#### School Bus Safety Vital

We have been reading with interest stories concerning the need for improved and more frequent inspections of school buses in Connecticut; possible physical examinations, stiffer driving tests and other qualifications for drivers; and even the possible re-design of school buses since few if any are really engineered for today's high-speed traffic.

We have no quarrel with this serious and thoughtful look at ways and means to protect our school children to and from school on buses.

But we think there should be an understanding at the outset that it is going to cost the taxpayers more

More mechanical inspections, especially designed safety devices, and safer designed buses will cost more to buy, probably more to operate, and if the problem of some reported overcrowding of buses is true, more buses will have to be purchased.

Until such time as more off-street parking becomes a reality, and a decision is reached on I-84, it makes sense to return to angle parking.

We hope the Chamber's push merits full support by all concerned.

### DST All The Time?

When you retire Saturday night (or early Sunday morning) don't forget to move your clock one hour back as Daylight Saving Time ends officially at 2 a.m. Sunday.

Normally, after a few days of adjustment, we would forget the time change, rest easy, and go about our ways until next April when we will be asked to move the clock ahead one

However, April may be coming sooner this year. It has been suggested by some members of the Congress that perhaps Daylight Saving Time be re-instituted in the church on time.

winter months as a means of saving energy. It was done on a year-round basis during World War 2.

We have long ago come to believe that the United States could and should go on DST permanently instead of switching back and forth every six months. England has done so and so far as we know it has created no hardship there.

Maybe with the energy crisis as a point of argument, the members of Congress might consider the idea and then we can forget trying to remember that it's "spring forward and fall back" if you want to get to

From Loser to Winner

Football at Illing Junior High is enjoying its finest season this fall and the main reason is one man, Alex Ferguson. In his first year as head coach, the former player and coach with local teams has transformed Illing rom a loser into a big winner. Ferguson is the same fellow who guided the Giants to the Midget Football League title last night. The likable Ferguson has been involved with football for more than 30 years. He's a regular member of the custodial staff...Leo Diana, acting principal at Nathan Hale School, is a fine baseball umpire and soccer referee...Bob Price, running for a spot on the Manchester Board of Directors, is a former drag strip racer who chauffeured Moriarty Brothers'-sponsored Big Red in national competition...Serving as a volunteer assistant coach with Manchester High's football team for the eighth successive season is Tom Conran. The school still has one of the smallest varsity staffs in the state with but two faculty members, Larry Olsen and Steve Lindberg, plus Conran and Bob Charon, a student at Central Connecticut State College who is a student teacher... Steve Gates, former Manchester High cross country star, has played a big part in Eastern Connecticut State College's success this fall...It's "Sack Time" for teams running up against the Washington Redskins' defense this year in NFL play, Through the first six games, opposing quarterbacks have been sacked 31 times, (hit behind the line of scrimmage) or only four less than the club's 1972 total. The Skin defenders have also blocked two punts and three field goal attempts and has scored six touchdowns, two on interceptions...Passing out cigars is Dave White, hard-hitting outfielder with Groman's softball team, following the birth of

Best Per Carry Average

Apparently fully recovered from a hip injury, Jim Balesano of Manchester leads the Trinity College ball carriers with a 3.7 yards per carry average. The scoring leader is John Wholley, former East Catholic back, with five touchdowns to his credit in four games...Manchester High's fine band is directed by Andy Shreeves. The week's opening home football game at Memorial Field...Once again this fall the popular Coaches' Corner columns each week have been well received. They are made possible through the efforts of Larry Olsen at
Manchester High and John LaFontana at East Catholic,
National Basketball Associavarsity football mentors. Coaches see games from a tion. different standpoint than a writer and also after viewing game films credit for fine play is passed along for publication by Olsen and LaFontana...Did you know that the New a wild slugging match. York Yankees dropped 14 of 18 meetings against the Boston Red Sox last season? This was one of the widest season series margins ever between the two clubs...Two exhibition hockey games - free to the public - are scheduled tonight at the Bolton Ice Palace. New England Hockey League entries Willimantic and Vernon play at 7:30 with Manchester and Bristol in the nightcap. French-Canadian and former college hockey players make up the nucleus of all entries in the fast amateur league...Don Roser of Bolton High and Ron Gurnon from Tolland Manchester Community College, are members of the Southern Connecticut State College varsity soccer team this fall...Whitey Piurek of West Haven has been named the first soccer commissioner in Connecticut...George Blanda and Jim Otto, teammates with Oakland, are just one game away from tying Forrest Gregg's record of 188 consecutive games in the NFL. Gregg performed in the line with Green Bay...Have a nice weekend.

Eastman embraces 3500 acres of prime land in N.H. and is being developed by Controlled Environment Corp., created and owned by Dartmouth College. The Manchester Bank, The Society for the Protection of N.H. Forests, and The United Life and Accident Insurance Co. Sale of these properties by the planning-designmarketing team of Hanslin Associates is now underway and we are seeking individuals in the Manchester area who are capable of working with clients who have expressed a definite interest in our endeavors. It is essential that your work schedule encompass weekends in N.H. and week nights in your home area. Position demands initiative and drive — and consequently the compensation for the sale of land and houses is quite lucrative. If interested, please call or write: Mr. Ken Chute
