Listless Air Hangs Over East Coast

A steamy, stagnant air mass that has strained electric power supplies and caused pollution alerts remained anchored over the Eastern seaboard today with no relief expected for few more days.

The National Weather Service forecast more temperatures in the high 80s to middle 90s, a situation which sapped the re serves of electric utilities an led to blackouts or brownout in scattered areas Thursday. The week-long heat wave over the populous East was blamed on a Bermuda high that

creased to dangerous levels in some areas. In the Pittsburgh area, a first stage pollution alert forced industry to cut back operations. Eve irritation and shortness of breath were common con

Girls Find \$3,200 Hidden at Creek GILBERTVILLE, Iowa (AP)

 Two teenage girls found more than \$3,200 in cash beside creek near here Thursday. Officers said they later found 1,400 more and they believe here is more to be found. The girls, Janet Delagardelle, 3, of rural Jesup, and her cousin, Kathy Delagardelle, 16 said the money was in 32 \$100 bills and a \$50 bill. They said each bill was torn into four sec-

Spassky Errs. Fischer Wins

REYKJAVIK, Iceland (AP) - Bobby Fischer took the fifth game of the world chess championship Thursday night after a oad blunder by Boris Spassky and only 31/2 hours of play, evening the score at 21/2-all. "It was just what we expected," said Frank Skoff, vice-

president of the U.S. Chess Federation. "The general opinion of the American camp is that Fischer will win-even with the forfeit." Spassky was awarded the second game by forfelt on July 13, when Flacher refused to play because three movie cameras were stationed in the hall to film the match. The cameras

were removed before the third game, and Fischer has refused to play if they are brought Spassky defeated Fischer in the first game, then lost to him in the third, and the fourth was a draw. So in terms of actual play Fischer now has won two games to the Russian's one. The sixth game in the 2 game series is scheduled for Sunday afternoon. With a win counting one point and a draw half a point, Fischer needs 121/4 points to take the title and with

it \$153,126 of the \$245,000 prize money, while the Russian as the defending champion needs only 12 points to keep his crown and collect the winner's share of the money.

Friday, July 21 Big Labor's Politics

The motivations of George Meany, president of the A.F.L.-C.I.O., are obviously mixed. The occasions on which Senator McGovern has voted against the interests of labor have been too rare and too slight to explain Meany's enmity toward him. The fact that Senator Mc-Govern has been a dove on Vietnam has had its inevitable clash with the fact that Meany is one of the nation's most unrelenting hawks, but, as has been pointed out, the Meany temperature doesn't seem to rise at the mention of Senator Kennedy, who is also a dove.

So it may be that the basic key to George Meany's refusal to play presidential politics on the side of Senator McGovern stems from the same experiences and impressions which have been important with other labor leaders who have confessed their lack of enthusiasm for the 1972 Democratic national ticket.

When the McGovern upstarts took the party away from the old political professionals, they also took it away from the old labor movement professionals. The young whippersnappers, with their ed as if they found the crude labor leaders lacking in intelligence and in purity. And the labor leaders, by their long and generous record of helping finance Democratic campaigns, had come to consider themselves entitled to a seat close to the management of party affairs.

If the 1972 attitude of Mr. Meany and some of his associates is based on their feeling that the present managers of the Democratic party have snubbed them out of their rightful place, then the current split is something similar to that the late John L. Lewis, the most feared and powerful single labor leader of his day, decreed against Franklin D. Roosevelt in a year when Lewis felt that his past services to Roosevelt and the Dem! ocratic party were not being rewarded. Lewis promised to resign his union post if Roosevelt was reelected and he himself campaigned furiously against Roosevelt, and he did, afterward, resign his

The Lewis experience then, illustrated, as the 1972 political story may also illustrate before it is through, that there can be surprising limits to the ability of labor leaders to control or direct the voting of the members of their unions, And if one considers Mr. Meany's current malevolent neutrality from the angle of votes, it is still a matter of guesswork whether it will, in itself, cost McGovern more votes, from union members who follow Mr. Meany, than it will bring to him, from union members and others who think Mr. Meany's enmity is a compliment to the candidate.

But if Mr. Meany cannot command union votes, he probably does have a more effective control over union dollars, and this is where the McGovern campaign, with its fond dream of registering and delivering millions of new votes from the 18-25 age class, may find itself hurting. Those "amateur" and "volunteer" systems of political activity wind up costing just as much hard cash as any

connection to these current political developments in the stance of organized labor, there is the possibility that organized labor itself is gradually becoming more and more a conservative, rather than a radical, factor in the American scene. Labor does sit up at the table, as one of the great commanders of the national destiny; it now has its own vested interests to hold and protect; it

Always in the background, for some

needs no great liberal revolution to serve its own purposes; it itself has reached the stage where it can feel uneasy over proposed economic and social changes of the type it itself once used to cham pion. And all of this may mean that, in spite of his personal petulance, Mr. Meany may be as much of a follower as he is leader, and that this was going to be, in any case, a year when labor was going to divide its vote more generously

Still Time To Repeal Racing

While we were listening, the other night, to one of the managers of Connecticut's official gambling life explain how long it was taking just to draw up the rules for the introduction of horse race betting to the state, the happy, constructive thought struck us that there is still time for Connecticut to repeal and forego the whole thing.

Just imagine! No game of pressure and

influence for the license to build the first horse track or the first dog track! No infliction of such a monstrous scar on any Connecticut community! None, ever, of the dreary business of having to go to the track and make bets, to prove our loyalty to the state treasury! None, after all, of that unnatural cloud across the fair bright blue banner of the Land of Steady Habits! None of that silly pretense that we were impatient to become the land of the tips and the touts!

There is time to repeal the whole thing. It could be one of the first actions of the General Assembly which comes into session in January. We don't have to have any of it. And then, to celebrate our freedom, we could have one last final drawing, for the Capitol Dome itself, in the state lottery.

Advantage—In Or Out?

A lot of old-time Democrats watched in amazement and horror as George Mc-Govern at Miami Beach did everything that ignored the wishes and alienate the emotions of the great lords of organized American labor. The AFL-CIO's George Meany, like Chicago's Mayor Daley, are accustomed to being treated as the indispensables of the Democratic Party. Mr. McGovern treated them all

Was it shrewd or foolish politics for Mr. McGovern to so downgrade the once mighty bulwarks of his party? We susthat it was shrewd politics. Our thinking goes like this.

Back in 1944 the most important single figure at the Democratic convention was gamated Clothing Workers of America and principal architect of the CIO. It was Hillman who vetoed both Henry Wallace and James F. Byrnes for the vice presidency and picked Harry Truman. That was the time when President It meant that Mr. Hillman was the cen tral figure in the machinery of organized labor in the United States and that organized labor was the backbone of the emocratic Party.

Ever since it has been an article of ogma in the Democratic Party that oranized labor is its backbone and that the Democrats cannot win an election without the votes, and funds, provided by the big unions. The question is whether that dogma is still valid. If it is, Mr. acGovern has done a politically foolish

Organized labor was a new thing 28 years ago. The right of workingmen to form unions was still being resisted by nany an employer. True, the war had helped break down resistance. To get a war contract it was necessary to come to terms with the union. But the time was recent when management was still bitterly, and sometimes violently, resist ng the idea that a workingman had a ight to organize and strike. Labor was still the underdog on the American economic and social scene. It had not yet become one of the most powerful of the vested interests.

Today, it's different. The great trade unions are as powerful as the great corporations. Unions fix wages as firmly, nd sometimes as ruthlessly, as corporations fix prices. Early in the century when "Teddy"

Roosevelt denounced "malfactors of

great wealth" and the "trusts" he was alking only about the big bankers and the big corporations. No one would have thought of including labor unions among the major power wielders of America Teddy was on a popular course when he denounced the rich and the "trusts." Until George McGovern did it at Miami Beach no politician in either Democratic or Republican Party would have dared to assume that times have chang ed since 1944 when the rule was to 'clear it with Sidney." Mr. Nixon has walked a long way to conciliate and woo Mr. Meany and the trade unions. And now it may pay off. A lot of organize labor, particularly the "ethnic" slices, is expected to vote Republican this time. But is that bad for the Democrats Mr. McGovern can certainly not be accused of wearing George Meany's collar Nor can he be called the tool of AFL-

In 1944 it was an advantage to the Democrats to be in close alliance with the big labor unions. Is it any longer an advantage in these times when the big unions are so generally identified in the public mind with high wages and high

Mr. McGovern may not have destroyed the old alliance between big labor leaders and the Democratic Party, but he has certainly attenuated it. He is assuming that George Meany has become political liability, not an asset. And he might be correct. - CHRISTIAN

Fifty years since their discovery by Howard Carter the treasures from the tomb of Tutankhamen, the ancient king of Egypt, have been seen on exhibition in London, England. The fascination of these treasures is primarily that they have survived in their perfection across nearly four millenia. They are as they were when Tutakhamen was buried They could belong to today. this we find a parallel with another treasure from the past, Christian faith has its origins in a source book of comparable antiquity and parts of t may be older than the tomb of Tutankamen. Yet this treasure has not required a staged exhibition to set men wonder ing. Coming out of the past it today, providing guide-lines to knowledge of a living God.

The psychedelia of the '60s shouted down that silence with slogans like "Right on," "Do your own thing" and other vague exclamations that made people feel closer

The Beatles, who admitted one goal was "to be bigger than Elvis," became leaders in a more socially aware and politically active time. Lyrics began to be more political and rock groups were no longer "just entertainers." They became spokesmen, leaders, sometimes without having anything to say. Bill Graham calls it "mass adulation when groups became gods and goddesses, prophets in-stead of musicians."

Elvis Presley stopped touring and spent his intermission between the '50s and '70s starring in B-grade movies, while the Beatles and Rolling Stones took center stage. The "Bermuda high," which provides the ideal weather for Bermuda during the winter months, has been responsible for the hot, moist air mass hanging over the Northeast most of the week. The cold front should hold it out to sea long enough to provide more pleasant weather through the weekend, but the weatherman cautioned that more uncomfortable weather could return next

Increasing air circulation preceding the cold front Friday held the high temperature here to 88 legrees and permitted the state's Department of Environmental Protection to discontinue its hourly check of air-polluation levels throughout the state.
