Tolland in 1972

BETTE QUATRALE, Correspondent
Toll 875-2845
Tolland spent most of 1972 in financial turmoil prompted by continuing controversy over property revaluations, increased taxes and budget referendums, which threatened to wreck the financial stability of the town.

Finance in Controversy

The powers of government reverted to the hands of the people as referendums were called at the drop of a petition. The Board of Selectmen, which had been threatened for several other major items, petitions were filed calling for the resignation of Democratic Town Chairman Charles Thifault, but were ruled illegal by Democratic Town Committee chairman Robert Taft Jr.

At the end of the year, still another controversy was brewing over the proposed charter for the town calling for a town manager and expanded seven-member Board of Selectmen.

Advocated by the Charter Revision Commission, the proposed charter is unanimously opposed by the Board of Selectmen.

If the selectmen fail to place the charter on the voting machines as promised, petitions will be circulated to obtain signatures of 15 per cent of the electorate, forcing its placement on the voting machines for people to decide.

Tolland acted with typical unpredictability during 1972, approving a \$2,385,000 budget at the annual town meeting, only to reject it in a petitioned referendum, but failing to approve a proposed \$150,000 cut by a vote of 820 to 820.

Attempts for a compromise \$50,000 cut were rejected at a subsequently approved in still another petitioned referendum by a 66-54 margin.

The entire budget controversy filed two months of news and was interspersed by court challenges over the legality of referendums on approved budgets, a case still pending in Superior Court.

The budget controversy resulted in a two-week delay in mailing out tax bills, after the finance board was finally able to set a 46-cent rate, on the revalued \$48,730,830 grand

School Approved
Although the budget cuts took a total of \$435,000 out of the proposed \$2,780,000 Board of Education budget, town residents have given the go-ahead for the construction of the \$1.9 million addition to the overcrowded middle school.

The second phase of the school, planned for originally, but still unbuild because of the town's limited bonding capacity three years ago, contains five additional classrooms as well as specialized facilities for science labs, home economics, industrial arts and a gym.

Two town meetings have been held on preliminary approval items for the project without opposition, and bids are now being prepared for submittal in February.

The Board of Education has sent much of its time this year trying to get its expenditures in the black, despite several problems which have arisen requiring additional funds.

1972 was the worst of four consecutive years showing substantial education budget cuts, and the second consecutive year for referendums on the budget.

The \$48,730,830 grand total represented a 68.5 per cent increase over the past year due to the effects of revaluation. House and building lots registered a 400 per cent increase in value, while open land increased in value by 300 per cent.

Landowners Fight
This increase, particularly for large property owners, prompted a vigorous dispute, pitting landowners led by Stanley Godz against the Board of Assessors. The dispute continues even though the values were adjusted downwards by the assessors this year.

The Board of Tax Review has agreed to overrule the assessors and lower the property values still further to meet the statistics provided by the Connecticut Farm Bureau. The assessors want this means reduction in property taxes for homeowners.

Godz repeatedly points to the increased land values as prompting the sale of large parcels of land to developers, which will in turn boost local taxes still further.

The year marked a sharp upturn in development activity in town, including many new houses being constructed all over town; construction of several new shopping centers and a new building for the Savings Bank of Tolland. No new gas stations were built.

As the year drew to a close, residents protested a requested zone change to permit the town's limited bonding capacity three years ago, contains five additional classrooms as well as specialized facilities for science labs, home economics, industrial arts and a gym.

He lost the Democratic nomination for state representative from the new 53rd District (Tolland, Coventry and Willington) during September and a subsequent petitioned primary in October, against incumbent candidate Richard Cromie of Coventry. Cromie turned was defeated by Republican Jesse Brainard also of Coventry. Tolland's long-time GOP state Representative, Robert King, retired from the legislature at the end of the term.

Thifault opposed the new proposed charter, advocating instead a full-time mayor or full-time first selectman with full executive powers.

In November a majority 15-8 vote of the Democratic Town Committee called for Thifault's resignation from the chairmanship post he has held since 1968. The committee ruled illegal by the parliamentarian Atty. Harold Garity, who also offered to meet with both sides to settle the issue.

The Democrats are expected to meet the second Friday in January and to reach a decision on the problem, which marked one of the most bitter political fights in this town in years.

Other Events
Several good things occurred during the year, topped by the receipt of larger than anticipated federal revenue sharing funds which will give the town \$80,388 a year for the next five years.

The town is holding a option on a new 100 plus acre dam site, near the present dump and a senior citizens housing committee was formed.

The possibility of year round schools and town-owned school buses were studied and dropped. The town plan, making IGE Individualized Instruction Program was implemented at Hicks Memorial School and the high school underwent accreditation evaluation during December, a report on which is still pending.

Fire Destroys Machine Shop

CHESHIRE (AP) — A fire of undetermined origin broke out Tuesday in a one-story machine shop and nearly destroyed the structure before it was extinguished, fire officials said. Lathes and milling machines were lost along with contents of the Greg Manufacturing Co., fire marshal James Doherty reported.

The blaze apparently started in a reception area of the company's office area and spread through the building and into the attic storage area. It was reported at about 12:35 a.m. by neighbors and was brought under control in about a half-hour, Doherty said. There was no immediate estimate of the loss.

Assembly Organizing

HARTFORD (AP) — The new Connecticut General Assembly was to settle down to its first round of committee business today after a busy opening session Wednesday that included Gov. Thomas J. Meskill's "State of the State" address.

In today's sessions, the committees of the Republican-dominated legislature, each headed by a pair of Republican co-chairmen, were expected to organize themselves for the coming months.

An ebullient Lt. Gov. Clark Hull said Wednesday's opening session was like "the first day of school with new Buster Brown shoes on." He said a bright day for the Republicans, who found themselves in control of both houses of the legislature and the governor's office for the first time in 20 years.

Meskill's address, delayed two hours because of procedural business on the floor, contained calls for controls on hospital care when, before the assembled multitude, outgoing Rep. Rubin Cohen of Colchester presented a loaf of pumpernickel bread.

But the lack of other specific recommendations indicated Meskill would assemble most of his legislative program piece by piece throughout the 1973 legislative session.

The delay in Meskill's appearance resulted from the first test of Republican unity and strength in the legislature against the Democrats, who were unseated in the Nov. 6 election from majorities in both houses. The Republicans proposed a Jan. 11 deadline by the filing of bills by individual legislators; a deadline attacked by the Democrats.

The commission said the result of its recommendation would be a net loss of \$9 million a year in tax revenues to the state government.

By repealing the dividends tax, \$28 million would be lost in annual revenues, but by doubling the base of the capital gains tax, \$17 million of that loss would be accounted for, the commission said.

The commission proposed to boost the capital gains tax back to the level where the 1971-72 legislature intended it to be — a 6 per cent tax on 100 per cent of long-term capital gains. The state Supreme Court ruled last year that because of the wording of the law, the tax could only be applied to 50 per cent of any long-term capital gain, the other 50 per cent being exempt. The Tax Department is now in the process of returning about \$16 million in refunds to capital gains tax payers.

B52 Lost SAIGON (AP) — The U.S. Command today announced the loss of another B52 heavy bomber and another F111 fighter-bomber in the air war against North Vietnam.

It also reported that the recent air blitz on Hanoi and Haiphong pushed the total number of Americans killed, missing or captured during the last two weeks of 1972 to 109, the greatest number since American war casualties in two years.

Bomb Fatalities TOKYO (AP) — North Vietnam announced today that a preliminary survey showed 1,318 persons were killed and 1,261 wounded by U.S. bombing raids on Hanoi last month.

A committee of a special investigating committee said that, in 10 days of bombing between Dec. 18 and Dec. 28, American planes made more than 1,000 sorties against the North Vietnamese capital. It said 400 tons of bombs were dropped, devastating densely populated areas.

The U.S. command in Saigon has withheld its own report on the bombing damage.

Consumer Credit WASHINGTON (AP) — A national commission has proposed major revisions in the consumer-credit field to make credit cheaper and easier to get, but members said the panel was not unanimous in the Wednesday night during the freezing rain near Oswego, N.Y.

Sixteen other team members and coaches were injured. Rain soaked areas of the Southeast into the Ohio Valley and Virginia and a few showers sprinkled the central California coast.

Fair weather was confined to West Coast states and much of Texas and the lower Mississippi Valley.

Temperatures before dawn ranged from -26 at Butte, Mont., to 77 at Miami and Ft. Lauderdale, Fla.

Grumman Loan BETHPAGE, N.Y. (AP) — Grumman Corp. has been granted an additional \$18 million loan by the Navy despite the aerospace contractor's refusal to build 49 more F14 jet fighters for the service under a contract option.

A Grumman spokesman said Wednesday night the loan was authorized by the Navy on Dec. 12, the day after the company said it would not build the additional F14s unless the price were renegotiated.

Winter Plagues Most Of Nation

By The Associated Press
Bitter winter weather plagued the intermountain region, the Midwest and New England today, cutting off electric power and closing schools and highways.

A new snowstorm churned across the intermountain region, where travel advisories were posted. Public officials and their critics in Salt Lake City were at each other's throats over snow-clogged streets that have left that city bound up since late last week.

Arctic cold pushed into the midcontinent as far south as Oklahoma in Kansas, 75,000 customers of the Kansas City Power & Light Co. were without electricity at various times Wednesday and early today as ice-laden trees and power lines cluttered the streets and 5 inches of snow covered the glaze.

Parts of Nebraska, Missouri and Iowa were affected by the blizzard that closed many schools and made driving throughout the region hazardous. Three persons died Wednesday in a truck collision near Ottawa, Ill., during a freezing rain storm.

Freezing rain also hit New York, New Jersey and Connecticut, Massachusetts and Vermont. Gale warnings were posted over the Great Lakes.

Three members of a New York high school swimming team were killed when their chartered bus skidded off an expressway and overturned Wednesday night during the freezing rain near Oswego, N.Y.

Sixteen other team members and coaches were injured. Rain soaked areas of the Southeast into the Ohio Valley and Virginia and a few showers sprinkled the central California coast.

Congress Mulls Ending Of War

WASHINGTON (AP) — Despite a White House suggestion that congressional intervention might prolong the war, Senate Democrats are in general agreement that Congress should try to end U.S. involvement in Vietnam if President Nixon does not.

Fire Destroys Boston Train

BOSTON (AP) — Firemen utilizing 1,000-foot long pieces of hose and oxygen masks extinguished a fire this morning that destroyed an inbound rapid transit train on the MBTA's Red Line near the South Station Under tunnel.

An estimated 250 transit riders were brought to the surface at the nearby Broadway subway station, firemen said.

Several persons suffered injuries and were taken to Boston hospitals for treatment. MBTA officials said one of their employees was missing, but firemen said there was no one in the mile-long tunnel after another car caught fire.

MBTA officials said several sections of the rapid transit lines were shut down because of the fire and resulting smoke which spread through the network of tunnels. Rush hour traffic, already hampered by an early morning snowfall, came to a virtual standstill in the section of the city near South Station.

Transit officials reported that the train became grounded at the intersection of the two subway stops. Resulting fire ignited the fire, they reported.

Clash Marks Semipublic Peace Talks

PARIS (AP) — The semipublic Vietnam peace talks resumed today with a sharp clash between the Communists and the South Vietnamese over the peace agreement Henry A. Kissinger and Le Duc Tho drafted in October.

Hanoi called for the United States to sign the agreement "promptly," but Saigon denounced the draft as a "disguised victory" for North Vietnam.

Saigon's representative renewed its demand that Hanoi renounce the existence of local sovereign states in Vietnam. Dinh Ba Thi of the Viet Cong said this was "utterly absurd" and a "U.S. maneuver to deny the fact that there now exists in South Vietnam two armies and three political forces."

The chief U.S. delegate, Ambassador William J. Porter, issued a sharp retort at the end of the session, telling newsmen: "Unless they admit that their design is to achieve the reunification of Vietnam their way and to place the whole of Vietnam under their domination, the Hanoi authorities cannot be taken seriously."

He said both are "internationally recognized" and each having its own political regime and exercising its sovereignty on its own territory, as in the cases of the two Germanys and the two Koreas.

The amount, he said, "will be determined after all factors have been properly examined and studied."

Bus Crisis Meeting Set For Late Today

HARTFORD (AP) — Signs of local willingness to pay part of the cost of resuming bus service in and around the state's six largest cities has prompted Gov. Thomas J. Meskill to join personally in bargaining talks.

Meskill's agreement to meet late this afternoon with a negotiating committee of local officials comes as a glimmer of hope for resumed bus service after weeks of uncompromising disagreement between the two sides.

New Haven Mayor Bartholomew F. Guida and state secretary to report on the number of bombs dropped, shells fired, planes lost, and men killed, wounded, captured and missing since the bombing of North Vietnam was intensified Dec. 18.

The Senate Democratic Conference endorsed a statement of the House of Representatives on the bombing of North Vietnam, which called for "termination, forthwith, of our involvement in the war in Vietnam."

Mansfield noted Nixon could withdraw all U.S. forces from Indochina "by a stroke of the pen" but Congress cannot.

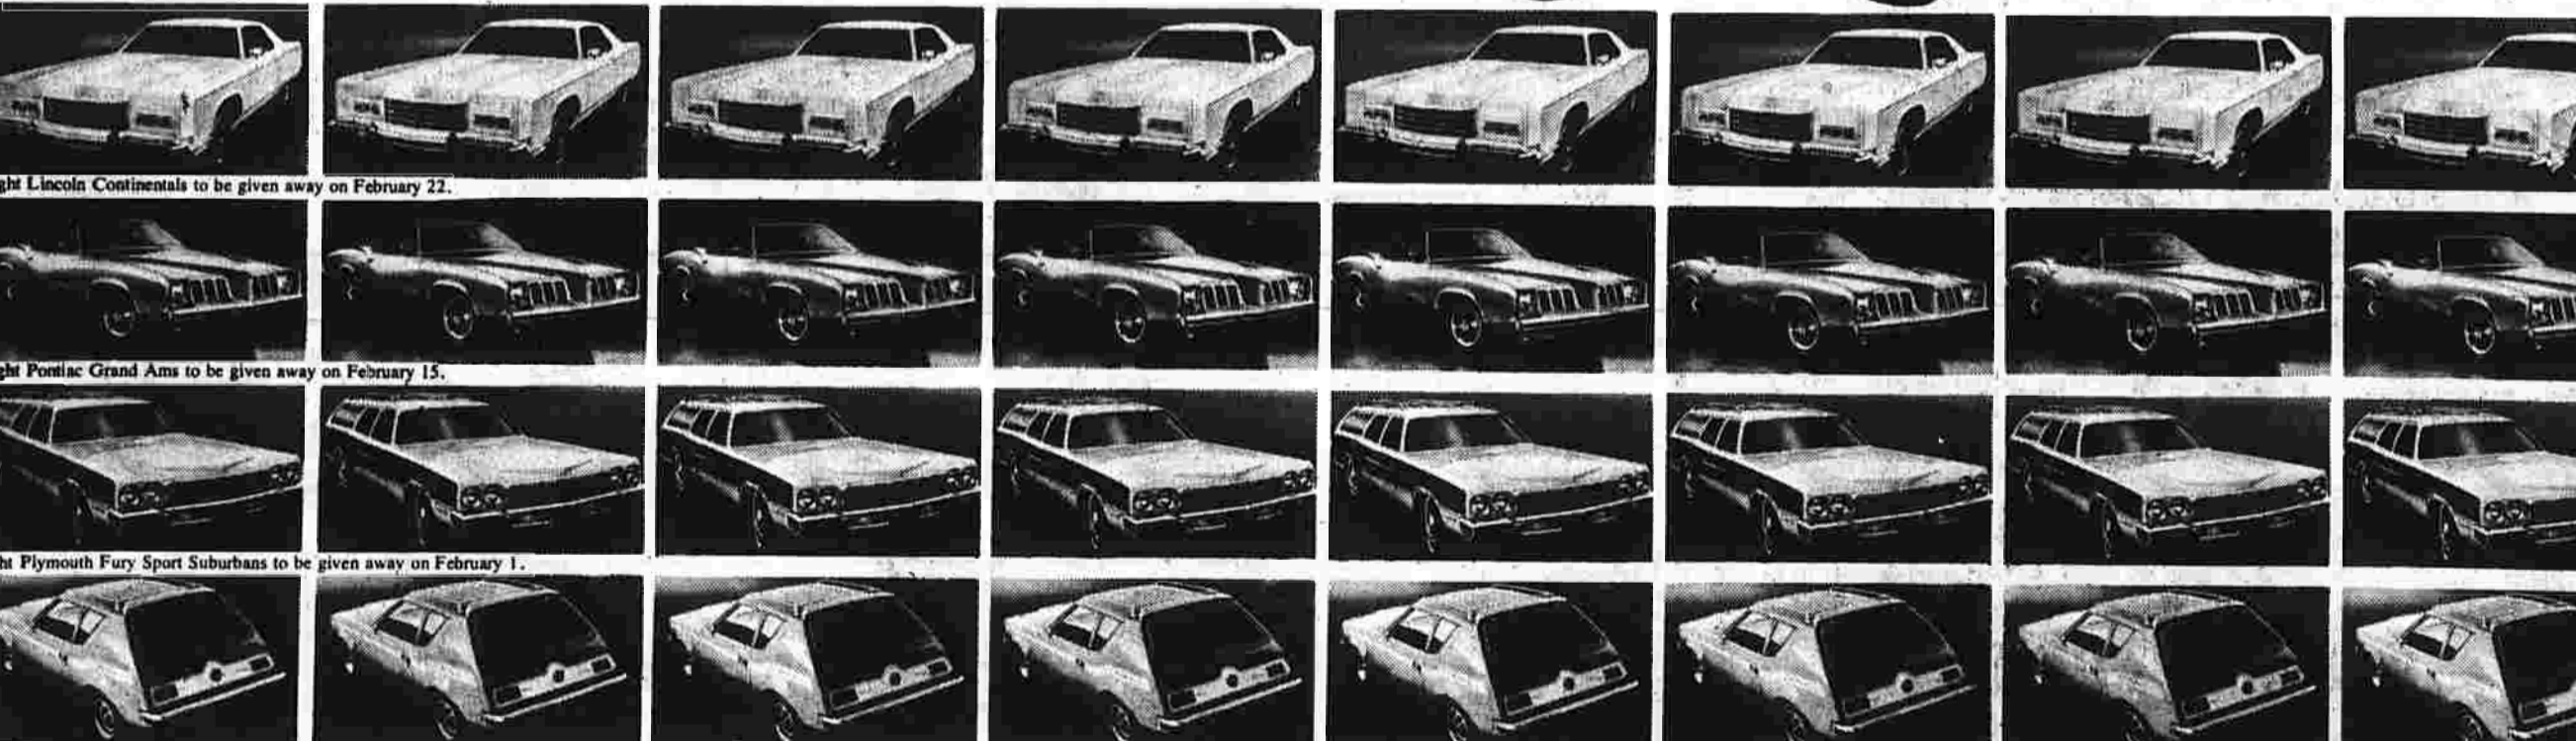

Rep. Bella Abzug, D-N.Y., introduced a bill calling for a prompt peace agreement and, if not, a cutoff of all money for the war.

Walter F. Mondale of Minnesota and Mike Gravel of Alaska, and conservative Sen. Lloyd Benetsen of Texas.

Republicans will fill two vacancies on the key legislative committee next week, but it appears there will be little change in the past conservative domination of Finance.

Antwar sentiment was not confined to the Senate Wednesday.

CHOOSE YOUR FINESSES TO SAFEGUARD CONTACT
 By ALFRED SHEINWOLD
 Taking finesesses is like eating candy: You have to know when to stop. South had to exercise restraint in today's hand since just one finesse too many would have given him indigestion.

 North-South vulnerable
 Opening lead — Four of Spades
 West opened the four of spades, East put up the jack, and South won with the ace. Declarer planned to try for three diamond tricks and for two tricks in each of the other suits.
 South's first step was to lead the nine of diamonds and let it ride around to East's queen. South didn't mind losing one or two diamond tricks to make sure of three tricks in the suit. East returned a spade, and West took the queen. West realized that South had a second spade stopper, so he switched to the eight of clubs.
 This gave South the chance to finesse with dummy's jack of clubs, but South resisted the temptation. Instead, he played low from the dummy and won with the ace of clubs in his own hand.
 Second Chance
 Declarer next led the eight of diamonds and let it ride, losing to East's king. East returned a heart, and South had the chance to finesse with the jack of hearts.
 South resisted this temptation also. He put up the ace of hearts and led the ten of spades to force the king. Now South was in position to take his remaining six tricks.

Satire on 1972 On ABC Tonight
 By Jay Sharbut
 AP Television Writer
 NEW YORK (AP) — Satire is what closes Saturday night on Broadway. This could be why the ABC Television network took the precaution of opening with it tonight at 11:30 p.m. EST.
 Be that as it may, the satire is a 90-minute David Frost production called "That Was the Year That Was." It's a barbed look at 1972, a year stoutly defended by Atty. F. Lee Bailey.
 You must ignore everything about it if you've read in the newspapers and seen on television, "the good barrister says, "That's hearsay."
 He pleads his case towards the end of the show. Other participants take his advice at the beginning. The result is a sharp, funny show that may offend.

Today's Thought

Love alone and love only unify and integrate.
 The weakness of religious and political prophets — is not their energy — or their platforms, or their friends, but their lack of courage to demand that their followers risk uncertainty and pain as the "prophet and his people" get a wider understanding of the unity of man and his world.
 Each new prophet has to challenge old positions and accept points of view from those with whom he contends if his vision is to grow.
 Each prophet needs less haste to experience the new and more strength to persist in continuous maturation.
 Each prophet must use the old language for his new language and old visions to build his new visions. He helps translate the new experience into the old memories in such a way that we can accept them.
 A great prophet is one who confronts us with ourselves as we have been to be change ourselves into what we can be.
 The highest kind of courage is needed if the prophet is to change those who are his friends and enemies into those whose love heals and unites.

Would You Like To Become A Millionaire?

describes the plan in his book, "Q-V: The Three Keys to Stock Market Profits." "Q-V," or quality value, timing, is the basis of his investment philosophy.
 "In the stock market," says Wright, "the competent investor can expect an average total return — dividends and capital appreciation — of from 8 per cent to 10 per cent a year."
 "This from blue chips, not speculations."
 "By following sound, proven, professional investment methods he can increase that return to as much as 15 per cent a year. At that rate, he can double his money every five years if he compounds his profit."
 "With an investment of as little as \$100 a month and immediate reinvestment of all dividends and capital gains, a 25-year-old person can be worth just about \$1 million by retirement at age 65."
 "His total investment from personal savings will be only \$48,000; the \$1 million will be quarterly, your original investment after 20 years would be \$24,000 but it would have a market value of \$24,000. After 30 years, \$36,000 and \$48,000. After 40, years \$48,000 and \$64,000."
 "If you achieve a 15 per cent return, and Wright maintains you should strive for nothing less, your original investments would be the same, of course, but your market values would be \$144,000 after 20 years, \$655,000 after 30, and \$2,883,924 after 40."
 "Now the taxes. If you earned 15 per cent for 40 years and paid income taxes from your portfolio each year, your net worth would be just under \$1 million. This assumes taxes were in 1970."
 "However, if you prefer to borrow against the portfolio to pay your taxes each year and then pay only interest on the loans until you make a total repayment at age 65, you would have a portfolio of close to \$2 million."
 "Feel better? Now get to work."

Blood Donor Month

The traditional season of gift giving is over. Unfortunately now too few will think of giving a gift that costs nothing, but may mean everything to some fellow human being.

It is the gift of a pint of blood, the precious life fluid that is closer in composition to sea water than any other substance.

To remind potential blood donors, however, January has been proclaimed the annual National Volunteer Blood Donor Month.

In his proclamation on the observance, President Nixon has noted that the gift of blood "is an offering for which there is no substitute, and which annually helps restore to good health countless fellow citizens."

The American Assn. of Blood Banks will give special plaques to 57 donors in six states and the District of Columbia for donating 10 or more gallons of their blood.

Ten gallons is a lot of blood. The standard donation is a single pint. This means that each of the 57 individuals has given blood at least 80 times in their lives.

Some procrastinate giving blood because they fear pain or inconvenience, but it isn't hurt enough to keep Jack E. Robinsons of Watertown, N. Y. (14 gallons), or Robert Carter Jr. of Tampa, Fla. (13 gallons), or Russell T. Bowie of Washington, D. C. (13 gallons), from making this small sacrifice to help others.

"Our hospitals now need seven million pints of blood a year," says Dr. Robert Langdell, president of the A.A.B. "The need is as great in January as in any other month, but holidays, illness and, sometimes the

weather, keep many donors away. If during the month only a few more Americans will donate a pint, shortages which often have marked January will not be repeated."

Dr. Langdell notes that for reasons of safety as well as cost, as much blood as possible should come from volunteer donors. Already at least 80 per cent of it does and this saves the American public an estimated \$100 million a year. "This is true," he says, "despite the fact that only three per cent of those qualified by age and health donate. The others do not give blood because of inconvenience, apathy or baseless fear."

If a person is in good health and between 18 and 66 years of age, he can help by giving blood now or pledging future donations. Employers can help by allowing employees to give during working hours. Different types of organizations can help by sponsoring donor clubs. These assure members replacement of blood their families may need and give the community a year-round supply.

Previous observances of National Volunteer Blood Donor Month have helped many blood banks recruit new donors.

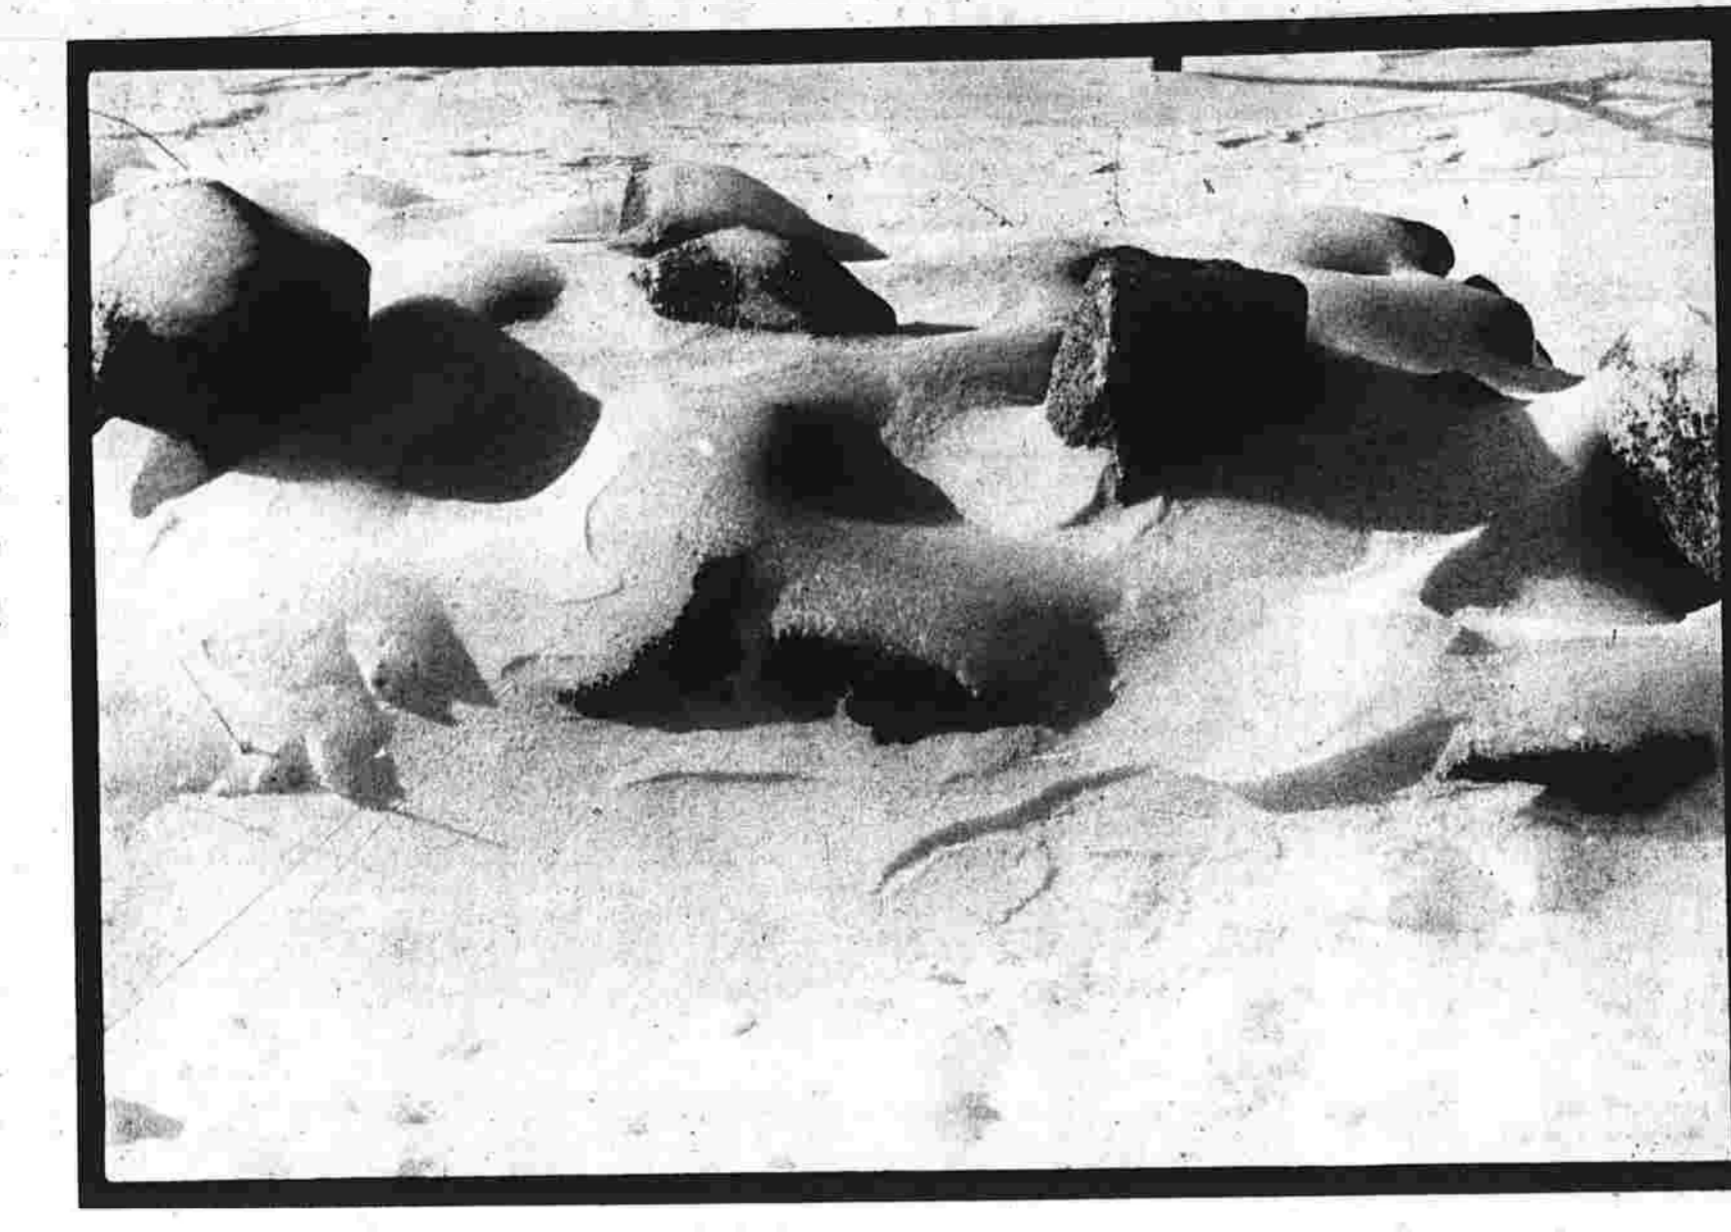

In previous years on this occasion, the words to an old song about giving blood were printed. They are still appropriate:

Close your eyes and point your finger On the map, just let it linger Any place you point your finger to There's someone with the same type blood as you.

India, China or Alaska Mexico or Madagascar, Indonesia, Ireland or Peru There's someone with the same type blood as you.

Young Democrat Club Urged

To the editor: The November elections have proven many things. One is that the Democrats are a very disorganized party. Another proven fact is that the Nixon Administration plans no changes. We heard that the blockade was going to bring North Vietnam to their knees. On Oct. 28 we heard peace was at hand. How many billions of dollars, and thousands of human lives must be wasted before America stops? The Nixon domestic policy has also left much to be desired. What will the unemployment level rise to when we no longer have a war to make bombs for?

Sen. McGovern was certainly not the greatest candidate the Democrats could have chosen. His methods showed many interesting trends. His method had nothing in common with the party machine politics of Lyndon Johnson, and Hubert Humphrey. If the Democrats care to look at Sen. McGovern as the beginning of a trend.

A trend towards responsive government, and away from the divine right government of San Clemente. The Democrats have a tremendous task ahead of them, they also have a tremendous chance to succeed.

United Auto Workers president Leonard Woodcock to succeed the old McGovern Reform Commission. Apart from leading the Woodcock Commission with an overwhelming leftist majority, Mrs. Westwood's staff caused a quantitative mismatch. The commission includes Kenneth Bode, chief architect of the McGovern reforms, and Phyllis Segal, wife of the Woodcock reformer. Theoretically, the McGovern reforms are a State-level reform activists named Sara Kovner of New York, Marvin Shapiro of California and William Hart of New Jersey.

These are left activists, imbued with detailed knowledge of the reforms and prepared to sit through interminable sessions of the Woodcock Commission. Connecticut has many similarities to the national situation. We have a spattering economy and an unresponsive demagogue who considers his office a throne.

The thing I would be interested in would be a local Young Democrat Club. I wonder if Manchester even has one? The governor's race is two years and I do not think we could stand two more years of the Nixon administration. The Democrats have a tremendous opportunity, but no one is going to give them anything.

North Vietnam's 'Agreement'

WASHINGTON—It is now possible to report, from rather close to the horse's mouth, the murky background of North Vietnam's announcement on Oct. 25 of an "agreement" with the United States on a cease-fire. Hanoi, quite simply—and in the tradition of Communist negotiators—was putting Richard Nixon on a spot.

Matters were progressing pretty well between Henry Kissinger and North Vietnam's Le Duc Tho. They had hammered out a tentative accord on the terms for a cease-fire and there was every indication that the language of this tentative agreement could be laundered and tightened during the chief negotiators.

The move left Nixon and Kissinger with no alternative. They had to confirm the tentative accord, and they did so. But while Kissinger quite properly reported that some details remained to be ironed out in future sessions, he also blundered. Perhaps unwilling to dash American hopes, he told a news conference that the commission was not endorsed as a provisional government.

In fairness to Kissinger, he believed he was telling the American people the truth. He had been assured by Le Duc Tho that the differences were minor and could be negotiated without any sweat. Given the joyous international uproar over Hanoi's announcement of the "settlement," he must have felt his appraisal of the situa-

tion was justified. Anyway, he could hardly have disowned the tentative accord. It existed. One high administration official close to the situation claims that Kissinger was more Machiavellian than he appeared. The "peace-at-hand" bit, he says, was an effort to put the onus on Hanoi if negotiations collapsed. This official says unequivocally that Kissinger's use of the phrase "the differences Washington would make it clear to the world that they had sabotaged the deal."

Unfortunately, things did not work out that way. Although it is obvious that Hanoi is the villain in the world—and numerous members of the U. S. Congress—couldn't care less. As Sen. Mike Mansfield, the Senate Majority Leader, put it, they were satisfied with the Oct. 25 "settlement." So the world and the American loyal opposition poured condemnation on President Nixon's head for his resumption of fullscale bombing of North Vietnam.

What these critics want is an end to American involvement in the war. Period. Mansfield spelled it out: "It is long since past time to stop worrying about saving face and concentrate on saving lives and our own sense of decency and humanity." Whatever the merits of the case, Hanoi's Oct. 25 gimmick of announcing a "settlement" had done its job for the Communists.

Ski Club The Rockville Alpine Ski Club will meet today at 8 p.m. at the Lottie Fisk Building, Henry Park with Jim Shea, coach of the U. S. Biathlon Team as guest speaker.

Shea will talk on cross-country skiing and there will be a display on winter gear. Following a brief business meeting, refreshments will be served.

Civilian Work Force Cut Anticipated

WASHINGTON (AP)—In an effort to cut spending, defense officials expect to slash about 10 per cent of the 1.1 million civilians employed by the armed services.

Final decisions have not been made by President Nixon's Office of Management and Budget, sources said, but the civilian job losses are expected to be a result of base closings to be announced within a few months.

Few Voice Comments On Three Ordinances

BY SOL R. COHEN (HERALD REPORTER)

A minimal amount of public comment was registered at a luncheon meeting at the Manchester Board of Directors conducted hearings on three proposed ordinances.

College: Miss Mary Della Pera, Manchester director of welfare and social services; Paul Berke, chairman of the Manchester Housing Authority; and Herman Schendel, head of the Manchester Pensioners' Group.

The town proposes to set 2.35 acres in four parcels along Birch Mt. Rd. for \$10. All of it is in Glastonbury and is now a dirt road—a continuation of Villa Louise Rd. to Hebron Rd. The Town of Glastonbury has agreed to install about 7,000 feet of range-type fencing, to protect the other Manchester-owned land, a 50 x 20 foot parcel of it considered watershed land for the Roaring Brook Reservoir.

The amendments to the sidewalk ordinance would waive assessments when a program is initiated by an action of the Board of Directors. An example would be the \$200,000 sidewalk program approved in a Nov. 7 referendum.

Mrs. Elizabeth Sedolski, a one-time member of the public to speak on the proposal, said she agreed with the concept of waiving assessments for sidewalks used primarily by others, notably school children. She charged, however, that the proposal was being offered now to "cover up" promises made by some directors when the referendum was being considered.

She questioned the legality of the amendments in their relation to the referendum, noting that the question was approved on the basis of the existing ordinance. She said she also thought the directors might have to answer later to those of discrimination, from those persons who don't get sidewalks.

Establishment of a Commission on the Aging was backed by James Watt, chairman of a Nov. 18 Conference on the Aging sponsored by the town and Manchester Community

\$13,636 to the Special Grants Account, for the Manchester Drug Advisory Council and to be funded by an equal state grant, covering the period October 1972 to June 1973.

\$50,000 to the General Fund, to refund the town money advanced for renovating 14 rooms at Robertson School into school administrators' offices. The sum is being financed by a state grant.

\$28,000 to the Sewer Department's Debt Service Account and to be financed from sewage-use charges. The sum, to cover a debt service payment, had been left out of the 1972-73 budget inadvertently.

\$20,500 from the Revenue-Sharing Account, for retaining an outside engineering firm. The company, identified by Town Manager Robert Weiss as Grissold & Foss of Manchester, would prepare plans for reconstructing

Pension Plan Regulation Bill Presented

WASHINGTON (AP)—A bill for federal regulation of pension plans involving half the nation's work force was introduced again today.

The bill is calculated to assure covered workers of at least minimum pension benefits and to allow workers to add up pension credits from jobs with different companies.

The directors took no action on the proposal. Discussion and possible action will take place at their meeting next Tuesday.

Tolland Repair Of Payloader Pressed

BETTE QUATRALE

The repair of the broken down payloader has been urged by minority Selectman Charles Thifault, and First Selectman Sioetznier agreed to make another visit to the Board of Finance to again appeal the problem.

Sioetznier claims the finance board gave him the go ahead to lease a payloader from a private contractor, estimating it will cost the town \$6,000 for the winter. He further contends the finance board agreed to put a request for a new payloader in the budget for next year.

Thifault claimed the town "is paying through the nose" for the rental of the payloader.

The \$20 per hour cost is \$5 less than the first payloader the town was renting, however, after the old one broke down during the first storm of the season.

Thifault claimed it would be cheaper to repair the existing payloader and trade-in would be better on an operating piece of equipment.

Selectman Charles Luce contended it was poor business practice to lease a payloader as the town is doing, when it could be leasing with a right to purchase and payments being made towards the purchase price of a new one.

Sioetznier agreed with the other two members of the Board of Selectmen, but added more than the \$1,400 repair of the hydraulic system would be required, according to estimates he has received. A complete overhaul would be necessary. Trade in value would be \$1,400 for a working machine or 10 per cent of the purchase price if the town keeps the old one, which would amount to more than \$1,400.

The first selectman agreed to meet again with the finance board to plead his case, and to get the finance board decision "in writing."

Waiting for Maps

The town is still waiting for the state to send it maps upon which local officials can mark the proposed dump site, according to Sioetznier.

The town presently holds an option on 134 acres of land on Old Stafford Rd., near Cook Rd., but must obtain the approval of the state environmental protection agency, if the site is to be used for a dump. The maps are a preliminary part of the approval process.

Dance Scheduled

The Tollanders Square Dance Club will hold a club level dance Friday night at 8 p.m. in the Hicks Memorial School. Charley Underwood will serve as caller.

Hebron Democrats Outspent Republicans

ANNE EMT
Correspondent
Tel. 228-3971

Financial reports for last November's campaign show that the Democratic Town Committee's expenditures of \$288 were considerably higher than the \$271.84 spent by the Republican Town Committee.

On the other hand, contributions received by the Democrats far exceeded those received by Republicans. Total contributions listed by the Republican Town Committee amounted to \$43 for \$448.21. The Democratic Town Committee listed one contribution for \$15.

Of the \$688 spent by the Democrats, \$550 were for donations to the campaigns of Mrs. Cynthia Wilson and Mrs. Estelle Flanagan with the remainder for headquarters expenses.

More than half of the Republicans' expenses was for advertising, public notices and postage for mailings. Postage alone amounted to \$119.40 and \$83.96 was spent for advertising and public notices.

The one contribution received by the Democrats was from a business, whereas all but two of the Republican contributions were from individuals.

View From Abroad

LONDON (AP)—Newspaper editorials around the world continued a drumbeat of criticism last week of the now-suspended U.S. bombing of Hanoi and Haiphong.

Except for the conservative London Daily Telegraph, most comment was pointedly bitter toward President Nixon and U.S. policies.

Britain's liberal Guardian compared U.S. bombing and aid to Nicaraguan earthquake victims and concluded it all "shows that the United States is good at flying planes."

"The bombing is inhumanly pointless. It dwarfs benevolence to Nicaragua and will make a negotiated settlement ... more distant," the Guardian said.

But the Telegraph, a consistent defender of Nixon's war policies, said: "North Vietnam wants to go on making war. Mr. Nixon wants to stop them. He merits support in this honorable cause."

The Times of London pointed out that the bombing of Britain in World War II "affirmed the resolution of the people and spurred them to fight on." It added: "There is little indication that it will have any more telling effect in Vietnam. What the United States is losing politically in the eyes of the world is beyond all computation."

French and Soviet publications took note of the outspoken official Swedish policy of American critics. The U.S. State Department's announcement that Sweden has been asked not to send a new embassy to Washington. Their comments suggested a Scandinavian David facing down the diplomatic club of an American Goliath.

"The leaders of the little Nordic countries dare to say out loud what many others think," said Le Monde. "They also know that their frankness, beyond the irritation, inspires esteem and that this is preferable to a prudent silence or to diplomatic opportunism or pious wishes of other 'friends of America' which ... go back on their proclaimed convictions and admit the inadmissible."

Tass, the Soviet news agency, asked: "Why is it that the United States authorities react so nervously to the voice of protest from Sweden when the wave of indignation with the barbarous actions of the United States military is mounting all over the world?"

In Hong Kong, the Far Eastern Review said: "There has always been something inhuman about Nixon's inability to communicate or identify with the rest of humanity."

"He is closest to another man of stone, Dr. Henry Kissinger. Neither the Californian Quaker nor the Middle European doctor can apparently appreciate that bombast breeds resistance and does not smash it."

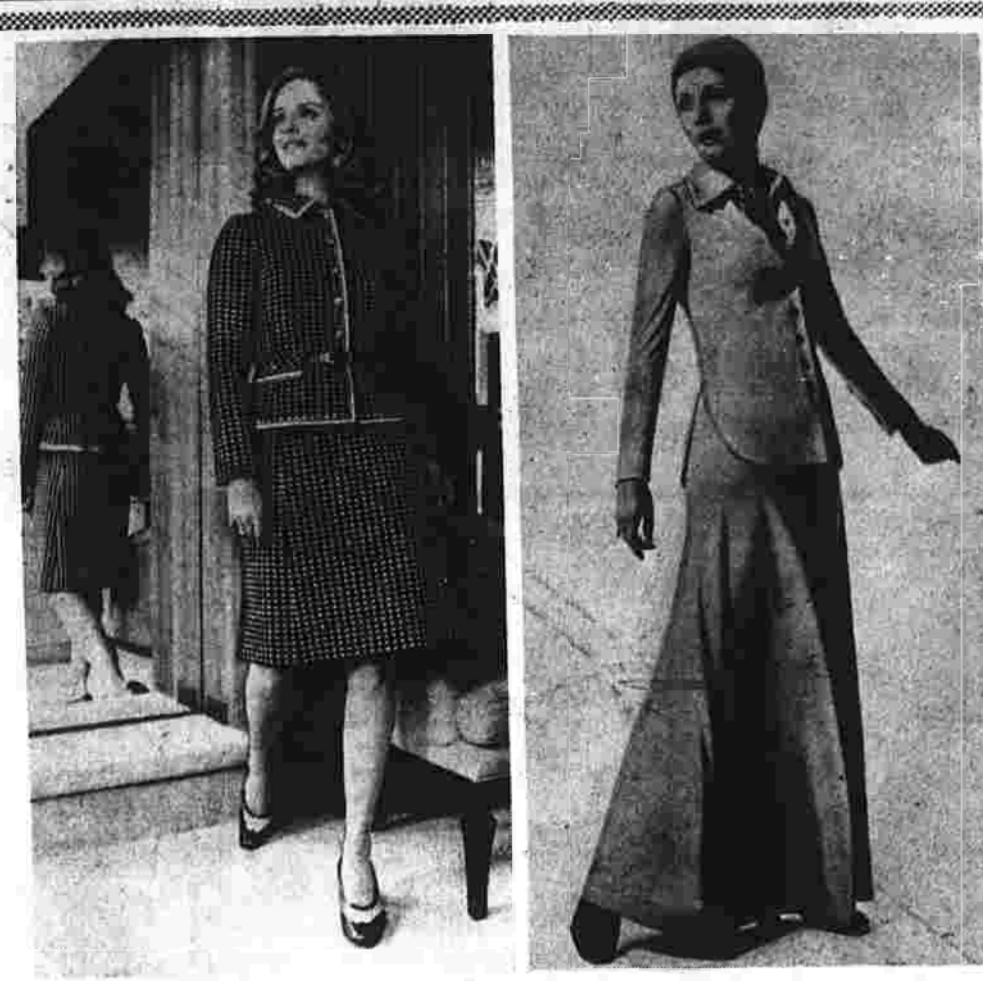

Montreal's Le Monde, commenting on Kissinger, said: "Politicians were successful for a while in making us believe peace was near. However, in the long term, they have created among those who listen to them, a profound feeling of abuse which is doubtless at the root of the increasing skepticism of the people toward politicians."

Burr Nurseries Sold

By JOHN A. JOHNSTON
(Herald Reporter)

C. R. Burr and Co., Inc., the wholesale nursery business with warehouses and offices at 420 N. Main St., and its subsidiaries, Burr Products, Inc. and American Rose Co., have been sold. The purchaser is a private investor, headed by John H. Hickman, with headquarters in Cooperstown, N.Y.

The sale price was not revealed. The new owners will continue to do business under the Burr name, and Charles S. Burr, who has been associated with Burr Nurseries for 43 years and president since 1946, will remain as a consultant. "I hope to be going to help to start another 75 years," Hickman commented.

The sale includes 10 acres of land in Manchester, seven of which contain 100,000 square feet of warehouse and office space. In N. Main and Oakland Sts., 350 acres of growing land in Somers, Broad Brook, Ellington, Middlebury and Durham; and contract growing facilities near Bakersfield, Conn. for producing 200,000 rose bushes on 40 acres. Burr Nurseries has maintained contact relations with the famed California grower for 15 years.

SPECIALTIES
Evergreens, ornamental and shade trees, and flowering shrubs are the specialties of C. R. Burr and Co. When the company was established in 1938 on 30 acres on Oakland St., by Clifford R. Burr, father of the recent owner, he specialized in the growing and sale of plants. The founder purchased the tract from his father, Nehemiah, who was a farmer.

At the company's peak production during the year, Burr said, about 150 employees are on the payroll. The office space between 80 in the fields and 70 in the warehouse. The year-round crew, he added, is about 100. Burr said he had 119 employees in 1968 on 30 acres on Oakland St. to the present N. Main St. location. Hickman said that all employees will be retained.

Historically, Hickman said, the annual gross sales volume of Burr products has hovered around the \$1 million mark.

ORIENTATION
Commenting on his group's Manchester investment, which he described as "one of the best in the business," Hickman made the observation that the nursery business has changed its orientation from production to marketing, from what was once a superficial type of

landscaping to a fast-growing and deep-seated interest in the large segment of society in the contribution of trees and shrubs to the ecological movement. "There has been a development, especially in the last five years," he said, "of concern with environmental improvement, and it has changed the prospects of this business. People want living things around them, and they have the time and money to do it."

Hickman, who will be president of C. R. Burr and Co., has been chairman of equipment companies in the agricultural field, including machinery for nurseries. He has also been involved in investment banking and banking throughout the country since graduating from Yale Law School in 1962. A native of Wilmington, Del., he received his undergraduate degree from

Brown University in 1959. **SERVED UNIVERSITY**
In his more than 40 years of affiliation with C. R. Burr and Co., Charles has served in a number of capacities with state, regional, and national nursery organizations. He has been president of the Connecticut Nurserymen's Association, All-American Rose Selections, and National Ornamental Nurserymen's Association. He is presently a research metallurgist with the Hamilton Standard Division of United Aircraft Corp.

Working for the U. S. Chamber of Commerce. **HOBBIES**
Other directorships and/or memberships in nursery related groups include the U. S. Nurserymen's Protective Association, U. S. Retail Nurserymen's Association, All-American Rose Selections, Hydro-Chemical Co., Landscape Materials Information Service, Nurserymen's Research Foundation, Superior Peach Pits, Inc., New York Herald Tribune New Plant Board, Plant Propagators Society, and Texas Rose Research Foundation.

Burr said that he plans to devote more time to two hobbies, vintage cars and boating. He is co-owner of the Antique Automobile Museum on Slater St. He was commander of the Hamburg Yacht Club but now ties up in the Saybrook area.

Eight classrooms were built, paving was done near the gymnasium and the basketball court was surfaced. Pupil transportation costs were \$48,436 with Clark Transportation getting the bulk of the money.

Tuition was a big item and figures show that Windham High School received \$252,548. Other tuition paid to Child and Family Services of Connecticut, Inc., \$4,750; Regional District School, \$5,876; Town of Lebanon, \$2,243 and Town of Hebron, \$3,276. The grand total of \$183,711 for the fiscal year.

This included special accounts from Title II library grant and Title II reading grant. **PTA President**
A Founder's Day program has been tentatively scheduled for Feb. 13 at Porter School and almost all PTA presidents

suppressed a little smile when Sen. Weicker asked him if he could arrange a little volleyball game. He organized his group and the senator organized his. The first man of the small group who would be aboard ship for the recovery ceremonies was published. Lt. Keeney spotted the name of Connecticut Sen. Goldwater an Air Force major general and a few others. The "Congressional team," won three out of four games, most embarrassing for our team but it really made Sen. Weicker's day. The next day, recovery day, will probably be one of the most memorable of my life, the young lieutenant said. He added that he and Sen. Weicker swapped cameras since the senator had an underwater camera and his was better for taking pictures on the ship.

"Recovery procedures went along as all the simex (practice sessions) up until the point where we were flying at 10,000 feet and spotted the Command Module's main chutes at 10,000 feet above five miles away from the ship. It was incredibly beautiful," Lt. Keeney related.

As we raced toward it, all hands were trying to take pictures and make final preparations for the jump at "exposed time," Lt. Keeney explained. He described their drops as being almost perfect, occurring 1 1/2 minutes after splashdown of the space ship which had already gone 15 feet below the surface.

The drop was not without a few perilous moments for Lt. Keeney who said that as he attached the one-man raft to the apex, a few shroud lines looped over the manifold of his tank and "I thought for a few seconds I might be sinking with my parachute." His alert swim buddy, however, saw his predicament and disentangled

He described the task of pulling the parachute into the seven-man raft as being much harder than was imagined. He said his main concern was to

As Lt. Keeney related all of this information in a letter to his parents and his wife's parents, he was still sailing toward homeport in San Diego and expected to arrive two days after Christmas.

Four Manchester young people — one a 14-year-old girl — were taken into custody by Manchester Police on drug charges after a raid at 73 Oak St., this morning.

Police, armed with a Circuit Court 12 search warrant, conducted the search at about 9 a.m. A quantity of suspected marijuana and pills was seized in the raid, police said, and will be sent to state laboratories for testing.

All four were charged with illegal possession or control of non-narcotic substance, and illegal possession of restricted substance. The 14-year-old girl, unidentified because of her age, was referred to juvenile authorities, police said. The other three charged were: — John J. McCann, 18, of 73 Oak St. He was to be presented in court today.

— Kevin C. Morgan, 17, of 73 Oak St. Morgan's sister, Kathleen, 17, of 73 Oak St. The Morgans were released on \$500 bail for their appearance and are scheduled to appear in court Jan. 22.

Police said the raid was the result of several weeks of surveillance of the 73 Oak St. residence by the Manchester Police narcotics squad. Investigation is continuing.

Chamber Presses For Case Funds
The Chamber of Commerce is asking area legislators to seek state funds toward the purchase of Case Mountain.

Letters are being sent by Chamber President John A. DeQuattro in support of Mayor John Thompson and his efforts to persuade the state and local governments, said Richard G. Clark, Chamber executive vice president. "We strongly urge our area legislators to push for this appropriation for the state for the purchase of Case Mountain."

The Chamber passed a resolution last Sept. 12 formally supporting Case Mountain purchase. Thirteen past presidents live in town and one is deceased.

In January of 1940 a group of interested persons met at Yeomans Hall with the president of the Tolland County PTA, according to Ronald Lincoln, PTA president.

At that time, meetings were held the second Tuesday of each month (of the school year) and dues were 25 cents a month. Today the by-laws call for five meetings a year and dues are now \$1 per person.

The CRC spent one year compiling the proposed charter, leading to the town manager concept from the beginning. They met monthly until near the end when the actual writing of the document was done and the number of meetings increased.

Guidance Meetings
The Tolland High School Guidance Department is beginning to meet with members of the junior class and their parents to discuss their future educational plans.

Members of the junior class received booklets containing their PSAT scores and the interpretation of these scores before the holidays.

Baton Classes Resume
The Board of Recreation sponsored baton classes resume tonight. Openings are available in the age seven and under class. Interested people may contact Mrs. Marshall Elmer.

CRF Pleared
William Sumner, chairman of the Charter Revision Committee, expressed his pleasure over the selection's decision this morning, but added he was "not surprised."

The CRC does not plan to actively campaign for the proposed charter, but according to Summers "the harder the selection work for it." At present the CRC plans to meet once more, probably next week to review the situation and will speak with groups on an invitation basis.

Medicare Premiums Going Up

WASHINGTON (AP) - Medicare premiums will increase 50 cents a month for 22.5 million elderly Americans beginning July 1, the Department of Health, Education and Welfare announced Wednesday.

The new rates will be \$6.30 a month for the medical insurance plan supplementing the basic hospital insurance part of Medicare.

Last year there was an increase of 20 cents a month.

HEW Secretary Elliot L. Richardson attributed the latest increase to higher hospital outpatient costs, more use of physicians' services and the trend toward more expensive services. The government shares the cost.

The supplemental plan pays doctor bills and a wide range of other health expenses in and out of the hospital.

New Social Security Legislation passed by Congress late last year will offer Medicare coverage for the first time to 1.7 million disabled persons under the age of 65.

The legislation also extends Medicare protection to persons suffering from chronic kidney disease, provides coverage of certain services by chiropractors and speech pathologists, and eliminates the home health agency copayment.

Richardson said there can be no additional premium increase before July 1, 1975, unless Congress hikes Social Security benefits again.

Nuclear Plant Halt Requested

WASHINGTON (AP) - The Atomic Energy Commission was urged Wednesday to declare a moratorium on building all proposed nuclear power plants and those in early construction stage "until all safety-related issues are resolved."

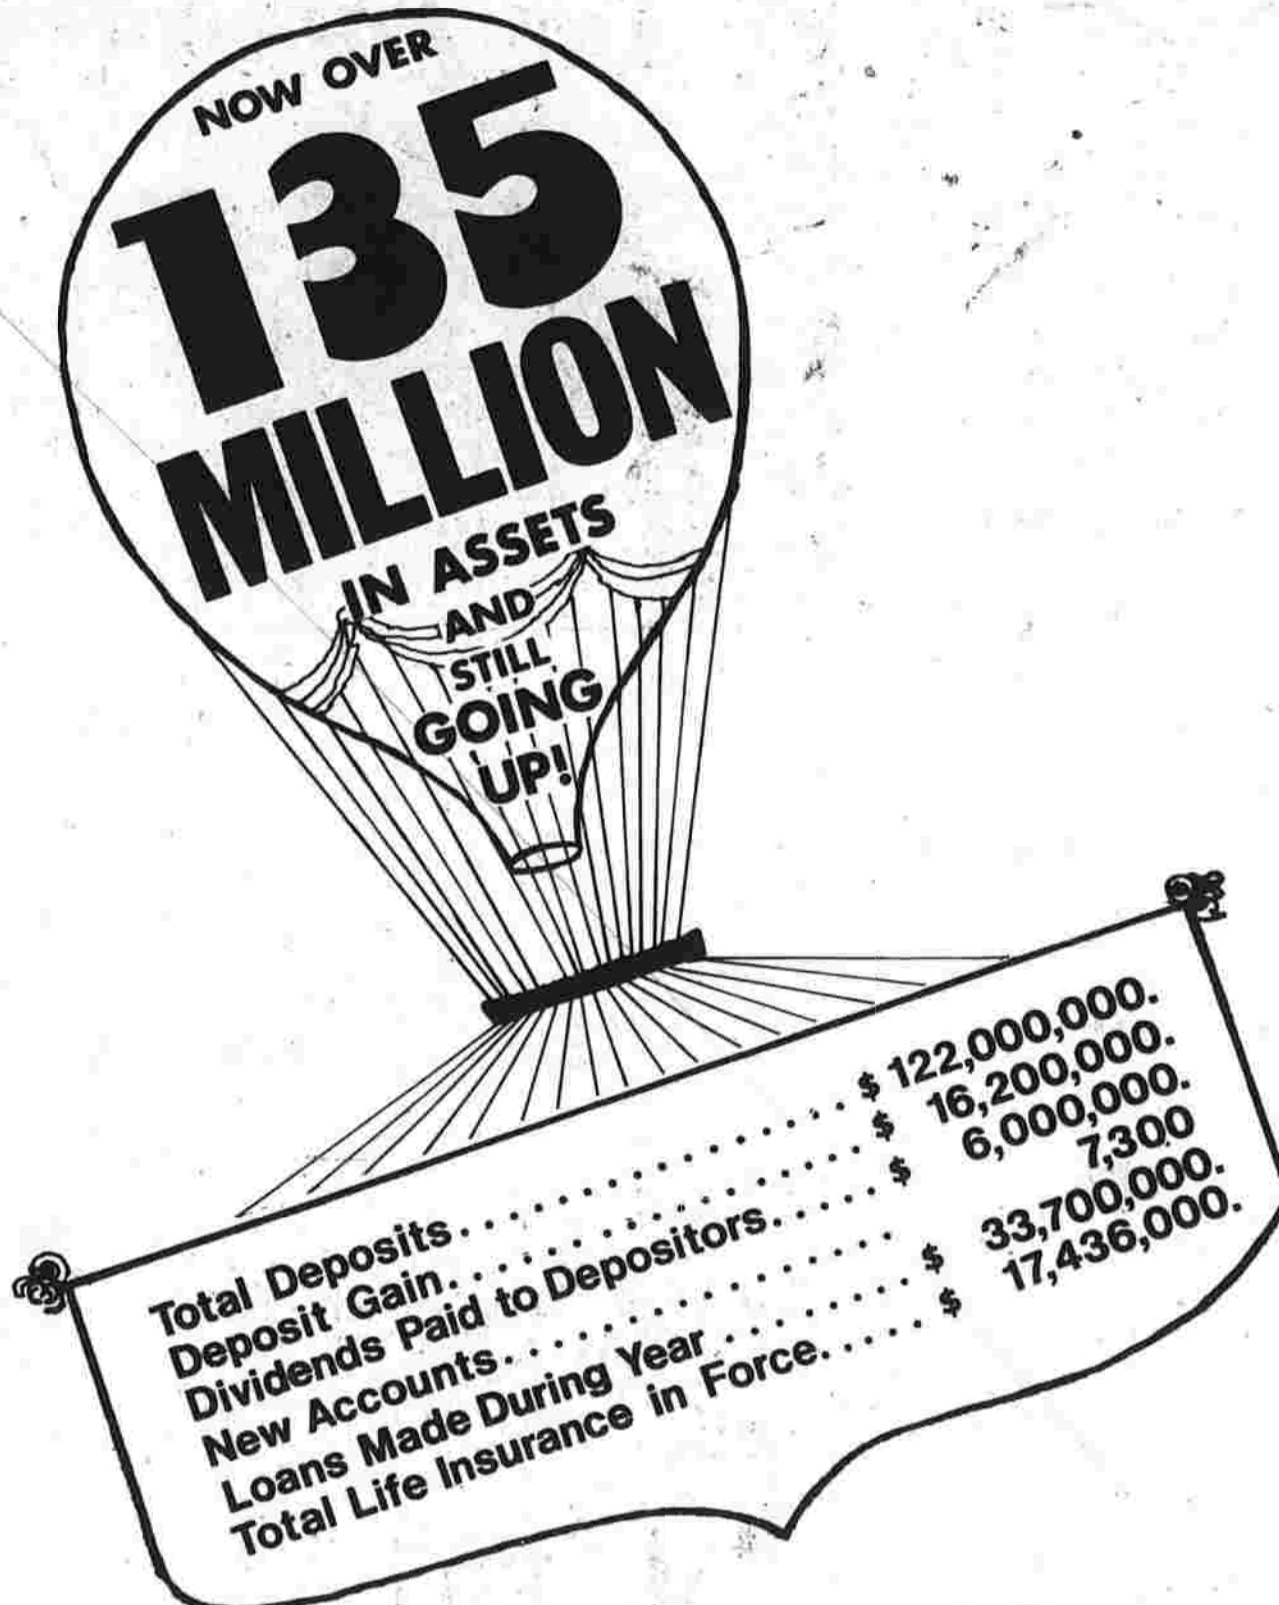

The request was made by consumer advocate Ralph Nader and an organization called the Union of Concerned Scientists, who also recommended power cutbacks of up to 50 per cent for all 29 nuclear power plants now in operation.

Seventy-six plants are currently on order and 55 others are in various stages of construction.

Nader and the scientists, at a news conference, jointly declared that "the location of catastrophic nuclear power plant accidents is a public safety problem of the utmost urgency in the country today."

And Dr. Henry W. Kendall of Massachusetts Institute of Technology, a spokesman for the scientists' group, said New York City, Toledo, Ohio, Chicago, Boston, Philadelphia and Washington, D.C. are especially vulnerable to catastrophic accidents because of their proximity to nuclear reactors.

Nader repeatedly charged the AEC with secrecy about safety issues; with failure to properly alert the public to what he said were possible hazards from reactors - and, indeed, with issuing reassuring statements, despite what he termed was the view of a majority of the AEC's own technical staff that potential hazards may exist.

The Dry Side of Sports

By Dean R. Yost

Modified Point Breakdown

Jerry Cook, who has won his second consecutive NASCAR modified driving title, finished the 1972 campaign with 4,004 points only 16 points ahead of three-time national champion Bugs Stevens.

Cook, from Rome, N.Y., started 58 NASCAR modified shows but didn't win once. Cook, known to be a stroker, sitting back in the back and never advancing, finished fourth 13 times. He was second on five occasions and sixth six times. He dropped out of eight features due to mechanical breakdowns.

Fred DeSarro, in the Len Boehler No. 3, was the winning driver with 11 victories in 40 outings. Bernie Miller dropped out of 25 shows despite driving down third spot in the final point standings.

In a breakdown of points, nine drivers placed in the top 30 out of the running, 10 drivers placing in the top 20 were Stafford Speedway regulars.

Winning Chevy Shakeup

Bobby Allison will retain the Coca-Cola No. 12 Chevy for the 1973 season but has let go of Junior Johnson, the famed Grand National driver who has turned to car building.

Allison will race for NASCAR under his own banner BAR, Inc. Bobby Allison Racing. Allison will be joined by Bill Moody who head the crew that includes, Bill Hohman, Chuck Looney, Eddie Allison, Jim Abney and Earl Snowden. Waddell Wilson who will build the powerplants, is so stranger to racing. He has built engines for the Woods Brothers and Fred Lorenzen.

High School Notes

Ray Sullivan, sophomore soccer goalie for the Tribe booters this past season and who turned in a dazzling performance all year, is also a basketball player and baseball standout. Sullivan got a taste of varsity action against Wetherfield Tuesday night and contributed three points. Jerry Katona was home during the holidays. He is the varsity trainer at Southern Connecticut State College. Brad Steurer, outstanding soccer goalie for Keene State joined Tom 'Chip' Conran, John Herdic and Jon Leber who are some of the MHS alumni home for the college break. Wetherfield's Eric McDonald has the longest hair in the CCIL. The reserve hooper wears his hair in a ponytail. McDonald is also an outstanding soccer player for the Eagles.

Indoor Track First

Dick Williams, varsity track coach at Manchester High, stated that on three successive Saturdays a track schedule has been made up for indoors. "We will host the first one Feb. 3 with Windham holding the Feb. 10th and Penney on Feb. 17th. We will hold the meets in the hallways with a little modification added to the running events," Williams added.

MHS Matmen Trim East Catholic

By Dean Yost

Grunts, groans and the flexing of muscles highlighted action yesterday afternoon at the Clarke Arena as Manchester High out wrestled crooked rival East Catholic, 35-24, before some 450 screaming spectators.

The hard-earned victory upped the Tribe's overall record to 3-2 white East presently sports a 1-2 mark. From the beginning of the match both scholastic powers were determined to battle down to the wire. In 12 classes, no one earned an easy win.

Ed MacHugh opened the action in the 100-pound division and proceeded to pin Mike Karlson in the second period at 3:34 of the match to give Manchester a quick advantage.

The Eagles' talented wrestler, Steve Turgeon manhandled the Indians' Neal Snuffer by pinning him at the 4:43 mark.

Little Mickey Miller (M) earned a close decision over Co-Captain Tom Gravelle and Buddy Durrand (M) also won by a decision over Terry Farrey.

Mike Voland (M) remanded undefeated in five matches registering a pin while Scott Wiggins (M) followed with a quick pin over Dave Whitehead. Rugged Scott Odell, another of Manchester's top grapplers, twisted and turned to remain unbeaten with a decision over Jim Hesketh.

New Look of Big Time Golf

Pros Launch Tour In Los Angeles

LOS ANGELES (AP) — The pro golf tour is off on another of its \$8 million binges, and that means Jack Nicklaus will be dropping 20-foot putts, his rival hawk-eyed cigar and Bob Hope one-liners at every green.

The \$135,000 Glen Campbell-Los Angeles Open starts today over the historic Riviera Club, once known as "Hogan's Alley." It used to be the plain LA Open. Now it has the long, hyphenated name which makes some people wonder whether it's a golf tournament or a pop concert.

It's the new look of big time golf — par-busters shooting for a million and show people searching for new exposure. Golf business has joined show business in a holy wedlock. It's more than a marriage of love. It's a case of necessity and cold economics.

Campbell doesn't underwrite the tournament, and so his financial involvement is comparatively trivial. The Los Angeles Junior Chamber of Commerce is the sponsor. Similarly, Hope, a popular singer, adds his prestige to this traditional tour opener.

TV personalities, business tycoons and sports heroes competed with 100 golf pros in the pro-am that kicked off the Glen Campbell-Los Angeles Open Wednesday. They had to pay \$300 each, and they have long waiting lists.

The Crosby and Hope affairs are much more exclusive. Each charge \$1,000 for a pro-am spot, and they have long waiting lists. To make one of these events is tougher than crashing the Social Register.

Hope played with his long-time partner, Arnold Palmer, and kept a steady line of chatter going for the full round, the actors are not quite as clever without their script writers.

Jim Garner, a strapping six-footer, is best of the show crowd. Once a scratch golfer, he plays to a four-handicap. He can also be funny.

A lady accepted him as he left the 18th green and so his financial involvement is comparatively trivial. The Los Angeles Junior Chamber of Commerce is the sponsor.

Similarly, Hope, a popular singer, adds his prestige to this traditional tour opener.

Palmer Annoyed At '72 Showing

LOS ANGELES (AP) — Arnold Palmer, probably the most popular professional ever to play the game of golf, is annoyed — but not overly concerned — with his failure to win a tournament last year.

"I don't like not winning a tournament," the 43-year-old Palmer said before his first round today in the \$135,000 Glen Campbell-Los Angeles Open Golf Tournament.

"But it had to happen some time. It happened to (Ben) Hogan and it happened to (Sam) Snead. And it's happened to me. I'm really not hitting the ball all that well, but that's not the problem. The problem is the short game. I've just got to start making some puts."

Palmer went through 1972 tournament golf as he starts his 18th season on the tour.

President Donates To Clemente Charity

PITTSBURGH (AP) — President Nixon has donated a personal check for \$1,000 to the charitable cause of baseball star Roberto Clemente, missing and presumed dead in a plane crash.

The money will go to relieve survivors of the Nicaragua earthquake and to fulfill Clemente's dream of a sports camp for boys in his native Puerto Rico.

Clemente was believed killed last Sunday while accompanying a plane load of supplies from Puerto Rico to Nicaragua.

Recognized as one of baseball's all-time greats, he is 18 seasons with the Pittsburgh Pirates. Clemente is survived by his wife, Vera, and three sons: Roberto Jr., 8; Luis, 7, and Enrique, 4.

A group of 70 fire office workers were off to fly today from Pittsburgh to Puerto Rico to console the family.

Five Face Charges Of Arson
BLOOMFIELD (AP) - Five men, three of them identified as firemen, have been arrested in connection with fires at three abandoned houses, police said Wednesday.

The arrests were made Tuesday after a two-month investigation into a series of 10 vacant house fires.

Three fires mentioned in the arrests were in houses in Fenwood Park in April, at 254 Tunxis Ave. in October and in Woodland Avenue in November.

The firemen arrested were George J. 29, and Robert Warren, 29, both of Bloomfield. They were members of the Bloomfield Central Fire Department. Since they were arrested, Joseph Wade, 21, and Reed Watson, 18. All five men are Bloomfield residents.

The elder Watson was arrested in connection with all three fires and charged with arson. The others were charged with one count each of third-degree arson.
