HIGHLAND TONICA WATER.

Is From the Now Famous Springs of
HIGHLAND PARK, CONN.

No other Spring in the world can show such marvelous results during the first two years of its introduction in the treatment of Dyspepsia, Indigestion, Diabetes, Brights Disease, Malaria, Rheumatism, Female Weakness and all Blood Disorders.

The reason why invalids have not hitherto received the promised aid from the use of other Mineral Waters is that the Analysis of nearly all Mineral Waters show an excess of one or two properties, and a lack of others of equal value. In order to take a sufficient quantity of one, an excessive quantity of the other must also be taken, producing counteracting effect and thus destroying the beneficial results which are expected.

In Highland Tonica Water it is not so. Nature's complex is perfect; there is enough of each and nothing to spare. Thus Highland Tonica Water supplies every want of the human system without any counteracting effect.

LETTERS FROM THE PEOPLE.

To the Case Brothers, Highland Park, Conn.

Gentlemen—I have carefully observed the effect produced by your excellent Tonic Water in the cases of five patients, and have also occasion to notice the results of its use in several other instances. Of the five patients, two were affected with malarial fever of a severe character, and were almost hopeless. One was a case of diabetes melitina, and one suffered from anaemia and chronic nervous prostration.

I think the water truly named Tonica, for it exerted a decided tonic effect upon the system. I cannot say that it will cure such cases of malarial fever, though, it truly, in the cases mentioned. But it certainly did put the patients into a better position to resist the attacks of the disease; and it is certainly a sovereign remedy for anaemia, and is more efficacious in diabetes than any other remedy I have tried. I regard it as outstanding Victoria for all kidney diseases. Its chemical constituents would indicate this result. A longer experience, I trust, will develop other virtues in this really valuable mineral water.

Case Brothers.

Gentlemen—Send me one bottle Tonic Water to 41 West Thirty-third street. The sample proved most satisfactory, and I cordially recommend it to all who have the symptoms of Heberden's disease, and who are looking for a remedy which will put them in a better position to resist the attacks of the disease.

Case Brothers.

Gentlemen—In answer to your of the 9th inst., I am happy to inform you that the Highland Tonica Water has entirely cured me of one of the worst forms of dyspepsia, from which I have been suffering for more than two years. I have not had the symptoms of the disease since I commenced using the water, and I now feel as well as I have ever felt in my life.

Gentlemen—I know how to adequately express my gratitude for the benefits received from the use of Highland Tonic Water. In June, 1886, I was confined to my bed with a tumor in the region of the kidneys, which, after being treated with the ordinary methods of treatment, I was unable to return to the hospital. Now, after the lapse of more than a year's time, I can express the satisfaction I have in returning to my healthy state, as it is due to the use of the water. I have been using it ever since I commenced using it, and I now feel as well as I have ever felt in my life. I am, therefore, happy to say that I am able to resume my former occupation of teaching.

Gentlemen—I have had a great deal of trouble with my kidneys of late having almost constant pain across my back. Mr. Stevens asked me to go to the Tonica Water and I have been using it ever since I commenced using it, and I now feel as well as I have ever felt in my life. I am, therefore, happy to say that I am able to resume my former occupation of teaching.
