### Lodge Also Winner Ted Overwhelms Ed

(Continued from Page One) Justice Charles Evans Hughes, who was the Republican nominee for president in 1916.

WASHINGTON (AP)—Chairman William E. Miller of the Republican National Committee said today the victory of Edward M. Kennedy in the Massachusetts Democratic primary was a "vivid demonstration of the power of money coupled with meretricious political leverage."

The outcome was no surprise, Miller said.

"The thinly veiled fiction that the winner was not aided in full measure in his campaign by his powerful brothers in Washington is a mocking insult which many Democrats, Democrats properly so called, find offensive."

There is a third candidate going into the November election for the Senate, Harvard Prof. H. Stuart Hughes, running as an independent, bypassing the primary.

Hughes has a famous name, too, he is a grandson of the late Chief Justice Roger Taney.

### Wet Vote Dropped On Technicality

Whether Columbia will choose to remain "dry" or vote to be "wet" was not determined at the November election. It was learned yesterday that the petition presented to Town Clerk Margaret Diworth by Maurice and Roger Ganache, who seek to open a package store in town, had been returned to them at their request.

The petition, signed by 187 persons, asked that the question be put to the town in the coming election. It was discovered shortly afterward that the vote must be on the ballot of a town election and not the state ballot.

Maurice Ganache said he is not ready to state definitely yet, and will act on advice of counsel, but it is probable they will ask for a special election on the question.

### Science At Work

BY THE ASSOCIATED PRESS  
Green turtle soup, a virus hunt in Utah, the world's growing population and the strange behavior of super-cold helium are subjects for science at work.

**Turtles Abroad**  
Home comes the marine green turtle, home from the sea, providing he has managed to stay out of the soup.  
To provide gourmets their delectable green turtle soup, the fishermen of Ascension Island and the Caribbean have hunted the green turtle. But now it is being hunted by biologists as well.

They've found that the turtle seems instinctively to find its way to the sea, as soon as it hatches from the egg. And the green turtles tagged on Ascension Island have been found 1,000 miles away near Brazil. By some sense, the adult female recognizes and returns to nearly the same place on the beach to lay its eggs.  
Dr. Archie Carr of the University of Florida has been studying the green turtle, and trying to devise ways that would insure it would not become extinct.

**Salt Lake Safari**  
Dr. Louis P. Gebhardt, his son Michael, and John Stanton, an assistant, hunt the state of Utah for bats, snakes, rodents and mollusks.

There aim is to find the animal or insect that harbors the virus of Western equine encephalitis, a severe brain disease, transmitted by a mosquito bite.  
"We are convinced that the virus is harbored over the winter months in one or more of these animal reservoirs," says Dr. Gebhardt of the University of Utah. "We are trying to learn which one is the culprit."  
The incidence of encephalitis rises in the spring with the rise of mosquito populations, decreases again when the cold weather comes.  
Dr. Gebhardt has found that the encephalitis virus first appears in birds, rodents and snakes around April 15, perhaps hibernating in these creatures over the winter. When mosquitoes bite infected animals, they become carriers of the infection to another animal and human as well.

Some 70 per cent of the world's people now live in temperate nations of the United Nations, says the population reference bureau. Another 23 per cent live in Communist China.

**Too Cold to Stay**  
Helium 4, an isotope of helium, created in a nuclear reactor, acts very strangely when it is supercooled.

Scientists have taken a temperature down to near absolute zero, the temperature at which there is practically no movement of molecules, about minus 450 degrees Fahrenheit. Helium is the only element that does not become solid at this temperature. And helium 4 not only doesn't become solid, it becomes superfluid. If you put supercooled helium 4 in a container and leave it alone, it won't stay there. It actually crawls the walls and tries to pour itself out.

**Drainage Raises Fear for Ducks**  
WASHINGTON—Federal farm programs that would drain the duck-producing wetlands in the Dakotas and western Minnesota are causing alarm on the Mississippi flyway, the route the ducks travel in spring and fall.  
Up to two thirds of the flyway's ducks once came from the wetlands, the Mississippi Flyway Council reports, but now the figure is down to one third and the ducks are fewer.

**Italian Women Ahead**  
ROME—Italy has about a million more women than men, the Italian Central Bureau of Statistics reports. Latest census figures show that Italian residents in Italy total 50,463,782 last October, a gain of 2,948,250, or 6.2 per cent, over the 1951 census figure.

**Meeting Set To Describe Teen Center**  
Parents of Manchester teenagers, and other interested townsmen, are invited to a meeting Thursday at which a teen committee and one of its advisers will discuss the proposed Manchester teen center.

The meeting is scheduled for 7:30 p.m. in Mott's Community Hall, 387 E. Middle Type.

Ally Vincent Diana, an adviser, and committee members Harold Huntington and Timothy Donahue will speak.

**Danes Say Banner Fell from on High**  
COPENHAGEN—The Danes' Denmark's red flag with a white cross, has been the nation's standard for more than 100 years. According to legend, the flag came floating down from a cloud in 1219, the year that the Danes first came to America.

The committee says it needs furniture, particularly tables and chairs, to furnish the rooms. A pool table and ping pong table, if they are donated, will be installed.

Persons interested in becoming chaperones for the center or donating furniture are asked to call Mrs. Cronin at 97 Lamo St. or Huntington, 28 Oakwood Rd. The center will be asked to assist no more than two evenings of the school year.

**Japan to Help India**  
BANGALORE, India—India and Japan plan to set up a Bangalore, Mysore, center to teach Indians to process marine products. Lectures and laboratory work will be offered. Japan will send seven technicians under three-year contracts at a cost of \$170,000 and also spend \$120,000 to help equip the center.

**Admiral Says U.S. Slow On Hydrofoil Carriers**  
By FRANK CARLEY  
WASHINGTON (AP)—Small aircraft carriers which zoom along just above the surface of the water at speeds of 115 miles per hour are envied by an admiral.

However, he said the United States is "woefully behind" European countries in techniques essential to the development of such a craft.

Rear Adm. Ralph K. James, chief of the Navy's Bureau of Ships, said such "hydro-skimmer" warships might carry up to three nuclear-armed aircraft.

The letter would be ready for high-speed launching — without as "ground effect machines," a surface craft that can rise from the water and then be supported on a cushion of air generated by the craft itself.

"Hydrofoils" are craft whose hulls can be lifted partially above the surface by wing-like surfaces that extend wholly or partially beneath the water. The idea is to gain high speeds—due to lessened water resistance.

James, addressing a special meeting on such vessels sponsored by the Institute of Aerospace Sciences (IAS), said yesterday the United States still is woefully behind the "parade" in comparison with some European countries in developing such craft.

And, declaring that such vessels have a "terrible potential" for use as patrol craft, minesweepers, antisubmarine warfare craft, and even aircraft carriers, the admiral said more commercial interest and development is needed in this country not only as an end in itself, but as an aid to military development.

research projects already being carried on by the Navy in the field, the admiral said.

"The whole concept of hydrofoils and air-cushion vessels has not been embraced by too many people in the Navy."

**HOTEL 'TOPPED OUT'**  
NEW YORK (AP)—The 46-story New York Hilton Hotel was "topped out" Tuesday and the American flag wasn't the only thing hoisted to its 487-foot peak.

The ceremonies marking the placing of the last steel beam atop the 475-million building on Sixth Avenue included a champagne party for officials on the fifth floor.

Right along with the last beam was hoisted a table set with glasses and a Jerusalem 100-ounce bottle of champagne for the construction workers.

**Cormier Urges Trade School in Tolland County**  
Edward Cormier, Democratic candidate for the State Senate from Tolland County, has advocated establishment of a state trade school in the county and a district industrial commission to stimulate industrial growth throughout the district and to help them seek new industry.

Cormier told the Stafford Lion's Club Monday that he is concerned about the increase of drop-outs from our schools, and feels a trade school would give "potential dropouts an alternative avenue of education as well as an encouragement to learn a technical skill."

In a case where one town cannot meet the particular requirements of a potential customer, Cormier said "the district industrial commission's responsibility would be to try to locate them elsewhere within the district where their requirements can be met. This would help out towns on the basis that the commission would be representing 15 towns as one and therefore have a stronger appeal."

Apathy, Chaos Mark Algeria's First Election

ALGERIA (AP) — Independent Algeria's first election campaign ends today amid chaos, tension and general apathy. There is no doubt over the result in Thursday's elections: all the 196 candidates for the National Assembly including 16 Europeans are unopposed. They were handpicked by Ahmed Ben Bella's ruling Political Bureau with the support of the regular army of Col Houari Boumedienne, and will give Ben Bella an overwhelming majority in the assembly. In eastern and western Algeria and the Sahara, all under Boumedienne's firm control, a good turnout is expected from voters accustomed to being marched to the polls under French rule. In the central Algerian areas controlled by the violent guerrillas of Wilaya (region) 4, voting is likely to be patchy. The Political Bureau accused the Wilaya 4 commanders of sabotaging the elections in their districts by forcing voters to abstain and dispersing election meetings at gunpoint. Wilaya 4 is angry over the removal of its officers from the list of candidates and openly accused Ben Bella of instituting a dictatorship. In the countryside south and west of the capital, frequent clashes occurred between Algerian troops and crews supporting Ben Bella. Several civilians were injured. In downtown Algiers, firmly controlled by Boumedienne's troops and civilian police, Wilaya 4 supporters used a crowd of darkers, tore down election posters and painted anti-Ben Bella slogans on walls.

Dillon Believes Senate Groups for Force To Stop Hemisphere Reds

(Continued from Page One) The House Committee were in consultation with the Senate committee during this morning's special session. The final resolution bases the value as a key reserve and trading currency. Discussing the American economy, Dillon said business continues to move steadily ahead unhampered by the excesses that characterized earlier periods of expansion. "There is, for example, no danger of serious inflation," he said. Instead, he reported, the U.S. problem is excess business capacity, too much unemployment and a tax structure that has become a drag on productivity, new investment and growth. He recounted the Kennedy administration's efforts and plans to solve these difficulties. But he made no forecast about the future course of the U.S. economy, which has turned sluggish in recent weeks. The financial leaders who heard Dillon's address are discussing a resolution that would put 19 hard currency countries on record as expressing confidence in the U.S. dollar. And it says that "the international Communist movement is increasingly extending into Cuba its political, economic and military sphere of influence." Russell told members that adoption of the resolution by the two houses and its signing by the President would demonstrate "the unity of all sectors." He said that the House will be floor manager for the resolution when it is brought up Thursday in the Senate, said he anticipated quick passage. The final language was based largely on a resolution introduced by Sen. Mike Mansfield, Mont., the Senate Democratic leader, with administration support. However, Mansfield's language was changed to declare United States determination on a course against the Soviet military buildup in Cuba rather than to assert "the President of the United States is supported in his determination and possesses all necessary authority" to take whatever steps may be necessary. Senators said this changed language avoided any possible interpretation that Congress was attempting to spell out authority which the Constitution already gives a president. KEY WEST, Fla. (AP) — The States today of trying to limit an incident which would permit an attack on Cuba. The broadcast complained of U.S. surveillance over shipping to and from the island and said the "imperialist government of Kennedy is endeavoring to intensify all its activities against Cuba." The criminal and practical Yankee action against Cuba increases daily in the brazen manner to provoke an incident which will permit carrying out a frontal attack against the Cuban people." The broadcast declared U.S. ships have been ordered to make illegal flights over Cuba to take pictures of ships entering and leaving port. "In addition, ships of the U.S. Navy sent from Guantanamo and Key West watch the Cuban coast, contravening all international legislation," the broadcast said. The radio described a congressional resolution now under consideration as a "criminal and diabolical plot conceived by Kennedy." However, the resolution would declare that the United States will use all its resources to resist Communist aggression in the Western Hemisphere. CANADA ELECTION URGED QUINCY, Ill. (AP) — Quebec Premier Jean Lesage called today for a provincial general election for Nov. 14 to seek a mandate for the government to nationalize power systems. Lesage told a news conference his government, elected 27 months ago, feels the proper planning demands nationalization of all enterprises which produce power for private consumption. Among the systems he labeled for nationalization was the giant Shawinigan Water & Power Co. There are about 45 private power companies in the province. Many produce power for their own consumption—such as aluminum plants, textile and paper mills. The local council will serve a public clamor to let the province own its power. The election is set for Oct. 15, but may be held as early as Sept. 25. Tickets may be had from any of the candidates. A Quebec Board of Appeals has unanimously granted variance to Harvey K. Burrite Jr. of West Shore Dr. to establish a body shop at the Coventry Industrial Center, 1000 Main St., with a variance of 100 sq. ft. from the side lot. The board also granted a variance to build a garage at his residence on the corner of Main St. and a lot of three feet from the side lot. Gov. Hughes Sends Pledge by Morgenthau To 'Fight of His Life'

(Continued from Page One) Good, Good for the Republicans. Hughes said: "It's about time we had to persuade them quite a bit. But it's good to see them get on the bandwagon." However, in Buffalo 4 spokesman for the Walter J. Mahoney, Republican majority leader of the New York State Senate, said Mahoney was awaiting a report of the committee's recommendations before he would be named secretary. An overwhelming victory could give him a strong push toward the GOP presidential nomination. The outcome of the election could have a decisive effect on Rockefeller's political future. **PTA to View School Plans**

Douglas Cheney of the public building commission will explain proposed plans for a junior-senior high school to the PTA this evening. The session will be held at the Community Hall at 8 o'clock. Alternate plans for a junior high school, drafted by Architect Arnold Lawrence of Manchester, will also be shown by Cheney.

The public is invited to attend and view the proposed plans. Questions from the floor will be welcomed. Most of the 11 new teachers at the school are expected to be present and will be introduced. Also to be introduced are members of the PTA executive committee.

Assessor's Appeal of the Edson P. Herrick, clerk of the board of assessors, has made another appeal to taxpayers to support to the assessors any major interior changes made to their homes during the past year. A similar appeal several weeks ago brought responses at all from taxpayers.

Herrick said, but he hopes this second reminder may prompt property owners to contact assessors about improvements recently completed.

Residents who plan to be out of town the last week of October are invited to file their property lists now so that they will not be notified for late filing, Herrick said.

Cavanaugh Letter Filed A letter from William T. Cavanaugh of South Rd. was read at both the Selectmen and the public building commission's meetings Tuesday night. Cavanaugh is advocating conversion of the elementary school on North Rd. to a junior-senior high school.

Both the selectmen and the PTC decided to make Cavanaugh's letter a matter of record, but took no action on the matter. Members of the PTC noted that they are obliged to follow the wishes of the board of education only.

Hearing Tonight Those interested in the proposed Meadow Development, off Bolton Center Rd., are invited to appear at a public hearing tonight at 8 p.m. at the Community Hall. The plan, showing one proposed road, was submitted by John D. LaBelle, attorney for Mrs. Margaret Rich, owner of the property. The hearing has been scheduled by the town planning commission.

### After 10 Unhappy Days Britain Gets Cautious Vote on Joining Market

(Continued from Page One)

month. After that he must hold his following in line. The Parliament where resistance is building up against the terms he so far has negotiated.

The committee made clear the commonwealth leaders themselves want the chance to express their judgment on the Brussels, Belgium, negotiations are continuing after the first of the year, Kelleher said.

The new building, to be of colonial design and to contain five rooms on the first floor will replace the present Vernon post office on Church St.

A \$40,000 building permit for a 32 by 60-foot building has been issued to National Construction Co. by building inspector Francis McNulty. Plans call for parking on the side, with an unloading platform at the rear of the building.

Kelleher said that after completion the building will be leased to the federal government for 10 years with options to be provided for renewing the lease for four five-year periods. Lease fees will be negotiated later, Kelleher said.

The original award of the job was to the Weston Construction Co. of Newton, Mass. The assumption of the contract by National Construction Co. followed through the death of one of the principals in the Weston Construction Co., according to Kelleher.

### Rockville-Vernon Work Begins on Post Office

Start of construction of the new Vernon post office, next to the Methodist Church on R. 20, has been confirmed by postal officials in Boston.

Paul E. Kelleher, manager of the real estate division in Boston, said that work on the structure was started this week by the National Construction Co. of South Boston. The building is expected to be ready for occupancy sometime after the first of the year, Kelleher said.

The new building, to be of colonial design and to contain five rooms on the first floor will replace the present Vernon post office on Church St.

A \$40,000 building permit for a 32 by 60-foot building has been issued to National Construction Co. by building inspector Francis McNulty. Plans call for parking on the side, with an unloading platform at the rear of the building.

Kelleher said that after completion the building will be leased to the federal government for 10 years with options to be provided for renewing the lease for four five-year periods. Lease fees will be negotiated later, Kelleher said.

### Talented Couple

Maya Pliotshkaya, star of the Bohol Ballet, poses "all eyes" for her husband, Rodion Shchedrin. In their hotel in New York, Maya has been married to Shchedrin, a talented young composer, for five years and she can't imagine what could make them quarrel. They're together most of the time. In Russia he's with her in the theater or at their home outside Moscow and came to the United States with her on a cross-country tour. (AP Photofax).

## WE'RE HONORED TO BE INVITED AS CANDIDATES FOR THE BOARD OF DIRECTORS

to appear before a group of our fellow citizens to express our opinions and to answer their questions about town affairs.

We may not always agree with them—just as it is not likely that we would be in complete agreement with any single group—but we certainly are not afraid to appear.

Since we have enough confidence in our school teachers to entrust our children to them we should also have enough courtesy to be willing to attend their meeting. We are not seeking any group endorsement. We are ringing doorbells and campaigning in shopping centers also to meet as many voters as possible before October 1. We say the same thing to all of them: Meet us, talk to us and make up your own mind.

The MEA meeting is open to the public as are the two meetings sponsored by the League of Women Voters.

ME—Tonight, 8:00 at Bowers School.

LEAGUE—Wednesday, Sept. 26, 8 p.m. for Director candidates, and Thursday, Sept. 27, 8 p.m. for Board of Education candidates. Both at Manchester High School.

## Democracy or Dictatorship? Rebels, Army Split On Argentina Rule

(Continued from Page One)

at Campo de Mayo, issuing a post-midnight communique saying "the dilemma is clear—dictatorship or democracy."

The rebels claimed growing support among cavalry garrisons throughout the country.

The air force and the navy watched nervously from the sidelines.

The army command post troops units on the alert throughout Argentina and declared many provincial garrisons remained loyal.

Most barracks held the capital. Most held the capital.

Guido stayed at Government House during the night and conferred with the armed forces secretary, Gen. Carlos Caro, undersecretary of the army, was appointed temporary head of Camp de Mayo.

He is believed he would resign and join the rebels.

Emerging at 3:15 a.m. from a meeting with Guido, Gen. Jose Carlos Saravia, secretary and chief target of the rebels, told reporters the rebellion of the 400 officers had been repressed "at least" overnight.

The strength of the Campo de Mayo garrison is estimated at 30,000 men. The cavalry corps, almost completely mechanized with U.S. weapons, has about 12,000 men, including some at Campo de Mayo.

Leaders of the rebellion included Gen. Julio Alagoray, commander of the Campo de Mayo garrison and the 1st Armored Division, who is a member of the military frequently has criticized the president and the backing of the military.

Walker Tedford, 156 Edridge St., not Mrs. Walter Tedford, was patient in Manchester Memorial Hospital. Tedford was erroneously reported as a patient in Monday's Hospital News column.

Henry Elizabeth St. 13 Hayes Rd., had visitors yesterday, when Mrs. Elizabeth Holdorf, Winter Park, Fla., and Dr. Frank Walbert, Harris De Grace, Md., both cousins, stopped for a visit during a trip to Boston.

### Democracy or Dictatorship?

The Soviet Union asked for the withdrawal of U.S. troops in South Korea.

If the Soviets were lifted about the defeat of their candidate for president, they made no outward show of it. The Soviet delegation joined in the applause for Zorullia Khan, 65-year-old veteran diplomat who has headed Pakistani delegations here since 1947.

Zorullia Khan polled 72 votes to 27 for Ceylon's G. P. Malalasekera, who was supported by the Russians and some neutrals.

The assembly also booted out size to 108 by granting U.N. membership to Rwanda, Burundi, Jamaica and Trinidad-Tobago. The four countries were granted their independence this summer.

The state allocation is part of a \$25 million bond issue approved last year by the state legislature. Manchester and Rockville are among five communities which will share \$4,500,000 of the \$25 million sum.

## Nursery Schools' Dr. Nash's Topic

Dr. Harriet C. Nash, supervisor of nursery schools and kindergarten for the state department of education, will speak at a parents' meeting concerning the cooperative nursery school tomorrow at 8 p.m. in the Second Congregational Church.

Sponsored by the mothers' club of the church, the school is beginning its fifth year. Dr. Nash will tell about recent developments in the nursery school field.

A few openings remain for three-year-olds and interested parents may contact Mrs. Joseph J. Glone, 72 Alton St.

### Reds Expected To Oppose UN Speech Curbs

UNITED NATIONS, N.Y. (AP)—Soviet opposition is expected to delay the United Nations through a heavy agenda by shunting aside speakers and improving debate procedure.

The Russian delegation wants the subject of improving U.N. working methods included on the proposed agenda for the 17th annual session which opened Tuesday. The Russian foreign minister goes to work today on the agenda.

Informed sources said the Soviet Union, whose candidate for assembly president was overwhelmingly defeated at the opening session, will vote against assembly debate on the plan. They said the Russians fear that opening the floor to debate would lead to a wholesale change in the ground rules.

Tunisia Foreign Minister Sleil Sleil, president of the 16th session, originally suggested the plan to start general sessions two weeks earlier, curb speechmaking and streamline debate. The plan is supported by Muhammad Zorullia Khan, the Western-backed Pakistani who won the presidency. U.N. sessions have been growing increasingly longer as its membership increases and each brings a host of resolutions involving the cold war, colonialism, finances and Soviet demands to start general sessions two weeks earlier.

The Soviet Union already has asked that the assembly debate the 12-year-old controversy over the Red China should reduce Nationalist China in the world to a foreign power. Andre A. Gromyko said there should be debate on psychology from the latter international conference on world trade. He said the European Commission started was restricting trade.

### King of Yemen Dies; Crown to Estranged Son

(Continued from Page One)

let his brother, Ibrahim, die in jail.

In 1953, a rebel coup put Abdullah on the throne. Ahmed saved his life by locking himself inside an arsenal. His son, Al-Hadi, escaped and rallied the tribesmen. Once again the dynasty was saved.

Ahmed supervised the beheading of Abdullah, another rebel brother, Sept. 12. Ibrahim Abbas, and 12 others.

Al-Hadi sat shakily on the throne for four months in 1953 while his father underwent medical treatment in Rome.

The king returned, three agitators into prison or had them beheaded in public with a scimitar. Al-Hadi moved into semi-retirement.

Li Col. Felix (Doc) Blanchard, All-America from Army, is coaching the Air Force Army football team this season. He was graduated last June from the Air Force Command and Staff School.

## Bond Commission Okays Funds for Urban Projects

The allocation of state funds for two area redevelopment projects was approved this morning by the State Bond Commission.

Manchester's North End project, approved by federal authorities on Aug. 3, was granted \$176,246, and the Rockville business district project was allocated \$185,472.

These amounts will be similar margin by the two towns to account for one quarter of the eventual cost of the programs. Federal funds will make up the majority of the expenses.

The state allocation is part of a \$25 million bond issue approved last year by the state legislature. Manchester and Rockville are among five communities which will share \$4,500,000 of the \$25 million sum.

### Engagement

The engagement of Miss Constance M. Strand of Glastonbury to Thomas E. Strange of Manchester has been announced by her parents, Mr. and Mrs. Carl A. Strand, of "Norman Hill Rd., Southport, who edged Miss Strand, who is the son of Mr. and Mrs. Everett Strange of 24 Virginia Rd.

Mr. Strange is a graduate of Manchester High School and attended Center College, Danville, Ky., and Rider College, Trenton, N.J. He is employed as a project coordinator at Hamilton Street.

Another wedding is planned.

## Need it? Get it!

That's the beauty of Hartford National's unique Check-Credit Plan

Check-Credit is a modern bank-credit idea which gives you a ready reserve of extra cash to draw upon whenever you need it—no unexpected expenses, take advantage of special sales on major appliances, a fine piece of furniture or anything else you and your family have your hearts set on.

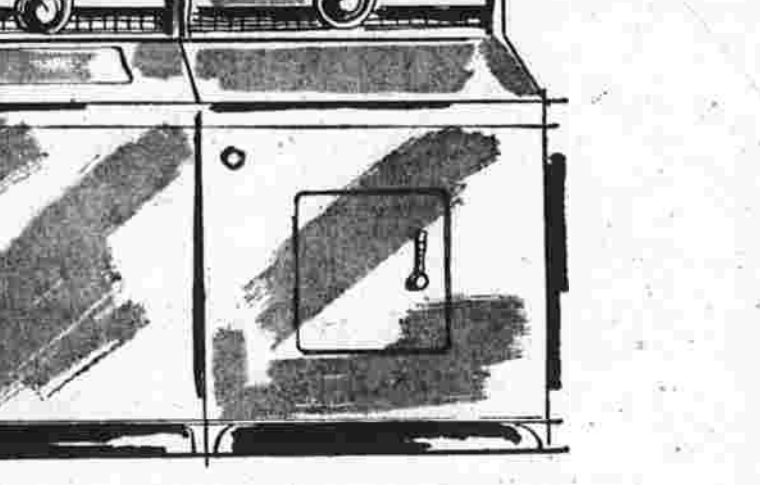

The Check-Credit Plan is simply a pre-arranged loan which you can use just by writing a check. Once you open a Check-Credit account, you establish credit with Hartford National for an amount that may be as large as \$2400 or as little as \$240. You receive a book of checks which you may use at any time to turn your credit instantly into the cash you need.

As you repay in specified monthly instalments, your credit builds back up to the full amount. Most important, you pay nothing to open Check-Credit... pay nothing when it's not in use.

Frankly, not everyone can qualify for Check-Credit privileges

Men and women of all walks of life—businessmen, housewives, doctors, attorneys, insurance agents and others—are now enjoying the many benefits of this unique banking service. But we think you will understand why the privilege of using Check-Credit is not available to everyone. Check-Credit is quite unlike the usual time-payment plans where you lend a specific amount of money for a known and specific purpose. Therefore, applications for Check-Credit must meet the highest credit standards.

But responsible people with a reputation for paying their bills promptly are qualifying every day for HNB's Check-Credit Plan. If you are such a person, we invite you to apply for this modern banking convenience. Just fill out and mail the coupon below. We'll get back to you promptly.

ORDER YOUR SNOW-BIRD TODAY?

Because every year we've ordered more and we still sell out. Even the factory's increasing production can't keep up with the amazing demand.

Snow-Bird's popularity is no accident. It's the only snow thrower that performs the three essentials of snow control. Feeds snow with a slow-speed rotary auger into a high speed blower that discharges the snow through an open-throated controllable chute that lets you aim the snow precisely. Easily handles snow that's wet and heavy, dry and flaky, or covered. Model 225 Snow-Bird cuts a 22" swath in deep snow with a new 4 h.p. easy-start winterized engine. Model 262 cuts a 26" swath through the deepest snow with husky 6 h.p. easy-start engine.

### Kennedy Raps Call for Slash in Foreign Aid

WASHINGTON (AP)—President Kennedy says a House committee's recommendation that nearly \$1.4 billion be sliced from this year's foreign aid funds is an irresponsible action that "poses a threat to free world security."

He said that the slashed funds be restored.

House leaders, detecting sentiment for additional trimming of the \$5,856,822,000 economic and military aid measure, may force a salvage operation at this time for strategic purposes.

### Acids Sentence State News Roundup

NEW HAVEN (AP)—A veteran local attorney will be embroiled in Superior Court Nov. 9 for embezzlement and obtaining money by false pretenses.

The attorney, Mr. Edward Klebanoff, 59, pleaded guilty yesterday before Judge Vine R. Farmington to charges of embezzling \$100,000 from the Connecticut State Bank of New Haven to meet his own needs.

### Boils Again in UN

UNITED NATIONS, N.Y. (AP)—The U.S.-Cuban crisis flared in the first encounter between the U.N. General Assembly today when U.S. Ambassador Adlai Stevenson referred to an alleged campaign of subversion by Cuba against its neighbors.

Stevenson spoke as some Western diplomats expressed concern over growing indications that the Soviet Union was preparing an ultimatum to the United States on Cuba, U2 flights, Berlin and the missile crisis.
