17 circuits of the globe in the spaceship Vostok II last August, he suffered vertigo, sickness, or dizziness, much of the time. The first man to orbit the earth, Yuri Gagarin, reported no such discomfort on his one circuit. Nor did Americans Alan B. Shepard Jr. and Virgil Gribbin on their suborbital trips last year.
Glenn will keep constant watch on his instruments control the attitude of his spacecraft, turning it upside down at times; confer with ground stations; make star and earth observations; eat, drink and even exercise in space.
He will begin logging instrument readings as he waits in the capsule for the Atlas to boost him aloft.
Through the critical five-minute powered portion of flight just after blastoff, he will be pressed against his contour couch by gravity forces eight times his own

Gary Powers Faces Detailed CIA Quiz

WASHINGTON (AP)—American U2 spy pilot Francis Gary Powers faces detailed grilling from U.S. intelligence agents when he completes a secret rendezvous with his wife.
Among questions awaiting the pilot, who is in military or government custody, but ever since he was captured in the Soviet Union, how much did he tell the Russians about his mission?
Preliminary questioning presumably began shortly after the 23-year-old pilot crossed a Berlin bridge into American hands Saturday in a two-for-one trade for Soviet spy Rudolf I. Abel.
Official sources are not saying how much Powers told the Russians in his 1957 espionage trial and then negotiated his deportation in a trade for Powers and student Frederic Pryor, brought west still another American imprisoned in the Soviet Union by his freedom. Marvin W. Makinen, 22, a student from Ashburnham, Mass., is serving an eight-year sentence in Kiev on espionage charges.
Donovan said: "I have what I believe to be assurance that if the better relations contemplated by this exchange should develop, the Soviet-Union would contemplate extending clemency to Makinen."
The secrecy that shrouded Powers' return was in sharp contrast to the homecoming of Pryor, the third principal in the trade.
The 28-year-old student arrived

Rain Continues For Sixth Day In Los Angeles

LOS ANGELES (AP)—Southern California's sixth day of saturation started spectacularly today as cloudbursts opened up parts of the Los Angeles area, creating lakes up to seven feet deep.
There were flash floods in the Hollywood Hills and a house at 2534 Beachwood Dr. was torn loose from its foundation and pushed into the street.
Storm drain covers were popping open from excessive pressure in many parts of the city.
A woman at 6455 Deep Dell Pl. in the Hollywood Hills reported water was rushing through her living room.
At the intersection of Sunset Boulevard and Pacific Coast Highway early this morning the water was seven feet deep.
It was four feet deep on Vermont Ave. between 88th and 90th Sts. in Los Angeles. It was over the rooftops of automobiles at some other points.
The police flood control office said all major streets in the Hollywood area were awash.
More than 20 deaths had been attributed to the storm—one of the heaviest in the area's history before today's violent downpours.
**Bar Cheap Propaganda,
Freed American Urges**
ANN ARBOR, Mich. (AP)—"There is an opportunity to make a lot of cheap propaganda blaming East Germany—don't do it in my case," said Frederic L. Pryor, 28, Sunday on his return home after his release from a Soviet prison.
"After tomorrow, forget me," he said.
His gray mother, Mrs. Millard H. Pryor, beamed. "This is what I have been waiting for." She had been waiting five and a half months.
The scene was nearby Willow Run Airport with a New York-Detroit airliner a backdrop.
Less than 48 hours earlier Frederic had been released by East German Communists who had picked him up as an espionage suspect in East Berlin last Aug. 25. His mother and father, who learned of his detention three weeks afterward, had spent most of their time since in Berlin.
Frederic said he "assumed I was just a bonus in the deal in which American U2 pilot Francis Gary Powers was swapped for Soviet spy Rudolf Abel early Saturday morning."
The lean, tallish Frederic told newsmen he was "happy, grateful to be home." He said he had not been physically mistreated by the Communists.
Pryor still was wearing the suit in which he had been taken prisoner. There were no buttons on it. The threads had become so frayed the buttons had trickled off.
His father, chairman of Barnes Manufacturing Co., of Mansfield, Ohio, a pump-making firm, pleaded

Ribicoff Bares Data on Drop In Engineering

FAIRFIELD (AP)—Health, Education and Welfare Secretary Abraham Ribicoff warned today that the balance of manpower may "tip dangerously against us" if the country fails to place heavier emphasis on the importance of education.
Ribicoff cited fresh figures which, he said, showed declines in all phases of engineering education except that of graduate work.
He said he had confidence in the strength of arms, industry, commerce and labor in this country.
"But I am worried about neglecting the most crucial source of strength in our nation—the strength of our education system," Ribicoff said in a speech prepared for delivery at Fairfield University.
He said America's adversaries in the struggle for power realize that the key to their power and strength lies in the education and training of their youth.
"But we have not realized it," he said, "and unless we do so and embark on a massive effort to pull ourselves up by our own education bootstraps, the balance of brainpower will be lost."
**Great-Granddaughter Sounds
Off on Ancestor—Abe Lincoln**
By ALTHUR RISTAU
MANCHESTER, Vt. (AP)—The mistress of "Hildene" planned "nothing special" today as millions of other Americans remembered the 153rd anniversary of the birth of her great-grandfather.
Mary Lincoln Beckwith, 63, says she is proud to be a member of the distinguished Lincoln family but thinks it illogical to "plan something for a relative who was dead before you were born."
Since 1938 she has operated the 1,000-acre dairy farm told by her grandfather, Robert Todd Lincoln, only son of the 16th president to reach maturity.
"We're milking 20 head this year," Miss Beckwith said. "Prof. I'll Well, I'm in danger of running out of the red but don't let the tax collectors about it."
Her neighbors say Miss Beckwith doesn't much care about her distinguished ancestry.
"It always provokes me," she said, "when people stare and say: 'There's Lincoln's great-granddaughter. It's just my luck' he was related to me."
Her farm was built at the turn of the century, 30-odd years after

Urges Big-3 Bar Failure At Geneva

WASHINGTON (AP)—The West appeared today to be preparing to turn down Soviet Premier Khrushchev's proposal for an assembly of heads of government in Geneva next month.
In another development in the current high-level exchanges over disarmament, it was disclosed that President Kennedy and British Prime Minister Harold Macmillan told Khrushchev last week that disarmament efforts "must not be allowed to drift into failure."
"Accordingly, we propose that we three accept a personal responsibility for directing the part to be played by our representatives in the forthcoming talks, and that we agree beforehand that our representatives will remain at the conference table until concrete results have been achieved, however long this may take," the two said.
The Kennedy-Macmillan proposition was included in a message of last Thursday suggesting that there be a foreign ministers meeting preliminary to and in connection with the 18-nation disarmament conference which is to begin in Geneva March 14. The White House made the text of the note public today.
It was in response to this note that Khrushchev suggested in a letter delivered Sunday morning that there be a meeting of heads of government rather than a foreign ministers meeting.
This brought an immediate round of consultations among the Western Allies.
The direction of the thinking apparently was reflected in remarks by British Ambassador David Ormsby Gore to newsmen after a forenoon conference with Secretary of State Dean Rusk at the State Department.
Asked what the British position was, the ambassador said: "We don't think it is suitable that the heads of government should start the conversation" in Geneva.
But, Ormsby Gore added, the possibility that the leaders should

Glenn Gets Set For Trial Run

By HUGH A. MULLIGAN
CAPE CANAVERAL, Fla. (AP)—Astronaut John H. Glenn Jr. climbs into his space suit today for what he hopes will be his last make-believe trip around the world before the real thing on Wednesday.
As the Marine lieutenant colonel suited up for a full 4-hour and 30-minute run through his triple orbit flight, space officials handled over weather charts and studied reports of wave conditions across the Atlantic Ocean.
With the lowering Atlas missile and its complex Mercury spacecraft reported in go-condition for the flight, clouds and waves appear to be the only thing that could stand between Glenn and his postponed rendezvous with the earth.
Clouds over Cape Canaveral could force another postponement, (Continued on Page Five)

BUTCHERS FOR STRIKE
BOSTON (AP)—First local unions involved in contract negotiations with First National Stores and Stop & Shop Supermarkets have rejected contract offers and voted in favor of authorizing a strike. But National Mediator John J. Sullivan, chairman of a mediation panel, reports negotiations looking toward a settlement of differences will be resumed by midweek between spokesmen for the stores and representatives of the Amalgamated Meat Cutters and Butchers Union. Under the votes taken here and in other cities, the union has set. The union actions merely approved sanctioning of a strike which such action be deemed necessary.

Floods in 3 States

CHICAGO (AP)—Floods ravaged wide areas of Idaho, Wyoming and Utah today, routing hundreds from their homes, drowning livestock and ripping highways. Gov. Robert E. Smylie of Idaho declared a state of emergency in six southern counties. National Guard, Red Cross and Civil Defense units were called to help. Property damage, estimated in the hundreds of thousands of dollars, was rising hourly.

Gales Batter Europe

LOANES (AP)—Boaring gales battered northwest Europe today and spread a trail of wreckage across Britain with at least four dead. The Meteorological Office said a 123-mile gust recorded at Louth, 2,377 feet above sea level at Llanrhystede in Scotland, was probably the fastest just ever recorded in the British Isles. Huge waves swept the North Sea and Baltic but by midnight no ships were reported in major trouble.

A Thought for Today
 Council of Churches

From over ten thousand years ago, the Psalmist asks a religious question and gives his answer: "Who shall dwell in his holy place? He that hath clean hands and a pure heart in his holy place."

Hands are important, for there are several things we can do with our hands that reveal our true character. When confronted with bitterness and despair, we can wring our hands. Many who do this complain that the world is against them. They become afraid and unhappy.

There are those who clench their hands, or who double them into fists, because of suspicion, greed or mistrust. They only open their clenched hands to look for more things for themselves.

But there are also people who stretch out their hands in friendship toward us. They are the ones who have been redeemed in their love and service.

Usually people who have open hands toward others, have their hands in prayer for each other and their words both reveal and symbolize their true relationship toward God. Men to be God is sincerity and trust, we are more likely to turn toward our fellow-men with acceptance and love.

Rev. Alex. H. Bessier, pastor of the Baptist Church, said:

Poor Man's Game
Of Psychiatry

NEW YORK (AP)—Who are you?
 You can tell a person not only by what he is for but also by what he is against. If you want to play an interesting game with yourself, sit down and write down a list of things you dislike.

Underline eggs, overdone steak, watermelon, spinach, grits, grackles and cold pork gravy.

Millions of people who tell you they are a "person you really are" are in a plain-and-simple capsule any more effective than a plain grackles or a plain white capsule.

People who wouldn't dream of trying to feed a starving man, but give him a dollar bill, when you back 30 seconds in chess, or a plain white capsule.

The Immortal Part

Every Lincoln's birthday, we feel a touch of dishonor in us. The day never fails to stir in us some other anniversary of the calendar. Here, we say to ourselves, was the human being who came closest of all human beings to an ideal. And the ideal which Lincoln approached is often identified. It is said that he came closest of all to the example of Christ. But no matter how it is expressed, or what comparison is used, what Lincoln inspires in us is something close to adoration and worship.

And in this something close to adoration and worship, we also feel a touch of dishonor in ourselves. We have the dishonor feeling that in order to think and act about Lincoln in this way, we are exceeding the record, maintaining an instinctive or even deliberate blind spot toward some of the evidence, and, in the end, not really facing Lincoln in the content in which he himself lived and reformed, but enjoying ourselves, rather, with some misty ideal which he beautifully and inspiringly enough in itself, but which lacks complete reality and honesty.

This is why, we think, none of us ever really succeeds in picturing Abraham Lincoln among us today, or functioning in the White House in any time other than his own. In our idealization of Lincoln, we leave out the practical politics and the political promises it takes even to get to the White House. We leave out the compromises, some of which may require a man to abandon even his own belief or to act against his own conscience, which are probably an inevitable part of any man's functioning from the White House. We think, then, that we leave out the compromises, some of which may require a man to abandon even his own belief or to act against his own conscience, which are probably an inevitable part of any man's functioning from the White House. We think, then, that we leave out the compromises, some of which may require a man to abandon even his own belief or to act against his own conscience, which are probably an inevitable part of any man's functioning from the White House.
