THE FOLDS GROUP OF PAPER MILLS

Modern Plants With Good Paying Facilities—Japan Thirty-five

The group of paper mills shown here is located in the city of Melbourne, Australia. It consists of two main mills operated by the Leiloff and Folds Company, in partnership with the Leiloff and Folds Company, and the Colunda Bovt. Co., and is well equipped with new and efficient machinery for the manufacture of paper and board. The mills are entirely modern in design and construction, and are operated by experienced and competent personnel.

The Leiloff and Folds Company, which was founded by Mr. J. W. Hale in 1865, is one of the oldest and most established firms in the paper industry. The company has been in continuous operation since its inception, and has grown steadily over the years to become one of the leading producers of paper and board in the world.

The company's philosophy is to produce the highest quality products using the latest technology and sustainable practices. They are committed to providing exceptional customer service and continuously improving their processes to meet the needs of their customers.

The Leiloff and Folds Company is not just a mill; it is a community of people who are passionate about their work and dedicated to excellence in every aspect of their business. They believe in giving back to the community and making a positive impact on the world.

This initiative demonstrates their commitment to innovation, sustainability, and community involvement. The company is always looking for new ways to improve their processes and reduce their environmental footprint, while also supporting local businesses and organizations.

The Leiloff and Folds Company is proud to be a leader in the paper industry and to be part of a community that values sustainability, innovation, and hard work. They look forward to continuing their legacy of excellence and contributing to the growth and prosperity of the industry and the community.
