MR. Steak

Phone: 646-1995

According to the dictionary, all fats are shortening. But as we know them today,

fats for making pastry in-clude lard, oils, and a spe-cific product labeled SHORT-

ner of all, comes from the at of pigs, and has long

been preferred by many ex-perienced pastry makers for its great "shortening" pow-er. Oils rate tops in con-venience, for they can be mixed and measured easily.

mixed and measured easily.

Most are made from corn,
soybeans, peanuts or safflower seeds. A cooking reminder: Always follow a
recipe that specifically calls
for oil. Shortenings, smooth
and creamy-white or yellow,
differ according to whether
they're made of animal or
vegetable fat.
We create a pleasant atmosphere for your dining pleasure. The staff

Parades Marking 200th Birthday Of Foot Guard

HARTFORD (AP) - The state capital will be adorned with much pomp throughout the weekend, as the First Company, Governor's Foot Guard

Ceremonies, which included commemorative services for the dead, began Thursday. The celebration's climax will come Saturday evening with the traditional grand ball at the State Armory.

A common event for all three days is a parade. This morning, the Foct Guard scheduled a march to the Old State Capitol for an address by former Gov. John Dempsey.

Talks by two other former governors, Wilbert T. Snow and Raymond E. Baldwin, also were on the agenda at various pots along the way. Saturday's parade will in-

clude musical marching units from three lands—Great Brit-ain, Canada and the United States, Representing the United States will be the Army Band from Washington, D.C. The Foot Guard, which origi

Part of the Attack on MCC Campus Clutter

Two young ladies and a young man carry off a victim of sorts. It's their bag, and the contents are headed for the Valhalla of all junk, trash, and other unwanted objects by any other name. Their effort was part of a 300-student, 75faculty attack on the grounds and interiors of the Manchester Community College campus on Bidwell St. Catalyst for the two-hour cleanup campaign was the report by Dr. Frederick W. Lowe Jr., MCC president, to the Regional Council Sept. 20, in which he stated that only three maintenance personnel were available for the Hartford Rd. and new campuses, with little likelihood of obtaining authorized workers until the middle of this month. Students and instructors mopped, swept, vacuumed, pulled up weeds, mowed, and in general policed the area. Commenting that he hopes yesterdays's cooperative venture will be only a one-shot undertaking before the arrival of the maintainers. Dr. Lowe said. It was marvelous, inspiring. They did as good a job as our formally planned convocation." He added that he trusts that the improved look of the campus today will give pause to anyone who is tempted to drop anything in the future. Experience in other schools has proved that losses are no Prescriptions

That would limit the average wage increase to between 4 and 5 per cent a urgently for a full explanation

that still and gentlemen, we will not acport for the new economic the United States of America or signed to capture Mean's good will without lesing control over Laird, addressing a banquet of in six months, contingent on the wages to a runaway tripartite

posed tripartite wage board from becoming an engine of cost-push inflation, a quiet search is now on for prospective public members of the board who would not act (in the words of one key Administra tion official as a "patsy" or 'milksop" for the unions,

The reason for that search goes to the heart of Administration skepticism over Meany's demand that wage controls be in the hands of a tripartite board beyond reach of government. Experience of earlier stabilization periods shows that public members of the wage board often joined labor members, overwhelming the third leg of the triangle, members

This fear is prevalent despite the fact that it is an article of faith inside the Administration these days that most econom ists, professors, deans and other raw material for represent-ing the public on a three-sided wage board are far less favorable to labor today than they were 20 years ago. The intellectuals usually tapped to act for the public on a tripartite board no longer have the built-in, pro-labor bias they used to. Thus, wage controls admin-istered by a tripartite board today would be more inclined to have teeth, particularly if the public members are care-

from industry.

In 1800, Spain ceded Louisiana that a tripartite board would

partite board, would bring ble approaches to Phase II those settlements close to the wage controls, telling the Pres permitted level of roughly 5 per ident that "we have a price" But President Nixon seems tripartite board with no governdetermined not to leave cost- ment voice - is not going to be inflation to the chance paid by Mr. Nixon in full.

Adult Home Villages are engineered, planned and built around the theory that pre-built and mobilehome living is practical and enjoyable for couples. We do not recommend this type of living for people with school children. The sophisticated home owners who live in our country club development are kind, gentle, sociable, real down to earth people, a large per cent of whom are professionals. Many of them are quite well-to-do. They are the kind of people you may have always wanted as your friends. Without sacrificing standards many of these well off people are saving money due to the economy of retirement country club living. They use the extra savings
