Thirty-five men from Bethany, Woodbridge and Prospect fought the stubborn blaze for about 90 minutes to bring it under control.

SPRINGFIELD HOLDUP-SPRINGFIELD, Mass. (AP) - A gunman today robbed a clerk of a credit union at the East Springfield plant of the Westinghouse Corp., of \$6.010. It was the holdup at the credit union in 18 months. The robber was described as stocky about 28 years old, and wearing a raincoat. The robbery brought losses in the three robberies to some \$11,000 The credit union lost \$2,000 to a robber Nov. 16, 1962 and last Oct. 24, was robbed of \$3,000. The earlier robberies went unsolved. Miss Barbara Burnham, assistant treasures of the credit union, said she had withdrawn the money from a downtown Springfield bank to cash checks today She said she was just stepping from her car behind the build ing housing the credit union when the robber approached to turn over the money, and fled through an alley.

Step up to a dining room furnished in lovely knotty pine this Christmas. Make it your "gift to the home." Pieces from this open stock collection have the rugged beauty of Early American originals, and are destined to be tomorrow's heirlooms. The mellow brown pine finish is resistant to heat, alcohol and domestic acids. A drop-front to assist you when serving is a feature of the big 48-inch dry-sink-cupboard. This piece has 7 drawers, a shelf in its base, and stands 75 inches high. The 42-inch round spoonfoot table extends to 6 feet long. Captains chairs have husky roll-over backs,

the famous structure and supposed efficiency of that single general stuff system which Germany used through two world wars. That the ultimate result of the policy this military system' encouraged, and of the way this military system functioned in actual war not, in the end, fought entirely on paper, was a complete defeat and failure-this has never really impressed those who seem to want the system for the system's

The diversity, the rivalry, the frequent lack of planning unity among our separate armed services undoubtedly costs us money and many uneasy and complicated moments when we may look had, on paper. But one thing it hasn't cost us,

One of the most worth while special annual appeals made in Manchester, and elsewhere in Connecticut, is that of the Connecticut Institute for the Blind. It is, in the state, for a relatively modest amount, \$65,000. But from two aspects, this proves to be a very big and a very important \$65,000. It is hig because every penny donated to the fund drive now being conducted goes directly to the Institute for work it performs

And this fund is important because It is the crucial financing for the irreplaceable operations of the Connecticut

in Hartford; which this year has 140 blind children from 68 cities and towns enrolled. The cost of proper and full education for these children is high-\$3,542 per blind pupil. But it is worth it all-to the children themselves, and to the state itself as a community of peo-

The Institute also operates, in Wethersfield, a Trades Department, which is a sheltered workshop for the employment of blind adults whose limitations require special conditions to make, use of their capabilities possible. And the Institute conducts a marvelous summer camping program for blind children and adults at Harkness Memorial State

All these activities are conducted on

We would hope that many Manchester people will consider it a privilege to be able to give their personal support to this appeal, either in a donation malled directly to the Connecticut Institute for the Blind, 120 Holcomb St., Hartford 12, Conn., or by getting in touch with Dr. Eugene Davis, chairman of the

After 80 years, the scientific devices for presuming to know more about this and similar immense way out objects began bringing things together in human minds. It was reasoned that the only way these objects could make themselves so brilliant so far out was through some sort of implosion, or falling together, or gravitational collapse. Along with this kind of guess of the source of their brilliance, the British,

It has shown as nothing else has shown so clearly, what margins exist throughout the distribu ve system for providing "free" gifts, coupons for cut-price cutlery, discount -or trading stamps. The justification or resale price maintenance-the manfacturer's right to enforce minimum prices for his goods in the shops-has een that it makes for orderly trading roviding security for the shopkeeper n return for his acceptance of no more than a reasonable margin of profit. The stamp war has demonstrated that the margina guaranteed by resale price maintenance make for anything but orderly trading; worse, they force com petition away from the straightforward and healthy system of price reductions into the unhealthy channels of "free gifts and trading stamps. If a shop-keeper can afford to give stamps on price-maintained lines, then, for that shop, at any rate, the maintained mar-gins are unjustifiably high. — MAN-CHESTER GUARDIAN, ENGLAND,

Autos, Steel **Big Boosters Of Economy**

By SAM DAWSON AP Business News Analyst NEW YOR K (AP) - Auto skers and steel mills are giving the economy its biggest ward boost just now with the consumer chipping in with his

Output of industrial machinery and freight and pas-senger equipment also is credited with helping autos and steel push industrial output to a record high in November.

Retail trade in most sections seems set for new December lighs with consumers spending freely. Those merchants with large stocks on hand are breathng a bit easier these days. Auto executives are using pre-sent healthy demand for their 1964 models as a base for pre-

dicting a third straight good sales year ahead. In turn, their orders for materials are bolster-ing the steel industry. Steel output, running in excess of two million tons a

week in mid-December, is per cent higher than a year ago. This month production at the mills usually drops. But this time management has been pleasantly surprised with the oldup in demand. Many steel sales executives are now predicting their shipment schedule should remain at about the same rate through January and

February. Consumer attitudes are being watched carefully, however. urchases of autos, appliances and other hard goods are seen v some as signs of confiden n the new administration and ublic expectation that no break general good times is likely

Sales of soft goods are con tinuing at their normal Decem-ber pace, the best month of the year in many lines. This public confidence

Handy Shopping Guide to **Series E** U.S. SAVINGS BONDS

No matter what their denomination, all U.S. Savings Bonds have these things in common: They're one of the safest and most widely held investments in the world-owned by tens of millions of American families.

They're replaceable in case of loss by fire, theft or plain carelessness.

They return \$4 for every \$3 invested, at maturity.

They're cashable at any time without red tape (and you can defer the tax on the interest until the Bond is cashed).

They do the double job of helping to make your individual future, as well as your country's future, secure.

Buy the ones that fit your budget - at your bank, or through the Payroll Savings Plan where you work.

Events In State Successor To Mahler

Arthur Winograd, direc tor of the Birmingham (Alabama) Symphony, has been engaged to replace Fritz Mahler as musical di rector and conductor of the Hartford Symphony.

His appointment was a nounced by the orchestra's directors after a meeting this torning. He will assume his duties with the beginning of the 64-65 season.

The directors and Mahler have been engaged in a longunning dispute and Mahler an ounced earlier this week that he would quit at the end of this season unless relations im-proved. There are several months left in the season. Winograd, 43, is married and has two children. He was a member of the faculty of Juilliard School of

Music from 1946 to 1954. He then directed a recording of? chestra for MGM He was a pupil of Leonard Bernstein who has commended him for his "taste, insight, dedication, and energy." At this morning's meeting the

Hartford Symphony directors unanimously passed a resolution saying high tribute to Mahler saving he "performed his duties in an exceptional and outstand ing manner so as to bring the Hartford Symphony to a pos tion at the forefront of Am
