STRAWN GROWS; BRITISH
WAIT FRENCH ANSWER
London, Oct. 18.—(AP)—Tension
between the British and French
mounted today as the British gov-
ernment let it be known plainly
that recent events have shaken the
British public confidence in France's
loyalty to the League of Nations.
The restoration of this confidence,
authoritative sources said, hinges
on an unconditional affirmation
of French policy to the British gov-
ernment. The Italian move to
Great Britain if the British fleet
is to be used in the Mediterranean
is attacked by Italy.

War Briefs
Genoa, Italy, Oct. 18.—(AP)—
Outlines Marconi, reported to
have been turning radio into a
weapon of warfare, sought an inter-
view with Premier Mussolini today
to offer his services with troops in
East Africa.
The usefulness of new radio
waves, his latest invention, he
demonstrated to several motorists
today. He said that he had
discovered that the radio waves
reflected to any persons, and
then suddenly stopped again, re-
fused to yield to any persuasions,
and then suddenly started again,
permanently to determine whether
he could stop the motors at any
place in mid-air.

Mrs. Ella F. Burr of 302 West
Center street, vice president-at-
large of the W. C. T. U., was
elected state president of the
annual election of officers
held this morning in the Center
congregational church. Mrs. Burr,
wife of Dr. Burr, is the first woman
to hold the position since the
organization was organized in
1880.

Vienna, Oct. 18.—(AP)—Prince
Ernst von Starbemberg, close friend
of Premier Mussolini of Italy,
gained military ascendancy over his
political foes today through a Cab-
inet reorganization, and political ob-
servers said they expected to see
even closer cooperation in the
future between Austria and Italy.

Refusal of British authorities to admit Italian ships to the harbor at Lazzarato, in Malta, is indicative
of the critical state of affairs in the explosive Mediterranean sea as the League of Nations seeks to stop
unfriendly ships while the island prepares for any emergency.

**Committee of 15 Raised by
Town Meeting Starts To
night on Study of Budget**

The study of matters pertaining to Manchester's governmental setup and all operating costs over which the town or town officials have control, by the committee of 15 appointed by the selectmen at a meeting of the group in the Municipal building.

Recommendations of the committee will be made to the selectmen at a meeting to be held on Saturday night. It is expected that the committee in the meantime will continue its efforts to study of the budget which the selectmen have proposed for this fiscal year.

A further survey of governmental set-up will be made by the group later, if the town meeting desires. Several members of the committee do not believe that the five weeks period is long enough for more than the survey of the budget.

The town meeting last Saturday night was the first of the special committee suggested by Willard B. Rogers, chairman of the committee, to study of the budget.

The problem facing the committee is to study of the budget proposed by the selectmen.

PIGSKIN POINTERS!

EVERY youngster who
plays football or even high school and college players will get a kick out of "Pigskin Pointers" the special feature that will appear in the "Freelance and His Friends" comic strip at intervals during the football season.

This means a double
value in this comic... a thrilling football story, plus top notch tips on how to play the gridiron sport.

Coch Rose, who has
whipped several Bladyside High equine infirmity, has written the articles. Read them all and you'll know how to play every trick on the team.

The first of the "Pig-
skin Pointers" appears in the "Freelance and His Friends" comic today. A letter from Maury to his par-

yearly told how the sloop
"Climb" in which they are making their way westward on the reef where Maury and "Faggert" were shot, with the same gun.

At the hospital it was re-
ported that the patient was recovering and that the doctor was optimistic.

**TRADING QUIET
ON STOCK MARKET**

Optimism Continues Concern-
ing Domestic Business - Shares in Narrow Range.

New York, Oct. 18 (AP) -
A little more speculative froth was blown off the Stock Market today, but selective demand was effective in restraining most bearish sorties.

Trading was quiet during the
greater part of the session. Louder foreign war rumblings engendered caution but were not exceptionally disturbing. Domestic business optimism continued.

Commodities were a neutral in-
termediate to stocks. Cotton and grains were backward. Bonds exhibited no definite trend. Foreign exchange rates were flat.

The general run of shares held
to a narrow range while scattered specialties pushed ahead. Among the latter, up 1 to 2 points, were Swift & Co., American Power and Light Preferred, Liberty-bonds, New York Telephone, U. S. Industrial Alcohol, Deere and Case, Loew's of Fracture to a point or so included American Telephone, Western Union, Chrysler, Auburn, Pacific Great Northern. Slightly higher were Westinghouse, Wilson & Co., Armour, Anaconda, U. S. Steel, National Power & Light, Johns-Manville and Consolidated Gas.

While a neighbor was taking
the couple to the hospital here he called on the highway and down an embankment, turning over several times. The driver was not hurt and summoned an ambulance for Mr. and Mrs. Wilcox.

Plump Opera Stars Passe,

So Says Eleanor La Mance

Chicago, Oct. 18 (AP) -
Opera stars today greet each other not with the usual "hello" but with "how's the figure?"

Her own routine is based
in "Megalophones," which opens the Chicago Opera Company's season.

Her height is 5 feet 6 inches,
which is only an inch less than some sopranos are boasting. Her weight after a recent loss of 10 pounds is 135, and she said she intends to lose more before going to Hollywood for a screen test.

As singing in Grand Opera,
she is hard work, no singer can afford to let her energy run down, she said. Also since "temperament" among opera stars is passé, a singer can't let dieting ruin her disposition.

It's thumbs down on "Mimi"
with a certified figure in "La Traviata" as Miss La Mance interprets operatic perfection. Also she mentioned that opera houses and bartenders are measuring their patrons' figures.

But because the voice quickly re-
turns to normal, she said, she is not a singer, Miss La Mance said, she is too exceedingly careful in dieting.

WALLACE ATTACKS
BOOST BY BAKERS
Wants Explanation of Why Price of Bread Should Be Raised Now.

Washington, Oct. 18 (AP) -
While declaring there is no justification for an increase here, Secretary Wallace was on record today with an assertion that the increase is unjustified.

Reports to the secretary of agri-
culture and his aides indicate that bakers intend to boost their price for an increase in cost of wheat.

Asks Explanation
"While there is some justification for an increase," he said, "it seems to me the bakers owe some explanation to the public as to why the increase is as much as it is."

Agriculture Department figures,
the secretary said, estimated that on Sept. 24 the cost of ingredients in a loaf of bread was 0.52 of a cent greater than at the same time last year. The four increases were .01 cent, sugar, oil, malt, oil, shorten-

Wallace quoted from a bakers'
advertisement in which they were "furnishing arguments" for higher bread prices and that year ago on that date wheat was selling at a higher price.

The secretary made state-
ments in the advertisement as being inaccurate. One reason presented for higher prices, he said, was the statement that wheat was shortening had gone up more than 90 per cent. Wallace said that actually shortening was not up as high as a year ago.

A FIVE-YEAR HIKE

ACROSS THE ARCTIC
Max Miller Writes Thriller On Grand Reindeer Trek Across Alaska.

When press dispatches announ-
ced last spring that Agent of the Lenox Reindeer Corporation had herded some 2000 reindeer all across Alaska and delivered them to the mouth of the Mackenzie river, it was easy to guess that a whale of a story must be back of the achievement.

The guess was entirely correct.
Max Miller has told the story - and told it exceedingly well, too - in "The Great Trek," revealing it as one of the most amazing exploits in the history of the Arctic.

Ten Eskimo and Lapp herd-
ers under the leadership of a man named Andrew Ishar did the job. They expected it would take a year and a half. It took five years.

The men and their reindeer en-
dured temperatures of 40 below zero. They had all the troubles familiar to readers of Arctic tales, and many new ones peculiar to their own job.

Taking reindeer on a long hike
like this seems to be not unlike the task of a man who undertakes to roll a dozen peanuts in the top of a Fiat's peak with the aid of his nose. The timing instinct is strong in them, and now and then they pick up and decide to go back to the scenes of their childhood.

Mr. Miller has written this story
in his usual quiet, unemotional style. He has made a remarkably interesting tale of it.

THE NEW FORD V-8 FOR 1936

Why do we say The New Ford V-8 for 1936?

What is new about it?

Of course, the newest engine in
the low-price car field is still the V-8 engine. Since Ford made it available to all car users (keeping it as economical as cars with fewer cylinders) the Ford V-8 has been the newest engine on the market and remains the newest for 1936.

You may buy a car on minor "talk-
ing points" - some specially advertised feature "with the car thrown in" - but after all, it is the engine you buy when you buy a car. Hence we put the engine first.

Other new points about the car
make a long list.

Its lines are much more beautiful.
The hood is longer and sweeps forward over the distinctive new radiator grille, giving the car a length

and grace that are instantly impres-
sive. The fenders are larger, with a wide flare. Horns are concealed behind circular grilles beneath the headlamps. New steel wheels.

Ford upholstery - always of ster-
ling quality and excellent taste - is rich and enduring. The appointments of the car have a new touch of refinement. There is no question about the increased beauty of the Ford V-8 for 1936.

In more practical matters,
many improvements have been made - Steering is made easier by a new steering gear ratio. The cooling system circulates 5 1/2 gallons of water through a new, larger radiator. Natural thermo-syphon action is assisted by two centrifugal water pumps. New louvers permit a rapid air-flow around the engine.

An engine has much to do with
the roominess of a car. Very much

indeed. A long engine uses up car
space. The compact V-8 engine permits much of the ordinary engine space to be used by passengers.

It really is a great car in every way.
This 1936 Ford V-8 - the finest, safest, most dependable Ford ever built. On display tomorrow at showrooms of Ford dealers.

New York City, or where historical values of sentiment have been permitted to frequently stem the search of modernity. At the same time, however, the period when the Brooklyn bridge was built, have been permitted to survive in the downtown district though there are still whole areas of inconsequential brick and mortar hovels that were there when the Civil War was fought. Evidently the New York wrecker, like Death, loves a shining mark—and few of those indeed are now remaining.

Now it is the famous old Brevoort House on lower Fifth Avenue that is to come down. Millions of people, including very many who lay claim to no intimate acquaintance with the metropolis, know the Brevoort and have known it all their lives—a distinguished souvenir of a long gone day when there was dignity and charm as well as wealth and ostentation in New York's show windows.

Now that historic history is to be torn down to be replaced by a tall apartment house with shops on the ground floor. Doubtless because the earning capacity of an old time structure like the Brevoort is too small to pay adequate return on the investment as it is presently stands by the ground on which it stands. A sound business reason, no doubt.

So far years the institution has been retaining a large part of its income. And yet so far the "good business" habit of thought being that the directors of the Sunnyside Harbor had been fighting for years, no doubt, under the same consciousness that they were not getting as much income out of the Brevoort property as it could be made to produce by destroying the old building and putting a better paying one in its place.

They might have let it alone! In saving about more or less blindly, as all of us must do, for solid grounds upon which to estimate the probabilities of the outcome of the Italo-Ethiopian war, it may be well to consider the case of Colonel Swinank.

Swinank is a Dutchman who fought in the Boer war. He has a huge estate in Italian Somaliland. He is immensely rich. He has lost the state. Now, as the Italian Colonel Assistant-General points out, is there mentioned the word "pauper" or "the poor," and it is apparent that the statutes which apply to the care of paupers.

The immediate reference to the opinion is to a situation arising in Greenwich as to who was the proper executive authority empowered to set up old age assistance. The ruling holds that the first selection, rather than the commission of charities, is the proper authority.

It is to be anticipated in the light of this opinion, that the old age assistance law, under the administration of Commissioner Walcott, will receive a more liberal and humane interpretation than there was any reason to anticipate when it was passed or has been indicated by the attitude toward it of town and state officials since then.

The seven dollar a week benefits, if fairly and decently administered, will receive a more liberal and humane interpretation than there was any reason to anticipate when it was passed or has been indicated by the attitude toward it of town and state officials since then.

Mercuries mingle with the idealists in this outdoor bedlam and talk. "I could," says a kindly old man, "discussing from the loss of perch on a milk can on 'How to Improve Your Position in Life.'" "Now this little pamphlet is 20 cents." His auditors retire gratefully, having been treated to a "fresh hot" for a three-year period.

Partisan—But Honest While this dispatch is chiefly a recital of opinion, the opinion is honest and many Republicans agree with the details of the picture.

The chief point of disagreement between the groups is as to the political importance of widespread dissatisfaction with the New Deal and the extent to which that dissatisfaction will lead to a change in the present administration.

Any impartial observer must assert that although at present Roosevelt's path toward the future may seem relatively clear, there are men whose minds are busy with the possibility of a change in the present administration.

THIRD FEELING "What is wrong with me?" writes a young woman of twenty, "I am tired most of the time. As soon as I get home from work, I want to go to bed and rest. I am too tired to go out in the evening. Although I feel better if I do. A physical examination does not show anything wrong. It seems to me that I must have had been tired."

BEHIND THE SCENES IN WASHINGTON BY RODNEY DUTCHER Herald Washington Correspondent

Washington, Oct. 15.—Scads of New Dealers have been out around the country lately and many of their jobs have been reported. A synopsis of off-the-record reports from these fellows shows that they are distinctly more optimistic about the 1936 election than they were a month or two months ago.

They agree Roosevelt will have a fair winning. Nearly every piece has an Anniversary Sale tag.

Least Loss Spending The strongest belief here in the inevitability of Roosevelt's reelection has been partly due to the good popular reception F. D. Roosevelt has received since he took office. It is much more due to the fact that the traveling observers find, as they found a year ago, that neither Republican candidate nor Democrat has any chance of winning. What perhaps is no less true is that the Republican candidates are stirring up popular enthusiasm.

General resentment about the ineffectiveness of relief expenditures, made to persist by destroying the responsibility for this rests with local administration, but many are giving attention. Craft, inefficiency and corruption are all charged up to Roosevelt.

And in vast numbers, administration men admit, "where the money is coming from."

It is in no other way, another Democratic politician has revealed to us, that the Republican nomination is going to be won. It is going to be won by the Republican party, and it is going to be won by the Republican party.

And the listeners are by no means a docile crowd. Let the man who sits at the feet of the speaker, rather than the speaker himself, be the one to look for excitement. He is gambling with an immense stake.

WEIR TO OPPOSE INCREASED WAGES

Steel Head Declares It Will Not Help Business—Gives His Reasons.

Pittsburgh, Oct. 15.—(AP)—Movements for increased wages, overshadowing other recent developments in the steel industry, brought out comment today from Ernest W. Weir that pay boosts just now "couldn't help business."

Weir, chairman of the National Steel Corporation, was the only executive who would comment publicly on the question, which was brought into the open by requests for higher pay from employes' representation groups of Jones and Laughlin and American Sheet and Tin Plate Company, a U. S. steel subsidiary.

"The industry as a whole certainly is in no position at this time to absorb an increase in wages," Weir said. "A raise would have to be passed on in higher prices and such a step certainly couldn't help business. In fact it would be more likely to hurt the other way."

It was Weir who brought about a general 15 per cent wage increase for steel workers in 1929 by convincing other members of the iron and steel institute of his intention to boost his employed pay.

QUESTIONS AND ANSWERS

Question: Mrs. Thomas T. writes, "Do you consider the modern ice-box an efficient means of refrigeration?"

Answer: You will find that the ice-box now manufactured preserves food efficiently. Use enough ice to keep the temperature below 50 degrees and your food will remain in perfect condition.

First, cut down on the heavy foods used and eat more vegetables. It is very important to watch the amount required, which only places an unnatural burden upon the organs of digestion and elimination.

Second, make sure that two or three normal intestinal eliminations are brought about daily. Do not permit sluggish elimination.

Third, secure all the sleep that you need and arise promptly as soon as you awaken. In some cases, a short resting period right after lunch will work magic, if it is possible to take it.

FOUR OF THE HOTTEST CAMPAIGNERS IN GOLF MEET IN P. G. A. PLAY

Hagen, With Medal Score of 139, Faces Revolta, Horton Smith Opposes Picard As Match Play Opens; Darkness Halts Tournament.

Oakland City, Oct. 15.—(AP)—Four of the hottest campaigners in golf—all of them members of America's triumphant Ryder Cup team—were pitted against each other by a hot day today at the outset of match play in the P. G. A. section.

It is not often a golf tournament to be called on account of darkness and there was mid-afternoon last night when gathering night clouds would have broken the twilight links. But confusion gave way to last expectation when darkness came out of the blue in the following order:

Hagen Faces Revolta. Hagen, swinging all the way, was the favorite to win today's match against Revolta, who was the only one to have a hole-in-one yesterday in one under par, 67-72-139. Few among the spectators were given even an outside chance of doing better on the windup today.

Tournament decided a coup to beat the daylight, being 101 as the probable qualifying limit and drawing 22 holes which will be filled as remaining entrants finish their 20-hole preliminary play today. There were fully 1,000 spectators ready to go.

Plenty of Thunder. There was plenty of thunder beside that of the Ryder company. George Sarazen, a favorite who saved himself a deal of embarrassment by a superb round after starting roughly, faced George Christ of Rochester, N. Y., whose name was only one behind Sarazen's score.

Park's antagonist was "Light-horse Harry" Cooper, a young man who turned in a brilliant 144 while the Pittsburgh contest lasted. He was Turner, Clement, N. J., whose 33 in the first sub-par score on nine holes yesterday, meets Eddie Locke, a member of the winning team in the Pittsburgh contest.

Two brothers in the run for the money are A. and Thomas Hamerman, Portland, Ore., who were only 150 and 150, respectively. Emery faces Harold Sampson, Burlington, Calif., and brother Al takes on one of the anonymous Mr. Bryers at the Fortia Club, Chicago, who is with his part of another brother act, but partner Oldie turn up for the tournament due to business. Two other golfers who are settling in double length tests thereafter.

CLIMATE PROBLEM IN FOOTBALL BUT TALENT'S SIMILAR

Dixie Teams Attain Peak Quicker Than Northern Squads But Physical Make-up is Same All Over

By BERNIE BIERMAN Head Coach, University of Minnesota

Minneapolis, Oct. 15.—Climate conditions make a lot of difference in football, but the talent is similar in the north and south. The Dixie teams attain their peak quicker than the northern squads, but the physical make-up is the same all over.

STRIKE IN WALES SPREADING TODAY

1,500 Miners Decide to Join Idle Ranks; Extra Police Called Out.

Cardiff, Wales, Oct. 15.—(AP)—The whole Tredgar valley of South Wales was tense with excitement today in the wake of a decision of 1,500 miners to throw their lot with strikers at the Nine Mile Point coal pits.

Seventy-nine miners have been at the bottom of the coal workings for six days, refusing to come to the surface until they have written assurances from the owners not to employ imported labor.

Extra Police Called. The "stay-down" strike continued today as a recommendation of the National Union of Miners was accepted by the Government.

EXHIBIT SHOWED USE OF GAS HEAT Employed in Making Scores of Products On Display at Tercentenary Show.

That Connecticut need have no other state or section in the industrial world was plainly demonstrated at Connecticut's great Tercentenary Industrial Exposition at Hartford last week, and it has been pointed out by gas company executives that gas was used in the production of scores and scores of the Connecticut industrial products which were on exhibition there.

MENUS For Week's Supply Recommended By Dr. Frank McCoy

Dr. McCoy's menus for the week beginning Sunday, October 20, 1935.

Lunch—Cooked macaroni or spaghetti; spinach; head lettuce.
Dinner—Jellied tomato consommé (served in cubes); roast chicken; canned string beans; avocado salad.

QUESTIONS AND ANSWERS

Question: Miss Bertha G. writes: "I am worried because my young-ster want to go to school without eating any breakfast. Don't you think they need it?"

Answer: Children should be given a breakfast before they leave for school. Try getting the children up early enough so that there is plenty of time for them to eat with-out hurrying.

MINNESOTA-TULANE IN FEATURE CLASH

Gophers Will Try to Finish Groundwork for National Gridiron Honors.

Chicago, Oct. 15.—(AP)—Before making a pass at the Big Ten schedule Minnesota will try to finish the groundwork for national gridiron honors tomorrow at the campus of Tulane's Green Wave at Minneapolis.

A similar arrangement last year worked out perfectly. In their first two major battles in 1934 the Gophers polished off Nebraska and Pittsburgh. Then they went on to win the Big Ten title with five victories. The combination of conference and inter-conference triumphs made the Gophers a national championship.

The Nebraska part of this year's inter-conference assignment makes the Gophers' schedule against Northwestern next week, fortified with the Big Ten title with five victories.

The game will be the first between Minnesota Saturday and the Big Ten, with gas, electricity and bath. But at least a few members of the Gopher team are expected to return to the school as a result of the game.

Although the victory of Lawrence Hanover in last week's Kentucky Futurity here in fast-track horse racing was a surprise, it was not unexpected. The horse was trained by the late Harry Smith, who was a member of the Gopher team in 1934.

Lafayette, Ind.—Provided the weather is good, fans shouldn't get excited if the sides of the Notre Dame stadium seem to judge a bit of rain. The game is scheduled for Saturday, Oct. 19, at 2 o'clock.

It is a pity that the game is being held on a Saturday, as it is a day when many fans are away from school. The game is being held at the stadium, which is a fine one.

New York, Oct. 15.—(AP)—It is true that "ship" Madison is coaching his last year at St. Mary's and that fathers have been set out to "steer" Jim Crowley of Fordham? ... Oakland reports say Madison is leaving financial and other differences with the school authorities.

So many wolves have been after Doc Spears of Wisconsin he had to go on the air the other night to answer them all. Lou Winters, who almost bought the Cardinals last fall, may get a piece of the action. ... Al Henberg, who is red hot for Yale right now, just couldn't get started at Albany Academy when he prepared.

It costs golf pros \$100 per week to make the swing around the winter circuit. That includes traveling expenses and rats. ... When picking your All-American team don't overlook Dick Crayne of Iowa ... This punting was the deciding factor in the Colgate game.

Rosalind Crack Juvenile Of Past Trotting Season

Lexington, Ky., Oct. 15.—(Special)—With the 1935 Grand Circuit related to history, the past season's record for two and three-year-old trotting colts proved that Rosalind was the stand-out performer among juveniles and that Lawrence Hanover gave Greyhound his toughest competition for honors in the three-year-old class.

Rosalind, being crowned the crack two-year-old trotter this season, already holds up as the winter crack favorite for the 1935 Hambletonian Stake. Stepping the fastest mile and quarter mile clocked up a 1:34.4 licking from Tennessee. A similar arrangement last year worked out perfectly. In their first two major battles in 1934 the Gophers polished off Nebraska and Pittsburgh.

This year filly's footwork in her first heat of the final engagement of the season was so good, she negotiated her last half mile in 59 1/2 seconds and the last quarter in 28 1/2, proving to be Grand that she should sweep most opposition before her in 1935 when the enter her three-year-old class. In winter books on the Hambletonian an already made-up bet by Scotland is easily first choice for the trotting title with Lucile and Ruth M. Mack rated next. Winning six times and losing only two, Rosalind's record compares favorably with that of Greyhound's when he was a younger trotter. He was accounted for seven victories and two defeats.
