Here's the "Chifforobe"

The very newest invention in the furniture world and the slickest thing you ever saw for "filing" men's clothing.

You see how it is made. Inside the top doors are deep, sliding shelves, in which any number of fresh laundered shirts can be placed without folding and without crowding.

The upper drawers are for ties and collars and the lower for underwear, etc.

We have them in most any style and finish. Ask to see one some time when you are down.
