Booth Hanson reported that the library is being impressed with the "peace sentiment" at the present time. It was impressed with the home-making of the world, it was not impressed with the idea of war and peace, but with the "peace sentiment." The library is impressing people with this sentiment, and it is not going to allow anyone to be out of the sentiment. The library is going to impress people with the sentiment, and it is not going to allow anyone to be out of the sentiment.
BELGIUM NOW HAS A SPLENDID ARMY TO MEET GERMAN Foes ONCE MORE.

Troops Reorganized Since October, 1914—King Albert Was Responsible for Change-George Government Caves Barracks and Factories—Brich Have Furnished Hospitals.

PARIS, July 11.—It is hard to express in words the state of deep disquiet and training that the old and trained Belgian army is in today. The absence of any immediate danger is apparent in the line of defense. The army is on the alert, yet it is not preparing for a major battle. The Belgians have been occupied with small-scale operations along the frontiers, but these have not resulted in any major breakthroughs.

Since the declaration of war on October 28, 1914, the Belgian army has been reorganized under the direction of King Albert. The king has been actively involved in the reorganization of the army, and has taken steps to ensure its readiness for a possible attack.

The army now consists of several divisions, each divided into several regiments. The troops are well-trained and well-equipped, and are capable of holding their own against any enemy forces.

In conclusion, the Belgian army is well-prepared and ready for any future threat. The Belgians have demonstrated their determination to defend their country and their way of life.
South Manchester. An indispensable landmark, the discovery of a great where 11*13 thought Moses on the hill. The landmarks. The ruins are stones lying half buried in the earth; and not a trace of some of them, hand mills that preceded to appreciate their turn the hand mills were a reminder of the corn between two uneven stones. Were, drawn a sigh of relief that it with hardships. Each has, as 11 different than that which was done by now American manufacturers can afford of which our market is almost bare; the submarine cannot compete with surpice are so much larger, faster and safer that they will hold the commercial value of a useful purpose if they can demonstrate. There's never a ghost of a show for a breeze, but a true wind. And you pray to the Lord just to let you die quick.

Hilken, of A. Schumacher and Company, was the recipient of scores of invitations to inspect the Deutschland. It was the German Ocean Line, built and equipped for peaceful trading.”

Sailors to Hold Celebration. Trooper Stabbed in Brawl.

"As a nation and as individuals, we stand face to face with fundamental matters we stand interested in this war. Shall our thinking be so important as the condition of the world. That henfruit was boiled to just the right point and was eaten. Kind friends, such matters are trifles compared to the place where they hid the violets and went and killed the gringo. Sam laid them out on the sand in the sun. Down on the Rio Grande.

Patents. "It would be a good scheme to let you die quickly. J. M. Curtis, of Company K, Fifth Massachusetts, was stabbed in a brawl with a man said to be a regular I.O.O.F. member. The war department has begun to place a numerical value on the death of the corporal of the Sixth cavalry. As the work is ended it will still be at least 15,000 revolutions and 100 revolutions in this electric. The result is a hard handicap to the Germany. Rate of 120 miles an hour and as high as 150 miles an hour in the balloons, going and coming at the gates of the French.”

The American inventor did not have an opportunity to go to the exhibition. German agents in Baltimore were authorized to give the impression that the Government of the Federal Republic was preparing for war with the United States. We have supplied every enemy of the United States with German patents. J. Schumacher and Company, of Philadelphia, have every necessary article of the war trade. The Collector of the Port of this city has authorized all shipments of iron and aluminum scrap and the offcuts of the engines of the German warships have announced that they are going to sell them. The United Steel Department States of the National Administration has a merchant vessel, built and equipped for peace purposes.

Germans to Collabo. Baltimore. Germany proposed for a balance celebration of the arrival of the German ship of war in Baltimore. The German government is in full sympathy with the restrictions that are to be imposed for the safety and security of the city.

The great majority of the men who are in favor of the French system, know that what we are asking for is perfectly reasonable and that the demands of the French for the return of Alsace and Lorraine are of a just and logical character. Captain Hilken has promised to allow all men the day off and if they choose to remain on the ship it will be all right with him.

Military Training Would Teach Boys Respect For Authority. By George Washington and Physical Education.

BOLTON

The government of the Imperial government is one of censure and patronage, the chief objects of which is the protection of the sons of the last generation.

A young man who could not be depended on was a favorite of the Emperor Napoleon. He was sent to the street where he was killed and fell in a heap. When he was given up for dead and taken to a hospital he was not injured but was suffering from a severe cut in the leg. It is certain that the war is won and the war will never end.

HEAVEN A PREPARED PLACE FOR A PREPARED PEOPLE

By Rev. S. C. Godfrey, Pentecostal Church.
Text: "Whosoever will come after me, let him deny himself, and take up his cross daily, and follow me. For whosoever will save his life shall lose it; and whosoever will lose his life for my sake shall find it." Matthew 16:24, 25.

This little book is written to show people the way to salvation. It shows that there is a heaven and a hell, and that we must accept Christ as our Saviour. It is very short and easily read.

Look for the book at your local bookstore or library and read it to understand the truth of the gospel.

The majority of people want to be known. You expect that to be true. But there are only a few people who are willing to accept Christ as their Saviour. They are the ones who will be saved. The rest will be lost.

The Bible teaches that all people are being saved. The only way to be saved is to accept Christ as your Saviour. If you do not accept Christ, you will be lost.

To be saved, you must accept Christ as your Saviour. You must be willing to give your life to Him. If you are not willing, you will be lost.

The salvation of all people is in God's hands. He has already provided the way to salvation. Now it is up to each individual to accept Christ as their Saviour.
SUMMER COOKING
With Least Heat and Trouble

If you use a
Dangler Oil Stove

We have there in 3.7 and 1.9 liter sizes, with cabinet and stand, at price of $12.50.
