COME TO MANCHESTER, CONNECTICUT

"A City of Village Charm"

THE LATCHSTRING IS OUT—you are invited to come to Manchester to live!

Towns are very much like people—some are friendly and make you feel, at home right away; some are conservative to such a degree as would make you feel always a stranger. But Manchester is one of the friendly towns; our people are cordial and will bid you welcome.

The sense of "home" is deeply rooted in everyone and its broader meaning applies to the community itself as well as to the individual citizens within the community.

Manchester is the kind of town you'll be proud to call "home". It has all the simple charm and natural beauty characteristic of New England towns, enriched by its heritage from the past, for Manchester dates back to the early Colonial days. At the same time it has all the comforts of the modern city of today.

Manchester has much to offer you and in justice to your family and yourself, and in consideration of your future comfort and happiness, you should visit Manchester and learn the facts of this beautiful "home" town.

Manchester, Connecticut is situated in the lovely fertile valley of the Connecticut River, nine miles east of the capital city, Hartford. It is on the famous Roosevelt Highway which is U. S. 6. Manchester is almost exactly midway between Boston and New York. U. S. 44 highway runs thru the center of the city.

The total population of Manchester is over 34,000 having tripled the census figures of 1910.

Manchester is served by the main line of the Hartford Division of the New York, New Haven and Hartford Railroad.

The school system of Manchester has a very high rating and is said to be among the finest of the country. The staff of teachers are of the very highest type and the buildings and equipment are much superior to that found in the average community of similar size. There are fourteen modern elementary schools, a high school, a parochial school and a state trade school. Manchester also has two new libraries.

All the school buildings are situated in spacious grounds, all having ample playgrounds and fine athletic fields away from the busy thoroughfares. There are three recreational centers with full-time staffs of instructors, offering splendid opportunity for swimming, indoor games and all kinds of gymnastic work.

Manchester has a keen interest in music and there are many recitais and concerts during the course of a year by the local musical organizations. There are several fine aggregations, some of which are the women's and the two men's choral societies, two brass bands, a flute and drum corps, one Scotch bagpipe band, as well as the splendid appearing and efficient American Legion Bugle, Fife and Drum Corps, and the V. F. W. Fife and Drum Corps.

The religious, fraternal and social life of Manchester is highly developed and intensely active. Fifteen churches contribute to the spiritual welfare of the people.

Manchester has a beautiful Country Club with an eighteen hole golf course; two theatres with a seating capacity of 2,400; a modern hospital with 110 beds, 20 bassinets also 45 beds in Annex and a class A rating; two libraries; two banks and one Building and Loan Association, and a large new Y. M. C. A.

Manchester is a community of resident owned and operated industries. The internationally known Cheney silks, Bon Ami products and a wide variety of paper products, fine metal products, fine worsted and woolen goods, leather novelties, extracts, toilet articles and many other lines of commodities are produced in Manchester's thirty-six manufacturing plants.

HISTORY

MANCHESTER leads seven Connecticut cities in population and wealth, is the third largest community of the name in the world, and the first in per capita wealth, but it has functioned under a system of town government since it was set off from the parent town of East Hartford in 1823. Its present area of 27 square miles, formerly known as the Five-Mile Tract, was purchased from Chief Joshua of the Mohegan Indian tribe in 1672. It later became known as Orford Parish through the establishment by the General Assembly in 1772 of the Orford Ecclesiastical Society.

The Hockanum River eventually relieved the early settlers from sole dependence on agriculture. A sawmill was built at Hilliardville in 1672 and a paper mill was operating in Union Village before the American Revolution. The news of the Battle of Lexington was printed on paper made in this mill.

Shortly after the close of the Revolution, other paper mills were built, the famous Pitkin Glass Works were established at Manchester Green, the first successful cotton mill in Connecticut was running at Hilliardville, cast iron plows and pleasure carriages were being made, copper was being mined at Highland Park, almost every home was turning out wool and linen cloth, and Timothy Cheney was making his "grandfather's clocks" in Center Springs Park, where one of his apprentices was John Fitch, later the steamboat inventor.

Many of these enterprises collapsed later and industry and social life was saved from stagnation only by the industrial revolution and the introduction of the railroad after the creation of the Town of Manchester in 1823. From that time it slowly but steadily grew in population and industry, especially the manufacture of paper, cottons, woolens and silks.

After a disastrous experience with the growing of mulberry trees for silk making, the grandsons of Timothy Cheney, of clock fame, began the manufacture of sewing silk in South Manchester in 1838. The advance of Cheney Brothers to a premier position in the industrial world has been a rough measure of the progress of Manchester.
The population is now 2,000 times greater than in 1823 and its Grand List 2,700 times greater. The cheapening of transportation and the town's proximity to such a great distributing center as Hartford, only nine miles away, have been two of the principal factors in the growth of Manchester.

Manchester, Conn. is the Home of the World Wide famous Cheney Silks and Velvets. Also home of Bon Ami and 35 other lesser, but prosperous industries which have grown up with the town. Its splendid highways and beautiful residences, detached from its factories, vie with any in the state. Always an important junction point between New York, Hartford, Springfield, Providence and Boston, the coming of the automobile and other modern conveniences has increased its opportunities and magnified its importance. Its schools, churches and public buildings, its telephone, telegraph and postal facilities would be distinctly creditable to a far larger community. Its people, an amalgam of many races and some still apart racially, are imbued with a real civic spirit and devotion to the town.

Manchester has three community clubs, a country club with 18 hole golf course, two large recreation centers, two theatres and a park system which is one of its main attractions. Its fraternal organizations are unusually numerous, active and progressive, giving their aid freely to all worthy movements. Its hospital, a war memorial opened in 1920, is as modern and well-equipped as any of its size anywhere and has class A rating.

As a marketing center the town draws customers from a large surrounding district through the excellence and high standards of its stores.

**Form of Government**

Manchester was founded in 1672, and incorporated in 1823. Manchester operates under a special charter granted by the Legislature which gives all the advantages of city government while retaining the simplicity and economy of the old New England town form. The present town tax rate is 22 mills. The Fire taxes additional. The total Grand List is $48,142,488.

**“What You Should Know About Your City”**

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops, first, an intelligent interest; then, a sympathy; then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful; and finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

START EVERY DAY RIGHT

THE Hartford Courant looks back on 182 years of continuous publication for over 100 years of which it has been a daily newspaper.

TODAY its circulation is greater than at any period in its history—and constantly growing. It is the largest morning and largest Sunday newspaper in Connecticut.

It is the largest weekday morning newspaper in New England outside of Boston.

ADVERTISERS PROFIT from an all-time high in reader interest in the Manchester Evening Herald. People, Manchester people, want to keep up with the news. They want to know the latest information on what they can buy, where and how much they must pay. Manchester's only daily newspaper is planned to meet the needs of an alert, progressive, news-conscious people.

ADVERTISERS REACH the people of Manchester only through the columns of The Herald. Never before have so many people read The Herald each day. Never before has the daily newspaper been read so thoroughly and so eagerly.

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation *r* between the street number and the name signifies "rear."
The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

∆ Indicates telephone at this number.

"(Right odd)" after street description indicates odd numbers on right side of street.
The symbol @ following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.
