

## 'That's One Small Step For Man, A Giant Leap For Mankind'

# History-Making Moon Trip

Apollo 11 Flight Commander Neil Armstrong

## First Steps Cautious Like Testing New Ice

SPACE CENTER, Houston (AP)—They took their first steps onto the moon cautiously, like prudent boys testing the first ice of winter on a country pond.

When first they walked, they walked carefully and slowly, leaning forward, plodding heavily like tired old cops on a beat in Staten Island.

As they acquired confidence, they walked faster, now with a slow bounce in the one-sixth gravity of the moon. And then they ran and their stride was longer than on earth and their shoes seemed suspended off the strange lunar surface, with something of the floating quality of figures on slow motion film.

When they were still, they seemed very still, as if frozen, and they leaned forward like puppets to be at a lunar form of attention when the president spoke to them from earth.

All the while, the earth was "bright and beautiful" above them. In this first incredible day of an incredible new era one needs to repeat that: the earth was above them.

In the distance, the lunar surface looked pocked and leathery like the back of a dead alligator. Closer up, it looked like rubble, like earth leveled roughly after a disaster, dead.

They looked ghostlike on the soundless, airless, mostly colorless moon. Over the curving horizon, only one and a half miles away on a planet smaller than earth, there was the blackness of space and infinity. The foreground was starkly lighted by the sun and the men and their vehicle cast long shadows. It was dawn on the moon and a dawn in the history of man.

Neil Alden Armstrong, formerly of 601 West Benton St., Wapakoneta, a town in Ohio, a state in the United States; a

Jan Armstrong

## No Differ Than Others

## Proud Apollo Wives Share in Excitement

SPACE CENTER, Houston (AP)—No different from the rest of the nation, the proud Apollo 11 wives struggled to find enough adjectives to express their feelings for their men on the moon.

The evening has been unbelievably perfect," Mrs. Neil Armstrong said today after watching the moon explorations of her husband and Edwin E. Aldrin Jr. "It is an honor and privilege to share with my husband, the crew, the Manned Spacecraft Center, the American public and all of mankind this magnificent experience of the beginning of lunar exploration."

Earlier, Mrs. Armstrong expressed her feelings much more simply. "I was tremendously

## Armstrong's First Words Added to Greatest Sayings

SPACE CENTER, Houston (AP)—Neil A. Armstrong planted his white left boot in the moon's gray dust and said: "That's one small step for man, a giant leap for mankind."

They were the first words of the first man to set foot on the moon.

Earlier, Armstrong, the Apollo 11 command pilot, reported the touchdown of the lunar land-

## Astronauts Blast Off And into Lunar Orbit

SPACE CENTER, Houston (AP)—Neil A. Armstrong and Edwin E. Aldrin Jr. blasted off safely from the moon and into lunar orbit today, beginning the complex maneuvers to link up with their mother ship. They left behind their footprints in the lunar dust and in the history of man.

Their liftoff began 69 seconds after command ship, with Michael Collins its lone passenger, passed 69 miles above Tranquility Base. Seven minutes later, they entered orbit and a 3 1/2 hour chase began.

It all went well, the two ships would link up at 5:32 p.m. EDT, and head for home at 12:57 a.m. Tuesday.

Their trusty lander, which setled them onto the surface Sunday for a 21 1/2 hour stay, served them, too, at liftoff. They left behind the spindly-legged lower stage, their launching platform, as a permanent memento of July 20, 1969—the day man landed on the moon.

It was the first time a rocket had lifted anything from the moon.

Once linked up, they plan to fire themselves back toward earth early Tuesday, ending a space odyssey in which they etched their names beside those of history's great explorers, Columbus, Balboa, Magellan, da Gama and Byrd.

But what a difference. When Columbus landed in the New World, Spain's Queen Isabella didn't hear about it for six weeks.

Through the magic of television, an estimated 500 million people around the world had a ringside seat to man's greatest adventure.

It was unforgettable. Armstrong climbed through the LM hatch and started backing down a nine-rung ladder. On the second rung from the bottom, he opened a compartment, exposing a television camera.

The picture was black and white and somewhat jerky, but it recorded history.

Among scientists, there was a elation that the crew had landed in an area with a variety of rocks, a treasure that held at least the hope of a rich payoff in the search to learn more about moon and earth.

As Armstrong planted his six 9 1/2 lb boot on the powdery surface at 10:56 p.m. Sunday, he spoke words that will be remembered for all time: "That's one small step for man, a giant leap for mankind."

The camera trained on Aldrin as he stepped on the far shore 20 minutes later and exclaimed: "Beautiful! Beautiful! Magnificent desolation."

There were other memorable utterances, during the day of high adventure.

There were Armstrong's words when Eagle separated from the command ship to start the "dangerous descent." "The Eagle is flying."

There were Armstrong's and man's first words from the moon's surface after touchdown at 4:18 p.m.: "Houston Tranquility Base here. The Eagle has landed."

Or when Aldrin, a deeply religious man, relayed this message to the world shortly after the landing: "This is the LM pilot. I'd like to take this opportunity to ask every person listening, wherever they may be, to pause for a moment and contemplate the events of the past few hours and to give thanks in his or her own way."

They planted an American flag and saluted it, but made it plain they came to the moon as ambassadors for all mankind.

They unveiled a stainless steel plaque bearing these words:

## 'Proudest Day of Our Lives'

## President's Message

WASHINGTON (AP)—The text of President Nixon's radio-telephone conversation Sunday night with astronauts Neil Armstrong and Edwin E. "Buzz" Aldrin Jr., as they stood on the surface of the moon:

"Neil and Buzz, I am talking to you by telephone from the Oval Room at the White House. This certainly has to be the most historic telephone call ever made from the White House.

I just can't tell you how proud we all are of what you have done for every American. This has to be the proudest day of our lives.

For people all over the world I am sure that they too join with Americans in recognizing what an immense feat this is. Because of what you have done the heavens have become a part of man's world.

Although at times it appeared they were on a romp in the park, Armstrong and Aldrin carried out a true exploration of the moon.

Several times they tested

their ability to move about in the one-sixth gravity field of the moon, hopping like antelopes, and bounding like kangaroos.

"It's not difficult at all moving about in one-sixth 'G,'" commander Armstrong reported, as he flashed before the camera like a graceful gazelle.

The camera was mounted 40 or 50 feet away from the LM so that earthlings could watch their entire period outside—2 hours, 14 minutes for Armstrong and one hour, 44 minutes for Aldrin.

One of those who could not watch on television was Collins, flying the lonely vigil overhead, awaiting the return of his companions. He checked with mission control occasionally for a progress report on the surface activity, but he generally was a forgotten man to the world.

Armstrong and Aldrin gave vivid descriptions of their wild and wondrous world and collected two boxes of rock and soil samples which they will return to earth for analysis.

The moonmen also deployed two scientific instruments on the moon to relay data long after they left. They were a seismometer to measure moonquakes and other disturbances and a small mirror to reflect earth laser beams fired from California back to earth.

The sensitive seismometer, monitored on earth, picked up the footsteps of the astronauts and recorded a thump when they turned litterbag and dumped a bag of unneeded

the people on this earth are truly one. One in their pride in what you have done, one in our prayers that you will return safely to earth.

Armstrong answered: "Thank you Mr. President. It is a great honor and privilege for us to be here representing not only the United States but men of peaceable nations with an historic and a curiosity and a vision for the future. It is an honor for us to be able to participate here today."

The President answered: "I thank you very much. All of us look forward to seeing you on the (recovery ship) Hornet on Thursday."

Armstrong answered: "Thank you."

For one priceless moment in the whole history of man all of

As you talk to us from the sea of Tranquility it inspires us to redouble our efforts to bring peace and tranquility to earth.

For one priceless moment in the whole history of man all of

ARMSTRONG ANSWERED: "Thank you very much. All of us look forward to seeing you on the (recovery ship) Hornet on Thursday."

ARMSTRONG ANSWERED: "Thank you."

## Russia Lands Luna on Moon 500 Miles from Apollo Site

JODRELL BANK, England (AP)—Russia landed Luna 15 on the moon's surface today, 500 miles from where America's Apollo astronauts were preparing to take off on their journey back to earth, Jodrell Bank observatory reported.

Signals picked up at the giant radio-telescope here indicated that after four days of moon orbit the unmanned probe landed on the moon's Sea of Crises.

Jodrell Observatory, headed by 55-year-old Sir Bernard Lovell, stood by for any sign that Luna itself might be preparing to return to earth.

Prof. John G. Davies, Lovell's aide, said at 12:02 p.m. EDT: "Luna has landed."

The last signals received from

Luna were "appropriate to a soft landing," he added.

Unofficial sources in Moscow had predicted when Luna 16 took off July 13 that it would attempt a remote-controlled lunar landing to retrieve a sample of moon soil—a task already performed by the American astronaut.

But in the absence of signals, there was no immediate indication that Luna 15 was operating "live" on the moon's surface.

Asked about the possibility that the probe could still lift off with a lunar sample for a round trip to earth ahead of Apollo 11, Davies said: "It is now possible that the Russian probe will be back faster than the Americans. There may be savings in time with an unmanned craft with no docking procedures."

Not on Agenda

SPACE CENTER, Houston (AP)—Neil A. Armstrong, the first to test man's ability to walk on the moon, almost made an unplanned test of man's ability to fall on the moon.

While he was loping across the surface his foot tangled in the television camera cable.

Crewmate Edwin E. Aldrin Jr. warned him, however, before he fell.

"Neil," called Aldrin by radio, "Neil, You're on the cable."

"Okay,"

"Pick up your right foot," Aldrin barked. "Your toe is still hooked in it."

Armstrong unhooked his foot and loped on.

## Reaction Around the World

Astronaut Neil A. Armstrong with man's first footprint on the moon: "That's one small step for man, a giant leap for mankind."

Astronaut Edwin E. Aldrin Jr., in following Neil A. Armstrong to the surface of the moon: "Beautiful! Beautiful! Magnificent desolation!"

President Nixon: "It was one of the greatest moments of our time."

Vice President Spiro T. Agnew: "America must go on to greater conquests in the heavens."

Thomas O. Paine, director of the National Aeronautics and Space Administration: "We have clearly entered a new era."

Sir Bernard Lovell, director of Britain's Jodrell Bank Observatory: "The moment of touch-

down was one of the moments of the greatest drama in the history of man."

Pope Paul VI: "Honor, greetings and blessings to you, conquerors of the moon, pale lamp of our nights and our dreams! Bring to her, with your living presence, the voice of the spirit, a hymn to God, our Creator and our Father."

British Prime Minister Harold Wilson: "Above all, we must pay tribute to the heroism and fortitude of the men who are out there tonight and to the men who have gone before them."

President Giuseppe Saragat, Italy: "Of all the sentiments that stir us, gratitude toward the American people dominates. That people formed by innumerable immigrants from every country, that has given humanity so great a victory and that has democratically accepted, for victory or for defeat, the witness of the whole world."

Queen Elizabeth II of Britain: "I am filled with admiration for the fortitude of astronauts Armstrong, Aldrin and Collins, whose exploits add a new dimension to man's knowledge of the universe."

President Jacobus J. Fouché, South Africa: "The moment of touch-

21 JULY 21

THE WAY I HEARD IT

by John Gruber
The biggest paintings you are likely to encounter around Hartford are not to be seen at the Watford Athenaeum, nor are they murals in some building. They are hung intermitently on the stage of the Bushnell when an opera is produced.

They are not conventional artist's colors nor house paint. They are flares, dyes, and may even be dyes. They have to be mixed in tremendous tubs to avoid changes of color over large areas.

A scenic designer makes the original sketches. He is very expensive. Picasso designed sets for Diaghilev, and the "Met" has sets designed by Marc Chagall, as a couple of examples. These designs are usually made to a scale of 1/4 inch on the foot. That is, 1/4 inch on the design will be enlarged 24 times to become a foot on the actual finished set.

The enlarged painting is the job of scenic artists. Don't call them "scenic painters" to their job, even though you may think of them that way. Their job is a difficult one, and they really have to be artists with a different technique. Most of their paint comes from tubes, and they have to be able to mix it well, and may be responsible for magazine covers, advertising matter, and so on.

"Hard stuff" is painted on a "paint bridge." This is usually made of wood, and is made of more up, against the back wall of the stage. The "flats" are lashed together as they will be in the production and hung from a rearmost pipe or "bar" then line across the face of the stage. Each flat is made of the way, and must be the very best quality of wood in place throughout the evening.

Sometimes these "flats" are curved around onto the sides as well. In such a case, it may be 100 feet long by 50 feet high. So you can see why they have to be portable. They are lashed together for transport in the Bushnell, and are used in the auditorium.

The sets are used at the Bushnell may be rented from an other opera company, which in turn rents them from the scenery from the local company. The local "Aida's" scenery has been hauled over most of the United States, for example. The new production per annum is about all that is produced financially on the local scene.

This year it was "Walkure" that rated new settings, chiefly because there weren't any around that could be rented. This meant three complete sets for the three different acts. They were designed by Henry Dackes, Hartford architect, and executed locally. Since "Walkure" is not commonly produced, the sets are not these sets is problematical. And the cost for storage will be considerable before they are used again.

The "Met" with good storage within its own building uses quite a bit of "hard stuff," meaning scenery, and liquor. There are "flats" which mean they are struck, usually with a chain plus; there are "flats" which mean they are struck, usually with a chain plus; there are "flats" which mean they are struck, usually with a chain plus.

Three State People Die In Mishaps

By THE ASSOCIATED PRESS
A New York City man who died in a traffic accident was the only fatality in Connecticut over the weekend.

But three Connecticut residents lost their lives in out-of-state accidents, one of them a plane crash.

The victim of a one-car smashup in Greenwich was identified Sunday by police as Westday D. Franks Jr., 20, of New York City. His car was out of Lake Avenue last Saturday night and hit a tree, police said.

Out of state, an auto accident near Collierville, Pa., early Sunday claimed the life of Mrs. Patricia Smith, 46, of East Hartford. Pennsylvania state police said the car dropped down an embankment.

In Bennington, Vt., Paul L. Langlois, Jr., 26, of Hartford, was killed early Sunday when the auto he was driving went off Route 9 and struck a tree. B.L. Keegan of Waterford was killed Saturday evening when a single-engine plane crashed during an electrical storm. The plane plunged into a wooded area in Guilford, Del., and partially buried pilot said. Kog. was in his early 30s, was flying solo from Norfolk, Va., to Groton when he crashed.

church, or tombs in a crypt are likewise in the artist's province, although a scenic artist will finish them off. Carriers, even though you may think of them that way, their job is a difficult one, and they really have to be artists with a different technique.

"Hard stuff" is painted on a "paint bridge." This is usually made of wood, and is made of more up, against the back wall of the stage. The "flats" are lashed together as they will be in the production and hung from a rearmost pipe or "bar" then line across the face of the stage.

Sheinwold on Bridge

COUNTING POINTS
ALFRED SHEINWOLD
The trouble with playing bridge against a musician is that he knows how to count.

Partner opens with 1NT, and the next player doubles. You hold: Spades, 5-3; Hearts, 8-4; Diamonds, 10-8-7-4; Clubs, J-10-9-2.

What do you say? Answer: Bid two clubs. This is a real snafu. The Standard is in dummy with the king and queen of clubs.

THE MOON HAS ALWAYS BEEN A HIGH NOTE IN MUSIC WORLD

By PAUL HUME
The Washington Post
Take the moon out of music and you rob music of some of its loveliest moments.

The moon has brought a heavy charge. Before the Lord, and announced that he no longer wants to stay in the sky.

Haydn was only one of several composers who wrote an opera called "The World of the Moon." To a comedy by Goldoni.

# Greatest Television Spectacular Viewed by 125 Million Americans

**NEW YORK (AP)**—In television's greatest spectacular, astronauts Neil A. Armstrong and Edwin "Buzz" Aldrin Jr. hopped about the surface of the moon, set up an American flag and snapped each other's pictures like two tourists.

As much of the world watched, Armstrong stepped from the Eagle to the lunar surface Sunday night and said, "That's one small step for man, a giant leap for mankind."

The first live television pictures from another celestial body were as marvelous as the achievement of Apollo 11. It was all the Saturday matinee of Buck Rogers and Flash Gordon. But this was for real.

The brilliant sun and the deep shadows made for a contrasting image and the slow-scan black-and-white camera zoomed in and out to blur during movement. Still, there was no distracting from their awe-inspiring impact.

The pictures were so good that it was possible to see the powder dust kicked up as Aldrin bounced over the surface and to pick out his footprints.

NBC estimated that 125 million Americans stayed up for the greatest late late show ever, and that 125 million saw the first image of Armstrong's first step to the lunar surface.

ABC, which is handling the international pool coverage, estimates that possibly as many as 600 million people in North and South America, Europe, Asia and Australia and parts of Africa saw the moonwalk. Apparently only the Soviet Union and Communist China did not broadcast transmission.

On the lunar surface, Armstrong and Aldrin enjoyed themselves like two kids in a new sandbox.

Aldrin's transplacental act on the ladder, Armstrong did a dangerous sidestep. Both hopped and they tried to cut their legs on the low-gravity moon. Then they set about the serious business of erecting equipment and gathering lunar samples.

On a split screen, President Nixon sent his good wishes to the astronauts and said he hoped their achievement would promote peace and tranquility.

Earlier, the network used models and animation to show the lunar module Eagle's descent to the moon.

Even the cool words from the astronauts as they guided the craft down could ease the tension until Armstrong announced the "Houston Tranquility base here. The Eagle has landed."

It was a long, satisfying display of man's ingenuity and determination and the spirit of the intrepid astronaut.

It is not often that the world can share a common experience. Particularly one of peaceful intent. It was a moving occasion that he remembered and passed on for many years.

**MEN ON THE MOON**—Astronaut Neil Armstrong plants the Stars and Stripes on surface of the moon (right) while his moon partner, Edwin Aldrin looks on. (Top photo) Armstrong and Aldrin (right) salutes as President Nixon's message is relayed. (AP Photo/af.)

## Jewish Prayer

**JERUSALEM (AP)**—The American landing on the moon resulted today in the revival of an ancient Jewish prayer.

The prayer asked God to preserve the Jews from harm "just as the moon is untouched by man." Gen. Schlomo Goren, the Israeli army's chief chaplain, said it had been changed to "just as the moon is not touched by man."

## Hamilton 'Backpack' Works Well

**WINDSOR LOCKS, Conn. (AP)**—The voice from Houston cheerers came from the engineers and technicians at Hamilton Standard Division of United Aircraft Corp. here—men who provided the Apollo astronauts with the portable Life Support System, the Apollo Portable Life Support System (PLSS)—also known as the "backpack."

Some 50 engineers and technicians. Had into an electronic communications network that started from the moon to Houston.

Those engineers, called what they called the "parameters" of the life support system.

"We had to watch for trend," said Edward Eaton, PLSS engineering manager.

"These trends come from the data we receive on the operation of the backpack. In oxygen above or below designed flow? Oxygen ventilating system? Ventilation loop. The subsystems had to work within design minimums and maximums."

"Everybody here (early Monday morning) was overjoyed. It worked too well. We knew we built the best."

The life support system for the moon landing astronauts was some six years in development at a contract price of \$4 million. Although only used for two hours and 15 minutes on the moon, it permitted up to 10 hours of free space activity depending on the level of physical activity.

The unit supplies oxygen for breathing and suit pressurization and ventilation. It also supplies cooling and removes carbon dioxide and oxygen from the atmosphere.

When fully charged, the pack weighed in at 66 pounds, 12 ounces.

Mrs. Apollo had been taken to the hospital on July 13, but was told to return home. It seems Michael had planned to time his arrival with the moon landing, his doctor said.

The backpack received the majority of the play during the moon walk another Hamilton Standard unit, the Environmental Control System, ECS provided the two astronauts with a life-sustaining atmosphere inside the Lunar Excursion Module spacecraft.

# Astronauts Leave Junk Yard Behind

**SPACE CENTER, Houston (AP)**—Two Apollo 11 astronauts leave behind one of the most expensive junk yards in the universe when they lift off from the moon today.

They discarded almost 11 million worth of cameras, tools and breathing equipment up there.

The cameras included the black and white television camera that captured their moon walk.

Largest item to be left was the descent stage of the lunar module. NASA is reluctant to put a cost on this two-ton piece of metal since it's only part of a lunar module that cost \$41 million.

Even if the spacecraft stage hadn't been left on the moon, it has no heat shield. After returning to the moon lander's cabin, the astronauts could never have returned to spend the hatch and dumped earth. It has no heat shield.

American flag was left on the moon. The space agency doesn't know how much it cost and doesn't want to.

NASA bought a large number of flags from different manufacturers. A spokesman said, and removed all labels. One was selected at random.

"We've no idea which one is up there," said the spokesman. "This was so no company could make a big thing of their flag being on the moon."

A silicone water bearing electronic-reduced message of goodwill from 78 countries cost NASA nothing. A private firm produced it at no cost to the government.

A plaque bearing the photographs of the astronauts and of President Nixon couldn't be priced. It was made in the metal shop at NASA materials already at hand.

It was Armstrong's left foot that first touched lunar soil. Television ground data handling system at Goldstone tracking station where picture was received. (NASA Photo via AP Photo/af.)

## Tolland Outdoor Movie Series Opens Tonight at Crandall's Park

As part of the summer recreation program, the Board of Selectmen has announced the start of a series of Monday night outdoor movies at Crandall's Park.

The first showing will begin at 8 on the beach and will feature "The Long Walk Home" and "The Long Walk Home."

The Tolland Volunteer Fire Department Auxiliary will meet tonight at 8 at the Leonard's Corner firehouse.

The 4-H Lamb Club will meet tonight at 7:30 in the Post House.

## Savings Bank Reports Assets At \$34.4 Million

The Savings Bank of Rockville reports a record year with assets reaching \$34,400,000 as of June 30. This represents an increase of \$2,391,407.97 over a year ago.

Frederick Hallicher, president of the bank, made the announcement at the 111th annual meeting of the corporation held last week.

Total deposits of the bank's 16,136 savings customers reached \$21,136,469. Hallicher said.

Now serving as corporators or directors of the bank are Hallicher, Dr. E.H. Metcalf, Charles Pressler, Francis J. Gregory, Julius Kosloski and Francis Suppacher.

Also, Dr. Raymond Ramadell, Raymond B. Ladd, Charles Chubbey, Wayne Vincent, Edmond Zahner and Howard Wolfinger.

The officers, all re-elected, are Hallicher, President; Dr. Metcalf, vice-president; Charles Pressler, secretary and treasurer; Herman Usher, assistant treasurer and assistant secretary; George Chase, assistant treasurer, and Mas Edith Casati, assistant secretary.

## HHH Meets with Kosygin In Hopes for Cooperation

**MOSCOW (AP)**—Former Vice President Hubert H. Humphrey met today with Soviet Premier Alexei Kosygin and said Kosygin told him the Soviet government is seeking forward cooperation with the United States.

Kosygin gave me a message to take back to the United States," Humphrey said after the 2 1/2-hour meeting. "He wants me to tell the President and the American people that the Soviet Union wants to work with the United States for peace."

"I think there is a basic Soviet desire to negotiate in good faith on matters of substance," Humphrey also reported that Kosygin was "very complimentary" about Apollo 11 and expressed his personal good wishes to the astronauts and their families.

Humphrey told a news conference that the preliminary talks were very complimentary in general about U.S. space achievements.

The chief of the Soviet Communist party, Leonid Brezhnev, also visited the Apollo mission success as he arrived in Warsaw to attend the 20th anniversary celebrations of the Polish Communist government. As he passed down the receiving line at the airport, he shook hands with U.S. Ambassador Walter J. Stoessel Jr. and said in Russian, "2 uspechom," which means "With success." Stoessel told news that Humphrey's going later to Yugoslavia.

It was the first time this year that Kosygin has seen a leading U.S. politician and seemed surprised by evidence of a Soviet wish to improve relations with the United States.

"We exchanged views in considerable detail and with utter frankness on a wide range of subjects," Humphrey told news. He said the subjects included U.S. Soviet arms talks, nonproliferation of nuclear weapons, the Middle East, Vietnam and Southeast Asia.

He declined to give details about Kosygin's opinion but said: "I have the impression he is coming to Washington."

## Music Composer Hamilton Dead

**NEW ROCHELLE, N.Y. (AP)**—Roy Hamilton, whose hit recordings included "Ebb Tide" and "Unchained Melody," died Sunday in New Rochelle Hospital. He was 40.

A hospital spokesman said death was the result of a stroke. Hamilton suffered earlier this month. He was hospitalized July 11.

His first major recording was "You'll Never Walk Alone." Other hits included "Don't Let Go," "Let there be Love" and "Hurt." His latest song was "Hurt."

Hamilton also performed in Germany and the Far East. He appeared on the last of the Ed, M.G.M. Victor and American Group Productions. Hamilton lived here with his wife and two children.

## Columnist Dies

**ARLINGTON, Va. (AP)**—F. J. Crockett, columnist and author, died Sunday at the age of 69. He had joined the Courant in 1920 and covered the Connecticut General Assembly before coming to Washington.

**Honored at Olympics**  
MANSFIELD (AP)—Mrs. Robert Kennedy, widow of the New York senator, was honored Saturday at a session of "Olympics" for mentally retarded children held at the University of Connecticut Saturday.

She reviewed a parade of some 200 children and their torch-passing ceremony and was visibly moved when a group of blind children from the field State Training School sang the hymn "Mine eyes have seen the glory." from "The Battle Hymn of the Republic."

The Rev. Mr. Clough is also expected to repeat the Board of Education to reconsider its decision regarding the church's use of the school facilities.

Skunk Not Rabid  
A skunk picked up in the Country Hills area last week by Sanitary Inspector Leon Drehr has been found free of rabies after being tested at state laboratories in Hartford.

The skunk had been found dying in a Carol Dr. resident's yard. Due to the large number of children and pets in the area, the skunk was sent to the lab for tests.

**Bulletin Board**  
The Planning and Zoning Commission will hold a public hearing on the recently revised

## Opportunities Unlimited

**BE PART OF A GROWING COMPANY**

WE ARE EXPANDING IN ALL SIX OF OUR PLANTS WHICH WILL REQUIRE ADDITIONAL SKILLED MACHINISTS AND MACHINE OPERATORS. IF YOU ARE NOT SKILLED PERHAPS YOU CAN QUALIFY FOR OUR TRAINING SCHOOL WITH A NEW CLASS STARTING SOON.

PLANT LOCATIONS  
PALM BEACH GARDENS, FLORIDA  
FORT LAUDERDALE, FLORIDA  
MANCHESTER, CONNECTICUT  
SOUTH WINDSOR, CONNECTICUT  
VERNON, CONNECTICUT  
RUTLAND, VERMONT

We will be interviewing at our Administration Building located at 273 Adams Street, Manchester, Connecticut, Monday thru Friday 9 A.M. to 5 P.M. — Saturday 9 A.M. to 12 Noon. Other hours by appointment. Telephone 643-2473. Ask for Mr. Paul Kaiser.

**Extra Fancy Cucumbers 3 for 29¢**

**Honeydew Melons Large, Sweet 49¢**

**DOUBLE TOP VALUE STAMPS EVERY WEDNESDAY**

## Periods of Reflection And Prayer in Country

**By THE ASSOCIATED PRESS**

They were shining hours. Americans landed on the moon and walked its rocky surface while millions of their countrymen looked their attention on television and radio sets on a July Sunday that will live in history.

It was also a Sunday on which babies tamped made in a California stream, American GIs fought on in Vietnam, babies were born, highways took their toll, cheerers roared from excited crowds, a Wyoming woman laughed uncontrollably, Indiana broke into a victory dance.

For others, there were periods of reflection and prayer.

In her home at Worcester, Mass., the widow of rocket pioneer Robert H. Goddard sat alone and watched the moon as it sped across the sky for the first time.

When a newsman phoned she said, "I'm sorry I'd rather be myself, you understand."

A soft rain fell at Auburn, Mass., as Goddard fired his first liquid fueled rocket in 1926. In New York, some 3,000 people watched the moon landing at a huge television screen at Kennedy International Airport. Hundreds of people lined up in front of a huge television screen at the Time-Life Building across from Radio City Music Hall. An estimated 4,000 watched the three huge TV screens erected in Central Park.

Across the nation, in Anaheim, Calif., 80 members of the Soviet Union's track and field team saw the moon landing on Disneyland TV screen.

In Burbank, Calif., an ice cream company moments after Neil A. Armstrong first stepped on the moon, started dishing out a new flavor called Lunar Cheesecake.

Trying to "spread his wings," like the lunar module Eagle, a prisoner at the Nevada State Prison, Carson City, tried to scale the fence shortly before Eagle landed on the moon. He stopped after two warning shots by guards.

In Nevada gaming cities of Las Vegas and Reno, gamblers were asked to halt the action briefly. In Las Vegas, a casino peered at a simulated space ship at the Bellagio Hotel. "The ship," they called it, "is the Moonshot." They had a maximum security cell.

Only 4,000 persons took the Kennedy Space Center tour at Cape Kennedy Fla., where an estimated crowd of one million was on hand when the Apollo 11 blasted off last Wednesday.

Barbara Gullford, a 29-year-old Cheshire, N.Y., school teacher, laughed and laughed. "I was exhilarated and started laughing," she said. "I couldn't understand exactly what had transpired technically, but I was excited over the fact that man had made it to the moon. I laughed for five minutes."

In Honolulu, Fred Kamohi ordered drinks on the house at the Pacific Science Center. He has been higher during moon shots.

In Philadelphia, a huge crowd gathered in front of historic Independence Hall and cheered when Eagle reached the moon's surface.

In Seattle, where attendance at the Pacific Science Center for an announcement of the moon landing. They and the world's fair, a tiny American flag popped out of the Sea of Tranquility on a moon of the moon at the moment Eagle touched down.

A few blocks away, a program of the Minnesota Twins were interrupted by an announcement of the moon landing. They and the world's fair, a tiny American flag popped out of the Sea of Tranquility on a moon of the moon at the moment Eagle touched down.

A doubleheader between the Chicago Cubs and Philadelphia Phillies was interrupted by the moon landing. The fans cheered. Inhabits at the Pottawatomie offered a alien prayer and sang "God Bless America."

At Meriden, Conn., a man celebrated the moon landing. "I was, where a July evening normally finds farmers setting a single baseball game on radio on a television, setting a five-minute time, in front of TV sets. The landings was a lot of business."

In San Quentin Prison, Sheriff Biagini Sirhan, the convicted slayer of Sen. Robert F. Kennedy, was going to receive live television coverage. Anchorage with moon.

## Tranquility Base Is Here, Eagle Has Landed Amid the Craters of the Moon Were Bootprints of Two Men

**SPACE CENTER, Houston (AP)**—There amid the craters of the moon were bootprints of two men.

Their presence had told them there were other voices beyond earth and moon Sunday.

The first was that of the commander of Apollo 11, Neil Armstrong, who announced from his landing craft, called Eagle: "Houston, Tranquility Base here. The Eagle has landed."

Mission Control: "Roger, Tranquility. We copy you on the ground. You got a bunch of guys about to turn blue. We're breathing again. Thanks a lot. Armstrong: "Thank you."

"Two hours later, Armstrong and his companion, Buzz Aldrin, decided to postpone their nap and begin their incredible adventure on the moon's surface early.

Armstrong: "Our reconnaissance at this spot, it's planned EVA (extravehicular activity) moonwalk with your concurrence starting about 7 o'clock this evening. Houston: "We'll give you some time to think about that."

MC: "We've thought about it. We'll support it. We are going at that time."

Armstrong: "Roger."

MC: "You guys are getting prime time TV there."

Aldrin: "That's right. Start. Aldrin beamed to earth a message meant for more than those on the moon."

"This is the LM (Eagle) peering at the Earth. It's a great opportunity to ask every person listening, whoever, wherever and whenever, for a prayer for the success of this mission."

Mrs. Patrick Dool of Seattle gave birth to a son just as Eagle was touching down and named the newborn Neil Armstrong Dool.

Philadelphia's William Richards, a member of the Apollo 11 crew, was going to receive live television coverage. Anchorage with moon.

Having found out, over the years, how shallow and impractical such criticism was when they were the ones doing it out, they should be able to take it for what it is worth now when it happens to come from a Democrat.

The only real difference between a Republican and a Democratic farm policy is that the Republican farm policy is what we have when the Republicans are in power, and vice versa.

Nobody has yet found the gloriously simple solution which keeps suggesting itself to naive souls like writers of editorials—some system for finding a way to use, in an admittedly hungry world, all the food that can be produced.

Executives Resist The Mold "Sensitivity training," according to a Wall Street Journal survey of the cult, is a thing that became fashionable for American industrial leadership about a decade ago.

Another of the results of "sensitivity training" has been to give the executive class a balanced, rational view of life that he has no appetite left for the money rat race, and leaves the very company that has paid for his education in values.

One of the lower ranking associates of another former of a better reality was through him, however, they lost their fear of him and there ensued a wonderful sweetness and light regime in which they all helped him run a successful department because, at last, they dared make a few suggestions to him.

ON THIS EARTH: SOLOMON'S SEAL Nature Study by Sylvia Orfan

Inside Report

Rowland Evans Jr. and Robert D. Novak

WASHINGTON — President Nixon has agreed to an urgent request from American Jewish leaders that he add one secret item to the agenda of his visit to Europe.

Out of 90,000 Jews still in Rumania, some 70,000 will probably go to Israel if permitted. But like most Communist regimes, the regime of Nicolae Ceausescu forbids most foreign travel and almost totally prohibits emigration.

Although the plight of Rumania's Jews is definitely not a legitimate concern of official U.S. foreign policy, American Jews with access to the Nixon White House have been strongly urging that the President bring it up with Ceausescu.

The Israeli embassy in Washington has been discreetly maneuvering toward the same goal, and the request has been relayed to Mr. Nixon through White House aides with ties not to foreign affairs but to the Jewish community.

A plea for the Rumanian Jews by Mr. Nixon could have an impact on the U.S. and the Jewish exodus could be a bargaining point.

Negotiations on the Jewish question between the two sides of state will never be acknowledged. But if Mr. Nixon does succeed, that fact will become instantly known in the American Jewish community, where support for Mr. Nixon has been plentiful until now.

Blackberry season starts here and the whole day long, their dark center and orange-yellow dye giving back the sun's unkind glare.

Midsummer has its white, too: the dingy white of yarrow and the off-white of Queen Anne's lace just now coming into bloom.

The first published acknowledgment that Hanoi has been sending thousands of North Vietnamese soldiers to the front in South Vietnam was discovered by U.S. intelligence in an obscure Communist party newspaper in Hanoi.

The published report, however, makes clear that Hanoi has been selecting its best soldiers to send down the Ho Chi Minh Trail.

Having an abundant reserve, the big rear has provided more and more assistance to the front (in the South) and fulfilled all the needs of the Communist war machine.

Members of the SOS Club, an informal group of Republican Congressmen who meet to talk politics, were scheduled to meet Tuesday when they must have heard (to) Callaway, Republican National Committee member

Worthwhile Experience

2400 youngsters remain in the hands of just a few people, each personal and "inductive" behavior as has been permitted to occur this year will continue.

Today in History Today is Monday, July 21, the 202nd day of 1969. There are 163 days left in the year.

25 Years Ago Miss Ellen McGuire is named superintendent of nurses at Manchester Memorial Hospital.

10 Years Ago The income of the 8th school and Utilities District tax collector is set at \$2,400 for next year.

A Thought for Today Christians should not desire miracles; they should desire God and expect miracles.

I've Had Suffered To the Editor, I would like to add my voice to that of Mr. Kenneth Krivanec, a teacher who has had the courage to condemn publicly the Tolland Board of Education.

Five Years Ago Several hundred Cuban exiles called with police in Washington while trying to march to a meeting of Western Hemisphere foreign ministers.

Sen. Kennedy To Be Charged With Leaving Accident Scene

EDGARTOWN, Mass. (AP) — The police chief of this small resort town on Martha's Vineyard says he is going to court today to swear out a complaint charging Sen. Edward M. Kennedy with leaving the scene of a fatal accident.

The action stems from a western auto accident, Tuesday, July 15, 1969, on the island of Martha's Vineyard. A young woman was killed and Kennedy was charged, though apparently not seriously injured.

Chief Dominic J. Arena said Sunday he is "firmly convinced there was no negligence involved" in the accident.

The mishap occurred between 11 p.m. Friday and 1 a.m. Saturday at the end of the island. Mary Jo Kopechne, 28, of Washington, D.C., was killed when she fell from a boat.

The car skidded off a narrow ledge and landed in the water. Kennedy was charged with leaving the scene of the accident.

Police arrested three boys Saturday and charged them with leaving the scene of the accident. He said the boys were seen in the area.

The 27-year-old Massachusetts Democrat and Massachusetts House member had been at a dinner party at the home of a friend.

Wheat Record Set MELOUBOURNE — Australia's record 1968 wheat crop of 52 million bushels was about half the size of the U.S. crop.

## South Windsor Town Council May Face New Truck Complaint

The Town Council may face complaints of excessive truck traffic from a third area of town when it meets tonight at 8 in the Town Hall. After receiving complaints from groups of citizens in the Miller Rd. area and the Graham Rd. area, tonight's agenda includes an item for a study of the problem.

At the time of the public hearing on the School Board budget this spring the council was reluctant to approve the total figure that the Board of Education had recommended for the fiscal year. The council will be discussing and considering the Board's recommendations for the fiscal year.

PARKER REAL ESTATE 649-4703

MANCHESTER - Six room Cape with garage, beam ceiling and fireplace in living room. Nice secluded yard. On bus line. Owner transferred and anxious. Assumed mortgage, P.T. \$118, H. M. Frechette, Realtor, 647-9993.

ANY IDEAS? What in the world could you do with a spacious ten-room home that looks uniquely like a Scottish Castle? Before you decide, picture this complex—consisting of forty-five acres (more or less) of three living in North Coventry creates a breathtakingly beautiful Skunkagum River. Take into consideration that the property includes a painstakingly re-located Seventeenth Century former grist mill. Don't overlook the fact that your heat and light are generated by a twenty foot overhead water-wheel plus an additional turbine generated power plant. Nocturnal property creates a breathtakingly taking waterfall and frontage on three roads. Oh, and acquaint yourself with the fact that the price includes three Herefords and one calf, (great for keeping high ground) it's all yours for \$125,000. What could you do with it? We could think of four or five excellent uses. If you're inspired, talk it over with us.

Constables Are On Call

At a recent meeting of the Board of Selectmen it was pointed out that many townspeople do not realize that there are a number of constables in the town.

First Selectman Richard Morris said that in any case where the resident state trooper, Robert Peterson, cannot be reached, townspeople could call one of the town constables.

Now serving are Jerome Chermerski, Soledad Rd.; John Garibaldi, Box 101, Rd. 2; Edward Maschole, Bolton Center Rd.; Thomas Carpenter, Hillcrest Rd.; James Hazzett, Birch Mt. Rd.; Donald Pataffano, R. 2, Box 100; and Ernest Wilson, South Rd.

Parents of high school age children who are moving into Bolton High School to make an appointment for registration and scheduling for the coming school year.

High school seniors who are planning on making application to colleges this coming school year are reminded that the guidance office is open during the summer months and are welcome to come in for counseling or to use the college reference service.

Public Nursing A person needing the services of the Public Health Nurse during the summer months may contact the Rockville Public Health Nursing Association at 62 Park Ave., Rockville. This is a toll free call.

The Women's Auxiliary of the Bolton Volunteer Fire Dept. will meet tonight at 8 at the fire house. Members of the refreshment committee are Mrs. Josephine Frasciolo Jr. and Mrs. Albert Giglio.

The Public Building Commission will meet tonight at 8 in the Community Hall fireplace room.

The 20th Anniversary Commemorative Dinner will be held Wednesday at 8 p.m. in the town office. All interested townpeople are urged to attend.

Mancheater Evening Herald Bolton summer correspondents, Dave Smith, and Debra Smith, and Doug Bevis, tel. 648-7200.

Quebec Big Producer

MONTREAL - Quebec leads the Canadian provinces in the manufacture of newspaper, to the tune of \$24 billion a year.

The spending of \$24 billion on any one program, as is the case, is enough to put dollars in the hands of millions of Americans.

But the space program has an increasingly strong case.

The program permit scientists to find the most productive arrangement of many variables.

The "underdog" pinger. This "pinger" powered device was developed to help find lost rockets and capsules, but now is used for plotting ocean currents and the movement of fish.

Utilization of Technology Seen Defense for Space

By JOHN CUNNING AP Business Analyst

NEW YORK (AP)—Temporarily suspended by the Pentagon, the utilization of technology in space defense is the argument about whether or not the program will be resumed.

The spending of \$24 billion on any one program, as is the case, is enough to put dollars in the hands of millions of Americans.

But the space program has an increasingly strong case.

The program permit scientists to find the most productive arrangement of many variables.

The "underdog" pinger. This "pinger" powered device was developed to help find lost rockets and capsules, but now is used for plotting ocean currents and the movement of fish.
