FIGURES TO FIGURE IN EVENING GOWNS

Will Fit Beauty to Reveal Curves This Winter; Laces and Velvets to be Used.

By Adelaide Kerr.

New York, Aug. 28.—(AP)—Evening gowns are going to display a lower décolletage than ever this winter, early fashion showings indicate.

The front neckline dips lower than last year, fashion leaders say, while the backs often swoop down to the waist, and the woman with angular shoulder blades will do well to cast a thoughtful eye about her before she chooses her evening array.

A figure has become a thing of importance again, for most of the evening gowns fit trimly about the waist and hips. They curve enough to reveal the figure, although the identification at the waist is not sharp. Their hemline generally miss the floor by two or three inches—enough to permit la femme to dance easily without tripping over her skirt as she did last winter.

Lace and Velvet. Lace in pink, baby blue and black, satin in ivory white or black, and Lyons velvet in deep rich hues promise to be the most popular fabrics, designers recently returned from Paris declare.

"Lace is going to be a prime favorite," says Herman Carnegie of Hattie Carnegie. "One of the best Parisian designers displayed a model combining pale blue, pink and black lace in the same gown. A soft lace is generally used in the body of the frock, while the same pattern, treated with a stiffening process is used for the flare that generally begins at the knees.

"Sequins are back again. The little glittering discs are sewed in patterns over lace and chiffon, and add much to the brilliance of a formal gown."

Lyons velvet in black, rich reds and greens will brighten the eyes of the woman who loves a stately effect. One model is designed with a B-back, set in a panel that extends the length of the gown with shirings caught in at the hips.

Empire Style. There will be ivory satin designed in empire style for the woman who wants to make a golden glow of her sun-tanned skin, and soft blue and sea green satin for the one who spent less time on the beaches this summer. She who wishes to slink may have black satin, molded to her figure.

With the donning of her evening coat, which is still a coat, milady will sound the final note of her evening elegance.

"Evening coats may be quite long this year," says Mr. Carnegie. "They reach the hem of the gown in the back and be as much as ten inches shorter in front. They will follow, of course, the fitted waist and flared skirt silhouette that marks the mode this winter, and they will be very richly furred. Even the hemlines are banded in fur, generally in natural black or silver fox. They will be of velvet or metal brocade, lined with satin or velvet."

Short evening wraps also seem likely to have a vogue. One designer shows a black velvet, fitted at the waist, flaring sharply and ending just below the hips. It is colored, cuffed and banded about its rippling tail in white fox.

Gloves will be long, reaching well above the elbow and will generally match the color of the gown, while slippers will be of dull satin or heavy ribbed silk in corresponding shades.

GREENWICH GIRL WEDS IN KINGHAM, ENGLAND

Kingham, Oxfordshire, England, Aug. 28.—(AP)—Miss Hope Gay Yandell, eldest daughter of Mrs. Lumsford Pitts Yandell, Greenwich, Conn., and William Arnold Hanger, son of the late Mr. and Mrs. Harry Taylor Hanger of Richmond, Ky., were married at Kingham church today.

The bride was attired in a simple white satin gown with long close-fitting sleeves and a peacock train ten feet long. Her white tulle veil was fastened with a wreath of orange blossom and she carried spray of white spider orchids. She was given away by her young brother, David Wendell Yandell.

Mrs. Richard Hoffman, who acted as matron of honor, wore a gown of yellow, georgette, and carried a bouquet of mauve, yellow, blue and pink flowers. The small page, Master Babbit Hoffman, wore a suit of yellow crepe de chine. Richard Hoffman acted as best man.

After the ceremony a reception was held at the Grange residence of the bride's cousin, Mrs. Richard Hoffman, after which the couple left for their honeymoon. The church was decorated in white hollocks, and gladioli. The service was conducted by the Rev. William Fisher.

ROLPH IS NOMINATED

San Francisco, Aug. 28.—(AP)—Mayor Rolph, Jr., of San Francisco, was apparently victorious in the race for the Republican nomination for governor, a victory that has led to the governorship of California for every nominee of that party in the last 36 years.

The latest unofficial tabulation of Tuesday's primary vote, with only 453 scattered precincts missing out of the state's 10,283, gave Rolph 364,695, Gov. C. C. Young 339,910, and B. Pitts, district attorney of Los Angeles, 283,850. Both Young and Pitts conceded victory to Rolph.

State Senator Frank Merrimam of Long Beach apparently won the Republican nomination for Lieutenant-governor nosing out H. L. Carman, incumbent, and State Senator Tallen Tubbs of San Francisco.

URGES ELECTION PROBE

Colorado Springs, Colo., Aug. 28.—(AP)—Expressing belief there is foundation for charges of efforts to purchase the Republican senatorial nomination in Colorado, C. C. Hamlin, Republican national committee man, has asked an immediate investigation of campaign expenditures in a message to Senator Gerald P. Nye.

Hamlin urged Senator Nye and the Senate campaign investigating committee to complete its work in Colorado and make the findings public before the primary election, September 9.

RUN OFF PRIMARY FOR BLEASE AGAIN

Did Not Get Big Enough Majority—Has Same Opponent As Six Years Ago.

Columbia, S. C., Aug. 28.—(AP)—Political history had repeated itself in South Carolina today with Senator Cole L. Blease and James F. Byrnes, former Congressman, thrown into a run-off primary for the Democratic nomination to the United States Senate.

Six years ago Blease and Byrnes went into a second primary and the nomination went to the state's junior Senator by slightly more than 2,000 votes. The Democratic nomination in this state is equivalent to election. The Republicans do not even offer candidates for state offices in the general election.

Blease, with 1,246 of the state's

1,528 precincts, held a commanding lead over Byrnes and Leon W. Harris, Anderson solicitor, the third candidate.

Byrnes had a total of 81,272 while the 34,311 votes that went to Harris are expected to decide the nomination in the second primary. Harris, a World War veteran, conducted a vigorous campaign against Blease's record. He assailed the Senator from the stump in each of the state's 46 counties.

Race for Governor. Olin D. Johnston, 35-year-old Spartanburg legislator, and opponent of the state's \$65,000,000 highway bond issue, piled up a total of 50,591 votes as returns from 1,302 precincts in the gubernatorial race were tabulated.

Ibra C. Blackwood, also of Spartanburg, trailed Johnston with 39,

580 votes. He held a margin of approximately 3,000 over A. Frank Lever, former Congressman, who had 36,438. With an estimated 9,900 votes yet to be counted, Lever's headquarters refused to concede the lead to Blackwood, although the Spartanburg man appeared certain of entering the second race with Johnston.

Other Contests. Ashton H. Williams, of Florence, who campaigned on a "wet" platform ran fourth with 31,133 votes.

W. H. Keith, Greenville legislator, polled 27,171 votes while R. E. Herbert, Columbia legislator, had 15,855. W. W. Smook, of Walterboro, who ran on a "bone dry" platform, received 9,143. John J. McMahan, Columbia, trailed the ticket with 1,024.

James O. Cheppard, of Edgemoor,

apparently had been nominated over J. E. Harley, of Arnwell, as lieutenant governor.

ARREST 18 CHINESE

Three loaded revolvers, several boxes of ammunition and a hatchet were found in the clubrooms.

HINT OF NEW RUM ROW OFF THE JERSEY COAST

Atlantic City, N. J., Aug. 28.—(AP)—Existence of a new rum row off the Jersey coast was seen by Coast Guardsmen today in the reported drifting at sea of the schooner Francis T.

Three members of the schooner's crew landed on the beach here yesterday and said they had left the ship in a leaking and sinking condition 16 miles at sea with four members of her crew aboard. They said they were ordered by their captain to obtain help and reached shore after rowing 16 hours in a dory and then swimming two and one-half hours after their boat capsized.

After an all-day search off the

coast, a Coast Guard lifeboat crew returned last night without finding any trace of the ship.

Lieutenant Duke of the Cape May Coast Guard station, was inclined to disbelieve the men's story. He said the Francis T. was known to Coast Guardsmen as a rum boat and is believed to supply this city with liquor. "We have been looking for the Francis T. for a long time," he said. He expressed belief that the three men had become lost from the ship and rowed ashore because it was easier than locating the ship.

The ship cleared Halifax, N. S., on July 21 for St. John's N. F. It had arrived from Lunenburg.

SENSE AND NONSENSE

THE ARROW OF TRUTH

Straight from the mighty bow this truth is driven— They fall, and they alone, who have not striven. Fly far, O shaft of light, all doubt redeeming; Rouse men from dull despair and idle dreaming. High heaven's evangel beam gospel God-given— They fall, and they alone, who have not striven.

Truth is stronger than fiction — to the average married woman.

Free love must be the kind you give and don't get any in return.

Before marriage, a man holds an umbrella over a woman's head to keep her from getting wet. After marriage, to keep her hat dry.

There's a fall in store for the man who is above his work.

It never takes much to please a man who is muchly pleased with himself.

No One Is Likely to Accuse You of Stinginess if You Keep All of Your Temper.

The home merchant not only saves you money but also the disappointment you're sure to get when buying from a fly-by-night agent.

Of course you've heard of the Scotchman who crowned his wife because she rinsed out his shaving brush.

Gitt—That horse knows as much as I do. Appy—Well, don't tell anybody. You may want to sell him some day.

One of the most difficult things a man has to contend with in this life is separating the little shirt tail which goes inside the abbreviated nether garments known as "shorts" from the tail of his dress shirt which goes outside of the shorts but inside of his pants. I ask you if it isn't so.

Son—Say, mom, was baby sent down from heaven?

Only two Senators complain that the Congressional Record misquotes them. Yeah, that's right. Elmore and Heffin.

RELICS PASSING

Columbus, S. C.—One of the oldest relics in the city is to be pulled down, and it will leave memories with many of the city's residents. It is the old single-story house on Assembly Street, one of the last places where cock-fights were held publicly in the country. The house was owned by "Doc" Kraft, a policeman, and when cock-fights were declared illegal, the contests were held in his basement.

ICE AGE RELICS

Bajato, Hungary. (A.P.)—Hungarian National Museum explorers have found near here several ancient cave dwellings containing partially burned bones of polar foxes, bears, reindeer and other animals of the ice age.

SWEDISH MIGRATION

Stockholm. (A.P.)—More than 1,500,000 Swedes have emigrated since 1850, say government figures. In 1929 the number was 11,019, of whom more than half, or 6,961, went to the United States and 1,882 to Canada.

ONCE UPON A TIME

Dr. Edward Goodrich Achenbach, of New York, noted electro-chemistry and inventor, was a time-keeper for a furnace works in Pittsburgh, when a youth, and later became a railroad ticket clerk.

THE TINYMITES

(READ THE STORY, THEN COLOR THE PICTURE)

The strangeness of the moving man was that he didn't have a van. Instead he used his shoulders. He carried things around. He'd pile the furniture up high until it seemed 'twould reach the sky. And then, while bent way over he would trudge across the ground. Soon Clowzy shouted, "Hey! Hello! Where do you think you're going to go with all those chairs upon your back? I'll bet they weigh a lot. How do you stand a load like that? Why, I should think that you'd fall flat. It isn't good to work so hard, especially when it's hot." This made the man laugh. "Well," said he, "this really doesn't bother me. Why, I've been doing this for years and I am used to it. You see, if you live right, not wrong, you'll grow up to be very strong. I've always watched my health. That's why I'm feeling good and fit." The Travel Man said, "That is good advice and all you Tinymites should do just as our new friend has said and keep yourself in trim. He's healthy, as you all can see, and so am I. Just look at me. But now we must be going, so all say goodbye to him." The Tinymites did and then began to pester Master Travel Man to take them to the country where they'd get some nice fresh air. "All right," said he, "That's where we'll go. And I am pretty sure I know an open air space you will love." Come on, we'll soon be there." They trudged along the highway far. The Travel Man said, "Here we are. To prove that this is country, see who's coming down the road. Such sights are common as a rule." It was an old man with a mule. He was a roving peasant. My, his mule had quite a load.

(The Tinymites visit a Greek coffee shop in the next story.)

REV. CORNELL PLANS TO HOLD PASTORATE

If Health Does Not Improve He Will Retire in the Spring.

Rumor to the effect that Rev. P. J. O. Cornell, pastor of the Swedish Lutheran church, has tendered his resignation of the pastorate he has held for the past 19 years, to the board of deacons, was spiked definitely yesterday by a member of the board. He said that Rev. Cornell had appeared at the last meeting of the deacons, held Monday evening, and announced his intention of retiring next year, his resignation dependent on the state of his health at that time.

For the past year Rev. Cornell has been in failing health. Since he suffered a severe shock in the pulpit Sunday, March 2, last, he has relinquished his duties in the pastorate, being assisted by Rev. S. G. Franzon and Edwin Olson, student of Upsala College, and visiting pastors. It is felt that Rev. Cornell desires to round out 20 years of service in the local church and also to be in charge of the fiftieth anniversary celebration of the congregation, which will be held in March, before his permanent retirement.

The Democratic caucus for the nomination of delegates to the state, senatorial, congressional and county conventions will be held in the fire headquarters of the Manchester fire department at Main and Hilliard streets tonight. There are no contests in sight for any particular delegation and the meeting is not expected to be of long duration.
