

Cloudy, cold with chance of light snow tonight; low near 30. Snow continuing into tomorrow; forenoon followed by partial clearing; high 25 to 30.

Commander Cleared In My Lai Case

ALAN B. SHEPARD JR.

WASHINGTON (AP)—The Army, acting in "the best interests of justice," dropped all charges today against Maj. Gen. Samuel W. Koster, former West Point superintendent, accused in the alleged covering up of the massacre of South Vietnamese civilians at My Lai.

Countdown Now Enters Critical Stage

By HOWARD BENEDETTI

CAPE KENNEDY Fla. (AP)—The Apollo 14 astronauts today are in a two-day countdown for Sunday's launch of the My Lai incident nearly three years ago when more than 300 South Vietnamese civilians allegedly were murdered by American soldiers.

They are Col. Oran K. Henderson and Capt. Dennis H. Johnson. Henderson and Johnson were accused of committing crimes at My Lai, but charges have been dismissed against all but three. Murder charges are still pending against Captains Ernest L. Medina and Eugene J. Kosove and Lt. Col. Charles G. Calley Jr.

Color page on Apollo 14 Moon Trip is on Page 5

Roscoe started the day performing orbital tasks in the command ship simulator while Shepard and Mitchell studied the flight plan, principally the approach to the lunar surface and takeoff.

They set aside time this afternoon for gymnastic workouts. Several delicate bonding operations occupied the launch crews.

Early today they pumped atmospheric helium into the lunar module. This slushy substance, kept at 60 degrees below zero, will be used to pressurize the engine of the landing ship during the descent to the moon.

Then liquid hydrogen and liquid oxygen were fed into tanks that serve the command ship's fuel cells. These two liquid liquids combine in the cells to produce electricity.

Because of the hazardous nature of these procedures, the launch pad was cleared of all but essential personnel. Liquid oxygen must be maintained at 207 degrees below zero and liquid hydrogen at minus 422 degrees.

A spokesman said all of the raids were on the Laotian side of the border except for one in the northwest corner of South Vietnam, 15 miles northwest of the SAK. This same region has been hit a dozen times this month.

"We are getting indications of infiltration of supplies and troops in the region northwest of the SAK. This same region has been hit a dozen times this month."

"Figures for the state's projected deficit, released today by State Comptroller Nathan Agostinelli, place it at \$233,245,308 for an increase of \$25 million over the last previous projection."

The projected deficit is for the fiscal biennium ending June 30, and is based on revenue and disbursements to Nov. 30, 1970. The last previous projection was \$203 million. It was based on revenue and disbursements as of Oct. 31, 1970.

Gov. Thomas Meskill, in his inaugural address, predicted that the state deficit would reach \$200 million. That was the figure used by most observers in the State Capital.

Agostinelli said today that the \$233.2 million deficit, if divided among the state's 3 million population, comes to \$78 for each man, woman and child.

"The \$25 million increase in the deficit," Agostinelli explained in today's report, "may be attributed to decreased revenue estimates of about \$18.9 million, and an estimated increase in expenditure requirements of about \$11.1 million."

The income in the state was not most in the areas of sales and use taxes. They accounted for \$11.1 million of the \$11.9 million figure.

On the spending side, water continued to be a widely under-

About Town

Mountain Laurel Chapter of Sweet Adelines will sing at 8 p.m. at the Bantam-American National Center, 215 Westfield Ave., Hartford. The rehearsal is open to women in the field in joining this four-part harmony chorus.

The annual meeting of the Manchester Memorial Hospital Credit Union will be held tonight at 7 p.m. in the Dining Room of the hospital. Reports of officers will be read, and new officers will be elected. All members and prospective members are invited to attend.

Manchester Little League coaches and directors will meet tonight at 7:30 at the Army & Navy Club. Members of the Auxiliary and women wishing to join the Auxiliary are asked to attend.

The Church of the Assumption will have an old-time string-long session from 8 p.m. to midnight at the church hall. Those planning to attend are reminded to bring their own music.

The Chapel Choir of Emanuel Lutheran Church will rehearse at 7:30 in Luther Hall of the church.

Joseph Albano, artistic director and associate staff of the Hartford Ballet Company, is touring the state.

Regional Aides Back Merger with CRPA

The Capitol Region Council of Governments (CRCOG) is backing legislation which would permit it to consolidate with the Capital Region Planning Agency (CRPA).

The CRCOG represents 20 of the 29 towns in the Capitol Region. All of its members and its alternates are elected town officials.

The CRPA represents all 29 towns of the Capitol Region. All of its members (it has no alternates) are appointed to three-year terms. Of Manchester's three members to the CRPA, two are appointed by the Board of Directors.

The CRPA is appointed by the Planning and Zoning Commission. Both the CRCOG and the CRPA have been receiving operational grants from federal agencies. The grants have resulted from approved applications filed by the CRPA, which has been administering all of the funds, including the allocation of shares to the CRCOG.

The federal agencies now are operating under a new rule, which requires them to award planning grants to organizations of elected officials only. Consequently, talk for consolidation has been going on for several weeks among committees of the CRCOG and CRPA.

The CRCOG is backing legislation which would provide state grants on a matching basis for the support and operation of regional drug information centers, as well as legislation which would provide state grants, also on a matching basis, for regional narcotics and crime squads. The CRCOG sponsors both.

Other legislation endorsed by the CRCOG concerns air pollution control and the removal of junked cars.

Mr. Parnass said on federal revenue sharing and on a state income tax which would be discussed and voted upon at the council's February meeting.

At the last night's meeting was the first official one for Mayor James Parr and Deputy Mayor William Dians, Manchester's new delegate and alternate.

They succeed State Comptroller Nathan Agostinelli and State Sen. David Odegar.

Agostinelli, who resigned Jan. 27, at a location in the control officers at Keefer AFB, Minn., a 1966 graduate of Manchester High School, he received a BA degree from the University of Connecticut and is being assigned to Ft. Campbell, Ky. for duty with a unit of the Air Force communications service.

Second Lt. John D. Minnick, son of Mr. and Mrs. William J. Minnick of 200 Wetherill St., has graduated from the training course for USAF air traffic control officers at Keefer AFB, Minn. A 1966 graduate of Manchester High School, he received a BA degree from the University of Connecticut and is being assigned to Ft. Campbell, Ky. for duty with a unit of the Air Force communications service.

Proceeds from the Heart Fund Drive will be used to support research and educational programs and community service activities.

The drive will reach its peak tonight at 7:30 in the church hall, when volunteers will visit their neighbors to deliver educational signs of heart attack and to receive Heart Fund contributions.

Richter at 30 Duval St. and Daniel Cole at Elizabeth Dr. "The Democratic Club of Manchester," its organizers claim, "will be an organization for creating townwide interest, participation and involvement in politics. Its aim is the election of Democrats to office."

Frank J. Scheebing will be the toastmaster for the 27th annual Town Fire Department Ladies Night.

Tickets may be obtained at any of the town's four fire houses before Feb. 3.

The temporary chairman is John J. Sullivan. The temporary chairman is Miss Victoria Moulton.

Drive Chairman

James L. Beattie Jr. of 44 Hilltop Ave., Vernon, has been appointed chairman of the 1971 Heart Fund Campaign in Manchester.

The board of deacons of Community Baptist Church will meet tonight at 7:30 in the church youth building.

The Christian education committee of Emanuel Lutheran Church will meet tonight at 7:30 in the church board room.

Full Gospel Christian Fellowship, Interdenominational, will have a Bible study and open discussion at 7:30 at the church hall.

Center Congregational Church will have its annual financial meeting tonight in Woodfield Hall of the church. The meeting will open at 7:30 with a coffee, and the business session will begin at 8.

Second Lt. John D. Minnick, son of Mr. and Mrs. William J. Minnick of 200 Wetherill St., has graduated from the training course for USAF air traffic control officers at Keefer AFB, Minn. A 1966 graduate of Manchester High School, he received a BA degree from the University of Connecticut and is being assigned to Ft. Campbell, Ky. for duty with a unit of the Air Force communications service.

Tolland County Legislators Are Wary of Piggyback Tax

By BETTE QUATRALE (Herald Reporter)

Tolland County state legislators are all but unanimous in their reservation regarding the recently released State Revenue Task Force report, particularly its recommendations for a 20 per cent piggyback income tax and the removal of existing sales tax exemptions including the one on children's clothing.

It is not the concept of the income tax which made the legislators unhappy, since most of them have admitted privately that the state should actually have initiated the tax two years ago avoiding the present \$200 million deficit.

The legislators are primarily unhappy with the lack of hope for increased aid to the towns to relieve the property tax burdens.

Tolland's Robert King and Bolton's Dorothy Miller, both veteran Republican legislators, go as far as to predict that Gov. Thomas Meskill's statement ruling out any increase in the basic ADM grants to the towns for education will be a personal reality.

Tolland County's Democratic State Sen. Robert Houley (R) is not so optimistic. He is not so optimistic as to expect the 20 per cent piggyback income tax to do so in a short of time.

Houley would opt for a progressive income tax based on individual's ability to pay and which, he says, would be a piggyback tax with its built-in endorsement of the federal tax system.

Houley was one of the few legislators to support the concept of a graduated state income tax during the last session.

Jobless Report Shows Increase

HARTFORD (AP)—The rate of unemployment in Connecticut, measured by the number of persons applying for compensation, rose slightly last week to 9.8 per cent.

The department reported on Thursday that there was a slight decrease of 877 Connecticut residents filing for compensation, indicating there was a slightly larger increase in the number of claims filed by out-of-state residents.

The department said 106,460 claims were received in the week ending Jan. 25—a sharp contrast to the same week last year when the number of claims was 118,463.

State Rep. Miller is against the "imposing of increased charges for state unemployment insurance and adding it may mean a lot of kids can't go on to college."

Overall picture
The legislators are ready to admit to the state's financial dilemma and to attempt to work with the problem, rather than to merely opt for a wide range of temporary fixes which inevitably become permanent.

State Rep. Miller is against the "imposing of increased charges for state unemployment insurance and adding it may mean a lot of kids can't go on to college."

Sheinwold on Bridge

By ALFRED SHEINWOLD

MAKE SURE OF BID IN RUBBER BRIDGE
One of the important things to remember about rubber bridge is that overcalls are very important. If you concentrate on making your contract you will be more successful in the long run than the player of equal skill who risks his contract in the attempt to win an extra trick or two.

West led the ace of hearts and continued with another heart to the king. South led a higher education to all but the rich," Houley stated, terming the idea a step backward in education.

King, on the other hand, feels it is proper for the young people to pay their own way for education, but he would add that the state should not be made readily available to those who need them.

King can close the door on the state's financial dilemma and to attempt to work with the problem, rather than to merely opt for a wide range of temporary fixes which inevitably become permanent.

State Rep. Miller is against the "imposing of increased charges for state unemployment insurance and adding it may mean a lot of kids can't go on to college."

Services in Seventies Army's Caissons Roll; But in Dual Directions

By GEORGE C. WILSON (The Washington Post)

WASHINGTON — The United States Army is marching off into the 1970s in two different directions, the split formation stemming from trying to prepare for a World War II as well as anticipate a different type of conflict.

Because the known is more compelling to the Army's top leadership than the unknown, the bulk of the service's resources is going for the main effort of preparing for another land war in Europe.

Army Secretary Stanley R. Beer, a colonel in the Regular Army, and sometimes alarm, that the Army may be going the wrong way in its planning.

Another dividend from this re-emphasis on conventional forces in making the President tolerate Russia, surpassing the United States in ICBMs and other great nuclear weapons.

Bill, the Army brass thought enough of the "Green Berets" future to just one of its most colorful leaders from Vietnam.

"In this changed environment," Beer said, "conventional forces emerge as increasingly effective means for exerting either military or diplomatic pressure."

As a student, Green Berets have eased their way into impoverished Anson County near the base to help the police force there by providing medical examinations to people who never had access to medical care.

Soviet Giants Bothered By Big Problems

The Godfather

MOSCOW (AP)—The extra big man in Russia has problems bothering his state.

Every since I got out of dispatch I've suffered a great deal trying to get clothes and shoes that fit," he complained in the magazine Nedra.

What about the notion of a "balance" within the Army? "Balance," Emerson almost said, shouting it as though explosive coming thing like it.

But higher pay, beer-in-the-barrel long haircuts are not enough to achieve a crack Army, of the 1970s.

Coventry Public Hearing Scheduled On Martucci Resignation

The Board of Education has set Feb. 11 as the night for a public hearing to reconsider its decision to accept the resignation of guidance counselor Ernest Martucci. The hearing is being held because of petitions submitted to the board by 21 townspeople, requesting it and asking for the reconsideration of its action of Jan. 16.

The hearing will be held at the high school at 7:30 p.m. About 100 residents attended last night's board meeting and many requested to speak under the "audience of citizens" portion of the agenda concerning the Martucci case.

Richard Cronin read a resolution for consideration by the board, asking that the board delay implementation of its action of Jan. 16 accepting the resignation of Ernest Martucci, until such time as the superintendent of schools has been appointed and has had an opportunity to review the circumstances and make his recommendations to the Board of Education.

The board is a unanimous decision refused to consider the resolution.

Other residents rose to speak. The board also heard a letter of the need for the board to take a leadership role in attempting to do something about the drug problem. Some said they hoped the board would "reconsider."

Andover School Board Ready For Budget Sessions

The Andover Board of Education will hold its regular monthly meeting next Tuesday evening at 7:30 at the school.

Scheduled for the meeting are a review of the reading programs in the school with teachers present to tell to the board their problems and requests in this area, as well as to indicate the effectiveness of the current program.

The board has extended an invitation to the residents to attend the next few meetings, as work will begin Tuesday on the preparation of the budget. Residents and parents have been asked in an effort to better realize and appreciate all the considerations involved in drawing up the school budget and to be of assistance where possible.

Principal Mrs. Doris Chamberlain said that townspeople may not be aware of the facts in particular areas of education and in the interests of the special education program, has released the following data.

A public budget figure shows something in excess of \$40,000 has been allocated toward special education; this does not include any federal funds directed to the same purpose and which the school must show specific plans and results for continuation.

There are in Andover such a small number with learning disabilities that the school cannot afford to maintain classes for them. Under statutory requirements, these youngsters must attend a special class set up specifically to meet their needs.

The school has the task of identifying and testing children in this category. Thus, Andover is the nearest school to Vernon, the nearest school with such classes five youngsters who are transported there and back each day. One youngster, who is now beyond the local school age level, is attending a school in another state, since no further help is available to him in Connecticut.

Two pre-school youngsters in town attended a special school in Mansfield until they were of an age to come to attend classes in town. Although one of these youngsters has since moved, the other attends in Andover with a special program and a trained individual coming each week for special instruction.

Andover has a program involving a social worker for the past eight years and long before any law made it necessary. This person counsels children, aids parents and works with teachers in setting up programs for individuals with special learning problems. There is a speech therapist working with some 25 children on an individual and group basis, and using federal funding, a personal reading instructor.

Still another person has been employed, again using federal funds, to work four afternoons a week with eight youngsters on a group of two basis, developing perceptual areas. With the same funds, an aide is employed with individual children in three classrooms carrying out lesson plans and programs with individual children developed by the teacher.

Andover has a special class for youngsters who need special programs, which also includes children from another town; this class was formed long before the state laws made it mandatory. Children in this class join regular classes in a

Coventry Martucci Supporters In Rebuttal

Following last night's meeting of the Board of Education, the ad hoc Citizens for Martucci issued the following eight-point rebuttal to "An Open Letter From the Board of Education," published earlier this week:

"1. Martucci withdrew his resignation on Jan. 16, before the deliberation. Therefore the board had no resignation to vote on. Their decision has no basis in fact.

"2. Martucci did not know the content of the drug letters prior to their distribution. He did not approve the action of the student who wrote and distributed them. When informed of the letters, Martucci and his wife rushed to the high school and destroyed the remaining letters.

"3. Martucci said he regretted the incident and did not approve of the students' actions. A newspaper report to the contrary was the invention of a (Hartford Times) reporter, who has repeatedly mis-stated the facts of this case.

"4. The excerpts in newspapers from the board's open letter are taken out of context. They are not admissible in a court of law. The board does not present one shred of probable evidence that would damage Martucci's professional reputation.

"5. Martucci never mentioned that he had a list of known drug users or that he had compared one with an official police list.

"6. The Jan. 16 board meeting was not open to witnesses during the entire meeting. For almost two hours the only people present were the seven board members and three school administrators.

"7. Martucci did not make any unsubstantiated disclosures.

"8. Martucci did not state that he did not dictate his letter of resignation in the presence of a witness.

"9. Martucci did not say he would not obey the orders of the board.

"10. Martucci did not say he would ignore students against the school administration.

Whale Disaster

CAPE TOWN, South Africa (AP) — The 25-foot sloop Pioneer, a South African entrant in the Cape Town-Rio yacht race, sank Thursday when it ran into a whale.

In huge red letters the sign says, "Candy Jane, I still love you, Red."

"It's a beautiful sign," said Miss Johnson, adding that it did not change her mind about plans to marry another man.

Appointments to Boards On Agenda for Tuesday

Business to be taken up by the Board of Directors at its meeting Tuesday night includes accepting the resignation of Director David Odegaard and appointing a replacement for him, appointing members to three town commissions, and approving the allocation of funds for several projects in town.

The meeting is at 8 in the Municipal Building Hearing Room.

Odegaard is resigning to devote all of his time to his duties as a state senator from the Fourth District. He will be replaced by Carl Zinsner, a member of the Housing Authority who is resigning from that body Tuesday night.

The board will appoint a replacement for Odegaard Tuesday.

Other appointments on the agenda are a member to the Civil Defense Advisory Council for a two-year term, and a member to the Citizens Advisory Committee to fill the unexpired term of Mrs. Eleanor Coleman, which ends in 1971.

Allocations to be considered Tuesday night are —

1) \$400 from the Sewer Revenue Fund for sub-surface investigation in conjunction with the preparation of plans for Greenwood Dr. sanitary sewers.

2) From the Capital Improvement Reserve Fund —

a) \$3,000 for clearing, grubbing, providing storm drainage and paving a cul-de-sac at the end of Overlook Dr.

b) \$10,000 for the installation of a septic tank there, this project

Vernon Hospital Gets Mobile Unit For X Rays

Rockville Hospital is the first to "leech out" of his job because of his willingness to tackle the problem.

Chairman Richard Messier told those present that the board "has long been aware of a drug problem," is concerned about it and is attempting to do something. "We would be remiss if we just closed our eyes and ignored it," he said.

A parent, Mrs. Jacqueline Covey, asked what was being done in terms of a school program of drug education. Superintendent of Schools Laurence O'Connor replied that the "act" program has been purchased for grades K through four, that in grades five through eight the question is handled through school activities and assemblies and that all students are exposed to some drug education in the high school because biology is a required subject. Chemistry, physics and modern problems courses at the high school also deal with drugs at opportunity to review the circumstances and make his recommendations to the Board of Education.

Mrs. Covey said she has three children in the local schools and is concerned, nothing is being done, nothing is being done.

Other residents rose to speak. The board also heard a letter of the need for the board to take a leadership role in attempting to do something about the drug problem. Some said they hoped the board would "reconsider."

Starts Practice

Dr. Samuel G. Smith started practicing obstetrics and gynecology in Manchester this week at 161 Main St. He is associated with Dr. Philip E. Sumner and Dr. John P. Wheeler.

For the last nine years Dr. Smith has been in the Army. From 1969 to 1970 he was commander of obstetrics in a hospital in Chino, in northern Japan. For the year before that he was chief of obstetrics at West Point. From 1964 to 1967 he was at Tripler Army Medical Center in Hawaii, where he received his residency training in obstetrics and gynecology. Prior to that, he served with the Air Force in the 1st Cavalry Division, a native of Short Hills, N.J.

Dr. Smith interned at Fitzsimons General Hospital in Denver, Colo. He received his doctor's degree at the University of Rochester in Rochester, N.Y., and his bachelor's degree from Dartmouth College, Hanover, N.H. He is certified by the American Board of Obstetrics and Gynecology.

Dr. Smith, his wife, Robin, and their three children plan to make their home here in Manchester.

Per Pupil Cost Up 12 Per Cent

HARTFORD (AP) — The Connecticut Public Expenditure Council reported Friday that the cost of operating public schools in Connecticut increased last year from \$7.64 per pupil to \$8.58 per pupil — a 12 per cent increase.

The CPCEC, a private group that studies state fiscal affairs, said the 12 per cent increase matches the rate at which per-pupil public education costs grew in 1969. In terms of dollars, the CPCEC said the \$8.58 increase last year was a continuation of a trend of record increases each year.

The CPCEC said Darlen had the highest per pupil operating expense at \$1,277. Sterling was lowest, with \$509 per pupil.

The money to support schools according to the report, was supplied by local taxes (63 per cent), state aid (22 per cent) and federal aid (3 per cent). The total cost was \$966 million.

In addition, the CPCEC said, the state paid \$40 million into funds for teachers' pensions in fiscal 1970.

Little Change

EL TORO, Calif. (AP) — Showgirl Candy Jane Johnson's ex-husband is trying to woo her back.

In huge red letters the sign says, "Candy Jane, I still love you, Red."

"It's a beautiful sign," said Miss Johnson, adding that it did not change her mind about plans to marry another man.

Worker Burned At Wethersfield

WETHERSFIELD (AP) — One man was in critical condition at Hartford Hospital with second and third degree burns after an early morning fire broke out at the Fire Marshal's office.

The injured man, a Heas Oil Co. dispatcher, Fire Marshal John Cleary said the alarm was sounded at 1:30 a.m. He added that the fire apparently began when gasoline being loaded into an underground tank from a truck overflowed and went into the dispatcher's tank and ignited when it hit an electric heater. The fire marshal said Cleary was inside the electric tank when the fire started.

Cleary said the tank was destroyed in the blaze.

The driver of the truck, Jack Roberts, was treated at Hartford Hospital and released.

For drug advisory information, call: 647-2222.

Police Log

ACCIDENTS

A van driven by John J. Keane of 64 Maple St. struck a car last night parked on Spruce St. near Oak St. belonging to Goodwin A. Gilbert of 28 Hollister St.

Last night a vehicle which left the scene damaged a car parked at the Holiday Lanes on the area of the hospital.

The batteries in the unit will provide the precise, consistent power needed for every X-ray exposure for a full week without recharging. Hospital officials said it is reassuring to know, in the event of a power emergency, it will still be possible to obtain certain X-ray results for an extended period of time with the new machine.

It was further noted by hospital officials that automation in reporting on X-ray studies to doctors at the local hospital. Using equipment called the "auto-type" in Hartford, Conn., to have reports of normal X-ray findings typed double the regular typing speed. It eliminates the tedious and time-consuming task of distributing these reports for insertion into patients' charts sooner than has been possible in the past.

A written warning for following too closely was issued yesterday afternoon to Richard M. Roman of 60 Scott Dr. as a result of a collision at Green Rd. near Welleley Rd. between his car and one driven by James A. Stacey of Hartford.

At the Parade yesterday afternoon a vehicle which left the scene damaged a parked car belonging to Irene M. Provost of South Windsor.

A written warning for failure to grant right of way was issued yesterday afternoon to Shirley A. Bellardo of 390 Ferguson Rd. as a result of a collision at Highland and Wyllys Sts. between her car and one driven by Henry A. Zuberkaner of Uniondale, N.J.

Post Cards to Painting: Art Show All-Embracing

By DONALD MCHICOLL, Associated Press Writer

LONDON (AP) — Zigon Schiele, whose paintings once landed him in jail for obscenity, has an honored place in the state of the art exhibition.

Schiele's canvases scarcely raise eyebrows here. They are part of a Vienna Secession exhibition, representing a movement that got its name from the artist who broke away from what they branded the stifling conformity of traditional art. They took as their spheres not a car last night parked on Spruce St. near Oak St. belonging to Goodwin A. Gilbert of 28 Hollister St.

No power outlets or cables are needed to operate the new machine so X-rays can now be taken whenever necessary in any area of the hospital.

The batteries in the unit will provide the precise, consistent power needed for every X-ray exposure for a full week without recharging. Hospital officials said it is reassuring to know, in the event of a power emergency, it will still be possible to obtain certain X-ray results for an extended period of time with the new machine.

It was further noted by hospital officials that automation in reporting on X-ray studies to doctors at the local hospital. Using equipment called the "auto-type" in Hartford, Conn., to have reports of normal X-ray findings typed double the regular typing speed. It eliminates the tedious and time-consuming task of distributing these reports for insertion into patients' charts sooner than has been possible in the past.

A written warning for failure to grant right of way was issued yesterday afternoon to Shirley A. Bellardo of 390 Ferguson Rd. as a result of a collision at Highland and Wyllys Sts. between her car and one driven by Henry A. Zuberkaner of Uniondale, N.J.

Abandoned

READING, England (AP) — The Reading police have abandoned an inquiry into pornography. Somebody stole all the 24 days in jail for "obscenity."

Just the same, Schiele stands out in the exhibition, as second only to Klimt. Both died in 1918. The show includes the aged and self-portrait in pencil watercolor that Schiele made during his 24 days in jail for "obscenity."

APOLLO 14

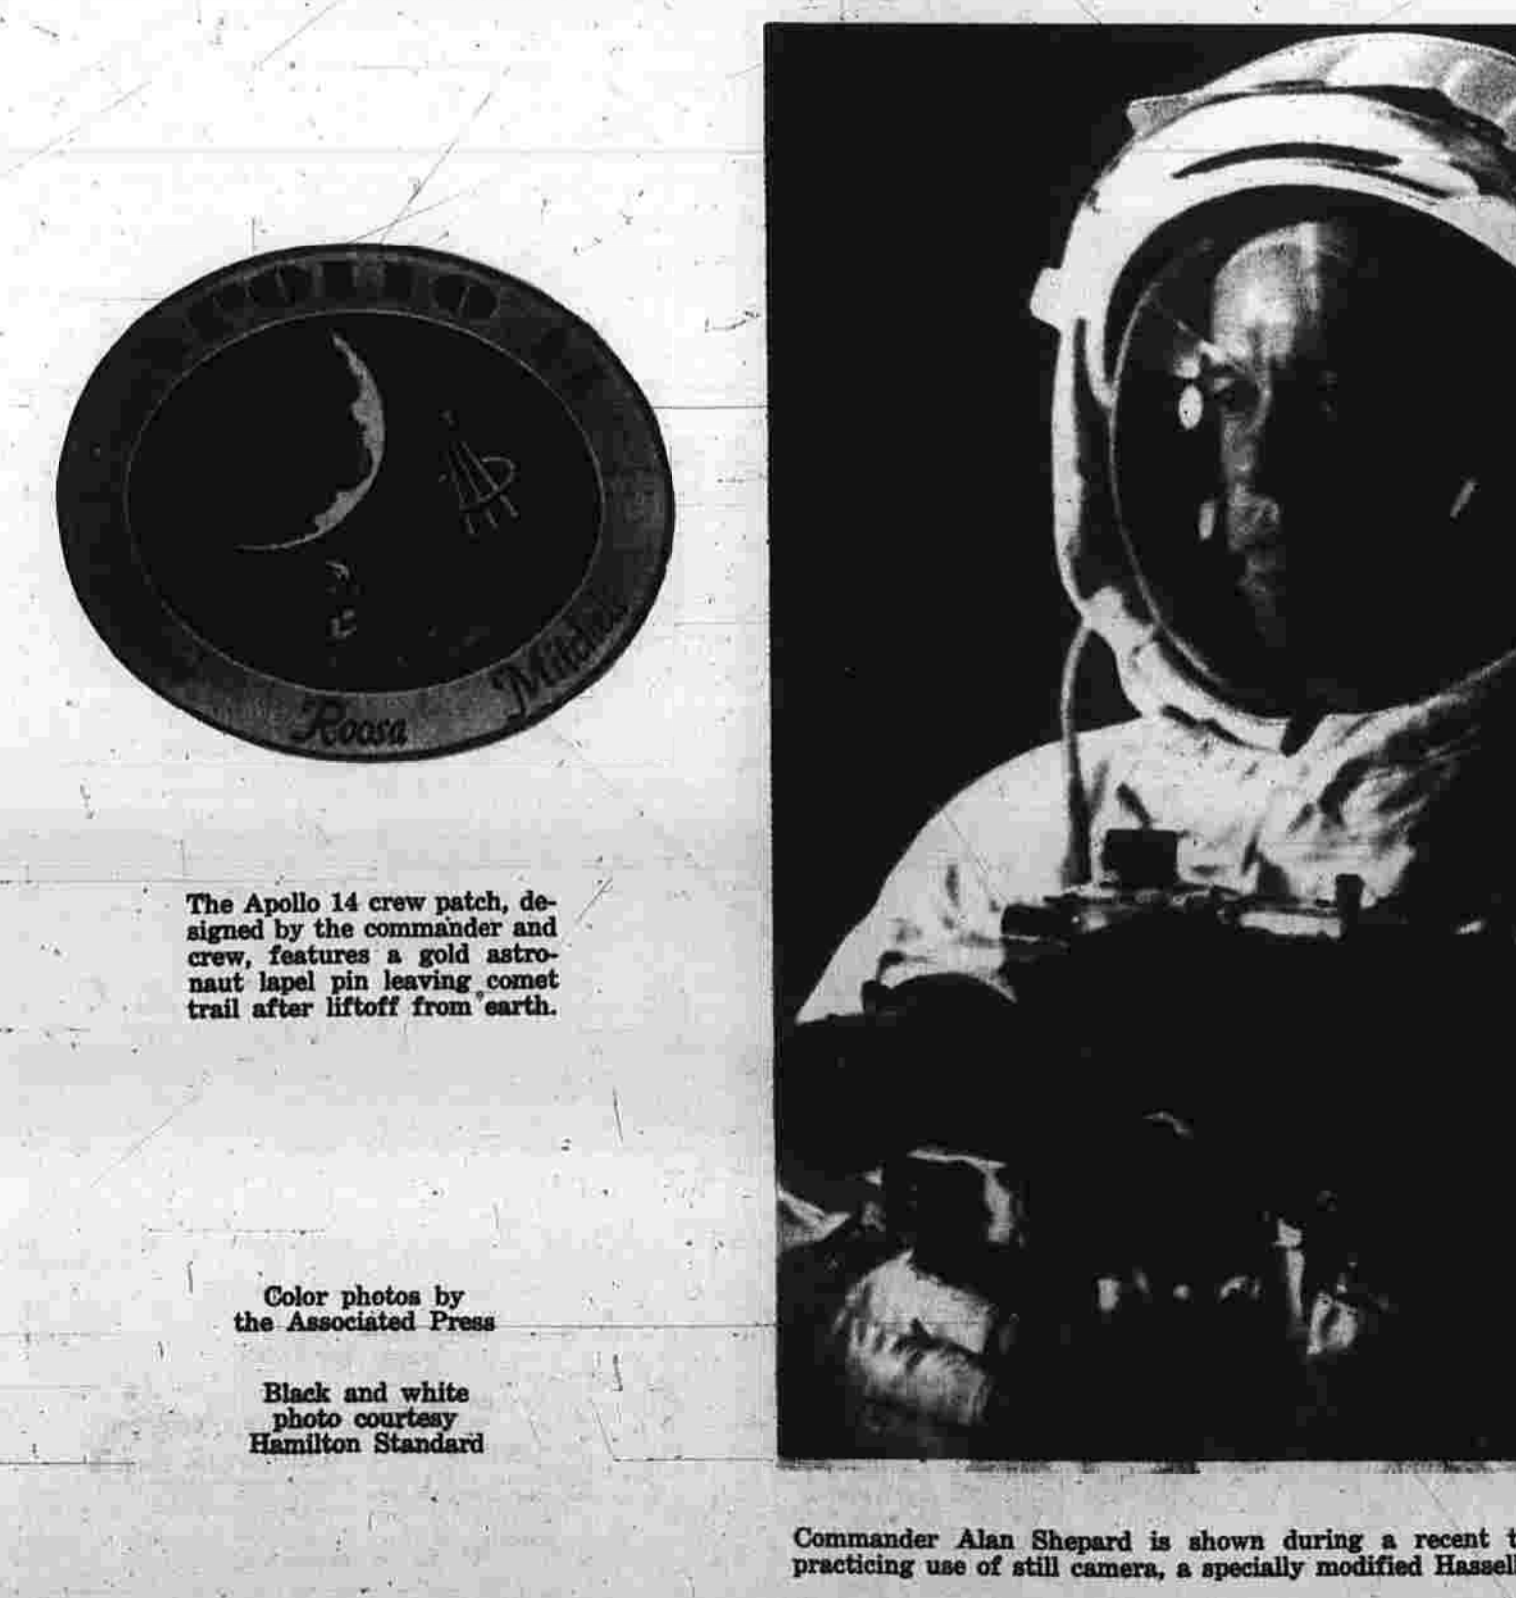

Apollo 14 crew: From left, Stuart Ross command module pilot; Alan B. Shepard Jr., commander; Edgar Mitchell, lunar module pilot.

Below: Technician checks hoses of new "buddy system" provided by Hamilton Standard which will be available for first time to Apollo 14 moon explorers. Designed for emergency use, insulating hoses will enable one astronaut to share water-cooling system of his companion's life support backpack, also supplied by Hamilton. The hoses are shown here with the backpack, but on the moonwalk will be stored on the cart shown in photo above.

Mrs. Alan Shepard Mrs. Edgar Mitchell Mrs. Stuart Ross

The Apollo 14 crew patch, designed by the crew and crew, features a gold astronaut leaping from a comet trail after liftoff from earth.

to become the most highly troubled procedure.

Among new systems developed for the upcoming moon missions are a new two-wheeled, used in 15 years to the day after the launching of the first American satellite, Explorer I, behind them, and a new "buddy system" by Hamilton Standard in Windsor Locks designed to increase the safety of their venturing into the hostile, airless environment.

The system uses two flexible, insulated hoses which can feed cooling water from one astronaut's life support backpack to his companion's space suit in 60 or 90 minutes if necessary.

Hamilton has designed the water umbilicals to "plug in" to its portable life support system (PLSS) used on the previous moon walks.

But, unless needed in case of an emergency, the water hose system will be stored in a pouch and carried on the collapsible cart that the two astronauts will draw along on their second and longer extravehicular activity.

The cart will be folded aboard the crew to wage a four-day fight for survival on their return to earth.

With the countdown to lift-off of the Saturn V rocket on Sunday proceeding smoothly and with good weather predicted that day for the Cape Kennedy launch, the Apollo 14 preparations have been termed by space center officials the most successful in moon history.

The delay in the original time for design changes has enabled the Apollo 14 astronauts scheduled to take place on Feb. 6 at 8:30 a.m. (EST) and Feb. 11 at 9:30 a.m. (EST) to avoid trouble procedures.

Hamilton Standard says that addition of the buddy system will double the time the emergency oxygen available to the astronaut will last.

The backup, or oxygen pump system on top of the life support pack, previously supplied the oxygen for breathing, but to extend the astronaut in an emergency.

Now, with the buddy system taking over the cooling function, emergency oxygen flow can be slowed down to extend the supply from 40 minutes to 80 or 90 minutes if necessary.

In addition to supplying and purifying oxygen for reuse by the astronaut, the PLSS also is said to hold enough oxygen and other expendables to operate for more than five hours.

On earth, the entire unit including the buddy system is returned to the PLSS pack, where it is cooled and recirculated. The backpack also is equipped with a communication unit.

On the moon, the entire unit including the buddy system, hoses and tether, weighs 127½ pounds. But on the moon, where gravity is about one-sixth of the earth's, the equipment only weighs 21 pounds.

Financial Crisis Reduces Catholic School Enrollment

By WILLIAM J. WAUGH
AP Education Writer

WASHINGTON (AP) — The Roman Catholic school system is in the grips of a financial crisis that has forced nearly 100 schools to close or consolidate in the last five years and reduced enrollment by a million pupils.

The National Catholic Education Association, which has compiled these figures available, also said reports from 10 dioceses indicate that anticipated revenues last school year fell \$207 million short of the anticipated \$1.4 billion needed.

Since 1965-66, when the church operated 15,262 schools, 1,380 have closed or consolidated, NCEA reported. Enrollment, meanwhile, dropped from about 5.5 million to about 4.5 million.

Impact of the cutbacks is first felt by public schools, which must pick up the tab for the children of those who have been expelled from Catholic schools.

President Nixon warned last year that mass closing of private schools could cost the federal government \$4 billion a year in additional operating costs and possibly \$1 billion in new facilities.

There seems little likelihood that the Catholic church will abandon its school system, second in size only to the public schools, but church spokesmen agree that the system and the school tax rate jumped from \$2.38 a hundred in 1966 to \$2.59 a hundred in 1969.

Start of Catholic schools in this country dates back to the early 19th century. Later, in 1884, American bishops decreed:

"That near every church a parish school, where one does not yet exist, is to be built and maintained in perpetuity within two years of the promulgation of this council, unless the bishop should decide that because of serious difficulties a delay may be granted."

The Rev. Frank H. Brodeweg, director of the NCEA's Data Bank, concedes that the first report, released in December and covering three years, "has serious limitations."

Bolton Ice Hockey Program Is Initiated

By RAY BONA, Park Commissioner

Ray Bona, park commissioner, has announced that a new skating program is currently being set up and will include hockey for children and adults.

Ralph Donohue of Tolland Rd. will be coordinator of all skating activities, which will include scheduling parties and other activities, organizing teams and general supervision of the skating.

James Marshall of Fernwood Dr. has volunteered to organize a hockey program for all boys in town. Boys from 8 to 18 will be eligible to play. All those interested are advised to meet at Herrick Memorial Park, Monday at 7:30 p.m.

Practice sessions and games will probably be held from 7:30 to 9 p.m. Mondays and Fridays, Marshall said.

Donohue will be in charge of the man's hockey program which will be organized Sunday morning at 10 a.m. at the park. He hopes to get a good turnout at this initial meeting.

The Knights of Columbus of St. Maurice Church will hold an open meeting Monday evening at 8 p.m. in the church basement. A movie about automobiles will be shown and the park model will be available for anyone wishing to take a trial run.

After the program and demonstration refreshments will be served under the direction of the program's chairman, Ray Conconi. Wives are also invited.

Radon: The Knights of Columbus of St. Maurice Church will hold an open meeting Monday evening at 8 p.m. in the church basement. A movie about automobiles will be shown and the park model will be available for anyone wishing to take a trial run.

There will be a meeting of the executive board of the Bolton Cooperative Nursery School Monday evening at 8 at the home of Mrs. Nigby Graham on French Rd.

Hold on Evelyn: All Is Not Lost COLUMBIA, S.C. (AP) — Gov. John West who proposed a 12-month school year got this letter from Evelyn Nolan, a fifth-grader in Alaska:

"I read your statement and I refuse to go to 13 months of school. I will take three months of summer vacation, two weeks of Christmas vacation, and New Year, and the day before and the day after Thanksgiving, and Friday, Saturday and Sunday for Easter, and Friday and Monday for Valentine, also."

Immigrants from America Continue Flowing to Canada

By MAX HARBELSON
Associated Press Writer

OTTAWA (AP) — The flow of American immigrants to Canada continues to increase year by year. Many of them are seeking new scenery and a change of pace.

Final figures for 1970 are not yet available, but 17,130 persons left the United States during the first nine months of the year to settle in Canada. This was at least 2,000 more than the figure for the same period in 1969.

The traffic is largely one-way. In 1969, the United States imposed a quota on western-bound sphere immigration. Few Canadians have been able to gain admission as immigrants because of a huge backlog of Cuban and other Latin-American applicants. At one time there was a waiting list of up to two years.

In Canada the welcome sign is the Westerner who begins to work including those fleeing military duty. Traditionally Canadian has accepted draft evaders any country.

Estimates vary as to how many young Americans have sought refuge in Canada since the Vietnam war began. One estimate is as high as 100,000. U.S. Embassy officials in Ottawa say they don't know.

According to the Canadian Department of Immigration and Immigration, close to 100,000 Americans have legally crossed the border in the past five years to live in Canada.

These come from all economic levels and all parts of the United States. Some have elected to leave the hardships of Canadian winter and farm land in the West. Many others have

Today in History

By THE ASSOCIATED PRESS

Today is Friday, Jan. 29, the 49th day of 1971. There are 236 days left in the year.

On this date in 1861, Kansas was admitted to the union as a free state.

In 1943, William McKinley, the 23rd American president, was born in Niles, Ohio.

In 1960, Henry Clay introduced in the Senate a compromise bill on slavery which included the admission of California into the union as a free state.

In 1949, Britain granted de facto recognition to Israel.

In 1963, France voted British's application to join the European Common Market.

Three years ago, Pope Paul VI, endorsing President Johnson's peace efforts, proposed United Nations arbitration through neutral nations for Vietnam.

One year ago, six days earlier, he filling in for a federal grand jury in Cleveland, charged on conspiring to kill United States Workers of chief Joseph Yablonski.

Wheeling, Dealing Marks Annual Pro Football Draft, Quarterbacks Were Top Three Choices As Expected

NEW YORK (AP)—The Year of the Quarterback is still spinning over into 1971 and the National Football League but, oddly enough, quarterbacks have made almost as big a splash as drafted quarterbacks at the pros' annual talent roundup.

Stanford's Jim Plunkett, Mississippi State's Archie Manning and Santa Clara's Dan Fouts, both first-round picks, are the top three quarterbacks in the NFL draft.

But before another step-calls-for-the-call, two sports of five hours later, a series of significant trades—four of them shifting NFL quarterbacks and eight involving no less than seven players and eight draft choices—commandered the

ended the suspense over their disposition of the No. 1 pick, New Orleans chose Manning, said Tommy Prothro, Allen's brother-in-law, who grabbed wide receiver J.D. Hill of Arizona State and Philadelphia took defensive lineman Richard Harris of Grambling.

Commissioner Pete Rozelle then interrupted the proceedings to announce that George Allen, the New Washington coach who was cut loose by Los Angeles, had landed six of his old Rams—11 at the expense of half-drafted draft picks.

The Redskins acquired four 1970 Los Angeles regulars—defensive tackle Prothro and linebacks Jack Pardee, Myron Pottion and Macie Baughan—and the guard John Winters, a 20-year-old passing spree in the Rose Bowl.

Sullivan's next move will be to sign the rookie, who plans to visit Boston sometime next week with his attorney,

"I had to give up the man we did as they had all given val service to the Rams," said Tommy Prothro, Allen's brother-in-law, who grabbed wide receiver J.D. Hill of Arizona State and Philadelphia took defensive lineman Richard Harris of Grambling.

Commissioner Pete Rozelle then interrupted the proceedings to announce that George Allen, the New Washington coach who was cut loose by Los Angeles, had landed six of his old Rams—11 at the expense of half-drafted draft picks.

The Redskins acquired four 1970 Los Angeles regulars—defensive tackle Prothro and linebacks Jack Pardee, Myron Pottion and Macie Baughan—and the guard John Winters, a 20-year-old passing spree in the Rose Bowl.

Sullivan's next move will be to sign the rookie, who plans to visit Boston sometime next week with his attorney,

Wayne Hooper, Plunkett, who holds the all-time record of 7,544 career passing yards, reported by will seek a \$250,000, long-term contract.

Kapp, Boston's holdover quarterback, is in the middle of a three-year pact at an estimated \$130,000 per year. And, according to Sullivan, he still has the inside track for the 1971 starting job.

"I'll have to sit on the bench and learn, that's what I'll do," Plunkett said.

Manning and Prothro will appear to have good shots at the No. 1 quarterback job for 1971. New Orleans and Houston, but subsequent developments in the draft—and outside it—seemed to favor Ohio State's 20-year-old, 200-yard passing spree in the Rose Bowl.

Sullivan's next move will be to sign the rookie, who plans to visit Boston sometime next week with his attorney,

Win Clements Vikings' Pick

SOUTHINGTON (AP)—The Minnesota football team drafted Vin Clements, the record-setting University of Connecticut running back, as its fourth-round draft choice Thursday.

"There were any one of a number of teams I would have loved to have gone to," Clements said soon after getting the good word from the Minnesota general manager while at home in Southington on an airplane. "But I'm really happy about it."

The 22-year-old senior said he hopes eventually to win the Minnesota job, but for now he's thinking only of football. He was the first series of downs in the fourth game.

He underwent surgery about Thanksgiving time and now is using a cane and undergoing rehabilitation exercises. "It's coming along very strong," he said of the knee in a telephone interview Thursday. "And the doctors say it's going to be all right."

The leg trouble, he said, gave him doubts about whether one year of the National Football League would win him.

"As the hours went by, I was saying more and more 'I'm glad I'm going to Chicago.'"

Power Plays Pay Off For Bruins in Victory

NEW YORK (AP)—Guess what? The Boston Bruins came up with a power play.

Normally, that wouldn't be unusual. But the National Hockey League's best power play club has been frustrated of late, getting three games without a goal and only two in the last five.

However, that streak of futility came to an abrupt end Thursday night. Ken Hodson and Fred Stanfield earned two power goals within 78 seconds and the Bruins walked over Philadelphia.

In a free-wheeling third period, Hodson notched his first goal and Don Marcotte knocked in his fifth short-handed goal. The Detroit Red Wings and St. Louis Blues played to a 1-1 tie and the Chicago Black Hawks managed Chicago's 10th goal.

Rene Leclerc and Frank St. Marselle scored early goals for the Bruins in the Detroit-St. Louis affair.

Leclerc shot the puck from near blue's goalie Glenn Hall on a first period power play set up by passes from Gerry Unger, three-stroke lead into the second round of a PQA veterans tournament Thursday.

The man from Santa Claus, who joined the Professional Golfers Association in 1964, Jim Fungie led Chicago over the Detroit-St. Louis in the second round of a PQA veterans tournament Thursday with a points ahead of St. Louis in the West Division race.

Football season is over? (Is it ever?)

PHOENIX (AP)—The Sun broke open a tight game towards the end of the third quarter to move into a 10-6 lead. Then the Lakers scored 12 straight points to grab an 86-86 lead at the end of three quarters.

But the Lakers' suddenly were ice-cold from the floor at the start of the fourth quarter and couldn't score a field goal for more than five minutes. The Suns took advantage behind Count's points and rebounds to take a lead they never relinquished.

Clem Hawkins contributed 21 points and Chamberlain 20 in the American Basketball Association, Memphis ran for Texas 122-90 in the only contest.

Shares First Round Lead Johnston Happy Minus Slide Rule

SAN DIEGO (AP)—"I was going crazy there, working in Manhattan," rookie pro Ralph Johnston said.

Johnston, a 25-year-old electrical engineer for General Electric, was drafted by the San Diego Padres in the first round of the 1970 draft.

"I'm getting easier as I go along," said Johnston. "I've been a regular since my first year in the major leagues."

Roy Sets New State Schoolboy Record

Pours in 35 To Eclipse Murphy Mark

BY DEAN YOST

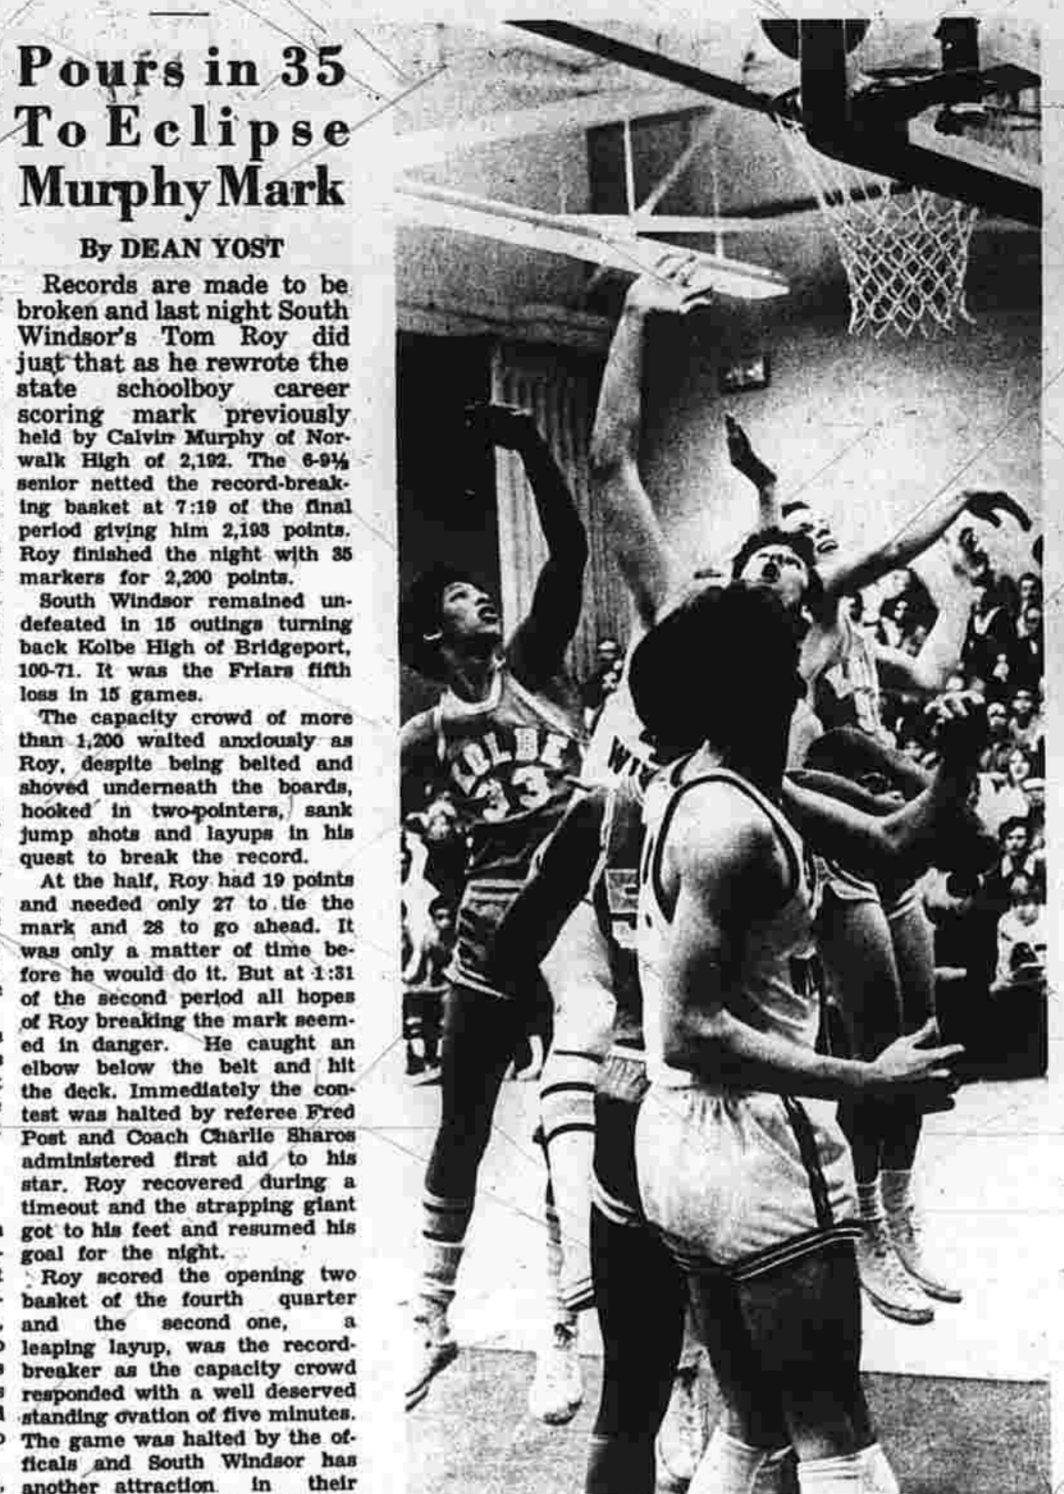

Records are made to be broken and last night South Windsor's Tom Roy did just that as he rewrote the state schoolboy career scoring mark previously held by Calvin Murphy of North Wales of 2,192. The 6-foot-9 senior netted the record-breaking basket at 7:19 of the final period giving him 3,126 points. Roy finished the night with 35 markers for 2,200 points.

South Windsor's record was set in 15 outings turning back Kolbe High of Pittsford, 100-71. It was the Bruins' first loss in 15 games.

The capacity crowd of more than 2,000 spectators at the gymnasium was on hand to witness Roy's feat. Roy, who had been named captain of the team, was named MVP of the game.

Roy's record-breaking performance was a result of his exceptional shooting ability. He made 113 of 213 shots, including 18 three-pointers.

Roy's record-breaking performance was a result of his exceptional shooting ability. He made 113 of 213 shots, including 18 three-pointers.

Elongated Tom Roy Does His Thing Again

Final Shots At Pole Spot For Daytona

DAYTONA BEACH, Fla. (AP)—Mark Donohue and Pedro Rodriguez, focused in a head-to-head duel for the pole position and favored to lead in this weekend's Daytona 24-Hour Race, get their final shot at the timing clocks today.

The two adversaries, both former winners who rank among the world's elite road racers, headed into the final session of time trials separated by only a mile per hour in lap speeds—and each promising they could do better than their record-breaking efforts of Thursday.

Donohue, known as "Mr. No. 1," who won the 1968 Daytona 24-Hour Race, prepared Ferrari 512 to an astounding 138.58 m.p.h. Rodriguez, who won the 1967 Daytona 24-Hour Race, prepared a Porsche 917 to an astounding 138.58 m.p.h. Buick introduces something to believe in.

Presenting Buick's newest dealer. S&S Buick, Inc. You'd like to meet him soon. We know you'll like the man you'll meet. Joe Schwab is more than a man who can sell and service Buicks and Opels. He's a tested and proved professional. Joe Schwab has been selling and servicing automobiles for 12 years. However, experience isn't all he has to recommend him. Call the extra plus neighborliness.

Or call it friendliness. Joe Schwab is a neighbor and a friend. Joe Schwab is a complete professional. The kind of man you'll like meeting and dealing with. Joe Schwab is the kind of man we want selling and servicing the automobiles we build. We build automobiles you can believe in. We want the man who sells them to be someone you can believe in as well.

U.S. B52 Bombing Continues in Laos

By GEORGE EPPER
Associated Press Writer

SAIGON (AP)—Up to 400 U.S. B52s and smaller warplanes maintained heavy bombing pressure today on reported buildups of North Vietnamese war supplies in the Panhandle area of southern Laos at the northwest corner of South Vietnam.

Three B52s were also struck in South Vietnam, 10 miles northwest of Khe Sanh at the frontier. Khe Sanh is an abandoned U.S. Marine base set up to stop enemy infiltration along Route 9 from Laos, seven miles west, and across the western portion of the demilitarized zone that separates the Vietnam.

Two aircraft carriers of the U.S. 7th Fleet were reported standing by in the Gulf of Tonkin off North Vietnam, and a third carrier was reported prepared to enter the gulf. The three carriers carry more than 300 planes.

Informants said American intelligence has detected a buildup in the region northwest of Khe Sanh bordering the demilitarized zone on the north and Laos on the west.

B52 bombers have been repeatedly attacking the area. About 40 sorties have been flown so far this month. A sortie is one flight by one plane.

In Saigon, the Air Force canceled all regularly scheduled C130 passenger flights from Tan Son Nhut airbase. Spokesmen said the four-engine transport aircraft were diverted to higher priority missions such as carrying combat troops and war supplies.

His statements led to speculation in Washington that South Vietnamese ground forces with U.S. air support might try to break up North Vietnamese supply convoys heading for South Vietnam through the Laotian Panhandle.

President Nguyen Van Thieu of South Vietnam conferred for 30 minutes Friday with the highest U.S. civilian and military officials in Saigon, Ambassador Ellsworth Bunker and Gen. Creighton W. Abrams. No announcement was made as to the purpose of the conference.

Scores of tons carrying 30 tons of bombs each have been hammering at the region northwest of Khe Sanh where the Ho Chi Minh trail, the network of trails over which the North Vietnamese send supplies southward, crosses the Laotian frontier into South Vietnam.

The United States launched a massive campaign against the supply network last October to effect the dry-season movement of North Vietnamese troops and supplies into South Vietnam and Cambodia.

By wrecking North Vietnam's only supply routes the United States hopes to buy time for Vietnamization. President Nixon's program to turn over the fighting lead to Saigon with withdrawing American troops.

In today's only significant ground action reported, the South Vietnamese claimed killing 30 North Vietnamese and Viet Cong with the help of aircraft and artillery 15 miles southwest of Hui. A spokesman said there were no South Vietnamese casualties.

Cambodian gunboats escorting a supply convoy along the Mekong River encountered three enemy units Friday night, just southeast of Phnom Penh, but a military spokesman said

Skeptics on Nixon Budget Flavor Praise with Doubt

WASHINGTON (AP)—The President to combine his Congressional skeptics have red-ink budget with voluntary wage and price restraints.

"This is the 1970s and not the 1930s," Albert said. "To control inflation it is necessary to have a direct intervention by the President through the use of standby credit controls, wage and price controls, of the moral power of the presidency, of a bipartisan and bipartisan enforcement."

Kennedy said the "hallmark of the new budget is the shadow of the 1972 election which hangs over it."

Three Republican leaders praised Nixon's spending plans for next year and found no criticism of the break with the usual GOP balanced-budget fiscal policy.

Senate Republican Leader Hugh Scott of Pennsylvania said Nixon's budget represents "what the Democrats should have done in 1968."

House Republican leader Gerald Ford of Michigan described the budget as "a carefully drawn fiscal plan which stands out as perhaps the first federal budget to help promote full employment and peace-time prosperity."

And the ranking Republican on the Senate Finance Committee, Wallace F. Bennett of Utah, said the projected two-year deficit spending should be held to \$20 billion and part of the savings fed into such items as pollution control, job training and health and education.

"That's the way to give power to the people," he said.

Albert and Sen. Edward M. Kennedy, D-Mass., called for

Air Power To Assure Safe Pullout

By LEWIS GULICK
Associated Press Writer

WASHINGTON (AP)—Secretary of State William P. Rogers expressed concern about enemy supply buildups in southern Laos, saying unlimited U.S. air power will be available through drawing GIs.

Asked about reports of an impending major push by allies into northwestern South Vietnam near the Laos-Cambodia border, Rogers refused to discuss "what we are going to do in a military way" about the communist buildup.

The Washington Post said in today's editions that South Vietnamese forces reportedly are preparing to strike at the South Vietnamese-Cambodian end of the southern Laos peninsula with U.S. air support.

The Post said that Cambodian and Laotian guerrillas are operating clandestinely through the region which is being pounded by B52 bombers. The action, the Post said, appears to be a prelude to new ground attacks.

"There is a very critical period about to ensue," Rogers told news conference Friday.

"By May 1 we will have withdrawn about 50,000 more troops and we will have our troops largely out of the combat role," he said.

"The enemy—obviously because it is a dry season—will attempt to build up its base areas so that it can attack us at that point."

Most of the North Vietnamese activity is in Cambodia and southern Laos, Rogers said, adding: "So our airpower is going to be used for the maximum extent necessary, that the President feels necessary, for the safety of Americans in Cambodia or Vietnam."

Rogers coupled the pledge of unlimited airpower to protect American forces withdrawing from South Vietnam with assurance the administration will not violate a congressional ban against sending U.S. ground combat troops or advisers into Cambodia.

Latest Living Costs Report Spurs Democrats' Outcry

By NEIL GLENBERG
AP Labor Writer

WASHINGTON (AP)—A government report showing the highest two-year rise in living costs in nearly a quarter century has prompted new cries of alarm from Democrats and organized labor and critics from the White House.

The Labor Department report said consumer prices in December turned more sharply upward and wound up 1970 with a 5.2-per cent hike on top of 1969's 6.1-per cent rise.

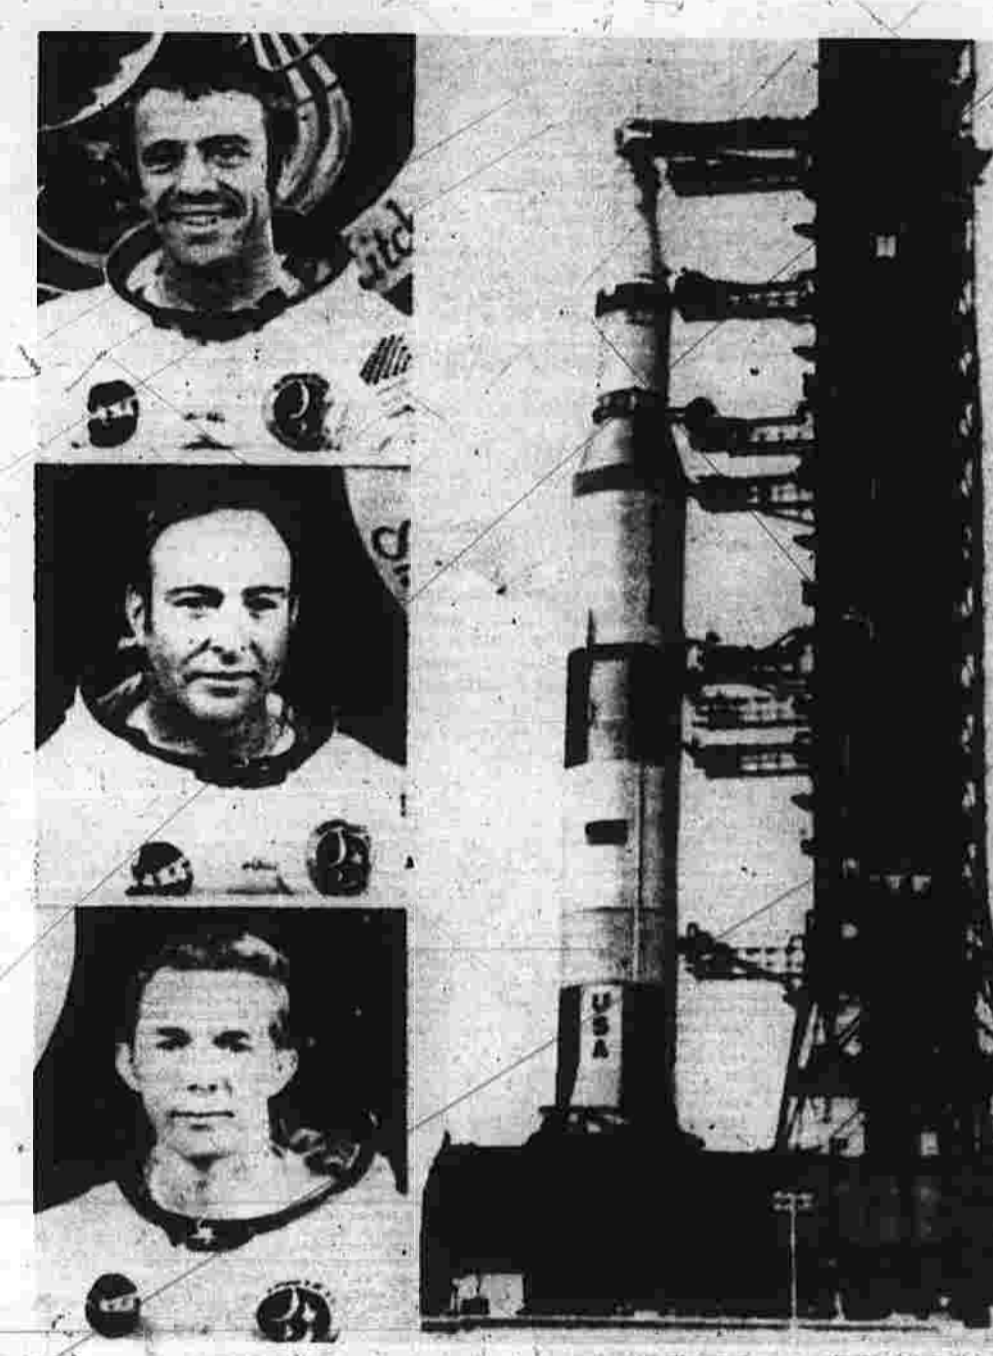

Living costs in December and in the final quarter of 1970 showed a renewed uptick.

Dr. Joel Popkin, assistant commissioner of the Bureau of Labor statistics which compiles the purchasing power of every dollar. That total matched a 1960-61 inflation high during the Korean War and was highest since 1948-49, immediately after World War II.

The bureau said 1970 inflation more than wiped out wage gains of 48 million rank-and-file workers and left them 1 per cent, or about 11¢ a week, behind 1969 purchasing power and \$2.36 below buying power two years ago. The average paycheck here is \$12.43.

"The important thing is that the buying power of rank-and-file American workers after-

Cape Kennedy Reports All OK for Moon Flight

By HOWARD BENEDICT
AP Aerospace Writer

CAPE KENNEDY, Fla. (AP)—The countdown ticked on, the astronauts relaxed, and everything was "go" today for Sunday's launching of Apollo 14 to the moon.

At 3:25 p.m. EST Sunday, if there are no hitches, Alan B. Shepard Jr., Edgar D. Mitchell and Stuart A. Roosa will ride the power of a Saturn 5 rocket away from their home planet on America's first moon flight in nine months.

The launch team concentrated today on the Saturn 5 after completing preparatory work on the command and lunar modules Friday. Batteries were installed on the rocket and power was transferred to internal from an external ground source.

The astronauts generally planned to relax in crew quarters five miles from the launch pad. In the afternoon they visit with their families and friends, communicating with them through a glass partition.

The position is a requirement of a Medical Isolation that the astronauts started Jan. 31. They are restricted to direct contact with key personnel.

The wives and children of all three astronauts flew here from their Houston homes to watch the launching.

For Louise Shepard it will be the second time she has watched her husband vault into space. Nearly a decade ago, Shepard became America's first spaceman when he made a brief suborbital trip atop a relatively puny Redstone rocket with less than one-one-hundredth the power of the Saturn 5.

For Louise Mitchell and Joan Roosa it will be a first. Their husbands are space rookies.

This will be the first manned lunar mission since the abortive Apollo 13 mission last April. The future of the Apollo program could be riding on it.

The near-disaster of Apollo 13, in which the three astronauts made it safely home on the systems of the lunar module after an oxygen tank exploded in the command ship, contributed to the cancellation of two Apollo launches. All three of the remaining moon landings could be in jeopardy if Apollo 14 fails.

In Apollo 14 it delayed nearly four days because of design changes made to the oxygen tank system and additional "trim" weight was added to "under pressure," he said, "but it takes a course in rocket technology to understand them."

CAPE KENNEDY, Fla. (AP)—When the Apollo 14 astronauts blast off for the moon Sunday, viewers craning their necks in the NASA "VIP" section will include Vice President Spiro T. Agnew, two U.S. Cabinet members, a Spanish prince and his princess and a group of 100,000 millionaires.

Agnew and the others will be among some 500,000 visitors—excluding 1,000 VIPs—expected to jam the cape area Sunday afternoon.

"I'd guess about 100,000 are already here," Breward County Sheriff Leigh Wilson said today.

"But we won't have any traffic problems until after the launch, when everybody starts pouring out of the county at the same time."

Most of the celebrities will be guests of the astronauts, the National Aeronautics and Space Administration or the various companies that handled Apollo

Writer Says Astronauts Lack Joe Namath Image

SAN FRANCISCO (AP)—Aston, the first to land on the moon, Maller said NASA "usually are about as interested in the moon as a border war in Bolivia."

And he says it's a shame.

The 47-year-old Pulitzer Prize winner blamed the public image of astronauts projected by the media as an astronaut, Bay's in terrible trouble.

He said Friday the astronauts are "tough man-daredevil" at a new conference at the Fairmont Hotel promoting his new book, "Of a Fire on the Moon," which he said describes "the moral and spiritual complexities of traveling in space."

Maller said the astronauts are more interesting. "We don't see present football players as only to kids. That's because we're seeing this kid don't have to set up with countries to love and that damn dialogue," he said.

"To Maller, a real hero is Oakland's 48-year-old guard

Mozambique Cyclone Toll Nears 1,000

LOURENCO MARQUES, Mozambique (AP)—Rescue workers searching through the mud and swirling waters left by Cyclone Felice said today the storm probably killed 500 to 1,000 persons.

Early rumors of more than 100,000 dead in the devastated Zambezi Region of Portuguese Mozambique were discounted.

The stricken area, with a population of about 1.5 million, was hit by flood waters as deep as 30 feet.

Communications were cut and light aircraft, helicopters and boats were ferrying food, clothing and medicine to survivors isolated on high ground.

Rescue pilots said terrified villagers were clinging to palm trees, but roofs and anything else protruding above the water. Portuguese air force planes joined in rescue operations to speed relief to the victims of the storm's worst food.

The company said yesterday it has written a \$50,000 travel accident insurance policy on each of the men scheduled to leave for the moon Sunday.

The company declined to disclose the premiums for the cover, but began as the spaceman enter the command module at Cape Kennedy and ends when their post flight quarantine is over.

In addition to accidents, Travelers said the astronauts would be covered for "disease epidemic to the lunar surface or its environs."

Bets on For Smooth Trip In Heavens

HARTFORD (AP)—The Travelers Insurance Co. is betting \$100,000 that Apollo 14 astronauts Shepard, Roosa and Mitchell make it back from the moon alive and healthy.

The company said yesterday it has written a \$50,000 travel accident insurance policy on each of the men scheduled to leave for the moon Sunday.

The company declined to disclose the premiums for the cover, but began as the spaceman enter the command module at Cape Kennedy and ends when their post flight quarantine is over.

In addition to accidents, Travelers said the astronauts would be covered for "disease epidemic to the lunar surface or its environs."

Climbers Survive Ordeal

MT. WASHINGTON, N.H. (AP)—Four young mountain climbers paused at the intersection of five trails high on Mt. Washington and took out their Appalachian Mountain Club map.

Hair-raising-force winds tore the map from their hands and blew it away. Swirling snow obscured the sun. They took one wrong trail Tuesday, beginning four harrowing days for the New Jersey men, members of the Rutgers University Outdoor Club. They became lost on the 6,288-foot mountain in temperatures as low as 28 below zero and winds up to 80 miles an hour.

They were found Friday, apparently in good shape, after they took advantage of a break in the weather to trek to the summit.

"We went to the summit as the nearest place to find people," said Joseph DiMaio, 22, of Irvington. "We wanted to call off the search."

Another of the climbers, Barry Vazquez, 25, of West Orange, was rescued by Ed Saller, 21, of Vineland.

Four youths gather at Appalachian Mountain Club last night after surviving four days lost on Mount Washington. From left are Barry Fields, 21, Bonton; Joe DiMaio, 22, Irvington; Jose Vazquez, 25, West Orange and Ed Saller, 21, of Vineland.
