One Mile Run—P. Cheney, 6 minutes 10 seconds.

Running High Jump—T. Cheney, 4 feet 9 inches.

One Mile Bicycle Race—House, 2 minutes 59 seconds.

The Cheney Brothers have been successful in giving employment to their large company of people during the year. They are now compelled to reduce the time to five days a week in most of the departments of the mill. The velvet department is still very busy and will probably continue so during the summer.

The Ninth District School will close for the summer vacation to-day. There will be an extensive exhibit of the work of the pupils in cooking, Sloyd and sewing. A special exhibition in gymnas-tics and music will be given. In all other departments the usual recitations will be heard.

Professor B. A. Verplank and Miss McConkey will visit Europe during the vacation. Miss McConkey will sail for France on Thursday for a tour through France, Switzerland and England. Professor Verplank goes June 29 from Boston, accompanied by the Rev. C. A. Blumore, former Congregational pastor of the church in Willimantic. They take their bicycles with them for use in England. Miss Valentine spends the summer in Ashland, Mass., and will pursue her language studies in Boston. Miss Greene and Miss Nichols will have vacations at their homes in Westminster and Nichols.
