## Here they come!

All it takes is a few warm days and dande lions start popping up everywhere. Your best bet is to be ready with Scotts TURF BUILDER PLUS-2. Put it on when dandelions start to bloom. It penetrates deep down into the roots, and that's the only way to take care of dandelions. Digging or pulling won't help-their roots grow so deep, they'll just grow back again. PLUS-2 also clears out a couple dozen other non-grass weeds. It even fertilizes at the same time, so good grass can take over where the weeds once were. This year be ready for dandelions. Pick up your PLUS-2 now, while it's on sale.
