Police Seek Solid Clue To Percy Girl's Murder

KENILWORTH, 111. (AP) — Police said they were without a suspect, motive or hard clue today as they continued their investigation of the mystery-shrouded murder of Valerie Percy, daughter of Republican leader Charles H. Percy.

Valerie, 21, blonde and pretty, was beaten and stabbed to death in her bed early Sunday morning while the Percys and two of their children, including the victim's twin sister slept in nearby bedrooms. Two other children were away at the time.

VALERIE PERCY

Percy, 47, is the Republican candidate in the November election against U.S. Sen. Paul Douglas and has been active in both state and national politics. A day-long search of the 17-room house and grounds on the fashionable North Shore turned up potential clues but nothing of immediate significance, police said.

Final Verdict Of Innocent For Kinsey

MWANZA, Tanzania (AP) — A Tanzanian judge acquitted U.S. Peace Corpsman Bill Hayward Kinsey today of the charge of murdering his young wife.

Judge Harold Platt announced his verdict to a tense, crowded courtroom. A two-man jury had recommended that Kinsey, 25, of Washington, N.C., be found innocent. The judge was not required to follow the recommendation of the jury of "assessors" but he usually does in a murder trial.

The two assessors — Gail Bagley, 46, a soil conservation expert from Elsbury, Mo., and Tanzanian economist Fred Mugobi, 27, told the court they believed that Peverley Kinsey, 23, died of an accidental fall on March 27, as her husband contended.

"Having given anxious thought to the evidence in this court, I'm of the opinion that the charge has not been sufficiently proved against the accused so as to enable me to find that he is guilty beyond reasonable doubt," said Platt.

"While the accused must therefore carry with him the suspicion that he may have been responsible for his wife's death, he must, in justice, be acquitted and set free."

The British-born judge took nearly two hours to review the cases for the prosecution and the defense and to read his judgment.

"In this welter of conflict and speculation the weight of the evidence seems to me to be fairly evenly divided," said the judge. "I think it would be wrong to say there is not genuine doubt that the deceased's death could have been caused

cut an opening in the locked screen door, opened it, then cut a slice out of a glass panel of the inside door, unlocked it and entered the house.

There was no noise. The Percy family slept and a Labrador retriever in an attached garage did not bark.

The intruder crept up a staircase. At the top landing were three doors. He chose Valerie's — whether accidentally or by design is not known.

Percy and his second wife, Lorraine, the victim's stepmother, were sleeping in a bedroom about 35 feet from Valerie's.

Mrs. Percy told police she was awakened by a moan. She got out of bed and walked into the hall, unaware that Valerie was dying of a crushed skull and more than a dozen stab wounds in her head, throat, chest and stomach. She was unaware, too, that the killer was still in the girl's bedroom.

As Mrs. Percy entered Valerie's bedroom she was blinded by a flashlight beam. She ran

City officials, under a federal court order to protect the Negroes, said law and order would be maintained.

Miss Joan Baez, a folk singer active in civil rights work, accompanied the Negroes as far as the police barricade. She told officers she had transfer papers for five young Negro children whose parents were unable to accompany them. She asked to be allowed to take the papers to the school.

"Nobody but students and parents can go in," said Lloyd Jones, a state highway patrolman.

Newsmen counted 169 Negro children entering the grammar and high schools. Another nine were turned away. They said school officials told them their transfer applications were not in order.

In another development, L. D. Boone announced his resignation from the six-member City Council. He said he was not able "to devote sufficient time to the job."

Grenada's city manager quit last week.

White mobs ran freely on school registration day one week earlier, beating and stoning Negro children and white newsmen until the Mississippi highway patrol stepped in.

"We are taking all possible steps to prevent the slightest of incidents," said Mayor J. D. Quinn.

"If a violation of the law occurs, there will be immediate arrests and prosecution to the fullest extent of the law."

U.S. Dist. Judge Claude Clayton issued a permanent injunction Friday ordering city and county officials to protect the school children from "save and senseless" attacks.

Failure to comply would expose the officials to contempt of court.

Three Die In Head-On I-91 Crash

NEW HAVEN (AP) — Five persons met violent death in weekend traffic accidents in Connecticut. A three-car smashup Sunday night on Interstate 91 at Windsor took the lives of three persons and left nine others injured, two of them critically.

Killed in the Windsor crash were Vicki Bayers, 23, of Norwalk, her mother, Mrs. Irene Bayers of Nashville, Tenn., and Edward B. Blevins, 43, of Windsor Locks.

State police said a car driven by Allen Currie, 48, of Thompsonville crossed the median divider, sideswiped another auto and crashed head-on into the third vehicle.

In Waterbury, James White, 36, of Waterbury, was killed Saturday night when his car swerved off Willow Street and crashed into the front of an automatic laundry.

In West Haven, Mrs. Marilyn Hurley, 34, of Hamden, was killed Friday night when her car hit a bridge abutment on the Connecticut Turnpike.

An out-of-state accident, in Rhinebeck, N.Y., took the life of Peter Stone, 20, of Hamden. He and Sarah Conrad, 20, of Harvard, Mass., were killed when their car went out of control on a curve, crashed and caught fire.

Extra Helping

NORTHFORD (AP) — While the Knights of St. Patrick were helping themselves to the potato salad at their annual outing Sunday, someone was helping himself to the money that had been collected to pay for the affair.

James Quirk, chairman of the outing, said he could not place an exact figure on the amount stolen. It was probably at least a few thousand dollars, he said. The money was taken by forcing open a window of a locked car, state police said.

The outing was attended by about 600 Knights of St. Patrick members from New Haven.

Thant May Keep Office Until End of 'he Year

UNITED NATIONS, N.Y. (AP) — U.N. Secretary-General U Thant said today he would consider remaining in office until the end of this year if members of the world organization failed to agree on a successor by Nov. 3 when his term expires.

He declined to say, however, whether he would agree to stay on beyond Dec. 31.

Thant made his comment at a news conference in which he also declared that East-West relations had reached a new low and that U.N. action on disarmament and other key issues was being severely hampered.

The United States reacted quickly with this statement from U.S. Ambassador Arthur J. Goldberg: "We welcome the statement of our distinguished secretary-general, and we continue in the hope that he will stay on beyond this general assembly for a full term of office."

Thant also expressed doubts as to the value of an Asian peace conference on Viet Nam in view of the concept of some

take, diplomatic and political initiatives much broader than some members felt should be permitted.

Answering a question on the desirability of an Asian conference on Viet Nam, Thant said the initiatives taken by Thailand and the Philippines were laudable, but that they were not realistic in view of the political factors involved in Viet Nam.

He expressed doubt that any country linked with either the Western or the Communist camp could command the confidence and trust necessary to succeed in mediation of the war.

He was asked to comment on the Sept. 11 elections in South Viet Nam, but sidestepped a direct reply. Instead he cited a similar Constituent Assembly election in his native Burma

Shells Land On Infantry; 23 Wounded

SAIGON, South Viet Nam (AP) — U.S. military headquarters reported today that an accidental bombing of U.S. Marines by a Marine plane and two accidental shellings of American infantrymen by their own artillery killed six U.S. servicemen and wounded 23 others.

The artillery shells landed on units of the 196th Light Infantry Brigade in Tay Ninh Province near the Cambodian border.

One shelling at 1:30 a.m. today killed two infantrymen and wounded 16, an official spokesman said. Several hours later, two more rounds of 106mm artillery killed one infantryman and wounded three, the spokesman added.

Both artillery incidents took place a few miles from Tay Ninh City, 40 miles northwest of Saigon.

In the accidental bombing, a U.S. Marine F4 Phantom fighter-bomber accidentally dropped a 500-pound bomb Sunday on Marines dug in during Operation Prairie. The incident occurred in the northernmost province of South Viet Nam a few miles south of the demilitarized zone.

The U.S. Command said three Marines were killed and four wounded. A spokesman said the air strike was called in by the Marines and was under direction of a forward air controller. He said the Phantom jet made one bombing run, 600 feet in front of Marine positions, then the ground unit called for strikes 300 feet closer to them.

The forward controller marked the target with a smoke grenade. The bomb was dropped in the designated target area, inflicting the Marine casualties, the spokesman reported.

The mistaken bombings overshadowed war developments in which U.S. planes kept up crippling pressure on targets in North Viet Nam and sparred with Communist MIG jets for the third straight day. In the only major action reported in the South, Marines fought North

Trial Evidence Swap Under Way in State

HARTFORD (AP) — Instead of keeping evidence a secret to be unveiled during a trial, like strategically played cards, government prosecutors in Connecticut today began an experiment in which they will disclose all government evidence to defense lawyers in advance of trial.

To obtain such information, from the prosecution, however, the defense must also make its own evidence known. Thus the option to disclose or not to disclose will lie with the defense.

The pre-trial swap will take place a week before trial. The Connecticut experiment of full disclosure is being conducted on orders from U.S. Atty. Jon O. Newman, who notes that partial disclosure is already required by recently adopted rules of federal criminal procedure.

"I think it is possible to move much farther in the direction of pre-trial disclosure without impairing the effectiveness of the prosecution," Newman said.

Will the knowledge of what the government has on him somehow increase the likelihood of the defendant's telling a false story to the jury? Newman thinks not.

"The prosecution either has a case or it does not," he said. Reciprocal disclosure has been widely discussed by the legal profession in this country but Newman is believed to be the first federal prosecutor to give it a try. In England, however, the practice is well established.

Newman emphasizes that it is an experiment. Informally, he can be just as informally scrapped if it doesn't work out, he said.

If it works, he said, one of the principal benefits will be that defendants will be dealt with more fairly.

"Simply put," he said, "the illy

White Mobs Gone; Negroes Enter School

GRENADA, Miss. (AP) — Nearly 170 Negro pupils passed through police lines today and began their second week of integrated classes at formerly all-white schools. White crowds, who taunted and beat the Negroes last week, were absent.

City officials, under a federal court order to protect the Negroes, said law and order would be maintained.

Sick Of Surveys

Diagnosis and labeling of the latest disease we owe to some introspection on the part of the American Psychological Association at its recent meeting in New York.

One of its speakers came up with a warning against the spread of "survey sickness," a malady, he said, which keeps an increasing number of people hopping here and there all over the face of the globe interviewing and boistering an endless number of people in search of data to be added to existing mountains of data for which no particular use will ever be found.

It was suggested, by this psychologist speaking to his fellow psychologists, that the members of the profession actually display poor psychology in the way they went barging around the world in search of giant packages of data ready-made, disrupting the concentration of working scholars who actually unearth things for themselves.

While the psychologists thus reproached themselves rather gently, we must say, about the way they gather data, some of the rest of us are more concerned with some of the uses made of data after it is accumulated.

Most of it may be left in the senseless accumulations which must be filling up the survey offices everywhere. But every now and then some of it is thrown out at us, as a reproach to us for some behavior for which we had hitherto felt no particular awareness or guilt.

Some survey one told us, for instance, which shoe the great majority of mankind put on first, the left or the right, and it spoiled our living for weeks, first trying to remember which way we did it before we realized it was a matter of data importance, and then trying to do it only the proper, majority way, whichever that was, from then on.

Decision On City's Future The Waterbury Urban Renewal Agency is doing some very serious contemplating these days. It must, after these current deliberations, select a developer for the R-83 redevelopment area off South Main, Union, Jefferson and Rowley Sts. Its decision could have much significance in determining the future of Waterbury.

Originally there were offers and proposals from four developers, but one has withdrawn. This has lightened the load of the 15-member agency to a degree. Each of the three prospective developers has a good plan. Each could contribute substantially to the economic future of the city while enhancing that part of the business district aesthetically. The fact that the agency has three good plans to choose from lightens its load, but it does not remove any of the great responsibility which rests on its shoulders.

In making a selection the agency will have to consider the uses proposed for the land by each developer, both immediately and for the future, and how they will fit in with the needs of the community. It must consider the economic worth of each plan in terms of tax revenue the city will gain when construction is completed. It must consider the design of the proposed structures and how they will blend in with what is already permanently in that area and with future development if and when redevelopment is expanded in the central business district.

The immediate needs of the community must be considered as well as how much each developer proposes to do immediately and how much at a later date. The financial responsibility of each must be examined. The agency must know whether the developer will have alternative means of financing the development if there should be a snag in the original form of financing. It must know whether he will be able to follow through with the project once the valuable land is turned over to him.

The value of the land is another important consideration. All three developers are offering much less than the fair market value of the land. This is not unusual in the experience of federal development. However, in this instance, each is offering much less than Gulf Oil Co. paid to the agency for the small or adjacent B-2 tract used for development. The R-83 tract is nearer to Exchange Place, and some sources consider it more valuable.

The agency, of course, should not necessarily approve the developer who makes the biggest offer for the land. What is put on the land and how much tax revenue it brings over the years is much more important than the initial payment for the land. Developers generally are unanimous in pointing out that the more they pay for the land the less they will be able to put into construction.

In arriving at a sale price agreement, however, the agency will have to take legal precautions to guarantee that a sale of less than fair market value will not depreciate the value of surrounding land for assessment and tax purposes. In fact, it should take precautions to insure that the tax base on land of the R-83 developer will be in keeping with that of surrounding properties.

Each of the developers makes a proposal for an initial stage of development. Possible second and third stages are proposed also. The agency will have to consider how valuable each development would be in the event it should not get beyond the initial stage.

The agency will have to decide which plan will do the most good for Waterbury from the standpoint of revenue appearance and needs of the community. It must also consider how big a part it can play in inducing other good development in the surrounding areas.

When the agency has made its final choice, it should not let itself immediately lose the other two developers. It should encourage them to keep alive their interest in development in Waterbury and to come back when—possibly in the not too distant future—Waterbury will have more land available in its central business district for redevelopment. Inside Report

By Rowland Evans Jr. Robert D. Novak

WASHINGTON—Quiet diplomacy, not election-year politics, was the true inspiration behind President Johnson's new and unpublicized "peace desk" at the seventh floor of the State Department.

Although that ageless diplomat, Averell Harriman, has been sitting behind his new desk now for six weeks, there has been no formal announcement of his assignment, and there won't be until the end of the year.

As top administration policymakers now see it, however, there is the faint glimmering of a possible change arising from the Communist Party crisis in Washington and to policy decisions with the "Voice of America" radio.

On this date in 1977, the first Battle of Bemis Heights was fought on the Hudson River southeast of Saratoga, N.Y., thwarting British Gen. John Burgoyne's plan to open a path to Albany. The hero of the battle was Benedict Arnold who later was to turn traitor.

In 1796, George Washington delivered his farewell address. In 1881, President James Garfield died of wounds inflicted by an assassin July 2.

In 1933, Idaho and New Mexico voted to repeal the 18th amendment. In 1965, Argentine Dictator Juan Peron was overthrown.

Each of the developers makes a proposal for an initial stage of development. Possible second and third stages are proposed also. The agency will have to consider how valuable each development would be in the event it should not get beyond the initial stage.

Taxpayers Will Benefit To the Editor: Taxpayers will benefit from the proposed plan for the renewal of Main St. It will insure the growth that will be necessary to support a greatly enlarged population.

Despite loud criticisms about the cost to the taxpayers—both residents and non-resident business people—the facts are, when thoroughly and fairly examined, that all the taxpayers will benefit. True, the benefits will take a little time to materialize, but they will be there.

As a manager of a business in Manchester I urge those who desire their city—and Manchester is truly a city—to continue to grow to actively support this program at the polls on October 3.

Who Stands to Gain? To the Editor: I would like to suggest that before the irrevocable decisions are made to tear down and rebuild (the expense of which is to be borne, as of now, by unknown parties) the center of the business section in Manchester, some hard thought be given to what is being proposed, who is proposing it, who stands to gain by the redevelopment, and what, if anything, will accrue to the Treasury of the Town of Manchester.

We have been given a barrage of fantastic benefits to come from the new-business section. There is no guarantee this "new look" section actually profit the town at all.

The South End Redevelopment Scheme should be put on ice until the North End scheme is completed. One headache at a time—and both of them are not worth it, at that.

Firemen remove burned insulation from unfinished ceiling of upstairs bedroom in Whitney Rd. home damaged by fire yesterday evening. Fire broke out as four young children were getting ready for bed. Inhabitants escaped unharmed. (Herald photo by Pinto.)

Fire Sends Family Of 8 into Streets

A Whitney Rd. family of eight has been left temporarily homeless by a fire of undetermined origin which swept through the second story of their Cape Cod style home about 7:30 last night.

Mr. and Mrs. Alfred G. Hagenow of 29 Whitney Rd., their six children aged 1 1/2 to 12, and Mr. and Mrs. Roy Kanehl of 45 Birch St. who were visiting at the Hagenow home when the fire broke out, all managed to escape without harm.

The flames, confined to the second floor and roof of the dwelling, were discovered by some of the younger children as they were preparing for bed.

Mrs. Hagenow started up the stairs to be greeted by flames. She immediately called the Town Fire Department while one of her youngsters ran and pulled the alarm box at Jarvis Rd. and Adams St.

Pumpers from Hose Co. 1 and 2 responded to the call and managed to bring the fire under control in about 20 minutes. But they stayed on the scene until after 9 p.m., removing smoldering insulation from the unfinished second floor and mopping up. Damage on the first floor was confined to smoke and water damage.

Hagenow said he had been working on expanding the upstairs. The second floor had been enlarged by a shed dormer and the Hagenows were preparing to install a new roof on the house. Roofing materials were stacked in the driveway awaiting application. The family had been living in the house about 11 years.

Assistant Fire Chief Sedrick Straughan said this morning that the cause of the fire has not yet been determined. Investigation is continuing.

Hagenow said both the house and its contents were insured. Insurance investigators were at the scene today to establish the value of the loss.

The Hagenows were taken in

Police Arrests

Herbert B. Scott, 51, of Hartford, was charged with intoxication at 4:50 p.m. Sunday after a patrolman found him sitting in a used car office at Moriarty Bros., 315 Center St.

Police, dispatched to the car dealers after a complaint of an intoxicated person, said Scott had a slight bruise over his eye and had to be helped to the police cruiser.

He is in a Manchester police station jail pending appearance in Manchester Circuit Court 12, Oct. 3.

NOVELIST WILLMAN DIES

LOS ANGELES (AP) — Funeral services for Paul I. Wellman, novelist, historian and screenwriter who died Saturday at his suburban Westwood home at the age of 70.

Wellman came to Hollywood in 1936 to join Warner Bros. Studio and worked on such movies as "Cheyenne," "Red, Gold" and "Apache."

He was once a feature writer for the Kansas City Star. Most chose to be madly mad. Authoress Jacqueline Susann described the four-hour soiree as "wild." She added breathlessly: "It makes La Dolce Vita look tame." But others said it was rather mild as such affairs go.

Proceeds from the affair will be used to send disadvantaged children to summer camp.

Coventry

Town to Honor Nathan Hale With Parade and Ceremony

Thursday will be observed as Nathan Hale Day in the state in accordance with a proclamation issued by Governor Tempessy.

The local Nathan Hale Ancient File and Drum Corps has planned two activities, one Wednesday and another Thursday, according to Wesley F. Lewis, chairman of the board of governors of the corps.

The NHAFD Corps will appear at the Eastern States Exposition at Springfield Wednesday to take part in the parade ceremonies for Governor's Day.

A bus will leave at 1:30 p.m. from the town office building for the parade which will begin at 4 p.m. Lewis asks all students of the local organization to make their personal arrangements with their parents and the principals of their respective schools for permission to be absent from school after 12 noon.

These children are asked to meet the bus at 1:30 p.m. sharp at the town office building for the trip to Springfield.

Thursday, Nathan Hale Day, the local organization will sponsor a ceremony for the town to be conducted at the Hale monument at the Nathan Hale Cemetery on Lake St. The program will consist of a parade, forming at the Robertson School at 6:30 p.m. and marching to the Cross St. to the monument for a brief ceremony and the laying of a wreath made by Coventry Garden Club.

The parade will be finished by marching back to the Robertson School at 8 p.m. and disbanding at that point.

The public is urged by Lewis to make every effort to take part in both the Wednesday and Thursday events.

School "Open House" Coventry Grammar School PTA has its first meeting of the school year in the form of an "Open House" program at 8 p.m. tomorrow in the school auditorium. There will be a short discussion at each grade level on "How Parents Can Help Their Child at Home."

Officers serving for the year: Mrs. Alan Cahill, president; Mrs. Robert Bachman, vice president; Mrs. Nelson Goble, recording secretary; Mrs. Donald Young, temporary correspondence secretary; and Mrs. Norman Chase, treasurer.

Committee heads appointed by Mrs. Cahill: Mrs. Alton Tappan, membership; Mrs. Adeline LeDuc, hospitality; Mrs. Glenn Bradley, ways and means; Mrs. Stanley Zurek, library; Mrs. Clarence C. Edmondson, public relations.

St. John's Council, K of C, has planned several events to which the public is invited, to be held at the Knights of Columbus home on Snake Hill Rd.

A Columbus Day Social from 8 to 10 p.m. Oct. 1 to include a buffet supper and dancing with donations of \$2 per couple. Tickets available at the door.

Installation of officers at 3:30 p.m. Oct. 2; the third annual New Year's Dance Oct. 29, and the third annual New Year's Eve Dance Dec. 31.

Red Guards Sack Home Of Mme. Sun

HONG KONG (AP)—Arrivals from Red China reported today that Red Guards ransacked the Shanghai house of Mme. Sun Yat-sen, widow of the founder of modern China, and demanded that she was in all her property.

The travelers said well-to-do Sun, who is a vice president of the Communist Chinese regime, of leading a luxurious life in contrast to that of farmers and workers.

The travelers did not know whether Mme. Sun was in her Shanghai house when the militant young Chinese invaded it or whether anything was taken.

Nor did they know when the invasion occurred.

New Surveyor Launched; Seeks Soft Moon Landing

CAPE KENNEDY, Fla. (AP)—America's Surveyor 2 spacecraft rocketed with apparent bullseye accuracy toward the moon today, aiming to soft-land on the lunar surface Thursday and take pictures of a crater-pocked plain where U.S. astronauts may walk within three years.

Initial tracking data indicates Surveyor 2's path "is at least as accurate as Surveyor 1 and is well within the capability of a microcourse motor to bring it within the landing point," the flight control center reported three hours after launching.

Surveyor 2, rocketed with pinpoint precision in June and achieved America's first soft-landing on the lunar surface.

Soviets Said Bowing to Prague

By DAN MORGAN The Washington Post. PRAGUE — The Soviet Union's leadership has bowed to demands of the Czechoslovakian government on two in a row points — only days before the Prague leaders are scheduled to fly to Moscow for decisive talks, it was learned Wednesday.

With Two Major Concessions. The Moscow concessions were conveyed in a telephone message to Czechoslovak Premier Otdrich Cernik, authoritative sources said. The concessions were: —Repudiation by the Kremlin leaders of a series of intimidations of journalists by the military occupation high command. The incidents led to a sharp complaint by the Czechs Tuesday that the Soviets were ignoring their pledge to recognize the inviolability of Czech law and guarantee the safety of individuals. According to the sources, the Czechs were told that the Soviet government and party hierarchy had not sanctioned the actions and in fact distanced themselves from the military actions.

Just as I have always been convinced that a child at any age knows better than you do when he is hungry, when he is cold, or when he is tired, I also strongly believe that a teenager knows better than you do how well he is capable of performing and how hard he is willing to work to achieve goals that are important to him rather than to you.

Did you know that, according to widely quoted nationwide statistics, some 50 per cent of freshmen do not graduate from the colleges they originally entered? There may be as many different reasons for this as there are students switching or dropping out, but many can be traced directly to parents who have pushed and pressured their children into colleges that just don't fit.

The bias of the high school counselor's existence is the parental attitude at the student's ability and potential. Actually there are many fine colleges available at every academic level, and perhaps it is comforting to know that the more "over-qualified" your child is, the more doors are open to him.

It is sad but true that the better the student is, the rougher the road he must travel. The statistics are against him in the relatively few highly competitive and most sought-after institutions. No matter how outstanding he is, he must be prepared for the traumatic experience of a meloody of tender sounds that seems to create an awe of the product and its user.

I look at fragrances as an expression of the mystique of each woman; it surrounds a woman with a heightened aura of excitement. Says Andrew Borner, a vice president of the Coty Company:

It holds up a line of new products. "This is a tribute to American woman," Borner says, his excitement growing as he visualizes the future market. "It is a distillation of American womanhood. But there are wrinkles, the grasses and jellies really worthwhile? Some cosmologists say they aren't, to make people what they aren't, is secretly being perpetrated behind the "emphases only" doors. The essence of the fragrance-cosmetics business was described this way by Pierre Parochia, another Coty man:

"A woman likes to change her personality. When she is young she likes to look more sophisticated. And then as she grows older she attempts to retain her youth." Perfumes and cosmetics help create these new personalities.

Parochia, a distinguished and gentlemanly native of Grasse, France, where the main industry has always been perfumes, is the head nose around Coty. "But well that's what they call them in the perfume factories. They sniff the new fragrances, choose the essential oils and determine that the hundreds of scents are mixed exactly as they should be. More than 300 fragrances might make up perfume. They

It's Official - Wallace on State Ballot

HARTFORD, Conn. (AP) - George Wallace is officially on the Connecticut ballot for Nov. 5 as a presidential candidate. With 2,008 petition signatures in that state, more than the required number of inclusion on the ballot - the former Alabama governor stands a chance of getting more still. He was certified Wednesday by the secretary of the state as a candidate.

Deadline for filing signatures with the secretary of the state is next Monday. All petitions had to be in the hands of town clerks two weeks ago. Wallace, who will run on the state ballot as a "George Wallace Party" candidate, has won a place on ballots in all 50 states but a challenge is still pending in an Ohio court concerning his petition to run in that state's presidential election.

Three minor-party candidates for Wallace also were certified for the state ballot. They are Donald LaCroix of Hartford, in the First Congressional District; Daniel Taravich of Groton, in the Second District; and Morris Earle of Wilton, in the Fourth District. LaCroix is running under the Primary party label. Taravich is a candidate on the Independent party ticket. Earle, a peace candidate, is seeking election under the banner of the "De-escalators Party."

Also certified for the November ballot were Thomas F. Furan of East Hartford, a Citizen party candidate for the state Senate in the Third Senatorial District; Francis J. McMerriam of Killingly, an Independent Action party candidate for the state House in the 8th Assembly District; and Anthony Ferrucci of Meriden, a Farmers Union candidate for the House in the 7th District.

The New Party, seeking a presidential spot, has 2,897 signatures on file, and the Social Workers party, also seeking a presidential listing, has 1,242. Both need 6,188 to qualify.

NEW YORK (AP) - A visit to a perfume factory can be a dizzying experience. It can leave you as a bit disoriented, your mind added, your awe of human vanity multiplied.

First there's the smell. A pungent odor of an amazing business. Sales girls get on the tiny elevator and as the door closes the scent of powder and perfume causes you to gasp for a breath of the pure industrial smog you've been used to breathing.

Then there's the language. It's fragile, soft, murmuring. A Pachelbel concerto may flow in a melody of tender sounds that seems to create an awe of the product and its user.

Rham Youth Undergoing Mental Tests

John Bagdonis of Marlborough, the 15-year-old boy being held in the fatal stabbing of a girl, is undergoing psychiatric tests in Hartford.

The girl, 17-year-old Alice Rutko of Hebron, was stabbed in the back last Thursday while in a corridor at Hebron High School in Hebron. She died an hour later at a William's hospital. Both she and Bagdonis were students at Hebron.

Bagdonis was released from the hospital after the stabbing and captured some distance from the school. If the boy is found responsible for his actions he may be committed to the State School for Boys or placed in a private institution. If he is not found responsible, he may be hospitalized. He is presently being held at a Hartford detention home.

Sheinwold on Bridge

LOWLY PART SCORE WINS BEAUTY PRIZE By ALFRED SHEINWOLD Beauty is in the eyes of the beholder. The average bridge fan is attracted by a dramatic slam or a big penalty, but if you want a real gem, take a simple three-trick contract played by New York expert Irving Kasa at the recent national tournament in Minneapolis.

Opening lead - king of spades at the first trick, and West foolishly continued with the ace of spades on the assumption that his partner's five of spades at the first trick was the beginning of an encouraging signal. West's naive play lay in the back last Thursday while in a corridor at Hebron High School in Hebron. She died an hour later at a William's hospital. Both she and Bagdonis were students at Hebron.

Young Dems Vote Censure Of National Convention

The Manchester Young Dems, by a 27 to 8 vote last night, adopted a resolution which condemns and censures those in control of the Democratic National Convention in Chicago.

Singled out for special censure were Chicago Mayor Richard Daley and Cong. Carl Albert, permanent chairman of the convention. All are Democrats.

The resolution charges that they "consciously and deliberately acted to subvert democracy, and thus made violence inevitable."

The resolution was introduced by Chris Powell, and virtually every one of the 27 who voted in its support were Democrats.

Vernon Renewal Area Asked As Town's Center

The Center in Vernon will probably be the sign identifying the Redevelopment area when it is completed.

Meeting with the Redevelopment commission in executive session last night, representatives from the Redevelopment Commission, the Housing Authority, the Planning Board, the Board of Representatives and the Board of Selectmen, did not take any formal action on the matter, but all agreed they had no objection to it.

The developers said in this way they hoped to emphasize the fact that this area is the hub of Vernon as suggested in the Plan of Development for the town, now under consideration.

Representing also were Val Previtali, president; Sam Di Carlo, general manager; and Joseph Letzko, consultant.

The schedule for construction of the renewal area was thrown off because construction on the Tolland County Court House ran at building was approved by the five months behind due to a delay in the final approval of four stories high and contain about 32,000 square feet of office space.

Original plans called for 60 apartments but this number will have to be reduced.

Construction on the professional office building will start sometime in November with a scheduled completion date of April 1969.

The concept of the professional building was approved by the commission in July. It will be among the highest area scorers in the qualifying test given last February in 11,500 schools nationwide. The semi-finalists are less than one per cent of the graduating class this next spring.

The students are —

Will Compete for Scholarships Eight in Area Merit Semifinalists

Eight area high school students are among the 2,000 semi-finalists in the 1968-69 National Merit Scholarship Program. They will now compete for about 2,000 merit scholarships to be awarded next spring. They were among the highest area scorers in the qualifying test given last February in 11,500 schools nationwide. The semi-finalists are less than one per cent of the graduating class this next spring.

Over Sabah Issue Malaysia Cuts Link With Philippines

(Continued from Page One)

An official source said Rahman's action was "just short of emergency session of the Sabah Cabinet."

In Manila, Philippine President Ferdinand E. Marcos withheld comment until he heard from his embassy in Kuala Lumpur.

Malaysia's diplomatic move coincided with a strengthening of her military guard on Sabah, the former colony of British North Borneo.

Naval patrols were ordered to step up their watch for foreign naval vessels, and civilian vigilante-style patrols were expected to be mobilized along Sabah's eastern coast, 50 miles west of the Bala Islands, at the southern tip of the Philippines.

All armed forces units in Sabah were put on the alert.

Five British Royal Air Force jet fighters took off from Hong Kong today on a flight to the Philippines and then to Sabah. There was no official explanation for the mission, but some observers suggested the British were demonstrating their commitment to the British-Malaysian defense treaty.

President Marcos signed the Sabah annexation law Wednesday but said his nation would pursue its claim by "peaceful means." Rahman said the Philippine action was "tantamount to aggression" and vowed to "meet force with force."

Sabah's chief minister, Mustapha Bin Datu Harun, said he would fly to Kuala Lumpur to consult with Rahman after an emergency session of the Sabah Cabinet.

The Sabah crisis already had prompted partial mobilization in that state, which joined the Malaysian federation when it was formed in 1963. Concessions there began for the first time in April.

Military sources said Malaysian forces have been conducting exercises recently in Sabah.

Break Reported At Credit Union

Thieves were left unwarded for their efforts last night after breaking into the Federal Credit Bureau at 806 Main St., located in a large office building.

Once inside the credit bureau office, they ransacked desks and piled open a portable strong box, but did not find any money.

Investigators, investigating the break this morning said that the office door of Dr. Theodore Rosen, 806 Main St., located in the same building, displayed evidence that someone had tried to pry it open. No entry was gained, however.

Investigators have not determined how the thieves gained entrance to the large building, but presently speculate that a door may have been left open.

Vernon Survey of Town Buildings Planned by Building Panel

Because it has been deeply involved in school projects since it was formed three years ago, the Municipal Permanent Building Committee has been unable to fulfill a duty spelled out in the Consolidation Charter.

The charter states that the committee should be concerned with all town buildings, and the Board of Representatives December 1965 directed the committee to make a survey of all of these buildings.

John R. Godner, chairman of the committee, in a recent report to the Board, has said that his committee has been involved in the building of the Vernon Center Middle School and the addition to the Talcottville School plus the elementary school now under construction. That it feels the survey of the town facilities should be made.

The building committee, in November 1966 before it had any specific tasks assigned, wrote a letter to the director of administration stating that it had voted to initiate a study of the need for construction, maintenance and renovation of all town-owned buildings.

In that letter the committee also requested permission to contact all department heads for information concerning all town-owned buildings and property.

The committee said it hopes these department heads will take the initiative and make their immediate needs known. The panel is available for consultation on any construction or renovation requirement that might exist within various departments.

Special Session Set for Voters

A mandatory voter-making session will be conducted Saturday, Sept. 28, in all Connecticut towns and cities.

Manchester's session will be from noon to 2 p.m. in the town clerk's office in the Municipal Building.

Secretary of the State Mrs. Ella Grasso has set a goal of 1.5 million registered voters for the Nov. 5 elections. The figure was 1,241,819 on Aug. 21.

She has urged all citizens to "take advantage of the opportunities presented to them under the law."

Manchester's regular monthly voter-making session will be held Wednesday, Oct. 2, from 8 to 9 p.m., also in the town clerk's office.

In addition, applicants may sign up on any weekday between 8:30 a.m. and 6 p.m.

Another statewide, mandatory voter-making session will be conducted Saturday, Oct. 12. It will be from 9 a.m. to 8 p.m. in Manchester.

And, a special session will be held Nov. 4, the day before election. It will be from 9 a.m. to noon, and will be for those persons whose eligibility will have matured since Oct. 12.

It was not subjected at all to data processing, much less delayed by it, and it had been submitted to the computer. It is doubtful that the computer could have done much to damage it.

The statistics are expressed in one column in the computer base of ten, but it can be read binarily without the need of conversion.

It does not take the trap—as of some reports from the local government—of trying to express numerically the number of people who share on the tower's lot.

Obviously the reason for the simple numbers is seasonal, and the people who plant, spray, and trim trees have been doing something more appropriate to the time of year, but the thing is refreshing none the less.

In another section the report actually would have to be more complicated. The most appealing thing about this report, by the way, is contained in its sixth column headed "per cent change."

Human Touch: There was a bright human touch in the Democratic National Convention which everyone, in rehabilitating, bemoaning, condemning, explaining, seems to have overlooked.

Conclusion: (Ed. Note: The following reprint is the conclusion section of the official report published by Mayor Richard J. Daley on the disturbances on Chicago during the Democratic National Convention.)

Obviously under the system no one is "punished" for earning as much as he can, at least up to the income tax floor. If the family with the \$3,000 income tax floor earns nothing under the 50 per cent ceiling it would have an income of only \$1,500 earning of the \$2,000 it could get by instead of \$2,000.

It would bring along some side benefits like lifting troublesome residency requirements which work against recipients who need help precisely because they are uprooted.

Seasonal Boon: Out of the Municipal Building this week came one of the most refreshing reports to emanate from any department of any level of government in many years.

Obituary

Mrs. Julia Crawford Dies, Legislator, Clubwoman

Mrs. Julia Crawford of 70 Old St., a former state representative from Manchester, an active Republican Party worker, and an ardent and prominent member of many Manchester and state clubs, died this morning at Manchester Memorial Hospital. She was 84, she had been married to the late William O. Crawford, who had worked for Cheney Bros. He died in 1963.

She leaves a sister, Mrs. George L. Fish of Manchester, two nieces and a nephew. Mrs. Crawford served in the 1947 session of the State Legislature. She introduced and was responsible for passage of a bill which provides for examination by a psychiatrist before a person may be committed to a state mental hospital. Prior to the bill, only examination by a physician was required.

Mrs. Crawford was born June 25, 1884 in Vernon, the daughter of the late Albert Warner Post and Fannie Morris Post. She was graduated from Rockville High School and from the old Willimantic Normal School, and earned a Bachelor of Arts degree from Eastern Connecticut State College. She taught school in Plainfield and East Orange, N.J., and after her marriage came to Manchester, where she frequently served as a substitute teacher in local schools. She held the top posts in numerous local and state women's organizations, including the National Federation of Women's Clubs, the League of Women Voters, the Republican Women's Club, and the Connecticut Women's Club.

Mrs. Louise Peterson, 72, of Bristol, mother of Mrs. Theodore Trudon Jr. of Manchester, died yesterday at Bristol Hospital. She was widow of W. William Peterson. Survivors also include 7 other grandchildren, and a great-grandson.

Funeral services will be held tomorrow at 3 p.m. at St. Anthony's Methodist Church, Bristol. Burial will be in Forestville Cemetery.

Friends may call at the Young Funeral Home, 25 Danvers Ave., Bristol, tonight from 7 to 9. The family suggests that those wishing to do so make arrangements to the Book of Remembrances at Aubrey Methodist Church or to the American Cancer Society.

Mrs. Stanley Ospowicz, SOUTH WINDSOR — Mrs. Mary Agnes Ospowicz, 61, of 225 Graham Rd., wife of Stanley Ospowicz, died last night at Manchester Memorial Hospital after a short illness.

Mrs. Ospowicz was born Feb. 26, 1917 in Thonandora, N.Y. She was a member of the Holy Family Church, and was a member of the Holy Family Guild. She was also a member of the Holy Family Club. She was a member of the Holy Family Club. She was a member of the Holy Family Club.

Record Bill Proposed in Foreign Aid

(Continued from Page One)

It called the program "important to our national interest" but said the nation's serious fiscal situation compelled it to "take an even harder look" at the program, least in the past. The program is designed to strengthen the capacity of friendly nations to detect and help to defuse external attacks and to help to develop national arms with conditions the committee said "breed unrest and violence in broad areas."

Vernon Change Marks Nursing Unit During August

August was one of change and preparation for change for the Manchester convalescent home, according to Miss Ruth Hoyt, supervisor.

The service to the town of Bolton began officially on Aug. 1, and Mrs. Polly Connolly joined the staff to serve that community and its schools.

Other changes in the staff during the month included a resignation from the Help of Help health nurse in Vernon and her replacement by Mrs. Ruth Kern, who will go on a part-time basis this month.

U.S. Troops Blast Enemy Along DMZ

(Continued from Page One)

On Thien in the western area of the McNamara Line, the string of electronic detection devices that run from the coast inland for 11 miles and is supposed to sound the alarm when infiltrating troops cross it. It is named for former Defense Secretary Robert McNamara.

U.S. sources say as many as 10,000 North Vietnamese soldiers are concentrated along the northern frontier, and the U.S. Command expects another major offensive in the northern provinces before the monsoon season reaches its peak in November.

Sharp fighting also was reported farther south, along the coastal lowlands midway between Saigon and the DMZ.

Tolland County May Hits Ribicoff over 'Gestapo'

(Continued from Page One)

Edwin H. May Jr., said in a letter to the left, he thought the Democratic opponent, Senator Abraham Ribicoff, was the "manipulator of the situation" and that he himself was against the stopping of air cover for the troops. This was done with applause.

Assets Disturbance Planned May went on to chastise Ribicoff for his remarks about the Chicago police. He spoke informally, but had prepared advance releases on this portion of his speech.

In the prepared portion he referred to reports which he said, "indicated that the disturbances had been planned for many months with the purpose of discrediting the convention and politics."

"Gestapo" refers to the German secret police under Hitler, he explained. "The actions of the police in Chicago were not secret, and to equate American police leaders with Hitler was uncalled for."

May's remarks, the climax of a rather informal speech, were greeted with applause.

The dinner was organized by the state central committee of the 50th state senatorial district, which is, except for one town, Tolland County. It was attended by Andrew Repko, candidate for this district, by Peter Mariani, state representative, and by other party members.

Coventry Marine Posthumously Wins 4th Highest Award for Valor

Marine Lance Cpl. Michael A. Machie, who was killed in Vietnam May 21, has been awarded posthumously the country's fourth highest award for valor, the Bronze Star with Combat V.

His parents, Mr. and Mrs. Irving S. Machie of 5140 Hill Rd., accepted the award at informal ceremonies in their home this week from Marine Maj. D. T. Dale III.

The award was for heroic achievement of May 21 north of Quang Tri province where Machie's unit encountered a North Vietnamese force.

When his fire team became isolated, a Marine statement said, "he ignored the heavy enemy fire and tenaciously engaged in destroying one enemy anti-tank rocket position and two mortar emplacements which accounted for 10 North Vietnamese soldiers confirmed killed."

Salazar's Condition Reported Still Grave

LISBON (AP) —Prime Minister Antonio de Oliveira Salazar stirred slightly from his coma today but his condition is still grave, an American specialist reported.

He said it was not being ruled out that the 78-year-old leader, who suffered a massive stroke Monday, might still survive.

Dr. Houston Merritt of the Columbia University Medical Center, who was flown in Wednesday by the Portuguese to examine Salazar's condition, said in a communique released by the center that Salazar's condition was "approximately" the same as Wednesday.

Although pulse and blood pressure were normal, the communique said, there was a slight increase in temperature and the pupils were still being maintained.

Merritt had reported Wednesday night that Salazar's "dominant spirit" might carry him through the crisis.

The doctor spent an hour and a half at the hospital this morning and prepared to fly home later. He declined to comment after he left the hospital on the question whether Salazar could be left permanently incapacitated.

Tollard Final Plans for New School Expected Within 2 Months

Final plans for the new Middle School are not expected to be completed for about six weeks, according to school board Chairman David Tollard.

The Middle School Building Committee meeting slated for tonight has been canceled, as no action can be taken by the committee until the plans are ready for presentation by the architects, Russell, Gibson and VonDollan.

Once the final plans are completed the building committee will set on its acceptance and then prepare the bid form.

Preliminary estimates indicate a \$28 per square foot cost for the two-story 48-classroom school. Once the bids are received and opened a "open meeting will have to be called to approve the awarding of the contract to a construction firm.

Dodd, Ribuffo Vote for Gun Bill

WASHINGTON (AP) — Connecticut's senators were on the winning side Wednesday as they voted with the majority which passed the gun-control bill by a vote of 70-27.

Earlier in the day, however, Senators Thomas J. Dodd and Abraham A. Ribuffo, both Democrats, were in the minority on an amendment to the bill offered by Sen. Joseph D. Tydings, D-Md.

Tydings' amendment would have required registration of all firearms and licensing of their owners. It was defeated 54-46.

Dodd was floor manager of the gun-control bill.

Hebron Mrs. Foote, Town's Elder Quilt Maker, Is 100

On Saturday, the champion rug and quilt maker of Hebron, Mrs. Alice Hill Foote, will celebrate her 100th birthday. Granddaughter, Elizabeth Greenma Foote, as she is affectionately called, is Hebron's oldest resident. The birthday open house will be held at the Gilead Congregational Church where she has been a member for more than 80 years.

This alert and witty lady was a correspondent for the Manchester Herald in the early 1920's and still keeps well-informed about news events, although she finds it difficult to read a newspaper.

From her living room chair, Grandma Foote commands a good view of activities along tree-shaded Gilead St. Daily neighbors drop in to visit and discuss the latest in town and worldwide news.

Grandma has lived alone since her husband's death in 1888. Her home is across from the Gilead Church and has lived there for 45 years. Her car for her four rooms and bath is located on the first floor and does her own cooking. During the Christmas season last year she made donuts for the family to enjoy.

The upstairs rooms are reserved for the frequent visits from her son Arnold and his wife, Grand and nee, Mrs. Edna L. Foote. The tax on the property was \$45 for many years. "Disputing how much taxes we pay for my education. Something will have to be done," she commented recently.

Mrs. Foote is well known in the area for her quilting and quilt making abilities. Although quilting is difficult to read, she has very little trouble handling the needs.

One of the front rooms of Mrs. Foote's home is a parlor where she has had her many years of work on her rug. The largest one she has ever made was an 11 by 17 foot rug.

"I don't know how many I've made, I started making rag rugs with my mother when I was six but brided my first rug the first year I was married," said Mrs. Foote. The rug was made in 1910. Mrs. Foote says she was found on the floors of homes in Connecticut, New York, and New Hampshire.

One of her rugs is on display at the Duesenberg Farm, which she has owned since she was 16. The rug is now the present site of the new Hebron Health and Golf Club which is presently being constructed.

Until recently, the farm was a large dairy business operated by her son, Robert E. Foote and his wife, Mrs. Edna. Mrs. Foote's longevity lies in the fact that she has always been in good weather and in good health. When her family was growing up, and after, she never lived any help. She did the cleaning, cooking, and mending, washing and ironing; made the children's clothes and her husband's work clothes; did the wallpapering and painting, and was a general handy maid.

During her lifetime, Mrs. Foote has been a member of the Hebron Grange for over 90 years, taught Sunday School, sang in the church choir and was president of the Ladies Aid Society for 35 years.

She recalls vividly the Blisland when she received a \$5 a week and got raised to \$8 before having the teaching position under the man to get to the farm to get the stock.

Mrs. Foote says that the

South Windsor 105 Pints Of Blood Donated

There were 105 pints of blood donated at the Bloodmobile held Friday at St. Margaret Mary's Church Hall. The Bloodmobile was sponsored by the Knights of Columbus Council for South Windsor.

The amount donated exceeded the last drive held in March of 1967, this year by four pints. Forty-five of the donors were walk-in donors and 20 were first-time donors. Those who gave blood were Sheila Brown, Anthony P. Colburn, Richard J. Whelan, Bradford G. Alper, Alton D. Lane, Saverio P. Mautucci, Fred Caruso, Susanne R. Ellis, Howard E. Lappen, Carol A. Beecher, Leonella A. Glusantzi, Allan L. Levy, Richard P. Foster, C. C. Hildebrand, Anne Coban, Jeanne J. Page, Janet G. Smith and Jeanette R. Patschke.

Also, Patricia J. Jurgens, Joyce Z. Morgan, Elaine C. Ouellette, Doris H. Boutin, Alfred J. Pandolfo, Donald L. Cantwell, John V. Trysko, James J. McDonnell, Roger L. Desmarais, Karen A. Jackson, Roger J. Page and Ernest Kempe.

Hebron Petitions Circulating Again To Allow Town Liquor Sale

Residents of Hebron will be given another opportunity to vote on whether or not to allow the sale of alcoholic beverages in Hebron if the petitions currently circulating receive enough signatures.

Hebron is one of eight towns in the state that still remains dry. The others are Bloomfield, Canterbury, Eastford, Easton, Wilton and Woodstock.

Two petitions were brought to the selectmen's meeting of town chairman this week and six of the seven persons present signed them. In order to file the petitions for the referendum election, they must be signed by the ten per cent of the certified electorate as of the October 1967 municipal election voting list. This would require the signature of 1,100 voters.

The first petition is calling for all alcoholic beverages to be permitted in Hebron. The second calls for only restaurant permits.

From discussion at the meeting with other interested parties, the petitions are connected with the Hebron Health and Golf Club being constructed. According to present zoning regulations, however, even if the town went "wet" no dining room facilities other than a snack bar can be erected and no liquor can be served on the premises.

The town has voted on the "wet" issue many times in 1934 due to legislation making all towns wet unless they voted dry. Hebron became a wet town in 1934. Another vote came up in two years later in 1936 when 185 persons voted no over 62 dry for all alcoholic beverages and 78 for beer only.

Perseverance did not pay off when in 1937 the vote was called for again and defeated, 191 votes no to all alcoholic beverages and 28 beer only.

There were 105 pints of blood donated at the Bloodmobile held Friday at St. Margaret Mary's Church Hall. The Bloodmobile was sponsored by the Knights of Columbus Council for South Windsor.

The amount donated exceeded the last drive held in March of 1967, this year by four pints. Forty-five of the donors were walk-in donors and 20 were first-time donors. Those who gave blood were Sheila Brown, Anthony P. Colburn, Richard J. Whelan, Bradford G. Alper, Alton D. Lane, Saverio P. Mautucci, Fred Caruso, Susanne R. Ellis, Howard E. Lappen, Carol A. Beecher, Leonella A. Glusantzi, Allan L. Levy, Richard P. Foster, C. C. Hildebrand, Anne Coban, Jeanne J. Page, Janet G. Smith and Jeanette R. Patschke.

Also, Patricia J. Jurgens, Joyce Z. Morgan, Elaine C. Ouellette, Doris H. Boutin, Alfred J. Pandolfo, Donald L. Cantwell, John V. Trysko, James J. McDonnell, Roger L. Desmarais, Karen A. Jackson, Roger J. Page and Ernest Kempe.

Hebron Petitions Circulating Again To Allow Town Liquor Sale

Residents of Hebron will be given another opportunity to vote on whether or not to allow the sale of alcoholic beverages in Hebron if the petitions currently circulating receive enough signatures.

Hebron is one of eight towns in the state that still remains dry. The others are Bloomfield, Canterbury, Eastford, Easton, Wilton and Woodstock.

Two petitions were brought to the selectmen's meeting of town chairman this week and six of the seven persons present signed them. In order to file the petitions for the referendum election, they must be signed by the ten per cent of the certified electorate as of the October 1967 municipal election voting list. This would require the signature of 1,100 voters.

The first petition is calling for all alcoholic beverages to be permitted in Hebron. The second calls for only restaurant permits.

From discussion at the meeting with other interested parties, the petitions are connected with the Hebron Health and Golf Club being constructed. According to present zoning regulations, however, even if the town went "wet" no dining room facilities other than a snack bar can be erected and no liquor can be served on the premises.

The town has voted on the "wet" issue many times in 1934 due to legislation making all towns wet unless they voted dry. Hebron became a wet town in 1934. Another vote came up in two years later in 1936 when 185 persons voted no over 62 dry for all alcoholic beverages and 78 for beer only.

Perseverance did not pay off when in 1937 the vote was called for again and defeated, 191 votes no to all alcoholic beverages and 28 beer only.

SA Band Gets Besson Cornet As Memorial to Bob Lyons

An English Besson cornet was dedicated last Sunday at the Salvation Army to the memory of Robert J. Lyons, late deputy bandmaster of the Army Band.

The dedication took place during the Sunday morning worship service.

The cornet was purchased with contributions made to the R.J. Lyons Memorial Fund.

A dedication prayer, written by Mrs. Brig. Gen. Lyons-Mahon, his sister, was read by bandman Alton J. Munste.

The new cornet was then dedicated to the memory of Robert J. Lyons, who served a solo with band accompaniment.

During the service, it was mentioned that another son, Capt. David J. Lyons, is serving in Vietnam with the U.S. Marines.
