cluster zoning regulations was approved after a short public hearing, bringing praise from a resident of the area but causing some hear-

tency when commission members realized the sy had inadvertently by-passed a clause of the subdivision regulations.

The Pantaleo bid was turned down unanimously. The TPC's similar 1959 decision had been upheld by the Court of Common Plees after Pantaleo contested the decision.

The re-subdivision affects the eastern and as yet undeveloped section of Manchester Ridge, in the Bryan Farm tract in Buckland.

Residents of the completed part of the development had requested the TPC join them in asking the subdividers, I. R. Stich Associates, to provide a park area in the new section, under the terms of the town's recent cluster zoning amendment to the zoning regulations.

The Stich subdivision has been approved with septic tanks.

The regulations also permit the commission to waive clauses in specific instances. Mrs. Dorothy Jacobson, TPC secretary, suggested that the criteria for the use of septic tanks in the proposed zones should be the development density rather than lot size, with sanitary sewers required in any development of leas than Rural Zone density requirements.

PENSION BOARD

As of June 30, 1963 there were 313 active members in the Retirement Allowance Fund, an increase of 16 over the previous year.

During this fiscal year members paid \$43,178 into the plan.

At the start of the 1962-63 fiscal year, 38 persons were receiving pensions, five persons were receiving pensions, five persons were retired and two died, making a total of 41 receiving payment on June 30, 1963. The total pension payments during the year were \$32,108.63.

The board has recommended a change in pension ordinances to permit the inclusion of the town clerk in the plan.

At the end of the fiscal year, the plan had funds of \$788,512.56, consisting of \$33,672.91 in cash and \$754,839.65 in investments. The Hartford National Bank and Trust Co. is trustee for the fund.

The Town Pension Trust Fund had nine pensioners at the start of the fiscal year. Since then, one has died A total of \$12,403.90 was paid out in pensions.

During the fiscal year 1962-63, the project that aroused much interest.

project that aroused much interest was the construction, last fall, of a soil cement base in a portion of Bidwell St. This section was chosen for the test because of the predom-inance of truck traffic in the area. After a severe winter, the base has proven highly satisfactory, and, because of its economy as well, will be given consideration for future

projects.

During the spring of this year, the engineering division prepared a highway study and report, which consists of a condition and cost study of all town roads, setting up a future road program.

A study is now under way to increase the efficiency of snow plowing and sanding operations.

Gracie Allen **Master Timer** 

> By CYNTHIA LOWRY
> AP Television-Radio Writer
> HOLLYWOOD (AP)—Jack Benny, the acknowledged master of timing, insists that the performer without peer in this subtle art is Gracie Allen.
>
> Timing is the ability to do the right thing at the right moment, the quality that tells Benny, for example, exactly how long to neurs before turning an example. pause before turning an exasper-ated face to the audience and ex-claiming, "Well!"
>
> Gracie Allen has retired but those old Burns and Allen television shows are still around and "Nobody has Gracie's timing," Benny said, "and when I see those shows today I'm constantly more amazed by it. Remember, she had one of the toughest jobs in the world, doing non-sequitur lines. They came right out of the blue, and there was nothing in the feed They just didn't make sense. It was a terrible job to handle them But she'd Ooh and Ah around and come up with them exactly right."

MEDICAL PUZZLE-POSER: FAST PULSE-JITTERS BY WAYNE G. BRANDSTADT Newspaper Enterprise Assn. Q-My pulse is never less than 100 beats a minute. With the least it of exertion or excitement goes as high as 140. This makes me jittery. What should I do? A—Although this is a somewhat elevated pulse rate, it does not necessarily mean that you have a heart disease. What we will have to find out is whether you are jittery because your heart is fast, or if your heart is fast be-cause you are jittery. The first get an electrocardiogram (ECG) may have a toxic gotter. The ECG would help your doctor de-termine whether there was something wrong with the electrical conduction system that controls your heart rate.

If both tests turn out to be normal, perhaps a short course of medicines to calm your nerves would get your pulse back to normal and break the vicious circle of worry, fast pulse, faster pulse.

Q-In January I had a miscarriage after being pregnant four months. This would have been our first child. Ever since then I have had a choking sensation in my throat and it appears to be swollen. Even the weight of the bed covers on my neck seems to choke me. M doctor says this is caused them down without resorting to tranquilizers?

A. The loss of a baby must have been a great shock and dis-appointment. This may, as your doctor suggests, be the reason for

your choking sensation, but per-haps the swelling and your ner-yousness are caused by a gotter. A toxic goiter may even have been the cause of your unfortunate miscarriage.
If you have a goiter, proper greatly improve your chance of) carrying your next pregnancy to full term.

If, after a painstaking examination to rule out goiter, your doctor reassures you that your trouble is nerves, this firm reassurance may be all that you need. On the other hand, if he wants week or two, be guided by his

advice.

Q-Please let me know what food or liquid not to est or drink for high blood pressure. A — Many persons who have high blood pressure are also overweight. If you belong in this cate-gory, make reducing your first in spite of normal weight, you should be on a low-sodium diet. U.S. Spending

More Abroad

Than Returns

lars the United States is spending abroad for one thing and another and the number it gets back is running well above this time last year, or the first of this year.

And this in spite of a favorable balance of trade—excess of commercial exports over imports—in the first six months of 1963 of about \$5 billion, when figured on an annual basis.

Our exports were at an annual rate of \$21.5 billion and our imports \$16.6 billion. But that was not enough to balance our books with the rest of the world.

That \$5 billion surplus of exports over imports more than disappears when you add in U.S. spending abroad for foreign ald in grants or loans, for its military forces, private travel, and private investment and bank loans.

Americans have been buying ingregational Church, Hampton, N. H.

The couple are at home at \$4 billion dollars of these were sold here in the first half of this year.

This would be almost as much as sold in all of 1982 and almost twice as much as in 1961 or in 1990.

The department announced

The department announced these figures earlier than had been expected, its report on the first half of the year usually coming later in August. The announcement was on the eve of congressional hearings into an administration proposal to tax the purchase of foreign securities by Americans, if bought from forsigners and thus piling still higher the amount of dollars held abroad.

In the April-June quarter forsign deposits in U.S. banks and foreign holdings of short-term U.S. securities increased by about securities increased by about \$900 million. In the first three months these dollar holdings by

Thunder from Moscow's heavy propaganda artillery heralds a new phase of the cold war. It has the sound of a counterattack to frustrate a Red Chinese bid for leadership of Communists throughout the non-white world.
A supercharged Soviet campaign appears designed to convince Communists in Asia. Africa and Latin America that Premier Khrushchev's "peaceful coexistence" policies promise to open the speedlest route to Communist it is the only safe path to victory. The Chinese claim Khrushchev's policies actually mean intensified political and economic warfare to isolate the "U.S. imperialists" and hasten the West's decline.

Winational liberation movement," they mean revolutionary groups which are anti-Western and can be dominated. When they say "progressive" or "patriotic" they mean groups leaning toward Communist ideas.

The limited nuclear test ban agreement has become for the Communists a sort of catalyst dividing them into two camps: Those who believe with Peking that compromise with the West retards revolution, and those who insist it is the only safe path to victory. The Chinese claim Khrushchev's policy, the test ban ideas on disarmament will hurt the world movement. The Soviets deny it.

he projected new nation of Magysia, And in Latin America, the for violence.

Innese are egging on extremist actions to unremitting violence.

Moscow's response has been a propaganda drive appearing to smbody a pledge to uneasy Communists in those areas who might have dismayed at the suggestion of the formulation of the suggestion of the first through the first tool and th munists in those areas who might be dismayed at the suggestion that the Kremlin has abandoned violence. The Kremlin insists active military and political support of violent revolution will continue. Painstakingly, Moscow is explaining what it has done and is doing to promote Communist prospects in the world. Pravda, the Kremlin's official voice, published a map last week showing just where Soviet economic help and credits are going in the underdeveloped areas of Asia and Africa. Kommunist, the Kremlin's top theoretical journal, has been pleading with Latin-American Communists to believe that while the world revolution is in "a new stage," the Soviet Union still supports violence where violence is

Rescuers apparently were unable to pierce a "lifeline" hole to Bova, who has been without food since the cave-in Aug. 13. In a second attempt Tuesday night they were successful in drilling a twin six-inch shaft estimated to be about 15 feet east of the one through which contact was first established with Feilin and Throne Sunday night.

"Lou Lou!" members of the drilling crew yelled down the tiny opening over and over. Their voices echoed in the silence of the night as there was no response.

Then, from Feilin's side of the subterranean gallery, came word that he and Throne had heard Bova's voice for the first time since Monday morning when Feilin reported that Bova had apparently suffered a hip injury.

Word spread quickly. Long faces broke into smiles and shouts of "He's alive !He's alive!"

Fellin said he talked to Bova twice but it was not clear what

ger Richard Martin said last night, "any more than any other tax benefits equally."

But a group of Main St. merchants, who said they felt that "any assessment would be derived," petitioned to be excluded from the district, and suggested tax reductions instead.

They said they felt that the additional parking that the receipts from the tax district would provide "would not restore business on Main St."

About 38 signed the opposing petition, while Joseph Garman, a member of the parking authority, reports about 55 have signed the petition supporting the proposed district.

Tax District Law

The proposed downtown taxing district ordinance, which will be advertised to-morrow, Friday and Saturday with a map of the district lines with a map of the district lines
the town directors tentativeiy set last night, reads:
Presmble:
Whereas it is the intention
of the Board of Directors of
the Town of Manchester to
establish a special taxing district within the Town of Manchester: and

chester; and Whereas the revenue raised by the tax to be levied within such district is to be used to provide additional off-street parking for the "Downtown Business District" of said Town; and
"Whereas it is the desire of said town to tax only proper

ties used wholly or partially for commercial, business or professional purposes and no petition supporting the proposed district.

The directors heard spokesmen from both factions at an informal meeting at the Municipal Building last night, and then described tentative boundaries for a proposed district for an official public hearing on Aug. 27.

The proposed district extends from Maple to Pearl Sts. on the cast side of Main St., and from Forest to Locust on the west side, at varying depths designed to exclude residential properties in the rear of the business area.

"Because we vote for these lines tonight does not mean that we have to approve them next week," said Republican Director Harold A. Turkington.

"These lines are tentative," said Mayor Francis J. Mahoney. To the oniookers he said, "I hope that all of you, and all the other interested merchants, will be here on the 27th for the public hearing."

Merchants and land owners for the public hearing."

Merchants and land owners for the rest. The rest, he said, went for policing the parking meters, instal-lation of traffic lights, street widentic lights, street widentical groupses. The question of the question of the directors agenda 27 times," Martin said. "At the general fund; now because of several new shopping areas in town, we have a different situation."

Main St. as a whole is the town's second largest taxpayer, he said, assessed at about \$6 million. The largest. United Aircraft, is over \$7 million; Hartford Electric is at about \$5 million. More spoke in favor of the bill than against last night. Matthew Moriarty, referring to opposition from the "several new shopping areas" that Martin mentioned, said, "Some of the opponents feel that by hurting Main St. they will help proved by the Board of Directors of the fact of the purpose of defraying by taxes levie to tax properties used exclu-sively for residential purposes;

all of you, and all the other interested merchants, will be here on the 27th for the public hearing."

Merchants and land owners for and against the project seemed to be concentrated geographically, with the opponents claiming a majorty of Main Streeters north of Birch St. on the east and Park St. on the west.

Propents seemed to be concentrated south of these streets, but the scattering further north—and the benefit the parking authority says they would derive — prompted them to ask inclusion of a much of Main St. as the directors that Martin mentioned, said, "Some of the opponents feel that by hurting Main St. they will help their business; I don't think that is true. After Alaska Trip

"Returning from Alaska one has a lasting memory of beautiful, snow-clad peaks, river-like glaciers, high foamy waterfalls, lovely tundra flowers and wonderful, friendly people. We saw many types of wild whales to grizzly bear."

These sentiments were expressed by Mr. and Mrs. Ward Krause, their son, Billy, and their daughter, Janice, of 37 Walmut St., who returned Sunday after a two-month motor trip to our 48th state covering 12,000 miles.

# Herald Angle

Strange Firsts at Fenway Park This Week There have been several strange "firsts" during the Red Sox' current home stand at Fenway Park. One occurred Monday night when lumbering Dick Stuart, who'll never be known as twinkletoes, chugged and wheezed around the bases for the first inside-the-park homer in Boston in about two years. Inside-the-park circuit cloubs are a record without two years. Inside-the-park circuit clouts are a rarity at the

smallish Jersey Street diamonde anyway, but for a runner like Stu-art they're nigh impossible. Stuart's eye-opener started as a very high, lasy fly ball that barely eluded a tremendous leap by Cleveland's Vic Davalillo. The ball came off the wall, grazed Dava-lillo's face and caromed at a crazy angle toward the left field foul line. Left fielder John Romano, (and that's another part of this story) was over toward center and the ball's odd bounce left both him Davalillo going the wrong By the time Romano ran it down and fired toward the infield, Stuart was rounding third. A per-fect relay might have had him at the plate but the throw was high and wide, "the Golden Glove" sliding home in a cloud of dust. Although the sight of "Big Stu" pedaling frantically around the bases was odd, it was no worse than watching Romano trying to avoid serious injury while chasing drives to left. His complete outfield experience totals three games —
