By VIVIAN F. FERGUSON It's beginning to look like spring. In another ten days, the oyous holiday of Easter will be ipon us. Let's hope for a sunny lay. If you recall, it snowed

Easter is one of the two most mportant Christian holidays, eing second only to Christmas it falls on the first Sunday after the full moon following the spring equinox. The date of the Christian Easter was fixed in A.D. 525, Prior to that time, the neathen peoples observed a similar holiday to celebrate the end of winter and the "resurrection of the sun." The Church fathers, as in other instances, turned the day into a Christian

Various traditions and customs for Easter come to us rom other lands. Sicilians will make an Easter cake made i the shape of a lamb and anoth er popular cake, cassata, which ncorporates ricotta cheese. The Russian Orthodox Easter eesecake, pashka, is shaped ike a flowerpot. The Cyrillic etters, XB, atop these cakes stands for "Christ is Risen." Food plays an important role Easter celebrations, partly ecause of the weeks of Lenten ting. At one time eggs were anned in England during Lent and so they returned to the table at Easter Sunday breakfast, sually colored. Germany and central Europe are renowned for their brightly painted eggs which are handed down in familles for generations. Our modern chocolate, pasteboard and other eggs, sometimes filled with goodies, are a development of these early customs. It is a fairly safe bet to say at baked ham or lamb will be e main course in most houselds across the country. Roast amb has been a symbol of pringtime since the early days

the wife of Maryland's governor didn't care one whit. "All I know is that it's magni ficent," Mrs. Marvin Mande said as she unveiled the huge tableau of Horatio Sharpe, an early Maryland governor, an his family in the stately dining "I loved it right from the start." Mrs. Mandel said. "Ther when they came here all excited and told me it was a genuine Hogarth, I didn't want to say who's he?'

The story began some months ago when Mrs. Mandel asked hat the Sharpe portrait be re-Mrs. William Preston Lane herself a former Maryland First Lady who had donated the painting to the state in 1951, agreed to pay half the cost. Mrs. Lane had purchased the portrait from a Boston gallery 1950 for \$6,500, with the understanding it was done by a minor English artist, Gawen Hamilton, in 1753. But when the painting was shipped to the National Gallery of Art in Washington, D.C., for restoration, examination

Accepting this as official au thentication, state officials made elaborate preparations. They had a brass plaque in scribed with Hogarth's name Invitations were issued to the state's four other living first ladies to attend the official unveiling and insurance was taken out In the amount of \$300,000. But then, a few days before the big event, two other art experts told Governor and Mrs. Mandel the painting was not a Hogarth, but a Hamilton after all. So the plaque was discarded and the insurance policy reduced by \$100,000.

Convert to gas heat before April 30, and make no conversion payment until October.

On CNG's deferred payment plan, switching to economical gas heat with your present heating system is easy. You use the same furnace or boiler you have now. Just a small conversion unit is installed. And all you pay for now is the low-cost of the gas you use. Right now, oil for home heating is 29% more expensive than

gas. And heating with electricity costs 23/4 times as much as heating with gas. If you prefer, you can rent a compact gas conversion burner on

a low, monthly payment plan. There's no charge for installation and no equipment to buy. And your satisfaction is guaranteed. If you are not completely satisfied with converting to gas heat on the rental plan, at the end of the first full year CNG will refund every cent you paid in rental.

Join the Luckies and save. If you live on a CNG gas line, call your gas heating contractor or CNG in Hartford (525-0111) or New Britain (224-9157). Convert now and pay later.

-"Familiarity with the So-cratic teaching method used in law school."

— 'Psychological willingness to deal with problems legalisti-cally rather than pragmaticalfirst, she said, was not to teach

law at all, but to teach physics "Physics has a touch of reali-ty," she said. Unlike mathematics, a student can see the items he is working with. "You have to go step by step, like in law. I you miss one step, you can't guess the next one. And it's not ethnic—there's no such thing as a white racist lever. I didn't want to get hung up in that.' To help teach techniques of abstract thinking, she picked solid geometry. "Youve gotta do it in your head, there's no way you can do it on paper." To give skill in writing, she decided on a literature course analyzing the writing styles and techniques of black and Chicano
