Vending Machines Striving
For More Soft Drink Sales

By SAM DAWSON
AP Business News Analyst
New York (AP)—High-styled
vending machines are coming to
the aid of the soft drink industry.
You might think Americans are
all but saturated with carbonated
beverages now. Not so, says the
industry. They could and should
drink a lot more this summer, especially if it's a hot one.
And when they can spare time
from their fierce rivalry, the producers and bottlers, both giants
and regional ones, look for more
ways to make you realize you're
parched and make it easier for
you to quench that thirst.
The vending machine industrys's
drive to place a record number of
new gadgets almost everywhere
you can think of could be the an
swer to the bottlers' prayer.
