How well did General Electric meet its objectives last year?

GENERAL ELECTRIC has a three-fold responsibility—to the public, to its employees, and to its owners. The 1945 annual report, just printed, gives some indication of how well we met these objectives last year. General Electric's growth has come from new and better products for

Out of production efficiency have come higher wages, increased jobs, and the earnings needed to continue these gains. This year General Electric did not get off to as good a start as in 1945. But the objectives and aims of General Electric are the same and will

continue to be the same-to keep wages as high as possible, to keep prices down as far as possible, and to earn a fair profit. For a copy of General Electric's Annual Report and Yearbook for 1945, write Dept. 6-237, General Electric Company, Schenectady, N. Y.
