## State News Roundup

### Holiday Weekend: Two Road Deaths, 367 Arrests Made

By THE ASSOCIATED PRESS  
Highway accidents claimed two lives in Connecticut during the long holiday weekend. A boating accident took the life of a Connecticut youth in Massachusetts last night.

One of the highway victims was George Silkman, 20, of Cheshire. He was killed Sunday when his car overturned after losing out of control on Rt. 10 in Cheshire.

The other was Mrs. Eva Thomas, 39, of New Haven, one of nine persons injured in a two-car collision Saturday on the Conn. Tpke. in East Haven.

Mrs. Thomas died Monday in Grace-New Haven Hospital of injuries suffered in the accident.

James Carzello, 19, of Thompsonville, Conn., drowned Sunday night when he and a companion were thrown from a motorboat as it made a sharp turn on Lake George in Wales, Mass.

The companion, Wilfred St. Onge, 19, of Springfield, Mass., also drowned.

Police said neither youth could swim.

State Police said that during the period from 6 p.m. Friday until midnight last night they made 367 arrests, including 126 for speeding and 4 for drunken driving. Troops also issued 1,589 written warnings for infractions that did not seem to warrant arrest.

### DePasquale's Robbed

NEWINGTON (AP)—A burglary at DePasquale's, a large restaurant on the Berlin Tpke., was reported today for the second time in less than a month.

Police said the thieves took \$275 from a cash box. The break was discovered at 4 a.m. The restaurant was closed yesterday.

When the eating place was hit a few weeks ago, the burglars carted away the safe.

### Auditors Rap Board

HARTFORD (AP)—State Auditors said today the State Board of Accountancy paid \$16,900 to its three board members in the past three years "without statutory authority."

But the tax pay was justified July 25 when the State Personnel Board set a \$25 per day plus expenses payment for the board members and made it "retroactive" to 1969.

Auditors Clarence F. Baldwin and Robert F. Clafney in auditing the board's books for the past four years, chided the board for paying its members without complying with the law.

The oversight stemmed from a law passed by the 1956 legislature which repealed the old per diem payment schedules for this and many other boards and commissions.

After July 1 of that year, according to the law, payments made to board members will be based on schedules determined by the state personnel board.

However, the personnel board took no action on paying Accountancy Board members until this

## Area School News

Today's Herald contains four pages of school news for pupils in Manchester and area towns. You can find the school information beginning on Page 9.

## NY Schools Face Racial Imbalance

EDITOR'S NOTE — With the opening of the school year, boards of education and other officials in New York State are facing a racial problem never before so sharply defined for them.

By CHARLES STORER  
ALBANY, N. Y. (AP)—The opening of public schools in New York State is pushing to a new—and in some cases bitter—climax the problem posed by the color of a child's skin.

Administrators in more than 40 city and suburban school districts, under pressure from racial minorities and from the State Education Department, are wrestling with the question of racial imbalance in their schools.

The imbalance generally is attributed to segregated housing patterns.

In some school districts, steps to eliminate or reduce racial imbalance are being inaugurated as pupils return to classrooms this week and next.

In other districts, the problem still is under study or proposed solutions are effective at later dates.

In still others, angry parents are fighting in the courts against plans for school integration.

State Education Commissioner James E. Allen Jr. contends that children in schools wholly or predominantly Negro are deprived of equality of educational opportunity.

Such imbalance, he says, "must therefore be eliminated from the schools of New York State."

The commissioner directed all school districts to report to him on steps they would take to eliminate any racial imbalance. Summary

Governor George Wallace of Alabama tells crowd he will continue fight against school desegregation, after he brought in state troopers to close Tuskegee Public School. (AP Photofax.)

## Also Defies Tuskegee's Educators

TUSKEGEE, Ala. (AP)—Gov. George C. Wallace, risking federal retaliation, kept the Tuskegee Public School closed by force today despite the local school board's decision to obey a federal court desegregation order.

Blue-helmeted state troopers, redoubled in number and supported for the first time by mounted sheriff's deputies, kept students and teachers out of the school to enforce the governor's orders to postpone the start of the fall term until next Monday.

Students in the consolidated elementary-high school were turned back as they approached the red-brick building for the second straight day even though the Macon County Board of Education said that as far as it was concerned the school was open.

Col. A. J. Lingo, commanding the troopers, said that only Principal E. W. Wadsworth would be admitted to the building.

Even teachers were turned away because Lingo said "school is closed and they have no business in there."

(Continued on Page Eight)

## Folcroft Group Bans Violence, Plans Boycotts

FOLCROFT, Pa. (AP)—A group of Folcroft residents says there will be no more violence against a Negro family that moved into a white neighborhood but it will use "passive resistance" by demonstrating and boycotting any business which serves or deals with the family.

The statement was issued Monday after about 1,000 men met for two hours at the Folcroft Swim Club.

The statement deplored the mob violence that greeted Horace and Sarah Baker, who moved into the Delmar development under state police guard Friday night. A mob had blocked the move Thursday.

The unsigned statement, emphasized that the Baker family is not welcome in this suburb of Philadelphia but said "the state troopers may leave" and the violence will not return.

State police kept the area under tight security. Folcroft Borough Mayor Hugh McVicker ordered that "no passes be issued to non-residents."

The Bakers, with the help of friends, spent Labor Day repairing their house. Windows were broken. The lawn was littered with rocks, eggs and vegetables.

## Death Toll At Record: 543 to 501

By THE ASSOCIATED PRESS  
The nation's traffic accidents during the long Labor Day weekend claimed a record toll of deaths for the holiday, soaring far past the previous high of 501.

The count at midnight local time Monday, the end of the 78-hour holiday period, showed 543 traffic deaths, topping the previous record set during the Labor Day weekend last year. Related reports were expected to boost the final total.

The slaughter on the highways during the holiday was marked by several multiple-fatal accidents, including six in Michigan. The worst accident occurred Monday when 10 persons lost their lives in a head-on crash near Liberty in southeast Texas.

The Labor Day holiday traffic total marked the third record toll for this year's three major spring and summer holidays. The 196 persons killed on Memorial Day was the highest for a one-day Decoration Day holiday. During

## Youths at Resorts Riot, 400 Arrested

HAMPTON BEACH, N. H. (AP)—Thousands of young persons at this Atlantic Ocean vacation town and three other resort areas across the nation apparently have established a new sport to be played at summer's last gasp.

It's called Labor Day weekend rioting and more than 400 arrests at Hampton Beach, Seaside, Ore.; Ocean City, Md.; and Lake George, N.Y., attest to its popularity.

The rules are simple: Dress casually, show contempt for authority, snake dance in the streets, throw rocks, bottles and firecrackers and drink too much.

In Los Angeles, evangelist Billy Graham said "these outbreaks of teen-age revolt are the result of youth's futile search for purpose and meaning to life."

"They are trying to find it in sex," he told a revival meeting, "but when they become satiated with love making, they turn to violence."

Some 100 policemen were called out in Hampton Beach Sunday night to quell demonstrating youths. Crowds thronging Hampton Beach, which has a winter population of 900, were estimated officially at up to 175,000.

Police used fire hoses, dogs and tear gas before dispersing the crowds. Cottages were damaged, windows were broken and a policeman was grazed on the cheek by an exploding firecracker.

## Wethersfield Boy Held for Slaying In Yarmouth Fight

BARNSTABLE, Mass. (AP)—James P. Collins, 19, of Wethersfield, Conn., was held without bond today on a charge of murder in the table leg killing of Stephen C. Gilligan, 17, of West Newton.

Police planned to arraign Collins in Barnstable District Court Sunday in a free-for-all among teen-agers at a rented cottage at Yarmouth off Rt. 28. Police said

## Negress Grad, White Student, Tell Marriage

NEW YORK (AP)—Charlayne Hunter, first Negro girl to attend the University of Georgia, has disclosed she secretly married a white student at the university and they are expecting a child in December.

Her husband, Walter Stovall, 25, of Douglas, Ga., said his father, George, a chicken feed manufacturer, greeted news of the marriage with the comment, "This is the end of the world."

The couple announced their marriage Monday after Stovall's arrival here. He worked this summer as a reporter for the Atlanta Journal.

Mrs. Stovall, 21, said they were married last spring. She graduated in June.

Stovall declined to give the exact time and place of the wedding but said it was in the North and they spent their honeymoon "on the turpicks."

He said his parents maintain contact with him but refuse to talk about his wife.

The couple kept the marriage secret because Stovall had to spend the summer in Atlanta and, according to his wife, they did not want to add difficulties for him.

"Now I can wear my wedding ring all the time," Stovall said.

The two met in a campus coffee shop last fall. Stovall said, when he walked in and "there was only one seat—across from Charlayne."

They were seen together on campus and in his car—"but you really couldn't call it dating," he said, "because there is nothing much to do in Athens (site of the university)."

Mrs. Stovall said they drove to Atlanta to visit integrated theaters and restaurants.

She said her friends accepted the romance. Stovall said his "weren't exactly comradely about it."

Her family had no objections to the marriage, she said, but she did not tell them about it until after graduation. "They were worried enough about all the rules of the university," she said.

Her mother works in a real estate office in Atlanta. Her father, Lt. Col. C. S. H. Hunter Jr. of Tampa, Fla., is a retired Protestant Army chaplain.

## Saigon Paper Charges CIA Plotting Coup

SAIGON, South Viet Nam (AP)—New friction in U.S.-Vietnamese relations developed today after a government-sponsored newspaper accused the U.S. Central Intelligence Agency of plotting to overthrow President Ngo Dinh Diem's regime.

The English-language Times of Viet Nam charged Monday that the CIA was financing a plot to overthrow Diem and exile two powerful advisers, his brother Ngo Dinh Nhu and Mrs. Nhu. The U.S. Embassy called the story nonsense.

Washington believes the Nhus are responsible for Saigon's harsh crackdown on Buddhist opposition and has urged their removal while continuing to support Diem's war against Communist guerrillas. The Buddhists accuse the government of religious persecution but Diem, a Roman Catholic, denies it.

President Kennedy told a nationwide television audience Monday night that changes in policy "and perhaps in personnel" are needed in Saigon, apparently referring to the Nhus.

But an American who has

## Nhu: Viet Nam Man of Power

EDITOR'S NOTE—A man who shrinks from publicity, Ngo Dinh Nhu is probably the most powerful man in South Viet Nam. The younger brother of President Ngo Dinh Diem, Nhu is openly contemptuous of U.S. democracy, considers Americans in Asia naive. The United States would like to be rid of this man, but it will be difficult to shake the hold of Nhu, who dominates his president-brother as shown in this perceptive study by Roy Esser, a veteran on the AP newsfronts of Asia.

By ROY ESSER  
SAIGON, South Viet Nam (AP)—Ngo Dinh Nhu, the man behind the throne in South Viet Nam, lamented recently that "if anybody's oppressed in this country, it's the government."

A month later, Nhu persuaded his brother, President Ngo Dinh Diem, to declare martial law while Nhu personally ordered troops and his own security police to storm pagodas and break the back of a Buddhist opposition movement that threatened the family regime.

In the wake of this crackdown two weeks ago, Nhu emerged as possibly the most powerful—and most hated—figure in South Viet Nam. He has dominated his brother Diem since their youth, although Diem at 62 is 10 years his senior.

Nhu likes to tell visitors that he is a much misunderstood man. HIS is a many-faceted personality: mild-mannered, soft-spoken and tough.

Discussing the danger of a possible attempt to overthrow the government, Nhu told a group of military leaders last month there were only two ways of handling a coup—"You smash it like an egg before it is hatched or you join it and exploit it."

Nhu is violently anti-Communist. He has said the only solution for the Red China problem is to atom-bomb Peking.

But an American who has

## Rights Stand Cuts Support, JFK Says

HYANNIS PORT, Mass. (AP)—The President was interviewed by Walter Cronkite of the Columbia Broadcasting System for the inauguration of a half-hour "CBS Evening News" program.

Kennedy will grant a similar interview to the National Broadcasting Co. next Monday night.

The President said in the television interview that the civil rights situation obviously will be an important issue in the next election but he hopes both Republicans and Democrats will commit themselves "to the same objective of equality of opportunity."

"I would be surprised," he said.

The President said he knows he is not the most popular political figure in the South because of his civil rights stand.

Kennedy said in a nationwide filmed television interview Monday night he lost some Southern states in 1960 and may lose more in the 1964 presidential election. He suggested that his position also may have cost him support in the North.

The President said his civil rights stand "has caused a good deal of feeling, I suppose, against the administration in the South, also, I suppose, in other parts of the country."

"I am not sure that I am the most popular political figure in

## Big Legislative Battles Remain After Holiday

WASHINGTON (AP)—Congress today resumed its session after a sort of informal Labor Day recess.

To clear the deck for expected debate next week on the nuclear treaty, the Senate was scheduled to take up President Kennedy's request to broaden the 1962 Manpower Training Act which established a program of vocational schooling to teach skills to unemployed persons or retrain them for new jobs.

The Administration considers the program important in its effort to combat unemployment in general and to train Negroes for better jobs.

When the manpower act was passed it provided for federal funds to pay the full cost in the first two years. However, there was to be 50-50 state matching in the third year, starting July 1, 1964.

So far, however, only four states have passed legislation to carry out the matching funds requirement—Connecticut, Kansas, Montana and Tennessee. Legislators of 25 states which have not acted do not even meet in 1964.

The bill before the Senate would not only provide for the federal government to pay the entire cost of the third year but would authorize an additional \$161 million in U.S. funds to cover the states' share.

Sens. Barry Goldwater, R-Ariz., and John G. Tower, R-Tex., have announced they are opposed to the bill.

They said the "overwhelming lack of response" from the states makes it clear there is little real interest in the program.

Senate Democratic leader Mike Mansfield said he hoped for final action on the measure Wednesday or Thursday.

## Hopes Abandoned For Bova Rescue

HAZLETON, Pa. (AP)—David Fellin and Henry Throne return home today after a week in a hospital recuperating from 14 days entombment in a mine cave-in. But fellow miner Louis Bova usually has abandoned hope of finding him alive.

Fellin, 58, and Throne, 28, said through a spokesman they were gripped by the failure to find "our buddy."

State authorities, after drilling 15 futile shafts and sending down a man, were exploring three different routes to reach Bova, 54.

## Bulletins

Culled from AP Wires

ZOO HOLDUP FOILED  
NEW YORK (AP)—Waiting policemen killed one man and wounded another today when a trio ambushed a truck carrying the Bronx Zoo's \$20,000 Labor Day weekend receipts near the buffalo house. Officers captured the third man. Police tipped that a holdup was planned, moved in when the three men jumped the truck as it was leaving a parking lot on the zoo grounds shortly after 11 a.m.

INTEGRATION CALM  
BATON ROUGE, La. (AP)—Desegregation came peacefully in this Louisiana capital city today. With almost military precision, 28 Negroes entered the schools under the careful scrutiny of policemen. It was the first time Negroes attended any white public high school in Louisiana, and the first time Negroes attended any white schools in Baton Rouge.

WILDCAT WALKOUT  
GARY, Ind. (AP)—Union officials ordered striking employees of the huge Gary works of the U.S. Steel Corp. to return to their jobs this afternoon, apparently ending a 13-hour wildcat walkout. The brief strike, affecting 15,000 workers, had posed a possible threat to steel supplies to the nation's auto industry, now reaching a peak in its production of 1964 models. The strike stemmed from the suspension of a union grievance committee member after he allegedly struck a supervisor. The order to return to work came from Mack Tucker, president of Local 1014 of the United Steel Workers Union, and Orville Kincaid, director of the Union's subdistrict.

Ngo Dinh Nhu, man behind the throne in South Viet Nam. (AP Photofax.)

### Coventry Town to Institute Paid Police Program

A new police protection program is being instituted in Coventry, consisting of one resident state trooper and the employment of five police officers working collectively for a total of 2,000 hours during the coming year. These five men will be listed in a few days.

At present the police protection consists of one resident state trooper and a volunteer force of 12 constables who make up the Coventry Police Patrol. The trooper is now on duty five days a week with a 12-hour per day minimum. On their assignment of duties, resident state trooper schedules provide for 25 days vacation and 10 days leave in lieu of holidays. The constables maintain night and weekend patrols with no compensation for services rendered. In making announcement of the new program, the board of selectmen emphasized "how very fortunate the town has been in having had the services of these civic minded citizens (resident constables) for so many years, without receiving a cent of pay from the town."

The board, however, felt that with the growth of the town and new legislation specifying the five day week for resident state trooper, the local townspeople could no longer expect police protection on a completely voluntary basis.

The Coventry Police Patrol was organized in the early 1950's. The U.S. Bureau of Census figures for Coventry in 1950 were 4,043 whereas for 1960, the population had expanded to 6,266, or an increase of 57.2 per cent.

In order to maintain proper and adequate police protection coverage, officials concluded that the town must compensate constables for services. This decision was reached after lengthy discussions with representatives of the State Police and local board of finance approval. The decision will discontinue the Coventry Police Patrol as it is now constituted.

Equipment purchased by the town for the patrol will be returned to the headquarters at the Town Annex at the Center School.

The new program includes an appropriation of \$4,000 to be made for the fiscal year 1963-64 for the employment of the five police officers. The proposed police protection budget for 1963-64 totals \$12,600, of which \$7,000 is for local services and \$5,600 for the resident state trooper's service. This latter amount represents 80 per cent of the total cost of one resident state trooper for a year covering salary, mileage, maintenance of the state cruiser and other expenses.

The resident state trooper is to recommend the five men to serve, who in turn must be appointed as special constables by the Board of Selectmen and who will be responsible to the first selectman.

The new program will delegate to the resident state trooper, complete charge of and responsibility for the administration of the police protection within the town and be responsible to the first selectman.

Under the responsibilities of the resident state trooper, the administration of the program includes recommending competent and responsible persons between the ages of 21 and 45 years for appointment as special paid constables by the board of selectmen, with such persons submitting to medical examination and be approved as physically capable.

Under the organization, the trooper's responsibilities include maintaining inventory of equipment, create reports and maintenance, reporting monthly to the selectmen on patrol hours, hours on criminal complaints and other assignments. Reporting yearly to the selectmen and board of finance on breakdown of monthly reports, meeting with board of selectmen to advise and assist in preparing a police protection budget and appointing judges the board of finance with authorization of a superior officer as consultant on police functions in the town.

Provisions of the new program stipulate that if it is deemed necessary by the resident trooper, he may accept, with the approval of the board of selectmen, any volunteer services (selected constables included) available to provide

### Coventry Vote Scheduled On School Wing

A special town meeting will be held Thursday at 8 p.m. at the Coventry High School gymnasium to act on the addition to Coventry Grammar School.

The meeting will consider and act upon the reports of the Coventry Board of Education. A \$1,114,000 appropriation of \$266,500 for building and equipping an addition to the school at the corner of Wrightville Rd. and Rt. 21.

The meeting will be asked to authorize issuing of bonds in an amount not to exceed the \$266,500 to defray the appropriation, to determine, or authorize the Selectmen to determine, the rate of interest, term and particulars of such bonds, the manner in which same are to be signed, issued and sold and to designate the attorney at law to approve same and a bond or trust company to act as trustee and paying agent.

Also on the agenda is an item to consider and set on a direction to the Board of Education to apply to the State Board of Education for the State of Connecticut for state aid for the purpose of the Coventry Grammar School project and to further consider a direction to said Board of Education to accept or reject such state aid grant in the name of the town.

Authorization will be asked that the Coventry Grammar School addition Committee expend the appropriation, approve and contract appointments heretofore made of the members of this committee and authorize any other action which may be considered necessary or desirable to enable the town to construct the addition, issue bonds to defray the appropriation and authorize temporary borrowing of money in anticipation of receipt of the proceeds of the bond issue.

ROY, 104, DIES  
TRUMBULL, Conn. (AP)—Ish Roy, who had his birth date listed on his arm, died Monday at St. Joseph's Manor. He was 102.

A retired maintenance man and weaver, Roy told a reporter in 1960 that he smoked a half-dozen cigars and had a glass of beer each day.

His wife was 79 when she died in 1947.

Survivors include a son, three daughters, 20 grandchildren and 24 great grandchildren.

### Few Structural Changes Made In Some of Schools in Town

The custodial staffs at the various schools have been busy scrubbing and shining, sweeping and dusting to get classrooms into top shape for Thursday's annual onslaught of pupils.

Although the kids will find everything apace and span, little will be changed from last year. Theodore Fairbanks, supervisor of buildings and grounds, said this summer has been largely one of routine maintenance.

Structural changes have been made, however, at a few schools. At the high school, Room 141, formerly the driver education room, has been converted to an office suite, and will be the headquarters for the Manchester Community College. The suite consists of a general office, dean's office, conference room, and a waiting room.

This suite is located at the southwest corner of the academic wing adjacent to the cafeteria. Halfway doors located here open onto the teachers' parking lot, and will become the main entrance for the evening colleges.

Two doors, direct exits to the outside, have been placed in the metals and machine shops to comply with fire regulations, which became effective after the school was built.

A minor but useful change has been the addition of a public phone at the high school main entrance. One major item of routine maintenance was the work done to the high school pool. Fairbanks said crews happily donned swim suits during the heat waves, pulled the drain plugs, and proceeded to scrub down the pool sides as the water drained out. Then the pool was entirely re-grouted, a job necessary every two or three years because of the continuous wearing action of the water against the pool sides.

At both Lincoln and South schools, former canteen rooms have become classrooms. At Lincoln, hot lunches will be served in a second cafeteria room. Children bringing their lunches from home will eat in the library. The South School cafeteria, which will double as a classroom from 8:11 and lunches will still be served there. Both rooms have been repainted, as has the administrative offices at Verplanck.

Fairbanks said a full-time painter and helper have been added to his staff this year, and that he is making out a rotating work schedule of jobs to be carried out at the various schools.

Wood and the floors in all schools have been cleaned, sealed, and waxed. In addition, general cleaning of walls, vents, blinds, light fixtures, desks, and lockers has been done, Fairbanks said, as well as the architectural firm of Walter J. Douglas Associates of West Hartford. Russell and Dawson drew preliminary plans and will continue working with the committee.

Other members of Broga's committee include Donald S. Davis, Richard M. Galina, Raymond B. Bennett, William A. Miller, Howard E. Hillman and Charles H. Nyack.

Planned is a colonial design structure of red brick with white wood trim and asphalt shingle roof. Floor area of 1,800 square feet on each of two floors is planned.

The lower floor will be partially sunk into ground level. Paving area for 42 cars will be provided.

Office facilities in the building are Selectmen's office, town clerk, assessor, tax collector, probate court, building department, town treasurer, registrar of voters, civil defense, recreation committee, board meeting room and police facilities.

A concrete fireproof storage vault will be included in both levels of the building.

Manchester Evening Herald Coventry correspondent, F. Pauline Little, telephone 745-8251.

### Coventry Funds Voted For Town Hall

The sum of \$160,000 was appropriated for a new town office building Thursday night at a special town meeting. The building will be located on town-owned property on Rt. 21 adjacent to Coventry High School.

The Board of Selectmen and the Town Treasurer were authorized to handle all details concerned with issuing bonds.

Day, Berry and Howard had been designated as bond counsel and the Connecticut Bank and Trust Company of Hartford will act as certifying and paying agent for the bonds.

The present building committee was authorized to continue its work until the completion of the project.

F. Raymond Broga, committee chairman, listed \$132,000 as the cost of the building, including site development, landscaping, and equipment. \$10,000 would go for the architect's fees at 6.9 per cent of the contract price and the balance of \$11,000 was estimated for an 8 per cent contingency.

Wood and the floors in all schools have been cleaned, sealed, and waxed. In addition, general cleaning of walls, vents, blinds, light fixtures, desks, and lockers has been done, Fairbanks said, as well as the architectural firm of Walter J. Douglas Associates of West Hartford. Russell and Dawson drew preliminary plans and will continue working with the committee.

Other members of Broga's committee include Donald S. Davis, Richard M. Galina, Raymond B. Bennett, William A. Miller, Howard E. Hillman and Charles H. Nyack.

Planned is a colonial design structure of red brick with white wood trim and asphalt shingle roof. Floor area of 1,800 square feet on each of two floors is planned.

The lower floor will be partially sunk into ground level. Paving area for 42 cars will be provided.

Office facilities in the building are Selectmen's office, town clerk, assessor, tax collector, probate court, building department, town treasurer, registrar of voters, civil defense, recreation committee, board meeting room and police facilities.

A concrete fireproof storage vault will be included in both levels of the building.

### A truly amazing book buy!

THE AMERICAN HERITAGE HISTORY OF THE UNITED STATES

Volume 1 of THE AMERICAN HERITAGE NEW ILLUSTRATED HISTORY OF THE UNITED STATES  
Volume 2 of THE AMERICAN HERITAGE NEW ILLUSTRATED HISTORY OF THE UNITED STATES  
Volume 3 of THE AMERICAN HERITAGE NEW ILLUSTRATED HISTORY OF THE UNITED STATES

16 superb new volumes ■ completely new text ■ glorious full color

THE AMERICAN HERITAGE HISTORY OF THE UNITED STATES will bring pleasure and enjoyment to every member of your family. You will thrill to the glory and drama of America's past. Teenagers will develop a new interest in the history they study in school. Even your youngest will discover, through the hundreds of exciting illustrations, that history can be fun.

JUDGE FOR YOURSELF THESE OUTSTANDING FEATURES:

- The Foreword was especially written for this significant series by President John F. Kennedy.
- Evidently illustrated throughout with magnificent paintings and authentic photographs and drawings, in brilliant full color.
- Also two Picture Portfolios in each volume, which spotlight the most colorful events of the period.
- Completely new text by Robert G. Athearn, Professor of History, University of Colorado.
- In each volume, a special contribution from a distinguished historian, including Pulitzer Prize-winners Bruce Catton and Allan Nevins, which illuminates an important personality or major event.
- Beautifully bound in luxurious linen-textured hard covers to make a lasting addition to your family library.

SPECIAL INTRODUCTORY OFFER!  
Vol. 1 only 49c | Vols. 2 thru 16 99c each

Death Toll At Record: 543 to 501

The four-day Independence Day holiday, 87 persons lost their lives in traffic accidents...

During the three holiday periods, covering nearly nine days, the traffic deaths totaled 501...

The council said during a non-holiday weekend period at this time of year would result in about 500 traffic deaths...

Among Michigan's multiple-fatality accidents were two that killed four each, including one Monday fatality during the 78-hour holiday weekend period...

In addition to the traffic deaths during the holiday, 20 persons lost their lives in boating accidents and 48 others drowned...

Several items carried from a lengthy meeting of the board of education last Wednesday were slated for consideration at a session in the board meeting at Benet Junior High School today at 4 p.m.

Among them was discussion and the possible formulation of a school board policy on prayer in the schools.

Board members recently have been studying details of the historic Supreme Court decision, together with bulletins prepared by the Connecticut Department of Education, subsequent to the decision.

Also up for consideration will be a report from General Manager Richard Martin to the board regarding the proposed widening of a sidewalk along the west side of Ferguson Rd.

Both Martin and Curtis feel some sort of sidewalk will be needed along the approaches to Highland Park School, where an addition to the school is planned.

Deflected from the last meeting, also are eight appointments to the proposed sidewalks at a public hearing.

Seventy persons, most of them in their late teens and early 20s, were arrested.

Town Selectman Noel Solomon said a girl was "bitten slightly" by a police dog. He said tear gas was used only as a last resort.

State troopers finally headed 25 to 30 revolvers back to tents near Indianapolis Raceway Park, where the national championship drag races were being held.

Youths at Resorts Riot, 400 Arrested

George, but the upstate New York resort was quiet compared to rioting in 1961.

"Everything was closely controlled," said Police Chief Robert Caldwell. "It never came close to getting out of hand."

Bottle throwing youths set fire to a highway at Indianopolis, Ind. early Monday and an arrest was made.

Police Chief John Roden said that Hampton Beach had been filled with Labor Day weekend demonstrators. Last year 35 young persons were arrested, most on charges of disorderly conduct.

A similar demonstration was staged at Seaside, Ore., Saturday and Sunday nights, though the crowd was smaller.

About 80 arrests were made as National Guardsmen assisted Seaside police in scattering cat-calling young men and women, some of whom chanted "we want beer."

A year ago, 137 were arrested at the West Coast resort. At Ocean City, Md., 131 youths were arrested last week for violating a midnight curfew which the city imposed to avoid a repetition of a 1962 Labor Day riot.

Police made 130 arrests at Lake Michigan.
