

## Sentences of Death Given Six Basques

BURGOS (AP)—A military court today handed down death sentences for six persons in the Burgos trial of 15 Basque extremists.

The sentences will now go to the others heading for the prison. Francisco Franco is to be commuted or confirmed.

Three of the six were sentenced to death by firing squad. The unusual measure indicated the reaction of the court to the last day of trial when the 16 arose in mass and tried to attack court-martial members.

There was no immediate indication when Franco would act on the sentences. (To three receiving two death sentences each were Francisco Javier Ico, 29; Eduardo Uribe, 26, and Jacquin Gorostidi, 26, who led the charge against the court.)

The prosecution had asked for six death sentences and more than 700 years in prison for all 16. The sentences, if carried out, were expected to inflame leftist and student groups and labor groups across Spain.

The others sentenced to death were Mario Onaindia, 22, a mechanic; Francisco Javier Larena, 25, student, and Jose Maria Dorronoro, 29, teacher.

Five of the six testified they were Marxist-Leninists. The sixth, Ico, was silenced by the court before he could reply. All six of those sentenced to death said they were members of ETA, the secret Basque guerrilla organization.

The other 9 received prison terms ranging from 6 to 70 years. Defense lawyers, who announced the verdict and sentences, said in general all of the sentences exceeded what was asked by the prosecution.

Defense lawyers refused to sign the sentences as a protest. Police angrily hustled newsmen away from the building. The lawyers split up after the brief court session, some of them talking to newsmen and

This photo taken from television monitor shows Cmdr. Walter Wilbur, left, and Cmdr. Robert Schweitzer of the U.S. Navy. The film was made Christmas Day at a Viet Cong POW site.

## POW Film Called 'Propaganda' By Defense Department Official

NEW YORK (AP) — Two Corp. following a conversation with North Vietnam's Premier Pham Van Dong whom he quoted as saying, "I swear to you these men are well treated."

MacLear said that when he questioned the premier about the televised interview program an "enemy propaganda film."

The two prisoners, both of whom appeared physically fit, also talked about their daily routine and mail privileges in the interview conducted under the supervision of the North Vietnamese and televised Sunday night.

Five other POWs were seen at close range in the film but only U.S. Navy pilots Walter E. Wilber, 40, of Columbia Cross Roads, Pa., and Robert J. Schweitzer, 38, of Lemore, Calif., both commanders, were allowed to answer presubmitted questions.

The interviews were filmed by Michael MacLear, a newsman for Canadian Broadcasting

where other journalists have been allowed controlled visits. Jerry Friedhelm, a deputy assistant defense secretary, said: "We would of course have no comment on a censored edited enemy propaganda film showing only a handful of known prisoners. It is one more example of the refusal of North Vietnam to conduct itself as a civilized signatory of the Geneva Convention. We that convention adhered to, there would be impartial inspection and contact direct with the POWs, rather than censored films. In addition, we continue to be concerned for the prisoners and the missing, not just in North Vietnam, but also South Vietnam and Laos."

In addition to Wilber and Schweitzer, the five POWs pictured at close range were identified as 1st Lt. Paul Gordon Brown, Newton, Mass. Maj. Roger D. Ingvalson, Sanford, Maine, and Lt. Col. Elson W. Miller, Santa Ana, Calif. all

Marines; and Lt. M. L. Gartley, Dunedin, Fla. and Lt. William J. Mayhew, New Manchester, W. Va. both of the Navy. The interview was broadcast by NBC-TV and CBS-TV.

In the interview, Wilber and Schweitzer said they had read a number of books by Americans about the war, had visited various museums in Hanoi and had discussed the war with other prisoners.

"I know I've had the deepest discussion I've ever had in my life with my fellow prisoners here," said Wilber, "and we've had to really go to the very core of our feelings on a number of things—loyalty, what is it? Where does it lie? And morality, legality, a number of things that in our affluent, rushed life, I suppose, in our country we don't normally give too deep a thought about."

"I think the answer of course is the war must be ended, and it must be stopped now. We've just got to stop this thing. We've got to admit the facts as they lie and stop the war, and of course we must withdraw our troops to stop the war. That's the position we have to face. Once we do that, the Vietnamese can solve their own problems. I'm confident of that. If we'll stop the war and get our troops out. That's what we have

## Israel To Return To Peace Session

By MARTIN ZUCKER  
Associated Press Writer

JERUSALEM (AP)—Israel voted Monday to go back to the Middle East peace talks under United Nations envoy Gunnar V. Jarring.

The decision, made at a special Cabinet session, came only a few hours after an Israeli army force crossed into southern Lebanon during the night to strike an Arab guerrilla headquarters. The raid was in retaliation for increasing guerrilla activity along the frontier, the Israeli military command said.

An official Lebanese source said 12 guerrillas and two civilians were killed in several hours of fighting. The Israelis said they lost one soldier and suffered five wounded.

The Cabinet's decision to rejoin the indirect talks with Egypt and Jordan at the United Nations was reported to newsmen by Prime Minister Golda Meir as she emerged from a 5½-hour session.

A government announcement said the Cabinet "decided that the present political and military conditions enable and justify the termination of the suspension of Israel's participation in talks under the auspices of Ambassador Jarring."

It added that Foreign Minister Abba Eban was authorized to transmit Jerusalem's readiness to resume participation.

The Israelis left the talks on Sept. 6, less than two weeks after they had begun. The boycott was explained as the government's retort to a buildup of Soviet-made surface-to-air missiles near the Suez Canal by the Egyptians in violation of the military standstill clause of the U.S.-initiated Middle East cease-fire.

The Israelis' original demand it terminates on Feb. 5. Egypt repeatedly has declared it will not agree to an extension unless the Israelis come back to the talks with a timetable for withdrawal. This the Israelis say they will not do.

An Egyptian government official in Cairo dismissed the demand as "unrealistic."

These promises are said to include a continuing supply of American arms—to counter the flow of Soviet hardware to the Egyptians—and a tougher stand by Washington against Soviet involvement in the Middle East.

Authoritative sources quoted the prime minister Sunday as saying the conditions for returning had been created. On Sunday also, Mrs. Meir's Labor party and its key coalition partner, the National Religious party, okayed the return.

Any negotiations between Israel and the Arab states figure to be long and tough. In addition to consideration of Israeli withdrawal from war-won Arab territories and Arab consent to finally make peace with Israel, there is an immediate problem of renewing the present cease-fire.

It terminates on Feb. 5. Egypt repeatedly has declared it will not agree to an extension unless the Israelis come back to the talks with a timetable for withdrawal. This the Israelis say they will not do.

## Over 44,000 GIs Killed New Decade of Involvement In Vietnam Starting for U.S.

By GEORGE ESPER  
Associated Press Writer

SAIGON (AP) — This week the United States starts its second decade of direct involvement in Indochina. Reflecting a course of disengagement, American forces are at their lowest numerical level in more than four years. So are battlefield casualties.

The direct American effort is generally dated from Jan. 1, 1961. That year 11 Americans were killed in action. In 1968, the toll was near 1,000. That was the peak year; this year's deaths have been less than a third of the 1968 total.

In all, more than 44,000 Americans have been killed in action in 10 years. The total of American lives lost, counting accidents and disease, has reached 55,000 in tabulations of the U.S. Command.

The focal point of U.S. involvement in the war has subtly shifted for the time being to a 6,000-mile network of mountain passes, dirt roads and river crossings in the southern panhandle of Laos called the Ho Chi Minh trail. It is North Vietnam's highway into the South.

Action in South Vietnam has been scaled down to almost entirely small-unit clashes during the past year, but the United States is still heavily involved in the war.

## Sources Say: USSR Sets Trial For More Jews

By JOHN BAUSMAN  
Associated Press Writer

MOSCOW (AP)—The Soviet government is reported planning to try nine more Jews in connection with the Leningrad hijacking case, but the worldwide outcry resulting from the first trial is not likely to make things any easier for any of the defendants.

Reliable sources say the next trial will begin Jan. 6 in Leningrad, where a court on Christmas Eve convicted nine Jews and two Gentiles of plotting to hijack an airplane to flee the Soviet Union.

Two of the Jews were sentenced to death by firing squad, and the other defendants got labor camp sentences ranging from 4 to 15 years.

The informants said about a dozen other Jews also face trials in Riga and the Moldavian town of Kishinev, but no dates have been set. The sources said they did not know the charges against these defendants, but presumably they are accused of involvement in the same unsuccessful hijack attempt in June.

The sources said the defendants in the Leningrad trial next week are charged with violating Articles 70 and 72 of the Soviet Criminal Code. The former involves "anti-Soviet agitation and propaganda" and the latter "organizational activity directed to commission of especially dangerous crimes against the state and/or participation in anti-Soviet organizations."

Conviction under Article 72 carries a maximum penalty of death, while Article 70 carries a maximum sentence of 10 years in a labor camp.

The sources said the second group of Leningrad defendants was separated from the first because the connection between the two was "tenuous at best."

The first group was charged with treason. Norway's biggest newspaper, Aftenposten, reported that a 23-year-old Latvian Jewess, Ruth Aleksandrovich, and three young men will go on trial in Riga soon. The newspaper said the girl's mother told it by telephone that her daughter was arrested Oct. 7 and accused of expressing anti-Soviet sentiments. She said Ruta knew the convicted Leningrad defendants and that her crime was that she discussed with some friends her hope of emigrating to Israel.

Israel officials in Jerusalem said the world outcry against the death sentences in Leningrad was "beyond all expectation," and the head of the pro-Moscow Communist party of Israel expressed belief that the

sentences would be commuted. But his view was not shared in Moscow.

In Russian eyes, the trial was entirely a matter of domestic law and order and of no concern abroad. The stiff sentences probably were fixed as a deterrent to others.

"Undoubtedly the Soviet Union's image has been damaged by this verdict," one Western diplomat commented, "but they'll never admit it. To them this was a question of law enforcement."

Tass, the official Soviet news agency, said the trial was "entirely a matter of domestic law and order and of no concern abroad. The stiff sentences probably were fixed as a deterrent to others."

agree to be leased upon, quietly, and without such talk, there is a possibility that it is more conducive to the healthful pause, or even the complete temporary abandonment of the task than is the machine. The machine keeps exploding away, tugging at its human master to be on with the job. Furthermore, by its own supposed sense of operation, it deprives its human master of any ability for quitting with the task unfinished.

The remedy is for the home owner who wants to live to see the summer roses to develop his own strong and independent will by which he declares his own capacity to quit on tasks half done, even if the machine monotonically and thoughtlessly thing that it is, keeps chattering away at it still willing.

Many a life is left unfinished because it would not bring itself to leave some subsidiary task—like the last 20 feet of a driveway—temporarily unfinished.

The Customer Is The Enemy

A heavy rain lashed the windows as the woman bent repeatedly at the front door. The people inside watched and listened without stirring as the outsider pleaded shrilly.

"Just let me know the price of that piece in the center of the shop window," she begged through the closed door. "I don't have to come in, but I'm from out of town and I won't be able to come back again today."

"Who does she think she is—trying to run the shop?" snarled a salesgirl to others lounging about the closed door. "It's a typical case of a typical customer. She's always coming in for a special moment for the store to reopen. Sneers of agreement and triumph were exchanged on the chattered suburbanite retreated in the downpour."

The woman was one of what appears to be becoming a deeper and deeper sales staff—the customer, or rather, she was doing her best to become one. But the salespeople mutually threatened her with some assistance from management.

"This was the way in which, in 1970, he discussed the problem of what men can do about their world."

"We want to make the world into a single family, say the sociologists and statesmen; everything leads us to knock down the barriers that separate nations from each other and to reduce them to simple shelters of values proper to each people and each culture, not allowing them to be obstacles to communications, much less bastions of the most formidable devices of war and destruction."

This was, in fact, the spirit and message of this Pope's own historic journey to New York.

But now, in 1970, the Pope adds this: "Yes, responds the Master, but you must free yourself of the centuries-old poison that you carry in your blood, that of selfishness and hate, of conflict as a system, of exclusiveness, of pride and personal or class interests."

Or here, to interpret freely, the Pope was saying that if we expect law to set up a better kind of world, we must first see to it that we change human nature.

"That we will never do" may be the answer that will come from the earnest world leaders, who think that we must take man as he is and still try to put enforceable laws around his conduct, to keep him from committing civilization suicide.

The compromise truth — that there must be continuing and deep interaction between man in his nature and men in his laws and institutions — that the Pope himself should not only emphasize man's spiritual needs but salute the potentialities of the United Nations as a preface instrumentally — is what seems essential to man's hope. And that hope itself is the one great essential without which there is nothing. Cynicism with regard to either avenue of progress for man, through laws and institutions or through improvement in his nature, is the worst enemy. Not to believe in the possibility for hope is the equivalent to death.

We would choose to keep alive and meaningful, not only the Pope's 1970 appeal for an improvement in human nature, but his historic appeal at the United Nations on the occasion of his visit there — war never again, no matter what our nature — as twin and not mutually exclusive hopes for all mankind.

Never Another Joy

It is to be noticed that, quite recently in view of actual statistics in recent years, those who traditionally wear the snow shoveler against over-exertion have now broadened their solicitude to include the snow-plower or the snow-blower as well.

The latter, despite the supposed advantage of a machine to do the heavy part of the work for him, is perhaps even more vulnerable than the simple shoveler to the kind of strain which poses the real health danger.

That is the kind of strain in which the mind sets itself upon a certain goal, and keeps the pressure on itself and on the body it commands until it has achieved that goal. Since a shovel will not be

agreed to be leased upon, quietly, and without such talk, there is a possibility that it is more conducive to the healthful pause, or even the complete temporary abandonment of the task than is the machine. TV Ads Nearing Snuff-Out, \$226 Million Up in Smoke

NEW YORK (AP) — With only days remaining before cigarette commercials are banned from the airwaves, the question is still what will the cigarette manufacturers do with the \$226 million they previously spent on radio and television.

Secrey surrounds the companies' plans for diverting that money into other advertising and promotional schemes after the prohibition goes into effect Jan. 1.

Because a primary purpose of advertising is to induce smokers to switch brands, the manufacturers are taking care to see that their competitors don't learn their promotion plans.

"Obviously, we're not going to divulge our plans to the competition," says Dallas Kersey of open, but we haven't fully decided on the opposite side of the coin. We want to know what the competition is going to do. There are still many options open, and we haven't fully decided on where we're going."

A portion of the money will go into newspapers and magazines. But how much is uncertain, mostly because the manufacturers aren't talking.

Some of it will go into outdoor advertising, sales force promotion, new coupon plans, various promotional programs and product diversification. A good plan.

After the first of the year the networks and stations will no longer be required by the Federal Communications Commission to carry anti-smoking commercials.

The agency also said the decision on whether to air anti-smoking spots would be left to the stations, but included a strong plea to give time to promoting anti-tobacco advertising in magazines.

Magazines are expecting an increase, but no one is willing to predict how many new pages of tobacco advertising will be in 1971.

Tobacco advertising in magazines—the bulk of which is concentrated in Life, Look, TV Guide, Time, Playboy, Parade and Newsweek—totalled \$47.7 million in 1969 and in the first 10 months of this year it was \$51.1 million.

More than a quarter of that went to Life, which carried \$13.3 million in cigarette ads in all of 1969 and \$14.4 million in the first 10 months of this year. In recent years Life has had about a 10 per cent annual increase in tobacco advertising, but a magazine spokesman declined to project an increase for 1971.

Lock No. 2 in tobacco advertising, published \$2.8 million last year, figures for 1970 were

Goodbye Dolly

NEW YORK (AP) — "Hello Dolly!" which wound up with Ethel Merman in the title role, closed Sunday after a record run for a Broadway musical, 2,864 performances.

The previous record of 2,715 was held by "My Fair Lady."

Still running is "Fiddler on the Roof," which was chalked up 2,810.

Two musicals have exceeded the "Hello Dolly" run. "Life with Father" last year had 3,182 performances, and "The Sound of Music" had 3,182.

In the lead part, Miss Merman succeeded Carol Channing, Ginger Rogers, Betty Grable, Phyllis Diller, Martha Raye and Fred Astaire.

Arthur Culombe, Convicted Killer, Dies at Prison

BOMBERG (AP) — Arthur J. Culombe, who was convicted in 1967 for a series of murders in Connecticut, has died at Somers State Prison.

Culombe, 46, and Joseph L. Talbot, the last man to be executed in the state, were convicted in connection with the shooting death of a gas station owner and customer in New Britain. They were accused of killing six persons.

Talbot was executed in 1960. Culombe appealed his conviction, but the state supreme court upheld the conviction. Culombe died at the prison last Tuesday, but prison authorities did not announce his death immediately. Prison officials attributed death to natural causes.

Building on Land Bought for I-84 Under-Proposal

HARTFORD (AP)—The State Transportation Department has been given a 100-page report suggesting that the state use about 100 acres of idle land near Interstate Route 84 here for a complex of apartments, business structures, parking areas and parks.

There was no indication over the weekend of what official reaction to the plan would be.

The plan was drawn up by Wilbur Smith Associates of New Haven, under contract with federal and state agencies and with federal and state officials acting as advisers.

Its focus is on land that was condemned for construction of the expressway, but was never used.

The expressway runs through the city for a total of 3.8 miles. About 60 per cent of the land condemned for the route is 100 to the day before and forced the bank's president to disburse to insure a safe get away.

Among the suggestions in the report are:

—A \$12 million office, theater, parking and shopping mall complex over the expressway near Trumbull Street.

—A \$10 million transportation center near the present railroad station. This would include facilities for buses, trains, parking and a monorail line, with apartment and hotel buildings.

—Creation of industrial parks and new apartment buildings, some of them for low-to-middle-income families and some for luxury-apartment development.

—Additions to the expressway at three points to alleviate congestion.

The study also suggests establishing express bus lanes on the highway and setting up traffic lights at on-ramps to regulate the number of cars using the highway at one time.

At the same time some governments have great influence, even control, over people normally ruled by other governments. Yet the people of say, Czechoslovakia, have no articulated voice in the government of Russia, and there seems to be less interest now than there was 20 years ago in inventing larger units, effective transnational systems of control that are specifically political. Small nations have multiplied rapidly in number, and the great ones tend to see themselves as the final form of arbitrary power. The irony of the situation is its natural consequence: While the nations are incapable of setting control of global wealth, they are in fact most prevent each other from doing so, they necessarily lose control within themselves and all the individuals they affect — ignoring national policies of any one country.

Business and banks have been more efficient than nations in developing "international" money; the continued existence of national currencies, and even the national fiscal policies, is a coming a nuisance to them.

The power of such organizations is increasing all the time, in part because there is no international governmental or cause which brings out the best in man, and the institutions of national governments are increasingly less willing to accept responsibility for consequences from one administration to the next. An international "Live with Angin."

Inside Report

The Suez Danger

By Rowland Evans Jr. and Robert D. Novak

WARRENTOON — Gloom over the Middle East is deepening high in the Nixon administration with some officials fearful that a confrontation between the U.S. and the Soviet Union over the Suez Canal may be unavoidable.

That confrontation would pose to both Washington and Moscow the horrible choice of extending active help in the air to their respective clients—Israel and Egypt—after the cease-fire breaks down and air battles resume next spring.

There is, as always, divided opinion among the President's top advisers in the White House, State and Defense Departments, and Central Intelligence Agency.

That means the Arabs, led by Egypt, will refuse to extend the cease-fire when it expires Feb. 5. The new post-Nasser Egyptian government, still uncertain about its hold on the people and worried about rising competition for Arab-world supremacy from Algeria and Libya, will then start moving troops and war supplies close to the canal, including Soviet-supplied bridging and amphibious equipment.

As experts here judge the process will not be unopposed beyond the point at which Israel feels an Egyptian cross-canal invasion might be feasible. When that point is reached, according to this credible scenario, Israel will make another preemptive air strike against the Egyptian buildup.

If that air action is successful, despite the huge increase of Soviet anti-craft missile defenses along the west bank of the canal, the Russians are judged certain to intervene with their own pilots. There was a brief period of direct air combat between Israel and the Soviet Union last summer, but nothing like what may ensue next spring. Massive Soviet air

intervention would immediately confront Mr. Nixon with this hideous choice: Help Israel with U.S. carrier aircraft now in the Eastern Mediterranean or risk destruction of Israel's pilot-short air force.

Private, high-level forecasts of the inevitability of just such a crisis next spring are also forced by suspicious now poisoning the atmosphere between Washington and Moscow.

But these forebodings are also reinforced, in the view of experts outside the State Department, by the success of Israel's three-year campaign to turn the Arab-Israeli conflict into a U.S.-S.S.R. confrontation, making the Middle East the central cockpit of the East-West struggle.

Playing right into this effort are the Russians, who know that their growing influence and power in the Middle East is directly proportional to Arab hostility for the U.S., which in turn is directly proportional to the ties between the U.S. and Israel.

Thus, Sen. Henry M. Jackson of Washington, State Department's present hold on the Sinai peninsula and would not agree to even a long-term staged withdrawal except with security guarantees the Arabs will never offer.

# Fledgling Town Council Tried Wings in 1970

By HOLLY GANTHER (Herald Correspondent)

The first year of the new decade was also the first year that Coventry residents got to see their new form of government in action, moving the town "out of the 18th century" in the words of some townpeople.

The year also saw one of the most heated, emotional and crowded public meetings the town had ever seen: the March hearing on a proposed airport for the town which met with such violent opposition that the state aeronautics department abandoned the whole idea.

There were no major elections on a local level, but the Town Council had its hands full with complaints about Coventry Lake, both frozen and unfrozen. Winter snowmobs and possible snow pollution were the issues.

There were no new school openings, no major personnel shifts, no new school principals, but toward the end of 1970, most townpeople were made aware, in a rather bizarre and dramatic development, that Coventry might have to deal with a possible drug problem at its high school.

It was also the year that the town made great strides toward installation of a municipal sewer system in the lake and village area, perhaps the greatest accomplishment of the new Town Council and its full-time chief administrator.

The Town Council, while not above the criticism of some residents, nevertheless showed itself to be made up of a group of seven hard-working individuals who, during their first full year in office, devoted many free hours to service of the town.

Much of the earlier confusion inherent in the running of the town disappeared, with the councilmen's efforts to coordinate the various agencies, board and commissions. Quarterly meetings of all agencies were established, where all elected and appointed officials could gather for general discussion on all issues.

Council meetings were fairly well-attended by townpeople, who began to feel freer to discuss their complaints and offer suggestions.

Sewers were considered the first priority by the new council, and by year's end it looked as if a referendum on the proposed sewer system would be held sometime early in 1971.

A possible tie-in with the town of Mansfield, UConn., and the Mansfield Training School was still being discussed, also.

A sewer assessment committee was formed toward the end of the year, and is still working on the best way to handle the costs of the system, once it is operational.

**Snowmobile Troubles**

The council had its hands full late in the winter handling complaints by lake residents that noise generated by the use of snowmobiles on the lake.

A snowmobile club was formed, and an ordinance regulating use of the vehicles was ultimately abandoned by the council before adoption, with policing of snowmobile users left to club members themselves.

During the summer, the coliform count at the lake shifted wildly from week to week and beach to beach, with no one being sure just exactly what it all meant. A count of up to 800 was considered "safe for swimming," and by summer's end, it appeared that heavy rains had some effect on the pollution levels.

High coliform counts that appeared frequently strengthened the case for sewers in the area, the council maintained. But there was no significant drop in the number of swimmers at the lake, despite a rash of publicity about "swimming at your own risk."

Following last March's airport hearing, the council acted swiftly, and came out publicly against the proposed airport which was popularly referred to as "that jetport," despite the fact that it was designed principally to serve small planes.

More than 900 truly rate Bolton and Coventry residents turned out for the airport hearing, nearly all of them passionately opposed to the idea, since it would have been located near the Bolton line in Coventry's northwest corner.

In announcing that it had given up on the idea of a Coventry airport, the state aeronautics officials said they were going to reassess the entire airport situation throughout the state, and residents breathed a little easier.

Both State Sen. Robert Hodley, and Aloysius Ahearn, who sought State Rep. Dorothy

Miller's seat, vowed at election time they would introduce a bill of 1971.

**Drug Problem**

Out of the state introduction of this particular airport, and residents breathed even easier.

**Schools Tighten Belt**

The schools functioned during the year on what school officials considered to be a very tight budget. Salary negotiations were not completed until after school began and teachers worked for about six weeks without a contract in effect.

Negotiations between the Board of Education and the Coventry Federation of Teachers ended up first in mediation and then in arbitration before a settlement was reached.

Late in 1970, the Education Association of Coventry announced that it would challenge the CRT as the teachers bargaining agent for the 1971-72 talks.

Two students at Coventry High School, Colleen Roach and Dennis Saboval, participated in the Open Door Student Exchange Program, spending ten weeks during the summer in South America.

The Lay Curriculum Committee completed two years of work and submitted its report to the school board late in the summer. The report was generally critical of local schools, although it found the problems no different or more severe than most school systems in the United States.

Seniors at CHS got an added privilege during the year: The male who, during their first full year in office, devoted many free hours to service of the town.

Much of the earlier confusion inherent in the running of the town disappeared, with the councilmen's efforts to coordinate the various agencies, board and commissions. Quarterly meetings of all agencies were established, where all elected and appointed officials could gather for general discussion on all issues.

Council meetings were fairly well-attended by townpeople, who began to feel freer to discuss their complaints and offer suggestions.

Sewers were considered the first priority by the new council, and by year's end it looked as if a referendum on the proposed sewer system would be held sometime early in 1971.

A possible tie-in with the town of Mansfield, UConn., and the Mansfield Training School was still being discussed, also.

A sewer assessment committee was formed toward the end of the year, and is still working on the best way to handle the costs of the system, once it is operational.

**Snowmobile Troubles**

The council had its hands full late in the winter handling complaints by lake residents that noise generated by the use of snowmobiles on the lake.

A snowmobile club was formed, and an ordinance regulating use of the vehicles was ultimately abandoned by the council before adoption, with policing of snowmobile users left to club members themselves.

During the summer, the coliform count at the lake shifted wildly from week to week and beach to beach, with no one being sure just exactly what it all meant. A count of up to 800 was considered "safe for swimming," and by summer's end, it appeared that heavy rains had some effect on the pollution levels.

High coliform counts that appeared frequently strengthened the case for sewers in the area, the council maintained. But there was no significant drop in the number of swimmers at the lake, despite a rash of publicity about "swimming at your own risk."

Following last March's airport hearing, the council acted swiftly, and came out publicly against the proposed airport which was popularly referred to as "that jetport," despite the fact that it was designed principally to serve small planes.

Both State Sen. Robert Hodley, and Aloysius Ahearn, who sought State Rep. Dorothy

in mid-year that he would not remain in that post past June of 1971.

**Drug Problem**

Toward the end of the year, the town was rocked by the news of a unique development at the high school. A seven-man secret committee, formed to fight the "drug problem," stuffed letters into the lockers of Manrove, was booked for the occasion.

**Tax Increase**

This was also the year that taxpayers were faced with their biggest tax increase in many years, from a mill rate of 86 up to 88.5. The Town Council repeatedly asserted its belief that previous administrations and going forward, although this will not be true of 1971, when the town will elect a new Town Council and other major officers as well.

There was remarkably little grumbling at the public budget sessions, and the budget passed. One councilman stated publicly that in his view, the drug problem was rapidly replacing grumblings as the top priority item.

The Planning and Zoning Commission decided to revise the town master plan in 1970, and without available town funds, proceeded to do the job on its own. The PZC adopted a River Zone, one of the first in the state, for the orderly development of areas near the Hop, Willimantic and Skunking Rivers.

It also gave the final go-ahead on the England Shopping Center, located on the corner of Routes 1 and 31, which, after years and was well into the construction process, with a total investment of \$10 million. The plan will house a supermarket and several smaller shops and offices.

Also under construction in 1970 was part of the new 1-84, or relocated RT, from the town's extreme south end.

through Columbia and into Willimantic.

A Beautification Committee was working on plans to improve the appearance of the village area, as well as other public areas of town.

The church officials, representing churches throughout the state, have set up the meetings in an attempt to name a bishop coadjutor who will eventually succeed the Rt. Rev. John H. Esquilart when he retires.

And some members of the informal questioning group now say the meetings should become a formal part of the election of any bishop in the Church.

The Episcopal Diocesan Convention is scheduled to meet Jan. 7 to elect a coadjutor who will automatically become bishop-op with Bishop Esquilart's eventual retirement. The current bishop has been ill for several months.

Thelma Caruso of West Hartford, a member of the informal group, said the questioning round three of the Coventry Episcopal Church in general is taking place in 1971 when about 150 people from Coventry, Conn., and land will stay in homes of local residents for three weeks.

to increase water runoff efficiency.

## Brandt Opponents Doubt His Policies

By HOLLY GANTHER (Herald Correspondent)

BONN, Germany (AP) — A West German opposition leader said today a German group had placed behind official U.S. endorsement of Bonn's Eastern policy. He urged Chancellor Willy Brandt to go to Washington as soon as possible.

Rainer Barzel, floor leader of the Christian Democratic party in parliament, drew up a negative balance of the Brandt government's achievements at home and abroad during 1970.

He told a news conference: "We see that proven, influential friends of Germany in the United States have publicly placed a question mark behind the official endorsement of Bonn's policies, that in Brussels the scheduled European unification talks have not been met, that East-west relations have not improved."

In 1969, the Federal Assembly, a constitutional organ, met in Berlin to elect a new federal president. In 1970 there were threats and harassment even against meetings of delegations and party committees.

"In Germany, despite the big words we had to hear in connection with the signing of the Moscow treaty, there is no sign of a relaxation of tensions," Barzel said. "The Communists apparently have no intention of honoring the federal government's prior concessions. In this situation, the federal chancellor must himself travel to the United States as soon as possible and bring about an agreement in Brussels."

Barzel's statement about influential Americans obviously referred to reports that former Secretary of State Dean Acheson, and such men within the Nixon administration as the President's national security adviser, Henry A. Kissinger, have

**Who's Who in America Reduces Exclusivity**

By NANCY L. BOSS

The Washington Post-Washington "Who's Who" catalogue of 1971, published by Marquis, Inc., is a 72-year-old mirror of the established standards in order to insure that the catalogue is a true reflection of the country's elite, has reduced its exclusivity a bit and will expand to include more people in America, that catalogue of names now included.

More than 80,000 new names will be added to the approach of 65,000 thumbnail biographies.

# Assembly Leans Toward Support Of Income Tax

**HARTFORD (AP)**—There is considerable support for a state income tax among members of the 1971 state legislature, especially among Democrats, according to an Associated Press poll.

An income tax "is becoming more acceptable to the people who are hurting from property taxes," remarked one respondent, Rep. Dorothy Miller, R-Bolton.

"I have stated that I would support it only as a last resort," said Rep. Gerard S. Spiegel, R-Trumbull. "I am becoming more and more convinced that the last resort has become a first resort."

Of the 43 lawmakers who answered the AP questionnaire, more than half—38, to be exact—expressed support for the income tax.

The 43 respondents comprise just 20 per cent of the General Assembly, but their answers may be representative of the whole. The group includes 29 Democrats, 29 Republicans, and 5 who did not list their party.

Only 14 said they would not support an income tax, and another 14 saying either yes or no to the question.

"I think there are other ways of raising revenue," said one Democrat in the last category, Sen.-elect John J. Zajac Jr., R-Meriden. "That, coupled with frugality, can accomplish much."

Thirteen of the 14 opponents of the income tax are Republicans. The other did not list his party.

# Tale of Old Wives Tales

**By CHRISTINE DOYLE**  
**The London Observer**

Unproved. Medical Research Council (MRC) biologists report that there is not a scrap of evidence for this. At the common cold research unit in Salisbury, volunteers were soaked in a bath of steamy water for some time. They developed no more colds than they did during the winter when they had stayed dry.

In an even more thorough American experiment, volunteers were "chilled to the marrow," spending several hours in a room with a temperature only a little above freezing. The result was exactly the same.

"I've seen strong evidence that chilling does not provoke into action any dormant virus in the experience of a trapper in Spitzbergen. He spent the entire winter on his own. During the spring thaw he fell into a freezing river, and continued on his way in very wet clothes for many miserable hours.

He did not catch a cold. However, when he came into human company a few weeks later and was therefore exposed to a high density of cold viruses, he caught a cold himself.

You are not convinced? Nor are some doctors.

# From London Town

**so men during menstruation are less resistant to infection**

Untrue. There is no reason why they should be less resistant at this time than any other, say doctors. However, women do complain that it is very often during a period that they go down with a cold or other infection. "I think this is most probably a coincidence," says a general practitioner. "Some women feel below par during a period, and may take more notice of any mild infections and complain more about them."

# Rham District Principal Warns Parents: Beware of Honor Chaps

J. Colin Pusbee, principal at Rham High School, has cautioned parents against inviting their children to honor chaps before they have received an award.

Pusbee stated that most of these organizations are not approved or sanctioned by the National Association of Secondary School Principals (NASSP).

He mentioned that some of the organizations not approved by the NASSP include Delta Chi, Phi Kappa Phi, and the Phi Kappa Phi Honor Society.

# These Visits Are Related

Did you ever wonder why your wife goes to the beauty parlor on the same day of the week each time?

I did. I don't anymore. My wife's day is Friday, and it's mine.

It's a direct relationship between her Friday visits to the beauty parlor and her Saturday visits to the supermarket.

The cashier in the supermarket, as she's cashing my wife's check, also takes her picture.

Naturally, my wife has to look good for the picture. After all, she doesn't know who's going to see it. Actually, she doesn't even know if anybody's going to see it. But in case someone does see it, she comes prepared—with a new hair-do, that is.

Come to think of it—someone must look at the picture. The cashier in the supermarket's office of the supermarket.

Someone there is complaining that the picture is not being taken. From now on, the cashier told my wife, customers must bring a photograph of their hair-do with them.

"OK," I said when I heard that. "If they want to get your hair done, we'll save money two ways—at the beauty parlor and at the supermarket."

It didn't work and, to tell the truth, I don't know if it ever will.

She said that, from now on, she's going to ask for a distinctive hair-do on her Friday visits to the beauty parlor. She'll get her hair done on her Friday visits to the supermarket.

# Consumer Credit Code Deadline on Thursday

**HARTFORD (AP)**—A consumer credit code, including such things as how to sue, is to be proposed by Gov. John Dempsey and legislative leaders this week, before a Thursday deadline.

The code would add the business of a 14-member commission of legislators and appointees who consulted representatives of consumers, retailers and financial institutions.

The 1969 General Assembly set the last day of 1970 as the deadline for the code's submission.

The Commission to Study the Uniform Consumer Credit Code was set up by a new agency, the Consumer Credit Commission, administered by the state.

The proposed code is based on a national model the commission adopted last year.

Democratic Rep. David H. Noyes of Hartford, commission chairman, says he is "happy" with the result. As a consumer, he represents a great step forward.

Those disagreeing with the code object that some of the consumer protections that appear in the preliminary proposal have been whittled away.

"Ending 'referral sales,' which induce people to buy an item by reducing the price if the customer can get others to buy the same item, is one of the items being dropped," says Noyes.

Limiting "bait-and-switch" sales, which are large payments, under the proposal would be made possible by the code, the large payment would be made in installments.

# International Tourism Increasing at High Rate

**By MAX WILDE**  
**Geneva**—Tourists will be at least 1 billion tomorrow, and more throughout the world in 10 years time; almost one-third of today's global population. They will spend about 210,000 million dollars.

These are the estimates of the International Union of Official Travel Organizations, an international organization located in Geneva, Switzerland, which publishes a conservative estimate of the world's tourism.

The study says: "It is generally accepted that in the next few years the average citizen of an economically developed country will take a vacation at least once a year, and that the number of international tourists will be about 25 million in 1970, and about 100 million in 1980."

It also forecasts that the average working life in now approaching 60 years, the report adds: "The time that an individual will devote to productive activities in the future will take up about 36 per cent of his existence. It is forecast, with the greatest influence on tourism, that the number of tourists will be about 100 million in 1980, and about 200 million in 1990."

The expansion of air transportation, it is forecast, will have the greatest influence on tourism. Scheduled air passenger traffic has been growing during the last 20 years at an average annual rate of about 12 per cent.

# UConn Awarded Grant to Study Transplant Care

**STORRS (AP)**—A \$44,888 grant to the University of Connecticut School of Medicine, being used to study the substitution of radioactive drugs for the preliminary procedure of kidney transplant surgery, doctors there are studying.

Analyzing donors and recipients with drugs instead of instruments has been the goal of the body of the doctors say.

The new research project was announced Saturday night by Dr. Homer D. Bablidge Jr., university president, and Harry R. Bretz Jr., president of the John A. Hartford Foundation, Inc., of Storrs, Conn., which made the three-year grant. Dr. Eugene M. Sigman, chief of the Department of Urology at the medical school, heads the research team.

Sigman said he and his colleagues plan to do preliminary work for about a year, mainly on animals, perfecting techniques and gathering data on the safety of the procedure.

The harmless radioactive drug, which emits gamma rays, will be introduced into the body, circulating through the kidneys and surrounding blood vessels.

A special camera that will follow their path. Then computers will analyze the data to see just how long a kidney is behaving.

## TEEN

reasons why you should enroll in the European Health Spa

- To lose the excess weight that shortens life. Tone and firm the muscles of your body to give you the physical proportions that nature intended.
- To improve circulation and strengthen heart action.
- To relax from the tensions of the day that cause undue fatigue (that sleep cannot remove).
- To remove lactic acids and other fatigue products from the body and insure proper elimination of waste.
- To build up new pep and energy that will enable you to be more consistently active—without tiring.
- To keep physically and mentally alert. To slow down the tempo of life.
- To improve body metabolism and the function of internal organs—enable organs and glands to perform their functions normally.
- To build resistance to the everyday ailments of today's living.
- To acquire a more congenial atmosphere between you, your family and your fellow-man through a feeling of health and well being.
- To enjoy life to the FULL!

### an apple a day keeps the doctor away

Some truth. This belief probably stems from the importance attached to "inner cleanliness." Apples are a good source of Vitamin C, which helps to keep the bowels moving smoothly and regularly. So there is some justification for eating them as a common sense aid to physical comfort. Apples contain Vitamin C, which helps build up resistance to disease. But there is a great deal more Vitamin C in an orange.

### eat fish is good for the brain

Very doubtful. Rather like "eating greens will make your hair curl," is a London consultant rheumatologist. "I don't believe they give any benefit apart from satisfying the patient's own belief in them."

But as medicine has failed to deal adequately with rheumatism why shouldn't people resort to a little blind faith? So long, of course, as it doesn't deter people who need treatment from getting their own doctors.

There is a minute grain of scientific backing for the bracelet. Injections of gold salts are a recognized and well established method of bringing relief to some patients with rheumatic complaints.

In France during the war, when gold was scarce, doctors looked around for a substitute. After trying a number of metals, they found that one proved most useful was copper.

Comments by a rheumatologist: "I don't really think the bracelet is real light on the practice of wearing copper bracelets. It is extremely unlikely that any bracelet will be of any benefit to a patient who is able to pass through the skin."

An for putting a potato in the bed, doctors who've been having a drink in a warm room is not clear. "But," says a family doctor in inner London, "two weeks in the country, and my nasal catarrh cleared up almost completely."

For people suffering had hay fever, a change of air may mean a move away from a high to a low pollen-count area, and they will feel better automatically.

But, whether it is to pure mountain air, or bracing seaside air, psychologically any change is one for the better. People are usually more relaxed, under fewer work stresses, and in the mood to forget their worries, take more exercise, and generally pay far more heed to their physical well-being.

(Distributed by the Los Angeles Times—Washington Post news service.

### feeding a cold and starve a fever

Obvious. People quite often have hearty appetites right through a cold, whereas with a high temperature they don't feel like eating. People with a high fever are usually between 101 and 103 degrees, do, however, need to drink plenty of liquid to replace fluid lost by sweating.

The fever can also be relieved by a proprietary medicine like aspirin—preferably soluble—as this will reduce the risk of stomach upset that is sometimes experienced with the insoluble type.

Since increased perspiration leads to loss of body salt, which helps to keep the fluids soluble, it is best to replace it. Soups and broths are good sources of salt.

### Kidnap Suspects Captured

(Continued from Page One)

Laporte was seized in October and found dead a week later. Paul Rose, 7, had been sought in connection with the kidnappings of James R. Cross, the British trade minister who was released by the abductors Dec. 11 after two months in captivity. Jacques Rose, 23, and Rimard, also 22, were listed in a newspaper issued on Oct. 24 charging them with conspiracy in Laporte's abduction.

Marc Carboneau, 37, also was sought in connection with the kidnappings. He was allowed to fly to Cuba with three other members of the Quebec Liberation Front on Dec. 4 as a condition for Cross' freedom.

Laporte was kidnaped on Oct. 10-five days after Cross' abduction—and was found slain a week later.

Lise Rose, 25, sister of Paul and Jacques Rose, was sentenced to six months in jail on Dec. 1 for refusing to testify at a coroner's inquest into Laporte's death. He was strangled with a chain that held a religious medal on his neck.

The Liberation Front, which seeks the independence of Quebec Province from the rest of Canada, demanded heavy ransom for Laporte's life. The demands included the payment of \$500,000 in gold, the release of "political prisoners," no action to be taken against the kidnappers, and the name and photograph of an informer against the front, and reinstatement of Montreal mail truck drivers who lost their jobs when the government took over mail deliveries.

The manifesto was published by some newspapers in Quebec whose population is predominantly French-speaking. The others were not all French. Minister Perre Elliott Trudeau imposed wartime emergency measures to hunt down the abductors.

Aide from Carboneau, those given safe passage to Cuba in exchange for Cross' freedom were Jacques Lantot, Jacques Cossette-Trudeau and Pierre Desgats. Lantot's wife and 2-year-old daughter accompanied him and Cossette-Trudeau's wife went with him.

Cross returned to London for a reunion with his wife shortly after his release.

### More Jews Face Trial In Russia

(Continued from Page One)

NEW YORK (AP)—A Soviet hysteric whipped up by Israel and U.S. Communist party.

But the protests continued abroad.

The Australian government protested at the Soviet government not to carry out the death sentence. So did the British Communist party.

Crowds of demonstrators massed on Sunday outside the Soviet embassy in New York and New York. Twelve persons were arrested in New York in connection with the protests.

Informed sources in Jerusalem said Pope Paul VI and Secretary-General U Thant had responded to official Israeli appeals that they intercede with the Soviet government. It was the Holy See was "taking steps" to seek clemency for the convicted Russians. Rome newspapers said the Vatican was working through its diplomatic contacts with an East European government.

American Jewish leaders will meet in Washington on Wednesday to ask President Nixon to intercede with the Kremlin.

Manna Stings (AP)—"Mama" Cass Elliot will sing the title song in "Doctor's Office," the upcoming Franbois Production. The song is written by Elmer Bernstein and Alan and Marilyn Bergman.

### Play Into Film

HOLLYWOOD (AP)—The Plinkers Act and Bourdough Ltd. recently announced plans to film Kurt Vonnegut's current Broadway hit, "Happy Birthday, Wanda June." Vonnegut will write the screenplay for the comedy drama which will be a Mark Robson Production for Columbia Pictures.

## TEEN

reasons why you should enroll in the European Health Spa

- To lose the excess weight that shortens life. Tone and firm the muscles of your body to give you the physical proportions that nature intended.
- To improve circulation and strengthen heart action.
- To relax from the tensions of the day that cause undue fatigue (that sleep cannot remove).
- To remove lactic acids and other fatigue products from the body and insure proper elimination of waste.
- To build up new pep and energy that will enable you to be more consistently active—without tiring.
- To keep physically and mentally alert. To slow down the tempo of life.
- To improve body metabolism and the function of internal organs—enable organs and glands to perform their functions normally.
- To build resistance to the everyday ailments of today's living.
- To acquire a more congenial atmosphere between you, your family and your fellow-man through a feeling of health and well being.
- To enjoy life to the FULL!

### Tolland Radio Tower Application Is Target of Complaints

Complaints are already being exchanged over the hearing of the zoning board of appeals scheduled for tonight.

The hearing is on the application of David B. and Douglas R. Getchell to construct a 300-foot amateur radio tower on lots 2, 4, 6 and 8 in the Brandy Hill Park area about 1,600 feet from the intersection of Old Post Rd. and Mountain Spring Rd.

David Getchell has complained that neighbors who are vigorously protesting the application have failed to contact him regarding their complaints.

The neighbors have stated they do not intend to contact Getchell until tonight's hearing at which time they will come armed with an attorney and various petitions opposing the proposal.

The residents of the area fear the granting of permission to erect the tower will destroy the Residential A zone area, turning it into a commercial zone.

A special meeting of the Board of Education has been called for next Monday at 8 p.m. in the Hicks Memorial School cafeteria to air problems regarding school transportation.

The meeting has been called by Superintendent of Schools Dr. Kenneth MacKenzie.

Two warranty deeds were filed with Town Clerk Gloria Ambrose during the past week.

Vincent E. and Frances Y. Crawford to Richard F. and David Vincent Legare of Vernon has been announced by her parents, Mr. and Mrs. Russell J. Legare of Rhenipit Lake Rd., Tolland.

Her fiancée is the son of Mr. and Mrs. Charles Legare of Phoenix St., Vernon.

Miss Landeen, a graduate of Rockville High School, is attending the University of Connecticut where she is majoring in nursing.

Mr. Legare, also a graduate of Rockville High School, is serving with the U.S. Coast Guard, at Cape May, N. J.

A 1971 wedding is planned.

A medium-sized head of red cabbage usually weighs from 2 to 3 1/2 pounds.

### Announce Engagements

Loving photo

The engagement of Miss Gloria M. Opalach to Jonathan C. Kimball, both of Manchester, has been announced by her parents, Mr. and Mrs. Stanley R. Opalach of 10 Byron Rd.

Her fiancée is the son of Mr. and Mrs. Chester Kimball of 164 Hackmatack St.

Miss Opalach is a 1967 graduate of Glastonbury High School, and Mr. Kimball is a 1966 graduate of Manchester High School and will graduate from the University of Connecticut in January.

A 1971 wedding is planned.

### Engagement - Legare

The engagement of Miss Janet Lynn Landeen of Tolland to David Vincent Legare of Vernon has been announced by her parents, Mr. and Mrs. Russell J. Legare of Rhenipit Lake Rd., Tolland.

Her fiancée is the son of Mr. and Mrs. Charles Legare of Phoenix St., Vernon.

Miss Landeen, a graduate of Rockville High School, is attending the University of Connecticut where she is majoring in nursing.

Mr. Legare, also a graduate of Rockville High School, is serving with the U.S. Coast Guard, at Cape May, N. J.

A 1971 wedding is planned.

### Judge Reunited

### Educators Explore Funding Of Learning Disability Plan

At tonight's meeting at 8 in the Bennett Junior High School Main Building, the Board of Education is expected to explore financing a second semester program for children with learning disabilities.

The three-phase proposal submitted by George Bradian, assistant superintendent of schools for curriculum, at the Dec. 14 meeting, was tabled pending a report by the personnel and finance committees to night. However, the board did authorize employment of a consultant.

The three phases are for the 150 kindergarten children having potentially developing learning disabilities as revealed in testing last spring; educational programming for children in Grade 2 and above; and tentative proposals for next year.

Portions of the first phase are presently operating; utilization of community agencies' in the position of reconnaissance officer with Headquarters Co., 169th Infantry Regiment in Hartford. In 1954 he was reassigned to the position of executive officer with Heavy Mortar Co., 169th Infantry Regiment in Springfield.

In 1955 he assumed command of Headquarters Co., 2d Battalion, 169th Infantry Regiment in Hartford, serving until 1958 when he was promoted to the rank of captain. He subsequently held command positions with West Hartford, Bristol, Windsor Locks and Westport units.

Col. Depluta has had an extensive military education, having successfully completed the U.S. Army basic infantry officer's course at the Infantry School, Ft. Benning, Ga. He was also selected for advanced military study at the U.S. Army Aberdeen Proving Grounds, Maryland, where he qualified in the U.S. Army quartermaster course. He was graduated from the Command and General Staff College, Ft. Leavenworth, Kan., last May.

### Depluta Receives CAPG Promotion

Maj. Raymond V. Depluta of Muddy Brook Road, Ellington, 169th Infantry, Connecticut Army National Guard at Manchester, has been promoted to the rank of lieutenant colonel.

In addition to his position as commander with the Manchester National Guard unit, he is full-time supervisory examiner with the U.S. Property and Fiscal Office at the State Agency in Hartford.

Col. Depluta was born in Rockville, graduated from Rockville High School, and was awarded an associate in science degree at the Hartford State Technical Institute. He began his military career with Rockville's Co. E, 2d Battalion, 169th Infantry Regiment in 1949, and later served with the United States Army during the Korean War.

After his discharge from active duty, he returned to the Guard, receiving a direct commission and an appointment to

Christmas Wish

Mrs. Carl Pfeffer's Christmas wish came true, thanks to her own Santa, her husband. When asked what she wanted for Christmas, Mrs. Pfeffer said "a ride on an elephant," so her husband rented the 20-year-old Queenie to give her a ride around their Birmingham, Mich. home. (AP Photo)

### Tax Receipt? Send the Card

Manchesters taxpayers desiring a receipt for paying the second-half taxes will be due Dec. 31 — Thursday, when making their payments.

Mrs. Evelyn Lambert, assistant collector of revenue, said that the card with the taxpayer's name and address is the one which will be received, of one per cent per month.

The card with the punch holes, taxpayers who want to take advantage of deductions on their 1970 federal income tax returns, must both payment cards June 30.

Second-half taxes will be due Jan. 4 and will be delinquent if not paid by Feb. 1. Delinquent

### Drug Center

The Drug Advisory Center, 81 Russell St., is observing the following schedule:

Monday through Friday, 8:30 a.m. to 5 p.m.  
A telephone backup service is available Monday through Saturday from 6 p.m. to 3 a.m.

For drug advisory information, call: 647-9222.

### Police Log

ARRESTS

David A. Chapelle, 32, of 23 Englewood Dr., charged with non-support yesterday afternoon, and released to Coventry police.

James M. Gerrity Jr., 19, of 78 Diane Dr., charged with improper passing, Saturday night on Main St. Court date Jan. 11.

Uma S. Laidyn, 23, of East Hartford, charged with failure to carry license, Saturday night on E. Middle Tpke. Court date Jan. 11.

### Winds Leave For Israel Wednesday

Rabbi Leon Wind and Mrs. Wind will leave Wednesday for Israel, to spend a six-month sabbatical granted him by the congregation of Temple Beth Shalom.

Rabbi Wind on June 5 completed 23 years as the spiritual head of Temple Beth Shalom. The six-month sabbatical is the temple's gift to him and to Mrs. Wind.

They will depart on an El Al Airlines flight from Kennedy International Airport, New York, and will travel non-stop to Israel. They will live initially in Jerusalem, a town near Tel Aviv. They will return to Manchester at the end of June.

During Rabbi Wind's stay in Israel, his Manchester spiritual duties will be shared by Rabbi Jessurun Cardoza, a Sephardic rabbi in New York, and Michael Exenbaum, an instructor at Colby Junior College in New London. Barenbaum, a former rabbinical student, is the son-in-law of Manchester Atty. and Mrs. Philip Boyer.

All other duties normally handled by Rabbi Wind will be in his absence by Cantor Israel Tabaksky and the temple staff.

### ACCIDENTS

At Maple and Cottage Sts. Saturday afternoon, a car driven by Michael P. Foley of 948 Rachel Rd. collided with one driven by Brian J. Fraher of Windsor Locks.

In the Parkade parking lot yesterday afternoon, a car driven by Paul G. Roudoux of Rockville collided with one driven by Jeffrey P. Johnson of 47 Alexander St.

At Forest St. near Main St. Saturday afternoon, a skidding accident involved cars driven by Eileen M. White of Pittsburgh, Pa., and Sharon Starrett of 26 Fernalde Dr.

Police say the icy road was to blame for a crash at McKee St. near W. Center St. Saturday

### Juvenile Switch

NEW YORK (AP) — A new city program will permit some 30 per cent of the children who would go to juvenile detention centers to stay at home or in specially supervised homes instead.

Mayor John V. Lindsay said Sunday the program would enable 2,500 youngsters between 7 and 17 years old each year to stay out of the three centers while awaiting appearance in Family Court.

The centers have been criticized by citizens' groups as deplorable.

Lindsay said he hoped the program would lead to elimination of large juvenile detention centers, "by their very nature," French immigrant, and James he said, "such centers create a variety of adverse—and sometimes tragic—effects on the lives of children."

### First Bike Patent

The first bicycle patent in the United States was issued in 1866 to Pierre Lallement, a French immigrant, and James he said, "such centers create a variety of adverse—and sometimes tragic—effects on the lives of children."

### Second-Hand Yule Trees Have Post-Holiday Future

By THE ASSOCIATED PRESS  
The season is to be pollution conscious. And the concern over the quality of the atmosphere poses problems for cities trying to dispose of thousands of Christmas trees after the holidays.

### Second-Hand Yule Trees Have Post-Holiday Future

Conservation groups in some areas have offered suggestions for dealing with the problem. The Detroit Outdoormen, an affiliate of the Michigan United Conservation Clubs, collects trees and hauls them to a northern part of the state for use as deer browse.

28 DEC 28

### POW Film Viewed As 'Propaganda'

(Continued from Page One)

to do, and that's what the big job is," said Schweitzer.

"I of course agree," said Wilber, "and as I say I'm terribly contented about my country, and I feel that the future of our country is well as Vietnam and Indochina can not be served by the prolongation of this war, whatever the reasons that caused it, and I don't feel that it's necessary even to take over the old reasons as who was wrong, who was right. It's been proven, as far as I'm concerned, that this war is bad. And it isn't going to improve, either our situation or the Vietnamese or the Indochinese people's situation."

"They've got to be left alone to solve their own problems. We've got our own problems we've got to solve," Wilber concluded.

Wilber said he was shot down over Nghan Province in June 1968, after 20 missions. Schweitzer said he was on his 15th mission just outside Hanoi when he was shot down Jan. 5, 1968.

"They said they receive letters about once a month and packages about every two months and use 'a regular form letter' in correspondence with their families."

"If we have a special occasion, an anniversary, children's birthday," said Wilber, "all we've got to do is say we want to send a message and it's transmitted. I understand these things go through Cuba."

Daily routine at the camp includes three meals, exercises, cleaning their rooms, sports such as volleyball and basketball and "music programs and the like," they said.

They said they also have "a great deal of literature" citing books such as "Vietnam, Vietnam," "The Limits of Intervention," "If Protest," "Vietnam and Unheard Voices," and General James Gavin's "Crisis Now."

Several times they have visited Hanoi, Wilber said, including last Christmas Eve when he attended midnight Mass at the Roman Catholic cathedral—a very enjoyable and moving ceremony.

Interviewed in Tokyo today, MacLear said the POW camp was within the Hanoi city limits, "in the suburbs, surrounded by rice and hidden by poorer type houses with sloping straw roofs."

"Inside, it was a very spacious camp," he said, "with grass growing in a center piece area, and a concrete-lined pond overhung with willow trees. I suppose the whole came to a space of 80 feet by 100 feet on all sides. There was a low single-story building with 8 to 10 rooms on each side. We were restricted to one room about 30 feet by 22 feet."

"On one side of the building was a long veranda with lattice bamboo curtains and behind the curtains bolted doors. The windows had iron bars. But aside from this, there was no suggestion of a cell."

"There were three beds, only two of which were made up, suggesting that there were only two in the room, those interviewed. The furnishings were minimal—a small wooden bench, boxes, or local baskets were in which the prisoners kept some family pictures. On the walls there were Yuletide messages."

"These rooms backed onto a volleyball-basketball court in which the prisoners said they could use all day."

MacLear said he questioned whether they were prisoners in this particular camp and concluded from details of their conversation and their knowledge of its fittings that they were.

Antwar statements by two American prisoners in a televised interview from North Vietnam may have been staged, according to their relatives in the United States.

### Road Fatalities Mar the Holiday

BY THE ASSOCIATED PRESS

Two fatal auto accidents—one here on Christmas Day and another in Rocky Hill Sunday—were reported in Connecticut over the Christmas holiday weekend.

In addition, a man from New Britain was killed when he was struck by a car on New York State Route 28 in New York State Sunday morning.

In the Rocky Hill accident, Mrs. Linda J. Chanson, 22, of Alford, was killed when a car struck her while she was in a car.

Although return to our solar system's second-largest planet, hampered driving over much of the nation during the first hours of the weekend, dry, cold weather.

### Youth Arrested After Holdup at Hartford Hotel

shortly after the 1:30 a.m. robbery in the area of Bushnell Park, police said.

The National Safety Council had estimated that from 800 to 850 persons would die in traffic crashes during the 78 hours. The record high toll since World War II for the three-day celebration of Christmas was 720 in 1968. The record low for the three-day observance of Hartford with robbery with nine years, left today for a new assignment in Hanoi.

Police charged Albert Harvey, 23, and his 17-year-old brother, James Harvey, 17, with the robbery. The boys were taken into custody early Monday morning after he robbed \$600 from the Hotel SoHo on Constitution Plaza, police said.

Harvey boy was free on bond commercial delegation. Later his title was changed to head of the North Vietnamese general delegation. No successor has been announced.

### Petition on POWs

DALLAS, Tex. (AP)—A truck laden with letters and petitions signed by an estimated 10 million Americans who want the release of prisoners of war in North Vietnam left Dallas Sunday on a journey which will end next month in Paris.

The 26-ton truck started in San Diego, Calif., and is making pickup stops at major cities en route to an expected arrival in Times Square in New York City on New Year's Eve.

About 55,000 signatures were collected in the Dallas-Fort Worth area.

Ronny's expect to present 18 million signatures to the North Vietnamese delegation at the Paris-peace talks next month.

# Gold No Handicap to 49ers

MINNEAPOLIS — ST. PAUL (AP) — The San Francisco 49ers are headed for a National Football Conference championship game against the Dallas Cowboys — and it's just possible the road warrior team will be helped by a little psychology that kept them from blowing their cool in the cold.

Whether Coach Dick Nolan's pregame training plan and quarterback John Brodie's short-sleeved game jersey were all part of a planned psychological

attention from the frigid cold that has become an ally of the Minnesota Vikings probably will affect you if you think about it, Nolan acknowledged. "There was a lot written about the cold in the week before the game," he said. "I'm sure the Cowboys know it, too. I'm sure the Dallas Cowboys know it, too. I'm sure the Dallas Cowboys know it, too."

Brodie kept his troops from losing their cool over five fumbles during the game. The writing remained on the West Coast for workouts.

# Bowling Defense Key In Dallas Win

DALLAS, Tex. (AP)—Destiny's stepchild for four consecutive years in the National Football League playoffs is gunning for the Super Bowl again with a simple defense.

The Cowboys' Defensive Line has outscored the opposition in the last four quarters. Dallas' defense haven't allowed a touchdown in seven quarters. The Dallas defense has allowed only seven points in the last four quarters. Dallas' defense has allowed only seven points in the last four quarters.

# Sports Briefs

**Wild Hockey Game**  
QUEBEC (AP)—The Quebec Aces scored two early goals and went on to a 6-0 victory over Springfield in a wild American Hockey League game Sunday night.

Both benches emptied and began brawling at 16:36 of the first period after Quebec held a 2-0 lead.

# Dartmouth Hot After Joe Yuliska

HANOVER, N.H. (AP)—Dartmouth officials, alumni and fans continued to celebrate today to woo Joe Yuliska from Boston College as their football coach.

Yuliska, who served as an assistant coach at Boston College for three years, was named coach of the Dartmouth football team today.

UPENDED—Bill Tucker of the 49ers hits the ground hard after being dumped by Minnesota Vikings' Karl Kasulke and Roy Winston. San Francisco won.

# Raiders Impress Baltimore Staff

BALTIMORE (AP)—The Baltimore Colts have nothing but respect for the Oakland Raiders, their opponents in next Sunday's American Football Conference championship game.

Speaking mostly in platitudes, Baltimore coach, head Jerry Logan praised the Oakland Raiders after their 21-14 victory over the Miami Dolphins in Sunday's playoff semifinal.

# Robustelli and Kiaris Rated Tops

By THE ASSOCIATED PRESS  
DAVE KIARIS of Trinity was Connecticut's leading college football runner in 1970. He averaged 100.5 yards per game in 1970.

Kiaris was statistically the best ball carrier in the nation's college circuits, as he had to be the best in the state.

# Shula Predicts Battle Of Raiders Vs. Colts

TOLLAND (AP)—Don Shula, a fellow who should know, foresees a rugged battle all the way when the Oakland Raiders collide with Baltimore's Colts next Sunday in the American Football Conference championship game.

Shula left the head coaching job at Baltimore this year to take over the Miami Dolphins.

NO TIME TO REJOICE—Bob Grim of Minnesota sits alone in front of the NFL Western Division title after his team was upset by San Francisco for the NFL Western Division title.

# Blue-Gray Game Under Arc Lights

MONTEGOMERY, Ala. (AP)—Fifty-four college seniors representing schools in the North and South demonstrated their football skills tonight in the first Blue-Gray football game ever played under the lights.

Always before, the intercollegiate game has been played in the daylight.

# Ali-Frazier Fight Slated For Garden

BOSTON (AP)—Ken Tatum, a relief specialist recently acquired by the Boston Red Sox in a trade which sent Tony Conigliaro to the California Angels, will be introduced to fans at the Boston Baseball Writers' 32nd annual dinner Jan. 25 at the Statler-Hilton Hotel.

Tatum will be joined at the head table by Wayne Granger, the Cincinnati Reds' ace reliever, and Tom Seaver, the New York Yankees' ace pitcher.

# William and Mary Faces Toledo Tonight

ORLANDO, Fla. (AP)—William and Mary upset of Steve Regan was the last-strling 10-7 victory in a row foot-quarterback at William and Mary team in the Tangerine Bowl.

Regan became the Indian tonight, the 5-08-quarter leader when three other quarterback shoulders the hopes for a tetrack were knocked off by Toledo.

# Springfield Hosts Hoop Tourney

BOSTON (AP)—An annual basketball madness, called the Springfield Hoop Tourney, is sweeping the New England college ranks this week.

Many schools interrupt their conferences or independent schedules to play in the tourney, variously known as classic, festival, invitational, and championship.

# Great Britain Netters Favored

PERTH, Australia (AP)—Great Britain emerged favorites to win their first Federation Cup women's tennis tournament in a semifinal match at Royal Victoria Park Monday.

The experience of England's Ann Jones, 22, and Virginia Smith, 20, proved too much for the young American team of Patti Hogan, 22, and Sharon Walsh, 19.

# Undeclared Eagles Host Northwest

## MCC Plays First Home Tilt Tonight

By DEAN YOST  
The first of two holiday breaks is over, and high schools and college basketball teams resume their full schedule of games. Tonight three contests are on tap.

Manchester's East Catholic High (9-2) in Central Valley Conference tilt at 8. Also, Somers High (8-3) in OCCL play; South Windsor High (6-0) in Willamette and Bloomfield High invades Rockville High (9-2) in Central Valley Conference play.

## Bruin Win Skein Ends At 10 Tilts

BOSTON (AP)—The Boston Bruins, evicted from Boston Garden by the Boston Celtics, won their first home game of the season against New York City at the Clark Arena at 8.

Action Tuesday night includes Manchester High's first home game of the season against Norwich at 8. Also, Somers High (8-3) in OCCL play; South Windsor High (6-0) in Willamette and Bloomfield High invades Rockville High (9-2) in Central Valley Conference play.

## Cleveland Scores Again Over 70ers

By THE ASSOCIATED PRESS  
The Cleveland Cavaliers are on a winning streak. Two in a row.

"That may not sound like a lot for most teams, but it is for them."

"That's a heck of a streak for us," Coach Bill Fitch said Sunday night after his battered veteran club beat the Philadelphia 76ers 114-101 in the National Basketball Association Sunday night.

## Blues Tie Rangers With Big Comeback

NEW YORK (AP)—The St. Louis Blues' Barclay Plager takes a tumble after trying to check Rangers' Jean Ratelle who was bringing up puck in NHL play yesterday.

minutes including 10 majors and Flyers bounced back with goals on a miscalculation whittled down 34 seconds apart by Jimmy Johnson and Guy Heard.

## College Basketball Roundup

PLAY TONIGHT—Captain Ron Mira and Coach Pat Mistretta of Manchester Community College's basketball team are set for Norwalk five tonight.

WESTERN KENTUCKY COACH SURPRISED  
NEW YORK (AP)—One of the four teams in tonight's semifinals of the Holiday Festival Basketball Tournament is 10th-ranked Western Kentucky—and no one's more surprised than Hilltopper Coach John Oldham.

Vernon Holly Noelle Herolds Start Of Christmas

One Christmas baby was born at Rockville Memorial Hospital, Christmas Day, Krista Ann, the first child of Mr. and Mrs. Clayton Burgeon of North Cheshire. Mrs. Burgeon was visiting with her parents in Broad Brook.

A Christmas Eve baby, Holly Noelle, was born to Mr. and Mrs. Dennis L. Gorch, 142 N. Lake wood Circle, Christmas Eve. Holly has a sister, Denise Lee, 2½. Her maternal grandparents are Mr. and Mrs. Robert Wallace of 108 High St., Rockville and her paternal grandmother is Mrs. Eugene Goding of Houlton, Me.

Two Pedestrians Struck by Cars

A Manchester woman was admitted to Manchester Memorial Hospital, and an Avon man was treated there after they were hit by cars over the weekend.

Willis M. McLaughlin of 28 Williams St. was crossing Main St. near Pine Hill St. Saturday afternoon when he walked into the path of southbound car driven by Danella K. McVeigh of 18 Conway Rd., police report.

Mrs. McLaughlin was admitted to the hospital with fractured legs and is reported in satisfactory condition. On W. Middle Tpke. near the east entrance to Wickham Park, Richard M. Stevens, 23, of Avon was crossing to his car parked on the north side of the road when he was hit by a car traveling east driven by Gerald H. Dube of West Hartford, police said. Stevens was treated at Manchester Memorial Hospital.

Nun Will Speak To Rotarians

Sister Marie Alice LaGace, member of the African and World Apostolate, will speak about her work in this country and in Africa, tomorrow at a meeting of the Manchester Rotary Club at 8:30 p.m. at the Manchester Country Club. Sister Marie has studied at St. Joseph College, West Hartford, and at the University of Hartford. Before going to Africa, she spent nine months as principal of a village school for the Cameroon. She was active in the United Nations and in the World Apostolate, an ecumenical, interfaith and inter-racial organization. She is also Downey Dr. Mrs. Nelson Warfield, working for the establishment of a prayer house in the same area. Sister Marie is a member of the Archdiocese of Hartford, and is a member of the Archdiocese of Hartford.

She returned to the United States to recruit professional men and women for service in Africa, through the African and World Apostolate, an ecumenical, interfaith and inter-racial organization. She is also Downey Dr. Mrs. Nelson Warfield, working for the establishment of a prayer house in the same area. Sister Marie is a member of the Archdiocese of Hartford, and is a member of the Archdiocese of Hartford.

Hospital Phone

The telephone number for Manchester Memorial Hospital was changed a few months ago, but too late to be listed correctly in the new phone books. The hospital number is 646-1222.

Investigators Start Probe Of Jet Crash

CHARLOTTE, N.C. (AP) — Federal investigators began an inquiry today into the crash of a Trans Caribbean Airlines jet in which a New Jersey man and his son were believed killed. Nineteen persons were hospitalized after the crash Monday of the Boeing 727 jet in the waters off the Virgin Islands of St. Thomas. The other 32 persons aboard were treated for minor injuries and released. The Krum-Hansen Hospital said two unidentified bodies were brought to its morgue, and one apparently was a child's. They were believed to be John Vanyo of Murray Hill, N.J., and his son, Victor, who were listed by the airline as missing. Vanyo's wife and three other members of the family were among the survivors. One, Raymond, was hospitalized with a broken leg. Beginning with the week of Oct. 31, when it was 6.1 per cent, it rose to a high of 7.4 per cent, it rose to a high of 7.4 per cent, it rose to a high of 7.4 per cent.

Dempsey Extends Emergency State On Unemployment

HARTFORD (AP) — Gov. John Dempsey Tuesday declared a continuing unemployment emergency in Connecticut, automatically extending unemployment benefits to about 3,500 persons for 13 more weeks. A special session of the General Assembly in October enacted a 13-week emergency extension from federally collected unemployment funds as a result of the recession. The most employed workers will be extended to a full year. The state has 26 weeks provided under normal unemployment claims drawn from employer-collected funds as a result of the recession. The special session and now the additional 13 weeks paid out of federal benefits may be extended to a full year. The state has 26 weeks provided under normal unemployment claims drawn from employer-collected funds as a result of the recession. The special session and now the additional 13 weeks paid out of federal benefits may be extended to a full year.

Senate Passes Bill Offering Israel, Cambodia Cash Aid

WASHINGTON (AP) — The Senate passed early today a \$1.8-billion appropriation bill providing \$255 million for Cambodia and \$500 million to help bolster the armed forces of Israel. That bill was sent to President Nixon for his signature. The bill was passed by a vote of 87-10. The bill was passed by a vote of 87-10. The bill was passed by a vote of 87-10.
