Wednesday, December 16

Night The Press Looked Sad The longer the President denies the press a press conference, and the more he press howls about how badly it and he country needs one, the less the press

form, when he finally held his first press why he ever bothered to evade the press, since he handled it so easily.

The press, on the other hand, looked terrible, until one wondered why in the world it had ever been so anxious to have a press conference. Considering its performance, never again would be soon

The main trouble with the press, as it functions in a Presidential press conference is that it is, after all, human. Collectively, when it gathers for such

lows, has as his or her goal the vision of

craft - the one who ties the President

up into the greatest embarrassment with the best lariat of a question. With the press in such a mood, and the President aware of the mood, the press conference becomes a matter of points scored by one side or the other, not a matter of what information or points of view may be elicited by the questioning

The other night the score was, as we said, all in favor of the President. But that didn't make it a good press conference, either for him, or for the

The remedy? Although, on its performance the other night, the press didn't seem capable of deserving anything, the truth is, we think, that the main reason the press did so poorly was

that the occasion was indeed so extra-The useful Presidential press conference, as it flowered best under Presidents Eisenhower and Kennedy, was a fairly regular happening, in which neither side felt under any particular pressure to score points, and in which both

sides conducted themselves as if their business was to talk significant information and opinion out into the open. The other night, the President was well prepared for a nothing evening, but

the press was as up-tight as if it had never been to a press conference be-The truly welcome development would

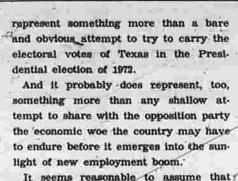

be for both sides to adjust their press conference attitudes, the President away from his alternation of defensiveness with attempted use of the forum as afrom its feeling that it can somehow justify its own existence and privilege by roughing up the President.

In any development of a plan for improvement, the President himself, and his willingness to cooperate ,would inevitably hold some responsibility. But we hate to think that the American press can't find, within itself, the talent and the intelligence to institute, if given a chance, some better form and mood of

A New New Nixon?

President Nixon continues to make different, but not particularly pleasing kind of commotion with his reshuffling of his official family.

The selection of former Governor John B. Connally, Jr., of Texas, to be his new

President Nixon has selected a Democrat to be a member of his Cabinet not specifically to win Texas, not specifically to share the recession, but as a part of a broader change of mood in which he is going to try to make the voters of the country forget that relapse into "the old Nixon" which finished the 1970 cam-

Since it is assuredly no crime to move veiling itself as the President's main direction may be more pleasing and impressive in the whole picture than it is in some of its separate panels.

So far as the country knows, former Governor Connally was not even a very mpressive Democrat, let alone experi on financial and economic matters. If being able to appoint him is, how-

ever, something the President feels he needs in the process of setting up a less partisan approach to the great problems would enclose and purify the Connally appointment instead of leaving it stand-

hundreds of miles from land. Yet from some source - perhaps see

source of the particular pills which have now been withdrawn from the market came from seals which had been killed back in 1964, before our scientists had really swung into the business of discovering and tracing health perils inside the very processes of nature itself,

In other words, for six years some Americans have been consuming poison in the particular form of mercury without anybody, even the scientists, being aware of the danger. That is only one poison of the several

poisons now discovered lurking in our Furthermore, one can assume that, in addition to such poisons as have already been denounced, there must be many

other dangers we are all consuming day get around to them in time. One begins to wonder, occasionally, as this net of consumer's peril keeps closing in on us, what we are all going

left with, for free and carefree sustenance, after our scientific sleuths get through with the business of tracing-? down all the dangers which either exist in nature itself or have been introduced into nature by the practices of modern technological urban man.

One has to imagine that we will all be type of pill, guaranteed safe by all the p scientists of the world.

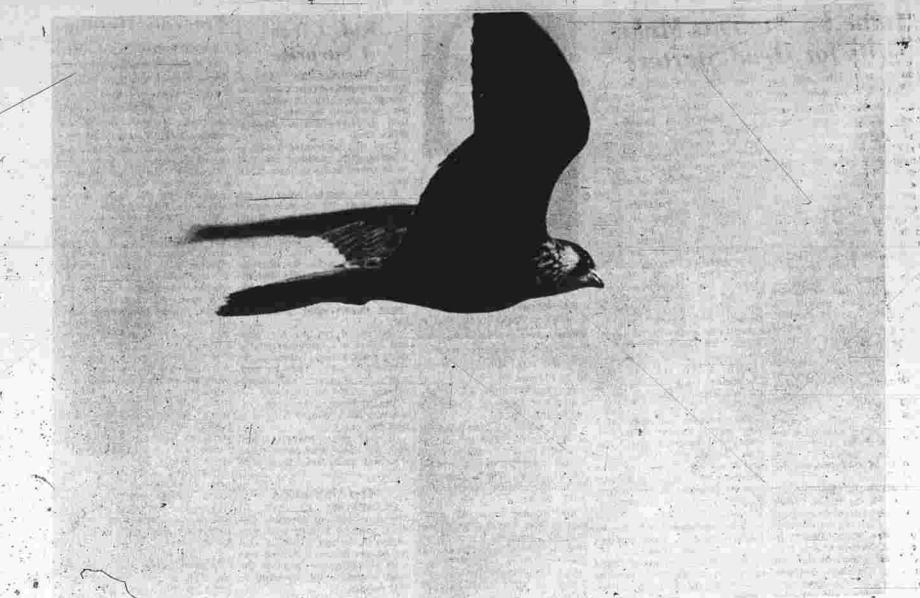

The net result will probably be that ve all live about the same length of time, but enjoy it a lot less.

Shadow Of Autumns Past It has been an awkward autumn, in a

With the new bans on leaf-burning i almost every community, it is eary drivng about in the countryside (which is ically omnipresent in this corner of the world). The acrid funnels of black smoke which were once the inevitable hadow following upon the brilliant foliage displays — these are no more. Of course, there was a certain unneighborliness in mounding your leaves neighbor's homestead.

But there was a neighborliness too, in getting out, tending one's fires absently rom the middle of the street, meeting a neighbor halfway to chat about the fal Somehow, the new practice of raking leaves into a long curbeide row, so the

term "full employment" is in vogue with today's economic seers and policymakers. But the magic words don't always mean what they seem to say.

For example, an avowed goal of President Nixon's economic of President Nixon's economic policy is full employment by the middle of 1972.

When John F. Kennedy took of the first of the fir

per cent of the labor force. That would still leave at least 3.3 million people jobless. The President's Council of Economic Advisers has posted a slightly lower percentage. Its mentioned 3.8 per cent as being a rate consistent with maximum

Yet council Chairman Paul W. McCracken told questioners he thinks of 4 per cent as "the midpoint of a full employment zone." Other officials acknowl edge that anything up to 4.5 per cent-and maybe a little more -would be a reasonable goal for mid-1972. And that would represent a

solid gain, because many expect the rate to climb above 6 per cent in 1971 before it starts down. Few think it will get as low as 5 per cent anytime next The term full employment be

came embedded in the language during the Great Depression of the 1980s, when it was a ple-inthe-sky target of the Roosevelt The definition was vague, but it was achieved in World War II. Over-achieved, in fact, b cause the wartime labor shortage was as acute as the tire of

... peak of

meat shortage.

homefront effort In many respects the country's war production effort was mited by lack of labor, Even nemployment in 1944, the year of peak homefront effort. This was less than what the experts call normal "frictional" employment, Frictional un employment represents new-comers to the labor force who haven't yet found work, workers who quit to hunt another job some who were laid off but hope to be called back; others who are idle because of weather, or who are waiting for a call to work from a cannery, lumber mill or other seasonal or spo-

radic employer.

A quarter-century ago it was generally assumed that the frictionally unemployed—plus those who couldn't get work because of illiteracy, instability or other handicaps—would add up to 2 or 1% per cent of the labor force. So Washington's wartime nanpower experts, when they cooked beyond the expected mate era of peace and prosperity, were thinking of full employment in terms of perhaps 2½
per cent unemployed.
To bring it about, Congress
debated passage of the "Full
Employment Act." Its basic dea was to commit the national government to devise and pur-

. . . report to set forth policies

The act was passed in 1946. It created the Council of Economic Advisers and the Joint Economic Committee of Congress, and it required the president to send an annual Economic Report to Congress setting forth policies to achieve the law's aims. But the word "full" Act of 1946. It committed th government to promote "maxi mum" employment, production and purchasing power. It did not define maximum. After the war, industry raced

to satisfy the pent-up civi demand released after years of millions of war plant workers and demobilized servicemen were hired swiftly. The dreaded postwar depression never came. But neither did full employment. The 2.5 per cent rate was achieved in only one postwar year, 1953, and that was the result of an economy overheat by the Korean War.

That year also saw the st of a recession which boosted u MIRRO ELECTRIC mployment in 1954 to an aver SKILLETS ge 5 per cent. It was the firs three recessions whi

of President Nixon's economic policy is full employment by mid-1972. Yet some of his advisers admit they'd be reasonably fixed the "full employment" goal interim objective balance the "full employment budget" for fiscal 1972, starting next July 1. He may do that, but he could still have a real, financial deficit of \$10 or \$12 billion. What does full employment mean, then?

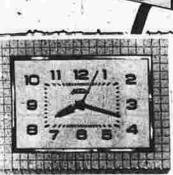

In economic theory, the real deficit would be desirable because of this long to which averaged 3.5 per cent in November, partly because of the verbecause of the feneral Motors strike. About 4.5 deficit would be desirable because of his long was fired because of his long and profits, and thus would help by the middle of 1972 would require giant strides in production for the next 18 months—gains of the levels of 1972 would require giant strides in production for the next 18 months—gains of the levels of 1972 would require giant strides in production for the next 18 months—gains of 1972 would require giant strides in production for the next 18 months—gains of 1972 would require giant strides in production for the next 18 months—gains of 1972 would require giant strides in production for the next 18 months—gains of 1972 would require giant strides in production for the next 18 months—gains of 1972 would require giant strides in production for the next 18 months—gains of 1972 would require giant strides in production for the next 18 months—gains of 1972 would require giant strides in production for the next 18 months—gains of 1972 would require giant strides in production for the next 18 months—gains of 1972 would require giant strides in production for the next 18 months—gains of 1972 would require giant strides in production for the next 18 months—gains of 1972 would require giant strides in production for the next 18 months—gains of 1972 would require giant strides in production for the next 18 months—gains of 1972 would require giant strides in production for the next 18 months—gains of 1972 would require giant strides in production for the ne

"WHERE IT'S FUN TO BROWSE"

Picks Projects For Funding

The Coventry Junior Women's Club has voted to support a Coventry High School Scholarship Award, the Student Loan Fund, the Booth - Dimock Library and the Mansfield Training School's Camp Coventry with the funds earned by the club this year, according to an announcement by Mrs. Robert Lazarri, president of the organization.

A \$50 donation has also been given to Coventry FISH to be used to pay for its answering service.

Notepaper featuring scenes of Coventry is being sold as a fund - raising project by club

St. in Willimantic.

Homecoming Festivities

The Boosters Club will hold a potluck dinner and a basketball game on Homecoming night, Dec. 29, at the high school and the public is being invited.

The event is being invited.

The dinner will be served in the cafeteria from 5 to 7 p.m. and the players and alumni and the introduced by Ronald Badsteubner, high school coach.

A game between the alumni and the varsity will begin at 7:30, and there is no cost for the evening function.

Debate on Judiciary

damage to follow would subject him to indictment under the fed-

eral anti-riot statute used said William Buckley, "if you can't persuade existing mechanisms of justice to attend to my serious grievances then I will ke power in my own hands, this is an invitation to auority to put him in jail ..." Kunstler, defense attorney f he Chicago Seven, cited fo

e court, and William Buckley e articulate conservative pokesman and columnist rossed verbal swords in a re ent debate at the University It ended as it had begun, with both separated by a philosophi-cal gulf wider than the span of

story they used to emphasiz Kunstler, again relying on Je sus, "He said, 'think not I have ome to destroy the law but to fulfill it.' And I would like to take the thought that Jesus was that his idea was not merely to destroy a system, but to make the system do what it was meant to do and was no

state that I would say the system has to be destroyed : . . The question is . . . can the Ameri can judicial system create any aspect of justice for all its city zens. The answer is no. It has not and perhaps it cannot." Kunstler said equal justice be fore the law is one of the most profound myths of American ife and he charged that justice is blind to the nation's many

is at fault," Kunstler said. " would guess that any white, middle class person with sufficient bankroll can probably get an approximation of justice. "But all you have to do ange the character of the de Make him or hor Panther or Weatherman and a whole new pattern emerges. That's what we saw in Chicago," where he said govent had determined to c vict men who represented cross-section of the America

America is seeing, said Kun-stler, "the beginning of the use oft he court system as an instru ment of political oppression. He proposed changes for the court system, including permit ting a defendant the right to disjualify judges, the use of young people as volunteer jurors and giving a defendant access to all the assets of the state he need

to prepare a defense. Taking up the call for reform Buckley said the first reform he would make would be to disbar Kunstler. "We have to disbar him or repeal the code of ethic for lawyers in this state," he

"Mr. Kunstler is not prepared to take the total abrogation of lawissnessw hich is required lawlessness which is required Buckley claimed the judicial process in the country was mov ng towards a standstill. This would please Mr. Ku stler enormously," he said, "be cause his definition of justice i acquittal of everybody who i lieves in the same politics he be

lieves in." Buckley argued that recen Supreme Court decisions has made it difficult for the judicia system to operate as it should. "What has happened during the past 10 to 15 years is that there has been a systemati elaboration of rights which series of jurists—the majority of the Supreme Court—have foun to reside latently in the lar guage of the Bill of Rights.

Nine years ago they discovered the principle . . . in which it is held that the evidence that points to the guilt of a particuar defendant cannot be used in a trial if it is seized without "Or we have ..., a conviction

overturned because a particular defendant did not have access to a lawyer at the moment whe he desired access to a lawyer. The Supreme Court also ruled, Buckley commented "that somebody held for questioning may not waive his rights to refuse to answer questions of to have the advice of a lawyer unless he waived that right

"It is generally conceded no lawyer worth his salt would permit anybody being ques tioned to say anything if there is any possibility of his guilt," h

Kunstler replied to Buckley's Supreme Court allegations by saying the rights Buckley claimed were discovered only iately have been there all along.
"This was the right I thought
the colonials were pretty much pset about. One of their

feel now about the hectic two years that inded with a personal dismissa by the President? A-Men sometimes think to themselves 'If I ever get there. this is what I'll do,' but so often when they get there, they really lose the reason why they wanted to get there. I never lost that reason. I made up my mind I would change certain things. This is want I did. And that's why I feel so fre as I leave, because I have noth-

ing to apologize for Q-After you were fired, you wondered out loud why President had hired you in the first place; did he give you any idea, in the beginning, what he wanted you to do? A-Ne, not at that time. His statement when he introduced me was that he wanted me to

bring vision and a new ap-proact to Interior, and that's exactly what I was trying to do. I was carrying out what I thought was not only my viewpoint but that of the administrad. and at no time was I ever enticized by the President for tiose many controversial ac tons, or for any direction I too en pollution and the enviro

Q-You mean while you were secretary, the President was oc casionally saying: "You'r doing a good job"? A-Yes, Especially on en ronment and pollution matter Q-Then how do you accoun for the strained relationship that developed between you ar the White House? A-Any man in the Wh

House with those burdenso responsibilities can only react in the way the input gets to him. Any reaction I had from the President was always on a positive, imaginative basis for solving problems. He'd light up when I'd talk to him about program proposals, like my 20-year financing plan for municipa waste-treatment construction but that's one of the programs I lost, and I think I lost it because I never talked to the President directly again about it. I think it was lost at the staff level. Q-But you seemed to have trouble getting to the President. You once said if you could have talked with him or his aid John Ehrlichman, for five mir utes, you would not have had to write your famous May 6 letter Was that a frequent problem? A-I had never pushed as hard as I did that day. But it was more an isolation of thought than an isolation of indiiduals. It was really an attitude. I think men who try too hard for a job have to compromise too many things, I came totally free. I came to do a job, not to get a job; to do a job for 200 million Americans . . If you capture that intenyou've got Wally Hickel's approach to the problems.

He Was Isolated

In departmental things far beyond necessity. I think they publican political campaign make them bad men. But if the system gets good things to talk about that they campaign make it impossible to solve some of the enormous problems with the warf and president Nixon.

Economic Stamps In the News

By BILL NEIKIRK

WASHINGTON (AP) —With industrial production taking a fourth straight monthly filled, signs of a hoped-for economic upturn continue to clude the Nixon administration.

The six-tenths of one per cent decline in the key economic findicator in November came despite settlement of the United Auto Workers' strike against General Motors.

While the drop was not as severe as October's decline during the height of the strike, it still reflected a lag in the economy. The Police proposed Tuesday a new salary schedule that would increase troopers' pay to \$15,000 a year in their third year of service.

By SYD KRONISH

Histartions on post age condication of the New York State Police Inc. disclosed its 1971 continued to the spite settlement of the United Auto Workers' strike against General Motors.

While the drop was not as severe as miniature was an also serve as miniature and way of life of people for further of the strike, it still reflected a lag in the seconomy. The Poloce Benevoted 1,484 votes and way of life of people for further of the strike, it still reflected a lag in the seconomy. The Federal Reserve Board Tuesday attributed most of the further its still reflected a lag in the seconomy. The Federal Reserve Board and way of life of people for the drop to a slack of output in busslaness and defense equipment and industrial materials.

ALL ABOUT PINEHURST FRESH PORK

our meat manager, George Neal has selected as the budget buy of the week. . . . Good Housekeeping Budget cook book says that FRESH PORK - thanks to modern scientific breeding, and closer trimming by meat packers and retailers, you now get more edible fresh pork per pound, more protein and less fat. Good Housekeeping says that recent research with fresh pork loins has resulted in the recommendation that they be roasted to 170 degrees F on your meat thermometer. Bake, uncovered 30 to 35 min. per lb. Plan on a 15 minute rest period (out of the oven) for easier slicing.

A revolutionary new valve manufactured by

Morland Products Inc., 1414 Tolland Tpke., has won top honors for excellence in design and concept in a national competition of the chemical process indus-The local firm's patented

lected for top honors in its class in the 1970 John C. Vaaler Awards competi-Moriand's award was in the category of "process valves" — the type used by the food industry and others which must maintain high standards of cleanliness.

"Morland Valve," was se-

The blennial Vaaler awards, started in 1964, are named for the late John C. Vaaler, who was editor of "Chemical Processing," a leading publication for the industry. Thirty top awards for developments in various cate-

gories and 45 runner-up awards were made this year by a panel of judges representing the giants in the industry, such as Du Pont, Stauffer Chemical, Unon Carbide, American Cyanamid, Monsanto and others. The Vaaler award, a stainless steel plaque on walnut, has been placed in the foyer at Morland Products. It cites the valve as "a major contribution toward more efficient and effective operation of plants in the Only Four Parts

The beauty of the Teflon-lined, Morland Valve, according t Charles D. Ward, president o the company, is its simplicity. Unlike the more complex ver-sions of its competitors, the valve consists of only four parts: A body, plug, bonnet and handle. This means that it can be easily and quickly disassembled, cleaned and reassembled in food processing and other applications where absolute cleanlines is a must.

The valve, for example, widely used by Eastman Kodak in film emulsion processing, Ward pointed out. The gelatinfor bacteria, and if not kept

with food prices going up all the time, it's hard to find the extra money. I should say it was hard. Because I did my grocery shopping twice at Stop & Shop on October 29, and I learned how to save. First I bought all the famous national brands I'm used to. The bill came to \$28.14. With four children, it mounts up in a hurry. But then I went back and bought the same items, only this time they were Stop & Shop's own brands. You can imagine how I felt when I saw the cash register tape, this time the bill was only \$22.25! I saved \$5.89. That goes a long way toward my hairdresser.

By the way, my family loved the Stop & Shop foods. My Chris, who's four, says he could eat peanut butter and jelly sandwiches for breakfast, if I'd let him. And he gobbled up Stop & Shop peanut butter."

Tate Trial Is Delayed To Monday

LOS ANGELES (AP) - The six-month old Sharon Tate murder trial has been delayed again, until Monday when a new attorney in the case says he'll make a mistrial motion in behalf of defendant Leslie Van

"If the mistrial is denied, we will go forward with final arguments," said the lawyer, Maxwell Keith, whose 11th hour entry in the trial came with the isappearance of defense attorney Ronald Hughes. Subbing for Hughes, Keith

had to catch up on 18,000 pages of transcript in the complex trial, and he said Tuesday he hasn't finished. He met with attorneys and prosecutors in the judge's chambers. "I've read only things which pertain to Miss Van Houten," said Keith. He refused to state

the grounds for the mistrial mo-The veteran criminal attorney ruled out the possibility he would reopen Miss Van Houten's defense and call witnesses. "I don't intend to reopen unless Miss Van Houten suddenly decides she wants to," said Keith. "... I don't know what her state of mind will be or

haired brunette, is on trial with Charles Manson, 36, and two other women members of his hippie style "family." Attorneys for the four rested their case without calling any witnesses. Then Hughes vanished while on a Thanksgiving weekend trip to rugged Sespe Hot Springs in Ventura County north of Los Angeles, stalling the trial.

Meanwhile, a grand jury
hearing related to the Tate trial enters its third day today. The state is seeking murder indictments against Manson and at least two members of his family for the alleged killing of Donald J. "Shorty" Shea, a ranchhand and a stuntman who

vanished in August 1969. Police did extensive digging at the Spahn Ranch where Shea lived at the same time the Manson Family occupied it. No body was uncovered. At Tuesday's session, ranch owner George Spahn and sev-

eral young former family mem-bers testified. Six long-haired girls — still loyal to Manson and regularly stationed them-selves outside the Hall of Justice where the trial is held waited outside the grand jury hearing room all day. One blonde flashed a handlettered sign at arriving wit-nesses. It said: "Judas Day-A Snitch in Nine."

CROSS RIB

ow" (1966), which was about Morris in 1948, when he was 13. This time Morris is a high

Thus there is a full portrait of youngster growing up in a dete-riorating neighborhood in Cleveland; he is full of adolescent problems, wishes and hopes. In the present volume Morris is concerned mostly with sex, trying vainly to make out with his girl friend Julie, and with basketball—he is a second stringer on the high school

Morris gets to be a starter in a basketball game and performs heroically. But meanwhile he is engulfed in a bigger game, a fight against a deadly disease. This book can stand alone as a separate novel, in case the reader has not seen the earlier two, but there also is a cumulative effect in this third narra-

catching the nuances of young life, expressing them in a gruff-ly flippant style, mixed with wry pathos, all wrapped up in a ostalgic reflection of a yesterday we may have forgotten. Miles A. Smith

THE MAN IN THE SYCA-**TORE TREE: The Good Times** and Hard Life of Thomas Mer-

Rice's contribution to the story of Thomas Merton's odyssey through life is in the form of a memoir, laced with a great var-iety of photographs. The author is a writer and photographer who was a personal friend of Merton from his college days. Someday when the blograhers have sorted out the many acets of Merton's intellectual spiritual and philosophical life, it is to be hoped that they will take into account the persons intimate and private life of the man, which in part has been re-

corded by Rice. The author's portrait docunents the fact that Merton was a_real ·swinger in his youth, quixotic figure who flirted with ommunism, was converted to Catholicism, became a Trappis monk, who wrote poetry, essays and biographies and found fame or his autobiographical work "The Seven Storey Mountain",

There is enough of a biograph-ical outline in this work to give the reader an understanding of Merton's feelings on questions of war, race and social structure; Rice quotes often from Merton's writings to show how he probed intellectually into religion and philosophy. Yet the chief value of this book is that is

THE MODERN WORLD, Edited by Richard B. Morris and Graham W. Irwin, Harper & Row.

One of the sadder aspects of inflation as it impinges on the arts is the impact on reference works, which already tend to become expensive. Alas, the same inflation, with differences, affects art works, tickets for dramatic and musical events, even admission to museums. Harper & Row, in a growing series of encyclopedias, has hit upon an ingeniously conceived format to limit space to one volume, thereby reducing costs, believe it or not, yet providing a fair amount of information. The same method was used admirably earlier this year in "The Encyclopedia Of Military History," by the Dupuys, father and son. Now it is continued in "Harper Encyclopedia Of the Modern World", edited by Rich-

Irwin,
It follows an even earlier pattern set by Dr. Morris back in 1963 when he brought out his "Encyclopedia of American History", also published by Harper

To increase readability, the current volume arranges events from beginning to end chronologically, for those who want to spend the winter evenings in a survey of man in modern times by pursuing the story consecu-

oook encyclopedically, or alpha-betically are provided with an extensive index. But whereas the index for the American story was under 50 pages, the world survey has an index of more than 200.

Morris, an American, and Irwin, an Australian, are professors at Columbia University. They treat topically and chronologically, political, the main military, social, and cultural

Divorce Rate Growing Among Couples Over 45

Ey JUDY ROSENFIELD
Louisville Times Staff Writer

LOUISVILLE, Ky. (AP)

The seven-year tich, traditionally a scapegeat in the story of our climbing divorce rate, may have to share top billing with a new culprit—the 20-year slump.
In 1965, nearly one-fourth of all persons filing for divorce in the United States had been married for 15 years or more.

And although current local figures aren't available, experts here seem to agree that the number of divorces among peodom.

Why, after enduring 15 or 20 cy people have as many adult years, does a marriage look back on at that age. By "Even physical divorce beween husband and wife without

MANCHESTER — New custom ings of the Town of Andover, built 7-room Raised Ranch. Connecticut, are hereby notified Three or four bedrooms, large that a Special Town Meeting cathedral ceiling living room, will be held at the Andover Ele-two fireplaces, two baths, mentary School, Andover, on

Leon Palmer, John C. Hutchinson, Board of Selectmen 'The Village' Has Something for All

Treehouses are for play and study.

Artists attract more attention than customers.

Many of the Village's youthful musicians play for one member solicits for funds. The police, however, a cash. Here, as the band plays in the background,

NEW YORK (AP) - The Indians called it Sapokanikan. The Dutch who pushed the Indians out early in the 17th century retained the Indian name. The English who moved in in 1664 called it Greenwich. Today it is Greenwich Village; an enclave less than half a mile square in lower Manhattan. It was farmland until about a century ago, and even its crooked and quaint lanes of today follow the old cowpaths. Its once elegant town houses, built

beginning in the 1830s clustered around the heart of The Village an eight-acre green calle Washington Square Park, The park, in the late 18th century was the city's potter's field and ts trees were the public galows, Potter's field was closed 1823 and four years later the park began to take shape. The Village became the wealthiest residential area in he city, and in the early 1900 home to artists and writers in O'Henry, Eugene O'Neill and Louisa May Alcott. Today many of the fine old homes have been torn down for apartment houses, or converted for use by New York University

The park has become a play ground for the young, who climb grass; for their older brothers and sisters, who come to see and be seen to play or listen to folk music or rock 'n roll; and for the retired set, who play chess or checkers on city-owned table-boards, or gather or benches to gossip and watch the On the streets around the

park are sidewalk artists and sidewalk hawkers, countless cafes, restaurants and nightclubs, as well as stores that cater to the young, selling posters and buttons, books, records, lewelry and way-out clothes.

Chess players in Washington Square Park don't take their play lightly.

Village hydrants, like those in other sections of the city, are fair game for play. To passers-by, however, the fun can become a wet blanket.
