today in few Latin nations.

Chile, Costa Rica and Venexuela are "showcase" examples—the term once hopefully applied by term once hopefully applied by the U.S. government to those public and Britain's now-indesounds from a matchbox.

in Chile, that country may produce the Western Hemisphere's first freely elected Marcist president The poor and discontent.

The poor and discontent
The poor and discontent ed-the vast majority of Chiles' 10 million people—are pressing for change and Salvador Allende, the Marcist candidate, could emerge as president as a result of the pressure. The election is Sept. 4.

Chile's outgoing president Euardo Frei, a Christian Demperat, embraced the Alliance for Progress combination progressive democracy, U.S. economic aid, and reforms a home. His middle-of-the-road approach during six years in of fice has resulted in some agrarian reform, more schools, and more housing.

Argentina and Brazil, the Lat-

in giants, once were "showcase" countries, too. The conservative military regimes now running both nations promise a return to "authentic democracy". But this seems unlikely soon. Authoritarianism has increased lately as the generals try to maintain order despite the pressure of unemploymen and poverty, along with the rise of urban guerrilla organizations. Censorship, the death penalty for terrorism, state of slege, prohibition of political parties, police torture, rubber-stamp Congress in Brazil, no Congress at all in Argentina—such are frequent news items since 1967 than half Latin America's 25

million people. Ecuador is the most recent switch to authoritarianism. With the support of the military, Presdent Jose Maria Velasco Tharra announced on June 22 that he was assuming supreme power for the rest of his elected term, until 1972. He gave standard reason-to avoid "economic chaos, conspiracies by the oligarchs, and subversion by university students". By becoming "supreme leader". Velasco canceled out oppo-

sition in the Supreme Court and Congress to unpopular proposals to increase taxes, especially or the rich. "We don't have a dictatorshi -we have a revolutionary government that is going to restructure Ecuador's social and economic life", Finance Minister Luis Gomez Izquierdo explained. In a nation of five million, most of them Indians and blacks, the per capita annual in-

come is \$200. Whatever the justification, democracy is losing regularly when pitted against guerrillas, comfortable feeling in nearly every country that the hungry illiterate and jobless masses are bound to explode sooner or lat-"We have to enact a series of

economic reforms or we will have a blood bath resulting from an uprising of the poor", says an army colonel in Peru's military government. "It is simply a question of time...the people now are well aware of injus A tour of the slums which ring Lima adds weight to the colonel's appraisal, Such statement are given frequently to justify

the 1968 overthrow of Preside

Fernando Belaunde Terry, The new military government's innovations include radical agrar ian reform, nationalization of a U.S. oil company, and control over foreign business. Belaunde, elected in 1963 with military endorsement, was another subscriber to Alliance for Progress democracy, along with Frei in Chile, Juan Bosch in the Dominican Republic, Carios Lleras Restrepo in Colombia and others elected in the early and middle '60s. But Belaunus failed to solve the problems of Peru's impoverished and disenfranchised Indians. They total more than half the 131/2 million population. Thousands migrate from the countryside to Lima and other coastal cities i search of nonexistent jobs. Colombian democracy, one also on the showcase list, seem in danger since the April 1

presidential election. The mili-

owers but not rewarded by much pubic attention lately, and one veterans convention, and shake them well together in the mind of a speech writer and document the Vice President delivered in Miami the other day.

In its search for attention for the Vice President, and in its desire to please its audience, the prepared text even went to what used to be called profanity, in other times, as if nothing short of profanity could express what the Vice President thought of some members of the Senate over which he presides.

And in its zeal to deliver a fighting message to fighting men, the Agnew speech seemed to lay down objectives for our military effort in Vietnam which would require us to stay there permaned date, as by the Senate resolution he was attacking, or on any more gradual schedule, such as his President has

President's rhetoric were all for military decisions and outcomes in Vietnam which might be the routine expectation He was not addressing himself to the kind of war that Vietnam seems to have become, after five grinding years of American effort.

The spirit and passion of the Vice

The concluding, climactic paragraphs of the Agnew speech to the Veterans of Foreign Wars deserve quotation, as an example of the kind of oratory we once expected for any war in which our country was engaged.

"Looking down the road to the year 2000," said the Vice President, "we see most Asian nations on the threshold of technological maturity; we see an Asia that contains 60 per cent of all humanity; we see a world in which there are 10 Asians for every American.

"Are the isolationists content to let that Asia go by default to the Communists because they lacked the perseverance to see this through? "Well, we are not, my fellow Ameri-

cans and my fellow veterans-and the President is not-and together we shall see this war through to an honorable end that will do justice to the sacrifices of all our sons. "Have the isolationists considered the

impact of the abandonment of this one ally upon America's other allies around the world? Could any nation put trust in the word of the United States-if we slink home defeated, from the battlefield of Southeast Asia?

"The lessons for nations like Germany and Japan-even India-would be clear: the inescapable conclusion would be that the United States cannot be counted upon in the crunch and nations must depend upon themselves to survive. The nonproliferation treaty would be forgotten as every state rushed to develop its greatest possible deterrent. If collective security is a failure in Vietnam-who will place confidence in it in Europe or the Middle East?"

The first paragraph we quoted raised the "yellow peril." The second paragraph revealed that

we are really fighting for Asia. The third paragraph pledged victory in that fight.

The fourth and fifth paragraphs achieved the remarkable feat of defining our unilateral intervention Southeast Asia, outside the Southeast Asia Treaty Organization and outside the United Nations, as a sample of "col-

lective security." All this, as we observed at the beginning, could occur only in certain special oratorical circumstances.

We'll Still Take Deborah Somehow we have always suspecte hat "Anna" of "Anna And The King O Siam" was not quite like Irene unne, Deborah Kerr or Gertrude Law

Yul Brynner, as King Mongkut, who always more believable, and so far as we are concerned, withstands the irreverent ebunking recently done by one Ian Grimble, a Scottish historian who has authored a B.B.C. program purporting to give the true, unglamorized fact about

Instead of being Irene Dunne, Deborah Kerr, or Gertrude Lawrence, says Historian Grimble, "Anna" was really a squalid little girl, one of those awful lite English governesses, a sex-starved

Instead of being a broad-minded lovely who brought enlightenment into the dark seraglios of the East, "Anna" was herself a fountain of racial and religious

So the debunking goes. As we say, we always thought "Anna"

a little too good to be true. But the more we dwell upon the possibility that she may really have been an impossible little snip, the more we think we will exercise our option, if we still have one, to stay with the movie, the nusic, those delightful little children marching, and, if we must make our

All The Way Over the next several years the Federal Government is sure to get more deeply involved in the nation's railroads. There will be pressures for more fi-

bor and regulatory problems, probably take-over of a lot of passenger service. Since the trend is so evident, the question increasingly arises: Why not go all the way and nationalize the railroads? Among major nations only the United States has left its railroads entirely to private enterprise. (Neighboring Canada compromises with one major system run by the government and another by As critics of .US. railroads are fond o

run by the government and another by States has left its railroads entirely As critics of U.S. railroads are fond of inting out, too, the service provided by ationalized foreign roads is in some ways superior to that in the U.S. The emphasis here, naturally, is on passenger ance has been notably dismal. Before the U.S. starts to emulate oth er nations, though, several factors de-

ber of ways the problem of running this nation's railroads is unique. ubles it is still the world's largest, in of the Soviet Union still the world's haps be reminded that Russia ger trains average less than 25 miles an

serve serious consideration. In a num-

U.S. railroads, moreover, face vastly more competition than the rail industries of other nations. One indication of that is the fact that Americans operate about half of all the world's trucks and

The U.S. management task thus is coossal, and no one is claiming that the American railroads have always han dled it magnificently. Yet the Government also has shared in rail manage ment through its regulatory actions and in other ways, and its record isn't exacty brilliant either.

When it comes to approving changes in rates, routes and operation, the Fed eral regulators long have shown a preection toward rigidity. Delay is the order of the day, as statutes require engthy hearings and provide for almost endless court appeals. The Federal regulator-managers thus deny the industry the flexibility that any enterprise, pri vate or governmental, needs to adjust to

ernment has provided the industry with achinery that does not forestall or setdisputes but instead almost insures that they will be frequent and serious Among other things the laws require the railroads to negotiate separately with more than a score of unions, some of which are always trying to outdo the oth-

The reasons why the Government is reluctant to allow railroad change, and seemingly eager to aid the unions, are naturally political. Every time the rail oads want to alter rates or service, the Government faces pressures from a or others. When the labor relations machinery suffers one of its recurring collapses, the usual result lately has been for the Government to settle the dispute on something close to the union's terms. Even if the Government could get over ed to finance a take-over on any reasonable basis, there's little reason to suspect that it would be any more efficient as a full-time manager than it had been as a hybrid regulator-manager. The

If there is any hope for the railroads, lies in less political interference in their operations, not more of the same. The whole regulatory setup, which has had so much to do with the railroads' decline, is long overdue for drastic scalingdown. The Railway Labor Act should simply be scrapped, so that the Government would at least handle the railroads labor affairs the same way it does those

of other industries. The nation does need railroad services, and in some cases this is going to require rederal financial help. Where it's provided, of course, the Government has every right to insist on responsible performance-by management and by labor

If everyone can somehow get togethe the situation may yet be retrieved. they can't, the Government will have no alternative except to go all the way. -WALL STREET JOURNAL

Kamikaze Disappointed That He Survived War

By ROBERT LIU

Associated Press Writer

TORYO (AP) — Sei Watanabe survived World War II. By kamikaze standards, he was an insuccessful pilot.

The kamikaze—Japanese for "divine wind"—was first used extensively at Leyte Gulf in October 1944 when U.S. naval forces mauled a Japanese fleet. By the time the war ended about 4.300 airmen had died in

misuccessful pilot.

He was to crash a bomb-laden the suicidal missions.

The squadron's actual effectiveness before he could carry out ed.

the assignment.

Recalling the reprieve on life he received 25 years ago this month, Watanabe told an interviewer: "I cried and felt hurt. I was deprived of death. . . . It's still hard for Americans to understand the kamikase. But to "We were shocked and stunned and many cried," Waus, at the time, a suicide air stunned and many cried," Wa-force was a very natural thing, tanabe recalled, "We had pre-

Book Review

sexual problems are only symp tomatic of something else, and professional help is needed to ure the basic problem."

"We wrote the book," said her tall, distinguished looking com-panion, "to remedy what Masand Johnson say is the most frequent cause of sexual dysfunction—lack of knowledge. "The book won't replace the Masters' and Johnson's texts," Fred Belliveau continued, "But we feel that all married couples, even if they have a good sexual relationship, can gain some-thing from it."

Belliveau, general manager of Little, Brown Co.'s medical diviponse" and "Human Sexual Inlequacy," Masters' and John son's two ponderous medical texts that became best sellers. Now, he and Lin Richter nedical division editor, have produced a readable, informa-tive "translation" of the sexologists' texts: "Understanding Iuman Sexual Inadequacy." Written at the request of Dr. William Masters and Mrs. Virginia Johnson, the 256-page paperback describes the sexologists' background, research, findings and two week therapy

The book, say Masters and Johnson in the foreward, brings reassurance to the great number of people in this country who suffer from sexual lysfunction (a term used to describe an sexual problem)...It supplies information which re-flects established sexual fact rather than myth or misconcepto achieve a new level of understanding about sex and to lead happier lives."
The Belliveau-Richter "trans-

program at their St. Louis foun-

lation" describes how both men and women react physically, psychologically and emotionally during sexual intercourse; details the main problems that Masters and Johnson encounsex, and explains how the sexowith a 75 to 80 per cent success

mate that perhaps 50 per cent American marriages have serious sexual problems or are on the verge of having them," Mrs. tichter said. "Women in particular suffer from these hangups. "Sex," she continued, "can be onsidered honorable or dishonorable, beautiful or dirty. From been taught that sex is okay for boys, but that nice girls don't do

not, she's forcing herself to turn off years-long training. "Masters and Johnson are saying that women should be allowed to honor their sexuality

that sort of thing. So when she

begins to have sex, married or

It's not women alone who suffer from sexual inadequacies and fears, Belliveau added, explaining that repressive parents, fear-inspiring religious ta-boos and unpleasant early sex-ual experiences often make men sexually dysfunctional.

'No matter which partner has the problem to begin with," Belliveau explains, "Masters and Johnson treat both the man and the woman, because sexual tensions are bound to affect the marriage adversely. The therapists' goal is to convince the couple that sex is a natural, pleasurable experience, that they will get pleasure by giving it, and that all they have to do is

Listening to Belliveau and Mrs. Richter talk is almost like hearing the experts themselves. "We've been reading medical texts for so many years that Masters' and Johnson work is second nature to us," said Mrs. Richter. "What's difficult for the general public are medical words, which to us are working

Now that they've written book on "sex" how do family and friends react? "It's too soon to tell," said Mrs. Richter of her friends, noting that the book had just been published. "My husband is a

doctor and he was very help-

"My wife," said Beelliveau, 'was very enthusitatic about the need for such a book. My children (age 12 and 15) are very sophisticated. I've read a lot of the book aloud. Like any kids they made jokes, but all in all they have a good sense of sex in

BABY, IT'S COLD INSIDE. By S. J. Perelman. Simon & Schuster. \$6.50. Somehow the veteran jester Perelman keeps spinning out his yarns about wacky people (in-cluding himself) for year after

year. This book is a collection of 32 magazine pieces of recent years, tuned to the aberrations of the so-called human race. He loves the offbest anecdote. Often it is a tale of the theater or the films; some of the narratives are about sgage concoc-tions with which he was assoclated, often with disastrous results; others reflect, with ludicrous effects, his experiences in

He also is a wanderer who the studied insolence of English makes games of his own down- clerks, salesmen, waiters and

falls as a tourist. For examples, other service personnel.

PZC Moves to Prevent Clusters of Gas Stations

Commission (PZC) agreed Mon. of professional training in the First Selectman Charles Thi-day night to amend the present field of education at the Univer-sity of Connecticut. Town Hall. commercial zone regulations, He has studied one year be- The Membership Committee

The additional section is designed to prevent the growing clusters of gas stations on Also included in the proposed section is a requirement that no gas station be located within 1,-

000 feet of a lot used or reserved for any public or parochial school, hospital, church, public library, playground park or forbid a gasoline company from opening or building a new sta-

tion in town if it has an exist-

The existing regulations regarding lot size, building requirements, etc., will continue to come under the present commercial regulations. Gas stations are not permitted in any zone except com-

The proposed regulations were modeled after the town of Enfield's and were the object of research by PZC member Douglas Prior following a discussion of the ratio of gas stations to population in town at present. A public hearing on the mended regulations will be

each 615 residents is out of proportion to the average throughout the state.

The PZC also reviewed building plans for the Gas Towne station proposed for the corner of Rt. 195 and Goose Lane, a location already approved the Zoning Board of Appeals. Several revisions will have to be made on the plans as submitted including increasing the lot size to meet the town's

dnimum 40,000 square feet. The building setback line has o be moved back to meet the 5 feet from the property lin quirement, and the well must moved further away from the septic tank to meet state

e required. The company has rovided contour maps of the operty, and has indicated here it will install several catch basins and curtain drains prevent water runoff from entering neighboring property. The PZC also discussed the need for some type of planning for the town's growth, after nottics showing Tolland to be the second fastest-growing town in the state, during the past

They referred to neighboring Coventry's full time governmental employes while the town is only slightly larger with about 8,200 residents compared to Tolland's 7.844.

Although it was generally greed any plan to be success ful will have to involve the general community, no agreements were reached on what actions to take.

actions to take.

The next meeting of the Planning and Zoning Commission will be held Aug. 31.

Cong Troops **Near Capital** Of Cambodia

VOL. LXXXIX, NO. 273

For The Week Ended August 15, 1970

PHNOM PENH, Cambodia (AP) — Heavily armed Viet Cong and North Vietnamese orces overran the Cambodian defenders of a village nine miles from Phnom Penh today and pushed to within six miles of the Air strikes continued as an estimated three enemy battalions pushed southward from the vilage of Prek Tameak, which is ortheast of the capital and on he other side of the Mekong

One reinforced Cambodian battalion was reported holding out on the Prek Tameak side of he river. A spokesman in Phnom Penh said fighting was continuing at Prek Tameak with neavy casualties on both sides. But newsmen who drove to point across the river from the llage found everything quiet. Proops in the area said arge number of Cambodian solliers left Prek Tameak by boat Wednesday night, taking their wounded with them. Cambodian nd South Vietnamese gunboats were positioned on the river to provide covering fire during the

At least two villagers were wounded during the night by what they said was unprovoked fire from the gunboats, but a Cambodian captain on the scene said the villagers were hit by Viet Cong fire from across the river, which at that point is nearly a mile wide. The Cambodian command has ong feared enemy attempts to ands just across the river from Phnom Penh. From there they

cure positions in the wooded could harass the capital with rocket and mortar fire. In Saigon, the U.S. Command vould neither confirm nor deny that American bombers were supporting the Cambodians. An American spokesman said "in-Cambodia every day, but "we don't discuss specific locations

The attack followed an enemy probe that South Vietnamese gunboats and Cambodian fighter-bombers repulsed. The Cambodian spokesman said the enemy troops were equipped with heavy weapons and their "plan s to punch through the Phnom By THE ASSOCIATED PRESS Penh defenses."
